(b) *Time limit*—(1) *General.* Except as provided in subparagraph (2) of this paragraph, a period ending 1 year after the termination of the wars in which the United States is now engaged or 1 year after the effective date of retirement, whichever is later, is fixed for military reasons as the time during which transportation in kind authorized in paragraph (a) of this section, may be furnished for the commencing of sea travel of retired enlisted persons.

(2) *Exception; hospitalization.* If the individual is confined in a hospital undergoing medical treatment on the effective date of retirement and continuously therefrom in hospitals during the fixed period specified in subparagraph (1) of this paragraph, or beyond, the transportation in kind for sea travel may be furnished for such travel commencing within 60 days from the date of discharge from such medical treatment: *Provided*, That the application for transportation in kind is supported by a statement of the responsible medical officer certifying as to said extent of medical treatment. If transportation in kind is furnished by commercial vessel the original statement, annotated with the serial numbers of the transportation requests issued, will be sent by the transportation officer to the disbursing officer designated to pay the carrier's bill. A copy of the statement will be retained with the transportation officer's copy of the transportation request. No other copies of the statement are necessary.

§ 633.5 *Enlisted personnel upon discharge or relief or release from active duty*—(a) *Normal discharge or relief or release from active duty.* There is no authority of law for issuing a transportation request to an enlisted person on discharge or relief or release from active duty or any distance or which the law provides that such person receive travel pay at the rate of 5 cents per mile. See AR 35-2560.[1]

(b) *Discharge on account of fraudulent enlistment.* Transportation in kind will be furnished under the conditions set forth in AR 615-366.[2]

§ 633.5a *Cadets discharged from the United States Military Academy.* Cadets of the United States Military Academy upon being discharged from the service are not entitled to mileage (AR 35-3070), but are entitled to transportation in kind from the academy to their home, except that a cadet discharged for physical disability while in a hospital under orders is entitled to transportation in kind from the hospital to his home (1 Comp. Gen. 356), and that a cadet who is in a status of leave of absence from the United States Military Academy awaiting the result of a re-examination, and who is found deficient upon re-examination and ordered to be discharged, may be furnished transportation in kind from the point at which he receives notice of discharge to his home: *Provided*, That the cost of such transportation in kind is no greater than that from West Point, New York, to his home.

§ 633.5b *Military personnel separated from active service under conditions other than honorable.* Any member of the military forces who is hereafter separated from active service under conditions other than honorable may be furnished transportation in kind at Government expense from the place of separation from active service to the place at which he entered upon active service or home of record: *Provided*, That no transportation will be furnished under this section to any person who is

in confinement pursuant to sentence of a civil court at the time of separation from active service.

§ 633.6 *Remains*—(a) *For whom transportation authorized and expenses allowable.* See AR 30-1830 and §§ 536.51 to 536.53 of this chapter.

(b) *From points outside continental limits of United States, including Alaska, to ports of debarkation in continental limits of United States, exclusive of Alaska, for interment therein.* See paragraph (c) of this section.

(1) *Remains.* Government means of transportation will be utilized wherever possible for the shipment of remains from points outside the continental limits of the United States, including Alaska, to ports of debarkation in the continental limits of the United States, exclusive of Alaska. For any distance that the foregoing prescribed means of transportation cannot be used or is considered impracticable shipment may be made by the most economical means of commercial transportation.

(2) *Attendants*—(i) *Relative.* Subject to subparagraph (3) of this paragraph transportation including berth when an extra charge is made therefor may be furnished one relative in the capacity of an attendant to the remains of each person from the place of death or an intermediate point to the port of debarkation in the continental limits of the United States exclusive of Alaska and return to point at which such attendant assumed the custody of remains.

(ii) *Persons in military service.* No military attendant will be furnished for any portion of the journey where a relative acts in that capacity. In any case where the relative attendant will not accompany the remains for the entire distance, a military attendant will be furnished to accompany the remains for that portion of the journey where the remains will not be accompanied by such relative, except as provided in the exception stated below.

Exception: Where the remains are to be shipped by Army facilities for any portion of the distance to the port of debarkation in the continental limits of the United States, exclusive of Alaska, and the commanding officer at the place of death does not have a military attendant available for the complete journey, he will provide a military attendant only to the port of embarkation outside the continental limits of the United States, including Alaska, at which trans-shipment is made on the Army facility. The attendant will deliver the remains and all accompanying papers to the Army representatives at the port who will be responsible for delivering them to the ship transportation agent aboard the Army vessel, or to the flight clerk aboard the Army aircraft when such mode of transportation is utilized. In the event that there are no United States Army representatives at the port, the custody and responsibility of the remains and all accompanying papers will remain with the attendant until such time as he can deliver them to the ship transportation agent, or to the flight clerk, as the case may be.

(3) *Dependents of certain deceased.* Where transportation is furnished for dependents when specifically authorized under the provisions of § 633.1 (a), the commanding officer will determine in each case whether a dependent can act in the capacity of an attendant to the remains. If a dependent acts in that capacity, no other attendant will be furnished. See subparagraph (2) of this paragraph.

(c) *From ports of debarkation or place of death to place of interment all within continental limits of United States, exclusive of Alaska*—(1) *Methods.* (i) By express, without an attendant (AR 55-155); or

(ii) As baggage on a transportation request, with an attendant.

(2) *By whom method determined.* The method of shipment will be determined by the commanding officer having jurisdiction of the place at which death occurs or of the port of debarkation, who will conform as far as practicable to the wishes of the relatives.

(3) *When shipped as baggage on transportation request*—(i) *Attendants*—(*a*) *Relative.* Subject to paragraph (b) (3) of this section, transportation and authorized sleeping-car or similar accommodations prescribed in TM 55-525 and § 633.15, may be furnished to a relative in the capacity of an attendant to the remains of each person from place of death or the port of debarkation, or an intermediate point, to the place of interment within the continental limits of the United States, exclusive of Alaska, and return to point at which such attendant assumed the custody of remains.

(*b*) *Persons in military service.* When no relative is furnished transportation from the place of death or the port of debarkation in the United States, one military attendant to the remains of one or more persons to the same destination will be provided from such place or port to the place of interment within the continental limits of the United States, exclusive of Alaska, or to an intermediate point from which a relative will act as attendant for the remaining journey. The selection of the military attendant will rest with the commanding officer, but will in general be of a status corresponding to the former status of the deceased, that is, the attendant for a commissioned officer will be an officer; for a cadet, United States Military Academy, a cadet; for a member of the Army Nurse Corps, an Army nurse; for an enlisted man, an enlisted man, etc.

(ii) *Transfers en route.* The transportation request for remains and attendant will be issued through from point of origin to destination regardless of any transfers involved between carriers' stations en route, but no indorsement will be made on the transportation request to cover such transfers of the remains. The carrier's agent will check the remains through from origin to destination. The baggage agent will make the arrangements for transfer. The attendant will sign a receipt to the baggage agent covering the transfer service, but the attendant will not pay therefor. The bills, if a charge is made for the transfer service, supported by these receipts will be submitted by the accounting department of the carrier to the Finance Officer, U. S. Army, Transportation Division, Washington 25, D. C., for payment of any amount properly due.

(4) *Local delivery at destination.* See AR 30-1830 and §§ 536.50 to 536.53, of this chapter.

(d) *Between points outside continental limits of United States, including Alaska, where through journey involves debarkation and embarkation at ports in continental limits of United States, exclusive of Alaska*—(1) *From place of death to port of debarkation in continental limits of United States, exclusive of Alaska.* All the provisions of paragraph (b) of this section will apply except those set forth in subparagraph (3) of paragraph (b) with respect to dependents. Where transportation is furnished for dependents when specifically authorized under the provisions of the "Missing Persons Act" and AR 55-121 in connection therewith, the commanding officer will determine in each case whether a dependent can act in the capacity of an attendant to the remains. If a dependent acts in that capacity, no other attendant will be furnished.

(2) *From port of debarkation to port of embarkation, all within continental limits of United States exclusive of Alaska.* Upon receipt of particulars from the commanding officer at the place of death, the commanding officer of the port of debarkation in the continental limits of the United States, exclusive of Alaska, will make request on the Chief of Transportation for instructions with respect to shipment of the remains to the port of embarkation in the continental limits of the United States, exclusive of Alaska, for further shipment. Upon receipt of instructions from the Chief of Transportation, the commanding officer of the foregoing port of debarkation will issue necessary orders covering the shipment. The commanding officer of the foregoing port of debarkation will furnish the commanding officer at the foregoing port of embarkation with all particulars and request that further orders be issued covering further shipment from that port.

(3) *From port of embarkation in continental limits of United States, exclusive of Alaska, to place of interment outside continental limits of United States, including Alaska.* All the provisions of paragraph (c) of this section will apply, substituting the words "the commanding officer of the port of embarkation in the continental limits of the United States, exclusive of Alaska" for the words "the commanding officer at the place of death" wherever the latter words as quoted appear therein.

(e) *Between points outside continental limits of United States, including Alaska, where through journey does not involve debarkation and embarkation at ports in continental limits of United States, exclusive of Alaska*—(1) *Remains.* Government means of transportation will be utilized wherever possible for shipment of remains. For any distance that the foregoing prescribed means of transportation cannot be used, or are considered im-

practicable, shipment may be made by the most economical means of commercial transportation.

(2) *Attendants.* An attendant will be furnished for the complete journey.

(i) *Relative.* Subject to subparagraph (3) of this paragraph, transportation, including berth when an extra charge is made therefor, may be furnished one relative in the capacity of an attendant to the remains of each person from the place of death or an intermediate point to the place of interment, and return to point at which such attendant assumed the custody of the remains.

(ii) *Persons in military service.* A military attendant will be furnished for any portion of the journey where a relative does not act in that capacity.

(3) *Dependents of certain deceased.* Where transportation is furnished for dependents when specifically authorized under the provisions of the "Missing Persons Act" and AR 55–121 in connection therewith, the commanding officer will determine in each case whether a dependent can act in the capacity of an attendant to the remains. If a dependent acts in that capacity, no other attendant will be furnished for that portion of the journey.

§ 633.7 *Checkable personal baggage*—(a) *Definition.* (1) Checkable personal baggage consists in general of trunks and the hand baggage usually carried by travelers.

(2) Railroad tariffs contain a provision that baggage must be enclosed in receptacles provided with handles or other suitable means for attaching checks. When tendered to carriers for transportation as checked baggage, trunk lockers or other receptacles without handles will either be provided with securely fastened handles or will be bound securely around both lengths with rope.

(b) *Weight of baggage usually carried free.* Tickets issued by carriers usually, though not always, provide for the free carriage of 150 pounds of baggage. (See also paragraph (d) of this section.)

(c) *When less than 100 pounds carried free.* When the tickets obtainable by enlisted men and applicants for enlistment provide for the free carriage of less than 100 pounds of baggage, the transportation request will provide for the transportation of sufficient excess baggage to make a total of free and excess not to exceed 100 pounds per man, except that on commercial aircraft the provisions of paragraph 3 of AR 55–120.[1]

(d) *On transoceanic or Alaska voyages*—(1) *Allowance by the rail carriers and certain steamship lines.* Under the terms and conditions set forth in the Joint Military Passenger Agreement with the rail carriers and certain steamship lines in the continental United States, exclusive of Alaska, a free allowance of 350 pounds of personal baggage on an adult ticket and 175 pounds on a child's half-fare ticket, of all classes, except special coach tickets, will be transported by the carriers parties to that agreement, for the following classes of traffic presenting tickets purchased for cash or issued in exchange for Department of the Army transportation requests, when traveling in the United States on such tickets to or from ports en route to or from oversea points as indicated in subdivisions (i), (ii), (iii), of (iv) of this subparagraph, regardless of whether the passengers use Government or commercial facilities between such ports and oversea points:

(i) En route to or from trans-Pacific points via Atlantic or Gulf ports, or via Pacific ports: All military personnel; authorized dependents of military and civilian personnel for whom transportation is authorized by the Department of the Army; civilian employees (including laborers) of the Department of the Army; and employees of the American Red Cross transported at the expense of the Department of the Army.

(ii) Ordered to or detached from duty at stations in Alaska when traveling to or from a Pacific port: Commissioned officers and warrant officers.

(iii) Ordered to or detached from duty at trans-Atlantic stations when traveling to or from an Atlantic port (see subdivision (vi) of this subparagraph): Commissioned officers and warrant officers.

(iv) En route to or from all points outside the continental limits of the United States not covered by subdivision (i) of this subparagraph, via Atlantic or Gulf ports, or en route to or from points in Alaska via Pacific, Atlantic, or Gulf ports (see subdivision (vi) of this subparagraph). Authorized dependents of military and civilian personnel for whom transportation is authorized by the Department of the Army.

(v) Provisional reduction: The foregoing is based upon the commercial allowance in connection with trans-Pacific transportation, as prescribed in current tariffs, and if such allowance is hereafter reduced, the baggage allowance authorized above will be correspondingly reduced.

(vi) Expiration date of provisions covering free allowance via Atlantic or Gulf ports: Under the terms and conditions of the above-mentioned Joint Military Passenger Agreement, the provisions outlined in subdivisions (iii) and (iv) of this subparagraph covering free allowance via Atlantic or Gulf ports will expire 6 months after the termination of the war as officially proclaimed by the President or the Congress of the United States.

(2) *Allowance by bus carriers.* Under the terms and conditions set forth in the Joint Bus Military Agreement with certain commercial bus carriers in the continental United States, exclusive of Alaska, the same amounts of personal baggage, for the same classes of traffic and under the same conditions as authorized by the rail carriers and set forth in subparagraph (1) of this paragraph, will be transported by the bus carriers parties to that agreement, and on all classes of trans-Atlantic or trans-Pacific traffic not included in subparagraph (1) of this paragraph, free allowance of 200 pounds of personal baggage will be allowed by the bus carriers on an adult ticket and 75 pounds on a child's half-fare ticket, as prescribed in current tariffs, and if such allowance is hereafter reduced, the baggage allowance authorized by the agreement will be correspondingly reduced.

(3) *Method of obtaining the free allowance.* In order to obtain the weight allowance of baggage authorized in subparagraphs (1) or (2) of this paragraph, outbound passengers will present to the baggage agent, at the time the baggage is offered for checking, a through ticket to the port of embarkation and a copy of travel orders or other official document issued by competent United States Government authority, under the authority of which the person is traveling, showing that the traveler is en route to the applicable points designated in subparagraph (1) (i), (ii), (iii), or (iv) of this paragraph, as the case may be, by Government or commercial facilities beyond such port. Similarly, inbound passengers will present to the baggage agent, at the time the baggage is offered for checking, a through ticket from the port of entry to destination and a copy of travel orders or other official document issued by competent United States Government authority, under the authority of which the person is traveling, showing that the traveler has arrived by Government or commercial facilities en route from the applicable points designated in subparagraph (1) (i), (ii), (iii), or (iv) of this paragraph, as the case may be.

(4) *Restrictions.* The foregoing provisions are subject to any restrictions of the Department of the Army which may be currently applicable regarding personal property or equipment which may be taken to or from oversea points or Alaska.

§ 633.8 *Transportation of authorized baggage*—(a) *When shipment authorized*—(1) *Disabled enlisted personnel.* Any enlisted person of the first, second, third, or fourth grade, from his last duty station to his home, who having 10 or more years' service in the Army is discharged on account of disability incurred in the line of duty, but no excess weight will be shipped. See sec. 1, act. of August 29, 1916 (39 Stat. 633; 10 U. S. C. 823)

(2) *Upon decease.* The effects of officers, including officers of the Army of the United States; Reserve officers; Women's Army Corps officers; officers of the National Guard of the United States; Army nurses; dietitians, physical therapy aides, and commissioned technical and professional female personnel of the Medical Department; warrant officers; flight officers; cadets, United States Military Academy; aviation cadets; or enlisted personnel; or civilian employees who die in the service may be shipped from their last duty stations and/or places of storage to such places as may be the homes of their legal heirs. The term "die in the service" as used in this subparagraph includes also death within the period of 1 year after date of retirement of such persons, excepting civilian employees, whose effects had not been previously shipped in connection with their retirement. The term "effects" as used in this subparagraph means household goods and other personal property, including personal effects, and professional books and papers, but without limitation as to weight; but it does not include automobiles. Shipment will not be made in separate lots to any one heir from any one shipping point.

(b) *When shipment not authorized.* Shipment of baggage at Government expense is not authorized in the following cases: upon reinstatement or reappointment, upon resignation or for officers at the time of honorable discharge.

§ 633.15 *Sleeping car and similar accommodations* — (a) *Allowances* — (1) *Through accommodations.* When sleeping-car accommodations are authorized in this part, the transportation requests will be issued for the accommodations authorized, from starting point to destination unless only coach service is operated at the beginning or end of the journey.

(2) *Standard accommodations; persons entitled to.* (i) Subject to the provisions of paragraphs (b) and (c) of this section, regarding patients and their attendants, the following-named persons, when traveling under orders, are entitled at public expense to a lower berth in a standard sleeping car, or a seat in a sleeping car or parlor car: *Provided,* That whenever they travel in groups comprised of such persons on journeys involving night travel, and the number of persons included in a particular group is sufficient to justify the utilization of a special standard sleeping car for their accommodation (see paragraph (e) of this section), each person included in the group will be furnished a lower berth in such car, except that if there are more than a sufficient number of persons to occupy all the lower berths in the entire car, then the remaining persons will be furnished an upper berth each in the same car. Whenever civilian employees entitled to a lower berth in a standard sleeping car, under the provisions of Department of the Army Civilian Personnel Regulations No. 155, are included in a group together with any of the following-named persons, and the total number in the group is sufficient to justify the utilization of a special standard sleeping car(s) for their accommodation, the civilian employees will be furnished berth accommodations on the same basis as that prescribed above for the other persons included in the group.

(*a*) Members of the Reserve Officers' Training Corps while traveling, except by organizations, to and from camps of instruction, when not paid travel allowances.

(*b*) Relative acting as attendant to remains, and return of attendant when required, under the provisions of Army Regulations.

(*c*) Cadets discharged from the United States Military Academy who are authorized to be furnished transportation in kind under the provisions of AR 55–120. (See also subdivision (ii) of this subparagraph.)

(ii) Cadets, United States Military Academy, when traveling under orders, are entitled at public expense to the accommodations prescribed in the following subdivisions on the basis set forth therein. (See subdivision (i) (c) of this subparagraph for cadets discharged from the United States Military Academy.)

(*a*) Sleeping accommodations: Except as provided in (*c*) of this subdivision, when the journey exceeds 12 hours and is scheduled to terminate after midnight, or when journey involves spending night on train, cadets traveling individually, or included in groups of 14 cadets or less, will be furnished a berth in a standard sleeping car, a lower if available, otherwise an upper. Groups of 15 cadets or more will be furnished standard sleeping-car accommodations on the basis of sections, 2 cadets to a section (one lower and one upper berth), the "odd number" cadet, if any, to be furnished a lower standard berth.

(*b*) Seating accommodations: Except as provided in (*c*) of this subdivision, for journeys other than those set forth in (*a*) of this subdivision, cadets traveling individually, or included in groups of 14 cadets or less, will be furnished seats in a sleeping car or parlor car. Groups of 15 cadets or more will be furnished coach accommodations only.

(*c*) Exceptions to (*a*) of this subdivision: Cadets traveling as patients will be furnished the accommodations prescribed in paragraphs (b) and (c) of this section.

(iii) Aviation cadets; noncommissioned officers of first grade: Subject to the provisions of paragraphs (b) and (c) of this section regarding patients and their attendants, aviation cadets and noncommissioned officers of first grade, when traveling under orders, are entitled at public expense to the accommodations prescribed in the following subdivisions on the basis set forth therein.

(*a*) Sleeping accommodations: When the journey exceeds 12 hours and is scheduled to terminate after midnight, or when journey involves spending night on train, aviation cadets and noncommissioned officers of first grade traveling individually, or included in groups of 4 persons or less consisting of aviation cadets and/or noncommissioned officers of first grade, will be furnished a berth in a standard sleeping car, a lower if available, otherwise an upper, and groups of 5 persons or more consisting of aviation cadets and/or noncommissioned officers of first grade will be furnished standard sleeping-car accommodations on the basis of sections, 2 persons to a section (one lower and one upper berth), the "odd number" person, if any, to be furnished a lower standard berth. When aviation cadets and/or noncommissioned officers of first grade are included in the same group with any number of enlisted persons below the first grade and/or applicants or rejected applicants for enlistment the sleeping-car accommodations prescribed in subparagraph (3) of this paragraph will be furnished.

(*b*) Seating accommodations: For journeys other than those set forth in (*a*) of this subdivision, aviation cadets and noncommissioned officers of first grade will be furnished with seats in a sleeping car or parlor car when they are traveling individually, or are included in groups of 14 persons or less consisting of aviation cadets and/or noncommissioned officers of first, and/or second and/or third grades. Aviation cadets and noncommissioned officers of first grade will be furnished only coach accommodations when they are included in groups of 15 persons or more consisting of aviation cadets and/or noncommissioned officers of first and/or second and/or third grades, and when they are included in the same group with any number of enlisted persons below the third grade and/or applicants or rejected applicants for enlistment.

(iv) Noncommissioned officers of second and third grades: Subject to the provisions of paragraphs (b) and (c) of this section regarding patients and their attendants, noncommissioned officers of second and third grades, when traveling under orders, are entitled at public expense to the accommodations prescribed in the following subdivisions on the basis set forth therein.

(*a*) Sleeping accommodations: The foregoing noncommissioned officers will be furnished an upper berth in a standard sleeping car when they are accompanying dependents whose transportation is authorized at public expense, and such authorized dependents are furnished sleeping-car berth accommodations under the provisions of subdivision (vi) of this subparagraph. See subparagraph (3) of this paragraph for accommodations authorized when not accompanying dependents.

(*b*) Seating accommodations: When berth accommodations are not authorized under (*a*) of this subdivision or subparagraph (3) of this paragraph, noncommissioned officers of second and third grades will be furnished with seats in a sleeping car or parlor car when they are traveling individually, or are included in groups of 14 persons or less consisting of aviation cadets and/or noncommissioned officers of first and/or second and/or third grades. Noncommissioned officers of second and third grades will be furnished only coach accommodations when they are included in groups of 15 or more persons consisting of aviation cadets and/or noncommissioned officers of first and/or second and/or third grades, and when they are included in the same group with any number of enlisted persons below the third grade and/or applicants or rejected applicants for enlistment.

(v) Enlisted persons below third grade: Enlisted persons below third grade will be furnished an upper berth in a standard sleeping car, or a seat in a sleeping car or parlor car, when they are accompanying dependents whose transportation is authorized at public expense, and such authorized dependents are furnished berth or seat accommodations under the provisions of subdivision (vi) of this subparagraph. See subparagraph (3) of this paragraph for accommodations authorized when not accompanying dependents.

(vi) Dependents: Wives, dependent children, and dependent fathers and mothers whose transportation is authorized by AR 55–120 are entitled to seats in a sleeping car or parlor car on the basis of one individual seat for each person, or to berths in a standard sleeping car on the following basis, regardless of the accommodations to which the indi-

vidual changing station may be entitled under the provisions of this section (dependents, other than wives, children, fathers, or mothers, whose transportation may be authorized under the "Missing Persons Act" by AR 55–121 are entitled to seats in a sleeping car or parlor car, or to berth accommodations in a standard sleeping car on the same basis as prescribed in this section for a dependent father or dependent mother).

(a) One lower berth for:
Wife.
Dependent father.
Dependent mother.
Child alone.
Wife and child under 6 years of age.
Wife and female child over 6 years of age.
Two children, same sex.
Two children, opposite sex, both under 6 years of age.

(b) One section, or separated lower and upper berths for:
Wife and one child, male, over 6 years of age.
Wife and two children.
Two children, opposite sex, one or both over 6 years of age.

(c) When the number of children exceeds two, accommodations for the additional children will be provided on the basis prescribed above for the first two children.

(d) If a lower berth is not available under (a) and (b) of this subdivision, one upper berth may be furnished to each individual.

(e) The foregoing allowance is based on all the dependents traveling together at the same time. If the dependents travel separately and the total allowance becomes exhausted through being furnished the accommodations and/or by claiming monetary allowance in lieu thereof (AR 55–120), no further accommodations may be furnished.

(vii) In certain other cases, as prescribed in this section, standard accommodations may be furnished when other kind of accommodations are not available.

(3) *Tourist accommodations; persons entitled to whenever available.* Subject to the provisions of paragraphs (b) and (c) of this section regarding patients and their attendants, the persons named in this section, when traveling under orders are entitled at public expense to the sleeping-car accommodations in accordance with prescribed regulations when journey exceeds 12 hours and is scheduled to terminate after midnight, or when journey involves spending night on train.

(i) Aviation cadets and noncommissioned officers of first grade when included in the same group with any number of enlisted persons below the first grade and/or applicant or rejected applicants on enlistment.

(ii) Enlisted persons below the first grade when not accompanying authorized dependents (see subparagraph (2) (iv) and (v) of this paragraph).

(iii) Applicants or rejected applicants for enlistment.

(4) *Transportation of aliens and other persons evacuated from military areas.* The lowest class of transportation by the facility used will be furnished aliens or other persons evacuated from military areas pursuant to the provisions of Executive Order No. 9066 (3 CFR Cum. Supp.), except that where transportation is by rail carriers and the journey involves spending two nights or more on the train, sleeping-car accommodations will be furnished as prescribed in subdivisions (i) and (ii) of this subparagraph for the entire distance from point of origin to destination only for all children under 14 years of age and females who may be included in a movement.

(i) Fourteen persons or less: When the total number of children under 14 years of age and females included in a particular movement is 14 or less, sleeping-car accommodations will be furnished in tourist sleeping cars of the regular section type, if available, otherwise in Pullman Company three-tier tourist sleeping cars, if available; otherwise in standard sleeping cars of the regular section type. Each person assigned to space in a Pullman Company three-tier tourist sleeping car will be furnished an individual tier berth, and persons assigned to space in sleeping cars of the regular section type will be furnished berth accommodations on the following basis:

(a) A mother with her child or children under 14 years of age or a woman in charge of a child or children under 14 years of age, as prescribed for a wife and child or children in subparagraph (2) (vi) of this paragraph. (See also (d) and (e) of this subdivision.)

(b) Other women 50 years of age and over, a separate lower berth for each. (See (d) and (e) of this subdivision.)

(c) Other females 14 years of age and over, and under 50 years, two persons to a lower berth, the "odd number" persons, if any, to be furnished an upper berth. If an upper berth is not available for the "odd number" person, she will be furnished a lower berth. (See (d) and (e) of this subdivision.)

(d) Where lower berths or a sufficient number thereof are not available, one upper berth will be furnished each individual to the extent that lower berths are not available on the basis set forth in (a), (b) and (c) of this subdivision.

(e) The alternative allowances (upper or lower berths; tourists or standard accommodations) provided for in this subdivision contemplate furnishing the most economical accommodations available on the train (and connecting trains en route) and authorized. The higher cost berths and accommodations will be utilized only to the extent that those of lower cost are not available.

(ii) Fifteen persons or more: (a) Kind of accommodations to be furnished. When the total number of children under 14 years of age and females included in a particular movement is 15 or more, they will be furnished accommodations in a tourist sleeping car or non-air-conditioned standard sleeping car substituted therefor, of the regular section type; *Provided*, That whenever a special sleeping car of the foregoing kind and type cannot be made available by the carriers, they will be furnished accommodations in the kind and type of special sleeping car which can be made available at the time the movement takes place.

The order of precedence in which special sleeping cars will be furnished by the carriers, according to availability, and the order of precedence in which such cars will be utilized when it is necessary for the carriers to furnish more than one kind of sleeping car for a particular movement, is prescribed in the current Joint Military Passenger Agreement.

(b) *Physically disabled patients not traveling in a mileage status*—(1) *Kind of accommodations.* It will be the policy to furnish accommodations for physically disabled patients, and any authorized attendants while accompanying such patients, in air-conditioned sleeping cars or air-conditioned parlor cars whenever possible under the conditions set forth in this paragraph, in cases where United States Army hospital cars are not used. The term "physically disabled patients" as used in this paragraph includes evacuees under Executive Order No. 9066 (3 CFR Cum. Supp.), but it does not include dependents in view of decision of the Comptroller of the Treasury (27 Comp. Dec. 1042) that no extra traveling expenses occasioned by disability will be paid by the Government in the case of dependents. No air-conditioned accommodations will be requested for attendants while not actually accompanying physically disabled patients but in such circumstance they will be furnished any authorized accommodations to which they be entitled for normal travel under the provisions of this section.

(i) Except as set forth in subdivision (ii) of this subparagraph, physically disabled patients in movements of less than 15 persons (patients, including attendants) will be furnished one lower berth each or one upper berth each, whichever may be determined by the responsible medical officer. For persons (patients) restricted to tourist accommodations whenever available, under the provisions of this section the berths will be requested in sleeping cars, air-conditioned tourist where operated, otherwise air-conditioned standard where operated for the distance that such tourist is not operated. Where no air-conditioned sleeping cars of either kind are operated for any portion of the distance, the berths will be requested for such distance in non-air-conditions standard where operated. For persons (patients) entitled to standard accommodations, under the provisions of this section, the berths will be requested in air-conditioned standard sleeping cars where operated and in non-air-conditioned standard where operated for any portion of the distance that such air-conditioned cars are not operated. The foregoing shall not be construed to require a change of cars other than at the terminus of the car occupied. Whenever the condition of a physically disabled patient warrants the use of a seat and daylight sleeping-car or parlor-car schedules are available and adequate, as determined by the responsible medical officer, each such patient will be furnished a seat in such sleeping car or parlor car, observing the same rules with respect to air-conditioned cars as apply above to furnishing a berth. Attendants will be provided for such physically disabled patients whenever the responsible medical officer determines that such is necessary. Regardless of grade or status, attendants will be furnished accommodations in the same car with the patients, a seat in the case of seat service, or the berth accommodations to which they are entitled under the provisions of this section, in the case of berth service.

(ii) Whenever a physically disabled patient in movements of less than 15 persons (patients, including attendants) may be expected to be noisy, ill-mannered, unpresentable, or otherwise objectionable to the public, or is in such physical condition as to require exclusive accommodations, the responsible medical officer will furnish the transportation officer issuing the transportation request a certificate, in duplicate, stating that the condition of the patient(s) requires exclusive accommodations. Attendants will be provided at all times for such physically disabled patients. Accommodations will be furnished for such physically disabled patients and their attendants in drawing rooms in air-conditioned parlor cars or in roomettes, bedrooms, compartments, or drawing rooms in air-conditioned sleeping cars, where such air-conditioned cars are operated; otherwise such room accommodations will be furnished in nonair-conditioned parlor or sleeping cars, where operated. The responsible medical officer, in coordination with the transportation officer, will determine in each case the number of attendants required, the class of accommodations required (that is, roomettes, bedrooms, compartments, or drawing rooms, whichever is the most economical available and meets the needs), and the total number of persons (physically disabled patients and attendants), not less than two, to occupy each double bedroom, compartment, or drawing room. Superior room accommodations will not be requested in any case where lower class room accommodations are adequate and available.

(c) *Insane patients not traveling in a mileage status*—(1) *Kind of accommodations.* It will be the policy to furnish accommodations for insane patients, and attendants while accompanying such patients, in air-conditioned sleeping cars or air-conditioned parlor cars whenever possible under the conditions set forth in this paragraph, in cases where United States Army hospital cars are not used. The term "insane patients" as used in this paragraph means patients who are insane or who are undergoing observation for insanity or mental disorders. The term includes evacuees under Executive Order No. 9066 (3 CFR Cum. Supp.), but it does not include dependents (27 Comp. Dec. 1042). No air-conditioned accommodations will be requested for attendants while not actually accompanying insane patients but in such circumstances they will be furnished any authorized accommodations to which they may be entitled for normal travel under the provisions of this section.

(d) *Attendants with remains.* Attendants accompanying remains will be furnished the authorized accommodations to which entitled, except that transportation requests for parlor-car or sleeping-car accommodations will not be furnished for officer attendants, or other attendants entitled to the same mileage allowances, traveling in a mileage status.

(e) *Utilization of special sleeping cars or parlor cars.* Special sleeping cars or parlor cars will be utilized only when the expense does not exceed the cost of berths and seats authorized to be furnished. See the current Joint Military Passenger Agreement.

(f) *Receipt for accommodations furnished.* Travelers will be informed of the pertinent requirements of AR 55–110. Whenever the face of the transportation request is indorsed by the transportation officer, "Tourist whenever available," the traveler will be instructed to indorse over his signature in the space provided on the back of the request a statement as to the points between which tourist accommodations are furnished. In case tourist accommodations become available en route and the transportation request cannot be indorsed on account of its having been lifted by the agent or by the first conductor (there having been a change of conductors), then the traveler will promptly forward the statement to the disbursing officer designated to pay the carrier's bill. The statement will also cite the serial number of the transportation request. Travelers will be instructed to advise the foregoing disbursing officer promptly whenever the accommodations used are less than those called for by sleeping-car or parlor-car tickets or transfer tickets.

(g) *Accommodations at variance with transportation request.* Procurement from a carrier on a transportation request of excess space of a lower class than that called for by the request is prohibited, even though no additional cost to the Government is involved; for example, two lower tourist berths in lieu of a double berth in a standard sleeping car or seats in a parlor car in lieu of berths.

NOTICES

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNERS EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice of issuance of special certificates for the employment of learners under the Fair Labor Standards Act of 1938.

Notice is hereby given that special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rate applicable under section 6 of the act have been issued to the firms hereinafter mentioned under section 14 of the act, Part 522 of the regulations issued thereunder (August 16, 1940, 5 F. R. 2862, and as amended June 25, 1942, 7 F. R. 4725), and the determinations, orders and/or regulations hereinafter mentioned. The names and addresses of the firms to which certificates were issued, industry, products, number of learners, learner occupations, wage rates, learning periods, and effective and expiration dates of the certificates are as follows:

Regulations, Part 522—Regulations Applicable to the Employment of Learners.

Caribbean Optical Mfg. Co., Carolina, Puerto Rico; to employ 200 learners in the occupation of assembling sun glasses for a period not in excess of 12 months at not less than 25 cents per hour for the first four months, not less than 30 cents per hour for the second four months, and not less than 35 cents per hour for the third four months. The certificate is effective September 24, 1948, and expires September 23, 1949.

Puerto Rico Hosiery Mills, Inc., Arecibo, Puerto Rico; to employ 100 learners in the full-fashioned hosiery industry, as follows: 35 learners as knitters and 15 as loopers at not less than 20 cents an hour for the first 480 hours; not less than 25 cents an hour for the second 480 hours; and not less than 30 cents an hour for the third 480 hours; and 30 learners as seamers at not less than 20 cents an hour for the first 480 hours and not less than 30 cents an hour for the second 480 hours; and 5 learners as menders at not less than 25 cents an hour for a learning period not to exceed 480 hours; and 15 learners as examiners at not less than 25 cents an hour for a learning period not to exceed 240 hours. This certificate is effective August 30, 1948 and expires February 5, 1949.

Manati Pearl Works, Inc., Manati, Puerto Rico; to employe 139 learners in the pearl button industry, as follows: 40 learners in the occupation of cutters for a learning period not exceeding 640 hours; 8 learners in the occupation of belt grinders for a learning period not exceeding 200 hours; 12 learners in the occupation of Barry machine operators for a learning period not exceeding 200 hours; 10 learners in the occupation of convex grinders for a learning period not exceeding 200 hours; 51 learners in the occupation of hand assorters for a learning period not exceeding 320 hours; 20 learners in the occupation of hand machine operators for a learning period not exceeding 200 hours; and 2 learners in the occupation of polishers for a learning period not exceeding 200 hours. The learners authorized to be employed under this certificate must be paid during their learning periods a rate not less than 75 percent of the applicable minimum rate of pay. This certificate is effective October 19, 1948, and expires April 18, 1949.

The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of the applicable determinations, orders and/or regulations cited above. These certificates have been issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of regulations, Part 522.

Signed at Washington, D. C. this 9th day of November, 1948.

ISABEL FERGUSON,
Authorized Representative of the Administrator.

Bureau of Land Management

[Misc. 30764]

CALIFORNIA

CLASSIFICATION ORDER

OCTOBER 26, 1948.

1. Pursuant to the authority delegated to me by the Director, Bureau of Land Management, by Order No. 319 dated July 19, 1948 (43 CFR 50.451 (b) (3) 13 F. R. 4278), I hereby classify under the small tract act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467, 43 CFR section 682a), as hereinafter indicated, the following described land in the Los Angeles, California, land district, embracing 290 acres.

CALIFORNIA SMALL TRACT CLASSIFICATION NO. 96

For lease and sale for all purposes mentioned in the act except business:

T. 1 N., R. 6 E., S. B. M.,
Sec. 14: S½NE¼SW¼, SW¼NW¼SW¼, E½SE¼NW¼SW¼, NE¼SW¼SW¼, N½NW¼SW¼SW¼, N½SE¼SW¼.
Sec. 22: W½SW¼NE¼, SW¼NW¼NW¼, W½SW¼NW¼, NE¼SW¼NW¼, W½SE¼SW¼NW¼, E½SE¼NW¼, N½NE¼NE¼SW¼, SE¼NE¼SW¼, W½NW¼SW¼, W½E½NW¼SW¼, NW¼SW¼, NW½SW¼SW¼, N½SW¼SW¼, S½NE¼SE¼SW¼, NW¼NE¼SE¼, W½SW¼NE¼SE¼, E½E½NW¼SE¼, W½NW¼SE¼.
Sec. 28: S½SE¼NE¼.

2. As to applications regularly filed prior to 8:30 a. m. March 19, 1948, and are for the type of site for which the land is classified, this order shall become effective upon the date it is signed.

3. As to the land not covered by applications referred to in paragraph 2, this order shall not become effective to permit leasing under the small tract act until 10:00 a. m. on December 28, 1948. At that time such land shall, subject to valid existing rights, become subject to applications as follows:

(a) Ninety-day preference period for qualified veterans of World War II from 10:00 a. m. December 28, 1948, to the close of business on March 28, 1949.

(b) Advance period for veterans' simultaneous filings from 8:30 a. m., March 19, 1948, to the close of business on December 28, 1948.

4. Any of the land remaining unappropriated shall become subject to application under the small tract act by the public generally, commencing at 10:00 a. m. on March 29, 1949.

(a) Advance period for simultaneous nonpreference filings from 8:30 a. m. March 19, 1948, to the close of business on March 29, 1949.

5. Applications filed within the periods mentioned in paragraphs 3 (b) and 4 (a) will be treated as simultaneously filed.

6. All of the lands will be leased in tracts of approximately 5 acres, each being approximately 330 by 660 feet, the longer dimensions extending north and south, with the following exceptions, where the longer dimensions will extend east and west:

SW¼NW¼SW¼ and NW¼SW¼SW¼, Sec. 14; NE¼NE¼SW¼, NE¼SE¼SW¼, SW¼SW¼SW¼, Sec. 22.

7. Preference right leases referred to in paragraph 2 will be issued for the land described in the application irrespective of the direction of the tract, provided the tract conforms to or is made to conform to the area and the dimensions specified in paragraph 6.

8. Where only one five-acre tract in a 10-acre subdivision is embraced in a preference right application, an application for the remaining five-acre tract extending in the same direction will be accepted in order to fill out the subdivision notwithstanding the direction specified in paragraph 6.

9. Leases will be for a period of five years at an annual rental of $5.00 payable for the entire lease period in advance of the issuance of the lease. Leases will contain an option to purchase clause at the appraised value of $20.00 per acre, application for which may be filed at or after the expiration of one year from date the lease is issued.

10. Leases will be subject to such easements for road rights of way as may be necessary to permit ingress or egress by other lessees to or from other lands leased under authority of this order.

11. All inquiries relating to these lands should be addressed to the Acting Manager, District Land Office, Los Angeles, California.

L. I. HOFFMAN,
Regional Administrator.

SCRIPPS-HOWARD RADIO, INC. (WCPO) ET AL.

ORDER DESIGNATING APPLICATIONS FOR FURTHER HEARING ON STATED ISSUES

In re applications of Scripps-Howard Radio, Inc. (WCPO), Cincinnati, Ohio, Docket No. 6971, File No. BP-3898; Queen City Broadcasting, Inc., Cincinnati, Ohio, Docket No. 6972, File No. BP-4103; American Broadcasting Corporation (WLAP), Lexington, Kentucky, Docket No. 6973, File No. BP-4102; for construction permits.

Whereas, On March 4, 1948, the Commission adopted a decision in the above-entitled proceeding granting the application of American Broadcasting Corporation (WLAP), Lexington, Kentucky, and denying the applications of Scripps-Howard Radio, Inc. (WCPO), Cincinnati, Ohio, and Queen City Broadcasting, Inc., Cincinnati, Ohio; and

Whereas, On March 25, 1948, Scripps-Howard Radio, Inc. (WCPO) filed a petition for rehearing directed against that decision requesting that the Commission reconsider the decision and grant its application; and

Whereas, On March 25, 1948, Queen City Broadcasting, Inc., filed a petition for rehearing directed against the Commission's decision in this proceeding requesting (a) that the Commission reverse its decision and grant its application; or (b) that the Commission reopen the record in the proceeding to receive and consider full, complete, and accurate evidence with respect to (1) the radio service available in the Lexington, Kentucky, and Cincinnati, Ohio, areas, specifically, and the States of Ohio and Kentucky, generally, and (2), the proposal of petitioner to protect the primary service area of Station WSAV, Savannah, Georgia, or (c) that the Commission hold further argument on the issues presented by this cause; and

Whereas, On April 2, 1948, WSAV, Inc., intervener in this proceeding, filed a reply to the foregoing petitions for rehearing; and

Whereas, On April 5, 1948, American Broadcasting Corporation (WLAP) filed

oppositions to the foregoing petitions for rehearing; and

Whereas, It appears that the record in this proceeding does not contain sufficient evidence of the areas and populations proposed to be served by the applicants herein, the other services available to such areas and populations, and the interference problems involved, which the Commission can consider in making a determination, and that the record should, therefore, be reopened to receive such evidence; and

Whereas, in view of the foregoing the Commission concludes that the decision should be set aside; that the record in this proceeding should be reopened; and that a further hearing should be held;

Now, therefore, *It is ordered*, This 20th day of October 1948, that the foregoing petitions for rehearing, insofar as they request that the decision in this proceeding be vacated and set aside and that the record in this proceeding be reopened for further hearing, be, and they are hereby, granted; and

It is further ordered, That the Commission's decision of March 4, 1948, in the above-entitled proceeding be, and it is hereby, set aside and vacated, and that the record in this proceeding be, and it is hereby, reopened for further hearing, at Washington, D. C., on the 22d day of November 1948, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operations of the proposed stations and the character of other broadcast service available to those areas and populations.

2. To determine whether the operation of the proposed stations would involve objectionable interference with Stations WHKC, Columbus, Ohio, and WSAV, Savannah, Georgia, or with any other existing or proposed broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

3. To determine on a comparative basis from the record made at the further hearing and the record heretofore compiled in this proceeding, which, if any, of the applications in this consolidated proceeding should be granted.

FEDERAL TRADE COMMISSION

[21-416]

TRADE PRACTICE CONFERENCE PROCEEDINGS FOR MAIL ORDER INSURANCE INDUSTRY

NOTICE OF HOLDING OF TRADE PRACTICE CONFERENCE

At a regular session of the Federal Trade Commission held at its offices in the city of Washington, D. C., on the 12th day of November 1948.

Notice is hereby given that a Trade Practice Conference will be held by the Federal Trade Commission for the Mail Order Insurance Industry in the Hotel Stevens, Chicago, Illinois, on December 8, 1948, commencing at 10:00 a. m., c. s.t.

Such Mail Order Insurance Industry for which this conference is scheduled is composed of those persons, firms, corporations, associations and organizations engaged in that type of insurance business in which the sale of the insurance is promoted and effected through the use of the mails or other interstate communication or facility without the employment therein, within the state of the purchaser or prospective purchaser, of personal solicitation by licensed agents of the insurance company.

All persons or concerns engaged in such type of insurance business, whether in relation to life, health, accident, liability or other insurance, are cordially invited as members of the industry to attend or be represented at the conference and to take part therein.

The conference and further proceedings in the matter will be directed toward the eventual establishment and promulgation by the Commission of trade practice rules for the industry under which unfair methods of competition, unfair or deceptive acts or practices, or other trade abuses, may be eliminated and prevented.

By direction of the Commission.

The Philadelphia Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the 4½% Cumulative Convertible Preferred Stock, Series "B", $25 Par Value, of Sunray Oil Corporation, a security listed and registered on the New York Stock Exchange and the Los Angeles Stock Exchange.

Rule X-12F-1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to December 1, 1948, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

UNITED LIGHT AND RAILWAYS CO. ET AL.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 9th day of November A. D. 1948.

In the matter of The United Light and Railways Company, American Light & Traction Company, et al., File Nos. 59-11, 59-17, 54-25.

American Light & Traction Company ("American Light"), a registered holding company and a subsidiary of The United Light and Railways Company, also a registered holding company, having filed an application-declaration, and amendments thereto, in accordance with the applicable provisions of the Public Utility Holding Company Act of 1935 ("act") and the rules and regulations promulgated thereunder with respect to the following transactions:

On December 30, 1947 the Commission entered an order approving a plan filed by American Light and The United Light and Railways Company which provides, among other things, that during the year 1948 American Light will dispose of all of its interest in Detroit Edison. As a step in the consummation of said plan, American Light proposes to sell at competitive bidding, pursuant to the provisions of Rule U-50, the remaining 192,734 shares of the common stock of Detroit Edison owned by American Light. The application-declaration states that the proceeds received from the sale of said stock will be used to reimburse the treasury of American Light for cash expenditures made prior to date of the sale in connection with said section 11 (e) plan. To facilitate the distribution and offering of said stock applicants-declarants request authority to purchase on the New York Stock Exchange and Detroit Stock Exchange such number of shares of Detroit Edison within a specified period as may be necessary or appropriate to stabilize the price of such stock.

Said application-declaration also requests that the bidding period provided by Rule U-50 be shortened from 10 days to 6 days and that the order with respect to said application-declaration become effective forthwith; and

Appropriate notice of said filing of the application-declaration, as amended, and an opportunity to request a hearing with respect thereto having been duly given and the Commission not having received a request for a hearing with respect to said application-declaration within the period specified within said notice, or otherwise, and not having ordered a hearing thereon; and

The record being incomplete with respect to fees and expenses to be paid in connection with the proposed transactions and the Commission having in its order of December 30, 1947, reserved jurisdiction over accounting treatment with respect to the various transactions proposed in said section 11 (e) plan and the Commission deeming it appropriate to continue the jurisdiction heretofore reserved in its order of December 30, 1947, and to reserve jurisdiction over the fees and expenses to be paid in connection with the proposed sale of Detroit Edison stock; and

It appearing that after the proposed transaction American Light will no longer have any stock interest in Detroit Edison, and it further appearing that there will remain an interlocking directorate between American Light and Detroit Edison which applicant has not proposed to sever; and

It appearing necessary for the carrying out of Section 11 that complete divestment of American Light's interest in Detroit Edison should be accompanied by a severance of all interlocking directorates between such two companies; and

The Commission finding that, subject to the requirement that there be a severance of all interlocking directorates between American Light and Detroit Edison, no adverse findings are necessary with respect to the proposed sale of Detroit Edison, and deeming it appropriate in the public interest and in the interest of investors and consumers to grant said application-declaration, the request for shortening of the bidding period and the acceleration of the effectiveness of the Commission's order, subject to the conditions specified herein:

It is ordered, Subject to the terms and conditions prescribed in Rule U-24 of the general rules and regulations promulgated under the act, that the application-declaration, as amended, be, and it hereby is, granted and permitted to become effective forthwith, subject, however to the condition that the sale by American Light of 192,734 shares of the common stock of Detroit Edison shall not be consummated until the results of competitive bidding have been made a matter of record in these proceedings and a further order entered by this Commission in the light of the record so completed, which order may contain such further terms and conditions as may then be deemed appropriate, jurisdiction being hereby reserved for this purpose, and subject to the further condition that American Light and Traction Company file an amendment, prior to consummation of the proposed sale, agreeing that it will take or cause to be taken such action as will result in a severance of all interlocking directorates between it and Detroit Edison not later than the next annual meeting of stockholders of Detroit Edison.

It is further ordered, That the 10 day period for inviting bids as provided in Rule U-50 be, and hereby is, shortened to a period of not less than 6 days, that the jurisdiction heretofore reserved in the Commission's order of December 30, 1947, over the accounting treatment with respect to the transactions proposed in said application-declaration be, and it hereby is continued, and that jurisdiction is hereby reserved with respect to the fees and expenses to be paid in connection with the proposed sale of Detroit Edison stock.

By the Commission.

COMMONWEALTH & SOUTHERN CORP. ET AL.

ORDER GRANTING APPLICATIONS AND PERMITTING DECLARATIONS TO BECOME EFFECTIVE IN PART

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 10th day of November 1948.

In the matter of the Commonwealth & Southern Corporation (Delaware), Southern Indiana Gas and Electric Company, the Commonwealth & Southern Corporation (New York), File No. 70-1902.

The Commission having, on August 1, 1947, issued an order pursuant to section 11 (b) (1) of Public Utility Holding Company Act of 1935 (the "act") directing, among other things, that The Commonwealth & Southern Corporation (of Delaware), a registered holding company, hereinafter referred to as "Commonwealth", divest itself of its interest in Southern Indiana Gas and Electric Company ("Southern Indiana"), a direct public utility subsidiary of Commonwealth; and

Commonwealth, Southern Indiana, and The Commonwealth & Southern Corporation (of New York), a mutual service company subsidiary of Commonwealth, hereinafter referred to as "service company", having filed joint applications-declarations under the act concerning, among other things, the proposed sale of common stock of Southern Indiana, the divestment by Commonwealth of its interest in such company and Commonwealth's request for an exemption from the competitive bidding requirements of Rule-50 with respect to such divestment; and

A hearing having been held with respect to such applications-declarations, after appropriate notice, at which various representatives of Commonwealth's security holders appeared but raised no objections to Commonwealth's entering into negotiations for the sale of all of its holdings of the common stock of Southern Indiana, and the Commission having, by its order dated September 9, 1948, granted Commonwealth an exemption from the competitive bidding requirements of Rule U-50 with respect to such proposed sale and having deferred consideration and reserved jurisdiction with respect to all other aspects of the proposed sale; and

Commonwealth, Southern Indiana and service company having filed amendments to the joint applications declarations heretofore filed in this matter pursuant to sections 6 (a), 7, 9 (a), 10, 12 (c), 12 (d) and 12 (f) of the act and Rules U-42, U-43 and U-44 thereunder regarding the following proposed transactions:

(1) Southern Indiana proposes to amend its Articles of Reorganization so as to increase the authorized number of its shares of no par common stock from 500,000 to 1,500,000 shares and thereupon to change the number of shares now outstanding, all of which are presently owned by Commonwealth, from 400,000 shares to 600,000 shares, without any change, however, in the amount of capital represented thereby.

(2) Commonwealth proposes to sell its holdings of the common stock of Southern Indiana to a group of underwriters represented by Smith, Barney & Co. for resale to the public at the best price (which shall be not less than the then book value) and on the most favorable terms obtainable.

(3) Southern Indiana also proposes, concurrently with the sale of its out-

standing common stock by Commonwealth, to issue and sell to the same underwriters (or to Commonwealth for resale to said underwriters at its cost and Commonwealth will resell to said underwriters), under the same contract and at the same price, the least number of additional shares of its no par common stock which will be sufficient to realize proceeds to Southern Indiana of approximately $1,500,000 but not more than $1,750,000.

(4) Southern Indiana further proposes, concurrently with the sale of its common stock, to sell to service company at $100 per share (the approximate book value thereof), the 162 shares of the $100 par value capital stock of service company owned by Southern Indiana. Service company states that it may dispose of the aforesaid 162 shares of its capital stock, at $100 a share, to its remaining stockholders.

(5) The service company proposes, for a period of 12 months following the date of the sale by Commonwealth of common stock of Southern Indiana (unless the period shall be extended by further order of this Commission), to render to Southern Indiana such services as Southern Indiana may from time to time request at the cost thereof, determined in accordance with the usual procedures of the service company with respect thereto, plus 10% of such cost.

The amendments to the said joint applications-declarations having been duly filed, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and

The Commission having also given notice (Holding Company Act Release No. 8605) that a hearing would be held on the issues remaining as to the proposed sale to underwriters of Southern Indiana common stock, if and when a contract was entered into with underwriters regarding such sale, and the Commission having received a request from Alfred J. Snyder, Esq., a representative of stockholders who has entered an appearance herein, for a hearing to be held for the purpose of producing proof, "if any exists, to show, that the price, terms, use of the proceeds and all other factors will benefit the stockholders more than the stock of the company proposed to be sold; that the management of Commonwealth & Southern Corp. is acting in the best interest of its stockholders, and that the price is the best that can be obtained."; and

It appearing to the Commission that the said hearing to be held on the issues remaining as to the proposed sale of Southern Indiana common stock to underwriters, if and when a contract for such sale is entered into, will provide Snyder with adequate opportunity to be heard; and

The Commission finding with respect to all aspects of the proposed transactions, other than the proposed sale to underwriters, that the requirements of the applicable provisions of the act and the rules and regulations promulgated thereunder are satisfied and that it is not necessary to impose any terms or conditions other than those set forth below, and the Commission deeming it appropriate to the public interest and in the interest of investors and consumers that the said amended applications-declarations with respect to all aspects of the proposed transactions, other than thte proposed sale to underwriters, be granted and permitted to become effective.

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act that said amended joint applications-declarations be, and the same hereby are, granted and permitted to become effective, except with respect to the proposed sale of Southern Indiana common stock to underwriters, subject, however, to the conditions: (1) That jurisdiction is hereby reserved with respect to all fees and expenses of counsel to be paid in connection with the proposed transactions, and (2) that jurisdiction is hereby further reserved with respect to Commonwealth's request for findings, recitals and provisions pursuant to sections 371 (f) and 1808 (f) of the Internal Revenue Code.

By the Commission.

PUBLIC SERVICE ELECTRIC AND GAS CO.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 10th day of November 1948.

Public Service Electric and Gas Company ("PEG"), an electric utility subsidiary of The United Corporation, a registered holding company, having filed an application, pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 and Rule U-50 of the General Rules and Regulations promulgated thereunder, with respect to the following proposed transaction:

PEG proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $50,000,000 principal amount of its --% debentures due 1963. The interest rate and the price to the company for the debentures will be determined by competitive bidding, except that the invitation for bids will specify that the price to the company shall not be less than 100% nor more than 102.75% of the principal amount.

From the proceeds of the sale of the debentures, $30,000,000 will be applied to the retirement of an equal principal amount of bank loans due September 10, 1950, and the balance will be utilized in connection with PEG's construction and improvement program.

The proposed issuance and sale of debentures having been approved by the Board of Public Utility Commissioners of the State of New Jersey; and

Appropriate notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said application within the period specified, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said application that the requirements of the applicable provisions of the act and rules thereunder are satisfied, that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interests of investors and consumers that the said application be granted, and deeming it appropriate to grant the request of applicant that the order become effective not later than November 10, 1948:

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said act, that said application be, and the same hereby is, granted, effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and to the further condition that the proposed issuance and sale of debentures shall not be consummated until the results of competitive bidding, pursuant to Rule U-50, have been made a matter of record herein and a further order shall have been entered with respect thereto, which order shall contain such further terms and conditions as may then be deemed appropriate, for which purpose jurisdiction be, and the same hereby is, reserved.

It is further ordered, That jurisdiction be, and the same hereby is, reserved over all fees and expenses to be incurred in connection with the proposed transaction.

By the Commission.

FRED D. ELLIS AND EDMUND J. HAUGH

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 9th day of November A. D. 1948.

Fred D. Ellis and Edmund J. Haugh ("Applicants") having filed a joint application pursuant to sections 9 (a) (2) and 10 of the Public Utility Holding Company Act of 1935 regarding the acquisition by them from Northwestern Illinois Gas & Electric Company ("Northwestern"), an exempt holding company, of all of its interest in its subsidiary, Illinois Electric & Gas Company, a public-utility company, consisting of 2,500 shares of common stock, no par value, constituting the entire amount of such stock outstanding, and a 4% note in the unpaid principal balance of $50,000, the consideration to consist of the surrender by Applicants to Northwestern for cancellation of $100,000 aggregate par amount of Northwestern's preferred stock, representing the entire amount of such stock outstanding, and the surrender of $100,000 principal amount of open account indebtedness owing Applicants by Northwestern; and

It appearing from the filing that the legal fees, estimated at $250.00, and the estimated expenses to be incurred in connection with the proposed transaction, are not unreasonable in amount; and

The said application having been filed on October 25, 1948, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for a hearing with respect to said application within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

Applicants have requested that the effective date of the application be accelerated, and that the order granting said application become effective immediately upon issuance; and

The Commission finding with respect to said application that the requirements of section 10 are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and the interest of investors and consumers that said application be granted to become effective forthwith:

It is ordered, Effective forthwith, pursuant to Rule U-23 and the applicable provisions of the act, that said application be, and the same hereby is, granted, subject to the terms and conditions prescribed in Rule U-24.

DELAWARE POWER & LIGHT CO. AND EASTERN SHORE PUBLIC SERVICE CO. OF VIRGINIA

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 9th day of November 1948.

Notice is hereby given that a joint application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Delaware Power & Light Company ("Delaware"), a registered holding company, and its public utility subsidiary, Eastern Shore Public Service Company of Virginia ("Eastern Shore"). Applicants-declarants designate sections 6 (b), 9 (a), 12 (d) and 12 (f) of the act and Rules U-43 and U-44 promulgated thereunder as applicable to the proposed transactions:

Notice is further given that any interested person may, not later than December 2, 1948, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application-declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after December 2, 1948, said application-declaration, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said application-declaration which is on file in the office of this Commission for a statement of the transaction therein proposed, which is summarized as follows:

Eastern Shore will issue and sell from time to time, but not later than December 31, 1950, up to $400,000 principal amount of its 4% promissory notes due October 1, 1973 and 4,000 shares of its common stock of the par value of $100 per share. Delaware will purchase said securities at the principal amount or par value, respectively, and upon the purchase of any notes, Delaware will purchase common stock of an aggregate par value equal to the principal amount of such notes. The proceeds from the sale of said notes and common stock, are to be used to reimburse Eastern Shore's treasury for money previously expended for construction requirements, and to provide funds for future construction expenditures. The notes and stock to be acquired by Delaware will be pledged by it with the Trustee under its mortgage dated October 1, 1943 in accordance with the provisions of the Indenture of Mortgage.

The proposed issuance and sale of securities by Eastern Shore has been submitted to the State Corporation Commission of Virginia for its approval.

By the Commission.

STANDARD GAS AND ELECTRIC CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 10th day of November 1948.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Standard Gas and Electric Company ("Standard"), a registered holding company and a subsidiary of Standard Power and Light Corporation, also a registered holding company. Declarant has designated sections 6 (a) and 7 of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than November 26, 1948, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues, if any, of law or fact raised by said declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street, NW., Washington 25, D. C. At any time after November 26, 1948, said declaration, as filed, or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transactions therein proposed which are summarized as follows:

Standard has outstanding $11,603,274.78 principal amount of bank notes bearing interest at the rate of 2½% per annum and payable on April 10, 1949. The notes, which may be prepaid in the manner proposed without premium, were issued pursuant to a Bank Loan Agreement, as amended, between Standard and a group of banks headed by Continental Illinois National Bank and Trust Company of Chicago and The Chase National Bank of the City of New York. Among other things, the Agreement prohibits Standard from paying dividends on any of its outstanding stocks so long as any portion of the bank notes remains unpaid.

Standard proposes to enter into a new bank loan agreement with the same group of banks and to borrow $11,600,000 at 2½% interest, per annum, to be evidenced by new notes and to apply the net proceeds of such loans together with treasury funds in the amount of $3,274.78 to the prepayment of the outstanding notes. The new notes will be dated as of the date of their delivery, will mature one year from that date and will be subject to prepayment at the election of Standard without the payment of a premium.

Standard further proposes to secure the new notes by the pledge of its holdings of shares of common stock of Northern States Power Company, a Minnesota corporation, ("Northern States"), Philadelphia Company and Wisconsin Public Service Corporation ("Wisconsin"). The proposed new bank loan agreement provides, among other things, that Standard may sell any of the pledged shares, in which event the proceeds from such sale must be applied to the reduction of the notes or with the written consent of the holders of at least 60% aggregate principal amount of the notes outstanding, may be used by Standard for investment, within four months after such sale, in securities issued by Northern States, Wisconsin, Louisville Gas and Electric Company, a Kentucky corporation, ("Louisville"), or Oklahoma Gas and Electric Company ("Oklahoma").

The proposed agreement also provides, in substance, that Standard may sell any of its holdings of shares of common stock of Louisville and Oklahoma. If at the time of any such sale the outstanding notes exceed $5,000,000 in the aggregate, the proceeds from such sale may be applied by Standard to reduction of the notes or be invested in securities issued by Northern States, Wisconsin, Louisville or Oklahoma except that the proceeds from the sale of up to 150,000 shares of

common stock of Oklahoma or, in lieu thereof, the proceeds from the sale of such number of shares of the common stock of Louisville having a fair value equal to the fair value of 150,000 shares of common stock of Oklahoma, must be applied to reduction of the notes, forthwith, unless written consent to use such proceeds for investment as above described, is secured from the holders of at least 60% aggregate principal amount of the notes outstanding. Standard represents that its present intention is to apply the proceeds from the sale of 150,000 shares of common stock of Oklahoma, or the equivalent of the common stock of Louisville, as above defined, to reduction of the notes rather than for investment. After the notes have been reduced to less than $5,000,000 there are no restrictions in the proposed agreement regarding use by Standard of the proceeds from any sale of the common stocks of Louisville or Oklahoma.

The declaration states that Standard desires to consummate the proposed transactions in order to permit Standard to (a) retire its present bank notes and thereby be in a position to consider the resumption of the payment of dividends on its Prior Preference Stock by reason of the elimination of the provisions in the present Bank Loan Agreement, as amended, prohibiting such payment and (b) eliminate other burdensome provisions in that Agreement.

Standard requests that the Commission's order permitting the declaration to become effective, forthwith, be issued at the earliest possible time.

By the Commission.

In order to conform Chapter IV of Title 12 to the scope and style of the Code of Federal Regulations, 1949 Edition, as prescribed by the Regulations of the Administrative Committee of the Federal Register and approved by the President effective October 12, 1948 (13 F. R. 5929), the following editorial changes are made, effective upon publication in the FEDERAL REGISTER:

1. The codification of Part 401 is hereby discontinued. Future amendments to statements of organization will appear in the Notices section of the FEDERAL REGISTER.

2. Part 402 is redesignated Part 401, and §§ 402.1 to 402.3 are redesignated §§ 401.1 to 401.3, respectively.

3. Part 421 is redesignated Part 402, and §§ 421.1 to 421.11 are redesignated §§ 402.1 to 402.11, respectively.

HENRY P. CRAWFORD,
Counsel.

Chapter V—Weather Bureau, Department of Commerce

PART 505—RULES FOR GUIDANCE OF THE PUBLIC

PART 506—AWARD OF FELLOWSHIPS IN METEOROLOGY

Part 505 is amended in the following respects:

1. Section 505.4 is to be changed by the substitution of the following text:

§ 505.4 *Time of release of weather information effecting crops.* Bulletins or radio broadcasts giving agricultural weather information are released at 10:00 a. m. each work-day during the growing season in the affected areas.

Weekly weather and crop bulletins containing a synopsis of weather conditions and their effect on crops and farming operations (which show snow and ice conditions during the season) are re-

leased simultaneously at Washington, D. C. and approximately 45 field stations at 12:00 noon e. s. t. on Tuesday or on Wednesday if Monday or Tuesday is a holiday.

Because of the influence that might be exerted upon the market value of the products of the soil by the information contained in the weather and crop bulletins, the law provides a fine of $10,000 or imprisonment of ten years, or both, for any responsible Government official who wilfully imparts any information of speculative value contained in the bulletins before the times of release to the public. (Sec. 123, 35 Stat. 1110; 18 U. S. C. 214).

2. The following material should be added by the insertion of a new section to be designated § 505.6.

§ 505.6 *Agreements for radio weather broadcasts.* Radio stations often desire to make special arrangements for the broadcast of daily weather forecasts, special warnings, and other weather information under commercial sponsorship. In such cases the Weather Bureau obtains an agreement setting forth conditions under which the broadcasts are to be made. This agreement specifies the regular time schedules of the broadcast; that the information be given exactly as issued by the Bureau; that while it is permissible to announce immediately before and at the conclusion of the weather broadcast that it is furnished by the courtesy of a sponsor, care must be exercised to avoid the implication that the forecasts are made or paid for by the advertiser; and that there shall be nothing in the announcement associated with weather broadcasts to indicate that the Weather Bureau or the Government endorses the sponsor or the product advertised.

No charge is made to the radio stations or the sponsor for weather information intended for public distribution. However, if there are communication tolls or leased wire charges in connection with the delivery of such information to the radio stations, such charges are borne by the radio stations or the sponsor.

Part 506—Award of Fellowships in Meteorology (13 F. R. 2739–2740) should be amended as follows:

1. Section 506.1 should be changed by the insertion of "50 weeks or more" instead of "35 weeks or more" and "15 weeks for studying" instead of "17 weeks for studying". Upon accomplishment of these changes § 506.1 will read as follows:

§ 506.1 *Type of fellowship.* Fellowships shall be of the interne-training type, comprising instruction for a period of 50 weeks or more at certain American universities including the University of California at Los Angeles, the University of Chicago, New York University, and the Massachusetts Institute of Technology, in synoptic, dynamic and physical meteorology, and in addition assignment to a Weather Bureau Station for a period of about 15 weeks for studying the organization and service work of the Weather Bureau.

2. Section 506.2, (a) should be amended by the addition of text as follows: "; or of the Republic of the Philippines;". As a result of this addition the paragraph will read as follows:

§ 506.2 *Qualifications.* Applicants selected for these fellowships shall be:

(a) Bona fide citizens of any of the American republics other than the United States; or of the Republic of the Philippines;

3. Section 506.3 *Award of fellowships* should be replaced by the following material:

§ 506.3 *Award of fellowships.* Fellowships will be awarded by the Chief of the Weather Bureau, and with the approval of the Secretary of Commerce and the Secretary of State or their duly authorized representatives. Philippine candidates for fellowships will in addition be examined and recommended by the Chief of the Philippine Weather Bureau and the President of the Republic of the Philippines. No applicant therefore shall be approved unless his application shall have been transmitted by the Government of the country of which he is a citizen through the diplomatic mission of the United States of America located in the Republic concerned.

4. Section 506.5 is to be amended by the insertion of "sixteen" instead of "twelve," and after change should read as follows:

§ 506.5 *Duration of fellowships.* Fellowships will be awarded for periods of not to exceed sixteen months each.

(R. S. 161, 53 Stat. 1290, 57 Stat. 281; 5 U. S. C. 22, 22 U. S. C. 501, 502)

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. 5264]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

FLEMING & SONS, INC., ET AL.

§ 3.6 (n) *Advertising falsely or misleadingly—Nature—Product or service:* § 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product or service.* In connection with the offering for sale, sale or distribution in commerce, of the corporate respondent's building paper designated "Wallrite", or any product of substantially similar composition or possessing substantially similar qualities, whether sold under the same name or under any other name, and on the part of said corporate respondent, and on the part of respondent individual, its advertising agent, and on the part of the officers, agents, etc. thereof, representing, directly or by implication, (1) that said product is a nonconductor of heat or cold, or that it affords any protection against heat or cold in excess of retarding the infiltration of wind and air currents; or, (2) that said product is impervious to water or moisture, or that its use will render a house dampproof or prevent the penetration of dampness; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U. S. C., sec. 45b) [Cease and desist order, Fleming & Sons, Inc. et al., Docket 5264, October 6, 1948].

At a regular session of the Federal Trade Commission held at its office in the city of Washington, D. C., on the 6th day of October A. D. 1948.

In the Matter of Fleming & Sons, Inc., a Corporation, and Albert Couchman, an Individual Doing Business Under the Name of Couchman Advertising Agency

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the joint answers of the respondents, testimony and other evidence in support of and in opposition to the allegations of the complaint taken before a trial examiner of the Commission theretofore duly designated by it, the trial examiner's recommended decision and exceptions thereto filed by counsel supporting the complaint and briefs of counsel in support of the complaint and in opposition thereto (oral argument not having been requested); and the Commission having made its findings as to the facts and its conclusion that the respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondents, Fleming & Sons, Inc., a corporation, and its officers, and Albert Couchman, an individual, and said respondents' agents, representatives and employees, directly or through any corporate device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of the corporate respondent's building paper designated "Wallrite", or any other product of substantially similar composition or possessing substantially similar qualities, whether sold under the same name or under any other name, do forthwith cease and desist from representing, directly or by implication:

(1) That said product is a nonconductor of heat or cold, or that it affords any protection against heat or cold in excess of retarding the infiltration of wind and air currents;

(2) That said product is impervious to water or moisture, or that its use will render a house dampproof or prevent the penetration of dampness.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 52084]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

ARTISTIC ANTIQUITIES

Section 10.53 (f), Customs Regulations of 1943 (19 CFR, Cum. Supp., 10.53 (f)), is hereby amended to read as follows:

§ 10.53 *Artistic antiquities.* • • •

(f) A claim for the free entry of an article under paragraph 1811 on the basis of antiquity may be made on the entry or filed subsequent thereto at any time before the release of the article from customs custody, if the collector is satisfied that it was not imported for sale, or, if imported for sale, at any time before the examination of the article for the purpose of appraisement or classification has begun. No claim shall be entertained, nor shall evidence as to the antiquity of the article be considered, unless submitted within that time.

PART 13—SUGARS, SIRUPS, AND MOLASSES; PETROLEUM PRODUCTS; WOOL AND HAIR

WEIGHING, SAMPLING, AND TESTING OF WOOL

Section 13.14 (b), Customs Regulations of 1943 (19 CFR, Cum. Supp., 13.14 (b)), is hereby amended by substituting the following for the second sentence thereof: "When an original sampling unit has been weighed, sampled, and tested in accordance with this section and a part of such unit is covered by a transfer made pursuant to section 557 (b), Tariff Act of 1930, as amended, the percentages clean content of the part covered by the transfer and of the part not so covered shall be computed on the basis of the original customs weights and test, and the invoice data related to the respective parts. When part of such an original sampling unit is exported from continuous customs custody without having been manipulated as provided for in section 562, Tariff Act of 1930, as amended, the percentage clean content of the part not exported shall be determined, in the discretion of the collector of customs, either on the basis of a new determination by reweighing, resampling, and retesting, or by a computation as described in the preceding sentence, for either the exported or the remaining part."

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC DRUGS

PART 146—CERTIFICATION OF BATCHES OF PENICILLIN- OR STREPTOMYCIN-CONTAINING DRUGS

DIHYDROSTREPTOMYCIN SULFATE; DIHYDROSTREPTOMYCIN HYDROCHLORIDE

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463 and 61 Stat. 11; 21 U. S. C., Sup. 357) the regulations for tests and methods of assay of antibiotic drugs (12 F. R. 2215) and certification of batches of penicillin- or streptomycin-containing drugs (12 F. R. 2231) are amended as indicated below:

1. Part 141 is amended by adding the following new section:

§ 141.108 *Dihydrostreptomycin sulfate, dihydrostreptomycin hydrochloride*—(a) *Potency.* Proceed as directed in § 141.101 (j) and (k).

(b) *Content of streptomycin sulfate or streptomycin hydrochloride*—(1) *Reagents.* (i) 10% ferric chloride stock solution. Dissolve 5 gm. of $FeCl_3.6H_2O$ in 50 ml. 0.1N HCl.

(ii) 0.05% ferric chloride solution. Dilute 0.5 ml. of 10% ferric chloride in 0.1N HCl to 100 ml. with 0.01N HCl. Prepare the solution fresh daily.

(2) *Standard curve.* Prepare a stock aqueous solution of the F. D. A. streptomycin working standard containing 1.0 mg. of streptomycin base per milliliter. Store this standard solution in the refrigerator and use for no longer than 2 weeks. Transfer 2.0, 4.0, 6.0, 8.0, and 10.0 ml. of this standard to each of five tubes (approximately 30-ml. capacity). Add 8.0, 6.0, 4.0, and 2.0 ml. of distilled water to the first four tubes respectively to give each a total volume of 10 ml. To each add 2.0 ml. of 1N NaOH and then heat the tubes in a boiling water bath for 10 minutes. Cool the tubes in ice water for 3 minutes and acidify the solutions with 2.0 ml. of 1.2N HCl. Add 8.0 ml. of chloroform U. S. P. to each tube, stopper, and shake thoroughly for about 1 minute. Allow the layers to separate and then pipette 5.0-ml. aliquots of the chloroform layers into clean dry tubes. To each tube add 10.0 ml. of 0.05% ferric chloride reagent and shake thoroughly for about 1 minute. Allow the layers to separate and swirl to clear the upper aqueous layer of chloroform droplets. Transfer the colored aqueous layer to a 1.0-cm. absorption cell and measure the percent light transmission at 550 mμ in a suitable photoelectric colorimeter. Set the colorimeter at 100% light transmission for the 0.05% ferric chloride solution. Prepare a standard curve on semilog paper, plotting the percent light transmission on the logarithmic ordinate scale and the concentration of streptomycin base on the abscissa.

(3) *Procedure.* Dilute the contents of a 1-gm. vial to 50 ml. with distilled water (dilute vials containing larger quantities to make solutions having the same concentration). Transfer a 10-ml. aliquot of this solution to a tube (approxi-

mately 30-ml. capacity), add 2 ml. of 1N NaOH and heat in a boiling water bath for 10 minutes. Cool in ice water for 3 minutes and acidify the solution with 2 ml. of 1.2N HCl. Add 8.0 ml. of chloroform U. S. P., stopper, and shake thoroughly for about 1 minute. Allow the layers to separate and then pipette a 5.0-ml. aliquot of the chloroform layer into a clean dry tube. Add 10.0 ml. of 0.05% ferric chloride reagent and shake thoroughly for about 1 minute. Set the colorimeter at 100% light transmission for the 0.05% ferric chloride reagent and shake thoroughly for about 1 minute. Set the colorimeter at 100% light transmission for the 0.05% ferric chloride solution and obtain the percent light transmission of the sample. The concentration of streptomycin obtained directly from the standard curve corresponding to the percent light transmission of the sample times 500, divided by the total milligrams per vial obtained by biological assay, equals the percent of streptomycin.

(c) *Sterility*—(1) *Culture medium.* Prepare fluid thioglycollate medium as described in § 141.2 (a).

(2) *Conduct of test.* Add aseptically to each of two tubes containing approximately 15 ml. of fluid thioglycollate medium 1.0 ml. of a 5000-mcg. per milliliter dilution in sterile distilled water of the dihydrostreptomycin under test. Add 0.1 ml. of the 5000-mcg. per milliliter dilution to two additional tubes of thioglycollate medium. Incubate at 37° C. for 4 days. If no tube shows growth the sample is satisfactory. This method will demonstrate only those organisms which are not susceptible to this concentration of dihydrostreptomycin.

(d) *Toxicity, pyrogens, histamine, moisture, pH, clarity.* Proceed as directed in §§ 141.103, 141.104, 141.105, and 141.106.

2. Part 146 is amended by adding the following new section:

§ 146.103 *Dihydrostreptomycin sulfate; dihydrostreptomycin hydrochloride*—(a) Diahydrostreptomycin sulfate is the hydrogenated sulfate salt of a kind of streptomycin or a mixture of two or more such salts. Dihydrostreptomycin hydrochloride is the hydrogenated hydrochloride salt of a kind of streptomycin or a mixture of two or more such salts. Each such drug conforms to all requirements prescribed by § 146.101 for streptomycin sulfate and streptomycin hydrochloride and is subject to all procedures prescribed by § 146.101 for streptomycin sulfate and streptomycin hydrochloride, except that:

(1) Its potency is not less than 600 mcg. per milligram.

(2) Its content of streptomycin sulfate or streptomycin hydrochloride is not more than 3% when calculated as streptomycin base.

This order, which provides for the marketing of a new streptomycin product (dihydrostreptomycin sulfate and hydrochloride) shall become effective upon publication in the FEDERAL REGISTER.

Notice and public procedure are not necessary prerequisites to the promulgation of this order and would be contrary to the public interest, and I so find, since it was drawn in collaboration with the interested members of the affected industry and since it would be against public interest to delay the marketing of this new streptomycin product.

(52 Stat. 1040, 1055, as amended by 59 Stat. 463 and 61 Stat. 11; 21 U. S. C. Sup. 357)

Dated: November 12, 1948.

Acting Administrator.

Chapter I—Public Health Service, Federal Security Agency

PART 62—FILIPINO TRAINEES

MISCELLANEOUS AMENDMENTS

1. Section 62.1 is amended to read as follows:

§ 62.1 *Definitions.* As used in this part, terms shall have the following meanings:

(a) *Program.* The program carried on by and under the supervision of the Surgeon General of the Public Health Service (hereinafter referred to as the Service) for the training of Filipinos in public health methods and administration pursuant to the provisions of sections 305 and 311 (c) and (d) of the Philippine Rehabilitation Act of 1946 as amended by sections 2 and 3 of the act of July 2, 1948, (Public Law 882, 80th Congress).

(b) *Trainee.* A person receiving training or instruction under the program.

(c) *Baggage.* Public property, or private property to be used exclusively for official business, and wearing apparel needed by a trainee while engaged in travel or in receiving training, together with the necessary containers.

(d) *Excess baggage.* Baggage in excess of the weight or of a size greater than that carried free by persons engaged in transportation.

2. Paragraph (c) of § 62.2 is amended to read as follows:

(c) *Baggage charges.* Reimbursement, upon presentation of receipts, or shipping charges for baggage, in either case upon prior individual approval, as follows:

(1) If travel is performed by air, for excess baggage not to exceed 50 pounds in weight, when shipped as excess baggage or by air express.

(2) If travel is performed by means other than air, for a total of 250 pounds in weight, including all baggage carried free.

3. Paragraph (e) of § 62.2 is amended to read as follows:

(e) *Books and equipment.* Not to exceed $75 in the case of a trainee receiving training through study at a school or college, and not to exceed $40 in the case of a trainee receiving training through field work and observation, for books, equipment, and related incidental expenses.

4. Paragraph (g) of § 62.2 is deleted.

5. Paragraph (i) of § 62.2 is amended to read as follows:

(i) *Maintenance.* An amount to be fixed individually for each trainee, but not to exceed $180 per month, beginning with the day upon which a trainee arrives at his first place of study or training, and to be payable for no more than four months to any trainee being trained through field work and observation nor for more than twelve months in the case of any trainee. The allowance authorized by this paragraph shall be payable in semimonthly installments, but upon written application of a trainee, an advance of funds not exceeding the amount of the trainee's maintenance allowance for one month may be made to him, such advance to be deducted from maintenance allowances due to the trainee.

Effective date: The foregoing amendments shall be effective upon the date of their publication in the FEDERAL REGISTER.

PART 4—DELEGATIONS OF AUTHORITY

BUREAU OF LAND MANAGEMENT; DELEGATIONS TO THE DIRECTOR IN SPECIFIED MATTERS

Section 4.276 is revoked, and new subparagraphs are added to paragraph (a) of § 4.275 as follows:

§ 4.275 *Functions with respect to various statutes.* (a) * * *

(84) The remission or refund of grazing fees in cases where because of range depletion due to severe drought or other causes the moneys involved have not been deposited in the Treasury as earned, and in cases involving earned moneys where the parties seeking relief are willing that a credit be allowed on subsequent grazing fees.

(85) The execution and filing in the name of the United States of applications to appropriate water under State laws, where required in connection with stockwatering projects, and to secure easements or rights-of-way upon or over private lands, where improvements are erected.

(86) The acceptance of contributions toward the administration, protection and improvement of lands within or without grazing districts, and the remission or refund of any unexpended balances of such contributions, pursuant to section 9 of the Taylor Grazing Act as amended (62 Stat. 533, 43 U. S. C. sec. 315 (h)).

(87) The acceptance on behalf of the United States of any lands within or without grazing districts as a gift where such action will promote the purposes of a grazing district or facilitate the administration of the public lands, pursuant to section 8a of the Taylor Grazing Act as amended (62 Stat. 533, 43 U. [7 CFR, Part 971]

[Docket No. AO-175-A-6]

HANDLING OF MILK IN DAYTON-SPRINGFIELD MARKETING AREA

PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT, AND ORDER, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR, Supps. 900.1 et seq.; 11 F. R. 7737, 12 F. R. 1159, 4904), notice is hereby given of a public hearing to be held at the Dayton Room, Dayton-Biltmore Hotel, Dayton, Ohio, beginning at 10:00 a. m., e. s. t., November 22, 1948, for the purpose of receiving evidence with respect to proposed amendments to the tentative marketing agreement as heretofore approved (10 F. R. 6162, 11 F. R. 6901, 11 F. R. 9423, 12 F. R. 5995, 13 F. R. 2329). These proposed amendments have not received the approval of the Secretary of Agriculture.

This public hearing is for the purpose of receiving evidence with respect to economic and emergency conditions which relate to the proposed amendments hereinafter set forth:

The following amendments have been proposed by The Miami Valley Cooperative Milk Producers Association, Inc.:

1. Amend § 971.5 (b) (1) and (c) (1) to delete the provisos contained therein and to provide that the prices for Class I and Class II milk for a limited period in 1948 and 1949 but not beyond March 1949, shall not be less than the prices in effect for such classes of milk in September 1948.

Copies of this notice of hearing and of the tentative marketing agreement, and the order, as amended, now in effect, may be procured from the market administrator, 434 Third National Bank Building, Dayton, Ohio, or from the Hearing Clerk, United States Department of Agriculture, in Room 1844, South Building, Washington 25, D. C., or may be there inspected.

Dated: November 12, 1948.

NOTICES

DEPARTMENT OF STATE

[Public Notice DA-188]

IMMIGRATION QUOTAS

ADMINISTRATION OF SECTION 6, IMMIGRATION ACT OF 1924, DURING JULY 1, 1948 TO JUNE 30, 1950

In the implementation of the Displaced Persons Act of 1948, the Department is being guided by the following procedure in administering the immigration quotas affected thereby:

1. (a) Fifty per centum of the quota of each nationality for each of the two fiscal years preceding July 1, 1950, shall be made available for the issuance of immigration visas to qualified applicants entitled to preference under section 6 (a) (1) of the Immigration Act of 1924.

(b) The remainder, if any, of the first fifty per centum of each quota shall be made available for the issuance of immigration visas to persons entitled to second preference under section 6 (a) (2) of the Immigration Act of 1924.

(c) Any portion of the first fifty per centum of each annual quota not required for the issuance of immigration visas to classes specified under paragraphs (a) and (b) above, shall be made available for the issuance of immigration visas to qualified applicants within the nonpreference categories, the priorities and dates of registration governing.

2. (a) The second fifty per centum of the quota of each nationality for each of the two fiscal years preceding July 1, 1950 shall be made available for the issuance of immigration visas to qualified displaced persons specified in the Displaced Persons Act of 1948 and for persons whose cases are adjusted under section 19 (c) of the Immigration Act of February 5, 1917, as amended.

(b) The remainder, if any, of the second fifty per centum shall be made available for the issuance of immigration visas to qualified applicants entitled to second preference under section 6 (a) (2) of the Immigration Act of 1924.

(c) Any portion of the second fifty per centum of each annual quota not required for the issuance of immigration visas to the classes listed under sections 2 (a) and (b), shall be made available for the issuance of immigration visas to qualified applicants within the nonpreference categories, the priorities and dates of registration governing.

3. (a) Quota numbers required in connection with the enactment of private acts of Congress may be charged against the first or second fifty per centum of each annual quota, from whichever portion a quota number is more readily available.

4. (a) In applying the foregoing rules it must be considered that the Austrian and German quotas have each been reduced, in effect, by fifty per centum for the two fiscal years ending June 30, 1950, by virtue of section 12 of the Displaced Persons Act of 1948. The "fifty per centum," referred to in sections 1 and 2, above, therefore actually means fifty per centum of the remainder, or twenty-five per centum of the normal Austrian and German quotas, for the two years.

This notice shall become effective immediately upon publication in the FEDERAL REGISTER.

Approved: November 12, 1948.

For the Acting Secretary of State.

Bureau of Land Management

ALASKA

SHORE SPACE RESTORATION NO. 408 AND SMALL TRACT CLASSIFICATION NO. 4

NOVEMBER 5, 1948.

By virtue of the authority contained in the act of June 5, 1920 (41 Stat. 1059; 48 U. S. C. 372), and Departmental Order No. 2325 of May 24, 1947 (43 CFR Sec. 4.275 (56), 12 F. R. 3566), and pursuant to the authority delegated to me by the Director, Bureau of Land Management by Order 319 of July 19, 1948 (43 CFR 50.451 (a) (56), (b) (3), 13 F. R. 4278), it is ordered as follows:

Subject to valid existing rights, the 80 rod shore space reserve created under the act of May 14, 1898 (30 Stat. 409), as amended by the act of March 3, 1903 (32 Stat. 1028; 48 U. S. C. 371), is hereby revoked as to the public lands hereinafter described in the Anchorage, Alaska land district, which are hereby classified as chiefly valuable for lease and sale under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682 (a)) as amended, for home, cabin, camp and recreational sites:

SMALL TRACT CLASSIFICATION NO. 4
POINT MACKENZIE AREA

T. 13 N., R. 4 W., Seward Meridian, Alaska.
Sec. 3, Lots 3, 4, E½NW¼SW¼, SW¼NW¼ SW¼.
Sec. 10, Lot 1.

The area described contains 93.08 acres.

The lands are located on the north shore of Knik Arm, three miles northwest of Anchorage City Boat Dock on the Ship Creek Estuary, and extends from Point Mackenzie to a point approximately three-quarters of a mile northeast along the shore of Knik Arm. At the present time access to the Point Mackenzie area can be made only by small boat or float plane in summer or ski-mounted plane in winter. The timber cover of the area consists of spruce, birch, aspen and alder. The lower cover consists of scattered but very dense stands of devil's club, usually associated with alder, up to six inches in diameter. There are no public utilities in the area. Water supply can be obtained through the use of wells or sandpoints.

This order shall not otherwise become effective to change the status of such lands or to permit the leasing thereof under the small tract act of June 1, 1938, cited above, until 10:00 a. m. on January 7, 1949. At that time the land shall, subject to valid existing rights, become subject to application, petition, location, or selection, as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from 10:00 a. m. on January 7, 1949, to the close of business on April 7, 1949 to (1) applications under the small tract act of June 1, 1938, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. sec. 279) as amended, and by other qualified persons entitled to credit for service under said act, subject to the requirements of applicable law, and (2) applications under any applicable public law, based on prior existing valid settlement and preference rights conferred by existing laws or equitable claims, subject to allowance and confirmation. Applications by veterans and other persons entitled to credit for service shall be subject to claims of the classes described in subdivision (2)

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from December 18, 1948, to January 6, 1949, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on January 7, 1949, shall be treated as simultaneously filed.

(c) *Date for non-preference-right filings authorized by the public land laws.* Commencing at 10:00 a. m. on April 8, 1949, any of the lands remaining unappropriated shall become subject to application under the small tract act by the public generally.

(d) *Twenty-day advance period for simultaneous non-preference-right filings.* Applications by the general public may be presented during the 20-day period from March 19, 1949, to April 7, 1949, inclusive, and all such applications, together with those presented at 10:00 a. m. on April 8, 1949, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificate of discharge, or other satisfactory evidence of their military or naval service. Other persons entitled to credit for service shall file evidence of their right to credit in accordance with 43 CFR 181.36. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

All applications for these lands, which shall be filed in the District Land Office at Anchorage, Alaska, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent that such regulations are applicable. Applications under the Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Part 257 of that title.

Lessees under the Small Tract Act of June 1, 1938, will be required, within a reasonable time after execution of the lease, to construct upon the leased land, to the satisfaction of the appropriate officer of the Bureau of Land Management authorized to sign the lease, improvements which, in the circumstances, are presentable, substantial and appropriate for the use for which the lease is issued. Leases will be for a period of not more than 5 years at an annual rental of $5.00, payable for the entire lease period in advance of the issuance of the lease. Leases will contain an option to purchase the tract at or after the expiration of one year from the date of the lease is issued, provided the terms and conditions of the lease have been met.

All of the land will be leased in tracts of approximately 5 acres, in accordance with the classification map on file in the district land office, Anchorage, Alaska, designated "Point Mackenzie Small Tract Unit." The tracts where possible are made to conform in description with the rectangular system of survey, being approximately 330 by 660 feet, in compact units.

All inquries relating to these lands shall be addressed to the Acting Manager, District Land Office, Anchorage, Alaska.

LOWELL M. PUCKETT,
Regional Administrator.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1942]

BROCKTON EDISON CO. AND EASTERN UTILITIES ASSOCIATES

SUPPLEMENTAL ORDER RELEASING JURISDICTION AND GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C. on the 10th day of November A. D. 1948.

Brockton Edison Company ("Brockton"), a public utility subsidiary of Eastern Utilities Associates ("EUA"), a registered holding company, having filed an application and amendments thereto pursuant to the Public Utility Holding Company Act of 1935, particularly sections 6 (b) thereof and Rule U-50 thereunder, regarding the issue and sale at competitive bidding of $4,000,000 principal amount of its First Mortgage and Collateral Trust Bonds, __% Series, due 1978; and

The Commission having by order dated November 1, 1948, granted said application, as amended, subject to the condition that the proposed issue and sale of bonds not be consummated until the results of competitive bidding pursuant to Rule U-50 had been made a matter of record in this proceeding, and a further order entered by the Commission in light of the record as so completed and subject to a further reservation of jurisdiction with respect to the payment of all legal fees incurred or to be incurred in connection with the proposed bond financing; and

Brockton having filed a further amendment to its application setting forth the action taken to comply with the requirements of Rule U-50 and stating that pursuant to an invitation for competitive bids, the following bids for said bonds were received:

Name of bidder	Interest rate	Price to company [1]	Annual cost to company
	Percent	Percent	Percent
Kidder, Peabody & Co.	3	100.15	2.9924
Harriman Ripley & Co. Inc.	3⅛	102.046	3.0208
The First Boston Corp	3⅛	101.8399	3.0312
Halsey, Stuart & Co., Inc.	3⅛	101.6999	3.0362
Coffin & Burr, Inc.	3⅛	101.31	3.0501

[1] Plus accrued interest to date of delivery.

The amendment further containing a statement that Brockton has accepted the bid of Kidder, Peabody & Co. for said bonds, as set forth above, and that said bonds will be offered for sale to the public at a price of 100.5% of the principal amount thereof, plus accrued interest, resulting in an underwriter's spread of 0.35% of the principal amount of said bonds or an aggregate amount of $14,000; and

The amendment also having set forth the nature and extent of the legal services rendered for which requests for payment have been made as follows: $8,000 to Gaston, Snow, Rice & Boyd, Boston counsel for Brockton; $2,000 to Keith, Reed & Wheatley, local counsel for Brockton, and $5,000 to Ropes, Gray,

Best, Coolidge & Rugg, counsel for the successful bidder for said bonds, whose fee is to be paid by the successful bidder; and

The Commission having examined said amendment and having considered the record herein and finding no reason for imposing terms and conditions with respect to said matters:

It is ordered, That jurisdiction heretofore reserved with respect to the matters to be determined as a result of competitive bidding for said Bonds under Rule U-50 and with respect to legal fees be, and the same hereby is, released, and that said application as further amended, be, and the same hereby is, granted forthwith, subject, however, to the terms and conditions prescribed in Rule U-24.

By the Commission.

TITLE 6—AGRICULTURAL CREDIT

Chapter II—Production and Marketing Administration (Commodity Credit)

[1948 Cotton Loan Instructions, Supp. 4]

PART 256—COTTON LOANS

ADVANCE LOANS

The 1948 Cotton Loan Instructions (1948 C. C. C. Cotton Form 1) (13 F. R. 4338), as amended, are hereby further amended by adding § 256.243 to read as follows:

§ 256.243 *Advance loans.* (a) Commodity Credit Corporation (hereinafter called "CCC") will make advance loans available to producers on warehouse stored cotton in areas where producers are experiencing difficulty in securing loans under the regular 1948 Cotton Loan Program of CCC because of undue delay in the classification of their cotton by Boards of Cotton Examiners of the United States Department of Agriculture. Loans under the program will be available upon the terms and conditions stated in §§ 256.221 to 256.237, and § 256.240, except as follows:

(1) Loans will be available to producers only in those states and counties in which a determination has been made by the appropriate State PMA Committee that a need for the program exists and only during the period in which the Committee determines that the program is needed. Upon making a determination that the program is required, the State PMA Committee will notify the County Agricultural Conservation Committees (hereinafter called "county committees") for the counties in which the loans will be available. When the State PMA Committee determines that the program is no longer required, it will instruct the county committees to discontinue the program.

(2) In order to be eligible for a loan, cotton must not have been classed by a Board of Cotton Examiners and must otherwise meet the requirements specified in paragraph (b) of § 256.221.

(3) The amount of the loan on each bale will be $50.

(4) Loans may be obtained only through county committees. Producers who wish to obtain loans should take the warehouse receipts representing their cotton to the county committees, which will assist the producers in the preparation and execution of 1948 Cotton Producer's Note and Loan Agreements. Producers must execute a separate loan form for each bale of cotton on which a loan is obtained. The Warehouseman's Certificate and Storage Agreement thereon will not be executed by the warehouseman. The Clerk's Certificate thereon will be executed by an approved clerk employed by the county committee, and the county committee will collect a fee from the producer for its services at not to exceed the fee specified in § 256.227. The county committee will disburse the amounts of loans by issuing sight drafts on CCC.

(5) It is anticipated that producers will ordinarily repay their loans by converting them to loans under the regular 1948 Cotton Loan Program of CCC, as provided in paragraph (b) of this section. However, where a producer does not wish to follow this method, he may repay a loan by payment to the county committee from which the loan was obtained of the amount due on the loan. The producer's copy of the note must accompany the payment. The payment should be made by postal money order, cashier's check, or certified check, payable to "Commodity Credit Corporation." Upon receipt of payment, the county committee will mark the note "Paid" and return the note and warehouse receipt to the producer.

(b) When producers obtain the classification by a Board of Cotton Examiners of cotton on which they have received advance loans as provided in paragraph (a) of this section, they may obtain loans on such cotton under the regular 1948 Cotton Loan Program of CCC. The provisions of §§ 256.221 to 256.237, § 256.239, and § 256.240 will be applicable to such loans, except as follows:

(1) Loans may be obtained only through county committees. The producer must take his duplicate copies of the 1948 Cotton Producer's Note and Loan Agreements evidencing the advance loans on his cotton to the county committee from which the advance loans were obtained. The county committee will assist the producer in the preparation and execution of a 1948 Cotton Producer's Note and Loan Agreement to evidence the loan, and an approved clerk

employed by the county committee will execute the Clerk's Certificate thereon. If the producer is listed on the county debt register as indebted to the United States or any agency or corporation thereof, he shall designate such agency or corporation as the payee of the proceeds of the loan to the extent of such indebtedness. Indebtedness owing to CCC shall be given first consideration. Both copies of the loan form, the notes evidencing the advance loans on the cotton, and the warehouse receipts representing the cotton will be transmitted by the county committee to the State PMA committee. The county committee will collect a fee from the producer at the time loan documents are prepared for its services at not to exceed the fee specified in § 256.227.

(2) Upon receipt of loan documents as provided above, the State PMA Committees will disburse the loan proceeds in accordance with the directions of the producer contained in the loan form by issuance of sight drafts on CCC for the difference between the loan value of the cotton and the amount due on the advance loans on the cotton. The State PMA Committee will mark the notes evidencing the advance loans "Paid" and return the duplicate copy of the loan form to the producer. The producer should keep this duplicate copy for future use in repaying the loan or selling his equity in the cotton, which must be done in accordance with the provisions of paragraph (a) of § 256.237. (Sec. 302, 52 Stat. 43, as amended, sec. 4 (a), 55 Stat. 498, as amended, sec. 1 (b), 62 Stat. 1247, 62 Stat. 1070; 7 U. S. C. 1302, 15 U. S. C. 713a–8 (a))

Issued this 16th day of November 1948.

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

PART 903—MILK IN THE ST. LOUIS, MO., MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 903.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary to and in addition to the previous findings and determinations made in connection with the issuance of this order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure, as amended, covering the formulation of marketing agreements and orders (7 CFR, Supps., 900.1 et seq.); a public hearing was held on July 7 to 9, 1948, all dates inclusive, upon a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area. The recommended decision (13 F. R. 5337) was made by the Assistant Administrator of the Production and Marketing Administration on September 9, 1948, and the decision was made by the Secretary on November 9, 1948. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8e of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, in-

sure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make the amendment hereafter set forth effective by not later than November 18, 1948, so as to reflect current marketing conditions. Any delay beyond November 18, 1948, in the effective date of this amendment to the order, as amended, will seriously threaten the supply of milk for the St. Louis, Missouri, marketing area. The changes effected by this order amending the order, as amended, do not require substantial or extensive preparation by persons affected prior to the effective date. Accordingly it is concluded that good cause exists for making this amendment effective within less than 30 days after the date of publication. (Sec. 4 (c), Administrative Procedures Act, Pub. Law 404, 79th Cong., 60 Stat. 237)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing distributing, or shipping the milk covered by this order, as amended) of more than 50 percent of the volume of milk covered by this order, as amended and as hereby further amended, which is marketed within the St. Louis, Missouri, marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order, further amending the aforesaid order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (June 1948), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the St. Louis, Missouri, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. Delete the period (.) at the end of § 903.4 (a) (1) and add the following: ": *Provided*, That from the effective date hereof to and including December 1948 the price of Class I milk shall be the price computed under subparagraph (3) of this paragraph, plus $1.81 per hundredweight; and for the delivery periods of January through March 1949 the price of Class I milk shall be the price computed under subparagraph (3) of this paragraph plus $1.33 per hundredweight.

(48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.; sec. 102, Reorg. Plan 1 of 1947, 12 F. R. 4534)

Issued in Washington, D. C., this 15th day of November 1948, to be effective on and after the 18th day of November 1948.

Secretary of Agriculture.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[T. D. 5667]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

EXCLUSION OF EARNINGS OF FOREIGN SHIPS AND AIRCRAFT FROM GROSS INCOME

On August 19, 1948, notice of proposed rule making regarding Public Law 514 (80th Congress), approved May 4, 1948, was published in the FEDERAL REGISTER (13 F. R. 4794). No objection to the rules proposed having been received, the following amendments are hereby adopted. Such amendments are necessary in order to conform Regulations 111 (26 CFR Part 29) to Public Law 514.

PARAGRAPH 1. There is inserted immediately preceding § 29.212–1 the following:

PUBLIC LAW 514 (80TH CONGRESS) APPROVED MAY 4, 1948

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled: That (a) section 212 (b) of the Internal Revenue Code (relating to income of nonresident alien individuals) is hereby amended to read as follows:

(b) *Exclusions.* The following items shall not be included in gross income of a nonresident alien individual and shall be exempt from taxation under this chapter:

(1) *Ships under foreign flag.* Earnings derived from the operation of a ship or ships documented under the laws of a foreign country which grants an equivalent exemption to citizens of the United States and to corporations organized in the United States;

(2) *Aircraft of foreign registry.* Earnings derived from the operation of aircraft registered under the laws of a foreign country which grants an equivalent exemption to citizens of the United States and to corporations organized in the United States;

* * * * *

SEC. 2. The amendments made by this Act shall be applicable with respect to taxable years beginning after December 31, 1945.

PAR. 2. Section 29.212–2 is amended:

(A) By inserting in the heading after the words "foreign ships" the words "or aircraft", by inserting immediately before the first sentence the subheading "(a) Ships under foreign flag.", and by striking out the word "section" at the end of the first paragraph and inserting in lieu thereof the word "paragraph".

(B) By inserting at the end of such section the following new paragraph:

(b) *Aircraft of foreign registry.* For taxable years beginning after December 31, 1945, so much of the income from sources within the United States of a nonresident alien individual who at any time within the taxable year was engaged in trade or business within the United States as consists of earnings derived from the operation of aircraft registered under the laws of a foreign country which grants an equivalent exemption to citizens of the United States nonresident in such foreign country and to corporations organized in the United States, shall not be included in gross income. Foreign countries which either impose no income tax, or, in imposing such tax, exempt from taxation so much of the income of a citizen of the United States nonresident in such foreign country and of a corporation organized in the United States as consists of earnings derived from the operation of aircraft registered under the laws of the United States are considered as granting an equivalent exemption within the meaning of this paragraph.

A nonresident alien individual not engaged in trade or business within the United States at any time within the taxable year is not required to include in gross income such income from sources within the United States as is derived from the operation of aircraft, whether or not the foreign country under the laws of which such aircraft are registered meets the equivalent exemption requirement of the Internal Revenue Code.

PAR. 3. There is inserted immediately preceding § 29.231–1 the following:

PUBLIC LAW 514 (80TH CONGRESS) APPROVED MAY 4, 1948

* * * * *

(b) Section 231 (d) of the Internal Revenue Code (relating to income of foreign corporations) is hereby amended to read as follows:

(d) *Exclusions.* The following items shall not be included in gross income of a foreign corporation and shall be exempt from taxation under this chapter:

(1) *Ships under foreign flag.* Earnings derived from the operation of a ship or ships documented under the laws of a foreign country which grants an equivalent exemption to citizens of the United States and to corporations organized in the United States;

(2) *Aircraft of foreign registry.* Earnings derived from the operation of aircraft registered under the laws of a foreign country which grants an equivalent exemption to citizens of the United States and to corporations organized in the United States.

SEC. 2. The amendments made by this act shall be applicable with respect to taxable years beginning after December 31, 1945.

PAR. 4. Section 29.231–3 is amended:

(A) By inserting in the heading after the words "foreign ships" the following: "or aircraft".

(B) By inserting after the word "documented" appearing in the first and second paragraphs the following: "or aircraft registered".

(C) By inserting in the second paragraph after the words "ship or ships" the following "or aircraft".

(53 Stat. 32; 26 U. S. C. 62)

[SEAL] GEO. J. SCHOENEMAN,
Commissioner of Internal Revenue.

Approved: November 15, 1948.

TITLE 32—NATIONAL DEFENSE

Chapter V—American Battle Monuments Commission

EDITORIAL CHANGES INCIDENT TO PUBLICATION OF CODE OF FEDERAL REGULATIONS, 1949 EDITION

In order to conform the material in this chapter to the scope and style of the Code of Federal Regulations, 1949 Edition, as prescribed by the Regulations of the Administrative Committee of the Federal Register and approved by the President effective October 12, 1948 (13 F. R. 5929), the following editorial changes are made, effective upon their publication in the FEDERAL REGISTER.

1. Codification of Subpart A—Organization, of Part 500, is discontinued. Future amendments to the statement of organization under section 3 (a) (1) of the Administrative Procedure Act will be published in the Notices section of the FEDERAL REGISTER. For the purpose of such amendments §§ 500.1–500.3 are redesignated sections 1–3.

2. Section 500.20 (a) is deleted.

3. The remainder of the material is transferred to Chapter IV of Title 36 and recodified as Parts 401–403 of that title, *infra.*

Chapter XXIII—War Assets Administration

[Reg. 5, Amdt. 1]

PART 8305—SURPLUS REAL PROPERTY

War Assets Administration Regulation 5, July 30, 1948, entitled "Surplus Real Property" (13 F. R. 4736) is hereby amended as follows:

1. Paragraph (b) of § 8305.4 is amended as follows:

§ 8305.4 *Declarations.* * * *

(b) *Reservations, restrictions, conditions; industrial plants.* (1) In connection with the declaration of shipyards, plants, and equipment hereunder the Secretary of Defense may direct the imposition of such terms, conditions, restrictions and reservations on the disposal of the property as will, in his judgment, be adequate to assure the continued availability of such property for war production purposes as may be required in the interest of national defense.

(2) In the event the disposal agency is unable to dispose of any such industrial plant and equipment subject to such terms, conditions, restrictions, or reservations within a reasonable time, it shall notify the Secretary of Defense, indicating such modifications in the terms, conditions, restrictions, or reservations which, in its judgment, would make possible disposal of the plant. The Secretary of Defense shall thereupon either (i) consider and agree to any or all such proposed modifications; or (ii) direct the transfer of such plant or equipment in the manner prescribed in Public Law 883, 80th Congress.

2. Section 8305.6 is deleted.

3. Section 8305.10 is amended to read as follows:

§ 8305.10 *Revocable leases or permits.* A temporary lease or permit may be granted by the disposal agency having custody of the property to place surplus real property in productive use: *Provided*, That such lease or permit shall be made revocable on not to exceed thirty (30) days' notice by the disposal agency having jurisdiction of the property, and, *Provided further*, That the use and occupation will not interfere with, delay, or retard the disposition of the property. In such cases, an immediate right of entry to such property may be granted pending execution of the formal lease or permit. Unless otherwise authorized by the Administration, the lease or permit shall be for a consideration that is fair and reasonable under all the circumstances, with or without cash consideration, and shall be on such terms and conditions as are deemed appropriate to protect the interests of the United States. In the event the disposal agency has not assumed physical custody and control, and accountability, of the property at the time the permit is to be issued, the issuance of the permit and the grant of immediate right of entry shall be by the owning agency, upon prior written authorization of the Administration.

4. Paragraph (a) of § 8305.11 is amended to read as follows:

§ 8305.11 *Easements*—(a) *To owner of servient estate.* The disposal agency, or the owning agency in the event the disposal agency after the filing of an acceptable declaration has not assumed physical custody and control and accountability of the property at the time,

may, with or without consideration, dispose of an easement to the owner of the land which is subject to the easement when it is determined that the easement has no commercial value and is no longer needed: *Provided*, That, when any such easement was acquired for a substantial consideration such disposal shall be made at a consideration that is fair and reasonable under all the circumstances with due regard for any portion of the purchase price paid for severance damages.

5. Section 8305.20 is amended to read as follows:

§ 8305.20 *Civilian components of the armed forces.* Real property, including improvements and equipment located thereon, may be conveyed or disposed of to the State or local government, in which the property is located, without monetary consideration, except for reimbursement for any costs of disposal including surveys, expenses of removal of any machinery, equipment, or personal property not transferred as part thereof and any other incidental costs incurred by the disposal agency in connection with the transfer. Such transfers shall be made only upon application therefor by the Governor of the State in which the property is situated and upon a certification by such Governor and by the Secretary of the Army, Secretary of the Navy, or Secretary of the Air Force that such property is suitable and needed for use in training and maintaining a civilian component of the armed forces under such Governor's and Secretary's respective jurisdiction. Conveyances of property hereunder shall be made subject to the following terms and conditions:

(a) The property shall be used and maintained for the purpose for which it is conveyed for a period of twenty (20) years: *Provided*, That the Administration may prescribe such other period as it may deem proper in any case: *Provided further*, That in the event such property ceases to be used or maintained for such purpose during such twenty (20) year period or such period as may have been designated by the Administration, title to the property shall, in its then existing condition, and at the option of the War Assets Administration, or its successor, revert to the United States.

(b) Such other additional terms, reservations, restrictions, and conditions as may be included by the War Assets Administration.

6. Section 8305.24 is deleted.

(Surplus Property Act of 1944, as amended (58 Stat. 765, as amended; 50 U. S. C. App. Sup. 1611); Pub. Law 181, 79th Cong. (59 Stat. 533; 50 U. S. C. App. Sup. 1614a, 1614b); Reorg. Plan 1 of 1947 (12 F. R. 4534); Pub. Law 289, 80th Cong.; and Public Law 883, 80th Cong.)

This amendment shall become effective November 18, 1948.

JESS LARSON,
Administrator.

TITLE 35—PANAMA CANAL

Chapter I—Canal Zone Regulations

PART 28—PHOTOGRAPHING

By virtue of the authority vested in the Governor by section 15 of title 2 of the Canal Zone Code, as added by act December 12, 1941 (ch. 569, 55 Stat. 798; 48 U. S. Code, sec. 1337), and having, in the interests of the protection of the Panama Canal and Canal Zone, determined that the parts or features of the Panama Canal and the areas, objects, installations, or structures within the Canal Zone, which are hereinafter described, require protection against the general dissemination of information relating thereto, I hereby prescribe the following regulations which shall take effect on August 20, 1948, and shall on that date supersede the Governor's regulations of July 31, 1942, as amended (35 CFR, Cum. Supp., Part 28) pertaining to the same subject:

Sec.
28.1 Areas, objects, or structures, the photographing, etc., of which is prohibited.
28.2 Photographing, etc., prohibited from airspace above Canal Zone.
28.3 "Competent authority" defined.
28.4 Exceptions as to activities in course of official duties.
28.5 Punishment for violations.

AUTHORITY: §§ 28.1 to 28.5 issued under Canal Zone Code, title 2, sec. 15, as added by Act Dec. 12, 1941, ch. 569, 55 Stat. 798, 48 U. S. C. 1337.

§ 28.1 *Areas, objects, or structures, the photographing, etc., of which is prohibited.* No person shall make any photograph, sketch, drawing, map, or graphical representation of any area, object, structure, or installation in the Canal Zone, which is posted by competent authority with signs prohibiting the photographing, et cetera, thereof, without first obtaining the permission of such competent authority and promptly submitting the product to such authority for such action as may be deemed necessary.

§ 28.2 *Photographing, etc., prohibited from airspace above Canal Zone.* No person shall make any photograph, sketch, drawing, map, or graphical representation of any area in the Canal Zone from the airspace above the Canal Zone, without first obtaining permission from competent authority and promptly submitting the product to such authority for such action as may be deemed necessary.

§ 28.3 *"Competent authority" defined.* The "competent authority" referred to in the regulations in this part shall be the Governor of The Panama Canal, or, if the area, object, structure, or installation involved is within any Army, Naval or Air Force reservation, the officer commanding the respective forces of the U. S. Army, U. S. Navy or U. S. Air Forces (in the Canal Zone) or any officer responsible for the security of the area, object, structure or installation involved.

§ 28.4 *Exceptions as to activities in course of official duties.* None of the provisions of the regulations in this part shall apply to activities which are conducted or performed by persons in the service or employ of the United States in the course of their official duties or which may be specifically authorized by or under the direction of the Commander-in-Chief, Caribbean, the Governor of The Panama Canal, or competent Army, Navy, or Air Force authority.

§ 28.5 *Punishment for violations.* Any person who shall violate any of the regulations established hereby shall be punishable, as provided in section 15 of title 2, Canal Zone Code, by a fine of not more than $1,000, or by imprisonment in jail for not more than one year, or by both.

F. K. NEWCOMER,
Governor.

(6) Be unmarried and without dependents under 14 years of age.

§ 570.2 *Army Nurse Corps Section, Officers' Reserve Corps—(a) Establishment.* An Army Nurse Corps Section shall be established in the Officers' Reserve Corps of the Army of the United States. See act 16 April 1947 (Pub. Law 36, 80th Cong.).

(b) *Grades.* Army Nurses appointed pursuant to the act of 22 June 1944 (58 Stat. 324) and honorably separated from the service thereafter may, if otherwise qualified, be appointed in the Army Nurse Corps Section of the Officers' Reserve Corps in the highest grade satisfactorily held by them in active service. Nurses without prior military service originally appointed in the Army Nurse Corps Section of the Officers' Reserve Corps may be appointed in the appropriate grade for which they qualify up to and including lieutenant colonel, in accordance with current directives.

(c) *Period of appointment.* Appointment in the Officers' Reserve Corps will be for a period of 5 years, with privilege of renewal of commission.

(d) *Active duty.* In addition to the obligation to render active service now or hereafter, a member of the Army Nurse Corps, Reserve, may with her consent, be called to active duty by the Secretary of the Army for any period or periods of time according to the needs of the Military Establishment, as determined by the Secretary of the Army.

§ 570.3 *Applicability of other laws and regulations.* Except as otherwise specifically provided or manifestly inappropriate by reason of sex or duties, all laws and regulations now or hereafter applicable to commissioned officers or former commissioned officers of the Regular Army and Officers' Reserve Corps, and to their dependents and beneficiaries, shall in like cases be applicable respectively to commissioned officers or former commissioned officers of the Army Nurse Corps, Regular Army, the Army Nurse Corps Section, Officers' Reserve Corps, and their dependents and beneficiaries. See sections 109 and 115, Public Law 36—80th Congress.

WOMEN'S MEDICAL SPECIALIST CORPS

§ 570.21 *Composition.* The Women's Medical Specialist Corps shall consist of a Dietitian Section, a Physical Therapist Section, and an Occupational Therapist Section, and shall be comprised exclusively of qualified female citizens of the United States.

§ 570.22 *Mission.* The mission of the Women's Medical Specialist Corps is to provide proper dietetic, physical therapy, and occupational therapy services for the Medical Department of the Army.

§ 570.23 *Appointment and grade.* Officers in the Women's Medical Specialist Corps, Regular Army, shall be in the grades of second lieutenant to major, inclusive. Initial appointment will be made in the grade of second lieutenant, from members of the Reserve Corps.

§ 570.24 *Qualifications for commission.* To be eligible for original appointment in the Women's Medical Specialist Corps, an applicant must meet the following qualifications:

(a) *Citizenship.* Female citizen of the United States.

(b) *Age.* Twenty-one to 27 years, inclusive.

(c) *Marital status.* Single, widowed, or divorced, and without dependents under 14 years of age.

(d) *Physical requirements.* The type of physical examination required of applicants and the physical standards for appointment are set forth in Army Regulation (AR 40–100 and AR 40–105).

(e) *Educational requirements* — (1) *Dietitian Section.* Applicant must have a bachelor's degree from an approved college or university with either a major in foods and nutrition or in institution management, and have completed a dietetic internship approved by The Surgeon General.

(2) *Physical Therapist Section.* Applicant must be a graduate of an approved college or university with major emphasis in physical education or biological science, and of a training course in physical therapy approved by The Surgeon General.

(3) *Occupational Therapist Section.* Applicant must be a graduate of an approved college or university, and of a training course in occupational therapy approved by The Surgeon General.

(f) *Professional requirements.* Satisfactory completion of technical examination, as prescribed by The Surgeon General.

§ 570.25 *Applicability of other laws and regulations.* Except as otherwise specifically provided, all laws now or hereafter applicable to male commissioned officers of the Regular Army, to former male commissioned officers of the Regular Army, and to their dependents and beneficiaries, shall in like cases be applicable respectively to commissioned officers of any of the Corps established by the Army-Navy Nurses Act of 1947, and to their dependents and beneficiaries.

§ 570.26 *Reserve Corps.* (a) A Women's Medical Specialist Corps Section, consisting of dietitians, physical therapists, and occupational therapists, shall be established in the Officers' Reserve Corps of the Army of the United States (Pub. Law 36, 80th Cong.). Implementation will be accomplished by Department of the Army circulars.

(b) Except as otherwise specifically provided, all laws and regulations applicable to commissioned officers and former commissioned officers of the Officers' Reserve Corps, and to their dependents and beneficiaries, shall, in like cases, be applicable respectively to commissioned and former commissioned officers of the Women's Medical Specialist Corps Section of the Officer's Reserve Corps.

PART 571—RECRUITING FOR THE REGULAR ARMY AND AIR FORCE

Sec.
571.1 Qualifications for enlistment.
571.2 Period and grades.
571.3 Assignment.
571.4 Transportation.

AUTHORITY: §§ 571.1 to 571.4 issued under 41 Stat. 765; 10 U. S. C. 42.

DERIVATION: D. A. Cir. 66, A. F. letter 35–114, Mar. 12, 1948.

§ 571.1 *Qualifications for enlistment*—(a) *Enlistments and reenlistments, Regular Army and Air Force.* Enlistments and reenlistments for the Regular Army and Air Force will be accomplished in accordance with the provisions of this part and other instructions from the Department of the Army and the Department of the Air Force.

(b) *Definition.* The term "enlistment" as used in this part, unless otherwise specified, includes reenlistment of Regular Army and Air Force personnel, enlistment of former Army of the United States personnel, and original enlistment of personnel without prior Army or Air Force service.

(c) *Age.* The age qualifications for enlistment are:

(1) Seventeen to 34 years inclusive, except as provided below.

(2) Thirty-five years and over but less than 55 years of age, for those men who have had a minimum of 3 years prior active service in the Army, Navy, Air Force, Marine Corps, or Coast Guard (at least 3 months of which must have been Army or Air Force service) terminated by honorable or general discharge, other than under the provisions of Army regulations pertaining to unfitness, inaptitude, or unsuitability (AR 615–368, or 615–369), provided their age, at the time of application for such enlistment, is not greater than 35 plus the length of their prior active Federal service in completed years of honorable service.

(3) For every applicant for enlistment from civilian life who states his age as being under 21 years, or whose personal appearance belies a claim of greater age, the recruiting officer will verify age by requiring the applicant to present a birth certificate or by communicating with the appropriate State Registrar of Vital Statistics.

(4) An applicant who is 17 years of age but has not reached his 18th birthday will be required to furnish written consent of his parents or guardian. If he has neither parents nor guardian, a statement to that effect will be included under "Remarks" on the enlistment record. The written consent will conform to the following:

(i) It will be signed by both parents, but the consent of one parent may be accepted if the other is absent for an extended period of time. Enlistment is not authorized if either party objects.

(ii) The parents or guardian will be required to include a statement of date of birth of the applicant in document giving their consent to his enlistment; also a statement as to length of enlistment for which consent is granted.

(iii) The consent will not include any written or oral qualifications relative to allotments of pay, special training, or service in any particular arm or service or at a certain post or locality.

(iv) If the parents are not personally known to the recruiting officer, he may require verification of signature by a witness known to him, or in absence of such, by notarization. The latter practice will be used only as a final resort.

(v) The original and duplicate of parents' consent will be signed.

(vi) The written consent will be fastened securely to the original and duplicate enlistment records.

(5) Men last discharged from the Army or the Air Force with an honorable discharge or general discharge may be enlisted in the Regular Army or Air Force within 90 days after the date of such discharge, without regard to the maximum age restrictions prescribed in subparagraphs (1), (2), (3), and (4) of this paragraph.

(d) *Citizenship.* A male applicant who is otherwise qualified may be enlisted if he is:

(1) A citizen of the United States.

(2) An alien who can present written evidence that he has made legal declaration of his intention to become a citizen of the United States.

(3) A Puerto Rican who presents satisfactory evidence that he has permanently changed his residence to the continental United States.

(4) An insular Puerto Rican native resident is authorized to enlist in Puerto Rican units of the Regular Army in the Caribbean Defense Command only, under special instructions issued by the Department of the Army.

(5) A Filipino who is a United States citizen.

(e) *Physical qualifications.* Applicants for enlistment must meet fully the physical qualifications for general military service, except that:

(1) *Men serving in an enlisted status.* In especially deserving cases the commanding general of the army or oversea command (or the Chief of Staff, United States Air Force, in the case of Air Force enlistees) may waive physical defects down to the minimum standard of limited military service.

(2) *Men enlisted from civilian life.* Commanding generals of armies or oversea commands may waive physical defects of applicants with prior military service enlisting from civilian life down to the minimum standards for limited military service. In addition, commanding generals of armies or oversea commands may grant waivers for those applicants for enlistment without prior military service, who do not meet the minimum weight requirements for general military service. Commanding generals of armies or oversea commands will not grant waivers for physical defects of applicants without prior military service (other than for weight), or for applicants last discharged by reason of certificate of disability for discharge. Physical waivers other than those specifically provided in this paragraph will be granted only by The Adjutant General in the case of Army enlistees and by the Chief of Staff, United States Air Force, in the case of Air Force enlistees. All requests for waivers of physical defects will be accompanied by report of enlistment physical examination recorded on an enlistment record.

(f) *Classes ineligible for enlistment.* The following personnel are ineligible for enlistment unless the disability or defect is waived as indicated below. Those disabilities or defects for which authority to grant waivers is not listed below will be waived only by The Adjutant General in the case of Army enlistees and by the Chief of Staff, United States Air Force, in the case of Air Force enlistees. Requests for waivers will be forwarded only in those cases which, as a result of complete investigation, the recruiting officer determines to be especially meritorious.

(1) Aliens, except those who have made legal declaration of their intent to become a United States citizen (see paragraph (d) (2) of this section). No waivers will be granted.

(2) Applicants who are over age. The commanding general of each army (ZI) and each oversea command is authorized to grant age waivers to otherwise qualified and desirable applicants for enlistment in the Regular Army only, who have 6 months or more prior active Federal Army or Air Force service provided their age does not exceed 37 plus the number of years of such prior active service.

(3) Men last separated from any branch of the armed forces with other than an honorable discharge or a general discharge, with the exception of general prisoners authorized to enlist under current Department of the Army directives.

(4) Men last discharged under the provisions of AR 615–368 (unfitness) or AR 615–369 (inaptitude or unsuitability). No waivers will be granted.

(5) Men last discharged by reason of physical disability and those who fail to meet the prescribed physical qualifications. Requests for waivers of physical defects will be accompanied by complete report of enlistment physical examination.

(6) Men last discharged by reason of dependency or hardship, unless the cause for which discharged has been removed.

(7) Insane or intoxicated persons. No waivers will be granted.

(8) Deserters and felons. The Adjutant General may authorize the enlistment of deserters in the Regular Army in especially meritorious cases. In such cases investigations will be made and evidence, including letters from at least three reputable citizens who are acquainted with the individual, will be submitted through channels to The Adjutant General to prove that each case is a meritorious one and that an exception should be made. No waivers will be granted for Air Force enlistees.

(9) Men who have been imprisoned under sentence of civil court for other than a felony. The commanding general of each army is authorized to waive this disqualification in the case of applicants for enlistment within the army area who have served only short sentences for minor offenses, but only if in the opinion of the commanding general the applicant will be an asset to the service. A record of adjudication of conduct by a juvenile court in the State of Ohio or by a juvenile court of any other State having a similar law is not a bar to enlistment under section 1118, Revised Statutes. No waivers will be granted for Air Force enlistees.

(10) Men who have criminal charges filed and pending against them alleging a violation of a State, Federal, or Territorial statute but as alternative to further prosecution, indictment, trial, or incarceration for such violation, are granted by a court, a release from the charge on the condition that they apply and are accepted for enlistment in the Regular Army or Air Force. No waivers will be granted.

(11) Men under parole or probation from any civil court. No waivers will be granted.

(12) Men having frequent difficulty with law enforcement agencies, criminal tendencies, a long history of antisocial behavior, questionable moral character, or traits of character which render them unfit to associate with other men. The commanding general of each army (after complete investigation through local law enforcement agencies), may waive this disqualification for Regular Army enlistees. No waivers will be granted for Air Force enlistees.

(13) Men who have an active or chronic venereal disease. No waivers will be granted.

(14) Men who apply for enlistment from civilian life and who claim prior honorable service in the armed forces, but who are unable to produce their discharge certificate or other written evidence of last active service, until verification of such service is received from The Adjutant General.

(15) Enlisted men attending officer-candidate schools. Upon relief from officer candidate schools, having failed to achieve graduation and appointment, former candidates may be discharged and enlisted as provided herein.

(16) Applicants from civilian life who fail to meet the prescribed mental requirements. No waivers will be granted.

(17) Men who are illiterate. No waivers will be granted.

(18) Men discharged from the Army, Navy, Air Force, Marine Corps, or Coast Guard whose total time lost under Article of War 107 (or time lost under similar circumstances in the Navy, Coast Guard, or Marine Corps) was 60 days or more in the case of Army enlistees, or 30 days or more in the case of Air Force enlistees, during their last period of enlistment or period of active service.

(19) Men who have made application for retirement. No waivers will be granted.

(20) Any man receiving disability pension, compensation, or retirement pay benefits from the Veterans' Administration, unless such pension, compensation, or retirement pay is waived by the individual at the time of enlistment.

(21) Any man who is on a retired status from the Regular Army, whether retired for disability or length of service.

(22) Any man receiving retired or retainer pay from the Navy, Marine Corps, or Coast Guard. No waivers will be granted.

(23) For the Air Force only, married men without prior service, except those qualified for enlistment in one of the first three grades under Air Force directives. No waivers will be granted.

(24) Men last discharged under the provisions of paragraphs 4a or b, or 6, AR 615–367 (Resignation).

§ 571.2 *Period and grades*—(a) *Period of enlistment.* (1) Enlistments are authorized in the Regular Army for 2, 3, 4, 5, or 6 years, and in the Air Force for 3, 4, 5, or 6 years, at the option of the individual enlisting. ("Enlistments" as used in this paragraph will mean enlistment in the Regular Army or Air Force, of any man who has not heretofore served in the Regular Army or Air Force.)

(2) Reenlistments are authorized for 3, 4, 5, or 6 years at the option of the individual reenlisting. ("Reenlistment" as used in this paragraph will mean reenlistment in the Regular Army or Air Force, of any man who has previously served in the Regular Army or Air Force regardless of time previous service was performed.)

(b) *Grades in which enlisted; former enlisted men and individuals with no prior service*—(1) *Grade in which enlisted.* Applicants for enlistment in the Regular Army or Air Force will be enlisted in the grades specified below:

(i) Individuals honorably discharged from the Army or the Air Force, except those men discharged under the provisions of AR 615–367 (Resignation) may enlist in the grade held at time of such discharge, provided they enlist for 3, 4, 5, or 6 years within 90 days from date of last discharge. (Reservists recalled to active duty for training purposes are not eligible for enlistment under the provisions of this subdivision even though enlistment is accomplished within 90 days from date of separation from such active duty training status. Reservists recalled to extended duty, as distinguished from training, are eligible for enlistment in a grade to be determined by the appropriate army commander, or the Chief of Staff, United States Air Force, not lower than that authorized by WD Pamphlet 12–16, nor higher than that held at date of release from active duty, provided enlistment is accomplished within 20 days after date of release from active duty.)

(ii) Certain applicants who are not eligible to enlist in the Regular Army or Air Force in a grade higher than the seventh grade under the provisions of subdivision (i) of this subparagraph, may be enlisted in grades commensurate with their prior training and experience as specifically authorized in WD Pamphlet 12–16, except that enlistments of individuals last discharged under the provisions of paragraph 3, AR 615–367, will be accomplished in a grade which is at least one grade lower than that held at time of last discharge.

(iii) Individuals who have had satisfactory active service in the Army, Navy, Air Force, Coast Guard, or Marine Corps of at least 4 months and who are otherwise qualified and acceptable, if not eligible to enlist in a higher grade, will be enlisted in grade six.

(iv) All other applicants, including those last discharged under the provisions of paragraph 5, AR 615–367, except as authorized in paragraph (c) of this section, will be enlisted in grade seven.

(2) *Date of rank.* Men enlisted in grades higher than grade seven, under the provisions of subparagraph (1) (i) of this paragraph, will be given the same date of rank as that held at the time of discharge from active service.

(c) *Grades in which enlisted: former officers, warrant officers, and flight officers*—(1) *Grade in which enlisted.* (i) An applicant for enlistment whose last period of active service in the Army or the Air Force was in the status of commissioned officer or warrant officer, whose release from such status was under honorable conditions, and who enlists for 3, 4, 5, or 6 years within 90 days from date of release from active service, will be enlisted in grade one, except as prescribed in (a), (b), or (c) of this subdivision. (Reservists recalled to active duty for training purposes are not eligible for enlistment under the provisions of this subparagraph even though enlistment is accomplished within 90 days from date of separation from such active duty training status.)

(a) An applicant for enlistment whose last period of active service was in the status of commissioned officer or warrant officer, if enlistment in the Air Force is desired, will be enlisted in a grade to be prescribed by the Chief of Staff, United States Air Force.

(b) In addition to the exception cited in (a) of this subdivision, an applicant for enlistment whose last period of service was in the status of a commissioned officer or warrant officer in the Air Force, if enlisted for assignment other than Air Force is desired, will be enlisted in a grade to be prescribed by the appropriate army commander or head of administrative or technical service concerned. (This does not apply to commissioned officers and warrant officers of the Army on duty with the Air Force.)

(c) In addition to the exceptions cited in (a) and (b) of this subdivision, an applicant whose last period of active service in the status of a commissioned officer or warrant officer commenced subsequent to March 22, 1948, is not eligible for enlistment in grade one under this authority. Enlistment grade will be determined as prescribed in subdivision (ii) of this subparagraph.

(ii) An applicant for enlistment whose last period of active service in the Army or the Air Force was in the status of commissioned officer, warrant officer, or flight officer, whose release from such status was under honorable conditions, and who is not eligible to enlist under the provisions of subdivision (i) of this subparagraph, may be enlisted in a grade commensurate with his prior training and experience as specifically authorized in Army or Air Force directives.

(2) *Reenlistment of men who served on active duty as Reserve officers or who were discharged to accept commissions as officers or appointment as warrant officers.* (i) Any enlisted man of the Regular Army who serves on active duty as a reserve officer of the Army of the United States or who is discharged to accept a commission in the Army of the United States, will be entitled to reenlist in the

Regular Army or Air Force in the permanent grade held in the Regular Army immediately preceding such commissioned service, provided application for reenlistment is made within 6 months after termination of such commissioned service.

(ii) Any enlisted man of the Regular Army who is discharged to accept a temporary appointment as a warrant officer in the Army of the United States will be entitled to reenlist in the Regular Army or Air Force in the permanent grade held in the Regular Army immediately preceding such warrant officer service, provided application for reenlistment is made within 6 months after termination of such warrant officer service.

(iii) Any enlisted man of the Regular Army who is discharged to accept a temporary appointment as a warrant officer in the Army of the United States, and such temporary appointment as a warrant officer is terminated to accept a commission in the Army of the United States, will be entitled to reenlist in the Regular Army or Air Force in the permanent grade held in the Regular Army immediately preceding such warrant officer service, provided application for reenlistment is made within 6 months after termination of such commissioned service.

(iv) Former Regular Army enlisted men who held specialist ratings in the Regular Army immediately preceding the commissioned or warrant officer service will be reenlisted in grades indicated in the conversion table below, if they apply for reenlistment within the time limits specified in subdivisions (i), (ii) and (iii) of this subparagraph, and are otherwise qualified:

Old grade and rating	*Reenlistment grade*
Private first class, specialist first class	Technician, fourth grade, or sergeant.
Private, specialist first class	Do.
Private first class, specialist second class	Do.
Private, specialist second class	Do.
Private first class, specialist third class	Technician, fifth grade, or corporal.
Private, specialist third class	Do.
Private first class, specialist fourth class	Do.
Private, specialist fourth class	Private, first class.
Private first class, specialist fifth class	Private.
Private, specialist fifth class	Private, first class.
Private first class, specialist sixth class	Private.
Private, specialist sixth class	

(v) Conditions governing enlistments under subdivisions (i), (ii), (iii), and (iv) of this subparagraph are as follows:

(*a*) Active service as a commissioned officer or temporary warrant officer terminated honorably.

(*b*) Without regard to any physical disqualification incurred, or having its inception, while on active duty in line of duty.

(*c*) Without regard to whether or not a vacancy exists in the appropriate enlisted grade.

(*d*) All duty as a commissioned or warrant officer in the Army of the United States or any component thereof will be counted as service for all purposes.

§ 571.3 *Assignment*—(a) *Three-, four-, five-, or six-year enlistees; choices of service.* Individuals who enlist in the Regular Army or Air Force for 3-, 4-, 5-, or 6-year periods are authorized certain choices of service published in memorandums issued from time to time by The Adjutant General.

(b) *Enlistment for period less than 3 years.* Individuals who enlist in the Regular Army for any period less than 3 years will not be given a choice of assignment and will be enlisted in the Regular Army Unassigned, except in the case of specially recruited personnel where 2-year enlistments are authorized.

§ 571.4 *Transportation*—(a) *Transportation of accepted applicants.* (1) Transportation at Government expense from place of acceptance to designated place of enlistment will be furnished to an applicant only when he has been tentatively accepted for enlistment.

(2) Return transportation at Government expense to point of acceptance will be furnished only to applicants for enlistment who are rejected upon final examination; *Provided, however,* That return transportation will not be furnished to an applicant for enlistment who is rejected because of disqualification concealed by him at time of acceptance as an applicant.

(b) *Transportation of dependents and/or shipment of household goods.* Enlisted personnel of the first three grades are not entitled to transportation of dependents and enlisted personnel of the first four grades are not entitled to shipment of household goods at Government expense by virtue of discharge granted for the purpose of effecting immediate reenlistment in the Regular Army or Air Force. However, a discharge for the purpose of immediate reenlistment in the Regular Army or Air Force on the day following discharge is not considered a break in active service, so far as such personnel's right to transportation of dependents and/or shipment of household goods is concerned. Such personnel are, therefore, entitled to transportation of dependents and/or shipment of household goods at Government expense where a permanent change of station is involved in connection with reenlistment. Movement of dependents and household goods under such circumstances is also authorized from the place to which dependents were transported or the place at which household goods were stored pursuant to the act of 5 June 1942 (56 Stat. 315; 50 U. S. C. 764), to his present or subsequent permanent duty station. Personnel who enlist after a break in service are excluded from any of the foregoing benefits which accrue to them prior to their discharge.

AUTHORITY: §§ 572.1 to 572.10 issued under R. S. 161, 31 Stat. 752; 5 U. S. C. 22; 10 U. S. C. 107.

DERIVATION: AR 40-30, Sept. 1, 1942; AR 40-2030, Aug. 31, 1942.

CONTRACT SURGEONS

§ 572.1 *Authority to employ.* In emergencies civilian physicians may be employed as general (full-time) or special (part-time) contract surgeons under contracts entered into by the commanding generals of service commands for all installations and establishments under their control and in all other cases by The Surgeon General with the approval of the Secretary of the Army.

§ 572.2 *Duties and privileges.* The professional and administrative duties of a contract surgeon are the same as those of an officer of the Medical Corps, except in so far as they are limited by the fact that the contract surgeon does not perform his functions by virtue of military rank or commission. They are entitled to the same protection in their positions, and to the same respect and obedience as are commissioned officers. They are not eligible for detail on courts-martial, but may be detailed on councils of administration and other administrative boards. When subject to military law they may prefer charges.

§ 572.3 *Pay and allowances.* A contract surgeon serving full time receives the same pay and allowances for subsistence and rental as are authorized for officers serving in the second pay period, and is entitled to travel allowances when traveling under proper orders, and to leave of absence as provided for commissioned officers. A contract surgeon serving part time receives only the compensation specifically stipulated in his special contract.

§ 572.4 *Qualifications.* To be eligible for employment as a contract surgeon, the candidate must be a graduate of a reputable medical school legally authorized to confer the degree of M. D., and a licensed practitioner of medicine in good standing at the time the contract is made. He must also possess satisfactory moral, professional, and physical qualifications.

§ 572.5 *Contracts.* It is the policy of the Department of the Army to make or authorize general (full-time) contracts only under exceptional circumstances and upon a full representation of the necessity therefor.

EMPLOYMENT AND COMPENSATION OF CIVILIAN VETERINARIANS

§ 572.6 *General.* (a) When veterinary treatment, including medicine, nursing, and hospital care, is required for a public animal or an authorized private mount actually owned by an officer, and such care and treatment cannot otherwise be had, the commanding officer, on recommendation of the surgeon, may employ the necessary civilian service, and just accounts therefor will be paid from Medical Department appropriations.

(b) Accounts for consultation will not be allowed except in extraordinary cases.

(c) Surgical appliances will be paid for only upon satisfactory evidence of their necessity, and such evidence, except in cases of emergency, should be submitted to the commanding general of the service command for his approval before purchase.

§ 572.7 *Compensation for veterinary attendance.* (a) The compensation allowed to civilian veterinarians for veterinary attendance on public account at garrisoned stations will not exceed the following rates and, if the local charge per visit is less, the account will be rendered at the local rates:

(1) For attending veterinary sick call, five patients, or less, $4.00.

(2) For each patient in excess of five, 50 cents.

(3) For each additional visit to post or sick call on same day, when necessary, $4.00.

(b) Accounts arising at stations under exceptional circumstances, all accounts arising at other places, and accounts for special surgical services will be allowed at reasonable rates approved by the commanding general of the service command.

(c) When there is a large sick report and the service will be required for an extended period, application will be made to the commanding general of the service command for authority to employ a veterinarian by the month.

§ 572.8 *Compensation for tests and inoculations.* (a) The compensation allowed to civilian veterinarians for the administration of the intradermic mallein test for glanders (the only test authorized), the administration of tetanus toxoid, and encephalomyelitis vaccine to public animals or authorized private mounts, for shipment or other purposes when authorized by regulations or orders, will be at the following rates:

	Administration of tests and inoculation	One or more trips to read tests and complete other inoculations
Veterinarian not required to make a special visit:		
1 animal	$0.75	
Each additional animal on same day	.50	
Veterinarian required to make a special visit:		
1 animal	3.25	$3.00
Each additional animal on same day	.50	

(b) Additional compensation, irrespective of the number of animals tested, will be allowed for one return visit at the rate shown in column two of the table in paragraph (a) of this section only when a special visit is necessary for reading the test or completing the inoculation. In cases of doubt, such additional return visits as may be necessary to enable the veterinarian to sign the required veterinary health certificate will be made, but no compensation will be allowed for such additional visits.

(c) No civilian veterinarian will be employed to apply mallein test or to read it who is not legally authorized to apply the mallein tests by the Federal authorities or the authorities of the State in which the test may be required.

§ 572.9 *Compensation for physical examinations.* The compensation allowed to civilian veterinarians for the physical examination of public animals or authorized private mounts will be at the rates shown in the following table. Physical examinations referred to herein are authorized only when animals are being changed from one station to another or upon separation from the service.

	Physical examination
Veterinarian not required to make a special visit:	
1 animal	$0.50
Each additional animal on the same day	.50
Veterinarian required to make a special visit:	
1 animal	3.00
Each additional animal on the same day	.50

§ 572.10 *Civilian veterinarian practicing on military reservation.* A civilian veterinarian desiring to practice veterinary medicine on a military reservation must register his name with the post commander and must agree in writing to observe the rules and regulations relative to the protection of the command against communicable diseases that may be in force at the time or that may be promulgated thereafter.

Whenever a civilian veterinarian is summoned to take charge of a case of disease in any animal at a garrisoned station or in the possession of officers or enlisted men or civilian employees on duty thereat, the person responsible for the animal will at the same time inform the commanding officer, who will notify the station veterinarian or, in the absence of a veterinary officer, the station surgeon.

It will thereafter be the duty of the station veterinarian or, in the absence of a veterinary officer, the station surgeon, to ascertain if possible from the attending veterinarian or by personal examination of the patient, if deemed necessary, the nature of the disease and, if it proves to be communicable and a source of danger to the command, he will assume supervision of the case and will be responsible for all measures of isolation, prevention, and disinfection. The station veterinarian or surgeon will in all cases report the nature of the disease to the post commander in order that the latter may, if the interests of the service demand it, require the patient to be placed under charge of the veterinarian or surgeon.

APPOINTMENT IN MEDICAL, DENTAL, VETERINARY, MEDICAL SERVICE, ARMY NURSE, AND WOMEN'S MEDICAL SPECIALIST CORPS, REGULAR ARMY

AUTHORITY: §§ 573.1 to 573.6 issued under 35 Stat. 67, 40 Stat. 397, 41 Stat. 774, 49 Stat. 506, 1902; 10 U. S. C. 93, 125, 92, 122, 123, 151, 552b.

DERIVATION: AR 605-20, June 11, 1948.

§ 573.1 *Purpose.* The purpose of §§ 573.1 to 573.6 is to prescribe the procedure for the appointment of commissioned officers in Medical, Dental, Veterinary, Medical Service, Army Nurse, and Women's Medical Specialist Corps, Regular Army. Individuals fully qualified under § 573.2, with the exception of Veterinary and Medical Service Corps applicants, are eligible for immediate appointment. Fully qualified applicants, as provided in § 573.2, for Veterinary and Medical Service Corps appointment are eligible for the competitive tours as provided for from time to time in Department of the Army Circulars.

§ 573.2 *Eligibility.* (a) Each applicant for appointment must:

(1) Be a citizen of the United States. Applicants who are not citizens of the United States by birth must provide evidence of citizenship.

(2) Be of good moral character.

(3) Be found to be physically qualified for Regular appointment by meeting the physical standards prescribed by Army Regulations.

(4) Not be nor have been a conscientious objector.

(5) Not have been separated from any of the armed forces under other than honorable conditions.

(6) Not be nor have been a member of any foreign or domestic organization, association, movement, group or combination of persons advocating subversive policy or seeking to alter the form of Government of the United States by unconstitutional means.

(7) Have a record free of conviction by any type of military or civil court for other than minor traffic violations. Request for waiver may be made in the case of other minor violations which are nonrecurrent and which are not deemed prejudicial to performance of duty as an officer. Granting of a waiver will not be considered in the case of any individual who has been convicted of a crime involving moral turpitude.

(b) Specific requirements for each of the various corps are:

(1) *Medical Corps.* Each applicant at time of appointment must:

(i) Have reached his twenty-first birthday.

(ii) Be a graduate of a medical school acceptable to The Surgeon General and legally authorized to confer the degree of doctor of medicine or its equivalent.

(iii) Have had, subsequent to the completion of the prescribed course of instruction in such medical school, internship acceptable to The Surgeon General, or its equivalent in practical or professional experience as determined by The Surgeon General in each case. Persons who have completed 1 year internship in an Army hospital must be recommended for a regular appointment by the intern board of the hospital in which the applicant served his internship.

(2) *Dental Corps.* Each applicant at time of appointment must:

(i) Have reached his twenty-first birthday.

(ii) Be a graduate of a dental school acceptable to The Surgeon General and legally authorized to confer the degree of dental surgery or its equivalent. Persons who have completed 1 year internship in an Army hospital must be recommended for a regular appointment by the intern board of the hospital in which the applicant served his internship.

(3) *Veterinary Corps.* Each applicant at time of appointment must:

(i) Have reached his twenty-first birthday but not his thirty-second birthday; except that those applicants who have passed their thirty-second birthday may be appointed if the number of years, months, and days elapsed after their thirty-second birthday does not exceed 5 years and is less than or equal to the number of years, months, and days of active Federal commissioned service performed in the Army or Air Force of the United States or any component thereof after December 31, 1947.

(ii) Be a graduate of a veterinary college acceptable to The Surgeon General and legally authorized to confer the degree of doctor of veterinary medicine or its equivalent.

(iii) Be commissioned in the Veterinary Corps Reserve.

(iv) Have been selected for appointment in the Regular Veterinary Corps as a result of a competitive tour.

(4) *Medical Service Corps.* Each applicant at time of appointment must:

(i) Have reached his twenty-first but not his thirtieth birthday; except that those applicants who have passed their thirtieth birthday may be appointed if the number of years, months, and days elapsed after their thirtieth birthday does not exceed 5 years and is less than or equal to the number of years, months, and days of active Federal commissioned service performed in the Army or Air Force of the United States or any component thereof after December 31, 1947.

(ii) Be commissioned in the Medical Service Corps Reserve.

(iii) Have been selected for appointment in the Regular Medical Service Corps as a result of a competitive tour.

(5) *Army Nurse Corps.* Each applicant at time of nomination must:

(i) Have reached her twenty-first but not her twenty-eighth birthday.

(ii) Be a female.

(iii) Be unmarried. If divorced, documentary evidence of such divorce must be submitted.

(iv) Have no dependents under 14 years of age.

(v) Be commissioned in the Army Nurse Corps Reserve.

(vi) Immediately prior to appearing before the evaluation board, have served on extended active duty a period of not less than 6 months. Applicants who will attain the age of 27 years prior to completion of 6 months active duty may request approval from the Department of the Army to submit applications prior to completion of 6 months active duty.

(6) *Women's Medical Specialist Corps.* Each applicant at time of nomination must:

(i) Have reached her twenty-first but not her twenty-eighth birthday.

(ii) Be a female.

(iii) Be unmarried. If divorced, documentary evidence of such divorce must be submitted.

(iv) Have no dependents under 14 years of age.

(v) Be commissioned in the Women's Medical Specialist Corps Reserve.

(vi) Immediately prior to appearing before the evaluation board, have served on extended active duty a period of not less than 6 months. Applicants who will attain the age of 27 years prior to completion of 6 months active duty may request approval from the Department of the Army to submit applications prior to completion of 6 months active duty.

§ 573.3 *Determination of grade*—(a) *Permanent grades.* Appointments will be made in permanent grades as follows:

(1) Appointments in the Army Nurse Corps or Women's Medical Specialist Corps will be made in the grade of second lieutenant.

(2) Appointments in the Veterinary Corps or Medical Service Corps will be made in the grade of second lieutenant, unless the applicant is entitled to a higher grade by service credit as provided in paragraph (c) of this section.

(3) Appointments in the Medical Corps or Dental Corps will be in grades determined by applicant's age and active professional practice, excluding internships, but including residencies, and postgraduate training as follows:

Grade	Medical professional practice	Dental professional practice	Maximum age
	Years	*Years*	*Years*
First lieutenant	No	No	32
Captain	3	4	37
Major	10	11	42
Lieutenant colonel	17	18	48

However, an applicant who possesses particularly outstanding professional qualifications may be, upon approval of The Surgeon General, appointed in a higher grade than that to which entitled under the above provisions.

(4) Initial appointments in the Medical Corps or Dental Corps in the grade of colonel are authorized. Persons appointed in this grade will possess outstanding qualifications for special positions determined by the Surgeon General as requirements necessitate.

(5) No applicant will be appointed to a grade higher than he would have achieved had he entered the Regular Army when he first became eligible, except in extremely exceptional cases as determined by The Surgeon General.

(b) *Temporary grades.* Acceptance of appointment as a commissioned officer in the Regular Army will not, of itself, affect a higher temporary grade in which an officer on extended active duty is serving at the time. Officers not on extended active duty at time of acceptance of appointment as commissioned officers in the Regular Army will serve in grades to be determined by the Department of the Army. In some cases, this may be a higher temporary grade than the Regular Army permanent grade in which appointment is made. However, all higher temporary grades are subject to readjustment under general Department of the Army grade readjustment policies.

(c) *Service credit.* (1) For the purpose of determining grade, position on promotion list, permanent grade seniority, and eligibility for promotion, each person initially appointed and commissioned an officer in the Regular Army in the grade of first lieutenant in the Medical Corps or Dental Corps shall at time of appointment, be credited with an amount of service equivalent to the total period of active Federal service performed after attaining the age of 21 years as a commissioned officer in the Army of the United States or any component thereof subsequent to 31 December 1947, and prior to such appointment, up to a maximum of 5 years. In addition, for the purposes hereinabove specified, each person appointed and commissioned an officer of the Regular Army in the grade of first lieutenant in the Medical Corps shall at time of appointment, be credited with an amount of service equal to 4 years, and each person appointed and commissioned in the grade of first lieutenant in the Dental Corps shall at time of appointment be credited with an amount of service equal to 3 years.

(2) Any person appointed and commissioned in the Regular Army in grade of captain or higher in the Medical Corps or Dental Corps shall be placed at the bottom of the list in the grade in which appointed and shall ordinarily be credited at the time of appointment with an amount of service equal to the number of years of service of the officer under whose name he is immediately placed.

(3) For the purpose of determining grade, position on promotion list, permanent grade seniority, and eligibility for promotion, each person initially appointed and commissioned an officer in the Regular Army, in the Veterinary Corps or Medical Service Corps, shall at time of appointment, be credited with an amount of service equivalent to the total period of active Federal service performed after attaining the age of 21 years as a commissioned officer in the Army of the United States or any component thereof subsequent to 31 December 1947, and prior to such appointment, up to a maximum of 5 years of such service. In addition to the foregoing, and for the purposes hereinabove specified, each person appointed and commissioned an officer of the Regular Army in the Veterinary Corps shall at time of appointment, be credited with an amount of service equal to 2 years, and each person appointed and commissioned in the Medical Service Corps, who at the time of appointment holds a degree of doctor of philosophy or comparable degree recognized by The Surgeon General in a science allied to medicine, may be credited at the time of appointment with an amount of service equal to 3 years of such service.

§ 573.4 *Application.* (a) Applications may be submitted at any time on WD AGO Form 62 (Application or Supplemental Information for Commission in the Regular Army), or WD AGO Form 102 (Application for Commission in the Army Nurse Corps or Women's Medical Specialist Corps, Regular Army), in duplicate, both by persons who meet all the requirements of subparagraph (3) of this paragraph and by members of the Veterinary Corps and Medical Service Corps who desire to qualify by entering the competitive tour. Forms for application may be obtained at installations, Office of The Adjutant General and Office of The Surgeon General. The application will be accompanied by:

(1) A recent photograph of the applicant, head and shoulders type, not less than 3 by 5 inches.

(2) Evidence of internship (by Medical Corps applicants).

(3) Certificates based upon personal acquaintance from at least three reputable persons as to character, habits, and evidence of professional attainment. Diplomas and/or certificates evidencing graduation or completion of courses at medical, dental, veterinary, nursing or other professional schools or evidence of citizenship will not be submitted with the application. These must be submitted to the evaluation board for its inspection at the time of the applicant's appearance before it.

(b) Applications by persons in inactive or civilian status will be submitted in duplicate with accompanying papers direct to The Adjutant General, Attention: AGSO-R.

§ 573.5 *Evaluation and selection.* (a) Evaluation boards will be appointed by medical center or general hospital commanders, whichever is applicable. Such board will consist of a minimum of two senior officers of the corps for which the individual is applying and one senior officer of the Medical Corps.

(b) Named general hospitals listed below are designated as the stations in the zone of interior where evaluation boards will be appointed.

McCornack General Hospital, Pasadena, Calif.
Army and Navy General Hospital, Hot Springs, Ark.
Murphy General Hospital, Waltham, Mass.
William Beaumont General Hospital, El Paso, Tex.
Oliver General Hospital, Augusta, Ga.
Brooke General Hospital, Fort Sam Houston, Tex.
Percy Jones General Hospital, Battle Creek, Mich.
Fitzsimons General Hospital, Denver, Colo.
Tilton General Hospital, Fort Dix, N. J.
Letterman General Hospital, Presidio of San Francisco, Calif.
Valley Forge General Hospital, Phoenixville, Pa.
Madigan General Hospital, Tacoma, Wash.
Walter Reed General Hospital, Army Medical Center, Washington 12, D. C.

(c) The evaluation board of officers will:

(1) Establish with each applicant, a mutually satisfactory date for the appearance of the applicant before the board. Persons on active duty will be placed on temporary duty for this purpose. Travel and other expenses incident thereto by applicants not on active duty will not be borne by the Government.

(2) Verify applicant's educational background and citizenship by scrutiny of diplomas and other evidence submitted.

(3) Evaluate applicant by personal interview.

(4) Supervise the execution by applicant of WD AGO PRT 459 (Biographical Information Blank, Form E) for male applicants, or WD AGO PRT 723 (Army Nurse Corps and Women's Medical Specialist Corps Biographical Information Blank) for female applicants.

(d) Each applicant on presenting himself to the board will be accorded the right of challenge. The board will be sworn after the disposal of the challenge. The applicant will then be required to establish conclusively his citizenship and, if an applicant for the Medical Corps or Dental Corps, submit a diploma conferring on him the degree stated in § 573.4, or a proper certificate of graduation in lieu thereof. Should the applicant's diploma or certificate be unavailable temporarily his examination will be continued, subject to its later presentation to the board. Documents submitted by the applicant to establish citizenship and graduation will not be retained by the board. Failure by any candidate to submit proper evidence of citizenship will immediately terminate his examination.

(e) The evaluation for moral character and general fitness will include a review of the application and documents filed therewith, and such additional investigation as will enable the board to form an opinion as to whether the applicant has the moral qualifications, adaptability and aptitude required for appointment. The board will give the applicant opportunity to make any statements he may desire relative to any unfavorable reports received concerning him which can be made known to him without violation of the confidential nature thereof.

(f) No written professional examination will be required of any applicant.

(g) Each candidate will receive a complete final type physical examination which will conform in all respects to the standards for officers of the Regular Army. The findings relative thereto will be arrived at by the full board. The final decision as to the effect of any existing disability, as to waiver or disqualification, will be made in Headquarters, Department of the Army. The board will accordingly continue the examination of any applicant whom it considers physically disqualified for appointment unless he elects in writing to withdraw.

§ 573.6 *Appointment.* (a) The Adjutant General will officially tender appointments to approved applicants who are found to be physically qualified, obtain their acceptance or declination, notify them of their initial station and duty assignment, and transmit such further

instructions and information as may be necessary. For this and other reasons, it is imperative that applicants keep The Adjutant General (Attn: AGSO–R), informed of their current address at all times until assignment orders are received.

(b) Applicants who are not accepted will be so notified by The Adjutant General.

APPOINTMENT OF CHAPLAINS IN REGULAR ARMY

AUTHORITY: §§ 573.23 to 573.37 issued under sec. 24, 41 Stat. 774; 10 U. S. C. 231.
DERIVATION: AR 605–30, Dec. 16, 1941.

§ 573.23 *Grade.* Original appointments as chaplains will be made in the grade of first lieutenant.

§ 573.24 *General information relative to appointments.* The general plan to be followed in making appointment is as follows:

(a) Any person eligible to take the examination may submit an application at any time directly to The Adjutant General.

(b) Applicants regarded as eligible will be authorized to appear for examination for appointment as chaplains.

(c) The examination is to determine whether or not the candidate has the physical, educational, and professional qualifications requisite to the proper performance of the duties of a chaplain in the Regular Army.

(d) The grading of the examination records and the selection of candidates qualified for appointment will be accomplished under the provisions of §§ 573.34 and 573.36. Selections for appointment will be limited by the requirement that chaplains of the Army be distributed to various denominations or organizations, according to the needs of the service.

§ 573.25 *Eligibility for appointment.* To be eligible for original appointment as chaplain, a candidate must be at the time of the examination a male citizen of the United States; between the ages of 23 and 34 years; regularly ordained, duly accredited by and in good standing with some religious denomination or organization which holds an apportionment of chaplain appointments in accordance with the needs of the service; a graduate of both 4-year college and 3-year theological seminary courses; and actively engaged in the ministry as the principal occupation in life and be credited with 3 years' experience therein.

§ 573.26 *Applications*—(a) *Form.* Application for appointment should be made on the prescribed form for application for commission in the Regular Army (WD AGO Form No. 62). This form may be obtained from any military post or station or from The Adjutant General. The information given in the application must include the name of the religious denomination or organization in which the applicant is duly accredited and in good standing. The application must be accompanied by:

(1) Evidence of citizenship if of foreign birth.

(2) Certificate that he has requested the colleges and seminaries attended, that they submit to the Chief of Chaplains, Department of the Army, Washington, D. C., transcripts of all credits earned therein together with records of his relative standing in graduating class or classes. No candidate will be favorably considered until transcripts of college and seminary credits and a statement of the candidate's relative standing in his graduating class or classes have been received. The entire responsibility for having these forwarded to the Chief of Chaplains rests upon the applicant.

(3) Certificates as to character and habits based upon personal acquaintanceship from at least five reputable persons, two of whom are businessmen of the candidate's community.

(4) Evidence of the good standing of the applicant in a religious denomination or organization.

(b) *Forwarding.* An applicant will forward his application directly to The Adjutant General.

(c) *Action on.* The Adjutant General will disapprove the applications of any ineligibles, and will so notify them. Applications and accompanying papers of approved applicants will be promptly sent to the Chief of Chaplains for transmittal to the examining board designated to convene in his office. Applicants selected for examination will be notified by The Adjutant General to present themselves at the office of the Chief of Chaplains at the proper time.

§ 573.27 *Time and place of examination.* Examinations may be held whenever vacancies exist and applicants have been approved therefor. They will be conducted by a board convened in the office of the Chief of Chaplains. Physically disqualified applicants may be permitted to withdraw prior to the mental examination if they so desire.

§ 573.28 *Designation of candidates; convening of board; time and place.* The Adjutant General will prepare and maintain lists of and will designate applicants who are qualified to appear for examination. He will announce the dates for holding the examination in the office of the Chief of Chaplains, Washington, D. C. Examination questions will be delivered to the board by the Chief of Chaplains. Examinations will not be delayed or prolonged in order to accommodate candidates who do not report at the proper time.

§ 573.29 *General procedure of board.* The examining board will meet at the call of the president thereof. At the first meeting of the board, the members thereof will be sworn. Thereafter oaths will be administered only in the event of a change of membership. As each candidate appears before the board, his eligibility for appointment will be determined and he will be informed of the membership of the board and afforded opportunity to challenge any member thereof for cause. In the event of a challenge being sustained, the challenged member will withdraw during the examination of the challenging candidate. Such challenged members will not be replaced unless the board is reduced below four members, two of whom must be medical members. After the organization of the board, the candidate will be informed of the general scope and character of the examination and will be permitted to submit any letters or recommendations, testimonials, or claims for exemption from the mental examination, that he may desire to have considered. Opportunity will be afforded the candidate to have explained any parts of these regulations that are not understood by him. The examination will proceed in the order of physical examination, moral character and general fitness, and mental examination.

§ 573.30 *Physical examination*—(a) *General.* Each applicant will be subjected to a thorough and rigid physical examination, conforming to the standard prescribed by the Department of the Army. A Wassermann test will be made. The physical examination will be made complete in each case, even though a disqualifying defect is discovered, in order to ascertain whether or not any other defect exists. Should there be any doubt as to the disqualifying nature of physical defects, or should such defects be remediable, an applicant should not be deprived of the privilege of appearing for mental examination, if he desires to appear. The cause of physical rejection will be so clearly established and stated as to be conclusive as to the reasonableness and propriety of rejection. All physical defects must be made of record and made known to the applicant.

(b) *Waiving of physical defects.* (1) If the candidate is found to be physically disqualified, or to possess minor physical defects not in any way interfering with his future performance of duty, his examination will proceed with the understanding that final action as to waiver of physical defects rests with the Department of the Army.

(2) A candidate will not be accepted subject to performance of operations for the removal of physical defects, to future improvement in his physical condition, or to future examination.

§ 573.31 *Examination for professional fitness*—(a) *Moral character and general fitness.* (1) The board will inquire into the moral character and general fitness of the applicant. Examination will be made of the certificates regarding habits and moral character forwarded with the candidate's application and whatever additional letters and testimonials he may submit. The board will not confine its inquiry to the recommendations submitted, but will carefully question and judge the applicant and will secure additional information from reliable sources that will be of value in determining his moral character and general fitness for appointment. In addition to his moral character, the board will investigate, observe, and grade the applicant's personality, appearance, tact, bearing, platform appearance, delivery (including voice), and general adaptability to the military service.

(2) Findings as to moral character and as to general fitness will be clearly separated in the report of the board.

(3) If the board finds a candidate disqualified on account of moral character or general fitness he will be so informed and his examination will not be continued unless he so requests. Reasons for rejection must be so clearly stated in the board's report as to establish the reasonableness and propriety thereof.

(4) Any unfavorable reports considered during the examination for moral character and general fitness will be made known to the applicant so far as may be done without violating the confidential nature of such reports, and the applicant will be afforded opportunity to submit such explanation thereof as he may desire.

(b) *Written theses.* (1) Applicants shall be required by the board to write two theses, one on some vital topic of current events, the other dealing with some phase of psychology, sociology, or ethics, as it relates to the work of a clergyman.

(2) Candidates will be given 2 hours for the writing of each thesis.

(3) The examining board will grade the theses on coordination and development of theme, correctness of English, development of interest through style and content, and the mental alertness of the candidate as reflected in the thesis.

(c) *Educational fitness.* The relative standing of the educational fitness of the various candidates will be determined by an examination of their college and seminary transcripts, taking into consideration their relative standing in their graduating classes. Points will count as follows:

Average grade:	Points
70	125
75	150
80	175
85	200
90	225
95	250

(d) *Written examinations.* (1) If, after an examination of college and seminary transcripts of credits, the examining board finds that additional tests should be made, it may require any applicant or applicants to take a written examination, based on any standard college textbook, on one or more of the following subjects:

United States history.
General history.
Modern language (French, Spanish, or German).
Education.
Economics.
Political Science.
Philosophy, Psychology, and ethics.
Sociology.

To qualify for appointment, a grade of not less than 70 must be attained in each subject taken.

(2) Examinations will be written and the candidate will certify on each examination paper that he has received or given no unauthorized assistance during the examination. Questions will be prepared by the Department of the Army. Examinations in any subject will be taken simultaneously by all who are required to take them. Reexaminations will not be permitted. The results of these examinations will be given general consideration in the final selection of applicants for appointment.

§ 573.34 *Awarding of grades.* Examination papers will be graded under the supervision of the Chief of Chaplains.

In awarding grades, an aggregate of 2,500 will be allotted to the several subjects of the examination and will be apportioned as follows:

Subject	Points
Evidence of successful pastoral experience	400
Thesis on an assigned current event:	
Mental alertness	100
Development of interest through style and content	100
Correctness of English	100
Coordination and development of theme	100
Thesis on an assigned subject related to a clergyman's work:	
Mental alertness	100
Development of interest through style and content	100
Correctness of English	100
Coordination and development of theme	100
General fitness:	
Appearance	100
Bearing	100
Personality	100
Tact	100
Platform appearance	100
Delivery including voice	100
Adaptability to military service	200
Educational fitness as determined—	
By college transcript	250
By seminary transcript	250
Total	2,500

No candidate will be passed by the board who does not attain a minimum of 70 per cent in evidence of successful pastoral experience, thesis on current events, thesis relating to a clergyman's work, and general fitness, and a general average of 75 percent, a total of 1,875 points.

§ 573.35 *Order of appointment.* The total points attained by each qualified candidate in the examination will determine his relative order of appointment in accordance with vacancies in the denominational quotas.

§ 573.36 *Selection of appointees.* (a) No person will be appointed without a thorough examination to determine his fitness for appointment. While the selection of appointees will be based largely on examinations, due consideration will be given to any military records on file in the Department of the Army.

(b) Upon the completion of the grading of examination papers, the board of review will transmit its report to the Chief of Chaplains to consider the complete examination reports and any Department of the Army and Army area records of the candidates in connection with the vacancies to be filled.

(c) The report of the board will state the general average of each candidate and will, from such average and the records, determine whether or not each candidate is, in its opinion, qualified for appointment. Qualified candidates will be arranged in the order of averages attained in the examination for appointment. Between candidates having equal averages, priority of selection will be given to candidates holding commissions as chaplains in the Officers' Reserve Corps or in the National Guard. The findings and recommendations of the board and recommendations of the Chief of Chaplains will be transmitted to The Adjutant General for the action of the Secretary of the Army.

§ 573.37 *Appointment; notification of rejection.* The Adjutant General will cause appointments to be tendered in accordance with recommendations approved by the Secretary of the Army, as provided in § 573.36 and will cause proper notification to be sent to candidates who have not been selected. Prior to such notification, no information will be given concerning candidates under consideration. Appointees will be given a reasonable time to accept appointment and to report for duty.

OFFICERS APPOINTED IN THE ARMY OF THE UNITED STATES UNDER THE PROVISIONS OF THE ACT OF SEPTEMBER 22, 1941

AUTHORITY: §§ 573.200 to 573.218 issued under 55 Stat. 728; 10 U. S. C., 484 (note).
DERIVATION: AR 605–10, May 26, 1944.

§ 573.200 *Appointments; general provisions.* (a) The regulations contained in §§ 573.200 to 573.218 (AR 605–10) govern appointments made in the Army of the United States under the provisions of the act of September 22, 1941 (55 Stat. 728; 10 U. S. C. 484 (note)). Such appointments are made for the purpose of providing, during the present emergency, necessary additional officer personnel that cannot be provided by the Regular Army, the National Guard of the United States, and the Officers' Reserve Corps.

(b) The provisions of §§ 573.200 to 573.218 (AR 605–10) are not applicable to temporary appointments in the Army of the United States made under authority other than that contained in the above mentioned act; and nothing contained here prohibits or affects appointments or promotions in other components of the Army of the United States under existing laws and regulations.

§ 573.201 *Duration of appointments.* All appointments are made for the duration of the present emergency and 6 months thereafter, unless sooner terminated.

§ 573.202 *Command and administration.* (a) Except as specifically indicated herein, the command and administration of officers appointed under §§ 573.200 to 573.218 (AR 605–10), including the functions of procurement, assignment, promotion, transfer, and discharge, will be accomplished in accordance with current regulations and instructions of the Department of the Army governing the Officers' Reserve Corps.

(b) Officers of the Army of the United States appointed under §§ 573.200 to 573.218 will, while on active duty, be subject to such laws and regulations for the government of the Army as are applicable to personnel whose permanent retention in the military service is not contemplated by law, and will be entitled to the same rights, privileges, and benefits as members of the Officers' Reserve Corps.

§ 573.203 *Procurement objective.* (a) Initial appointments in the Army of the United States will be made in such numbers and in such grades as may be specifically authorized from time to time by the Department of the Army for the several arms and service and Department of the Army agencies. These authorizations will constitute procure-

ment objectives for all appointments and will not be exceeded.

(b) The prescribed student training capacity of an officer candidate school constitutes an approved procurement objective for the appointment of all successful graduates of such school.

(c) Procurement objectives for appointments other than graduates of officer candidate schools will normally be approved only for those arms and services and other Department of the Army agencies which require officers for overhead duties that can be performed by persons without general military training.

(d) Procurement objectives will not be approved solely to permit the appointment of a named individual.

§ 573.204 *Age and citizenship requirements.* An officer of the Army of the United States must at the time of appointment be a citizen of the United States or of the Philippine Islands, or a citizen of a cobelligerent or friendly country who otherwise possesses the same qualifications as a citizen of the United States, between the ages of 18 and 60 years.

§ 573.205 *Categories disqualified for appointment.* Any individual in any of the following categories is disqualified for initial appointment in the Army of the United States.

(a) Cadets, United States Military Academy.

(b) Persons qualified and eligible for appointment in the Officers' Reserve Corps under existing regulations.

(c) Persons on either the active or reserve list of the Navy, Marine Corps, Coast Guard, Public Health Service, and Coast and Geodetic Survey.

(d) Civilian officers or employees of the United States or of the District of Columbia, without the written consent of the head of the department or service concerned.

(e) Persons subject to induction under the Selective Training and Service Act of 1940, as amended, whose induction has been ordered.

(f) Persons whose proposed duties are being or can be performed adequately by available civilian personnel.

(g) Persons whose services will not be immediately available to the Department of the Army upon being appointed to commissioned grade.

(h) Former commissioned officers of the Navy, Marine Corps, Coast Guard, or of any component of the Army of the United States, whose appointment is prohibited by the provisions of paragraph (e) of this section, or whose commissions were terminated because of inefficiency or under other than honorable conditions: *Provided*, That former commissioned officers of these categories who are on active military service in warrant or enlisted status may be appointed upon the approved recommendations of a board of officers convened for the purpose of determining the professional and moral fitness of the particular applicant for appointment. (See also § 573.206 (c).)

§ 573.206 *Grades in which appointed.* Appointments may be made in any grade for which the appointee is qualified and eligible, subject to the following limitations:

(a) Graduates of officer candidate schools will be initially appointed as second lieutenants only.

(b) Appointments in the Medical Corps, Dental Corps, Veterinary Corps, and for duty as chaplains will be limited to first lieutenant to colonel, both inclusive.

(c) (1) If a former commissioned officer of the Army, Navy, Marine Corps, or Coast Guard of the United States applies for a commission after his induction under the Selective Training and Service Act of 1940 he will make application through his immediate commanding officer. If recommended by the examining board, he may be appointed to a grade not higher than that formerly held by him.

(2) If recommended for a commission in the Army prior to his call for induction under the Selective Training and Service Act of 1940 and he is otherwise qualified for the position in accordance with § 573.205, a former commissioned officer may be appointed, irrespective of his age or Selective Service status, to a grade commensurate with his ability.

§ 573.207 *Qualifications for initial appointments.* (a) Normally, applicants for initial appointment will be required to qualify as to military and nonmilitary education under the standards established for appointment to corresponding grade in the Officers' Reserve Corps, except that military and nonmilitary educational requirements may be waived in whole or in part upon the recommendation of the arm or service concerned.

(b) In the case of persons recommended for appointment from civil life as commissioned officers in the Army of the United States, the recommendation must include satisfactory evidence that the recommended individual possesses special qualifications, and that these special qualifications are required in the position to which he is to be assigned if commissioned, and that individuals of the required qualifications are not readily available in the ranks of the Army. (See § 573.205 (f).)

(c) Appointments for Table of Organization positions in approved authorized affiliated units of the Medical Department, Ordnance Department, Corps of Engineers, Quartermaster Corps, or Signal Corps, and appointments for the electronics training group, Signal Corps, that formerly would have been made in the Officers' Reserve Corps, will be made in the Army of the United States. Appointments in affiliated units will not be made unless the person to be appointed is a bona fide officer or employee or member of the organization, institution, or association sponsoring the affiliated unit and is otherwise qualified under the regulations in this part.

(d) When a commander of United States forces outside the continental United States is granted special authority by the Department of the Army to appoint or to recommend the appointment of officers, Army of the United States, the qualifications for appointment will be as indicated in the special Department of the Army instructions authorizing the appointments.

§ 573.208 *Applications for appointment.*—(a) *General.* Except for graduates of officer candidate schools, applications for initial appointment in the Army of the United States will be submitted and processed as follows:

(1) *Form of application.* WD AGO Forms Nos. 0850 and 0850a (Personnel Placement Questionnaire).

(2) *Accompanying papers.* Each application for appointment will be accompanied by:

(i) Report of Physical Examination (WD AGO Form No. 63 or 64, as applicable). (See §§ 573.216 to 573.218.)

(ii) A statement that the recommended appointee is or is not a Selective Service registrant.

(iii) If a Selective Service registrant, a certificate from the appointee's local board giving his Selective Service classification, and certifying that his induction has or has not been ordered.

(iv) If an enlisted man or warrant officer, evidence that he meets the requirements of paragraph 9*b*, AR 605–10,[1] to include report of examining board.

(v) A statement by the recommending authority as to the specific assignment or duty for which the appointment is desired, and indicating the approved procurement objective under which appointment is authorized.

(3) *How forwarded.* Applications, with accompanying papers, will be forwarded through military channels to the Officer Procurement Branch, AGO, Department of the Army, Washington, D. C.

(4) *Final action.* Final action after receipt of papers by the Officer Procurement Service will be in accordance with current instructions to that Branch.

(b) *Graduates, officer candidate schools.* Applications for appointment from individuals selected to attend officer candidate schools will be processed in accordance with current instructions of the Department of the Army governing officer candidate schools.

§ 573.209 *Designation of arm or service.* (a) In the case of appointment of graduates of officer candidate schools, the designation of the school from which graduated will be stated in the notice of appointment.

(b) All other appointments under §§ 573.200 to 573.218 will be without reference to an arm or service, except that, in the case of appointment of a chaplain or for service in the Medical Department, service for which appointed will be stated in the notice of appointment.

§ 573.216 *Physical standards.* The physical standards for appointment and promotion, for retention of commission, and for entry upon active duty of an officer appointed in the Army of the United States under §§ 573.200 to 573.218 (AR 605–10) are those prescribed for the Officers' Reserve Corps in AR 40–100,[1] 40–105,[1] and, when applicable, 40–110,[2] all as supplemented or modified by current Department of the Army instructions.

[1] Administrative regulations of the Department of the Army relative to officers appointed in the Army of the United States.

§ 573.217 *Physical examinations.* Physical examination of applicants for appointment, and of officers appointed in the Army of the United States, will be required and conducted as prescribed for members of the Officers' Reserve Corps in Army Regulations and current Department of the Army instructions supplementary thereto. Examinations of the scope prescribed for Reserve officers ordered to extended active duty are mandatory prior to initial appointment, upon being ordered to active duty, and upon completion of active duty. (See § 573.208 (a)).

§ 573.218 *Waiver of physical defects.* Deviations from normal physical standards that will not interfere with nor prevent the full and satisfactory performance of the duty for which the individual is being appointed or is being ordered to active duty, and that are not of a nature likely to be aggravated to a disabling degree by active military service, may be waived in the manner and under the conditions authorized in current Department of the Army instructions.

APPOINTMENT OF WARRANT OFFICERS

AUTHORITY: §§ 573.300 to 573.319, issued under 54 Stat. 1177, 55 Stat. 651, 652, 1177; 10 U. S. C. 591–599.

DERIVATION: AR 610–10, Sept. 28, 1944.

GENERAL INFORMATION

§ 573.300 *Eligibility.* The following persons are eligible to apply for appointment as warrant officer, junior grade:

(a) Commissioned officers of the Army of the United States (except those commissioned in the Regular Army) and former officers of the Regular Army whose separation from active service was under honorable conditions.

(b) Enlisted men of the Army of the United States and former enlisted men of the Regular Army who were discharged under honorable conditions.

All applicants must be male citizens of the United States between the ages of 21 and 45 years, physically qualified, and have completed at least 1 year's active duty in the Army of the United States on the final date applications are due to be submitted to organization commanders. (See also § 573.310.)

§ 573.302 *Examinations.* General examinations will be conducted under the supervision of Army area commanders.

(a) *Preliminary.* A preliminary examination will be conducted at each post by a board of officers who will examine the applications and reports of physical examination, interview the applicants, and determine whether or not they possess the moral character, general fitness, and educational and technical qualifications necessary to justify their further consideration.

(b) *Final.* A final written examination will be conducted by post commanders under the supervision of army area commanders and in accordance with special instructions issued by the Department of the Army. This examination in general will consist of two parts: First, a general educational examination taken by all applicants; and second, a technical examination to determine the applicant's specialist qualifications.

These examinations will be scored by Army area commanders under instructions issued by the Department of the Army.

§ 573.303 *Appointments.* (a) Successful applicants will be reported by army area commanders to the Department of the Army. From a consolidated report, arranged by classifications and examination scores in both educational and technical tests, the Department of the Army will prepare eligible lists. The scores of both tests will be converted into percentile scores (percentage of cases up to and including a score), and the average of these two percentiles will be the composite score that will determine the order of eligibility within each classification. Appointment will be tendered to successful applicants in such numbers as may be required to fill existing vacancies. An additional number of successful applicants necessary to cover possible vacancies will be carried on eligible lists for appointment until the next succeeding examination for appointment is held. All original permanent appointments as warrant officer, junior grade, will be probationary for a period of 3 years. See § 573.313.

(b) If a successful applicant is serving on active duty as a commissioned officer or chief warrant officer in the Army of the United States and is under age 45 at the time his name is reached on the eligible list for appointment as a warrant officer, junior grade, to fill an existing vacancy, such applicant, if found physically qualified at that time, will be tendered a selection letter advising him of his selection for appointment upon honorable termination of active duty. The recipient of a selection letter whose active service as a commissioned officer or chief warrant officer terminates honorably and who applies for such appointment within 6 months after the termination of his active service will, irrespective of physical disqualification incurred or having its inception while on active duty in line of duty, be given such appointment if a vacancy within the authorized allotment of warrant officers, junior grade, Regular Army, exists at the time he applies for such appointment. To insure the existence of such vacancies, a vacancy will be reserved for the recipient of each selection letter until he applies for such appointment or notifies The Adjutant General of his intention not to enter such application, but not longer than 6 months after the termination of his active service. The date of rank upon appointment is the date of the selection letter, except that if an applicant reaches his 45th birthday after his name has been reached on the eligible list, to fill an existing vacancy, but before completion of the administrative procedures incident to issuance of a selection letter, he will, if physically qualified, be tendered a selection letter specifying the date of rank as the day preceding his 45th birthday.

ELIGIBILITY

§ 573.304 *Age.* All applicants must have attained their 21st birthday and must not have passed their 45th birthday at the time of their appointment, except that applicants holding selection letters under the provisions of § 573.303 (b), and who pass their 45th birthday subsequent to the effective date of their selection letters, may be appointed. If in active military service, applicants may be permitted to apply for appointment provided they are not less than 20 years and 9 months nor more than 44 years and 9 months of age on the date of final examination.

§ 573.305 *Grade.* (a) Permanent appointments in the Regular Army as warrant officer, junior grade, will be tendered only to officers (except Regular Army officers), temporary warrant officers, and noncommissioned officers of the Army of the United States, and to former officers and noncommissioned officers of the Regular Army, whose separation from active service was under honorable conditions.

§ 573.306 *Service requirements.* Permanent appointments in the Regular Army as warrant officers, junior grade, will be tendered only to officers and noncommissioned officers who have completed 3 years' continuous service on active duty in the Army of the United States.

§ 573.307 *Physical standards.* All applicants will be required to meet the physical standards prescribed for appointment as commissioned officers. See paragraph 18, AR 40–105.[1]

§ 573.308 *Education.* The general educational examination is considered to require graduation from an accredited high school, or the equivalent thereof, in order to obtain a qualifying mark. Certain technical examinations are considered to require the equivalent of 2 years of college, business, or trade school, or the equivalent thereof, in order to obtain a qualifying mark. The application of any candidate who received a score of less than 110 on the Army general classification test will be returned disapproved.

§ 573.309 *Civilian experience.* In cases where civilian experience is similar to that of the warrant officer classification for which appointment is being sought, consideration will be given for this experience as a substitute for a portion of the military service requirement prescribed in § 573.306. For details see §§ 573.318 and 573.319.

APPLICATION, EXAMINATION AND APPOINTMENT

§ 573.310 *Submission of application.* Application for appointment will be made on WD AGO Form No. 61 or a legible

[1] Administrative regulations of the Department of the Army relative to standards of physical examination.

[2] Administrative regulations of the Department of the Army relative to standards of physical examination for flying.

facsimile thereof. The application will be accompanied by a completed WD AGO Form No. 63 (Report of Physical Examination) and will be submitted to the applicant's unit or detachment commander. Persons not in active military service will submit their applications to the nearest Army post commander. Applications will be submitted not later than September 30 of each year in which an examination is held. When special examinations are announced by the Department of the Army, the date of submission of applications will be indicated in such announcement.

§ 573.311 *Preliminary examination*—(a) *Action by post commander.* When all applications have been received, the post commander will appoint a board of officers to conduct the preliminary examination. Wherever the appointment of a board is impracticable, report will be made to the army area commander who will make suitable arrangements for the conduct of the preliminary examination.

(b) *Examination by board.* The board will carefully examine all applications and reports of physical examinations. Each applicant will appear before the board and will be interviewd by the members thereof. The applicant's past experience and general adaptability in military service, with particular reference to the appointment which he is seeking, will be carefully investigated. The board will observe the applicant's personality, appearance, bearing, moral character, and general fitness for military service. The purposes of the preliminary examination in general will be to eliminate from further consideration those applicants whose future value to the military service is questionable.

§ 573.312 *Final examinations* — (a) *Action by post commanders.* When an examination is announced by the Department of the Army and Educational and technical examinations will be conducted by the post commander, who will appoint necessary boards of officers to supervise and conduct the final examination in accordance with special instructions issued by the Department of the Army in connection therewith.

(b) *Educatjonal.* The educational examination will be given to all applicants. This examination is designed to ascertain the extent to which the applicant possesses the general education required of warrant officers in the Army. It will test the applicant's powers of comprehension, judgment, and reasoning, and his knowledge of English, United States history, and contemporary affairs. A brief description of the subject matter covered in the educational examination follows:

(1) *Part I; comprehension*—(i) *Section 1; vocabulary.* This section is designed to measure the candidate's knowledge of military terms and general terms widely used in military language.

(ii) *Section 2; reading comprehension.* This section requires the ability to comprehend details and select the principal ideas in portions of Army Regulations quoted.

(iii) *Section 3.* This section measures the ability to read and interpret charts, paragraphs, and indexes widely used in different types of regulations, manuals, and military documents.

(2) *Part II; judgment and reasoning*—(i) *Section 1.* This section measures the ability to reason in arithmetic problems, employing simple computations in addition, subtraction, multiplication, division, including decimals, percentages, and proportions.

(ii) *Section 2.* This section requires the ability to make reasonably sound decisions from a number of given facts in both theoretical and real situations.

(iii) *Section 3.* This section measures the ability to make approximate estimates for common sense interpretation of everyday numerical facts.

(3) *Part III; English expression*—(i) *Section 1.* This section is designed to measure the ability to use correct English and to recognize clear and effectively written expressions. It does not measure the ability to state specific rules of technical grammar, but it measures the ability to apply and recognize correct grammatical principles.

(ii) *Section 2.* This section is designed to measure the ability to arrange sentences properly within a paragraph and to arrange an outline.

(4) *Part IV; History and contemporary affairs.* This section is designed to provide a measure of the candidate's knowledge of and ability to interpret contemporary affairs, and the significance of important events in United States history.

(c) *Technical.* This examination is designed to test the applicant's knowledge and technical qualifications for the position for which he is applying. Separate examinations will be given for the respective classifications listed in AR 610–10. The general scope of the various technical tests is given in §§ 573.318 and 573.319.

§ 573.313 *Final list of applicants* (a) Upon the receipt of all reports from army area commanders the Department of the Army will prepare a final list of successful candidates in order of military grade, length of service, and age.

(b) This list will establish the order from which appointments will be made and where appointments are made on the same day, will establish the seniority of appointees.

§ 573.314 *Permanent appointments.* Permanent appointments as warrant officers, junior grade, United States Army, will be tendered successful applicants in order of their standing on the final lists. Each warrant officer so appointed will be classified according to the administrative or technical specialty for which he was examined and his classification will be designated upon his warrant. Warrant officers will be assigned to duty with the various arms and services with due regard to prior service, classification for which examined, the requirements of the arm or service concerned, and individual preference. All permanent appointments in the Regular Army as warrant officer, junior grade, will be probationary for a period of 3 years.

§ 573.315 *Eligible list.* The names of qualified applicants who are not immediately appointed will be carried on an eligible list until the next succeeding examination, but in no case longer than 1 year. Vacancies occurring subsequent to the final examination and prior to the next succeeding examination may be filled by appointments from this eligible list, subject to physical examination.

§ 573.316 *Temporary appointments.* In time of war or national emergency qualified applicants who do not receive permanent appointments may be given temporary appointments which will remain in effect at the pleasure of the Secretary of the Army, but in no case extend beyond 6 months after the end of the war or period of national emergency.

§ 573.317 *Future examinations.* The fact that an applicant's name has been borne on an eligible list or that an applicant has been tendered a temporary appointment will not exempt such applicants from future examinations for permanent appointment as warrnat officers in the Regular Army.

§ 573.318 *General scope of final examination (technical); administrative-clerical*—(a) *General.* The final examination will cover the following subjects: organization of the Army; organization of the Adjutant General's Department; general duties of The Adjutant General; staff data; military personnel; personnel management and personnel records, recruiting, the wearing of the uniform, pay and allotments, Government life insurance, efficiency reports, military discipline, prisoners, honors and awards, and the deceased; appointment and reduction, leaves, transfers, furloughs, foreign service, physical inspections, and separation from the service; rations and clothing, salvage and laundry activities, transportation of baggage, sale of supplies and services; Army Regulations covering administration of service commands, posts, camps, stations, and exchanges; administration and training of Reserve officers; Army Regulations covering correspondents, safeguarding military information, and strength returns.

(1) *Auditing and accounting.* The organization of the Inspector General's Department; principles and methods of accounting and double-entry bookkeeping, especially a knowledge of profit-and-loss statements, balance sheet, general and Army practices in classifying, debiting, and crediting, posting, and closing accounts; sales of goods and services to enlisted men.

(2) *Judge Advocate General's Department.* Important subject matter covered in the Manual for Courts-Martial, United States Army (1928), including the current circulars and memoranda pertaining thereto, and the Articles of War and other appendices; military personnel; management and records; recruiting; wearing of the uniform; efficiency reports; designation of beneficiaries; awards; leaves, furloughs, passes, delays, transfers, details, assignments, traveling, and separation from the service; general provisions relating to pay; prisoners; the deceased; organization of the Army; general duties with which The Adjutant General is charged; organization and

operation of The Adjutant General's Department; staff data; general provisions for warrant officers; expenses of courts martial, courts of inquiry, military commissions, and retirement boards; administration of posts, camps, and stations; exchanges.

(b) *Fiscal-auditing and disbursement.* The subject matter covered in the entire series of Army Regulations and Department of the Army circulars pertaining thereto which relate to the Finance Department; all Finance Department circulars.

(c) *Supply*—(1) *General.* Procurement of supplies; the Quartermaster Corps; transportation of troops, supplies, and baggage; salvage, laundry, and ice services; unserviceable property; collection and disposal of waste material; rations and subsistence stores; items and price list of supplies; bills of lading; standard quantities of heat, light, and electric power; fire protection; the Finance Department; monetary allowances; property; requisitioning, receipt, issue, sales, and accountability and responsibility; expendable, lost, destroyed, damaged, or unserviceable property; property accounting; correspondence; duty rosters and morning reports; clothing; storage and issue of supplies; types of equipment; marking of clothing, equipment, vehicles, and property; military motor vehicles; printing and binding; authorized abbreviations.

(2) *Scope for final examinations applicable to specific arms and services*—(i) *Supply (Army Air Forces).* Procurement of supplies; the Quartermaster Corps; transportation of troops, supplies, and baggage; salvage and laundry activities; unserviceable property including waste material; rations; the Finance Department; agent officers; general fiscal procedure; allowances; property; requisitioning, transfers, accountability, and responsibility; expendable, lost, destroyed, or unserviceable property, receipt, shipment, and issue; auditing property accounts; military publications; correspondence; military records; duty rosters, service records, preparation of Army pay rolls, final statement; clothing and types of equipment; authorized abbreviations; United States Air Force supply system; procurement and maintenance of equipment; material and labor accounting; general provisions for storage; stores and exchanges; parachute record; aircraft fuel and oil-price list and locations.

(ii) *Supply. (Medical Corps).* General provisions relating to the Medical Corps; medical service of the division and in joint oversea operations; military hygiene and sanitation; sanitary reports; the collection and preparation of pathological and other specimens for shipment to laboratories; the prevention of communicable diseases; records of morbidity and mortality; medical supplies; property; accountability and responsibility, requisitioning, receipt, shipment, and issue; expendable, lost, destroyed, damaged, and unserviceable property; property accounting; procurement, transportation, storage, and issue of supplies; transportation of authorized baggage, correspondence; orders, bulletins, circulars, and memoranda; service records; daily sick reports; burials on the field of battle; types of equipment.

(iii) *Supply (Ordnance Department).* Property; accountability and responsibility; requisitioning, receipt, shipment, issue, and sales; lost, destroyed, damaged, or unserviceable property; property records; auditing property accounts; ordnance property; supplies; procurement, transportation, storage, and issue; bills of lading; fiscal procedure; pay, allowances, and allotments; correspondence; military records; preservation and disposition, preparation of Army pay rolls and model remarks, morning reports and daily sick reports; safeguarding military information; inspections; transportation of individuals; ordnance field service; report of principal items of supplies, annual estimate of funds, and financial administration of maintenance activities.

(iv) *Supply (Signal Corps).* Procurement, transportation, storage, and issue of supplies; salvage and laundry activities; rations, pay, allowances, and allotment; property; accountability and responsibility, receipt, shipment, issue, and requisitioning; post messes; correspondence; orders, bulletins, circulars, and memoranda; Tables of Organization, Tables of Basic Allowances, and Tables of Allowances; duty rosters, service records, morning reports, daily sick reports, personnel rosters, discharge certificate; preparation of Army pay rolls and model remarks; arrest and confinement of personnel; deceased personnel; clothing; authorized abbreviations; telegraph, cable, and radio service; Signal Corps reports; mission, function, and signal communication in general.

(h) *Topographic.* Practical and technical knowledge of surveying; drafting; map reproduction; aerial photograph reading; photography; photogrammetry; and organization and equipment of topographic units.

(i) *Reconnaissance.* Practical knowledge of surveying, drafting, design, and construction of simple engineering, aerial photograph interpretation, and seacoast and antiaircraft gunnery.

(j) *Parachute maintenance.* Qualified parachute jumper; practical and technical knowledge of parachute rigging, maintenance, and supply; practical knowledge and ability to recognize defects in fabrics and materials used in parachutes.

ARMY MINE PLANTER SERVICE

AUTHORITY: §§ 573.330 to 573.333 issued under 54 Stat. 1177, 55 Stat. 651, 652, 1177, 10 U. S. C. 591–599.

DERIVATION: AR 610–10, Sept. 28, 1944.

§ 573.330 *Grades, Army Mine Planter Service.* Grades in the Army Mine Planter Service for which appointments as warrant officers, junior grade, will be made are: First mate, first assistant engineer, second mate, and second assistant engineer.

§ 573.331 *Examinations; second mate and second assistant engineer; when held.* Competitive examinations for appointment in the grade of second mate and second assistant engineer will be held as vacancies occur and when announced by the Department of the Army.

§ 573.332 *Eligibility requirements; appointment of civilians as second mate or second assistant engineer.* Each candidate for appointment as a warrant officer, junior grade, in the Army Mine Planter Service must be included in at least one of the following groups:

(a) Former warrant officer of the Army Mine Planter Service.

(b) Former ship's officer on Army transport, Army harbor boat, or comparable service in the United States Navy, the United States Coast Guard, or the Merchant Marine.

(c) As second mate, a graduate who has served 2 years in the seamanship class of a nautical school ship and completed two ocean or coastwise cruises before graduation.

(d) Completed the course conducted by the United States Maritime Service for the instruction of unlicensed personnel to prepare them for marine license as third mate or third assistant engineer of ocean steam vessels.

(e) As second assistant engineer, a graduate from the engineering class of a nautical school ship, the term of such engineering class to be based upon a period of 2 years.

(f) Hold, as a minimum requirement, a license issued by the United States Department of Commerce, Bureau of Marine Inspection and Navigation, as third mate, coastwise or ocean steam vessels, or as third assistant engineer of ocean steam vessels.

§ 573.333 *Application, examination, and eligible list*—(a) *Application.* Each candidate for appointment will be required to submit to The Adjutant General, Washington, D. C., through coast artillery district commanders, an application on WD AGO Form No. 61 to take the examination. All data called for in this form will be included.

(b) *Eligible list.* Lists of candidates who are eligible for appointment in the grades of second mate and second assistant engineer will be maintained by The Adjutant General.

(c) *Physical examination.* (See § 573.307.)

(d) *Moral character and general fitness.* (See § 573.302.)

(e) *Educational examination.* (See § 573.312 (b).)

(f) *Technical examination.* A technical examination is required of all candidates seeking original appointment as second assistant engineer or second mate who are unable to submit evidence of possession of the license specified in § 573.332 (f). This examination will be of the same general nature as that prescribed by the Bureau of Marine Inspection and Navigation for licensed officers, third assistant engineer, ocean or coastwise, steam vessels.

WARRANT OFFICERS, MARITIME AND MARITIME ENGINEER TEMPORARY APPOINTMENT IN THE ARMY OF THE UNITED STATES

AUTHORITY: §§ 573.371 to 573.373 issued under 55 Stat. 652; 10 U. S. C. 591a.

DERIVATION: AR 610–15, Dec. 26, 1945.

§ 573.371 *General.* (a) The classifications warrant officer, maritime and maritime engineer, will apply to temporary warrant officers only.

(b) Warrant officers, maritime, will be appointed to fill vacancies in marine grades as master, first mate, and third mate; and warrant officers, maritime engineer, in marine grades as chief engineer, first assistant engineer, second assistant engineer, and third assistant engineer, in the authorized military crews of tactical boat units and certain Transportation Corps boats.

(c) Examining boards may, in appropriate cases, conduct examinations and make recommendations for changes in the highest marine grade (see paragraph (b) of this section) for which a warrant officer, maritime, or a warrant officer, maritime engineer, is qualified.

§ 573.372 *Eligibility.* Eligibility requirements for appointment as temporary warrant officer, maritime or maritime engineer, will be as follows:

(a) *Leadership.* An applicant must have demonstrated positive qualities of leadership.

(b) *Character.* No applicant who has been sentenced to confinement in a penitentiary, or who has been convicted in any civil or military court for an offense denounced as a felony will be eligible for appointment. Evidence of the applicant's character while in the military service will be considered in forwarding applications.

(c) *Age.* An applicant must have attained his 18th birthday and must not have passed his 60th birthday on the date of appointment.

(d) *Citizenship.* An applicant must be a citizen of the United States or of the Philippine Islands or a citizen of a cobelligerent or friendly country who otherwise possesses the same qualifications as a citizen of the United States.

(e) *Service.* The applicant need not be serving in the Army of the United States nor have had prior service therein.

(f) *Physical.* The standard of final type physical examination will be that required for commission in the Army of the United States. The commanders authorized to appoint temporary warrant officers and those commanders to whom they delegate this authority are authorized to take final action in the granting of waivers for minor physical defects.

(g) *Education and experience.* An applicant must have such education or practical experience as will insure his satisfactory performance of the duties in the classification for which application is made.

§ 573.373 *Appointment.* (a) The appointing authority will issue letters of temporary appointment as warrant officers, junior grade to fill existing vacancies in the appropriate classifications within his command.

(b) Applicants who successfully meet all requirements for appointment but who are not appointed will be issued a certificate of eligibility. These certificates may be accepted at the discretion of appointing authorities in lieu of final examination (technical) at any time within 1 year from the date of last examinations in which the applicant qualified.

AUTHORITY: §§ 575.1 to 575.21 issued under R. S. 161; 5 U. S. C. 22.

DERIVATION: Catalog of Information 1947–48, United States Military Academy, Dec. 1, 1947.

§ 575.1 *Military Academy*—(a) *Mission.* The mission of the Military Academy is to instruct and train the Corps of Cadets to the end that each graduate shall have the qualities and attributes essential to his progressive and continued development throughout a lifetime career as an officer of the Regular Army.

(b) *Direction and supervision.* Direction and supervision of the Military Academy are vested by law in the Department of the Army under such officer or officers as the Secretary of the Army may select, and, in accordance with this provision, the Chief of Staff has been designated as the officer in charge of all matters pertaining to the institution.

§ 575.2 *Admission to the Military Academy; general requirements.* (a) Candidates are eligible for admission from the day they are 17 (or 19 if from the Army of the United States) until the day they become 22[1] years of age, on which latter day they are not eligible. The age requirements for all candidates as well as the service requirements for appointment from the Army of the United States are statutory and cannot be waived.

(b) At the time of proposed admission the candidate's age must be within the prescribed age limits, and he must be a citizen of the United States.[2]

(c) He must be of good moral character.

(d) He must never have been married. Proof of prior marriage will be considered the equivalent of resignation from the Academy.

(e) No candidate shall be admitted who is less than 5 feet 6 inches in height, or who is deformed or afflicted with any disease or infirmity which would render him unfit for the military service, or who has, at the time of presenting himself, any communicable disease.

(f) Each candidate must, on reporting at West Point, present a certificate showing successful vaccination within 1 year; or a certificate of two vaccinations, made at least a month apart, within 3 months.

(g) If accepted, the candidate reports at the Military Academy before 10:30 a. m. on the first weekday in July. New cadets are received at and after 8 a. m. Facilities for the housing and feeding of new cadets are not available prior to 8 a. m. It is advantageous, however, to report as early as possible.

(h) Warrants of appointment are furnished cadets as soon as practicable after their admission.

(i) At the time of admission and before receiving their warrants of appointment candidates are required to take the oath of allegiance (see subparagraph (1) of this paragraph) and to sign in the presence of an officer deputized by the superintendent an engagement to service (see subparagraph (2) of this paragraph).

(1) *Oath of allegiance.*

I ----------, do solemnly swear that I will support the Constitution of the United States and bear true allegiance to the National Government; that I will maintain and defend the sovereignty of the United States paramount to any and all allegiance, sovereignty, or fealty I may owe to any State, county, or country whatsoever; and that I will at all times obey the legal orders of my superior officers and the rules and articles governing the Armies of the United States (R. S. 1320).

Sworn to and subscribed at ---------- this ------ day of ----------, nineteen hundred and ----------, before me.

(2) *Engagement to service.*

I, ----------, of the State (or Territory) of ----------, aged ------ years, ------ months, do hereby engage (with consent of my parent or guardian) that from the date of my admission as a cadet of the United States Military Academy I will serve in the Army of the United States for 8 years unless sooner discharged by competent authority.

In the presence of ----------.

§ 575.3 *Appointments.* The figures given in § 575.4 indicate the maximum limits of representation at the Military Academy at any one time from the respective sources; consequently, no appointment can be made from any source except to fill a vacancy therefrom. All appointments are made by the President upon the designation of the authorized nominating authorities as outlined in detail in § 575.5. The law governing the appointment and admission of cadets to the Military Academy prescribes that they shall be appointed only within the year preceding the date of their admission. Accordingly, the appointments may be made after the first day of July with a view to admission on the next regular date of entrance, the first weekday of the following July. Candidates whose nominations are received in the Department of the Army on or before February 15, are appointed to undergo the annual entrance examination which is held at various military installations on the first Tuesday in March. Vacancies that occur subsequent to the March examination may be filled by the nomination of candidates to undergo the special examination held at West Point, N. Y., the third Tuesday in June. Only those candidates who are found to be mentally and physically qualified at the March or June examination may be nominated for appointment after the June examination has been held. Nominations of such candidates will be accepted if received in the Department of the Army not later than midnight on June 30 preceding the regular date of admission on July 1. Letters whose post-office marks clearly show that they were placed in the mail prior to midnight of June 30 are held to meet the foregoing requirement.

§ 575.4 *Composition of the Corps of Cadets*—(a) *United States and Territories.* Under an act of Congress approved June 3, 1942 (56 Stat. 306; 10 U.S.C. Sup., 1091c–1091d), the Corps of Cadets shall consist of 2,496[3] cadets, ap-

[1] Public Law 255, approved December 11, 1945, provides " • • • Any appointee who has served honorably not less than 1 year in the armed forces of the United States during any of the present wars, and who possesses the other qualifications required by law, may be admitted between the ages of 17 and 24 years: *Provided*, That whenever any member of the graduating class shall fail to complete the course with his class by reason of sickness or deficiency in his studies, or other cause, such failure shall not operate to delay the admission of his successor."

[2] Noncitizens may be permitted to attend the United States Military Academy under special laws enacted from time to time (see § 575.4 (c)). Further information may be obtained upon request to The Adjutant General, War Department, Washington 25, D. C.

[3] In addition to the 2,496 cadets designated in § 575.4 (a), 59 Stat. 586; 10 U.S.C. Sup., 1091e, provides that the strength of the Corps of Cadets is "• • • increased by the President from the United States at large from among the sons of persons who have been or shall hereafter be awarded a Medal of Honor in the name of Congress for acts performed while in any of the armed forces of the United States • • •"

pointed in number and from sources as follows:

8 from each State at large	384
4 from each congressional district	1,740
4 from each Territory (Hawaii and Alaska)	8
6 from the District of Columbia	6
4 from natives of Puerto Rico	4
2 from Panama Canal Zone	2
172 from the United States at large [1]	172
180 from among the enlisted men of the Regular Army and of the National Guard, in number as nearly equal as practicable	180
Total	2,496

[1] Of whom 3 are appointed upon the recommendation of the Vice President, 40 are selected from among the honor graduates of those educational institutions designated as "honor military schools," 40 are chosen from among the sons of veterans who were killed in action or have died, or may hereafter die, of wounds received or disease contracted in line of duty during World War I or World War II, and 89 upon the personal selection of the President.

Section 2 of 56 Stat. 306; 10 U.S.C. Sup., 1091d referred to in this paragraph is quoted in § 575.5 (l).

(b) *Filipino cadets.* In addition to the 2,496 designated in paragraph (a) of this section, the Secretary of the Army is authorized to permit not exceeding four Filipinos (one for each entering class) to be designated by the President of the Republic of the Philippines to receive instruction at the United States Military Academy, under the provision of the act of Congress approved May 28, 1908, as amended (35 Stat. 441, as amended; 10 U.S.C. 1093). These students execute an agreement to comply with all regulations for the police and discipline of the Academy, to be studious, and to give their utmost efforts to complete satisfactorily the courses in the various departments of instruction.

(c) *Foreign cadets.* (1) The act of June 24, 1938, as amended by the act of June 26, 1946 (52 Stat. 1034, 60 Stat. 311; 20 U.S.C. 221), authorizes the President of the United States to designate not exceeding 20 persons at a time from the Latin American Republics to receive instruction at the United States Military Academy. Not more than three persons from any one of such republics may receive instruction under authority of that law at the same time. Such persons receive the same pay, allowances and emoluments, including mileage from their homes in proceeding to the Military Academy for initial admission, as cadets appointed from the United States.

(2) Citizens of other foreign countries have been permitted from time to time to attend the Military Academy upon specific authorization of the United States Congress in each case but are not entitled by reason of their graduation therefrom to appointment to any office or position in the United States Army. Applications of foreigners must be submitted to the United States Government through diplomatic channels by the foreign governments concerned and if favorably considered the matter is then presented to the Congress for appropriate action. Requirements for the admission, advancement and graduation of foreign cadets are identical with those for United States cadets. In addition, foreign cadets must be provided with the same amount of funds provided by the United States Government for United States cadets, and not more, nor less, than that amount. The pay and allowances for a cadet are $936 per year plus one ration per day (which varies with the cost of food), to commence the day he enters the Military Academy. A deposit of $300 upon admission is also required.

§ 575.5 *Sources of admission.* Before a candidate can be permitted to undergo the entrance examinations to qualify for admission to the Military Academy, he must hold a letter of appointment issued by the Department of the Army. A letter of appointment is issued only upon receipt in the Department of the army of a nomination from one of the recognized nominating authorities, to whom all applications for appointment must be made. The various sources of admission, together with the nominating authority of each, are fully described in paragraphs (a) to (l) of this section.

(a) *States at large, congressional districts, Territories, District of Columbia, and Puerto Rico.* The nomination of candidates, whether or not based upon preliminary competitive examination, for appointment from these sources, is entirely in the hands of the nominating authority who has the vacancy at his disposal and all applications must be addressed to him. These authorities are: (1) States at large: United States Senators; (2) Congressional districts: Representatives in Congress; (3) Territories: Delegates in Congress; (4) District of Columbia: commissioners thereof; (5) Puerto Rico: the resident commissioner. For each vacancy four candidates may be nominated, one to be named as principal, one as first alternate, one as second alternate, and one as third alternate. The first alternate, if qualified, will be admitted in the event of the failure of the principal; the second alternate, if qualified, will be admitted in the event of the failure of both the principal and the first alternate; and the third alternate, if qualified, will be admitted in the event of the failure of the principal, first, and second alternates. The law requires that candidates appointed from States at large, congressional districts, the Territories, the District of Columbia, or the island of Puerto Rico, must be actual residents thereof respectively.

(b) *Panama Canal Zone.* Appointments are made upon nomination of the Governor of the Panama Canal Zone and are restricted, by law, to the sons of civilians residing in the Canal Zone and the sons of civilian personnel of the United States Government and the Panama Railroad Company. Four candidates may be nominated for each vacancy in the same manner as outlined in paragraph (a) of this section.

(c) *Vice Presidential.* Appointments are made upon the personal selection of the Vice President and from the United States at large, there being no limitation imposed by law as to residence. Four candidates may be nominated for each vacancy in the same manner as outlined in paragraph (a) of this section. These appointments cannot be made until the duly elected Vice President is sworn into office.

(d) *Honor military schools.* Honor graduates of honor military schools are nominated for appointment by the heads of the respective schools and in the following manner: The Adjutant General maintains a roster of honor military schools as determined by annual Department of the Army inspections of educational institutions of the essentially military type. In July each year The Adjutant General anticipates the vacancies in the Corps of Cadets for admission the following year which are open to honor graduates, makes an equitable distribution of those vacancies among the honor military schools and notifies them accordingly. The head of each institution so notified must submit to The Adjutant General at a specified time the nominations of the honor graduates selected. Four candidates may be nominated by each school in the same manner as outlined in paragraph (a) of this section. Each nomination must contain a certification by the head of the institution that the candidate is an honor graduate of a year for which the institution was designated an honor military school. No student may be rated as an honor graduate unless he has shown proficiency in subjects of his school work amounting to not less than the 15 units prescribed by the regulations for admission to the United States Military Academy. However, the institution is not limited to those graduates of the current year. All honor graduates are appointed subject to the same tests for mental and physical qualifications as are required of other candidates.

(e) *Sons of deceased veterans of World Wars I and II.* An act of Congress, approved June 8, 1926, as amended by acts of Congress approved December 1, 1942 and November 24, 1945 (44 Stat. 704, 56 Stat. 1024, 59 Stat. 586; 10 U.S.C. and Sup., 1091a) provides cadetships at the United States Military Academy for the sons of members of the land or naval forces (including male and female members of the Army, Navy, Marine Corps, and Coast Guard, and of all components thereof) of the United States, who were killed in action or have died of wounds or injuries received, or disease contracted, or preexisting injury or disease aggravated, in active service during World War I or II (as each is defined by laws providing service-connected compensation or pension benefits for veterans of those wars and their dependents.) The administration of these appointments has been delegated to the Department of the Army. Application should be made by letter (no form is prescribed) addressed to The Adjutant General, Department of the Army, Washington 25, D. C., showing the full name, date of birth, and address of applicant (complete service address should be given if applicant is in the armed forces), and the name, rank, serial number, and last organization of the veteran parent together with a brief statement concerning the time, place, and cause of death. The claim number assigned to the veteran parent's case by the Veterans' Administration should also be furnished. All candidates from this source must undergo the regular entrance examination competitively since the vacancies available must, under the law, be awarded to those physically qualified candidates who make the highest proficient ratings in the order of merit established by the examination mentioned. Accordingly, candidates appointed under this law cannot qualify thereunder by the submission of educational records in lieu of the regular entrance examination. There is no restriction imposed as to residence.

(f) *Presidential.* These appointments are made upon the personal selection of the President and are reserved for the blood sons and adopted sons, if legally adopted prior to their fifteenth birthday, of members of the Regular Army, Navy, and Marine Corps who are still in the service, retired, or who died while serving therein. The available vacancies are awarded to those physically qualified competitors making the highest proficient ratings in the order of merit established at the annual entrance examination held the first Tuesday in March each year.

Accordingly candidates appointed from this source cannot qualify by the submission of educational records in lieu of the regular entrance examination. Failure of a candidate to report for examination, for any cause, at the time and place authorized will vacate his appointment. The administration of these appointments has been delegated to the Department of the Army. Application by those eligible should be made by letter (no form is prescribed) addressed to The Adjutant General, Department of the Army, Washington 25, D. C., giving the applicant's full name, address, and date of birth (complete service address should be given if applicant is in the armed forces), and the name, rank, and branch of service of the father. In the case of an adopted son, a copy of the order of court decreeing adoption, duly authenticated and certified by the clerk of the court, must accompany the application. There is no restriction imposed as to residence.

(g) *Regular Army and National Guard.* An act of Congress approved May 4, 1916 provides a quota of cadetships at the United States Military Academy to be divided equally between enlisted men of the Regular Army and of the National Guard. On or about June 1, each year, The Adjutant General determines the number of prospective vacancies that will be available from this source for admission with the class entering the Military Academy on July 1, of the following year. The number of candidates selected to compete for admission is four times the number of available vacancies which are awarded annually to those physically qualified competitors making the highest proficient averages in the order of merit established at the March entrance examination as follows: For Regular Army vacancies, from among all Army and Air Force competitors regardless of the command from which selected; for National Guard vacancies, from among all National Guard competitors regardless of the State, Territory, or the District of Columbia, from which selected. In view of the competitive feature involved, failure of a duly appointed Regular Army or National Guard candidate to appear for examination, for any cause, at the time and place authorized will vacate his appointment.

(1) *Regular Army.* The law prescribes that the applicant must have completed as of the date of admission, one full year of active enlisted service in the Army and be in an active enlisted status at that time. It is not essential that the service be continuous; therefore, prior active Army or Air Force enlisted service may be counted in determining an applicant's eligibility. The major Army and Air Force commands are responsible for the selection of candidates, within the quotas alloted to each command, based upon written applications submitted through military channels by those eligible. Each selected candidate is issued a letter of appointment by the Department of the Army authorizing him to report for the regular entrance examination the following March which he must undergo in competition with the entire number of Army and Air Force candidates.

(2) *National Guard.* The law prescribes that an applicant must be an enlisted man of a federally recognized unit of the National Guard at the time of appointment and at the time of his admission to the United States Military Academy. He must also have served as an enlisted man in the National Guard not less than 1 year, as of the date of his admission. It is not essential that the service be continuous; therefore, former service in the National Guard may be counted in determining an applicant's eligibility. Service with a National Guard organization prior to its recognition by the Federal Government may be considered, the date of enlistment of the person concerned governing and not that of the recognition of the unit. Within quotas established by the Department of the Army, applicants are selected by the respective Governors of the States, Territories, and Puerto Rico, and the Commanding General of the District of Columbia National Guard from among successful competitors in a preliminary mental examination of a scope and nature similar to the regular United States Military Academy entrance examination conducted by the Governors and the Commanding General mentioned, between August 1, and November 15, of each year. Each selected candidate is issued a letter of appointment by the Department of the Army authorizing him to report for the regular entrance examination the following March which he must undergo in competition with the entire number of National Guard candidates.

(h) *Sons of Congressional Medal of Honor winners.* An act of Congress, approved November 24, 1945, provides that the number of cadets otherwise authorized by law at the United States Military Academy is increased by such number of cadets as may be appointed by the President from the United States at large from among the sons of persons who have been or who may later be awarded a Medal of Honor in the name of Congress for acts performed while in any of the armed forces of the United States: *Provided,* That such appointees are otherwise qualified for admission. The administration of these appointments has been delegated to the Department of the Army. Application by those eligible should be made by letter (no form is prescribed) to The Adjutant General, Department of the Army, Washington 25, D. C., giving the applicant's full name, address, and date of birth (complete service address should be given if applicant is in the armed forces), and the name, rank, and branch of service of the parent and the date and a brief statement of the circumstances for which the Medal of Honor was awarded. Candidates appointed from this source may qualify in the same manner as a Congressional principal candidate. All who are found fully qualified will be admitted as cadets, regardless of the number, since the law does not impose a limitation as to the total number to be admitted from this source.

(i) *Qualified alternates and qualified candidates.* Section 2, act of Congress, approved June 3, 1942 (56 Stat. 306; 10 U.S.C. Sup., 1091d) provides: "When on the date of admission of a new class the total number of cadets is below the number authorized, the Secretary of the Army may bring the Corps of Cadets to full strength by appointing qualified alternates and candidates recommended by the academic board, two-thirds thereof from qualified alternates and one-third thereof from qualified candidates (competitors): *Provided,* That any appointment made under this section shall be an additional appointment and shall not constitute an appointment otherwise authorized by law. The only candidates who are eligible for consideration are those who have been found mentally and physically qualified in connection with an appointment held for admission the first weekday of July of the year concerned. No application is necessary for consideration by the academic board since all candidates who are fully qualified but who are not entitled to admission under the terms of their appointments are rated relatively according to general merit. The academic board in determining the general merit studies the records of these candidates and makes its selection based upon consideration of the academic grades and other pertinent factors which affect the qualifications of the various candidates to become officers of the Army. Since, under the law, the vacancies in the Corps of Cadets cannot be determined until the date of admission, notices to candidates selected are sent on or shortly after that date authorizing them to report for admission as cadets on July 15."

§ 575.6 *Educational qualifications.* (a) Methods of meeting the educational requirements for admission:

(1) By successfully passing the regular examination (see § 575.8); or

(2) By submitting a satisfactory educational certificate (secondary school) and passing the validating examination (see § 575.9); or

(3) By submitting an educational certificate which does not require the validating examination (see § 575.10).

(b) In addition, there are two basic educational requirements which all can-

didates for admission to the United States Military Academy must meet:

(1) All candidates must take the West Point Aptitude Test. This is a 1-hour test requiring no special preparation and consisting of an elementary mathematics section and a language section.

(2) All candidates must qualify in United States history, either by presenting evidence that they have satisfactorily completed a standard course in United States history or its equivalent (1 year in secondary school or 1 semester in college), or by passing the special examination in United States history.

§ 575.7 *Entrance examinations*—(a) *Time.* The regular Military Academy entrance examination and the examination for validating certain classes of certificates are held beginning on the first Tuesday in March each year. Each candidate designated to take one of these examinations will receive from the Department of the Army a letter of appointment. He must appear for examination at the time and place designated therein before a board of Army officers convened by the Department of the Army. Enlisted men appointed from the Army also receive authority from the Department of the Army to report for examination, and must report at the time and place specified. No other regular mental examination is held during the year. The failure of candidates holding noncompetitive appointments to appear for examination unless prevented by sickness or other unavoidable cause shall vacate the appointment; the failure of candidates holding competitive appointments to report for examination for any cause shall vacate the appointment.

(1) A second validating examination and West Point Aptitude Test is held on the third Tuesday in June at West Point, N. Y., but is offered only for emergency vacancies which remain unfilled or occur after the March examination. Candidates appointed to fill such emergency vacancies must qualify by certificate or by certificate supplemented by the validating examination mentioned above.

(b) *Place.* Boards of officers are convened at certain designated places, listed below, for the purpose of conducting the regular entrance examinations. The place of examination selected by the Department of the Army for each candidate is the one nearest or most convenient to his home or to the school at which he is in regular attendance:

Army and Navy General Hospital, Hot Springs, National Park, Ark.
Army Medical Center, Washington, D. C.
Army Base, Boston, Mass.
William Beaumont General Hospital, El Paso, Tex.
Fort Benning, Ga.
Fort Bragg, N. C.
Fitzsimons General Hospital, Denver, Colo.
Fort Leavenworth, Kans.
Keesler Field, Biloxi, Miss.
Letterman General Hospital, Presidio of San Francisco, Calif.
Fort Lewis, Wash.
March Field, Calif.
Fort McPherson, Ga.
Governors Island, N. Y.
Fort Sheridan, Ill.
Fort Sill, Okla.
Fort Sam Houston, Tex.
Fort Knox, Ky.
Schofield Barracks, T. H.
San Juan, P. R.
Corozal, C. Z.
Fort Richardson, Alaska.

(c) *Examination schedule*—(1) *First day*—(i) *Morning.* All candidates. Report and instructions, 9 a. m. to 11 a. m., 2 hours. West Point Aptitude Test, 11 a. m. to 12 noon, 1 hour.

(ii) *Afternoon.* Only those candidates whose credit in United States history has not been accepted. Special examination in United States history, 2 p. m. to 5 p. m., 3 hours.

(2) *Second day*—(i) *Morning.* Regular examination in mathematics, 9 a. m. to 12 noon, 3 hours. Validating examination in mathematics, 9 a. m. to 10:30 a. m., 1½ hours.

(ii) *Afternoon.* Regular examination in English, 2 p. m. to 5 p. m., 3 hours. Validating examination in English, 2 p. m. to 3:30 p. m., 1½ hours.

(3) *Third day.* Physical examination and physical aptitude test until completed.

§ 575.8 *Admission by regular mental examination*—(a) *General.* All candidates who cannot qualify under §§ 575.9 or 575.10, must take the regular mental examination in mathematics and English. As stated in § 575.6 (b) (2), all candidates must also qualify in United States history.

(1) Candidates holding appointments from competitive sources (see § 575.5 (e), (f) and (g)) cannot qualify under §§ 575.9 or 575.10, since they are appointed to vacancies in the order of merit competitively established as a result of the regular mental entrance examination in mathematics and English (the examination in United States history is not a part of the competition).

(b) *Mathematics.* Candidates will be required to pass a satisfactory examination in those topics of algebra and plane geometry listed in § 575.12 (b) and (d) (Mathematics A and C).

(c) *English.* Candidates will be required to pass a satisfactory examination in English grammar, composition, and literature as described in § 575.12 (g) and (h) (English A and B).

§ 575.9 *Admission by certificate and validating examinations.* The Academic Board will consider and may accept in lieu of the regular mental examination a certificate (see §575.11) with validating examination in mathematics and English in the following cases. (For alternate method of validating secondary school certificates, see §575.10 (a) (2). As stated in § 575.6 (b) (2), all candidates must also qualify in United States history.)

(a) A properly attested certificate (Form II [1]) that the candidate has graduated from a preparatory school or public high school accredited by the United States Military Academy: *Provided,* That in his school work he has shown proficiency in subjects amounting to not less than 15 units of the list given in § 575.11. Of the 15 units, 2 must be in algebra, 1 in plane geometry, 1½ in English grammar and composition, 1½ in English literature, and 1 in United States history. (Lack of this credit does not cause rejection of the certificate but adds the requirement that the special examination in United States history be taken and passed.) The remaining 8 units must be chosen from the list of optional subjects, and must not include commercial or other subjects not listed.

(b) A properly attested certificate (Form II) that the candidate is in actual attendance in his senior year at a preparatory school or public high school accredited by the United States Military Academy, and has satisfactorily completed 3½ years' work at such school: *Provided,* That the certificate shows specifically by subjects and units the work already completed and also that to be completed by graduation: *And provided,* That the course the candidate is pursuing will, when completed, show proficiency in subjects amounting to not less than 15 units prescribed in paragraph (a) of this section. A candidate submitting a certificate showing actual attendance at and prospective graduation from a preparatory or public high school must as a condition of admission continue his course of study and submit his diploma or other formal evidence of graduation at the time of entrance to the United States Military Academy. Failure to submit such evidence of graduation will disqualify the candidate for entrance.

(c) The validating examination, required with all secondary school certificates (Form II) except those accepted under § 575.10 (a) (2), includes the subjects of mathematics (A and C) and English (A and B). This validating examination is not identical with the regular mental entrance examination. It will be of such a nature as to determine the knowledge of a candidate, but not so difficult as to require for the desirable student an intensive special preparation.

(d) A candidate whose certificate (Form II) has been rejected must take the regular mental entrance examination.

§ 575.10 *Admission by certificate.* (a) The Academic Board will consider and may accept without other mental requirement, except that of § 575.6 (b) (West Point Aptitude Test and United States history requirement).

(1) A properly attested college certificate (Form I [1]) that the candidate is, or was upon leaving, a regularly enrolled student in good standing without condition in a university, college, or technical school accredited for admission to the United States Military Academy: *Provided,* That he entered college with the secondary school credits prescribed in § 575.9: *And provided further,* That he has completed successfully at least one semester in college. If he lacks not more than 2 units of the prescribed secondary school credits, required or optional, he may make up this deficiency in college at the rate of one semester of college work to 1 year of secondary school study.

(i) A full record of academic work at college, giving subjects taken and grades attained in each, should be presented on Form I, which must be submitted in all cases where college work covers one semester or more.

[1] Not filed with the Division of the Federal Register.

(ii) The Form I certificate must be accompanied by a Form II certificate covering work in secondary school, and the two certificates will be considered together in determining the candidate's mental qualifications.

(2) A secondary school certificate (Form II) as described in § 575.9, supplemented by a report from the College Entrance Examination Board that the candidate has taken its Scholastic Aptitude Test provided the grades earned on this test are satisfactory. A candidate may no longer elect to qualify mentally by passing that Board's Scholastic Aptitude Test in lieu of the validating examination unless the Scholastic Aptitude Test has been taken prior to the scheduled entrance examination (March or June) for which he has been designated. In cases where this test is taken on or after December 6, 1947, it must include either the Intermediate Mathematics Test or the Comprehensive Mathematics Test in place of the formerly prescribed Mathematical Section.

(b) A candidate whose certificate has been rejected under paragraph (a) of this section, will be required to take the regular entrance examination except in cases where the Academic Board approved his credits under § 575.9, for admission subject to the validating examination.

(1) The Academic Board may reject any certificate (Form I and II) for low grades, or upon any evidence, whether contained in the certificate or not, that creates a reasonable doubt as to the candidate's mental qualifications for admission. A record in the entrance examination of a former year is considered excellent evidence of mental qualifications for admission and is given great weight when certificates are being evaluated. Taking the examination, when unprepared, merely for practice and failing on the same may, therefore, have an adverse effect if entrance by certificate is sought in a later year.

(2) A candidate whose certificate has been accepted under this section is excused from the mental examination but must appear for the physical examination and for the West Point Aptitude Test. He is rejected as mentally unqualified if he fails to pass this aptitude test.

§ 575.11 *Subjects and credits.* The list of subjects and corresponding weights in units is as follows:

(a) *Required.* Every certificate must show evidence of proficiency in these subjects:

	Units
Mathematics, A	2
Mathematics, C	1
History, D, United States history	1
English, A	1½
English, B	1½

(b) *Optional.* The remaining 8 units may be supplied from among the following subjects and no others:

§ 575.12 *Definitions and detailed requirements*—(a) *The unit.* A unit represents a year's study in any subject in a secondary school, constituting approximately a quarter of a full year's work. A 4-year secondary school curriculum should be regarded as representing not more than 16 units of work. This statement is designed to afford a standard of measurement for the work done in secondary schools. It takes the 4-year high-school course as a basis, and assumes that the length of the school year is from 36 to 40 weeks, that a period is from 40 to 60 minutes in length, and that the study is pursued for 4 or 5 periods a week; but under ordinary circumstances a satisfactory year's work in any subject cannot be accomplished in less than 120 60-minute hours or their equivalent.

(b) *Mathematics, A, algebra, two units.* (1) The meaning, use, evaluation, and necessary transformations of simple formulas involving ideas with which the pupil is familiar, and the derivation of such formulas from rules expressed in words.

(2) The graph and graphical representation in general. The construction and interpretation of graphs.

(3) Negative numbers; their meaning and use.

(4) Linear equations in one unknown quantity, and simultaneous linear equations involving two unknown quantities, with verification of results.

(5) Problems.

(i) Ratio, as a case of simple fractions; proportion, as a case of an equation between two ratios; variation.

(ii) The essential of algebraic technique.

(iii) Exponents and radicals; simple cases.

(iv) Numerical trigonometry.

(v) Numerical and literal quadratic equations in one unknown quantity.

(vi) The binomial theorem for positive integral exponents with applications.

(vii) Arithmetic and geometric series.

(viii) Simultaneous linear equations in three unknown quantities.

(ix) Simultaneous equations, consisting of one quadratic and one linear equation, or of two quadratic equations of certain types. Graphs.

(x) Exponents and radicals. Logarithms.

(c) *Mathematics, B, advanced algebra, one-half unit.* (1) Theory of equations.

(2) Determinants.

(3) Complex numbers (numerical and geometric treatment), simultaneous quadratics, scales of notation, mathematical induction, permutations and combinations, and probability.

(d) *Mathematics, C, plane geometry, one unit.* (1) The usual theorems and constructions presented in good textbooks, including the general properties of plane rectilinear figures; the circle and measurement of angles; similar polygons; areas; regular polygons and measurement of the circle.

(2) The solution of numerous original exercises, including loci problems.

(3) Applications to the mensuration of lines and plane surfaces.

(e) *Mathematics, D, solid geometry, one-half unit.* (1) The usual theorems and constructions presented in good textbooks, including the relations of planes and lines in space; the properties and measurement of prisms, pyramids, cylinders, and cones; the sphere and the spherical triangle.

(2) The solution of numerous original exercises, including loci problems.

(3) Applications to the mensuration of surfaces and solids.

(f) *Mathematics, E, trigonometry, one-half unit.* (1) Definition of the six trigonometric functions of angles of any magnitude, as ratios. The computation of five of these ratios from any given one. Functions of 0, 30, 45, 60, and 90, and of angles differing from these by multiples of 90.

(2) Determination, by means of a diagram, of such functions as sin (A–90) in terms of the trigonometric functions of A.

(3) Circular measure of angles; length of an arc in terms of the central angle in radians.

(4) Proofs of the fundamental formulas, and of simple identities derived from them.

(5) Solution of simple trigonometric equations.

(6) Theory and use of logarithms, without the introduction of work involving infinite series. Use of trigonometric tables, with interpolation.

(7) Derivation of the Law of Sines and the Law of Cosines.

(8) Solution of the right and oblique triangles (both with and without logarithms) with special reference to the applications.

(g) *English, A, grammar and composition, one and one-half units.* (1) The principles of English grammar.

(2) The rules of English composition.

(3) Proficiency in spelling, punctuation, grammar, and composition acquired by repeated oral and written exercises.

(h) *English, B, literature, one and one-half units.* (1) The study of selected masterpieces in English and American literature.

(2) Familiarity with the nature and characteristics of the different literary forms, such as the essay, the novel, and biography in prose, the lyric and the epic

in poetry, and the comedy and the tragedy in drama.

(3) Knowledge of the history and development of English and American literature, including acquaintance with the chief periods, as the Elizabethan, the Puritan, the Restoration, and the Victorian, with the leading writers of such periods, and with the most important works of each writer.

(i) *History, A, ancient, one unit.* History down to the death of Charlemagne (814 A. D.) with special reference to Greek and Roman history, and with a short introductory study of the more ancient nations.

(j) *History, B, European, one unit.* History from the fall of Rome to the present time.

(k) *History, C, English, one unit.* History of England, emphasizing the important epochs and the greater movements and showing the relations of English history to the history of other countries, especially the United States.

(l) *History, D, American, with or without civil government, one unit.* The history of the United States, and, if civil government is included, a study of the United States Constitution, of the Federal Government, with its powers, organization, and operation, and of the relations between the Federal and State Governments.

(m) *History, world, one unit.* A general survey.

§ 575.13 *General information as to certificates.* (a) All necessary papers, including a set of blank certificate forms, are furnished by The Adjutant General, Washington 25, D. C., to each duly nominated candidate with his letter of appointment. All candidates, of every category, should submit their complete educational records on these forms, whether or not they wish to claim exemption from any examination. Candidates whose schooling has been so irregular or incomplete that the forms do not properly describe it should submit statements of their scholastic work, certified by their teachers or tutors, in as much detail as possible.

(b) Certificates should be submitted not later than February 15. A certificate received between February 15 and the examination will receive consideration; but, in view of the short time left to the Academic Board to investigate its value, no assurance will be given that such certificate can be acted on in time to exempt the candidate from the regular mental examination. Certificates received at West Point too late for full investigation and appraisal before 9 a. m. on the first Tuesday in March of each year will be filed without action thereon. Candidates will be notified of the time and date of the receipt of such certificates.

(c) Candidates who submit certificates on a date which does not allow the Academic Board sufficient time to investigate their value and notify them regarding the final action thereon prior to the day set for the examination should proceed with the regular examination.

(d) Candidates who are informed that their certificates have been accepted, must present themselves at the regular time and place, as herein prescribed, for physical examination and the tests prescribed in § 575.6 (b), and, if required, for the validating examination.

(e) A candidate submitting a secondary school certificate who has taken the College Entrance Examination Board's Scholastic Aptitude Test should have his record in this test forwarded to the Superintendent, United States Military Academy, West Point, N. Y., at the same time as his school certificate. He should state on the latter that this is being done.

(f) A candidate whose certificate qualifications have been approved, provided he completes his regular high-school or preparatory-school course with good grades and graduates, must bring with him, and present on the day he reports for admission his diploma or certificate of graduation, together with a certified statement of the grades attained in his academic work, in order that the Academic Board of the Military Academy may determine whether or not these provisions have been fulfilled.

(g) A candidate who has once satisfactorily fulfilled all the mental requirements for entrance will be regarded as mentally qualified at any subsequent opportunity which may arise for entrance with the same class.

(h) In case a candidate who has submitted a satisfactory certificate for the March examination is not admitted as a result of that examination but received another appointment prior to the June examination, (1) if he did not take the March examination, his certificate will be considered satisfactory for the June examination; (2) if he failed in the March examination, his certificate will be reconsidered in connection with the results of that examination.

(i) Any certificate accepted for entrance with one class is not valid for entrance with a succeeding class unless reapproved. It must be resubmitted, accompanied by a full statement of the candidate's educational work in the interim, and both certificate and statement will be subject to careful scrutiny by the academic board.

(j) A candidate, not an ex-cadet, who has once been declared mentally qualified for entrance upon written examination, either regular or validating, need not undergo a second mental examination in case of any subsequent appointment unless the requirements for entrance have been changed in the meanwhile. A candidate reported not qualified mentally in one or more subjects on one examination will be required to qualify in all subjects at any subsequent examination.

§ 575.14 *Physical (Medical) examination*—(a) *Preliminary.* (1) Each candidate designated as principal or alternate for appointment as a cadet of the Military Academy should ascertain as soon as practicable whether or not he has any physical defect that would disqualify him for admission or any that should be corrected by treatment before presenting himself for examination.

(2) A preliminary physical examination will be authorized by the Department of the Army only upon specific request. Any candidate who holds a letter of appointment issued by the Department of the Army may apply to the office of The Adjutant General, Department of the Army, Washington 25, D. C., for permission to undergo a preliminary examination, and the necessary instructions setting forth the place of examination will be issued. A prospective candidate will also be authorized to undergo a preliminary physical examination upon receipt in the Department of the Army of a request from the Member of Congress who is considering him for nomination with a view to appointment as a candidate. The Member of Congress or the prospective candidate will be informed by the Department of the Army of the result.

(3) It should be clearly understood by the candidate that this examination is a preliminary one only and in no way commits or obligates the Department of the Army to accept a candidate who is found by the regular medical examining board to have a physical defect which is considered to be disqualifying.

(b) *Regular.* The physical examination of a candidate begins after the conclusion of his last mental examination, and is continued daily until completed, but those candidates who upon reporting at the place of examination present evidence (the evidence must be in the form of an official communication from the Department of the Army and must specify exemption from the mental examination of the current year) that they have been excused from the mental examination under the provisions of the certificate privilege, or as the result of having qualified mentally at a previous examination, are usually examined physically as soon as possible after reporting and are not required to wait until the schedule of mental examinations has been completed.

(c) *Physical requirements*—(1) *Hearing.* Auditory acuity of all candidates will be determined by the whispered voice, and by the audiometer using the following frequencies: 256, 512, 1024, 2048, 4096, and 8192. At the time of examination the candidate should be free of upper respiratory infection. Hearing when tested by the whispered voice must be 15/15 in each ear and loss of hearing as determined by the audiometer must not be greater than fifteen (15) decibels in any of the frequencies 512, 1024, 2048 nor greater than thirty (30) decibels in either of the frequencies 4096 or 8192. The following-named conditions are causes for rejection: The total loss of an ear, marked hypertrophy or atrophy, or disfiguring deformity of the organ; atresia of the external auditory canal, or tumors of this part; acute or chronic suppurative otitis media, or chronic catarrhal otitis media; mastoiditis, acute or chronic; existing perforation of the membrana tympani from any cause whatever.

(2) *Vision.* Vision as determined by the visual test types (without a cycloplegic) must not fall below 20/30 in either eye without glasses, correctible with glasses to 20/20 in each eye, when no organic disease in either eye exists. Both eyes must be free from acute or chronic disease. Errors of refraction, if considered excessive, may be a cause for rejection even though the visual acuity falls within acceptable limits. Total hyperopia of more than two diopters or total myopia of more than three quarters (0.75) diopter in any meridian in either eye is cause for rejection. The following-named conditions are also cause for rejection: Manifest disturbance of muscle balance; esophoria of more than 10 prism diopters, exophoria of more than 5 prism diopters, or hyperphoria of more than 1 prism diopter; impairment of the sense of color perception in a pronounced degree; trachoma, or xerophthalmia; chronic conjunctivitis; pterygium encroaching upon the cornea; complete or extensive destruction of the eyelids; disfiguring cicatrices, adhesions of the lids to each other or to the eyeball; inversion or eversion of the eyelids, or lagophthalmus; trichiasis, ptosis, blepharospasm, or chronic blepharitis; epiphora, chronic decryo-cystitis, or lachrymal fistula; chronic keratitis, ulcers of the cornea, staphyloma, or corneal opacities encroaching on the pupillary area and reducing the acuity of vision below the standard noted above; irregularities in the form of the iris, or anterior or posterior synechiae sufficient to reduce the visual acuity below the standard; opacities of the lens or its capsule, sufficient to reduce the acuity of vision below the standard, or progressive cataract of any degree; extensive coloboma of the choroid or iris, absence of pigment, glaucoma, iritis, or extensive or progressive choroiditis, retinitis, detachment of the retina, neuroretinitis, optic neuritis or atrophy of the optic nerve; loss or disorganization of either eye, or pronounced exophthalmus, true nystagmus; or permanent or well-marked strabismus; diplopia, or night blindness; abnormal conditions of the eyes due to disease of the brain; malignant tumors of lids or eyeballs; ashtenopia accompanying any ocular defect.

(3) *Teeth.* No candidate will be accepted unless he has a minimum of 6 serviceable vital masticating teeth (bicuspids and molars) above and 6 below serviceably opposing and also 4 serviceable vital incisor teeth (incisors and cuspids) above and 4 below serviceably opposing. Therefore, the minimum requirement consists of a total of 12 masticating teeth and 8 incisor teeth, all of which must be so opposed as to serve the purpose of incision and mastication. In cases in which insufficiency of teeth may be remedied by the eruption of third molars, if an X-ray of the third molar region determined a normal third molar properly positioned and developed, it may be assumed that it will have a normal eruption, and the candidate may be credited with possession of this tooth.

(i) Vital teeth properly filled with permanent filling material, or well crowned, will be considered serviceable if otherwise acceptable. A one- or two-tooth replacement by a standard method of fixed bridgework will be accepted in lieu of a serviceable vital tooth when the abutment teeth are otherwise acceptable and the bridge well constructed.

(ii) A tooth will not be considered serviceable if it is a deciduous tooth, or if it fails to enter into serviceable occlusion with an opposing tooth, if it has an unfilled cavity, if it supports a defective filling or crown, if it is nonvital, or if there is destruction of the supporting tissues of the tooth, such as results from chronic gingivitis, pyorrhea, etc.

(iii) Causes for rejection are: Failure to meet the standard of minimum requirements outlined in subdivisions (i) and (ii) of this subparagraph; the loss of three adjoining masticating teeth in either side of the upper or lower jaw; disfiguring spaces between anterior teeth, such as result from the extraction of a tooth; marked irregularity of the teeth; and marked malocclusion. No candidate will be accepted until all cavities in the teeth have been filled with proper permanent fillings.

(d) *Physical proportions for height, weight, and chest measurements for all candidates except Filipinos.* The requirements of the following tables of physical proportions are for growing youths and are for guidance in connection with the other data of the examination, a consideration of all of which will determine the candidate's physical eligibility. Mere fulfillment of the requirements of the standard tables does not determine eligibility.

Height (inches)	Weight		Minimum chest measurement at expiration
	Minimum	Maximum	
	Pounds	*Pounds*	*Inches*
66	120	170	30.50
67	124	175	30.50
68	128	180	31.00
69	132	185	31.50
70	136	190	32.00
71	140	195	32.00
72	144	201	32.50
73	148	208	32.50
74	152	214	33.00
75	156	220	33.00
76	160	226	33.50

NOTE: Fractions of an inch will be reduced to the quarter of an inch, but candidates must be at least 66 inches in height. No candidate will be accepted who is more than 76 inches in height. Height to be taken without shoes and weight without clothes.

Medical examiners will recommend rejection of individuals who show poor physical development and those who appear to be undesirable candidates because of excess fat, even though their measurements may come within the figures stated in the above table. In such instances, the report will show in detail the findings upon which recommendation for rejection is based.

Recommendations for waiver of excess weight will be made in cases in which the general appearance and conformation of the candidate and the rest of the examination clearly indicate that he is of the robust type and that there is no tendency to obesity, endocrine imbalance, cardiovascular disease, or other defect which is likely to shorten the period of useful active service normally expected of an Army officer. (See par. 1a (1) (c), AR 40-100.)

§ 575.14a *Physical aptitude examination.* (a) All candidates must qualify in a Physical Aptitude Examination. This is a 1 hour examination measuring neuromuscular coordination, muscular power, muscular endurance, speed, cardiovascular endurance, and flexibility. The tests will typify the abilities of running, jumping, throwing, climbing, dodging, lifting, pushing, pulling, etc. Each candidate is required to take rubber-soled athletic shoes, socks, undershirt, and long trousers (athletic supporter—optional) with him when he reports for the examinations.

(b) It is recommended that candidates prepare for this examination by engaging in all round vigorous activities such as running, conditioning exercises, competitive games, etc., rather than practicing on specific test items. A candidate may consider himself prepared to meet the minimum standards of physical aptitude if he can achieve performances on physical tests in general not lower than those here listed:

(1) Vertical jump The difference between the height an individual can reach and the height he can jump and reach.	17 inches.
(2) Standing broad jump for distance	6 feet 9 inches.
(3) 3 broad jumps for distance Standing start with 3 continuous broad jumps.	20½ feet.
(4) Pull-ups Chinning oneself on a horizontal bar, grasping bar with back of hand toward face.	3 times.
(5) Dips Raising and lowering oneself on parallel bars by means of the arms. The body is lowered until upper arm passes the horizontal.	3 times.
(6) Push-ups Standard push-ups starting from the leaning rest position.	16 times.
(7) Dodge run A run through a maze placed on a gymnasium floor. This test is described in the book entitled "Achievement Scales in Physical Education Activities for College Men" by F. W. Cozens, Lea & Febinger Publishing Co.	27 seconds.
(8) 300-yard run (indoor track—11 laps to the mile)	46.7 seconds.
(9) 300-yard run This test is a shuttle run on a gymnasium floor between two turning blocks placed 25 yards apart.	65 seconds.
(10) 100-yard run This test is a shuttle run on a gymnasium floor between two turning blocks placed 25 yards apart.	18.9 seconds.
(11) 50-yard run This test is a shuttle run as described under the above 100-yard run.	8.7 seconds.

(12) Bar vault for height. From a standing position vault over a horizontal bar by touching it with only the hands using either flank or front vault.	4 feet 6 inches.
(13) Burpee test for 20 seconds. Continuous movements from the standing position to the squat, to the leaning, rest, to the squat and back to the standing position.	10½ times.
(14) Squat jumps (total number possible). From the squatting position on the right heel with fingers laced on top of head palms downward, and with left foot slightly advanced, spring upward until both knees are straight and both feet clear the floor. While the feet are off the floor advance the right foot and drop to a squat on the left heel. Spring up again and repeat as many times as possible.	28 times.
(15) Sit-ups. The total number of sit-up movements that can be performed with a partner holding the feet.	30 times.
(16) Sit-ups for speed. The number of sit-up movements that can be performed in 30 seconds while lying on a gymnasium mat with toes hooked under a bar.	20 times.
(17) Softball throw for distance using a regulation softball (12-inch circumference)	140 feet.
(18) Basketball throw for distance using a regulation basketball	65 feet.
(19) Medicine ball put. A 6-pound medicine ball is put using the same movement as required for a shot put.	33 feet.
(20) Hop, step, and jump. From a standing position take a hop, a step, and a jump to gain as great a distance as possible.	20 feet.
(21) 100-yard pick-a-back carry. Carrying a partner astride his back one runs 100 yards by shuttling back and forth around stakes placed 25 yards apart. The partner must be within 10 pounds of one's own weight.	27.0 seconds.
(22) Rope climb (7 seconds). Climb a regulation gymnasium rope as high as possible in 7 seconds, using hands and feet or hands alone, starting from a standing position.	10½ feet.

(c) The examination items will be selected from the list in paragraph (b) of this section and candidates may consider themselves qualified to meet the minimum standard of the Physical Aptitude Examination if they can achieve the performances indicated in paragraph (b) of this section. The examination will be graded on the basis of the total score. In other words, failure to achieve a passing score on a single test will not cause failure if a passing grade is achieved on the whole examination. A candidate once found qualified in the physical aptitude examination will not be required to undergo the examination again in connection with any subsequent appointment.

§ 575.15 *Physical conditioning.* (a) A warning is here stressed that passing the Physical (Medical) examination and the Physical Aptitude Examination does not mean that a candidate is sufficiently fit physically or conditioned for the duties he will undergo immediately upon entrance to the Military Academy. Passing these examinations simply means that the candidate has a normal body and has no apparent serious medical defects. It does not insure proper physical fitness to undergo the initial training at the United States Military Academy without considerable difficulty. Because of the nature of the new cadets' training during their first 2 months at the Academy the physical demands are necessarily great. Experience has indicated that those cadets who, prior to admission, have hardened themselves physically, are best able to meet these requirements. The cooperation of parents is enjoined to encourage new cadet candidates to participate in some form of physical exercise prior to their arrival at the Academy.

(b) Much valuable time has been lost from instruction because of poor physical condition, sore feet, muscular soreness, strained arches, and many other physical impairments due to unaccustomed physical exertion. This loss can be avoided if all new cadet candidates begin to condition themselves immediately upon notification of appointment. The conditioning program may include daily exposure to sunlight, running, taking long hikes, swimming, and other types of exercise.

§ 575.16 *Deposit upon entrance.* (a) The cost of the uniform and personal equipment with which the new cadet is provided immediately after admission is approximately $300. This sum must be deposited with the treasurer of the Academy before the cadet is admitted. Parents of candidates are advised to forward the required deposit by draft, payable to the Treasurer, United States Military Academy, who will credit it to the new cadet's account. Cadets who exercise proper economy will have upon graduation a sufficient balance to their credit with the treasurer to purchase the initial supply of uniforms and equipment which they will need as officers.

(b) Candidates are advised, on leaving home for admission, to take with them no more money than is needed for traveling expenses. Any balance in their possession at the time of admission is deposited to their credit with the treasurer. Except for members of the armed forces, who are provided transportation or are allowed mileage as provided in Army Regulations, cadets are allowed 5 cents per mile for traveling expenses from their homes to the Military Academy. Such mileage is credited to the cadet's account after his admission unless he makes a specific written request to the Commandant of Cadets that the mileage allowance be sent to his parents.

§ 575.17 *Degree.* The degree of bachelor of science is conferred at the time of graduation under the provisions of an act of Congress approved May 25, 1933, as amended by the act of Congress approved July 8, 1937 (48 Stat. 73, 50 Stat. 477; 10 U. S. C. 486a), which provides: "That the superintendents of the United States Naval Academy, the United States Military Academy, and the United States Coast Guard Academy may, under such rules and regulations as the Secretary of the Navy, the Secretary of the Army, and the Secretary of the Treasury may prescribe, confer the degree of bachelor of science upon all graduates of their respective academies, from and after the date of the accrediting of said academies by the Association of American Universities: *Provided*, That on and after the date of the accrediting of the said academies by the Association of American Universities the superintendents of the respective academies may, under such rules and regulations as the respective secretaries may make, confer the degree of bachelor of science upon such other living graduates of the said academies as shall have met the requirements of the respective academies for such degree." The United States Military Academy was accredited by the Association of American Universities on October 31, 1925.

§ 575.18 *Promotion after graduation* — (a) *Appointment of officers.* When any cadet of the United States Military Academy (other than foreign cadets) has completed the prescribed course of instruction, he may upon graduation be promoted and appointed a second lieutenant in the Regular Army or United States Air Force, and whenever any such appointment would result in there being a number of active list commissioned officers in the Regular Army or in the United States Air Force in excess of the authorized active list commissioned officer strength, such strength shall be temporarily increased as necessary to authorize such appointment (Sec. 506 (f), Pub. Law 381, 80th Cong.).

(b) *Revocation of commission.* Under the provisions of the act of Congress approved 25 July 1939 (53 Stat. 1074; 10 U. S. C. 484a), authorizing revocation by the Secretary of the Army of the commission of an officer on the active list, initially commissioned after 25 July 1939, who has had less than 3 years of continuous service as a commissioned officer of the Army at the date of revocation, it is prescribed that:

a. In the case of officers serving under revocable commissions • • • the Secretary of War may revoke the commission of any officer whose conduct or performance of duty is such as not to justify his retention as an officer of the Army, or whose retention as an officer of the Army is not justified for other good and sufficient reasons appearing to the satisfaction of the Secretary of War. The action of the Secretary of War is final and conclusive. • • • d. An officer whose commission is revoked under this authority will be entitled only to accrued pay and allowances upon discharge. • • • *f.* These regulations become effective as to all officers originally commissioned in the Regular Army after July 25, 1939.

§ 575.19 *Pay and allowances of cadets.* (a) The pay of the cadet is $936 per annum plus the cost of one ration per day. The latter item varies with the cost of food. The total of such pay and allowances, when added to the new cadet's initial deposit, is sufficient to meet the cadet's actual needs at the Academy.

(b) Except for members of the armed forces who are provided Government transportation or allowed mileage in accordance with Army Regulations, mileage at 5 cents per mile, for traveling expenses from their homes is credited to the account of cadets after their admission to the Academy.

(c) Obtaining money from outside sources is regarded with disfavor, unless it be for purposes specifically authorized in the Budget of a Cadet's Pay or in Regulations, United States Cadet Corps.

§ 575.20 *Uniforms and supplies.* Cadets are required to wear the prescribed uniform. All articles of their uniform and equipment, including bedding, shoes, and underwear, are of a designated pattern, and are sold to cadets at West Point at regulated prices. It is not necessary for candidates to make special preparation for their stay at the academy, although there is no objection to their bringing with them such supplies of handkerchiefs and toilet accessories as they may have. Should a trunk be brought, it should be of the Army trunk locker type, 29¾ by 16 by 12 inches in size, and in good condition. If a candidate does not have such a trunk, he should wait until his arrival at the academy to procure one. Everything needed can be secured from the cadet store at West Point.

§ 575.21 *Communications.* Communications relating to matters connected with the Military Academy should be addressed to The Adjutant General, The Pentagon, Washington 25, D. C.

PART 576—CARE AND DISPOSITION OF THE PSYCHOTIC

Sec.
576.1 Transfer to care of nearest known relative.
576.2 Applicants for enlistment or selectees.

§ 576.1 *Transfer to care of nearest known relative.* (a) A psychotic person requiring institutional care will be transferred to the custody of the nearest known relative upon the relative's request: *Provided*, The patient is not considered actively suicidal or homicidal: *And provided*, The relative produces satisfactory evidence that proper care for the psychotic person concerned will be furnished. This evidence will consist of affidavits from the relative declaring that he or she is willing and has the necessary financial means to provide adequate care and treatment. For disposal of patient's effects and valuables see § 576.2 (c).

(b) Persons who are actively suicidal or homicidal will be disposed of only as follows:

(1) Those entitled to care and treatment by the Veterans' Administration will be:

(i) Disposed of as provided in Army Regulations, if such person or his relatives refuse care and treatment in a Veterans' Administration facility.

(ii) Delivered to an acceptable State, private, or other civilian hospital, upon written request of the nearest known relative and upon authorization from such civilian hospital in cases where the person or his relatives elect to provide civilian hospitalization in lieu of disposition as provided in subdivision (i) of this paragraph.

(2) Those not entitled to care and treatment by the Veterans' Administration will be:

(i) Disposed of as provided in Army Regulations.

(ii) Delivered to an acceptable private hospital, upon written request of the nearest known relative and upon authorization from such private hospital in cases where the person or his relatives elect to provide private hospitalization in lieu of disposition as above. (R. S. 161; 5 U. S. C. 22) [AR. 600-500, Feb. 4, 1946]

§ 576.2 *Applicants for enlistment or selectees.* Applicants for enlistment or selectees discovered to be psychotic after arrival at a military station, and before the completion of their enlistment or induction, will be disposed of as follows:

(a) Those whose release will be unattended by danger to themselves or others will be rejected and disposed of under the regulations governing the disposal of other rejected applicants or selectees.

(b) Those whose psychosis is of a type that would probably make their release dangerous to themselves or others will be delivered to relatives or to the civil authorities designated by law to apply for the commitment of psychotic or insane persons residing in the place where they applied for enlistment or at place of induction. The station commander will provide the necessary escort for such delivery, and issue the necessary travel orders, transportation, and subsistence (in kind or by commutation, as may be most suitable). If they refuse to accept the patient, report will be made to The Adjutant General.

(c) On the day of departure of the patient, his immediate commanding officer will make and sign an inventory, in triplicate, of the patient's effects, money, and valuables. Two copies of the inventory listing the patient's money and valuables, together with the money and valuables, will be turned over, or sent by registered mail to the manager or superintendent of the institution to which the patient is delivered, or to the relative or civilian agency assuming the custody of the patient, with a request that one copy of the inventory be receipted. In the case of a patient transferred to a Veterans' Administration hospital, any money of the patient on deposit in the patients' fund will be transmitted by check drawn by the custodian to the order of "Manager, Veterans' Administration Hospital, ----------, a/c
(Address of facility)
----------." The manager of the Veterans' Administration hospital will acknowledge the receipt of such check by returning a field service receipt to the custodian. If to the knowledge of the immediate commanding officer of the patient a guardian of the patient has been legally appointed, then, in lieu of disposition as above, the patient's money and valuables will be turned over, or forwarded by registered mail to such guardian upon presentation of proper evidence of his or her authority. If such money and valuables are turned over to a guardian a receipt therefor will be obtained; if forwarded by registered mail, a receipt will be inclosed with instructions that it be signed and returned. The other effects of the patient, such as clothing, together with two copies of the inventory of these effects, will accompany the patient as baggage. One copy of the inventory will be receipted by the relative or civilian agency assuming custody of the patient or by a responsible person in the institution to which the patient is delivered and will be returned for file. Prior to the patient's departure, the commanding officer will advise the institution or relative of the fact, stating the time when the patient may be expected to arrive. (R. S. 161; 5 U. S. C. 22) [AR 600-500, Feb. 4, 1946]

AUTHORITY: §§ 577.1 to 577.46 issued under R. S. 161; 5 U. S. C. 22.

DERIVATION: AR 40-505, Dec. 5, 1945; AR 40-590, Jan. 21, 1946; AR 40-600, Oct. 6, 1942; AR 40-510, Oct. 1, 1945.

MEDICAL ATTENDANCE

§ 577.1 *General*—(a) *Definition.* The term "medical attendance" as used in the regulations in this part embraces the treatment by a medical officer or contract surgeon in the Federal service, or by a civilian physician, of sick or injured

persons, and advice and physical examination connected therewith. The term includes furnishing of medicine, nursing, hospital care, and ambulance service. For dental treatment, see §§ 577.40–577.46.

(b) *Agencies for providing medical attendance in the Army.* (1) The principal agencies maintained for providing medical attendance in the Army are:

(i) *At permanent stations.*

Hospitals.	Dispensaries.

(ii) *In the field.*

Aid stations.	Evacuation and surgical hospitals.
Collecting stations.	Dispensaries.
Clearing stations.	
Hospitals (fixed).	

(2) In general, patients proceed to these agencies for observation and treatment. Patients sick in quarters at a station or with a command which has a hospital or dispensary will, if their condition permits, report thereto for examination and treatment as required by the medical officer in attendance. Other patients sick in quarters will be visited by a medical officer as often as he may deem necessary.

(c) *Refusal of treatment.* For provisions relating to the refusal of treatment, see AR 600–10.[1]

§ 577.2 *For whom authorized.* Under the conditions indicated herein the Army, usually through its own facilities, will provide medical attendance to the personnel enumerated in paragraphs (a), (b), and (c) of this section.

(a) *General.* Any person admitted to an Army hospital under the provisions of AR 40–590 or 40–600,[2] while undergoing treatment in such hospital.

(b) *Military.* (1) Officers, Army nurses, Women's Army Corps, other militarized female personnel of the Army, contract surgeons (full time), warrant officers, flight officers, cadets and enlisted men, while in active Federal service, and general prisoners and prisoners of war.

(2) Persons who are on the retired list of the Regular Army and who report in person at any Army dispensary or hospital, provided sufficient accommodations are available for their treatment. Medical officers and contract surgeons will not be required to leave their stations to attend those on the retired list.

(3) Members of the National Guard not in Federal service while in attendance at a Federal training camp, and under certain other conditions as prescribed under appropriate headings in National Guard Regulations.

(4) Members of the Officers' Reserve Corps and of the Enlisted Reserve Corps as provided in subparagraph (1) of this paragraph.

(c) *Civilian.* (1) Members of the Reserve Officers' Training Corps, as prescribed in AR 145–10 and §§ 562.1 to 562.34.

(2) Persons in military custody or confinement and applicants for enlistment while under observation.

(3) Whenever practicable, the wife, dependent children, and servants of persons enumerated in paragraph (b) (1) of this section; also other dependent members of the family when residing with such persons provided they are not legally dependent upon an individual not in the military service.

(4) Civilian employees of the Army (including civilian employees of exchanges) at stations or in the field, where other medical attendance cannot be procured.

(5) Civilian employees of the United States Government who receive personal injuries in the performance of official duty who may report for treatment at an Army dispensary or hospital upon request of the officer under whom they are employed, provided other Government hospitals for the treatment of such employees are not convenient of access.

§ 577.3 *Civilian medical attendance for military patients at public expense—*(a) *General authorization.* Subject to the conditions and limitations specified herein, civilian medical attendance at public expense is authorized for personnel specified in paragraph (b) of this section, when the required attendance cannot be provided from available facilities of the Army or other Federal agency: *Provided,* That this will not apply to military personnel who obtained elective medical treatment in civilian hospitals or by civilian physicians.

(b) *For whom authorized.* Civilian medical attendance at public expense is authorized for the following personnel and none other:

(1) Officers, Army nurses, Women's Army Corps, other militarized female personnel of the Army, contract surgeons (full time), warrant officers, flight officers, cadets, enlisted men, when on a duty status or when absent on authorized leave, sick leave, furlough, or pass. Civilian medical attendance is not authorized for the personnel enumerated when absent without leave.

(2) Prisoners of war, persons undergoing internment, and other persons in military custody or confinement.

(3) An applicant for enlistment while under observation.

(4) Civilian seamen in the service of ships operated by the Department of the Army and Transportation Corps marine officer cadets, for a reasonable time and except for injuries or diseases resulting from their own misconduct. Traumatic injuries and occupational diseases incurred in the course of employment are covered by the United States Employees' Compensation Commission and are not included in this part.

(c) *Ordinary medical attendance.* (1) An individual for whom civilian medical attendance is authorized under paragraph (b) of this section, and who is serving without an immediate local commanding officer, may engage civilian medical attendance without reference to higher authority when the urgency of the situation does not permit obtaining prior approval by higher authority or when he or she is serving beyond the continental limits of the United States, and not under the jurisdiction of an Army area commander. Under all other circumstances such an individual will obtain prior approval from higher authority (see subparagraph (3) of this paragraph). When, under the provisions of this subparagraph, civilian medical attendance is engaged without prior authority, the report required by paragraph (g) of this section will be made.

(2) A local commanding officer may engage or authorize necessary civilian medical attendance for himself or for any person under his jurisdiction under any one of the following conditions:

(i) When the cost will not exceed $100, unless the individual for whom the medical attendance is required is serving beyond the continental limits of the United States and not under the jurisdiction of an Army area commander.

(ii) When the urgency of the situation does not permit obtaining prior approval by higher authority. See paragraph (g) of this section for report required.

(3) Where prior approval by higher authority is required for civilian medical attendance, the authority to grant such approval is vested in the Army area commander. See paragraph (f) of this section.

(d) *Specialist service.* (1) Except as otherwise provided in subparagraph (2) of this paragraph, the engagement at public expense of a civilian specialist is subject to prior approval of the Army area commander.

(2) When it is impracticable to obtain prior approval of the Army area commander or when the services of a civilian specialist are immediately necessary to save life or prevent suffering or distress, such services may be authorized or engaged by the appropriate commanding officer, or by the individual concerned if there is no local commanding officer.

(e) *Consultation.* Accounts for consultation will not be allowed except in extraordinary cases.

(f) *Requests for authority to engage civilian medical attendance.* When medical attendance is required, requests for authority to engage such attendance will normally be made in writing, transmitted through channels, but in emergency may be transmitted by telegraph or radio direct to the approving authority. (See paragraphs (c) (3) and (d) of this section.) The request will include:

(1) *For ordinary medical attendance.*

(i) Character and extent of disability.

(ii) Statement whether disability is or is not chronic.

(iii) Place of duty and duties upon which the individual is engaged.

(iv) Status; duty, furlough, leave, or pass. If not on duty, the exact period of furlough, leave, or pass.

(2) *For specialist service.* (i) Diagnosis in the case.

(ii) Professional procedure considered necessary and estimate of time required for treatment.

(iii) Statement of condition of patient and the practicability of his transfer to an Army or other Federal hospital for the necessary treatment.

(iv) Place of duty and duties upon which the individual is engaged.

(v) Status; duty, furlough, leave, or pass. If not on duty, the exact period of furlough, leave, or pass.

(vi) Estimate of the cost.

(g) *Allowances—*(1) *Compensation allowed to civilian physician.* (i) Ordinary medical attendance on public account at garrisoned stations or camps will not exceed the following rates, and if the local charge per visit is less than these rates the account will be rendered at the local rates: For attending station or sick call, five patients or fewer, $4; for each patient in excess of five, 50 cents; for each additional visit to station or sick call when necessary on the same day, $4.

(ii) Where there is a large sick report and the service may be required for an extended period, and the aggregate charge for a month is likely to exceed $150, application will be made to the Army area commander for authority to employ a physician by the month.

(iii) Accounts arising at stations or camps under exceptional circumstances, all accounts arising at other places, and accounts for special or surgical services will be allowed at rates considered reasonable by the approving authority.

(iv) The compensation allowed to each civilian physician for the physical examination (including urinalysis but excluding serology and chest X-ray) of applicants for enlistment in the United States Army-United States Air Force (excluding civilian components), when such examinations are authorized by regulations or orders, will be $25 a day, unless the number to be examined is so small that it would be more economical to hire him on a basis of $5 for a single examination and $2 for each additional examination on the same day.

(v) Civilian physicians employed, in the absence of a medical officer or contract surgeon, for the physical examination of officers, enlisted men, or other persons under the provisions of regulations or orders from competent authority, will, except as otherwise provided by competent orders and regulations or directed by The Surgeon General, be paid at the rates prescribed in subdivision (iv) of this subparagraph for the examination of applicants for enlistment, and for each authorized vaccination at the rate of $1 for administration of each dose of vaccine.

(2) *Charges for other civilian attendance.* Accounts for civilian hospital service, for special nursing, for medicines, for ambulance service, and for sundry items of civilian medical service will be allowed at reasonable rates approved by the Army area commander.

§ 577.4 *Treatment in hospitals of other Government services—*(a) *For whom authorized.* When Army hospitals are not available, treatment in other Federal hospitals at public expense is authorized for the following personnel, and none other:

(1) Officers, Army nurses, Women's Army Corps, other militarized female personnel of the Army, contract surgeons (full time), warrant officers, flight officers, cadets, and enlisted men, when on a duty status or while absent from duty on authorized leave or absent without leave.

(2) A prisoner in military custody.

(3) An applicant for enlistment while under observation.

(b) *Subsistence.* Subsistence charges will be at the rate prescribed by the individual hospital. Payment for subsistence will not be made to the hospital by the individual concerned. The Surgeon General will collect the subsistence charges from any officer, Army nurse, officer of the Women's Army Corps, other militarized female personnel of the Army in officer status, contract surgeon (full time), warrant officer, flight officer, so hospitalized, and deposit it to the proper appropriations.

§ 577.6 *Physical examination of civilians by medical officer.* In addition to making physical examinations of civilians who are applicants for admission to the Army or who are applicants for admission to or members of Reserve Officers' Training Corps units, medical officers will, without charge, conduct physical examination of civilians as follows.

(a) Upon request of the Civil Service Commission:

(1) In the operation of the civil retirement law: *Provided,* That a medical officer will not be required to leave his proper station for this purpose.

(2) Applicants for annuity who are being hospitalized in Army hospitals. Such reports of these examinations will be made as the Civil Service Commission may indicate, and forwarded direct.

(b) Candidates for foreign service appointments under the Department of State who may report for such examination under proper authorization from that Department.

(c) Medical officers on duty at military stations will conduct physical examinations of candidates for assignment in the Federal classified Civil Service Commission after selection by that agency: *Provided,* That the examinations can be conducted without interference with the military duties of medical officers. Hospitalization in military hospitals for the purpose of examination is not authorized.

(d) (1) Medical officers will conduct without charge, except for materials used, the following examinations, and reports will be forwarded direct to the United States Veterans' Administration.

(i) Former members of the military establishment who are applicants for pensions, provided that a medical officer will not be required to leave his proper station for this purpose.

(ii) Beneficiaries of the United States Veterans' Administration who are patients in Army hospitals, when such examinations are necessary in connection with the establishment of claims for compensation or with the reinstatement of Government insurance.

(2) Medical officers stationed in Alaska will in addition to their other duties act as medical examiners in that territory for the United States Veterans' Administration.

(e) Medical officers on duty at military stations will make such physical examinations of personnel of the Coast Guard, active and retired, as may be requested by the proper authorities of that service in the operation of the act of March 4, 1925 (43 Stat. 1261; 33 U.S.C. 765, 766), or laws that may be enacted supplemental thereto, concerning retirement on account of disability, and will make such reports thereof as the said authorities may desire: *Provided,* That no medical officer will be required to leave his proper station for this purpose, except with his own consent and the approval of his commanding officer, in which case it must be established that the person to be examined is substantially unable to report at the military station for the required examination and that public funds have been set aside by the Coast Guard for the traveling expenses and transportation of the medical officer.

(f) Civilian employees of the United States Government who have received injuries in the performance of official duty will, upon request of the officer under whom they are employed and provided that other Government medical officers are not convenient of access, be examined by medical officers to determine the degree and extent of the injury. Report will be made to the officer requesting the examination: *Provided,* That a medical officer will not be required to leave his proper station for this purpose.

(g) Honorably discharged enlisted men, sailors, and marines applying under the act of Congress, approved July 11, 1919, for positions under the Department of the Army requiring a medical certificate.

(h) Civilian aviators who have been specifically authorized by the Department of Commerce to appear for physical examination for flying by qualified flight surgeons: *Provided,* That such examinations will not interfere with the performance of their military duties.

§ 577.7 *Civilian physicians practicing upon military reservations, posts, or camps.* Regularly licensed civilian physicians may be authorized by the commanding officer to practice medicine upon military reservations, posts, or camps, other than as prescribed in § 577.3 under the following regulations:

(a) The civilian physician will, before entering upon such practice, register over his signature with the commanding officer his name, address, fact of State licensure, agreement to ascertain and observe current rules and regulations relative to the protection of the command against communicable diseases, and his agreement to conform to the established ethics of the civil medical profession. Until such agreement has been made he will not, except in case of emergency, be allowed to practice within the station or command.

(b) When a civilian physician in his practice within a military reservation, post, or camp discovers a case of disease which is or may be communicable, he will promptly report the fact to the commanding officer, who will advise the surgeon and take proper measures for the protection of the command and of other persons.

(c) When a civilian physician is summoned to treat a patient belonging to or present with any command, the patient or the person acting in his or her behalf will at the same time inform the commanding officer, who will notify the surgeon that a civilian physician has been

[1] Administrative regulations of the Department of the Army.

[2] Administrative regulations of the Department of the Army relative to hospitals.

summoned. The surgeon will thereupon ascertain from civilian physician, or by personal examination of the patient if deemed necessary, the nature of the disease and whether it is communicable or is a source of danger to others. In the event that the disease is communicable or is considered by the surgeon to be a source of danger to others, the surgeon will so inform the commanding officer, and will exercise such supervision over the case as he may deem necessary to prevent its spread.

(d) If the patient is an officer, Army nurse, member of the Women's Army Corps, other militarized female personnel of the Army, contract surgeon (full time) warrant officer, flight officer, cadet, enlisted man, general prisoner, or prisoner of war, the civilian physician or the patient in case the medical attendance is obtained other than as provided in this section or in § 577.3 (a), will report the diagnosis of the disease or injury and the attending circumstances to the commanding officer, who will transmit the information to the surgeon:

(1) To enable the Medical Department to have knowledge of communicable diseases for which the patient might consult the civilian physician;

(2) To complete the health records of the individual in the sick and wounded records;

(3) To carry out the scheme of health conservation prescribed in AR 605–110;[1]

(4) To have the information available for promotion and retirement boards; and the patient will not be relieved from the consequences of a failure to report such diagnosis unless he states that the same would tend to incriminate him.

(e) Violation of the regulations in this section by a civilian resident or by a civilian physician will render him liable to exclusion from the military reservation, post, or camp, and by any member of the military forces to appropriate disciplinary action.

(f) Each civilian physician registered to practice within a military reservation, post, or camp will be furnished with a copy of the regulations in this part and also with a copy of any other rules and regulations in force relative to the protection of the command against communicable disease.

§ 577.8 *Private practice by medical officers.* If a citizen residing in the neighborhood of a military station or the residence of an Army medical officer desires the professional services of such officer, and the services of a private practitioner acceptable to him cannot conveniently be obtained, it is regarded as not inconsistent with the regulations governing the Army for such officer to tender his services when this does not interfere with the proper performance of his official duties. Private or civil practice by Army medical officers in civilian communities the needs of which are being satisfactorily met by civilian practitioners will ordinarily be restricted to consultation practice with such civilian practitioners, and to emergency medical or surgical work necessary to save life or limb or prevent great suffering for which civilian practitioners are not immediately available. The establishment by a medical officer of an office for the purpose of engaging in civil practice is prohibited.

§ 577.9 *Issuance of narcotic prescriptions by medical officers to be filled at civilian pharmacies.* Officers of the medical corps of the Army and Navy, in the course of official medical treatment of Army and Navy personnel and members of their families entitled to receive such treatment, are required to issue prescriptions for these patients which may call for narcotic drugs or preparations. Under circumstances where the drug or preparation required by the patient for medical use cannot be furnished from official stocks, it is necessary that it be obtained, pursuant to the official prescription, from drug store duly qualified by registration under the Federal narcotic law to fill narcotic prescriptions.

Such prescriptions, issued in the course of official professional practice only, and prepared on official blanks or stationery (such as printed forms of an Army or Navy hospital or dispensary) and otherwise meeting the requirements of Narcotic Regulations No. 5 (26 CFR, Part 151, as amended) relating to narcotic prescriptions, may be filled by a duly registered druggist although they do not bear a registry number of the issuing practitioner; provided they bear the signature, title, corps, and serial or jacket number of the issuing medical officer. Such prescriptions, when filled, shall be filed with, and retained for the same period as narcotic prescriptions issued by regularly registered practitioners and filled by the druggist.

This procedure shall not apply in the case of prescriptions written by an Army or Navy medical officer in the treatment of a private patient, i. e., a patient not entitled to receive medical treatment from the physician in the latter's capacity as a service medical officer. In prescribing and dispensing narcotic drugs to such private persons, the officer is subject to all the requirements of the Federal narcotic law, including registration and payment of tax, as are imposed upon other physicians conducting private medical practice.

ARMY HOSPITAL REGULATIONS

§ 577.15 *Persons who may be admitted to Army hospitals.* (Provisions of this section do not apply to the Army and Navy General Hospital (see AR 40–600)[1].

(a) *General.* When suitable facilities for hospitalization are available, sick and injured persons enumerated in paragraph (b) of this section may be admitted to Army hospitals.

(b) *List.* (1) The following personnel of the Army:

(i) Officers, male and female (active or retired) (including Philippine Scouts).

(ii) Warrant officers, male and female (active or retired) (including Philippine Scouts).

(iii) Flight officers.

(iv) Army nurses (active or retired).

(v) Cadets of the United States Military Academy.

(vi) Militarized female personnel of the Medical Department.

(vii) Aviation cadets.

(viii) Contract surgeons serving full time.

(ix) Enlisted men and women (including Philippine Scouts).

(x) Retired enlisted men.

The admission of retired personnel on inactive status will be limited to cases which, in the judgment of the commanding officer of the hospital, will be benefited by hospitalization for a reasonable time. Those requiring merely domiciliary care by reason of age or chronic invalidism will not be admitted. Persons entitled to hospitalization under section 5, act of April 3, 1939 (53 Stat. 557), as amended by act of July 25, 1939 (53 Stat. 1079; 10 U. S. C. 456), or under section 1, act of September 26, 1941 (55 Stat. 733; 10 U. S. C. 456a), or the act of September 22, 1941 (55 Stat. 728; 10 U. S. C. 484), and persons on the Emergency Officers Retired List are not admissible to Army hospitals except under the provisions of subparagraphs (19) or (28) of this paragraph (see subparagraphs (2) and (4) of this paragraph concerning persons entitled to hospitalization under the act of June 15, 1936 (49 Stat. 1507), as amended by section 5, act of October 14, 1940 (54 Stat. 1137; 10 U. S. C. 455a–455e)).

(2) The following personnel who suffer personal injury or contract disease while on active duty; or who are injured in line of duty while properly participating in aerial flights as an incident to their military training, but not on active duty; or who require rehospitalization for injuries or diseases incurred in line of duty:

(i) Members of the Officers' Reserve Corps.

(ii) Members of the Enlisted Reserve Corps.

(3) Members of the Enlisted Reserve Corps not on active duty who suffer personal injury or contract disease while undergoing training as students of the Army Specialized Training Reserve Program, including those who require rehospitalization for injuries or diseases so incurred.

(4) The following personnel who suffer personal injury or contract disease in line of duty or who require rehospitalization for such injuries or diseases:

(i) Members of the Citizens' Military Training Camps.

(5) (i) The following personnel of the Navy and/or Marine Corps (whether on active service or on retired, inactive or leave (furlough) status, except as provided in (*f*) and (*g*) of this subdivision:

(*a*) Officers (male and female) of the Navy or Marine Corps.

(*b*) Commissioned warrant officers (male and female) of the Navy or Marine Corps.

(*c*) Warrant officers (male and female) of the Navy or Marine Corps.

(*d*) Navy nurses.

(*e*) Midshipmen of the United States Naval Academy.

(*f*) Enlisted men and women of the Navy or Marine Corps on active service, including aviation cadets and midshipmen of the Naval Reserve.

(*g*) Enlisted men of the Navy and Marine Corps on retired (inactive) status and inactive enlisted personnel transferred to the Fleet Naval Reserve or to the Fleet Marine Corps Reserve after 16 or more years of service.

(ii) The procedure for admission of the above-mentioned personnel will be as follows:

(*a*) *On active service.* On the request of their commanding officer or on their own request if the commanding officer of the hospital concerned deems such admission necessary. Whenever such request has not been received from the commanding officer of such active duty personnel, report of hospitalization should be made immediately to the Bureau of Medicine and Surgery, Navy Department, Washington, D. C.

(*b*) *On inactive status.* On authorization of the proper representative of the Navy Department, or on their own request if their admission be deemed necessary by the commanding officer of the hospital concerned, provided beds are available in the hospital concerned. Whenever such authorization has not been received, report of hospitalization should be made immediately to the Bureau of Medicine and Surgery, Navy Department, Washington, D. C., and authorization requested therefor.

(iii) The admission of patients requiring merely domiciliary care by reason of age or chronic invalidism is not authorized.

(6) Commissioned officers of the United States Public Health Service on active duty, upon the individual officer's own written request when such officers are disabled as the result of sickness or injury.

(7) Civilian employees of the United States Public Health Service on duty at any national quarantine station, or on a national quarantine vessel, or detailed for duty in foreign ports, suffering from sickness or injury, upon written authorization by a responsible officer of the United States Public Health Service.

(8) The following personnel of the United States Coast Guard on active duty, including those on shore duty and those on detached duty, upon written authorization of the responsible Coast Guard officer:

(i) Officers (male and female).

(ii) Commissioned warrant officers (male and female).

(iii) Warrant officers (male and female).

(iv) Cadets.

(v) Enlisted men and women (including Reserve cadets).

(9) The following personnel of the United States Coast and Geodetic Survey, on active duty, including those on shore duty and those on detached duty, upon written authorization of the responsible Coast and Geodetic Survey officer:

(i) Commissioned officers.

(ii) Ship's officers.

(iii) Members of the crews of vessels.

(10) Wives, or dependent husbands, and dependent children of the following Army personnel, and other dependent members of their families (when such other dependent members reside in the home of such Army personnel and are not legally dependent upon an individual not in the military service), requiring hospital treatment or isolation and when accommodations for their care are available:

(i) Officers (male and female).

(ii) Warrant officers.

(iii) Flight officers.

(iv) Aviation cadets.

(v) Enlisted men and women.

Application in each case will be made to the commanding officer of the hospital concerned by the officer, warrant officer, flight officer, aviation cadet, or enlisted man or woman with evidence satisfactory to the commanding officer showing the relationship, dependency, residence, nature of the illness, and need for hospital treatment. Dependents of military personnel should not undertake travel to a military hospital without first ascertaining whether and when accommodations will be available. If the case is under the care or within the province of an attending surgeon of the Army, application will be made by him; otherwise, it will be made direct.

(11) Civilian employees of the United States Government compensable by the United States Employees' Compensation Commission who suffer personal injury while in the performance of official duty, or who acquire a disease as a natural result of such injury, or who acquire an occupational disease in the performance of official duty, entitled to hospitalization or treatment in conformity with instructions issued from time to time by The Surgeon General.

(12) Civilians employed at military stations and paid from hospital subsistence accounts, or from nonappropriated funds under Army Regulations, provided civilian hospital service is not available.

(13) Recently discharged enlisted men and women needing hospital treatment, who arrive in the United States on Government transports, in Army hospitals in the vicinity of the port of debarkation.

(14) Civilian seamen in the service of ships operated by the Department of the Army on presentation of a certificate from the master or other appropriate administrative authority (which may be dispensed with only in emergencies), and Transportation Corps marine officer cadets, not including United States Employees' Compensation Commission beneficiaries in either case, for a reasonable time and except for injuries or diseases resulting from their own misconduct: *Provided*, That, except in emergencies, those entitled to care by the United States Public Health Service will be admitted only when no facilities of that Service are available. A seaman is in the service of a ship, although not on board and not engaged in his duties, as long as he is under the power and jurisdiction of competent Department of the Army authorities. Cases of traumatic injury or occupational disease incurred in the course of employment should be treated as United States Employees' Compensation Commission beneficiaries, and are admissible under subparagraph (11) of this paragraph.

(15) In Army hospitals within the continental limits of United States, American merchant seamen (other than those covered in subparagraph (14) of this paragraph) and American river boatmen, only on authorization of the officer in charge of the United States Public Health Service station where the application for such authorization is made, unless their condition demands immediate relief when, in the discretion of the hospital commander, they may be admitted in advance of receipt of authorization.

(16) In Army hospitals outside the continental limits of the United States in time of war and for 6 months thereafter, the following merchant seamen, including officers (other than those covered in subparagraph (14) of this paragraph) on presentation of a Master's Certificate of Service:

(i) Merchant seamen of vessels owned by or bareboat-chartered to the War Shipping Administration.

(ii) Merchant seamen of vessels time-chartered to the War Shipping Administration.

(17) Enrolled Indians who are beneficiaries of the Indian Service upon written approval by the Office of Indian Affairs, Department of Interior, or, preferably, by the superintendent of the agency to which the Indian belongs, provided beds are available.

(18) The following when on duty at military stations:

(i) Red Cross personnel.

(ii) Other officially recognized welfare workers.

(19) Beneficiaries of the Veterans' Administration in limited numbers in certain designated Army hospitals upon request of the proper representatives of the Veterans' Administration.

(20) Prisoners of war, persons undergoing internment, and other persons in military custody or confinement.

(21) Employees of commercial air lines under contract to the Air Transport Command in Army hospitals and other medical installations outside the continental limits of the United States.

(22) Members of the Civil Air Patrol who suffer personal injury or incur sickness in line of duty while engaged on active duty assignments within the field activities of the Civil Air Patrol under the provisions of United States Air Force regulations.

(23) Applicants for enlistment, selectees and inductees, while under military control.

(24) Civilian employees of the Department of the Army who are not United States Employees Compensation Commission beneficiaries, when serving in territories or possessions of the United States where civilian hospital facilities are not obtainable or when on military missions in foreign countries, for care and treatment until completion of their assignments in such territories or possessions or in such foreign countries, and without cost to the individual except for subsistence. Cases of traumatic injury in line of duty should be treated as United States Employees Compensation Commission beneficiaries.

[1] Administrative regulations of the Department of the Army relative to the physical fitness of commissioned officers.

[1] Administrative regulations of the Department of the Army relating to hospitals.

(25) Senior cadet nurses during the period of their training at Army hospitals.

(26) Members of the United States Soldiers' Home when authorized by the Governor of the Home.

(27) Other civilians, whether or not in the public service, only in case of extreme necessity and when in the opinion of the commanding officer of the hospital, or his authorized representative, admission is necessary to save life or prevent greater suffering. Under these circumstances a written report will be submitted immediately to the post commander.

(28) Such other person as may be designated by the Secretary of the Army.

§ 577.16 *Disposition of patients*—(a) *General.* Unless directed by higher authority, the commanding officer of a hospital will not order a patient discharged or transferred from the hospital until, in such commanding officer's opinion, the discharge or transfer in question would not endanger the life of the patient concerned. The commanding officer may appoint a board composed of three or more medical officers, to be known as a disposition board, to advise him in such cases as he considers necessary. The report of the disposition board will be forwarded with his recommendations to higher authority in appropriate cases. For disposition of the psychotic see §§ 576.1 and 576.2 of this chapter and AR 600-500.[1]

(b) *Discharge.* (1) Pesons other than those in the public service will, in the discretion of the commanding officer of the hospital, be discharged from hospital upon completion of hospital treatment.

(2) Civilians admitted to Army hospitals as patients must, in all particulars, conform to the rules and regulations governing the operation of such hospitals, and, in the event of failure or refusal to comply therewith, the patient at once becomes liable to discharge from the hospital in the discretion of the commanding officer. A patient so discharged from hospital for disregard or disobedience of rules and regulations will be refused admission thereto or to any other Army hospital within 90 days after such discharge, except when, in the opinion of the commanding officer, earlier admission is necessary to save life or to prevent extreme suffering. Whenever beneficiaries of the United States Veterans' Administration are discharged from hospital under the preceding conditions, the commanding officer of the hospital involved will forward to the Director of the United States Veterans' Administration, through the regional manager, a report giving the reasons for the patient's discharge, together with his full name and address, and condition at the time of discharge.

(c) *Transfer.* (1) Patients may be transferred, under proper military authority, from one hospital to another, for observation or to obtain better treatment or hospital accommodations. See AR 40-600.[2]

(2) In the zone of the interior and, where practicable, overseas, the complete original clinical record, including X-ray films, electrocardiograms, and all pertinent laboratory data and progress notes, will accompany the patient to the hospital to which he is transferred.

(d) *Discharge of members of civilian components.* Members of the civilian components, hospitalized or rehospitalized under provisions of § 577.15 (b) (2), (3), or (4) for personal injury or for disease requiring treatment after expiration of the period of active duty during which contracted, will be brought before boards of medical officers for final disposition when hospital treatment is no longer necessary, or when discharged upon their own request before maximum improvement has been reached. The medical boards acting on cases of individuals remaining in hospital subsequent to completion of the period of active duty in which their disability was incurred will recommend the final disposition of the patients, and will incorporate in the proceedings the diagnosis, line of duty status, physical condition on completion of hospitalization, statement that further hospitalization is not required, and a concise medical history of the case. If further medical or surgical treatment will be required after return home, the reasons therefor, and the probable duration of such treatment will be included in the proceedings. Arrangement for such treatment as is required after return home will be made by the local commanding officer in accordance with § 577.3, and with the approval of the Army area commander. The proceedings of the disposition board will be forwarded in duplicate to the Army area commander, stating the date upon which hospitalization was terminated, and, in the case of Reserve personnel, will be accompanied by the report of physical examination made by the board of WD AGO Form No. 63 (Report of Physical Examination). Any claim for injuries sustained while en route to or from, or while at camps of instruction will be acted on by a board of officers convened by the military commander having immediate jurisdiction.

§ 577.17 *Patients' effects*—(a) *General.* These provisions have particular application to and are intended to cover the ordinary requirements of peacetime conditions. In time of war, when large numbers of patients are being received daily, strict adherence to the procedures herein prescribed may be impracticable; therefore, such deviations as the commanding officer of the hospital concerned may deem necessary may be made to assure the safeguarding of patients' effects.

(b) *Responsibility.* The commanding officer of a hospital is responsible that due care is observed in safeguarding the money, valuables, clothing, and other effects of patients admitted to hospital. The registrar ordinarily will be the custodian of money and valuables turned over to the hospital by patients for safekeeping.

(c) *Money and valuables.* Patients will be informed by the admitting officer that the hospital will receive, for safekeeping, money and valuables, including watches, trinkets, personal papers, keepsakes, etc., and that receipts will be given for such articles by an individual authorized by the commanding officer. In case the patient is unconscious, he will be searched by the admitting officer, in the presence of a witness, for money and valuables, which will be receipted for by a commissioned officer and properly safeguarded. Money and valuables will be received and receipted for without condition or other evasion of complete responsibility by the commanding officer or by an officer, warrant officer, or any bonded individual designated by him. Money and valuables of considerable intrinsic value, such as watches and jewelry, will be deposited in a bank or locked in the hospital safe. Articles of lesser value may be stored in locked compartments in a well safeguarded storeroom. When a patient is discharged, transferred, dies, or deserts, his money and other valuables will be disposed of as prescribed for the disposition of effects other than public property.

§ 577.18 *Subsistence and other charges for patients.* (Provisions of this section do not apply to the Army and Navy General Hospital, except as provided in AR 40-600.)

(a) *Subsistence charges; rates.* The following schedule of rates will apply and, except as indicated in footnote 1, will be collected direct from patients:

(xii) [1] Enrolled Indians (§ 577.15 (b) (17)).

(xiii) [1] Beneficiaries of Veterans' Administration (§ 577.15 (b) (19)).

(xiv) Civilian employees of Department of the Army outside continental United States not entitled to United States Employees' Compensation Commission benefits (§ 577.15 (b) (24)).

(xv) [1] Members of United States Soldiers' Home (§ 577.15 (b) (26)).

(b) *Medicine Charges; rates.* Per diem charges of 50 cents for medicines and dressings will be collected from persons admitted to hospitals under the provisions of § 577.15 (b) (12) (21) (27). In the case of expensive medicines, dressings, appliances, etc., additional charges will be made at such increased rate to be determined by the commanding officer of the hospital as will reimburse the United States for their cost.

§ 577.19 *Civilian hospital employees*—(a) *General.* The employment of civilians necessary for the proper care of patients is authorized in annual appropriations "Medical and Hospital Department, Army" under such regulations fixing their number, qualifications, assignment, pay, and allowances as may be prescribed by the Secretary of the Army.

(b) *Qualifications.* The employment of hospital emyployees is subject to the requirements of the Civil Service Commission under the procedure established by the Civil Service Act and rules.

(c) *Appointment, promotion, demotion, suspension, and discharge.* Hospital employees will be appointed, promoted, demoted, suspended without pay, and discharged under the provisions of such regulations as the Secretary of the Army and the Civil Service Commission may from time to time prescribe.

(d) *Rations.* Whenever it is found necessary or deemed desirable, civilian employees, irrespective of their rate of pay, may be either furnished meals at the hospital, or, by special authority of the commanding officer of the medical installation in exceptional circumstances, furnished with a ration in kind: *Provided,* That deductions are taken from their pay for such subsistence or ration, or that reimbursement in cash is received. Civilian employees permitted or required to take meals regularly at the hospital will have appropriate deductions made from their gross compensation. Civilian employees permitted to take an occasional meal at the hospital will make reimbursement to the hospital subsistence account in cash. The cash value of subsistence furnished will be determined by The Surgeon General.

(e) *Quarters.* Such quarters as may be available will be furnished for the use of employees (including senior cadet nurses and Army nurses' aides) and, in time of war, American Red Cross workers, whose constant presence at the hospital is necessary or appropriate.

§ 577.20 *Laundry*—(a) *General.* Efficient hospital administration required that the hospital laundry consist of the following, which will be laundered without charge to the individuals concerned, except as stated herein:

(1) Linen, clothing, and bedding belonging to the Medical Department.

(2) Bulk linen and bedding of enlisted men and women assigned or attached to, or on duty at, the hospital.

(3) Washable clothing of enlisted men and women while patients in the hospital.

(4) White coats and trousers of enlisted attendants.

(5) Washable clothing of civilian attendants when their contracts of employment entitled them to this service.

(6) Washable clothing (including uniforms), bulk linen, and bedding of senior cadet nurses while on duty at, or patients in, the hospital.

(7) Uniforms of American Red Cross workers serving in the hospital; and uniforms, coveralls, and work suits for civilian hospital employees when deemed necessary by the commanding officer for the maintenance of sanitary standards.

(8) Diapers and other linen of infant patients.

(9) Within the limits of available hospital laundry facilities, laundry service for the staff and related medical organizations, detachments at the hospitals, and medical personnel at nearby stations, including staffs and detachments of numbered hospitals when attached for training. Rates chargeable will be prescribed by the Quartermaster General.

(b) *Purchase from commercial sources for Army hospitals and dispensaries within continental United States; when authorized.* When laundry service cannot be procured from Army owned and operated laundries and is not obtainable from Federal prison laundries or laundries of other government agencies, hospitals and dispensaries will employ commercial laundries under instructions from the Army area commander at Class I and II installations and from the commanding general of the appropriate Air Force command at air installations.

§ 577.24 *Army and Navy General Hospital*—(a) *Character of cases treated*—(1) *General.* All medical and surgical cases of a general nature may be admitted to this hospital, except insanity and tuberculosis of the lungs, which may be

[1] Administrative regulatons of the Department of the Army relative to disposition of the psychotic.

[2] Administrative regulations of the Department of the Army relating to hospitals.

[1] Subsistence charges for these personnel will not be collected from the patients but either will be billed by the commanding officer of the medical installation concerned direct to the Surgeon General of the Army or will be otherwise collected in accordance with instructions from time to time issued by The Surgeon General. In the case of enlisted men (Navy and Marine Corps) on retired (inactive) status, etc. (§ 577.15 (b) (5) (i) (*g*)), subsistence charges will be billed to The Surgeon General of the Army only if the admission of such personnel to the hospital has been authorized by the Bureau of Medicine and Surgery, Navy Department, Washington, D. C.; if not so authorized, the subsistence charge will be collected direct from such personnel.

admitted only temporarily in an emergency.

(2) *Special.* While equipped to care for all types of medical and surgical conditions (except as noted in subparagraph (1) of this paragraph), this hospital also has available the Hot Springs mineral waters used in the administration of hydrotherapy, together with excellent physiotherapy and occupational-therapy facilities. These waters have been found to be of special benefit in certain types of disease and injury. The best results are obtained in inflammatory conditions of the joints, neuritis, and neuralgia.

(b) *Classes of persons who may be admitted.* Persons of the following classes may be admitted:

(1) All personnel authorized admission by § 577.15.

(2) Honorably discharged officers, nurses, commissioned warrant officers, warrant officers, cadets, midshipmen, cadet engineers, and enlisted men of the Army, the Navy, the Marine Corps (including National Guard forces, Naval Militia, volunteers, and drafted or selected men in the service of the United States), the Coast Guard, the Coast and Geodetic Survey, and honorably discharged officers of the Public Health Service, when accommodations are available.

(c) *Procedure for admission*—(1) *For beneficiaries of Veterans' Administration.* Beneficiaries of the Veterans' Administration will be admitted upon requests made to the commanding officer of the hospital by the proper representative of the administration.

(2) *Other persons.* Other persons may be admitted upon special authority of the Secretary of the Army or the Surgeon General.

(3) *Admission in advance of authorization.* A patient presenting himself for treatment in advance of authorization may, if the case is one of emergency, be admitted at the discretion of the commanding officer of the hospital, who will report his action to the proper authority for confirmation.

(d) *Disposition of patients.* Retired enlisted men of any of the public services, and civilians, will be discharged from this hospital at their discretion or at the discretion of the commanding officer.

(e) *Charges*—(1) *Subsistence charges.* (i) A subsistence charge of 60 cents a day will be made for an enlisted man on the active list of the Navy, Marine Corps, United States Coast Guard, and Coast and Geodetic Survey, to be paid by the proper superior upon monthly statements submitted by the commanding officer of this hospital direct to the Surgeon General of the Navy, the commandant of the Coast Guard, and the disbursing agent of the Coast and Geodetic Survey, respectively.

(ii) Subsistence charges will be collected from other pay patients as follows:

(*a*) For officers and those subsisted on a like status, at the rates prescribed in § 577.18.

(*b*) For cadets of the United States Military Academy, midshipmen of the United States Naval Academy, and nurses other than those on the active list, at 85 cents per day.

(c) For those subsisted on the status of an enlisted man, at 85 cents per day.

(2) *Medicine charges.* See § 577.18 (b).

(3) *Commutation of rations.* The rations of enlisted men on the active list of the Army, whether on a patient or on a duty status, and civilian employees on duty in the Medical Department at large are commuted at the rate of 60 cents a day, payment thereof to be made by the local disbursing officer.

§ 577.27 *Fitzsimons General Hospital*—(a) *General.* (1) The chief purpose of the Fitzsimons General Hospital, Denver, Colo., is to give treatment under most favorable conditions to patients with tuberculosis.

(2) Medical and surgical cases of a general character may be admitted.

(b) *Admissions*—(1) *Classes of persons who may be admitted.* The admission to this hospital of the following classes of patients is authorized:

(i) All persons enumerated in § 577.15.

(ii) Beneficiaries of the United States Soldiers' Home, Washington, D. C.

(iii) Other persons, upon special authority of the Secretary of the Army or The Surgeon General.

(2) *Procedure for admission.* (i) Beneficiaries of the United States Soldiers' Home, Washington, D. C., are admitted under arrangements approved by the Board of Commissioners of the home.

(ii) Beneficiaries of the United States Veterans' Administration may be admitted direct upon written authority of the proper representative thereof.

(iii) Civilian employees (see § 577.15) may be admitted direct on certificate of the official under whom they are employed, the certificate to state the fact of employment and the circumstances under which the injury was incurred.

(iv) Members of families (defined in § 577.15) may be admitted upon application made direct to the commanding officer of the hospital.

(v) All other nonmilitary persons not otherwise provided for will be admitted only on authority of the Secretary of the Army or The Surgeon General.

(c) *Charges*—(1) *General.* Provisions regarding hospital charges published in § 577.18 will govern charges at this hospital except as otherwise prescribed in subparagraphs (2) and (3) of this paragraph.

(2) *Subsistence charges.* Subsistence charges for cadets of the United States Military Academy and for midshipmen of the United States Naval Academy will be $1 per day.

(3) *Charges for beneficiaries of United States Soldiers' Home, Washington, D. C.* All expenses of maintenance of patients from the Soldiers' Home will be paid by the Board of Commissioners of the home.

DENTAL ATTENDANCE

§ 577.40 *General*—(a) *Definition.* The term "dental attendance" as used in the regulations in this part embraces the medical, surgical, and mechanical treatment of oral diseases, injuries, and deficiencies that come within the field of dental and oral surgery as commonly practiced by the dental profession, the advice relating thereto, and the oral examinations connected therewith given to persons by a dental officer or a civilian dentist. It is that phase of medical attendance which, on account of its technical nature, requires the services of a dentist.

(b) *Agencies for providing dental attendance in the Army.* Dental clinics established in or in connection with agencies provided for medical attendance at permanent stations or in the field are maintained to provide dental attendance.

(c) *Precedence in treatment.* Persons requiring emergency treatment will receive first consideration. Officers, Army nurses, warrant officers, cadets, enlisted men, and contract surgeons (full time) will receive precedence over all others for dental attendance.

(d) *Selection of professional procedures.* Except as otherwise prescribed herein, the selection of professional procedures to be followed in each case, including the use of special dental materials, will be left to the judgment of the dental officer concerned.

(e) *By whom rendered.* While it is intended that dental attendance will ordinarily be rendered by persons in the Dental Corps of the Medical Department or by civilian dentists, medical officers will, in the absence of a dental officer, render dental attendance to the extent that their training and skill justify.

(f) *Other regulations governing dental attendance.* In general §§ 577.1–577.8, relating to medical attendance, will govern dental attendance except as otherwise provided in the regulations in this part.

§ 577.41 *For whom authorized.* Dental attendance is authorized for the same persons and under the same conditions as medical attendance (see §§ 577.1 to 577.8), subject to the provisions of § 577.43 respecting civilian dental attendance.

§ 577.42 *Dental materials*—(a) *General.* Dental materials whether special or otherwise are authorized for use in rendering dental treatment to those entitled to dental attendance.

(b) *Use.* In all cases of common dental disability the Government supplies plastic materials—amalgam and cement—for filling operations; porcelain crowns for tooth crown replacement and vulcanite dentures, with clasps and bars as required, for the replacement of lost teeth. In routine practice these materials will ordinarily be used. All central, lateral, and cuspid teeth will ordinarily be filled with silicate cement. All bicuspid and molar teeth will ordinarily be filled with amalgam.

§ 577.43 *Civilian dental attendance*—(a) *General authorization.* Subject to the conditions and limitations specified in this section, civilian dental attendance at public expense is authorized for personnel enumerated in paragraph (b) of this section, when the required attendance cannot be procured from a dental officer of the Army, from a medical officer, one being available (see § 577.40 (e)), or from a Federal agency other than the Army: *Provided*, That this will not apply to personnel who obtain elective dentistry from civilian dentists.

(b) *For whom authorized.* Civilian dental attendance at public expense is authorized for the following personnel and none other:

(1) Officers, Army nurses, Women's Army Corps, other militarized female personnel of the Army, contract surgeons (full time), warrant officers, flight officers, cadets, enlisted men, when on a duty status or when absent on authorized leave, sick leave, furlough, or pass. Civilian dental attendance is not authorized for the personnel enumerated when absent without leave.

(2) Prisoners of war, persons undergoing internment, and other persons in military custody or confinement.

(3) Applicants for enlistment while under observation.

(c) *Emergency dental attendance.* Prior approval of higher authority is not required for the employment of a civilian dentist for emergency dentistry, which is defined as dental treatment for the relief of pain, or acute septic conditions, or of dental injuries caused by direct violence. Such attendance will be confined to the relief of the immediate emergency. Follow-up procedures are subject to the provisions of paragraph (d) of this section.

(d) *Routine or extensive dental attendance.* (1) Civilian dentists may not be employed at public expense for the treatment of chronic lesions, filling operations, prosthetic replacements, and other prolonged or extensive procedures, such as those required following the relief of an immediate emergency, until specific approval for such employment has been received from the approving authority (see subparagraph (2) of this paragraph): *Provided*, That in the case of military personnel on detail without troops in foreign countries, dental service of this character which is urgently necessary may be procured at reasonable rates without prior approval of higher authority: *Provided further*, That in the case of military personnel on duty with troops outside continental United States, the procurement of dental service of this character will be governed by such directives as the department or force commander, according to jurisdiction, may issue.

(2) Application for authority to employ a civilian dentist in continental United States for routine or extensive dentistry (see subparagraph (1) of this paragraph will be made as follows:

(i) At Army medical centers and general hospitals—to The Surgeon General.

(ii) At Manhattan District, Oak Ridge, Tennessee, and projects at other places under its jurisdiction—to the District Engineer, Manhattan District, Oak Ridge, Tennessee.

(iii) At places in continental United States other than those listed under paragraphs (a) and (b) of this section—to the commanding general of the army concerned or of the Military District of Washington, according to jurisdiction.

(3) In requesting authority to employ a civilian dentist in continental United States, information will be given as follows:

(i) The character and extent of the disability.

(ii) Its origin or causation, and if due to external violence, what the violence was and when it occurred.

(iii) The professional procedures considered necessary to correct it.

(iv) What measures of relief have been taken by the medical officer, or if no measures have been taken, the reasons.

(v) An estimate of the time required for its correction and the probable cost thereof.

(vi) A statement of the duties upon which the patient is engaged and how his absence therefrom, should dental treatment require it, would affect the public interest.

(vii) When the patient was last on duty at a station where the services of a dental officer were available.

(viii) The probable length of tour of duty at the patient's present station.

(ix) Present status, whether duty, leave, or furlough. If on leave or furlough, the day and hour the leave or furlough started and the day and hour of termination should be stated.

(x) The probability of the patient's attendance at one of the next summer training camps, and the camp he will attend, if known.

The approving authority, on receipt of this information, may, as he considers proper, grant or deny the request for civilian dentistry, or recommend that the patient be ordered to a station where he can receive dental services from a dental officer of the Army.

§ 577.44 *Rendition and payment of accounts for services of civilian dentists.* Accounts will be prepared locally in the name of the dentist on WD AGO Forms 8–9 and 8–10 (Public Voucher for Medical Services) and forwarded for settlement to the authority indicated below, who will take such action thereon as is deemed proper under law and regulation, charges to be allowed in reasonable amount only.

(a) For services to personnel at Army medical centers and general hospitals in continental United States, vouchers will be forwarded to The Surgeon General.

(b) For services to personnel, Manhattan District, and projects thereunder, vouchers will be forwarded to the District Engineer, Manhattan District, Oak Ridge, Tennessee, who will request advice and recommendation from The Surgeon General in such cases as present unusual or difficult aspects.

(c) For services to personnel in continental United States other than those listed under paragraphs (a) and (b) of this section, vouchers will be forwarded to the commanding general of the army concerned or of the Military District of Washington, according to jurisdiction, who will request advice and recommendation from The Surgeon General in such cases as present unusual or difficult aspects.

(d) Blank forms will be obtained in accordance with current directives. Charges for civilian dental attendance should not be paid otherwise than by disbursing officers except when absolutely necessary. When, however, payment has been made by an individual other than a disbursing officer, WD AGO Forms 8–17 and 8–18 (Public Voucher-Reimbursement of Medical Bills) for reimbursement, with adequate receipt, will accompany WD AGO Forms 8–9 and 8–10 covering the service.

§ 577.45 *Persons ordered on detached service.* When ordered to permanent detached service from a station where a dental officer is on duty, military personnel will report at once to the dental surgeon for dental examination and necessary treatment. Also, persons who may be performing detached service will, while attending summer training camps and at such other times as they may be where the services of a dental officer are available, report to such officer for examination and necessary treatment. Dental officers will give preference to the care and treatment of such persons.

§ 577.46 *Private practice by dental officers.* The general provisions of § 577.8, relating to private practice of medical officers will govern private practice of dental officers.

DECORATIONS FOR INDIVIDUALS

AUTHORITY: §§ 578.1 to 578.11 issued under 40 Stat. 870–872, 41 Stat. 398, 44 Stat. 789; 10 U. S. C. 1403, 1409, 1411, 1429.

DERIVATION: AR 600–45, Sept. 22, 1943.

§ 578.1 *Decorations*—(a) *General.* (1) Decorations are awarded in recognition of and as a reward for extraordinary, unusual, or outstanding acts or services. They are the visible evidence of such acts or services and are cherished accordingly by the recipients. Properly utilized, they are potent incentives to greater effort and instrumental in building and maintaining morale.

(2) Decorations are intended primarily as recognition of war services. The liberal standards established for awards for war services could not be applied in time of peace without depreciating the value of decorations.

(3) The eligibility of any person for the award of a decoration (civilian or military) is determined by his status (civilian or military) at the time the act was performed or the service rendered.

(b) *Department of the Army military decorations.* An Oak-Leaf Cluster is awarded in lieu of an additional decoration and its precedence is that of the decoration it represents. Order of precedence of military decorations is as follows:

(1) Medal of Honor.
(2) Distinguished-Service Cross.
(3) Distinguished-Service Medal.
(4) Silver Star.
(5) Legion of Merit.
(6) Distinguished-Flying Cross.
(7) Soldier's Medal.
(8) Bronze Star Medal.
(9) Air Medal.
(10) Army Commendation Ribbon.
(11) Purple Heart.

(c) *Duplication of awards.* Not more than one decoration will be awarded for the same act of heroism, the same meritorious achievement, or the same period of meritorious service.

§ 578.2 *To whom decorations awarded*—(a) *Medal of Honor.* (1) The Medal of Honor is awarded in the name of Congress to each person who, while an officer, noncommissioned officer or private of the Army, in action involving actual conflict with an enemy, distinguishes himself conspicuously by gallantry and intrepidity at the risk of his life above and beyond the call of duty. See act 9 July 1918 (40 Stat. 870; 10 U. S. C. 1403).

(2) In order to justify an award of the Medal of Honor, the individual must perform in action a deed of personal bravery or self-sacrifice above and beyond the call of duty, so conspicuous as clearly to distinguish him for gallantry and intrepidity above his comrades, involving risk of life or the performance of more than ordinarily hazardous service, the omission of which would not justly subject him to censure as for shortcoming or failure in the performance of his duty. The recommendations for the decoration will be judged by this standard of extraordinary merit, and incontestable proof of the performance of the service will be exacted.

(3) Description: A bronze five-pointed star 1 9/16 inches in diameter, surrounded by a laurel wreath in green enamel, suspended by two links from a bronze bar bearing the inscription "Valor," and surmounted by an eagle. In the center of the star is the head of Minerva surrounded by the inscription "United States of America." Each ray of the star bears an oak leaf in green enamel. On the reverse of the bar are stamped the words "The Congress to," and on the reverse of the medal are engraved the grade, name, and organization of the recipient, with the place and date of the act for which the medal is awarded. The medal is suspended by a hook to a ring fastened behind the eagle. The hook is attached to a neckband of ribbon 20 inches in length. The neckband is of light blue watered silk 1 3/16 inches in width and midway between the ends of the neckband are 13 white stars arranged in the form of a triple chevron, consisting of two chevrons of 5 stars each and one of 3 stars.

(b) *Distinguished-Service Cross.* (1) The Distinguished-Service Cross is awarded to persons who, while serving in any capacity with the Army, distinguish themselves by extraordinary heroism in connection with military operations against an armed enemy. (See act 9 July 1918 (40 Stat. 870; 10 U. S. C. 1406).)

(2) To warrant an award of the Distinguished-Service Cross a person must perform an act or acts of heroism so notable and involving a risk of life so extraordinary as to set him apart from his comrades.

(3) Description: A cross of bronze 2 inches in height and 1 13/16 inches in width with an eagle on the center, and a scroll below the eagle bearing the inscription "For Valor." On the reverse, in the center of the cross, is a space for the name of the recipient (which is to be engraved within a wreath). The cross is suspended by a ring from a watered silk ribbon 1 3/8 inches in length and 1 3/8 inches in width, composed of a band of red (1/8 inch), white (1/16 inch), blue (1 inch), white (1/16 inch), and red (1/8 inch).

(c) *Distinguished-Service Medal.* (1) The Distinguished-Service Medal is awarded to members of the armed forces who, while serving in any capacity with the Army, distinguished themselves by exceptionally meritorious service to the Government in a duty of great responsibility. (See act July 9, 1918 (40 Stat. 871; 10 U. S. C. 1407, 1408).)

(2) (i) The term "duty of great responsibility" means duty of such a character that exceptionally meritorious service therein has contributed in high degree to the success of a major command, installation, or project.

(ii) The performance of the duty must be such as to merit recognition by the service as clearly exceptional. A superior performance of the normal duties of a position will not alone justify the award.

(iii) The accomplishment of the duty for which the award is recommended should have been completed, or it should have progressed to an exceptional degree if the person rendering the service has been transferred to other duties prior to its full accomplishment.

(3) The Distinguished-Service Medal will be awarded to personnel of foreign nations only under exceptional circumstances.

(4) Description: The coat of arms of the United States in bronze surrounded by a circle of dark blue enamel 1 1/2 inches in diameter, bearing the inscription "For Distinguished Service MCMXVIII." On the reverse is a scroll for the name of the recipient (which is to be engraved) upon a trophy of flags and weapons. The medal is suspended by a bar from a watered silk ribbon 1 3/8 inches in length and 1 3/8 inches in width, composed of a band of scarlet (5/16 inch), a stripe of dark blue (1/16 inch), a band of white (3/8 inch), a stripe of dark blue (1/16 inch) and a band of scarlet (5/16 inch).

(d) *Legion of Merit*—(1) *United States armed forces.* (i) The Legion of Merit, without degree, is awarded to members of the armed forces of the United States who, while serving in any capacity with the Army, distinguish themselves by exceptionally meritorious conduct in the performance of outstanding services. See sec. 2, act July 20, 1942 (56 Stat. 662; 10 U. S. C. 1408b), and E. O. 9260, October 29, 1942.

(ii) The provisions of paragraph (c) (2) (ii) and (iii) of this section apply to the Legion of Merit. It is particularly desired that recognition be given personnel in the enlisted and lower commissioned grades whose services meet the standards prescribed.

(iii) A five-pointed American white star of heraldic form bordered in purplish red enamel 1 7/8 inches circumscribing diameter with 13 white stars on a blue field emerging from a circle of clouds; backing the star a laurel wreath with modeled crossed arrows pointing outward between each arm of the star and the wreath. On the bronze reverse is a disk (which is to be engraved with the name of the recipient) surrounded by the words "Annuit Coeptis" (He (God) has favored our undertakings) and "MDCCLXXXII," on the scroll the words "United States of America." The pendant is suspended by a silk ribbon 1 7/8 inches in length and 1 3/8 inches in width, composed of a band of purplish red (1 1/4 inches), with edges of white (1/16 inch).

(2) *Armed forces of foreign nations.* (i) The Legion of Merit, in four degrees, is awarded to members of the armed forces of friendly foreign nations who distinguish themselves by exceptionally meritorious conduct in the performance of outstanding services. The degrees are:

(a) Chief Commander.
(b) Commander.
(c) Officer.
(d) Legionnaire.

(ii) The degrees of Chief Commander and Commander are awards comparable to those for which the Distinguished-Service Medal is awarded to members of the United States armed forces, and the degrees of Officer and Legionnaire are for services comparable to those for which the Legion of Merit would be awarded in our forces. A subsequent award in a lesser degree is not authorized. Paragraph (c) (2) (i), (ii) and (iii) of this section applies to the degrees of Chief Commander and Commander. Paragraph (c) (2) (ii) and (iii) of this section applies to the degrees of Officer and Legionnaire.

(iii) Description: (*a*) Chief Commander. A domed five-pointed American white star plaque of heraldic form bordered in purplish red enamel 2 15/16 inches circumscribing diameter with 13 white stars on a blue field emerging from a circle of clouds; backing the star a laurel wreath with pierced crossed arrows pointing outward between each arm of the star and the wreath. The reverse is engraved with the words "United States of America" and the name of the recipient.

(*b*) Commander: A five-pointed American white star of heraldic form bordered in purplish red enamel 2 1/4 inches circumscribing diameter with 13 white stars on a blue field emerging from a circle of clouds, backing the star a laurel wreath with pierced crossed arrows pointing outward between each arm of the star and the wreath. A bronze wreath connects an oval suspension ring to neck ribbon. The reverse of the five-pointed star is enameled in white, bordered in purplish red enamel, in the center of a disk (which is to be engraved with the name of the recipient) surrounded by the words "Annuit Coeptis" and "MDCCLXXXII," on the scroll the words "United States of America." The neck ribbon is 2 1/4 inches in length, 1 15/16 inches in width composed of a band of purplish red (1 13/16 inches) with edges of white (1/16 inch).

(c) Officer: Same as subparagraph (1) (iii) of this paragraph with the addition of an all-bronze device of same design as the pendant, 3/4 inch in diameter, on the center of suspension ribbon.

(*d*) Legionnaire: Same as subparagraph (1) (iii) of this paragraph.

(e) *Silver Star.* (1) The Silver Star is awarded to persons who, while serving in any capacity with the Army, distinguished themselves by gallantry in action not warranting the award of a Medal of Honor or Distinguished-Service Cross. See act 15 December 1942 (56 Stat. 1052; 10 U. S. C., Sup., 1412).

(2) Those individuals who, prior to December 7, 1941, have been cited for gallantry in action in orders issued by the headquarters of a force commanded by a general officer, may make application for the Silver Star to The Adjutant General, Washington 25, D. C.

(3) Description: A bronze star 1 1/2 inches in circumscribing diameter. In the center thereof is a 3/16 inch diameter raised silver star, the center lines of all rays of both stars coinciding. The reverse has the inscription "For gallantry in action" and a space for the name of the recipient (which is to be engraved). The star is suspended by a rectangular-shaped metal loop with corners rounded from a silk moire ribbon 1 3/8 inches in length and 1 3/8 inches in width, composed of stripes of blue (3/32 inch), white (3/64 inch), blue (7/32 inch) white (3/64 inch), and blue (3/32 inch).

(f) *Distinguished-Flying Cross.* (1) The Distinguished-Flying Cross is awarded to members of the armed forces who, while serving in any capacity with the Army Air Forces, distinguish themselves by heroism or extraordinary achievement while participating in aerial flight. See act 2 July 1926 (44 Stat. 789, 10 U. S. C. 1429) and E. O. 4601, 1 March 1927.

(2) In order to justify an award of the Distinguished Flying Cross for heroism, the heroism must be evidenced by voluntary action in the face of great danger above and beyond the line of duty while participating in aerial flight.

(3) To warrant an award of the Distinguished Flying Cross for extraordinary achievement while participating in aerial flight, the results accomplished must be so exceptional and outstanding as clearly to set him apart from his comrades who have not been so recognized.

(4) On a bronze 1 1/2 inch cross patee a four-bladed propeller 1 1/16 inches across blades; in the reentrant angles, rays forming a 1 inch square. On the reverse is engraved the name of the recipient. The cross is suspended by a plain straight link from a silk moire ribbon 1 3/8 inches in length and 1 3/8 inches in width, composed of stripes of blue (1/8 inch), white (1/8 inch), blue (11/32 inch), white (1/32 inch), red (3/32 inch), white (1/32 inch), blue 11/32 inch), white (1/8 inch), and blue (1/8 inch).

NOTE: Executive Order 9635, (3 CFR, 1945 Supp.), provides in part as follows:

The time limitations imposed by the first sentence of paragraph 8 of Executive Order No. 4601 of March 1, 1927, prescribing rules and regulations pertaining to the award of the Distinguished Flying Cross, shall not apply to any case in which (1) the act or achievement justifying the award is performed during the period commencing December 7, 1941, and ending with the date of the termination of hostilities in the present war, and (2) the recommendation of an award for such act or achievement is initiated within six months after the latter date. The term "date of the termination of hostilities in the present war" means the date proclaimed by the President as the date of such termination.

(g) *Soldier's Medal.* (1) The Soldier's Medal is awarded to members of the armed forces who, while serving in any capacity with the Army, distinguish themselves by heroism not involving actual conflict with the enemy and not in aerial flight. See sec. 11, act July 2, 1926 (44 Stat. 789; 10 U. S. C. 1428).

(2) The Soldier's Medal may be awarded to an individual for performance of an act or acts of heroism involving voluntary risk of life under conditions other than those of conflict with an enemy and while not in aerial flight. The same degree of heroism is required as for the Distinguished-Flying Cross.

(3) Description: On a 1 3/8 inch bronze octagon and eagle displayed, standing on a fasces, between two groups of stars of six and seven, above the group of six a spray of leaves. On the reverse is a shield paly of 13 pieces on the chief, the letters "U. S." supported by sprays of laurel and oak, around the upper edge the inscription "Soldier's Medal" and across the face the words "For Valor." In the base is a panel for the name of the recipient (which is to be engraved). The medal is suspended by a rectangular-shaped metal loop with corners rounded from a silk moire ribbon 1 3/8 inches in length and 1 3/8 inches in width composed of two outside stripes of blue 3/8 inch in width, the center containing 13 white and red stripes of equal width (7 white and 6 red).

(h) *Purple Heart.* (1) The Purple Heart, established by General George Washington at Newburgh, August 7, 1782, during the Revolutionary War, is awarded to members of the armed forces of the United States and to civilian citizens of the United States, who, while serving with the Army, are wounded in action against an enemy of the United States, or as a direct result of an act of such enemy, provided the wound necessitates treatment by a medical officer.

(2) A wound is defined as an injury to any part of the body from an outside force, element, or agent sustained as the result of a hostile act of the enemy or while in action in the face of the enemy. One award is authorized for each such wound, except that only one award is authorized for two or more wounds received at the same instant. The word "element" refers to weather and permits award to personnel severely frostbitten while actually engaged in combat. Trench foot will not be considered as meriting award. The phrase "at the same instant" prohibits duplicate awards of the Purple Heart for two or more injuries or wounds received from one missile, force, explosion, or agent.

(3) Description: On a purple enameled heart within a bronze border, a profile head in relief of General George Washington in military uniform. Above the enameled heart is the shield of Washington's coat of arms between two sprays of leaves in green enamel. On the reverse below the shield and leaves without enamel, is a raised bronze heart with the inscription, "For Military Merit," with a space for the name of the recipient (which is to be engraved). The entire device is 1 1/16 inches in length. The medal is suspended by a rectangular-shaped metal loop with corners rounded from a silk moire ribbon 1 3/8 inches in width and 1 3/8 inches in length, consisting of a purple (pansy) center with 1/8-inch white edges.

(4) Those individuals who, as members of the Army of the United States, prior to December 7, 1941, were awarded a meritorious services citation certificate in World War I, or were authorized to wear a wound chevron, may make application to The Adjutant General, Washington 25, D. C., for award of the Purple Heart in lieu of the meritorious service citation certificate or wound chevron.

(5) Those individuals who, as members of the Army of the United States, prior to December 7, 1941, received wounds in action and whose treatment therefor was made a matter of official record during the period of hostilities or within 6 months thereafter, may make application to The Adjutant General, Washington 25, D. C., for award of the Purple Heart on the basis of such official record.

(6) These individuals who, as members of the armed forces of the United States or as civilian citizens of the United States on or after December 7, 1941, received wounds in action and whose treat-

ment therefor was made a matter of official record during the period of hostilities or within 6 months thereafter, may make application to The Adjutant General, Washington 25, D. C., for award of the Purple Heart on the basis of such official record.

(i) *Air Medal.* (1) The Air Medal is awarded to persons who, while serving in any capacity in or with the Army, distinguished themselves by meritorious achievement while participating in an aerial flight. See E. O. 9158, May 11, 1942, and E. O. 9242–A, September 11, 1942.

(2) The required achievement to warrant award of the Air Medal is less than that for the Distinguished-Flying Cross, but must nevertheless be accomplished with distinction above and beyond that normally expected. The Air Medal may be awarded to recognize single actions of merit or sustained operational activities against the enemy.

(3) Description: A bronze compass rose $1^{11}/_{16}$ inches circumscribing diameter suspended by the pointer and charged with an eagle volant carrying two lightning flashes in its talons. The points of the compass rose on the reverse are modeled with the central portion plain for the name of the recipient (which is to be engraved). The medal is suspended from a moire silk ribbon $1\frac{3}{8}$ inches in length and $1\frac{3}{8}$ inches in width, composed of a band of ultramarine blue ($1/8$ inch), a band of golden orange ($1/4$ inch), a band of ultramarine blue ($5/8$ inch), a band of golden orange ($1/4$ inch), and a band of ultramarine blue ($1/8$ inch) by a ring engaging the pointer.

(j) *Oak-Leaf Cluster*—(1) *Award.* No military decoration will be awarded more than once to any one person, but for each succeeding act of heroism, meritorious achievement, or period of meritorious service justifying an award, a bronze Oak-Leaf Cluster will be awarded in lieu. A silver Oak-Leaf Cluster may be worn in lieu of five bronze Oak-Leaf Clusters.

(2) *Description.* A bronze or silver twig of four oak leaves with three acorns on the stem $^{13}/_{32}$ inch in length for the suspension ribbon and $5/16$ inch in length for the service ribbon.

(3) *Replacement.* The provisions of subparagraph (1) of this paragraph do not preclude the issuance of a duplicate decoration or a replacement to the next of kin or to the person to whom it was awarded whenever the decoration previously presented has been lost, destroyed, or rendered unfit for use without fault or neglect on the part of the person to whom it was awarded (see § 578.7).

(k) *Bronze Star Medal*—(1) *Heroism.* (i) The Bronze Star Medal is awarded to persons who, while serving in any capacity with the Army, on or after December 7, 1941, distinguish themselves by heroism in combat against the armed enemy, in operations not involving participation in aerial flight. See E. O. 9419, February 4, 1944 (3 CFR, 1944 Supp.).

(ii) The Bronze Star Medal may be awarded to recognize minor acts of heroism in actual ground combat against the enemy where the award of a Silver Star is not warranted.

(2) *Meritorious achievement or meritorious service.* (i) The Bronze Star Medal is awarded to members of the armed forces who, while serving in any capacity with the Army, on or after December 7, 1941, distinguish themselves by meritorious achievement or meritorious service, not involving participation in aerial flight, in connection with military operations against an enemy of the United States. See E. O. 9419, February 4, 1944 (3 CFR, 1944 Supp.).

(ii) The required meritorious achievement or meritorious service for award of the Bronze Star Medal is less than that required for the Legion of Merit, but must nevertheless be accomplished with distinction. The Bronze Star Medal may be awarded to recognize meritorious service or single acts of merit.

(3) *Description.* (i) A bronze star $1\frac{1}{2}$ inches in circumscribing diameter. In the center thereof is a $3/16$ inch diameter raised bronze star, the center line of all rays of both stars coinciding. The reverse has the inscription "Heroic or meritorious achievement" and a space for the name of the recipient (which is to be engraved). The star is suspended by a rectangular-shaped metal loop with corners rounded from a silk moire ribbon $1\frac{3}{8}$ inches in length and $1\frac{3}{8}$ inches in width composed of stripes of white ($1/32$ inch), red ($9/16$ inch), white ($1/32$ inch), blue ($1/8$ inch), white ($1/32$ inch), red ($9/16$ inch), and white ($1/32$ inch).

(ii) Letter "V" device: A bronze block letter "V" $1/4$ of an inch in height, with serifs at the top of the members.

(4) *Letter "V" device.* The letter "V" device is authorized for wear on the suspension ribbon and the service ribbon of the Bronze Star Medal to indicate that an award was made for heroism (valor) rather than for meritorious achievement or meritorious service. Only one letter "V" will be worn. All additional awards whether for heroism, meritorious achievement, or meritorious service will be designated by Oak-Leaf Clusters. All orders awarding the Bronze Star Medal will specifically state whether the award was for heroism, meritorious achievement, or meritorious service.

(5) *Application on basis of citation.* Those individuals who, as members of the armed forces of the United States, were cited by name on or after December 7, 1941, and prior to September 3, 1945, in orders or in a formal certificate, for meritorious or exemplary conduct in ground combat against the armed enemy, may make application to The Adjutant General, Washington 25, D. C., for award of the Bronze Star Medal on the basis of such citation. A citation in orders for the Combat Infantryman Badge or Medical Badge awarded in the field during the period of actual combat against the armed enemy is considered as a citation for exemplary conduct in ground combat. These citations in orders during the period December 7, 1941, through September 2, 1945, were not automatic, but were based upon recommendations of unit commanders thoroughly familiar with the achievement of the individuals cited and after a careful evaluation of their work.

(l) *Commendation Ribbon.* (1) The Commendation Ribbon is awarded to members of the armed forces who, while serving in any capacity with the Army, on or after December 7, 1941, distinguished themselves by meritorious achievement or meritorious service.

(2) The meritorious achievement or meritorious service required is less exceptional than that required for the Legion of Merit but nevertheless must be accomplished with distinction. Exactly the same degree of meritorious achievement or meritorious service is required as that for which the Bronze Star Medal and/or the Air Medal are awarded. The Commendation Ribbon may be awarded when the operational requirements for award of the Bronze Star Medal or the Air Medal are not fully met. It is particularly desired that the Commendation Ribbon be awarded to outstanding company-grade officers, warrant officers, and enlisted men whose achievement or service meets the standards required. Commendation Ribbon will not be awarded for the same period of service or achievement for which the Bronze Star Medal or Air Medal has been awarded.

(3) Those individuals who, as members of the armed forces of the United States, were commended on or after December 7, 1941 and prior to January 1, 1946 in a letter of commendation or certificate of commendation by a major general, or officer occupying the position vacancy of a major general, for meritorious achievement or meritorious service, may apply for award of the Commendation Ribbon on the basis of such commendation. Applications for Commendation Ribbons based on service with the Army (except Army Air Forces) will be sent to The Adjutant General, Washington 25, D. C., and applications based on service with the Army Air Forces will be sent to the Chief of Staff, United States Air Force, Attention: Awards Branch, Washington 25, D. C.

§ 578.3 *Character of service subsequent to distinguished conduct.* No decoration shall be awarded or presented to any individual whose entire service subsequent to the time he distinguished himself shall not have been honorable. See act 9 July 1918 (40 Stat. 872; 10 U. S. C. 1409). See also sec. 12, act July 2, 1926 (44 Stat. 789; 10 U. S. C. 1429).

§ 578.4 *Time limits.* (a) Except as prescribed in paragraph (b) of this section or when the decoration is to be awarded on the basis of an existing letter, certificate, or citation in orders (see paragraph (e) (2), (h) (4), (h) (5), (h) (6), (k) (5) and (m) (4) of § 578.2), no military decoration will be awarded to any person after more than 3 years from the date of the heroism, meritorious achievement or meritorious service justifying an award, nor unless the recommendation was submitted through military channels within 2 years from the date of the heroism, meritorious achievement, or meritorious service.

(b) As an exception, military decorations may be awarded when the heroism, meritorious achievement, or meritorious service justifying the award was performed between December 7, 1941 and December 31, 1946, both dates inclusive, providing a recommendation is submitted through official channels prior to July 1, 1947.

§ 578.5 *Posthumous awards.* In case an individual who distinguishes himself shall have died before the making of the award to which he may be entitled, the award may nevertheless be made and the decoration or other device presented to the first of the following representatives as shown by the records of the Department of the Army: Widow or widower, eldest son, eldest daughter, father, mother, eldest brother, eldest sister, eldest grandchild.

§ 578.6 *Cost of engraving.* The cost of engraving any decoration, either original or replacement, will be borne by the Department of the Army. An authorized replacement will be engraved the same as the original.

§ 578.7 *Replacement.* Whenever a decoration and/or appurtenance is lost, destroyed, or rendered unfit for use without fault or neglect on the part of the person to whom it was awarded, it will be replaced without charge upon application to The Adjutant General, Washington 25, D. C.

§ 578.8 *Exhibition purposes.* Upon approval by the Secretary of the Army, samples of decorations awarded by the Department of the Army will be furnished at cost prices, plus transportation and packing charges (except to the Department of the Army or a governmental agency), to museums, libraries, historical, numismatic, and military societies, or institutions of such a public nature as will insure an opportunity to the public to view the exhibits. Except for a Department of the Army or governmental agency exhibit, all sample decorations so furnished will be engraved at the expense of the purchaser with the words "for exhibition purposes only."

§ 578.10 *Medal for Merit*—(a) *General.* The Medal for Merit is awarded to such civilians of the nations prosecuting the war under the joint declaration of the United Nations and of other friendly foreign nations as have, since the proclamation of an emergency by the President on September 8, 1939, distinguished themselves by exceptionally meritorious conduct in the performance of outstanding services; *Provided*, That awards to civilians of foreign nations shall be only for the performance of an exceptionally meritorious or courageous act or acts in furtherance of the war efforts of the United Nations. See act July 20, 1942 (56 Stat. 662; 10 U. S. C., Sup., 1408b).

(b) *Recommendations.* (1) Recommendations may be submitted by any individual having personal knowledge of the facts, either as an eyewitness or from the testimony of others who have personal knowledge or were eyewitnesses.

(2) Each case will be submitted separately and will show the exact status of the person who is being recommended, with respect to citizenship, employment, and all other material factors at the time of the rendition of the service on which the recommendation is based. Testimony will be in the form of written statements supported by affidavits.

(c) *Authority to issue and manner of presentation.* The President of the United States has sole authority to make an award of the Medal for Merit and the presentation thereof shall be made by him or at his direction.

(d) *Succeeding awards.* No more than one Medal for Merit shall be awarded to any one person; but for each succeeding service, or act or acts, to justify an award of the Medal for Merit, a bronze Oak-Leaf Cluster will be awarded in lieu thereof.

§ 578.11 *Medal of Freedom*—(a) *Citizens and habitual residents of the United States.* (1) The Medal of Freedom without degree, is awarded to citizens or habitual residents of the United States not in the armed forces who, on or after December 7, 1941, distinguish themselves by meritorious achievement or meritorious service to the United States in the prosecution of the war against an enemy. (See E. O. 9586, July 6, 1945; 3 CFR, 1945 Supp.)

(2) The Medal of Freedom will not be awarded to any citizen or habitual resident of the United States for any meritorious achievement or meritorious service performed within the continental limits of the United States. The degree of meritorious achievement or meritorious service required is the same as that for which the Bronze Star Medal is awarded to members of the armed forces.

(b) *Citizens of foreign nations.* (1) The Medal of Freedom, in four degrees, is awarded to persons, not citizens or habitual residents of the United States nor members of the armed forces, who distinguish themselves by meritorious achievement or meritorious service which has aided the United States in the prosecution of the war against the enemy.

(2) The degree of the Medal of Freedom and corresponding degrees of the Legion of Merit are:

Medal of Freedom	*Legion of Merit*
(i) Gold palm	Chief Commander.
(ii) Silver palm	Commander.
(iii) Bronze palm	Officer and Legionnaire.

(3) The Medal of Freedom without palm is equivalent to the Bronze Star Medal awarded members of the armed forces.

(c) *Description.* (1) The medal of bronze is $1\frac{1}{4}$ inches in diameter. On the obverse is the head, shoulders, and headdress of freedom (taken from the statue on the top of the United States Capitol dome). In the lower portion in an arc is the inscription "Freedom." On the reverse is the "Liberty Bell" without carriage, within a circle composed of the words "United States of America." The medal is suspended by a ring from a silk moire ribbon $1\frac{3}{8}$ inches in length and $1\frac{3}{8}$ inches in width composed of red ($7/16$ inch), white ($1/32$ inch), red ($1/8$ inch), white ($1/32$ inch), red ($1/8$ inch), white ($1/32$ inch), and red ($7/16$ inch).

(2) Palm: A gold, silver, or bronze palm $1\frac{1}{8}$ inches in length.

(d) *Time limits.* See § 578.4.

(e) *Additional awards.* No more than one Medal of Freedom will be awarded to any one person. For each additional meritorious achievement or meritorious service warranting an additional award to a citizen or habitual resident of the United States, an Oak-Leaf Cluster will be awarded in lieu. For each additional meritorious achievement or meritorious service warranting an additional award to a citizen of a foreign nation, the Medal of Freedom in higher degree will be awarded in lieu. A subsequent award in a lesser degree is not authorized.

SERVICE MEDALS

AUTHORITY: §§ 578.26 to 578.56, issued under 34 Stat. 621, 40 Stat. 873, 45 Stat. 500, 47 Stat. 158, 871, 59 Stat. 461; 10 U. S. C. 1413, 1413a, 1415a, 1415b, 1416, 1430c; E. O. 8808, June 28, 1941, E. O. 8809, June 28, 1941, as amended by E. O. 9323, March 31, 1943, 3 CFR.

DERIVATION: AR 600–65, Dec. 20, 1946.

§ 578.26 *Service medals; general*—(a) *Purpose.* The following service medals are awarded to members of the active military service of the United States for performance of specified duty, usually during war or periods of national emergency:

(20) European-African-Middle Eastern Campaign Medal.
(21) World War II Victory Medal.
(22) Army of Occupation Medal.

(b) *Character of service required.* Service medals are awarded for honorable active Federal military service only. No service medal will be awarded to any individual who has been dismissed, dishonorably discharged, or deserted subsequent to performance of the specified duty.

(c) *Application.* (1) A member of the Army or the Air Force who is entitled to a service medal for service in the Army (less Air Corps and Army Air Forces) may make application to his immediate commanding officer. The commanding officer will forward the application by indorsement direct to The Adjutant General, Washington 25, D. C., stating whether the individual's records, including discharge certificate or certificate of service, substantiate the claim.

(2) A former member of the Army who is entitled to a service medal for service in the Army (less Air Corps and Army Air Forces) may make application to The Adjutant General, Washington 25, D. C., inclosing a certified or photostatic

copy of his discharge certificate or certificate of service.

(3) Service medals will be awarded posthumously to the next of kin in the following order: widow or widower, eldest son, eldest daughter, father, mother, eldest brother, eldest sister, eldest grandchild. The next of kin of an individual entitled to a service medal for service in the Army (less Air Corps and Army Air Forces) may make application to The Adjutant General, Washington 25, D. C., inclosing a certified or photostatic copy of the individual's discharge certificate or certificate of service, if available. The next-of-kin of any individual entitled to a service medal for service in the Air Corps (Army), Army Air Forces, or United States Air Force, may make application to the Chief of Staff, United States Air Force, Washington 25, D. C., Attention: Awards Branch, inclosing certified or photostatic copy of the individual's discharge certificate, or certificate of service, if available.

(4) An individual who is entitled to a service medal for service with the Navy, Marine Corps, or Coast Guard must apply direct to the Chief of Naval Personnel, Navy Department; the Commandant, United States Marine Corps, or the Commandant, United States Coast Guard.

(d) *Supply.* When an application for a service medal has been approved by the Secretary of the Army or the Secretary of the Air Force, the Commanding Officer, Philadelphia Quartermaster Depot, Philadelphia, Pennsylvania, will issue the medal and appurtenances as follows:

(1) *For persons in the Army or the Air Force.* To immediate commanding officers for distribution to those under their command.

(2) *For others.* Directly to them.

(e) *Record.* Eligibility for and/or award of service medals and clasps, service stars, and arrowheads will be noted in Service Records of enlisted men, on qualification cards, on discharge certificates, and on certificates of service and on certificates of retirement.

(f) *Replacement.* Whenever a service medal and/or appurtenance is lost, destroyed, or rendered unfit for use without fault or neglect on the part of the person to whom awarded, it will be replaced without charge to military personnel on active duty, and for others at cost price.

(g) *Exhibitions.* Samples of service medals, clasps, service stars, and arrowheads may be furnished at cost price, plus transportation and packing charges, to museums, libraries, military societies, or other institutions of a public character for exhibition purposes. The sample service medals will be engraved at the expense of the purchaser with the words "For exhibition purposes only."

§ 578.27 *Good Conduct Medal.* Established by Executive Order 8809, June 28, 1941, 3 CFR, 1943 Cum. Supp.

(a) *Description.* The medal of bronze is 1¼ inches in diameter. On the obverse is an eagle with wings displayed and inverted standing on a closed book and Roman sword, encircled by the words "Efficiency—Honor—Fidelity." On the reverse is a five-pointed star and a scroll between the words "For Good" and "Conduct," the whole surrounded by a wreath formed by a laurel branch on the left and an oak branch on the right. The medal is suspended by a ring from a silk moire ribbon 1⅜ inches in length and 1⅜ inches in width composed of a red stripe (1/16 inch), white stripe (1/16 inch), red stripe (1/16 inch), white stripe (1/16 inch), red stripe (1/16 inch), white stripe (1/16 inch), red band (⅝ inch), white stripe (1/16 inch), red stripe (1/16 inch), white stripe (1/16 inch), red stripe (1/16 inch), white stripe (1/16 inch), and red stripe (1/16 inch).

(b) *Requirements.* Exemplary behavior, efficiency, and fidelity in an enlisted status for a period of three continuous years completed after August 26, 1940, or a period of one continuous year between December 7, 1941, and March 2, 1946. Service in commissioned or warrant ranks (except in Regular Army or Regular Air Force), although precluded in counting total service, is not considered as an interruption of continuous service. During the period of service, the following entries on the Service Record (WD AGO Form 24 or 24A) are required:

(1) All character ratings "excellent," except that a rating "unknown" during part of the period is not disqualifying.

(2) All efficiency ratings "excellent" or "superior," except that a rating "unknown" during part of the period is not disqualifying.

(3) No conviction by court-martial.

(c) *Clasp*—(1) *Description.* The clasp is a bronze bar ⅛ inch in width and 1⅜16 inches in length with loops, one loop for each additional period of required service.

(2) *Requirements.* For each loop on the clasp, a period of three continuous years of service in addition to and under same conditions as paragraph (b) of this section.

§ 578.28 *Civil War Campaign Medal.* Established by WD General Orders 12, 1907.

(a) *Description.* The medal of bronze is 1¼ inches in diameter. On the obverse is the head of Lincoln, nearly in profile, facing sinister, surrounded by the words "With malice toward none, with charity for all." On the reverse are the words "The Civil War," and below this the dates "1861–1865," surrounded by a wreath formed by a branch of oak on the left and a branch of olive on the right, the stems joined at the bottom by a conventional knot. The medal is suspended by a ring from a silk moire ribbon 1⅜ inches in length and 1⅜ inches in width composed of a blue band (1⅛16 inch) and a gray band (1⅛16 inch).

(b) *Requirements.* Service between April 15, 1861, and April 9, 1865, or in Texas between April 15, 1861 and August 20, 1866.

§ 578.29 *Indian Campaign Medal.* Established by WD General Orders 12, 1907.

(a) *Description.* The medal of bronze is 1¼ inches in diameter. On the obverse is a mounted Indian facing sinister, wearing a war bonnet, and carrying a spear in his right hand. Above the horseman are the words "Indian Wars," and below, on either side of a buffalo skull, the circle is completed by arrowheads, conventionally arranged. On the reverse is a trophy, composed of an eagle perched on a cannon supported by crossed flags, rifles, an Indian shield, spear, and quiver of arrows, a Cuban machete, and a Sulu kriss. Below the trophy are the words "For Service." The whole is surrounded by a circle composed of the words "United States Army" in the upper half and thirteen stars in the lower half. The medal is suspended by a ring from a silk moire ribbon 1⅜ inches in length and 1⅜ inches in width composed of a red stripe (3/16 inch), red band (½ inch), black stripe (3/16 inch), and red stripe (¼ inch).

BADGES

§ 578.60 *Badges; general*—(a) *Purpose.* Badges are awarded as recognition of attaining a high standard of proficiency in critical military skills.

(b) *Application for badge.* (1) A civilian, including a former member of the Army, who has received an order announcing award of a badge but who has not received such badge may make application to The Adjutant General inclosing a copy of the order.

(2) A civilian who believes himself entitled to a badge but who has not received orders announcing the award may make application to The Adjutant General inclosing a statement in detail why he believes he is entitled to a badge. A former member of the Army will also inclose a certified or photostatic copy of his discharge certificate or certificate of service.

(3) Badges will be awarded posthumously by The Adjutant General to the next of kin in the following order: Widow or widower, eldest son, eldest daughter, father, mother, eldest brother, eldest sister, eldest grandchild. The next of kin of an individual entitled to a badge may make application to The Adjutant General, Washington 25, D. C., inclosing a certified or photostatic copy of the individual's discharge certificate or certificate of service if available.

(4) A member or former member of the Army who believes himself entitled to an aviation badge or a badge for service with the United States Air Force must apply direct to the Chief of Staff, U. S. Air Force, Attention: Director of Military Personnel.

(c) *Replacement.* Whenever a badge presented in accordance with the regulations in this part is lost, destroyed, or rendered unfit for use without fault or neglect on the part of the person to whom it was awarded, it will be replaced without charge to military personnel on active duty, and for others at cost price.

(d) *Exhibition.* Samples of badges may be furnished for exhibition purposes at cost price plus transportation and packing charges to museums, libraries, military societies, or other institutions of a public character. The sample badges will be engraved at the expense of the purchaser with the words "For exhibition purposes only."

§ 578.61 *Marksmanship badges.* (a) Qualification badges for marksmanship are of three types:

(1) Basic qualification.
(2) Excellence in competition.
(3) Distinguished designation.

(b) *Basic qualification badges*—(1) *Description*—(i) *Badge.* Basic qualification badges are of three classes:

(a) *Expert.* A cross patee with a target placed in the center thereof, the whole surrounded by a wreath, of silver, 1.15 inches in width.

(b) *Sharpshooter.* A cross patee with a target placed in the center thereof, of silver, 1 inch in width.

(c) *Marksman.* A cross patee, of silver, 1 inch in width.

(ii) *Bars.* Of silver .2 inch in width and 1 inch in length with rings for attaching to badge or subsequent bar and inscribed with the name of the weapon for which awarded. A bar is authorized for each weapon in which an individual is qualified. Weapons for which bars are authorized are as follows:

(a) Rifle.
(b) Pistol.
(c) Antiaircraft artillery.
(d) Automatic rifle.
(e) Machine gun.
(f) Coast Artillery.
(g) Submarine mines.
(h) Field Artillery.
(i) Tank weapons.
(j) Flamethrower.
(k) Submachine gun.
(l) Rocket launcher.
(m) Grenade.
(n) Carbine.
(o) Recoilless rifle.
(p) Mortar.
(q) Bayonet.
(r) Rifle, small bore.
(s) Pistol, small bore.

(2) *Who may award.* Commanding officers of regiments, groups, and separate battalions, and any commanding officer of the rank of lieutenant colonel or higher may make awards to members of the armed forces of the United States. Awards to civilians will be made only by the Director of Civilian Marksmanship and in accordance with the provisions of AR 850–100 (§§ 543.1 to 543.3 of this chapter).

(3) *Requirements.* Attain the qualification score prescribed in appropriate field manual for the weapon concerned. For any one weapon only one bar and the badge of last qualification may be worn. Only one qualification badge of each class may be worn; qualification in additional weapons will be indicated by bars.

(c) *Excellence in competition badges*—(1) *Description.* Badges for excellence in competition consist of a bar indicating national or area matches, a clasp indicating rifle or pistol competition, and a metal pendant. The parts are fastened together by rings.

(i) *Bars.* Of bronze. For national matches, rectangular 1¼ inches in length and ¼ in width, with oak leaves in the center. For area matches, 1⅜ inches in length and ⅛ inch in width with rounded ends, in the center a plain disk ⅜ inch in diameter.

(ii) *Clasp.* Of bronze, 1⅛ inches in length and ½ inch in height; crossed muskets for rifle matches, crossed pistols for pistol matches.

(iii) *Pendant.* Of bronze 1 5/16 inches in diameter, in the center a crossed Indian bow and arrows within a ring bearing 13 stars and surrounded by a wreath of oak leaves.

(2) *Who may award.* The Adjutant General only.

(3) *Eligibility requirements.* The number of persons to be awarded these badges will depend upon the number of participants and the quality of the competition. In area matches, these badges will be awarded only for excellence in individual competition; in national matches, badges will be awarded both for individual and team competition. The conditions for establishing eligibility will be as prescribed annually by the National Board for Promotion of Rifle Practice in "Rules and Regulations for National (and/or Area) Matches" for that year. Effective immediately, badges for excellence in competition in future matches, will be awarded only to persons whose score in authorized competition constitutes a credit toward the distinguished designation badges. Whether badges for excellence in competition awarded in past matches will count as credit toward a distinguished designation badge will be determined in accordance with regulations in effect at the time such matches were held. Only one badge for excellence in rifle competition and one badge for excellence in pistol competition may be worn at the same time.

(d) *Distinguished designation badges*—(1) *Description.* Badges awarded to persons designated as "Distinguished Marksman" (rifle) or "Distinguished Pistol Shot" consist of a metal pendant indicating the distinguished designation and a bar. The name of the recipient and the year of attainment will be engraved on the reverse of the pendant.

(i) *Distinguished marksman*—(a) *Bar.* Of gold, 1.8 inches in length, superimposed a shield of stars and stripes with the letters "U. S." thereon.

(b) *Pendant.* Of gold, a shield 1.5 inches in length and 1.4 inches in width, in the center an enameled target between the words "Distinguished" and "Marksman."

(ii) *Distinguished pistol shot*—(a) *Bar.* Of gold, 1.55 inches in length, superimposed a shield of stars and stripes with the letters "U. S." thereon.

(b) *Pendant.* Of gold, a shield 1.25 inches in length and 1.075 inches in width, in the center an enameled target between the words "Distinguished" and "Pistol Shot."

(2) *Who may award.* The Adjutant General only.

(3) *Eligibility requirements.* An individual will be designated as a distinguished marksman or distinguished pistol shot when he has been awarded three excellents in competition badges. Badges won prior to 1948 will be counted only if such badge granted credit towards the distinguished designation under the rules of the match in which won. A credit granted by the National Board for the Promotion of Rifle Practice under rules in effect for matches prior to 1948 will be counted in the same manner as excellence in competition badges; each individual who is entitled to such credit and has not been awarded an excellence in competition badge may be awarded such badge upon application.

(e) *Lapel button*—(1) *Description.* The lapel button is 21/32 inch in maximum dimension and on corresponding scale, being a reproduction of the basic qualification badge (without bar), the pendant of the excellence in competition badge, the pendant of the distinguished designation badge, or the motor vehicle driver and mechanic badge (without bar).

(2) *Wearing.* Lapel buttons may be worn on civilian clothes only.

580.11 Enlistment of women in the Women's Army Corps, Regular Army, and in the United States Air Force.

AUTHORITY: §§ 580.1 to 580.11 (with exception cited in parentheses following section

affected) issued under 57 Stat. 371; 50 U. S. C., App., 1551–1555.

DERIVATION: War Department Circular 136, May 11, 1946, except as noted following provision affected.

§ 580.1 *Mission.* The mission of the Women's Army Corps is to make available to the Army the knowledge, skill and special training of the women of the Nation.

§ 580.2 *Applicable regulations.* The provisions of Army regulations, Department of the Army circulars, and other instructions apply to members of the Women's Army Corps, its officers, warrant officers, and enlisted women, except where inappropriate, as modified in this part, or by appropriate Department of the Army directives. Whenever the terms "officer," "warrant officer," and "enlisted man" are used in existing regulations they will be construed to include officers, warrant officers, and enlisted women of the Women's Army Corps.

§ 580.3 *Composition and organization*—(a) *Composition.* The Women's Army Corps will consist of the Director of the Women's Army Corps who will be a colonel in the Army of the United States, and such commissioned officers of lower grade, warrant officers, and enlisted personnel as are authorized by the Secretary of the Army, but will not exceed the number authorized from time to time by the president.

(b) *Organization.* The Corps will be organized into the Office of the Director; such training centers, schools, and other installations as may be required; and such units, detachments, and individuals as may be assigned for duty with the various continental and oversea commands. The Office of the Director, Women's Army Corps, will function directly under the Director of Personnel and Administration, General Staff, United States Army.

§ 580.4 *Duties of director.* In addition to such other duties as may be prescribed, the Director will supervise activities relating to the Women's Army Corps and will be responsible for:

(a) Plans and policies for the utilization, command, morale, and well-being of the Women's Army Corps.

(b) Plans and policies for the procurement, reception, classification, training, supply, assignment, and separation of Women's Army Corps personnel in coordination with the appropriate Department of the Army agencies.

(c) Inspection of units, detachments, and individuals in the zone of interior and overseas. In the exercise of these responsibilities, the director is authorized to consult directly with the commanding generals concerned or their appropriate staff officers.

§ 580.5 *Appointment of officers.* (a) Officers of the Women's Army Corps, except as noted in paragraph (b) of this section will be appointed only from graduates of the Women's Army Corps Officer Candidate School in such numbers as may be specifically authorized by the Secretary of the Army.

(b) Officer candidates will be derived from warrant officers and enlisted women of the Women's Army Corps, who are selected under the provisions of Army Regulations.

(c) The Adjutant General has been charged with initial assignment of graduates of the Women's Army Corps Officer Candidate School. All correspondence pertaining to such personnel will be addressed to The Adjutant General, Attention: Officers' Branch (SPXPO–A–R).

(d) Women's Army Corps officers will be appointed in accordance with the existing regulations pertaining to noncombat appointments in oversea theaters.

§ 580.6 *Courts martial and other boards.* (a) A general or special court to which charges against a member of the Women's Army Corps are referred will include one or more commissioned officers of the Women's Army Corps.

(b) Every board, except one composed entirely of medical officers, which deals with a matter pertaining to the Women's Army Corps will include at least one member of the Women's Army Corps.

§ 580.7 *Promotion and relative rank.* (a) Promotion of Women's Army Corps officers will be made in accordance with current Department of the Army policy governing the temporary promotion of officers in the Army of the United States. Commissioned service in the Women's Army Auxiliary Corps will be included in computing periods of service required for eligibility for promotion. Statutory provisions prohibit promotion of Women's Army Corps officers to the grade of colonel, except in the case of an officer of the Women's Army Corps who is designated by the Secretary of the Army as commanding officer of such corps.

(b) All officers appointed in the Army of the United States and assigned to the Women's Army Corps will take rank in the same manner as other persons who are appointed in the Army of the United States, except that those officers who formerly held appointments as officers in the Women's Army Auxiliary Corps will take rank in the same manner as Reserve officers called into the service of the United States; and for this purpose service in the Women's Army Auxiliary Corps in the grade equivalent to that to which any such officer was appointed in the Army of the United States will be deemed active Federal service.

§ 580.8 *Separation.* WAC officers will be separated from the service under regulations prescribed for the separation of all officers.

§ 580.9 *Warrant officers*—(a) *Provisions for appointment.* The provisions of AR 610–15, entitled "Warrant Officers—Temporary Appointment in the Army of the United States", apply to enlisted personnel of the Women's Army Corps.

§ 580.10 *Eligibility for enlistment and reenlistment*—(a) *General.* Any female citizen of the United States between the ages of 20 and 38 who is of excellent character, who meets the established mental and physical requirements, and who is eligible under the conditions below, may be enlisted or reenlisted in the Army of the United States within authorized quotas.

(b) *Age.* An applicant must have attained her 20th but not her 38th birthday (except as provided in paragraph (g) of this section).

(1) *Completion of enlistment prior to 38th birthday.* No applicant will be given the oath of enlistment who has attained her 38th birthday, regardless of date of application for enlistment.

(2) *Proof of date and place of birth.* Satisfactory proof of date and place of birth should be established by one of the following: birth certificate or photostatic copy thereof; bona fide school, institutional, or baptismal or other church records, showing birth date of applicant; affidavit of physician or midwife attending birth of applicant; affidavit of parent or parents; affidavit of relative or responsible party in those cases where no reasonable doubt of age or place of birth exists.

(c) *Citizenship.* (1) Proof of date and place of birth as required in paragraph (b) (2) of this section, will be considered proof of citizenship in the case of native born citizens.

(2) In cases of naturalized citizens, final naturalization papers must be presented.

(3) In those instances where an applicant became naturalized while a minor through the naturalization of parent or parents, a certificate of derivative citizenship or parents' final papers will be considered proof of citizenship.

(d) *Education.* The minimum educational qualifications will be at least 2 years of high school or equivalent schooling, such as business, vocational, or trade school.

(e) *Physical.* See Army Regulations 40–100.

(f) *Dependents*—(1) *Children.* (i) A woman with a child or children under 14 years of age may be enlisted only under the following conditions: If she has become legally, or in fact, divested of the care, custody, control, and support of such child or children at least 18 months prior to date of her application, established by the submission of proper proof as follows:

(*a*) If by court action, a certified copy of court order or other court action.

(*b*) If not by court action, but in fact, by the affidavits of the prospective recruit and the person or persons exercising care, custody, control, and support of the child or children.

(ii) A woman with a child or children between their 14th and 18th birthdays dependent upon her for partial or chief support is eligible for enlistment. However, dependency benefits under the provisions of the Servicemen's Dependents Allowance Act of 1942, as amended (56 Stat. 381, as amended; 37 U.S.C., Sup., 201–221, 50 U.S.C. 305 (e) (1), 315 (c)), may be claimed only in the case of such children who are dependent upon the applicant for chief support.

(iii) A woman with a child or children between their 18th and 21st birthdays legally or in fact dependent upon such woman for care, custody, control, or support, is not eligible for enlistment.

(2) *Other dependents.* See Army Regulations 35–5520.

(g) *Enlistment of those having previous military service*—(1) *General.* A former member of the WAAC/WAC between the ages of 20 and 50 may be reenlisted in the AUS upon approval of The Adjutant General, provided the records of previous service do not indicate ineligibility for reenlistment and she is otherwise qualified under existing regulations. Ineligibility includes former service terminated under other than honorable conditions.

(2) *Enlistment of former members of another armed service of the United States.* Enlistment of a former member of another armed service of the United States is not authorized without approval of The Adjutant General.

§ 580.11 *Enlistment of women in the Women's Army Corps, Regular Army, and in the United States Air Force*—(a) *General*—(1) *Introduction.* Except as modified in this section, the provisions of Part 570 of this chapter will apply to the enlistment of women in the "Women's Army Corps, Regular Army," and the "Women in the United States Air Force" (regular component of the Air Force of the United States) pursuant to the Women's Armed Services Integration Act of 1948 (act, June 12, 1948 (Pub. Law 625, 80th Cong.)). The titles of the women's components of the Regular Army and the United States Air Force are:

(i) *Women's Army Corps, United States Army.* For the purpose of this section, the Women's Army Corps will be referred to as WAC.

(ii) *Women in the Air Force.* For the purpose of this section, Women in the Air Force will be referred to as WAF.

(2) *Eligibility.* Subject to the provisions of paragraphs 6, 7, 8, and 9, personnel of the following categories who are qualified for general service may be enlisted:

(i) Members of the Women's Army Corps, Army of the United States.

(ii) Women with prior service in any of the armed forces.

(iii) Women with no prior military service.

(3) *Date of application for enlistment.* Applications for enlistment of women presently serving in the Women's Army Corps, Army of the United States, will be accepted immediately. Enlistment of other personnel began on September 27, 1948.

(b) *Qualifications for enlistment*—(1) *Age.* Enlistment is authorized for:

(i) Applicants not less than 18 years of age who have not reached their thirty-fifth birthday. An applicant who is 18 years of age but has not reached her twenty-first birthday will be required to furnish certified written consent of parents or guardian.

(ii) Former members of the WAC over 35 years of age are authorized to enlist: *Provided*, That at the time of application for such enlistment the age does not exceed 35 years plus the length of prior active service in the WAC in completed years of honorable service subsequent to July 1, 1943.

(2) *Physical requirements.* All applicants who are otherwise qualified will be given a physical examination under the provisions of Army Regulations. Applicants for enlistment must meet fully the qualifications for general military service.

(3) *Educational requirement.* Applicants without prior military service who apply for enlistment in the WAC must possess a certificate of graduation from high school or hold a State-recognized equivalent or have successfully completed the General Educational Development Test. Applicants without prior military service who apply for enlistment in the WAF must possess a certificate of graduation from high school.

(4) *Women ineligible for enlistment.* Enlistment is not authorized for those women who are classified as ineligible for enlistment under the provisions of § 570.1 (f) of this chapter so far as those provisions are applicable and with exceptions as noted below.

(i) Waivers for enlistment may be requested from The Adjutant General's Office or from the Chief of Staff, United States Air Force, for women presently on active duty in the WAC, Army of the United States, who have lost time under Article of War 107, provided such enlisted women are recommended by appropriate detachment commanders and immediate section chiefs.

(ii) No waivers will be granted for personnel in the following categories:

(*a*) Women with time lost under Article of War 107 who are not on active duty at time of application for enlistment.

(*b*) Women last separated from any branch of the armed forces with other than an honorable discharge.

(*c*) Married women without prior military service.

(*d*) Women with a dependent or dependents under 18 years of age or a child or children under 18 years of age. The fact that the applicant does not have legal custody of the child or children will not remove the disqualification.

(*e*) Noncitizens of the United States.

(*f*) Deserters and felons.

(*g*) Women who have been imprisoned under sentence of civil court.

(*h*) Women having frequent difficulty with law-enforcement agencies, criminal tendencies, a history of antisocial behavoir, questionable moral character, or traits of character which render them unfit to associate with other women.

(*i*) Women who have an active chronic venereal disease or history thereof.

(c) *Periods of enlistment.* Enlistments are authorized at the option of the individual for 2, 3, 4, 5, or 6 years in the United States Army, or 3, 4, 5, or 6 years in the United States Air Force. Married women and women who marry after enlistment must serve one full year on current enlistment before they will be eligible for discharge by reason of marriage, unless request for discharge is because of pregnancy. All applicants for enlistment must sign the following:

I certify I fully understand that, if married now or during my enlistment, I will be required to serve one full year on current enlistment, unless otherwise eligible for discharge, before I will be eligible for discharge by reason of marriage.

This certification will be signed in the presence of a female recruiter and attached to the original of the enlistment record. (Pub. Law 625, 80th Cong., 62 Stat. 356) [DA Cir. 188, 1948]

PART 581—PERSONNEL REVIEW BOARDS

Sec.
581.1 Army Disability Review Board.
581.2 Army Discharge Review Board.
581.3 Army Board on Correction of Military Records.

§ 581.1 *Army Disability Review Board*—(a) *General provisions*—(1) *Constitution, purpose, and jurisdiction of review board.* (i) The Army Disability Review Board (herein called the review board) is an administrative agency created within the Department of the Army under authority of section 302, Title I, act of 22 June 1944, (58 Stat. 284) as amended by section 4, act of December 28, 1945 (59 Stat. 623) to review, at the request of any officer retired or released from active service, without pay, for physical disability pursuant to the decision of a retiring board or disposition board, the findings and decisions of such board. The review board is charged with the duty, in cases within its jurisdiction, of ascertaining whether an applicant for review who was separated from the service or released to inactive service, without pay, for physical disability, incurred such physical disability in line of duty or as an incident of the service. When the review board determines in an individual case within its jurisdiction that physical disability was so incurred, it is authorized in the manner prescribed by this memorandum, to reverse prior findings in such regard and to make such findings in lieu thereof as are warranted by the evidence or pertinent regulations. Such remedial action is intended primarily to insure that no officer separated from the service or returned to an inactive status without pay, for disability, shall be deprived unjustly of retirement pay benefits, or retired status and retired pay, as the case may be, by reason of erroneous findings.

(ii) The class of officers whose cases are reviewable shall include officers of the Army of the United States, other than officers of the Regular Army, who were discharged or released to inactive service under the conditions prescribed in subdivision (i) of this subparagraph; and former officers of the Regular Army who were wholly retired under section 1252, Revised Statutes.

(iii) The review board is authorized, upon timely application therefor, to review the proceedings and findings of boards referred to in subdivision (i) of this subparagraph; and to receive additional evidence bearing on the causes and service-connection of disabilities in the cases of officers referred to in subdivision (ii) of this subparagraph, whose cases were the subject of findings by a retiring or disposition board, and who were separated from the service or released to inactive service, without pay, by reason of physical disability, whether denial of retirement or retirement pay benefits, as the case may be, was pursuant to the adverse findings of a board, or was pursuant to administrative action in a case where there was favorable action by a board.

(iv) In carrying out its duties under this memorandum such review board shall have the same powers as exercised by, or vested in, the board whose findings and decisions are being reviewed.

(2) *Application for review.* (i) Any officer desiring a review of his case will make a written application therefor on WD AGO Form 0258 (Application for Review of Army Retiring Board Proceedings) which may be obtained from The Adjutant General, Washington 25, D. C. Attention: AGPO-S-D.

(ii) No application for review will be granted unless received by the Department of the Army within 15 years after the date on which such officer was separated from the service or released to inactive service, without pay, for physical disability, or within 15 years after June 22, 1944, whichever date is the later.

(iii) The Adjutant General, upon receipt of an application for review, will note thereon the time of receipt thereof and will, in cases where the jurisdiction for review by the review board is established, assemble the originals or certified copies of all available Department of the Army and/or other records pertaining to the health and physical condition of the applicant, including the record of the proceedings and findings of all retiring and disposition boards in question and the records of all administration and/or executive action taken thereon. Such records, together with the application and any supporting documents submitted therewith, will be transmitted to the president of the review board.

(iv) Upon receipt of an application for review of the findings and decision of a disposition board, The Adjutant General will, in cases where the jurisdiction for review by the review board has been established authorize the applicant to appear at his own expense before a retiring board at a general hospital convenient to his home. If the applicant then goes before a retiring board, and after the usual administrative procedure, is certified for retirement pay benefits, no further review is required. If the approved decision of the retiring board is that the incapacity is not the result of an incident of the service, or if the retiring board finds that no disability exists, or if the officer states he does not desire to appear in person before a retiring board, The Adjutant General, will then refer the case to the review board for review under the provisions of section 302, of the Servicemen's Readjustment Act of 1944, as amended by the act of December 28, 1945 (59 Stat. 623).

(3) *Changes in procedure of review board.* The review board may initiate recommendation for such changes in procedures as established herein as may be deemed necessary for the proper functioning of the review board. Such changes will be subject to the approval of the Secretary of the Army.

(b) *Proceedings of review board*—(1) *Convening of review board.* (i) The review board will be convened at the call of its president and will recess or adjourn at his order. In the event of the absence or incapacity of the president, the next senior member will serve as acting president for all purposes.

(ii) Unless otherwise directed by its president, the review board will convene in Washington, D. C., at the time and place indicated by him.

(iii) The review board will assemble in open session for the consideration and determination of cases presented to it. After the conclusion of such hearing, the review board will as soon as practicable thereafter convene in closed session for determination.

(2) *Hearings.* (i) An applicant for review, upon request, is entitled by law to appear before the review board in open session either in person or by counsel of his own selection. Witnesses shall be permitted to present testimony either in person or by affidavit. As used in the regulations in this part the term "counsel" shall be construed to include members of the Federal bar, the bar of any state, accredited representatives of veterans' organizations recognized by the Veterans' Administration under section 200 of the act of June 29, 1936 (49 Stat. 2031), and such other persons who, in the opinion of the review board, are considered to be competent to present equitably and comprehensively the claim of the applicant for review. In no case will the expenses or compensation of counsel for the applicant be paid by the Government.

(ii) In every case in which a hearing is authorized, the secretary will transmit to the applicant and to designated counsel for the applicant, if any, a written notice by registered mail stating the time and place of hearing. Such notice shall be mailed at least 30 days in advance of the date on which the case is set for hearing except in cases in which the applicant waives the right of personal appearance and/or representation by counsel. Such notice shall constitute compliance with the requirement of notice to applicant and his counsel. The record shall contain the certificate of the secretary that written notice was given applicant and his counsel, if any, and the time and manner thereof.

(iii) An applicant who requests a hearing and who, after being duly notified of the time and place of hearing, fails to appear at the appointed time, either in person or by counsel, or, in writing, waives his right to appear, thereby waives such right.

(iv) In the conduct of its inquiries, the review board shall not be limited by the restrictions of common law rules of evidence.

(v) In the case wherein it is advisable and practicable, the review board may, at the request of the examiner, or upon its own motion, request The Surgeon General to detail one or more medical officers to make physical examination of the applicant, if available, and report their findings resulting from such examination with respect to the matters at issue, either in person or by affidavit. When testifying in person at a hearing, such medical witnesses will be subject to cross-examination. Similarly the medical members of the board may examine the applicant, if available, and testify as witnesses concerning the results of such examination.

(vi) Expenses incurred by the applicant, his witnesses, or in the procurement of their testimony, whether in person, by affidavit or by deposition will not be paid by the Government.

(3) *Continuances.* The review board may continue a hearing on its own motion. A request for continuance by the examiner or by or on behalf of the applicant may be granted, if in the board's discretion, a continuance appears necessary to insure a full and fair hearing.

(c) *Findings, conclusions, and directions*—(1) *Findings, conclusions, and directions of review board.* (i) The review board will make written findings in closed session in each case. Such findings will include:

(*a*) Statement of complete findings of the retiring or disposition board and of administrative action subsequent thereto in the proceedings under review;

(*b*) A finding affirming or reversing the findings of such retiring or disposition board or such administrative action, specifying which of the findings or administrative actions are affirmed and which are reversed.

(ii) In the event the review board reverses any of such original findings or administrative actions, the review board will then make complete findings which shall include the affirmed findings of the original board or of administrative action subsequent thereto. Such complete findings shall include the following:

(*a*) Whether the applicant was permanently incapacitated for active service at the time of his separation from the service or release to inactive service.

(*b*) The cause or causes of the incapacity.

(*c*) The approximate date of origin of each incapacitating defect.

(*d*) The date officer became incapacitated for active service.

(*e*) Whether the cause or causes of the incapacity was or was not an incident of service:

(*f*) Whether the cause or causes of the incapacity had been permanently aggravated by military service.

(*g*) Whether such incapacity for active service was or was not the result of an incident of service.

(*h*) Whether the officer's incapacity was or was not incurred in combat with an enemy of the United States or whether it did or did not result from an explosion of an instrumentality of war in line of duty.

(iii) In the event the review board finds the officer permanently incapacitated for active service and that the incapacity was an incident of service, it will make an additional finding specifying the grade in which the officer is entitled to be retired or to be certified for retirement pay benefits.

(iv) The findings, conclusions, and directions of a majority of the review board shall constitute the findings, conclusions, and directions of the review board, and when made, will be signed by each member of the review board who concurs therein, filed, and authenticated by the secretary.

(d) *Disposition of and action upon proceedings*—(1) *Record of proceedings.* (i) When the review board has concluded its proceedings in any case, the secretary will prepare a complete record thereof. Such record shall include the application for review; a transcript of the hearing, if any; affidavits, papers and documents considered by the review board; all briefs and written arguments filed in the case; the report of the examiner; the findings, conclusions, and directions of the review board; any minority report prepared by dissenting members of the review board; and all other papers and documents necessary to reflect a true and complete history of the proceedings. The record so prepared will be signed by the president of the review board and authenticated by its secretary as being true and complete. In the event of the absence or incapacity of the secretary, the record may be authenticated by a second participating member of the review board.

(ii) All records of proceedings of the review board shall be confidential, except that upon written request from the applicant, his guardian or legal representative, The Adjutant General will furnish a copy of the proceedings of the review board, less any exhibits which it may be found impracticable to reproduce but which will include:

(*a*) A copy of the order appointing the board.

(*b*) The findings of the army retiring board affirmed.

(*c*) The findings of the army retiring board reversed.

(*d*) The findings of the review board.

(*e*) The conclusions which were made by the review board.

(*f*) The directions of the Secretary of the Army.

If it should appear that furnishing such information would prove injurious to the physical or mental health of the applicant, such information will be furnished only to the guardian or legal representative of the applicant. The Adjutant General, subject to the foregoing restrictions, will make available for inspection, upon request of the applicant, his guardian or legal representative, a record of the proceedings of any case reviewed by the review board, but copies of the proceedings of any case heard prior to 4 January 1946 will not be furnished if such copies are not readily available.

(2) *Final action by review board.* When the review board has completed the proceedings and has arrived at its decision, the proceedings, together with the review board's decision, will be transmitted to The Adjutant General for appropriate Department of the Army action. The Adjutant General, in the name of the President of the United States, will indicate on the record of such proceedings and decision the President's approval or disapproval of the action of the review board, and will perform such administerial acts as may be necessary and thereafter will notify the applicant and/or his counsel of the action taken. Written notice, specifying the action taken and the date thereof, will be transmitted by The Adjutant General to the president of the review board to be filed by the secretary as a part of the records of the board pertaining to each case.

(e) *Rehearings*—(1) *Policy on the granting of rehearings.* After the review board has reviewed a case and its findings and decision have been approved, the case will normally not be reconsidered except on the basis of new, pertinent, and material evidence, which if previously considered could reasonably be expected to have caused findings and a decision other than those rendered as the result of the original review. An application for rehearing must be made within a reasonable time after the discovery of the new evidence, mentioned above, and the request for rehearing must be accompanied by such new evidence and by a showing that the applicant was duly diligent in attempting to secure all available evidence for presentation to the review board when his case was previously reviewed and that the reason for the delay in discovering such new evidence was not due to fault or neglect on the part of the applicant.

(2) *Application for rehearing.* Any officer desiring a rehearing of his case will make a written application therefor on WD AGO Form 0413 (Application for Review of Findings of the Army Disability Review Board) which may be obtained from The Adjutant General, Washington 25, D. C., Attention: AGPO-S-D. (Sec. 302, 58 Stat. 287, sec. 4, 59 stat. 623; 38 U. S. C. 693i) [DA Memo 400-80-1, Sept. 15, 1948]

§ 581.2 *Army Discharge Review Board*—(a) *Constitution, purpose, and jurisdiction of the board.* (1) The Army Discharge Review Board is an administrative agency created within the Department of the Army under authority of sec. 301, 58 Stat. 286; 38 U. S. C. 693h, to review, upon its own motion or upon application by or on behalf of the individual concerned, the type and nature of the discharge certificate or other documentary evidence of discharge or dismissal of former members of the Military Establishment. The scope of the inquiry of the board shall be to determine whether the type of discharge received was equitably and properly given. When the board determines in an individual case that the type of discharge was not equitably and properly given, it is authorized, in the manner herein prescribed, to direct The Adjutant General to take appropriate action, that is, to change, correct, or modify any discharge or dismissal, and to issue a new discharge, such direction being subject to review and modification by the Secretary of the Army. Such remedial action is intended primarily to insure that no discharged or dismissed former member of the Military Establishment shall be deprived unjustly of any benefit provided by law for former members of the military service by reason of a type of discharge or dismissal inequitably or improperly given.

(2) The board shall not review a discharge or dismissal given by reason of the sentence of general court-martial.

(3) The board has no authority to revoke any discharge or dismissal, to reinstate any person in the military service subsequent to his discharge or dismissal, or to recall any person to active duty.

(b) *Application for review.* (1) The applicant for review will submit a written request for a review by the board, with the certificate of discharge or dismissal in question, if available, and such other statements or affidavits as he desires to present.

(2) The request should be made on WD AGO Form No. 94, which may be obtained from The Adjutant General, Washington 25, D. C. The request should state in brief: The full name, army serial number, and rank and organization or assignment at date of discharge of the person whose discharge or dismissal is in question; the date and place of discharge; the type and nature of the discharge or dismissal; the basis of the claim for review; what corrective action is desired of the board; whether the applicant desires to appear personally before the board; whether the applicant desires to be represented by counsel before the board; and if so, the name and address of counsel so designated; whether such appearance of applicant, or counsel, or both, is desired to be before the board in Washington, D. C., St. Louis, Missouri, or San Juan Puerto Rico; and the address to which all correspondence in connection with the review is to be sent.

(3) The request will be signed by the applicant or by a surviving spouse, next of kin, or legal representative. Proof of death must accompany the request. If the applicant is mentally incompetent, his or her spouse, next of kin, or legal guardian will sign the request. Such request must be accompanied by legal proof of the mental incompetency.

(4) No application for review will be granted unless received by the Department of the Army prior to 22 June 1959, or within fifteen years after the effective date of the discharge or dismissal of the former service man or woman concerned, whichever date is the later.

(5) The request for review will be forwarded either to:

The Adjutant General
Washington 25, D. C.
or
Personnel Records Center, A. G. O.
4300 Goodfellow Boulevard
St. Louis 20, Missouri.

If the applicant is a resident of Puerto Rico, the request should be forwarded to:

Army Discharge Review Board
Headquarters U. S. Army Forces, Antilles
APO 851, c/o Postmaster, Miami, Florida.

(6) Upon receipt of an application The Adjutant General will assemble the originals or certified copies of all available Department of the Army records pertaining to the former service man or woman named in such application. Such records, together with the application and any supporting documents, will be transmitted to the president of the board.

(c) *Proceedings of Board*—(1) *Convening of board.* The board will be convened at the call of the president and will recess or adjourn at his order. In the event of the absence or incapacity of the president, the next senior member will serve as acting president for all purposes.

(i) Unless otherwise designated by the president, the board will convene in Washington, D. C., at the time and place indicated by him. Panels of the board currently convene in Washington, D. C., St. Louis, Mo., and San Juan, P. R.

(ii) The board will assemble in open or closed session for the consideration and determination of cases presented to it. Cases in which no request for hearing is made by the applicant will be considered in closed session on the basis of all documentary evidence presented to the board; that is, any briefs submitted by or on behalf of the applicant.

(2) *Hearings.* An applicant for review, upon request, is entitled by law to appear before the board in open session either in person or by counsel of his own selection. As used in the regulations in this part, the term "counsel" shall be construed to include members of the Federal bar in good standing, the bar of any state in good standing, accredited representatives of veterans' organizations recognized by the Veterans' Administration under section 200 of the act of June 29, 1936 (sec. 200, 49 Stat. 2031; 38 U. S. C. 101), and such other persons who, in the opinion of the board, are considered to be competent to present equitably and comprehensively the claim of the applicant for review. In no case will the expenses or compensation of counsel for the applicant be paid by the Government. However, sufficient office space and suitable office facilities will be furnished for the use of paid full-time representatives of recognized veterans' organizations.

(i) In every case in which a hearing is requested the secretary will transmit to the applicant and to designated counsel for the applicant, if any, a written notice stating the time and place of hearing. Such notice shall be mailed at least thirty days prior to the date of hearing. The applicant may waive such time limit and an earlier hearing date may be set by the secretary. The record shall contain the certificate of the secretary that written notice was given applicant and his counsel, if any, and the time and manner thereof.

(ii) An applicant who requests a hearing and who, after being duly notified of the time and place of hearing, fails to appear at the appointed time, either in person or by counsel, thereby waives his right to be present.

(3) *Conduct of hearing.* (i) Conduct of hearing will be, insofar as practicable, as provided in section II, AR 420–5, except that neither the applicant nor his counsel will have access to any classified reports of investigation or papers related thereto or any document received from the Federal Bureau of Investigation. When it is necessary to acquaint the applicant with the substance of a document, such as above described, the Director of Intelligence, General Staff, U. S. Army, on the request of the board, will prepare a summary of, or extract from, the document deleting all references to sources of information and other matter the disclosure of which, in his opinion, would be detrimental to the public interest. Such summary then may be made available without classification to the applicant or his counsel.

(ii) In the conduct of its inquiries, the board shall not be limited by the restrictions of common law rules of evidence.

(iii) The testimony of witnesses may be presented either in person or by affidavits. If a witness testifies in person he shall be subject to examination by members of the board.

(iv) The board may continue a hearing on its own motion. A request for continuance by or on behalf of the applicant may be granted, in the board's discretion, if a continuance appears necessary to insure a full and fair hearing.

(v) The board may, at its discretion and for good cause shown, permit an applicant to withdraw his request for review without prejudice at any time before the board begins its deliberations.

(vi) Expenses incurred by the applicant, his witnesses or in the procurement of their testimony, whether in person, by affidavit or by deposition, will not be paid by the Government.

(d) *Composition of Board*—(1) *Members.* The board will consist of five or more officers designated by the Secretary of the Army. The senior member shall be president of the board.

(i) The same five members of the board will sit throughout the open and closed hearing of each individual case.

(ii) Upon request of the president, the Secretary of the Army will detail for service with the board such additional personnel as may be deemed necessary for the proper performance of the duties of the board, including personnel detailed to perform the duties prescribed herein.

(iii) Such additional boards as may be required will be designated by the Secretary of the Army.

(2) *Secretary.* It will be the duty of the secretary to:

(i) Examine applications and, when necessary, obtain from the applicant or from Department of the Army records such additional data as may be required to furnish complete information to the board.

(ii) Maintain custody of all records of the board and all documents transmitted to and filed with it.

(iii) Establish and maintain a docket of all cases to include docket number assigned to each case, date of receipt of application in the Department of the Army, date and nature of all procedural action taken, and final disposition.

(iv) Act as recorder within the meaning of Article of War 114.

(v) Perform such administrative duties as are required in connection with the proceedings of the board or as may be prescribed by the president.

(vi) The Secretary will not collect evidence, present cases to the board, examine witnesses, or serve as counsel for the Government or the applicant.

(3) *Examiners.* It will be the duty of the examiners to examine all Department of the Army records and all contentions and evidence submitted by the applicant and that revealed by the official Department of the Army file pertaining to each case and prepare a written brief containing a complete and impartial summary of the pertinent facts disclosed by such examination. Such brief will be prepared before the board convenes in closed session to consider the case. Such brief shall be informational in character only. The following shall be set forth separately:

(i) Pertinent facts disclosed by Department of the Army records;

(ii) Propositions advanced by the applicant;

(iii) Evidence presented in support of subdivision (ii) of this subdivision.

The restrictions of subparagraph (2) (vi) of this paragraph apply to examiners.

(4) *Reporter.* It will be the duty of the reporter to record the proceedings of the board in open session and the testimony taken before it. Shorthand may be used in the initial instance.

(e) *Findings, conclusions, and directions.* (1) The board will make written findings in closed session in each case. The findings will indicate the salient points on which the board bases its conclusions.

(2) On the basis of its findings in each case the board, in closed session, will prepare written conclusions as to whether corrective action should be taken by the Department of the Army with respect to the discharge under consideration. No corrective action which exceeds the jurisdiction of the board, as defined in paragraph (a) of this section, will be taken.

(3) The findings and conclusions of a majority of the board shall constitute the findings and conclusions of the board.

(4) Minority reports will be in accordance with paragraph 27, AR 420–5.

(5) The president or acting president of the board will, in the name of the Secretary of the Army, issue a directive to The Adjutant General specifying the action to be taken.

(f) *Disposition of proceedings*—(1) *Record of proceedings.* (i) When the board has concluded its proceedings in any case, the secretary will prepare a complete record thereof. Such record shall include the application for review; a transcript of the hearing, if any; affidavits, papers and documents considered by the board; all briefs and written arguments filed in the case; the report of the examiner; the findings and conclusions of the board and the directive to The Adjutant General; any minority report prepared by dissenting members of the board; and all other papers and documents necessary to reflect a true and complete history of the proceedings. The record so prepared will be signed by the president and authenticated by the secretary as being true and complete. In the event of the absence or incapacity of the Secretary, the record may be authenticated by a second participating member of the board.

(ii) All records of proceedings of the board shall be confidential but shall be open to perusal by the Administrator of Veterans' Affairs or his duly authorized representative.

(2) *Transmittal of records and action by The Adjutant General.* The record of proceedings in each case, including a transcript of the testimony before the board, will be transmitted in duplicate by the secretary to The Adjutant General for appropriate Department of the Army action to be taken to carry out the directions of the board. The Adjutant General will perform such administrative acts as may be necessary and thereafter will notify the applicant and his counsel, if any, of the action taken. Written notice specifying the action taken, and the date thereof, will be transmitted by The Adjutant General to the president of the board to be filed by the secretary as a part of the records of the board pertaining to each case. The Adjutant General will, upon written request from the applicant, his guardian or legal representative, furnish a copy of a transcript of the testimony, a copy of the findings and conclusions of the Army Discharge Review Board, and a copy of the directive of the Secretary of the Army. If it should appear that furnishing a copy of the transcript of the testimony and findings and conclusions of the board would prove injurious to the physical or mental health of the applicant, such information will be furnished only to the guardian or legal representative of the applicant.

(g) *Consideration on the Board's own motion.* The board may on its own motion consider and determine a case which appears on the face of the record likely to result in a decision favorable to the former soldier and does so result without the knowledge or presence of the former soldier. If such a case does not result in a decision favorable to the former soldier, it shall be returned to the files with no formal action recorded and will be considered without prejudice if and when an appeal is made by the former soldier in question. If, upon consideration by the board on its own motion, such a case results in a decision favorable to the former soldier, The Adjutant General will be directed to notify the former soldier at his last known address.

(h) *Reconsideration, revision of procedure, and Army-Navy coordination*—(1) *Reconsideration.* When the board has formally considered the case of an applicant for review and its decision has been approved in the name of the Secretary of the Army, it will not open the case for a reconsideration unless the basis of the request for reconsideration indicates additional material evidence likely to result in a decision of the case contrary to the decision at the original hearing and not available to the board at said hearing. If, upon receipt of such evidence, the Board reconsiders the case, it will be governed by the same procedure as prescribed in paragraphs (c) to (f) (2) of this section, for original consideration.

(2) *Changes in procedure of Board.* The board may initiate recommendation for such changes in procedures as established herein as may be deemed necessary for the proper functioning of the board. Such changes will be subject to the approval of the Secretary of the Army.

(3) *Army-Navy Air Force coordination.* Provision will be made by the board for close liaison among the Army, Navy, and the Air Force, to include periodic joint conferences to discuss common problems and to study results of actions taken. Where it is apparent that divergent action is being taken that cannot be reconciled by the respective Army, Navy, and Air Force boards, the Armed Services Personnel Board will be advised.

(Sec. 301, 58 Stat. 286; 38 U. S. C. 693h)
[DA Memo 400–5–3, July 23, 1948]

§ 581.3 *Army Board on correction of Military Records.* (a) The Army Board on Correction of Military Records, hereinafter referred to as the Board, is an administrative agency established in the Office of the Secretary of the Army pursuant to the provisions of section 207 of the Legislative Reorganization Act of 1946 which authorizes the Secretary of the Army to correct any military record where in his judgment such action is necessary to correct an error or to remove an injustice.

(b) Section 131 of the Legislative Reorganization Act cited in paragraph (a) of this section, provides that no bill authorizing or directing the correction of a military record shall be received or considered in either the Senate or the House of Representatives. This legislative mandate gives to the Secretary of the Army the same jurisdiction as heretofore possessed by Congress in this respect.

(c) *Undue delay as bar to relief.* An application for the correction of a military record as provided in section 207 may be refused by the Board on the ground that there has been undue delay in filing the application.

(d) *Application for relief.* (1) The applicant for relief will submit a written request to the Secretary of the Army, Attention: Army Board on Correction of Military Records. The request should be made on WD AGO Form 562, which may be obtained from The Adjutant General, Attention: AGPI, Washington 25, D. C.

(2) The application shall include:

(i) The full name, Army serial number, grade and organization or assignment of the person whose military record is involved.

(ii) A description of the military record sought to be corrected.

(iii) A particular description of the alleged error or injustice sought to be corrected or removed.

(iv) The reasons in support of the relief requested.

(v) The full name and address of counsel if the applicant desires to be so represented.

(vi) A request for a hearing before the Board in Washington, D. C., if the applicant so desires.

(vii) The full name and address of any witness or witnesses whose testimony the applicant may desire the Board to consider at the hearing. The nature of each witness' testimony, or the principal facts concerning which he will testify, should be indicated.

(viii) Any statements or affidavits from persons other than the applicant in support of the request for relief.

(ix) Signature of the applicant.

(3) The application shall be executed under oath or shall contain a provision that the statements submitted in the application, as part of the claim, are made with full knowledge of the penalty provided for making a false statement.

(4) Upon request of the Board, The Adjutant General will assemble the originals or certified copies of all available Department of the Army records pertinent to the relief requested. Such records together with the application and all supporting documents will be transmitted to the Chairman of the Board.

(e) *Proceedings of Board.* (1) The Board will be convened at the call of the Chairman and will recess or adjourn at his order.

(2) The Board will assemble in open or closed session for the consideration and determination of cases presented to it. Cases in which no request for hearing is made by the applicant will be considered in closed session on the basis of all documentary evidence presented to it, and any briefs submitted by or on behalf of applicant.

(3) A reporter will record the proceedings of the Board in open session and the testimony taken before it.

(f) *Hearings.* (1) An applicant for the correction of a military record, upon request, shall be entitled to appear before the Board in open session, either in person or by counsel of his own selection. At the discretion of the Board, the applicant may present witnesses to testify in support of his claim. As used in this section, the term "counsel" will be construed to include members of the Federal bar in good standing, the bar of any State in good standing, accredited representatives of veterans' organizations recognized by the Veterans' Administration under section 200 of the act of June 29, 1936 (Pub. Law 844, 74th Cong.), and such other persons who, in the opinion of the Board, are considered to be competent to present equitably and comprehensively the claim of the applicant for review. In no case will the expenses of the applicant or expenses or compensation of witnesses or counsel for the applicant be paid by the Government.

(2) In each case in which hearing is requested the Board will transmit to the applicant and to designated counsel for the applicant, if any, a written notice stating the time and place of hearing. Such notice will be mailed at least 15 days prior to the date of hearing to the applicant and his counsel, if any. It will be the responsibility of the applicant to notify his witnesses, if any. The applicant may waive such time limit and an earlier date may be set by the Board. The record will contain evidence that written notice was given the applicant and his counsel, if any, and the time and manner thereof.

(3) An applicant who requests a hearing and who, after being duly notified of the time and place of hearing, fails without cause to appear at the appointed time, either in person or by counsel, shall be deemed to have waived his right to be present, and the Board will have authority to proceed with the consideration and determination of the case.

(4) The hearing will be conducted so as to insure a full and fair inquiry. Neither the applicant nor his counsel will have access to any classified papers or reports of investigation or papers related thereto or any document received from the Federal Bureau of Investigation. When it is necessary to acquaint the applicant with the substance of a document, such as above described, the Director of Intelligence, General Staff, U. S.

Army, or other appropriate official, on the request of the Board, will prepare a summary of, or extract from, the document deleting all references to sources of information and other matter the disclosure of which, in his opinion, would be detrimental to the public interest. Such summary then may be made available without classification to the applicant or his counsel.

(i) The Board will not be limited by the restrictions of common law rules of evidence.

(ii) In order to justify correction of a military record, it is incumbent on the petitioner to show to the satisfaction of the Board, or it must otherwise satisfactorily appear, that the alleged entry or omission in the record was in error or unjust under directives, standards, administration, and practice either existing at the time, or subsequently changed in the petitioner's favor, effective retroactively. The directives, standards, administration, and practice in this section contemplated are those stated in statutes, regulations, manuals, directives of the Department of the Army and other appropriate authority, together with interpretations thereof by the courts, the Attorney General, the Comptroller General and of The Judge Advocate General.

(iii) The testimony of witnesses will be under oath administered by the presiding officer or by affidavit. If a witness testifies in person he will be subject to examination by members of the Board.

(iv) The Board may continue a hearing on its own motion. A request for continuance by or on behalf of the applicant may be granted by the Board if a continuance appears necessary to insure a full and fair hearing.

(v) The Board may, at its discretion and for good cause shown, permit an applicant to withdraw his application without prejudice at any time before the Board makes its final recommendation.

(g) *Scope of inquiry.* (1) Unless directed by the Secretary of the Army, the Board shall not review any case involving the sentence of a genera' court-martial or any case wherein final action has been taken by the President of the United States, the Secretary, the Under Secretary, or the Assistant Secretary of the Army. No application will be considered until the applicant has exhausted all remedies afforded him by existing law or regulations.

(2) It shall be adequate ground for denial of any application that effective relief cannot be granted or that a sufficient basis for review has not been established.

(3) The right to apply to the Board for relief shall not operate as a stay of any proceedings taken against the person involved.

(h) *Findings, conclusions, and recommendations.* (1) The Board will make findings in writing in each case. The findings and conclusions of a majority of the Board will constitute the findings and conclusions of the Board.

(2) In case of a disagreement between members of the Board a minority report may be submitted, either as to the findings, or to the recommendations, or to both. The reasons for the minority report will be clearly stated.

(3) The Chairman of the Board will, in the name of the Board, recommend to the Secretary of the Army such action as may be necessary to carry into effect the determinations of the Board.

(i) *Disposition of proceedings.* (1) When the Board has concluded its proceedings in any case, the Board will prepare a complete record thereof. Such record will include the application for relief; a transcript of the hearing, if any; affidavits, papers, and documents considered by the Board; all briefs and written arguments filed in the case; the report of the examiner, if any; the findings and conclusions of the Board and its recommendation for corrective action; any minority report prepared by a dissenting member of the Board; and all other papers and documents necessary to reflect a true and complete history of the proceedings. The record so prepared will be signed by the Chairman as being true and complete.

(2) All records of proceedings of the Board in closed session will be confidential.

(j) *Transmittal of records and action by The Adjutant General.* Upon the approval of the Secretary of the Army, the record of proceedings and recommendations in each case will be transmitted to The Adjutant General or other proper authority for appropriate Department of the Army action. The Adjutant General will perform such administrative acts as may be necessary, and thereafter will notify the applicant and his counsel, if any, of the action taken. Written notice specifying the action taken and the date thereof will be transmitted by The Adjutant General to the Chairman of the Board.

(k) *Changes in procedure of Board.* The Board may initiate recommendation for such changes in procedure as established herein as may be deemed necessary for the proper functioning of the Board. Such changes will be subject to the approval of the Secretary of the Army. (Sec. 207, 60 Stat. 837; 5 U. S. C. 191a, 275, 456a) [WD Memo 400-20-2, Apr. 17, 1947]

PART 582—DISCHARGE OR SEPARATION FROM SERVICE

Sec.
582.1 Discharge because of minority.
582.2 Discharge because of dependency or hardship.
582.3 Discharge for national health, safety, or interest.

§ 582.1 *Discharge because of minority*—(a) *Authority.* (1) Subsection 6 (1) of the Selective Service Act of June 24, 1948 (Pub. Law 759—80th Cong.) provides that notwithstanding any other provisions of law, no person between the ages of 18 and 21 shall be discharged from service in the armed forces of the United States while this title is in effect because such person entered such service without the consent of his parent or guardian.

(2) The act of June 28, 1947 (Pub. Law 128—80th Cong.) provides that no person under the age of 18 years shall be enlisted without the written consent of his parents or guardian, and the Secretary of the Army shall, upon application of the parents or guardian of any such person enlisted without their written consent, discharge such person from the military service with pay and with the form of discharge certificate to which the service of such person, after enlistment, shall entitle him.

(3) Subsection 106 (a) of the Women's Armed Services Integration Act of June 12, 1948 (Pub. Law 625—80th Cong.) provides that no person shall be enlisted in the Women's Army Corps of the Regular Army who has not attained the age of 18 years, and that no person under the age of 21 years shall be enlisted in such corps without the written consent of her parents or guardian, if any. Subsection 106 (b) of the mentioned act provides that the Secretary of the Army, under such regulations as he may prescribe, may terminate the enlistments of any enlisted woman in the Women's Army Corps, and each person whose enlistment is so terminated shall be discharged from the Army.

(b) *Application of laws.* (1) No enlisted man between the ages of 18 and 21 years shall be discharged from the service because he entered such service without the consent of his parent or guardian.

(2) An enlisted man who was under 17 years of age or an enlisted woman who was under 18 years of age at the time of enlistment or induction, will be discharged when it is discovered that such person is under the age of 18 years or 21 years, respectively. Satisfactory evidence as to date of birth is required.

(3) Subject to the provisions of subparagraph (1) of this paragraph, an enlisted man 17 years of age at the time of enlistment and who enlisted without the written consent of his parents or guardian will be discharged upon application of the parents or guardian and presentation of satisfactory evidence as to date of birth. An enlisted man who enlisted when 17 years of age with the written consent of his parents or guardian will not be discharged.

(4) An enlisted woman between the ages of 18 years and 21 years at the time of enlistment and who enlisted without the written consent of her parents or guardian will be discharged upon application of the parents or guardian and presentation of satisfactory evidence as to date of birth: *Provided*, That no such woman will be discharged under this section after reaching the age of 21 years.

(c) *Evidence required.* (1) In support of an application for discharge under the provisions of the regulations in this paragraph, the following evidence of age is required:

(i) A duly authenticated copy of a municipal or other official record of the birth of the individual, or

(ii) If no official record of the birth of the enlisted man can be obtained, an affidavit of the parent or guardian must be furnished stating specifically why an official record cannot be obtained. This affidavit must be accompanied by:

(a) A baptismal certificate, a certified photostatic copy of school records, preferaly the first term of school, or in the affidavit of the physician or midwife in attendance at the birth of the individual or

(b) Affidavits of at least two persons not related to the enlisted man, testifying from their own personal knowledge as to the date of his birth.

(2) In case of an enlistment under an assumed name, the identity of the individual with the person mentioned in the record of birth or the affidavits must be shown by the affidavit of the parent or legal guardian.

(3) Birth or baptismal certificates will be scrutinized carefully for alterations other than those made officially. Care will be taken to note the "date of filing." A delayed birth certificate with a date of filing subsequent to 31 December 1936, or one with no filing date, is not acceptable unless supported by the evidence required by the State to establish the date and place of filing.

(4) If the parents are divorced, the application for discharge must be accompanied by a copy of the court order or other evidence showing the parent submitting application has custody of the enlisted man. If either parent has lost control of the enlisted man by judgment of a court, appointment of a guardian, desertion of family, or waiver, such parent has no right to apply for discharge of the enlisted man.

(5) While a guardian is not usually recognized as such unless legally appointed, nevertheless when a person has assumed support of a minor and performed the duties of guardian for some years after the death of parents, that person is recognized as a guardian even though not formally appointed. (Pub. Law 759, 80th Cong.; 61 Stat. 191; 10 U. S. C. Sup. 628) [AR 615-362, May 14, 1947]

§ 582.2 *Discharge because of dependency or hardship*—(a) *Authority*—(1) *Dependency.* When by reason of death or disability of a member of the family of an individual, occurring after his enlistment, members of his family become principally dependent upon him for care or support, he may, in the discretion of the Secretary of the Army, be discharged.

(2) *Hardship.* When under circumstances not involving death or disability of a member of the family of an individual, where his discharge will materially affect the care or support of his family by alleviating undue hardship, he may, in the discretion of the Secretary of the Army, be discharged.

(b) *Application.* Any individual will be permitted to submit a written application for discharge for dependency or hardship. Such requests will be submitted as follows:

(1) Families of enlisted personnel not physically in the United States may submit requests for dependency or hardship discharge to The Adjutant General, War Department, Washington 25, D. C. Such requests should be supported by evidence required in paragraph (c) of this section.

(c) *Evidence required.* (1) The evidence required for dependency or hardship discharge should normally be in affidavit form. The evidence will show that either:

(i) As the result of the death or disability of a member of his family, the discharge of the individual concerned is necessary for the support or care of a member or members of his family, or

(ii) The individual or his family is undergoing hardships more severe than the hardships normally experienced by all members or families of members of the military service; that this hardship is not of a temporary nature and that the discharge of the individual will eliminate or materially alleviate the condition and that there are no means of alleviation readily available other than by such discharge.

(2) Affidavit or statements by or on behalf of a soldier's dependents, and by at least two disinterested agencies or individuals substantiating the dependency or hardship claim, may be accepted from responsible agencies or individuals having first-hand knowledge of the circumstances involved. If dependency or hardship is the result of the death of a member of a soldier's family occurring after his entrance into the service, a certificate or other valid proof of death should be furnished. If dependency or hardship is the result of disability of a member of the soldier's family occurring after his entrance into the service, a physician's certificate should be furnished showing specifically when such disability occurred and the nature thereof. There should also be furnished the names, ages, occupations, locations, and monthly incomes of members of the soldier's family, and reasons why these members cannot provide the necessary care or support of the soldier's family.

(d) *Policies governing discharges on account of dependency.* (1) The death or disability must be that of a member of the soldier's family and the person becoming dependent thereby must be a member of the soldier's family.

(2) For the purpose of discharge under this section the term "members of the family" includes only the following: Spouse, children, father, mother, brothers, sisters, any person who has stood in loco parentis to the soldier prior to entry into service.

(3) Death or disability occurring in the soldier's family is not sufficient ground for discharge on account of dependency unless it results in making a member of his family dependent upon him for care or support.

(4) When disease or disability of a member of the soldier's family existed prior to enlistment, but becomes aggravated after enlistment to such an extent as to make care or support by the enlisted person necessary, discharge under this section is authorized.

(5) Indebtedness to the Government or to an individual does not prevent discharge when the soldier is otherwise eligible.

(6) When an individual is under charges or in confinement he will not be discharged until his case has been properly disposed of. A sentence of confinement will be fully served unless sooner terminated by remission for mitigating causes arising from the soldier's own good conduct before a discharge for any cause may be given.

(7) When an individual is eligible for discharge under the provisions of this section, discharge will not be disapproved because his services are needed in his organization.

(8) Pregnancy of a soldier's wife is not disability for which discharge may be authorized. This does not preclude discharge on account of disability occurring as the result of pregnancy.

(e) *Policies governing discharges on account of hardship.* (1) Death or disability of dependents is not required as a condition for discharge under hardship conditions.

(2) Except in those cases where it is clearly evident that extreme and unforeseeable hardship conditions affecting members of the individual's family have arisen since his enlistment, a soldier will not be discharged for reasons of hardship. Applications for hardship discharge will be carefully scrutinized and doubtful cases referred to The Adjutant General for final action.

(3) For the purpose of discharge under this section the term "members of the family" includes only the following: Spouse, children, father, mother, brothers, sisters, any person who has stood in loco parentis to the soldier prior to his entry into the service.

(4) Undue hardship exists when the family of the individual concerned must endure real and unwarranted suffering as a result of his military status. Undue hardship does not necessarily exist solely because of altered present or expected income or because the soldier is separated from his family or must suffer the inconveniences normally incident to military service.

(5) Indebtedness to the Government or to an individual does not prevent discharge when the soldier is otherwise eligible.

(6) When an individual is under charges or in confinement he will not be discharged until his case has been properly disposed of. A sentence of confinement will be fully served unless sooner terminated by remission for mitigating causes arising from the soldier's own good conduct before a discharge for any cause may be given.

(7) When an individual is eligible for discharge under this section discharge will not be disapproved because his services are needed in his organization. (39 Stat. 187, 41 Stat. 775; 10 U. S. C. 652) [AR 615-362, May 14, 1947]

§ 582.3 *Discharge for national health, safety, or interest*—(a) *Delegation of authority to order discharge.* Authority to order discharge of individuals for the convenience of the Government is delegated to commanders:

(1) Based upon the individual's importance to national health, safety, or interest when specifically authorized by the Department of the Army. The discharge of an individual for this reason will be authorized only when recommended by a governmental agency authorized to make such a recommendation and determination.

(2) Based upon an individual's claim that, prior to induction, he was denied a procedural right as provided by the Selective Service Act of 1948 and was,

therefore, erroneously inducted. All requests for discharge under this provision will be forwarded to the officer exercising discharge authority and by him to the State Director of the Selective Service System of the State of the applicant's registration for his recommendation. The officer exercising discharge authority will discharge or retain the individual in the service in accordance with the recommendation made by the State Director of the Selective Service System. (R. S. 161; 5 U. S. C. 22) [AR 615-365, Oct. 27, 1948]

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter IV—American Battle Monuments Commission

RECODIFICATION OF CHAPTER

That portion of the material submitted to the Division of the Federal Register by the American Battle Monuments Commission which conforms to the scope of the Code of Federal Regulations, 1949 Edition (see Chapter V of Title 32, *supra*), is reorganized and recodified as set forth below:

PART 401—PROCEDURES

Sec.
401.1 Erection of war memorials outside continental limits of United States.
401.2 Erection of war memorials on federally owned or controlled property in United States or Territories.

§ 401.1 *Erection of war memorials outside continental limits of United States.* American citizens, States, municipalities, or associations desiring to erect war memorials outside the continental limits of the United States should proceed as follows:

(a) Submit general idea of the memorial to the American Battle Monuments Commission, with a request for the tentative allocation of the site desired.

(b) When site is provisionally allocated prepare and submit the design of the monument, together with the inscription, for approval. The design of the monument will then be referred, in accordance with law, by the Commission to the National Commission of Fine Arts for their approval.

(c) After a site is allocated and the design and inscription approved, the American Battle Monuments Commission will take up with the foreign governments concerned the question of securing approval to the erection of the monument.

(d) When the approval of the foreign government is obtained the Commission will cooperate, if the people concerned so desire, in obtaining of ground and the erection of the monument. (Sec. 2, 60 Stat. 317; 36 U. S. C. 123)

§ 401.2 *Erection of war memorials on federally owned or controlled property in United States or Territories.* American or foreign citizens, States, municipalities, or associations desiring to erect war memorials on federally owned or controlled property in the United States or in its Territories and possessions should proceed as follows:

(a) Submit general idea of the memorial to the American Battle Monuments Commission together with statement indicating concurrence in the project by the Executive department having jurisdiction.

(b) When site is definitely assigned, submit to the American Battle Monuments Commission for approval the design of the memorial, together with the inscriptions and description of materials. The design, if approved, will then be referred, in accordance with law, by the American Battle Monuments Commission to the National Commission of Fine Arts for its approval.

(c) If Congressional action is required to obtain grant of the site, all arrangements must be made with the appropriate members of the Congress by the sponsors of the memorial and not by the American Battle Monuments Commission.

(d) The Commission will require evidence that the maintenance of the memorial is assured in perpetuity at the expense of the sponsors and not of the Government. (Sec. 2, 60 Stat. 317; 36 U. S. C. 123)

PART 402—ERECTION OF WAR MEMORIALS IN FOREIGN COUNTRIES BY AMERICAN CITIZENS, STATES, MUNICIPALITIES, OR ASSOCIATIONS

§ 402.1 *Restrictions on erection.* (a) The policy of the Commission shall be to decline to approve any plans for memorials in foreign countries, proposed for erection by States, Municipalities, military organizations or private individuals of the United States, with the exception of memorials that will be useful to the inhabitants of the neighborhood in which they are to be erected, such as bridges, fountains, public buildings, gateways or other public improvements.

(b) No battlefield memorial will be erected to any unit smaller than a division, unless, in the opinion of the Commission, its services were of such a distinguished character as to warrant a separate memorial.

(c) It is the opinion of the Commission that, as a general rule, monuments should be erected to organizations rather than to the troops from a particular locality of the United States, (Sec. 2, 60 Stat. 317; 36 U. S. C. 123)

PART 403—ERECTION OF MEMORIAL MONUMENTS, BUILDINGS AND HEADSTONES IN AMERICAN CEMETERIES LOCATED OUTSIDE THE UNITED STATES AND ITS TERRITORIES AND POSSESSIONS

§ 403.1 *Restrictions on erection.* (a) No memorial monuments or buildings shall be placed in these cemeteries unless the design and site have been approved by the American Battle Monuments Commission. No steps toward the erection of any memorial monument or building in these cemeteries should be taken until the idea has first been approved by the American Battle Monuments Commission.

(b) There shall be no variation in the types of headstones officially adopted for use in American cemeteries located outside the United States and its territories and possessions. (Sec. 2, 60 Stat. 317; 36 U. S. C. 123)

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter C—National Wildlife Refuges; Individual Regulations

PART 24—WEST CENTRAL REGION NATIONAL WILDLIFE REFUGES

DEER HUNTING IN UPPER MISSISSIPPI RIVER WILDLIFE AND FISH REFUGES

Basis and purpose. On the basis of observations and reports of field representatives of the Fish and Wildlife Service it has been determined that the population of deer on and in the vicinity of the Upper Mississippi River Wildlife and Fish Refuge is in excess of the available habitat and that, consistent with good wildlife management, the necessary reduction of the deer population can best be accomplished by public hunting.

Section 24.919b is amended to read:

§ 24.919b *Upper Mississippi River Wildlife and Fish Refuge; deer hunting.* Deer may be taken on the hereinafter specified lands within the Upper Mississippi River Wildlife and Fish Refuge during the 1948 open season only for the State wherein the hunting occurs, subject to the following provisions, conditions, restrictions, and requirements:

(a) *Area open to deer hunting.* All of the lands within the Upper Mississippi River Wildlife and Fish Refuge shall be open to the hunting of deer except the areas specifically scheduled in § 24.919a.

(b) *Entry.* Entry on and use of the Refuge are governed by § 24.919 and Part 12 of this chapter, and strict compliance therewith is required. Hunters must follow such routes of travel within the Refuge as are designated by posting.

(c) *State laws.* Strict compliance with State laws and regulations is required, and any person who hunts on the Refuge must have in his possession and exhibit at the request of any authorized Federal or State officer a valid State hunting license and permit for the taking of deer if such is required by the State laws and regulations. The license and permit will serve as a Federal permit for entry on the Refuge for the purpose of hunting deer.

(d) *Cooperation.* State cooperation may be enlisted in the regulation, management, and operation of the public hunting area and the State may promulgate such special regulations as may be necessary for such regulation, management, and operation. In the event such State regulations are issued, compliance therewith shall be a requisite to lawful entry for the purpose of hunting.

(18 U. S. C. 41, sec. 4, 60 Stat. 1081; sec. 6, 43 Stat. 650; Reorg. Plan No. II of 1939, sec. 4 (f))

Dated: November 15, 1948.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 974]

[Docket No. AO-176-A5]

HANDLING OF MILK IN COLUMBUS, OHIO, MARKETING AREA

NOTICE OF HEARING CONCERNING PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR, Supps. 900.1 et seq.; 12 F. R. 1159, 4904), notice is hereby given of a public hearing to be held at the Virginia Hotel, Gay and Third Streets, Columbus, Ohio, beginning at 10:00 a. m., e. s. t., November 23, 1948, for the purpose of receiving evidence with respect to proposed amendments to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Columbus, Ohio, milk marketing area (7 CFR, Supps. 974.0 et seq.; 11 F. R. 1081, 9424, 12 F. R. 4245, 13 F. R. 2331, 5021). These proposed amendments have not received the approval of the Secretary of Agriculture.

This public hearing is for the purpose of receiving evidence with respect to the economic and emergency conditions which relate to the proposed amendments hereinafter set forth.

The following amendments have been proposed by The Central Ohio Cooperative Milk Producers, Inc.:

1. Amend § 974.5 (b) by deleting the second proviso contained therein and to provide that the prices for Class I, Class II, and Class III milk for a limited period in 1948 and 1949 but not beyond March 1949, shall not be less than the prices in effect for such classes of milk in September 1948.

Copies of this notice of hearing and the tentative marketing agreement, and the order, as amended, now in effect, may be procured from the Market Administrator, Room 41, Old Federal Building, Columbus, Ohio, or from the Hearing Clerk, United States Department of Agriculture, Room 1844, South Building, Washington 25, D. C., or may be there inspected.

[SEAL] S. R. NEWELL,
Acting Assistant Administrator.

CIVIL AERONAUTICS BOARD

[14 CFR, Part 202]

FORMS OF REPORTS OF FINANCIAL AND OPERATING STATISTICS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Civil Aeronautics Board ("Board") has under consideration the proposed addition to the Economic Regulations Part 202, "Accounts, Records and Reports," § 202.1 *Forms of reports of financial and operating statistics* (14 CFR 202.1) of a revision of paragraph (a) and of a new paragraph (d) requiring Alaskan Air Carriers, other than those holding certificates of public convenience and necessity, and Alaskan Pilot Owners, to file certain periodic reports of financial and operating statistics with the Board. These reports will be distinct from the reports now required of Irregular Air Carriers. Scheduled Alaskan Air Carriers are presently required to file reports on Form CAB 41, under § 202.1 (a) unless a waiver has been granted. Where waivers are granted certificated Alaskan Air Carriers, the new report forms must be used. Paragraph (a) is being revised to make it applicable to air carriers holding certificates of public convenience and necessity instead of just to "scheduled air carriers" since it is now intended to apply also to unscheduled air transportation if the carrier holds a certificate as in the case of certificated Alaskan Air Carriers.

The proposed new paragraph (d) is set forth in the attached proposed rule.

This regulation is proposed under authority of sections 205 (a) and 407 of the Civil Aeronautics Act of 1938, as amended. (52 Stat. 984, 1000; 49 U. S. C. 425, 487)

Interested persons may participate in the proposed rule-making through the submission of written data, views or arguments pertaining thereto, in duplicate, addressed to the Secretary, Civil Aeronautics Board, Washington 25, D. C.: *Provided*, That all Alaskan Air Carriers shall submit their comments to the Director, Alaska Office, Civil Aeronautics Board, Anchorage, Alaska. All relevant matter in communications received on or before December 17, 1948, will be considered by the Board before taking final action on the proposed rule.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

It is proposed to amend the Economic Regulations § 202.1 *Forms of reports of financial and operating statistics*, as follows:

1. By revising paragraph (a) to read as follows:

(a) *Air carriers holding certificates of public convenience and necessity.* Each air carrier holding a certificate of public convenience and necessity shall make periodic financial and statistical reports to the Board using the appropriate schedules of the Report of Financial and Operating Statistics for Air Carriers, CAB Form 41; Interim Operating Statement and Selected Expenses, CAB Form 41 (a), and such amendments thereto as may hereafter be approved by the Board. Such reports shall be made in accordance with, and shall be filed with the Secretary of the Board at such times as are specified in the instructions relating to reporting procedure contained in the Uniform System of Accounts for Air Carriers, effective January 1, 1947, and such amendments thereto as may hereafter be approved by the Board.

2. By adding the following new paragraph (d):

(d) *Alaskan air carriers.* (1) Each Alaskan air carrier which does not hold a certificate of public convenience and necessity, each Alaskan air carrier holding a certificate of public convenience and necessity which has been relieved from complying with the requirements of paragraph (a) of this section, and each Alaskan pilot owner (as defined in § 292.2 of this chapter) for all periods subsequent to June 30, 1948, shall make periodic financial and operating statistical reports to the Board using the appropriate schedules of the Report of Financial and Operating Statistics (Alaska), CAB Form 2790[1] and such amendments thereto as may be approved hereafter by the Board.

(2) The reports required by paragraph (a) of this section with respect to Alaskan air carriers holding certificates of public convenience and necessity and by subparagraph (1) of this paragraph shall be filed with the Director of the Alaska Office, at Anchorage, Alaska, at such times as may be specified by the Director and shall be made in accordance with the instructions of the Director relating thereto.

(3) Data reported by individual Alaskan pilot-owners pursuant to subparagraph (1) of this paragraph shall be available for official use on behalf of the Board, but shall otherwise be withheld from public disclosure except as disclosure may be necessary in connection with use of such data in formal proceedings of the Board.

TERMS, CONDITIONS AND LIMITATIONS OF CERTIFICATES AUTHORIZING INTERSTATE AND OVERSEAS AIR TRANSPORTATION

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Civil Aeronautics Board has under consideration the proposed amendment of the Economic Regulations § 238.3 (f) *Provisions as to scheduled stops* (14 CFR 238.3 (f)) to authorize the scheduling of stops not in excess of two hours with respect to flights carrying only property and mail in addition to the normal crew. This will permit stops of a sufficient duration to permit loading and unloading of property and mail.

At the present time, scheduled stops are limited to 45 minutes, which is believed to be adequate for passenger operations, but insufficient for extensive property handling operations.

The proposed new paragraph § 238.3 (f) is set forth in the attached proposed rule.

This regulation is proposed under the authority of sections 205 (a), and 401 (f) of the Civil Aeronautics Act of 1938, as amended. (52 Stat. 984, 988; 49 U. S. C. 425, 481)

Interested persons may participate in the proposed rule making through submission of written data, views or arguments pertaining thereto, in duplicate, addressed to the Civil Aeronautics Board, Washington 25, D. C. All relevant matter in communications received on or before December 20, 1948, will be considered by the Board before taking final action on the proposed rule.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

It is proposed to amend the Economic Regulations § 238.3 (14 CFR 238.3) *Terms, conditions and limitations of certificates authorizing interstate and overseas air transportation*, as follows:

1. By amending paragraph (f) (1) to read as follows:

(f) *Provisions as to scheduled stops.* (1) A scheduled stop at a point within the continental United States with respect to a flight carrying any passengers in addition to the crew members, shall not be scheduled to exceed 45 minutes on any flight if the origination or termination of such flight at such point is prohibited by any restriction in the certificate.

(2) A scheduled stop at a point within the continental United States with respect to a flight carrying only property or mail in addition to the crew members, shall not be scheduled to exceed 2 hours on any flight if the origination or termination of such flight at such point is prohibited by any restriction in the certificate.

2. By re-numbering the existing paragraph (f) (2) to (f) (3).

REPRESENTATION OF PRIVATE PARTIES BY PERSONS FORMERLY ASSOCIATED WITH THE BOARD

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Civil Aeronautics Board ("Board") has under consideration the proposed amendment of § 287.3 of the Economic Regulations (14 CFR 287.3) to add certain provisions relative to practice before the Board by persons formerly associated with the Board.

Section 287.3 now prohibits certain persons formerly associated with the Board from appearing before the Board in a representative capacity in connection with any proceeding which was pending at the time of such association, within six months after the date of termination of such association. Questions have arisen as to the applicability of this section.

In order (1) to eliminate any future question regarding what constitutes a pending proceeding and (2) to clarify the Board's rules with regard to practice before it by former employees having personal knowledge of particular facts in any proceeding the Board proposes to amend this regulation.

The proposed amendment is set forth in the attached Proposed Rule.

This amendment is proposed under the authority of sections 205 (a), 1001 of the Civil Aeronautics Act of 1938, as amended. (52 Stat. 984, 1017; 49 U. S. C. 425, 641)

Interested persons may participate in the proposed rule making through submission of written data, views or arguments pertaining thereto, in duplicate, addressed to the Secretary, Civil Aeronautics Board, Washington 25, D. C. All relevant matter in communications received on or before December 20, 1948, will be considered by the Board before taking final action on the proposed rule.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

It is proposed to amend § 287.3 *Representation of private parties by persons formerly associated with the Board*, as follows:

1. By revising § 287.3 (b) to read as follows:

(b) *Personal knowledge of facts.* No person who has been associated with the Board as a member, officer, or employee shall be permitted at any time to appear before the Board in behalf of, or to represent in any manner, any private party in connection with any proceeding or matter if such person, or any one associated with him, personally considered or acquired particular knowledge of the facts of such proceeding or matter while associated in any capacity with the Board.

2. By adding a new paragraph (c) to read as follows:

(c) *Pending proceeding defined.* For the purposes of this section a proceeding shall be considered as pending from the date of receipt by the Secretary of any formal application, complaint, or petition for the institution of a proceeding by the Board or from the time of any order to show cause or other procedures of the Board evidencing the initiation of a proceeding. A consolidated proceeding shall be considered as pending for the purpose of this section from the date of the first individual proceeding therein.

Public Health Service

[42 CFR, Part 72]

INTERSTATE QUARANTINE

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Surgeon General of the Public Health Service, with the approval of the Federal Security Administrator, proposes to amend, as indicated below, the Interstate Quarantine Regulations contained in Part 72, Title 42, Code of Federal Regulations. In this connection, a hearing will be held in Room 4008, Federal Security Building, South, Third and C Streets SW., Washington 25, D. C., on November 30, 1948, beginning at 10:00 a. m. at which interested persons will have an opportunity to present their views. Persons not desiring to appear personally may submit a written statement of their views prior to the date of the hearing.

Under the proposed amendment, § 72.21 would be revised to read as follows:

§ 72.21 *Lather brushes*—(a) *General requirement.* A person shall not transport, or offer for transportation by the owner or operator of a conveyance, nor shall the owner or operator of a conveyance knowingly transport for another person, in interstate traffic lather brushes made from animal hair or bristles unless:

(1) Such brushes have been imported in compliance with the provisions of § 71.151 of this chapter; or

(2) Such brushes have been manufactured in the United States, its territories, or possessions in compliance with the provisions of paragraphs (b), (c), (d), (e), and (f) of this section.

(b) *Treatment.* The hair or bristles used in such brushes, if other than badger hair, shall be subjected to sterilization or to a treatment found by the Surgeon General, upon application of an interested person and the submission by such person of supporting data, to be effective to destroy anthrax spores in the hair or bristles to be treated. Badger hair shall be subject to the requirement of sterilization or other treatment only if the Surgeon General finds, and so notifies the manufacturer, that the hair was secured from areas, or has been stored or handled under circumstances, likely to render it an agent in the spread of communicable disease from one State or possession to another.

(c) *Sterilization.* Sterilization shall consist of:

(1) Exposure to steam under pressure in an autoclave at a minimum temperature of 120° C. (248° F.) for 15 minutes for bristles and 20 minutes for hair; or

(2) Exposure to streaming steam in an autoclave (not under pressure) at 100° C. (212° F.) for 30 minutes for bristles and 40 minutes for hair.

In either case, the steam temperature shall be measured in the exhaust line at its exit from the autoclave by an indicating thermometer found by the Surgeon General to give reasonable assurance of accuracy, and by a recording thermometer adjusted to read no higher at any time than the indicating thermometer. The time of exposure shall be measured from the moment at which the indicating thermometer reaches the specified sterilization temperature. Recording thermometer charts for each sterilization shall be kept readily available. If hair or bristles are sterilized in bundles, the bundles, which shall not exceed 2½ inches in diameter and 5 inches in length, shall be placed on racks in the autoclave in separate layers so as to permit free circulation of steam through all bundles.

(d) *Handling and storage.* Hair or bristles which have been treated, by sterilization or otherwise, shall be marked with the date of treatment, the method used, and name and location of the establishment at which treatment occurred, and shall be so handled and stored as to prevent their contamination or recontamination with anthrax spores.

(e) *Identifying marks.* Lather brushes shall be marked permanently with the name of the manufacturer or with an identifying mark of the manufacturer registered with the Surgeon General.

(f) *Inspection.* Persons engaged in processing or other handling of hair or bristles for use in lather brushes manufactured for transporation in interstate traffic and persons engaged in manufacturing such lather brushes from hair or bristles shall permit authorized representatives of the Surgeon General to make at any reasonable time such inspection of the plants or other places, including the equipment, operations, and products thereof, at which such manufacturing, processing or handling is carried on as may be necessary in the judgment of such representatives to determine compliance with the provisions of this section.

[SEAL] LEONARD A. SCHEELE,
Surgeon General.

Approved: November 15, 1948.

CONVERSION OF CURRENCY; URUGUAYAN PESO

COLLECTION OF ESTIMATED DUTIES

NOVEMBER 10, 1948.

Reference is made to T. D. 49899, July 26, 1939, in which it was stated that the Federal Reserve Bank of New York was certifying, pursuant to section 522 (c), Tariff Act of 1930, two rates for the Uruguayan peso, designated "controlled" and "noncontrolled"; that the amount of estimated duties to be deposited should be determined by the use of the controlled rate; that liquidation of entries involving the conversion of the Uruguayan peso should be suspended; and that in the meantime only that rate for the Uruguayan peso to be used in estimating duties would appear in the Treasury Decisions.

Beginning July 30, 1948, the Federal Reserve Bank of New York omitted rates for the Uruguayan peso from the list of rates certified daily to the Secretary of the Treasury. The Bank has advised the Treasury Department that for dates on and after October 18, 1948, it will certify daily four separate rates for the Uruguayan peso, which rates are without descriptive titles but will be identified by the letters (a), (b), (c) and (d), with a notation that the application of the rates depends upon the type of merchandise. The Bank further states that, upon request, it will certify the four rates for dates during the interim period from July 31 to October 15, 1948.

Pending the issuance of instructions for the conversion of the Uruguayan peso into United States dollars for the purposes of appraisement and liquidation, only the highest of the four certified rates (i. e., the rate showing the highest amount of United States money per peso) will be published in the Treasury Decisions and that rate shall be used solely for the purpose of calculating estimated duties.

SEILING LIVESTOCK SALES CO.

NOTICE RELATIVE TO POSTED STOCKYARDS

Notice is hereby given that after inquiry and after consideration of all relevant matter presented pursuant to the notice of proposed posting and rule making published in the FEDERAL REGISTER on October 21, 1948 (13 F. R. 6150), it has been ascertained by me, pursuant to section 302 of the Packers and Stockyards Act, 1921 (7 U. S. C. 202), that the stockyard known as the Seiling Livestock Sales Company, Seiling, Oklahoma, is a stockyard within the definition of a stockyard contained in section 302 of said act, and is, therefore, subject to the provisions of said act.

The attention of the stockyard owners, market agencies, dealers, and other persons concerned is directed to sections 303 and 306 (7 U. S. C. 203 and 207) and other pertinent provisions of said act, and the rules and regulations issued thereunder by the Secretary of Agriculture.

The Packers and Stockyards Act provides for a specified time after the posting of notice at the stockyard for marketing agencies, dealers, and stockyard owners to register and qualify for the operation of their businesses under that act.

There appears to be no good reason to defer the effective date of the foregoing notice in view of that fact. Therefore, it is determined that good cause exists to make this notice, and it shall be, effective immediately, subject to the provisions of the Packers and Stockyards Act.

NOTICE OF HEARING

In the matter of the application of Leslie D. Emery, under section 401 of the Civil Aeronautics Act of 1938, as amended, for a certificate of public convenience and necessity authorizing the air transportation of persons, property and mail between the terminal points Charlevoix, Mich. and St. James, Beaver Island, Mich.

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 401 and 1001 of said act, that a hearing in the above-entitled proceeding is assigned to be held on November 29, 1948 at 10:00 a. m. (c. s. t.) in the Perry Hotel, Petoskey, Michigan, before Examiner Richard A. Walsh.

Without limiting the scope of the issues presented by said application, particular attention will be directed to the following matters and questions:

1. Whether the proposed service is required by the public convenience and necessity.

2. Whether the applicant is a citizen of the United States and is fit, willing, and able to perform the proposed air transportation and to conform to the provisions of the act and the rules, regulations, and requirements of the Board thereunder.

Notice is further given that any person desiring to be heard in this proceeding must file with the Board, on or before

November 29, 1948, a statement setting forth the issues of fact or law raised by said application which he desires to controvert.

NORTHERN NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

NOVEMBER 12, 1948.

Upon consideration of the application filed September 17, 1948, by Northern Natural Gas Company (Applicant), a Delaware corporation having its principal place of business at Omaha, Nebraska, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of certain natural gas facilities, subject to the jurisdiction of the Commission, as fully described in such application on file with the Commission and open to public inspection;

It appears to the Commission that: Applicant has requested that its application be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure for non-contested proceedings, and that this proceeding is a proper one for disposition under the provisions of the aforesaid rule, provided no request to be heard, protest or petition raising an issue of substance is filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on October 2, 1948 (13 F. SECURITIES AND EXCHANGE COMMISSION

[File No. 54-130]

INTERSTATE POWER CO. AND OGDEN CORP.

ORDER ALLOWING BRIEFS TO BE FILED IN REGARD TO COMPROMISE PLAN AND PROPOSED FINDINGS AND OPINION

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 12th day of November A. D. 1948.

A motion having been filed in this proceeding on November 5, 1948, by certain preferred stockholders referred to as the "Colton Group" requesting the Commission

(1) To enter an order severing the issues in this proceeding as they relate to the debenture holders from the remaining issues and to approve immediate distribution to the debenture holders of their distributive shares as provided by a plan proposed by the Colton Group or as proposed by the Compromise Plan filed herein by Ogden Corporation if its proponents consent;

(2) To require the Division of Public Utilities of the Commission or some other officer of the Commission to issue proposed findings, or an intermediate opinion limited to certain subordination issues raised in the proceeding with respect to certain relative rights of Ogden Corporation and the public holders of the preferred stock of Interstate Power Company;

(3) To allow all parties an opportunity following the issuance of such proposed findings or intermediate opinion to adduce any further material evidence with respect to the subordination issues and thereafter to file briefs with, and to argue before, the Commission the merits of the subordination issues and of the respective plans filed by Ogden Corporation and the Colton Group;

(4) To waive its rule of practice requiring the filing of briefs with respect to the motion and in lieu thereof to grant oral argument;

It appearing that the proposed allocations to debenture holders under the Compromise Plan are so interrelated with the proposed compromise of subordination claims, and with the proposed allowances to preferred stockholders and to Ogden Corporation, that severance of the issues relating to the proposed allowances to debenture holders would not be feasible or appropriate, and that the proponents of the Compromise Plan have objected thereto;

It further appearing that evidence has been taken on the subordination claims at hearings held on due notice to security holders during the past five years, that the Compromise Plan proposes a settlement of such claims, and that the record was closed on November 5, 1948 after it appeared that no one was prepared to go forward with additional evidence;

The several participants in this proceeding having made a full statement of their respective positions with respect to the motion on the record before the Hearing Examiner, and the Commission deeming that its rule of practice requiring briefs in support of said motion

should be waived, and having considered the motion and the record made thereon;

It is ordered, That all participants of the Commission other than the Division of Public Utilities shall be allowed until December 20, 1948 to file briefs on the issues raised by the Compromise Plan; that the Division of Public Utilities of the Commission file proposed findings and opinion regarding the Compromise Plan on or before January 20, 1949; and that all participants be allowed until February 7, 1949 to file reply briefs with respect to said proposed findings and opinion; and that oral argument on said issues be held February 15, 1949, at 10 a. m.

It is further ordered, That to the extent the requests of said motion have not been granted herein they are denied, with leave to the Colton Group to renew said motion in connection with its brief and argument on the issues specified above.

By the Commission.

STANDARD GAS AND ELECTRIC CO.

ORDER APPROVING FEE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 12th day of November A. D 1948.

The Commission by order dated November 15, 1944, having approved a plan filed under section 11 (e) of the Public Utility Holding Company Act of 1935 by Standard Gas and Electric Company ("Standard"), a registered holding company, providing, among other things, for the retirement of its then outstanding notes and debentures in the principal amount of $59,000,000, such order having reserved to the Commission jurisdiction as to all fees and expenses to be paid by Standard in connection with the plan; and

Holthusen & Pinkham, attorneys for certain holders of notes and debentures, having filed an application for approval of a counsel fee of $15,000 plus expenses of $378.40 as compensation for its services in connection with the section 11 (e) plan; and

After appropriate notice, a public hearing having been held on this and other applications of representatives of holders of notes and debentures, and oral argument heard; and

The applicant having stated that it is willing to accept a reduced fee of $10,000 plus expenses, as recommended by the Division of Public Utilities of the Commission, and Standard having stated that it has no objection to the payment of such compensation if this Commission approves the application; and

The Commission having considered the record and it appearing that a legal fee in the reduced amount agreed to by Holthusen & Pinkham is not unreasonable: *It is ordered*, That:

(1) The application of Holthusen & Pinkham for a legal fee in the amount of $10,000, plus expenses of $378.40 be and hereby is approved, and Standard Gas and Electric Company be and hereby is directed to pay such fee and expenses.

(2) The jurisdiction heretofore reserved in our order of November 15, 1944, over payment of all other fees and expenses be and hereby is continued in effect.

By the Commission.

NORTHERN VIRGINIA POWER CO. AND THE POTOMAC EDISON CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C. on the 10th day of November A. D. 1948.

The Potomac Edison Company ("Potomac"), a registered holding company, and its wholly owned direct subsidiary, Northern Virginia Power Company ("Northern"), having filed with this Commission a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 and certain rules and regulations promulgated thereunder regarding the following transactions:

The issue and sale by Northern from time to time, but prior to December 31, 1949, of 75,000 shares of common stock, par value $100 per share, the sales to be to Potomac at par and to occur as funds are needed by Northern, it being proposed that the first installment, of approximately 13,000 shares, be issued and sold by Northern and acquired by Potomac about November 15, 1948; and, the acquisition by Potomac of the foregoing securities of Northern and the pledge thereof as collateral for Potomac's First Mortgage and Collateral Trust Bonds, Potomac as the owner of all of Northern's presently outstanding securities, 82,000 shares of common stock and 1,500 shares of 7% preferred stock (par value $100 per share), having heretofore pledged those securities:

Notice of the filing of this joint application-declaration having been duly given in the form and manner prescribed by Rule U-23, the Commission not having received a request for a hearing with respect thereto and not having ordered a hearing thereon;

The Commission finding with respect to this joint application-declaration that it meets the applicable statutory standards, that there is no basis for any adverse findings, and deeming it appropriate in the public interest and in the interest of investors and consumers that said joint application-declaration be granted and permitted to become effective;

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of the act that this joint application-declaration be, and the same hereby is, permitted to become effective forthwith subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

MIDDLE WEST CORP. ET AL.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 12th day of November A. D. 1948.

In the matter of the Middle West Corporation, Wisconsin Power and Light Company, File No. 70-1976; Public Service Company of Indiana, Inc., File No. 70-1981.

The Middle West Corporation ("Middle West"), a registered holding company, and its subsidiary, Wisconsin Power and Light Company ("Wisconsin"), a public utility company, having filed a joint application-declaration, and amendments thereto, pursuant to sections 6 (a), 7, 9 (a), 10, 11, 12 (c), 12 (d), and 12 (f) of the Public Utility Holding Company Act of 1935 and Rules U-42, U-43, U-44 and U-46 promulgated thereunder, and in connection therewith, Public Service Company of Indiana, Inc. ("Indiana"), also a public utility subsidiary of Middle West, having filed a declaration, and amendments thereto, pursuant to sections 6 (a), 7 and 12 (f) of the act and Rule U-43, promulgated thereunder, regarding the following proposed transactions:

Middle West, the owner of 847,292½ shares of $10 par value common stock of Wisconsin and 224,586 shares of no par value common stock of Indiana, proposes to distribute in partial liquidation on November 29, 1948, to its stockholders of record on October 29, 1948, one share of Wisconsin's common stock for each four shares of Middle West common stock held and two shares of Indiana's common stock for each 15 shares of Middle West common stock held.

No fractional shares of common stock of Wisconsin or of Indiana will be issued. In lieu thereof, Middle West proposes to distribute to its stockholders non-dividend and non-voting scrip certificates, in bearer form, which are proposed to be issued by Wisconsin and by Indiana in exchange for the deposit of full shares by Middle West. By their terms, the scrip certificates will become void after December 31, 1953, but prior to said time, when combined in amounts equal to full shares of common stock, may be surrendered to the respective companies for full shares of common stock.

It is estimated that scrip certificates representing about 7,100 shares of Wisconsin and 9,000 shares of Indiana will be issued by these companies respectively. Said shares of common stock, to the extent not delivered against the surrender of scrip certificates, will be cancelled upon the expiration of such scrip certificates.

Middle West further proposes to reserve 3,280 shares of Wisconsin's common stock and 1,750 shares of Indiana's common stock for distribution in respect of 13,118.55 shares of Middle West stock reserved under the plan of reorganization of Middle West Utilities Company, predecessor of Middle West.

In respect of the distribution of full shares of common stock of Wisconsin and Indiana, Middle West reserves the right to fix a reasonable period of time upon the expiration of which all rights of stockholders of Middle West who cannot be located in such period and on behalf of whom no valid claim is made during such period, shall cease and determine, subject, however, to the approval of this Commission with respect to such period of time, the conditions to be complied with and the steps to be taken to make operative the right so reserved.

Middle West further proposes to invite competitive bids for and to sell in separate blocks, in the manner provided by Rule U-50, its remaining holdings of common stock and scrip of Wisconsin and of Indiana not required or reserved for distribution (estimated to be 20,467 shares of Wisconsin and 8,198 shares of Indiana) and its entire holdings of shares of common stock and scrip of Indiana Gas & Water Company, Inc. ("Gas-Water"), a subsidiary of Indiana, (estimated to be 43,853 shares). Middle West requests that, if the proposed sales are not excepted from Rule U-50 by virtue of paragraph (a) (4) thereof, the ten-day notice period for inviting bids provided in Rule U-50 be shortened to not less than six days. It is stated that Middle West will use the proceeds from the sales of the common stocks of Wisconsin, Indiana, and Gas-Water to purchase 125,000 shares of common stock, $10 par value, of its subsidiary, Kentucky Utilities Company, the acquisition of which has heretofore been approved by order of this Commission dated September 29, 1948 (Holding Company Act Release No. 8540).

Middle West's expenses in connection with the proposed transactions are estimated at $17,500, including legal fees of $2,500.

Middle West represents that the transactions proposed herein will effectuate a partial liquidation of the company as authorized by its stockholders and will tend to effectuate the provisions of section 11 (b) of the act.

Said application-declaration of Middle West and Wisconsin having been filed on October 18, 1948, and the last amendment thereto having been filed on November 9, 1948, and said declaration of Indiana having been filed on October 25, 1948, and the last amendment thereto having been filed on November 9, 1948; and notice of said filings having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said application-declaration, or said declaration, within the period specified, or otherwise, and not having ordered a hearing thereon; and

The Public Service Commission of Indiana having, on October 28, 1948, issued an order approving the issue and use of scrip certificates by Indiana; and it appearing that no other regulatory body other than this Commission has jurisdiction over any of the proposed transactions; and

The Commission finding that the proposed sales by Middle West of the remaining shares of the common stock of Wisconsin, Indiana and Gas-Water are exempt from the provisions of Rule U-50 by virtue of sub-paragraph (a) (4) thereof, and it appearing that Middle West nevertheless desires to sell said shares pursuant to competitive bidding and in the manner prescribed in said Rule, and it appearing that Middle West intends to maintain competitive conditions with respect to such sales, as required by section 12 (d) of the act, by inviting bids in the manner provided for in Rule U-50, and the Commission deeming it appropriate to reserve jurisdiction over the results of competitive bidding; and

The Commission further finding, subject to the conditions specified below, that the other requirements of the applicable provisions of the act and rules promulgated thereunder are satisfied and that no adverse findings are necessary with respect to said application-declaration, as amended, of Middle West and Wisconsin, and also with respect to said declaration, as amended, of Indiana, and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that said application-declaration, as amended, and said declaration, as amended, be granted and permitted to become effective, subject to such conditions, and that the request of applicants-declarants that the Commission's order be accelerated and become effective forthwith be granted; and

Middle West having requested that the Commission's order granting and permitting to become effective the application-declaration, as amended, conform to the requirements of sections 371, 372, 373 and 1808 (f) of the Internal Revenue Code as amended, and the Commission deeming it appropriate to grant such request;

It is ordered, That, pursuant to Rule U-23 and the applicable provisions of the act, said application-declaration, as amended, of Middle West and Wisconsin and said declaration, as amended, of Indiana be, and the same hereby are, granted and permitted to become effective forthwith, subject, however, to the terms and conditions prescribed in Rule U-24 and subject to the following further conditions:

1. That the proposed sales of the common stocks of Gas-Water, Wisconsin and Indiana by Middle West shall not be consummated until the results of competitive bidding have been made a matter of record in this proceeding and a further order shall have been entered by the Commission in the light of the record so completed, which order may contain such further terms and conditions as may then be deemed appropriate, jurisdiction being reserved for such purpose.

2. That jurisdiction is hereby reserved with respect to all accounting entries proposed to be made by Middle West in connection with the transactions herein.

It is further ordered, That jurisdiction be, and hereby is, reserved to take such further action as may be necessary with respect to the determination of the rights of stockholders of Middle West who cannot be located and on behalf of whom no valid claim is made to participate in the distributions of full shares of common stock of Wisconsin and of Indiana proposed to be made by Middle West.

It is further ordered and recited, That the distribution by Middle West to its stockholders of record at the close of business on October 29, 1948, in partial liquidation of The Middle West Corporation, of one share of common stock of Wisconsin of the par value of $10 each for each four shares of common stock of Middle West and two shares of the common stock without par value of Indiana for each 15 shares of common stock of Middle West, outstanding on said date; the distribution of scrip certificates to be issued by Wisconsin and by Indiana, respectively, in lieu of fractional shares of Wisconsin and of Indiana; and the sale of 20,467 shares of common stock of Wisconsin of the par value of $10 each, 8,198 shares of common stock of Indiana without par value and 43,853.92 shares of common stock of Gas-Water of the par value of $10 each at prices to be determined by competitive bidding, and the expenditure of the proceeds from the sale of the common stocks of Wisconsin, Indiana and Gas-Water for the purchase of common stock, par value $10 per share, of its subsidiary, Kentucky Utilities Company, at par, in the manner provided in the application-declaration filed in this proceeding, are, and each is necessary or appropriate to the integration or simplification of the holding company system of Middle West and are necessary or appropriate to effectuate the provision of section 11 (b) of the Public Utility Holding Company Act of 1935.

By the Commission.

AMERICAN GAS AND ELECTRIC CO.

SUPPLEMENTAL ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 15th day of November A. D. 1948.

The Commission having by order dated November 3, 1948 granted the application of American Gas and Electric Company ("American Gas"), a registered holding company, pursuant to Rule U-100 of the general rules and regulations promulgated under the Public Utility Holding Company Act of 1935 for exemption from the requirements of Rule U-44 thereof

with respect to the proposed distribution by way of dividends of certain shares of the common stock of Atlantic City Electric Company ("Atlantic City"); and

American Gas having requested that the Commission issue a further order containing recitations conforming with the requirements of the Internal Revenue Code, as amended, including section 1808 (f) and Supplement R thereof; and

The Commission deeming it appropriate to grant such request:

It is ordered and recited, That the transactions proposed in the application of American Gas, including the transactions specified below, are necessary and appropriate to the integration or simplification of the holding company system, of which American Gas is a member, and are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935:

(a) The transfer, pursuant to the dividend distributions described in the application of American Gas, of an aggregate number of shares of common stock of Atlantic City equal to $^{3}/_{100}$ths of one share of common stock of Atlantic City on each one share of American Gas on each of the dividend payment dates of December 15, 1948, and March 15, 1949, including therein not more than 179,310 additional shares of common stock of Atlantic City which were not specified in our order of April 7, 1947 (File No. 54-155);

(b) The transfer, pursuant to the sale by American Gas on the over-the-counter market, of such number (not in excess of 100) of shares of common stock of Atlantic City as may be owned beneficially by American Gas after the distributions mentioned in paragraph (a) above;

(c) The issuance by American Gas of scrip certificates for fractions of shares of common stock of Atlantic City in connection with the proposed dividends of American Gas described therein;

(d) The transfer to American Gas by the scrip agent upon the termination of the rights of the holders of outstanding scrip certificates of the cash allocable to such scrip certificates, as described in the plan of American Gas; and

(e) The purchases and sales of scrip certificates and stock certificates by the scrip agent in accordance with the plan of American Gas.

By the Commission.

CENTRAL AND SOUTH WEST CORP. ET AL.

MEMORANDUM, FINDINGS AND ORDER GRANTING APPLICATION AND PERMITTING DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 12th day of November A. D. 1948.

In the matter of Central and South West Corporation, File No. 70-1989; Central and South West Corporation, Central Power and Light Company, Southwestern Gas and Electric Company, File No. 70-1990.

Central and South West Corporation ("Central and South West"), a registered holding company, has filed a declaration, and amendments thereto, pursuant to sections 6 and 7 of the Public Utility Holding Company Act of 1935 ("Act") and Rule U-50 promulgated thereunder; and Central and South West and its subsidiaries, Central Power and Light Company ("Central Power") and Southwestern Gas and Electric Company ("Southwestern") have filed a separate joint application-declaration, and an amendment thereto, pursuant to sections 6 (a), 7, 9 (a), 10 and 12 (f) of the act and Rule U-43 promulgated thereunder. The transactions proposed by applicants-declarants are summarized as follows:

Central and South West proposes to issue and sell 659,606 shares of additional common stock, $5 par value. Said shares of common stock are to be offered to the holders of the company's presently outstanding common stock of record at the close of business on November 18, 1948, in accordance with their preemptive rights, for a period of 15 days, on the basis of one share of additional common stock for each ten shares of common stock held. The subscription price will be the price per share to be determined by competitive bidding for the unsubscribed shares. The rights to subscribe will be evidenced by full share and fractional share subscription warrants in transferable form. Any shares of additional common stock not subscribed for by the common stockholders will be sold by the company to underwriters at competitive bidding pursuant to Rule U-50.

Central and South West requests that the ten-day notice period for inviting bids as provided by Rule U-50 be shortened to a period of not less than six days.

The net proceeds to be received by Central and South West from the issue and sale of the additional shares of common stock will be invested in common stocks of Central Power and Southwestern.

Central Power proposes to amend its Articles of Incorporation so as to increase its authorized common stock amounting to 1,072,100 shares, $10 par value, by such number of shares as will be equal to: (a) 350,000 shares and (b) such number of shares as may be purchased by Central and South West, at par, with approximately 60% of the net proceeds, in excess of $6,000,000, to be received by Central and South West from the proposed sale of its additional shares of common stock. After the adoption of the amendment, Central Power proposes to issue and sell to Central and South West, owner of all of Central Power's outstanding common stock, 350,000 shares of common stock, $10 par value, for cash, at par, and such additional number of shares of common stock as will be authorized by said amendment under clause (b) above.

Southwestern proposes to increase the stated value of the 500,000 outstanding shares, no par value, of its common stock from $6,800,000, as shown on its books, to $9,500,000 by transferring on its books the sum of $2,700,000 from earned surplus to common stock capital account, and thereafter, to amend its Certificate of Incorporation, as amended, so as to increase its total authorized common stock from 500,000 shares, no par value, to 1,500,000 shares, $10 par value, and to change the 500,000 shares, no par value, of its common stock now outstanding into 950,000 shares, $10 par value. After the adoption of the proposed amendment, Southwestern proposes (a) to issue and deliver to Central and South West certificates for 950,000 shares of common stock, $10 par value, of Southwestern upon the surrender for cancellation by Central and South West of certificates representing the outstanding 500,000 shares of common stock, no par value, of Southwestern, and (b) to issue and sell to Central and South West, for cash, at par, 250,000 shares of common stock, $10 par value, of Southwestern and such additional number of shares of its common stock, $10 par value, as may be purchased by Central and South West, at par, with approximately 40% of the net proceeds, in excess of $6,000,000, to be received by Central and South West from the proposed sale of its common stock.

The net proceeds to be received by Central Power and Southwestern from the sales of their common stock will be used by them to finance their construction programs. The record indicates that Central Power's construction budget for the years 1948-1951, inclusive, amounts to $33,438,900, while the construction budget of Southwestern for the same period amounts to $26,234,500. It appears that not only these companies but also the other subsidiaries [1] of Central and South West are engaged in extensive expansion programs. The record discloses that the subsidiaries of Central and South West estimate that they will expend an aggregate of approximately $104,000,000 for construction during the period 1948-1951 inclusive. It is presently contemplated that the construction program will be financed through the issuance of approximately $20,500,000 of debt and $7,000,000 of preferred stock by the subsidiaries, together with the proceeds of $28,000,000 of bonds issued between December 1947 and May 1948, and approximately $6,000,000 to be received from the presently proposed sale of additional common stock. The remaining cash requirements for construction will be supplied through retained earnings and provisions for depreciation and amortization during the 1948-1951 period.

We note that no provision is made in the new money requirements of the subsidiaries for an increase in common stock equity (other than by the instant filing). In approving the present transactions we are doing no more than approving the present increase in equity capital and our action is in no way to be construed as an indication that we are giving any approval to the projected methods of satisfying future capital requirements.

[1] Public Service Company of Oklahoma and West Texas Utilities Company.

Central and South West estimates that its fees and expenses (other than compensation to underwriters) in connection with the issuance of additional common stock will aggregate $110,000, including legal fees of $17,500. The fee of independent counsel for the underwriters has been estimated at $7,000. Central Power and Southwestern estimate that their expenses in connection with the issue and sale of common stock will aggregate $12,000. It is stated that the expenses with respect to the acquisition of the common stocks of Central Power and Southwestern by Central and South West are estimated to be nominal.

The Arkansas Public Service Commission has approved the transactions proposed by Southwestern, and it is stated that no other regulatory body other than this Commission has jurisdiction over any of the proposed transactions.

The said declaration and said application-declaration having been filed on October 29, 1948, and the last amendment thereto having been filed on November 10, 1948, and notice of said filings having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said declaration or application-declaration within the period specified, or otherwise, and not having ordered a hearing thereon; and

The Commission finding that the requirements of the applicable provisions of the act and rules promulgated thereunder are satisfied and that no adverse findings are necessary with respect to said declaration, as amended, of Central and South West, and also with respect to said application-declaration, as amended, of Central and South West, Central Power and Southwestern, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration, as amended, and said application-declaration, as amended, be granted and permitted to become effective, subject to the terms and conditions set forth below, and the Commission further deeming it appropriate to grant applicants-declarants request that the order be accelerated and become effective upon issuance thereof:

It is ordered, That, pursuant to Rule U-23 and the applicable provisions of the act, said declaration, as amended, of Central and South West and said application-declaration, as amended, of Central and South West, Central Power, and Southwestern be, and the same hereby are, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and to the additional condition that the proposed issuance and sale of common stock by Central and South West shall not be consummated until the results of competitive bidding, pursuant to Rule U-50, have been made a matter of record in these proceedings and a further order shall have been entered by the Commission in the light of the record so completed, which order may contain such further terms and conditions as may then be deemed appropriate, jurisdiction being reserved for such purpose.

It is further ordered, That, in accordance with the request of Central and South West, the ten-day notice period for inviting bids as provided by Rule U-50 be, and the same hereby is, shortened to a period of not less than six days.

By the Commission.

WEST PENN ELECTRIC CO. AND THE POTOMAC EDISON CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 15th day of November A. D. 1948.

Notice is hereby given that a joint application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") by The West Penn Electric Company ("West Penn Electric"), a registered holding company, and its direct subsidiary, The Potomac Edison Company ("Potomac Edison"), a registered holding company and an operating utility company.

Notice is further given that any interested person may, not later than November 26, 1948 at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request, and the issues, if any, of law or fact proposed to be controverted; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after November 26, 1948 said joint application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 and U-100 thereof.

All interested persons are referred to said joint application-declaration, which is on file in the offices of this Commission, for a statement of the transactions therein proposed which are summarized as follows:

Potomac Edison proposes to issue and sell for cash to the general public through underwriters, pursuant to the competitive bidding requirements of Rule U-50, --% Series First Mortgage and Collateral Trust Bonds, due 1977, in the principal amount of $5,500,000 and --% Cumulative Preferred Stock, Series B, par value $100 per share, in the aggregate amount of 30,000 shares. Potomac Edison also proposes to issue and sell 75,000 shares of common stock, without nominal or par value, to West Penn Electric and West Penn Electric proposes to acquire these shares for a total cash consideration of $1,500,000. West Penn Electric now owns all of the outstanding common stock of Potomac Edison, consisting of 375,000 shares.

The net proceeds from the sale of these bonds, preferred stock, and common stock are to be used for the construction of needed property additions and improvements by Potomac Edison and its public utility subsidiaries. It is represented in the filing that the issue and sale of all of these securities is subject to the approval of the Public Service Commission of Maryland.

The filing designates sections 6, 7, 9, 10, 12 (d), and 12 (f) of the act and Rules U-43, U-44, and U-50 as being applicable to the transactions proposed in the joint application-declaration.

By the Commission.

OKLAHOMA GAS AND ELECTRIC CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in Washington, D. C. on the 12th day of November 1948.

Notice is hereby given that an application and a declaration has been filed with the Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") by Oklahoma Gas and Electric Company, a subsidiary of Standard Gas and Electric Company, a registered holding company. Applicant-declarant designates section 6 (b) of the act and Rules U-23, U-24 and U-50 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than November 26, 1948, at 12:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application-declaration proposed to be controverted or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time thereafter such application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said application-declaration which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized below:

Applicant-declarant proposes to issue and sell pursuant to the competitive bidding provisions of Rule U-50, $7,500,000 principal amount of its First Mortgage Bonds, ("New Bonds") Series due December 1, 1978. The New Bonds will be issued under the provisions of an Indenture, dated February 1, 1945, between

applicant-declarant and The First National Bank and Trust Company of Oklahoma City, Trustee, as supplemented by a new Supplemental Trust Indenture dated as of December 1, 1948, on the following basis: $4,000,000 principal amount of New Bonds on the basis of permanent additions and $3,500,000 principal amount of New Bonds on the basis of the retirement of $3,500,000 principal amount of applicant-declarant's outstanding, First Mortgage Bonds, 2¾%, Series of 1947 due February 1, 1975, pursuant to the provisions of Articles V and VI, respectively, of said Indenture. The First Mortgage Bonds, Series of 1947 due February 1, 1975, 2¾%, so retired will be cancelled upon the prepayment of applicant-declarant's presently outstanding Secured Notes ($3,500,000) which such bonds now secure.

Applicant-declarant states that the proceeds from the issuance and sale of the New Bonds will be applied to the prepayment, without premium, of $3,500,000 of 1¾% Secured Notes and $2,000,000 of 2¼% unsecured notes. The balance is to be applied to the payment of construction expenditures.

The invitation for bids provides that each proposal for the purchase of the New Bonds shall specify (a) the coupon rate (which shall be a multiple of ⅛ of 1%) of the New Bonds, and (b) the price (exclusive of accrued interest) to be paid for the New Bonds, which price shall be expressed as a percentage of the principal amount of New Bonds and shall be not less than 100% and not more than 102¾% of the principal amount thereof.

Applicant-declarant requests authority to shorten the ten-day notice period for bids provided for by Rule U-50 to six days, if deemed advisable by applicant-declarant because of market conditions at the time of publication for bids.

Applicant-declarant has filed applications with the Corporation Commission of the State of Oklahoma and the Arkansas Public Service Commission regarding the proposed transactions.

By the Commission.

FEDERAL REGISTER

VOLUME 13 NUMBER 227

Washington, Saturday, November 20, 1948

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 31—EFFICIENCY RATING BOARDS OF REVIEW

Part 31 is revised and amended to read as set out below.

Sec.
31.1 Establishment and jurisdiction.
31.2 Members.
31.3 Appeals.
31.4 Hearings.
31.5 Decisions.
31.6 Effect of decisions.
31.7 Effective date.

AUTHORITY: §§ 31.1 to 31.7 issued under sec. 7, 54 Stat. 1215; 5 U. S. C. 669; sec. 2, 60 Stat. 752; 5 U. S. C. 669a.

§ 31.1 *Establishment and jurisdiction.* The head of each department and agency having employees subject to the provisions of section 9 of the Classification Act of 1923, as amended, shall establish, with the approval of the Civil Service Commission, one or more boards of review for the purpose of considering and passing upon the merits of efficiency ratings assigned to such employees. The jurisdiction of each board of review shall be specific and exclusive to that of any other such board.

§ 31.2 *Members.* (a) Each board of review shall be composed of a chairman designated by the Civil Service Commission, an employee member designated by election by employees in such manner as shall be determined by the Commission, and a department member designated by authority of the head of the department or agency concerned. One or more alternate members shall be provided for each member, each alternate being designated in the same manner as his principal. Members and alternate members of boards of review shall be designated for two year terms expiring June 30, but may continue to serve until their successors are installed: *Provided*, That they may complete any case ready for decision or in process of oral hearing.

(b) All members and alternate members of boards of review serving agencies in the Executive branch of the Federal government shall be officers or employees of the Executive branch. All members and alternate members of boards of review (except chairmen and alternate chairmen) serving agencies not in the Executive branch shall be designated from the branch of government to which such agencies respectively belong.

§ 31.3 *Appeals.* Each appeal from an efficiency rating shall be submitted in writing to the chairman of the appropriate board of review within 30 days after the date the employee received notice of his rating. Boards of review may waive this requirement for good and sufficient reasons.

§ 31.4 *Hearings.* Information necessary to determine the merits of appealed efficiency ratings shall be presented at oral hearings conducted by the board of review: *Provided*, That the board, with the consent of the appellant, may proceed to a consideration of the appeal without oral hearing on the basis of written information submitted by the parties. The Chairman or an alternate chairman of the board of review shall preside at oral hearings and rule upon all questions arising during such hearings. At oral hearings, the person whose rating is under consideration and his representative, and such representatives of the department or agency as are designated under the authority of the head thereof, shall have an opportunity to be present. In any case, each party shall have an opportunity to submit any information the board of review deems pertinent, and to hear and examine, and reply to, other information received by such board. The record of any prior review of an efficiency rating under consideration shall be deemed to be pertinent by the board of review. A stenographic report of an oral hearing shall be required only when it is determined by the unanimous vote of the board that it is necessary to the best interests of the Government and the employee.

§ 31.5 *Decisions.* After ascertaining the pertinent facts in each case, the board of review shall proceed to determine such increase in the efficiency rating as it deems proper, or sustain the appealed efficiency rating without change. Decisions shall be made by a majority vote. Notices of decisions shall be in writing, shall be sent to the appellants, to the representatives of the

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

[Tangerine Reg. 77]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.409 *Tangerine Regulation 77*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR and Supps. Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committee established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective date.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., November 22, 1948, and ending at 12:01 a. m., e. s. t., November 29, 1948, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, which grade U. S. No. 2, U. S. No. 2 Russet, U. S. No. 3, or lower than U. S. No. 3 grade; or

(ii) Any tangerines, grown in the State of Florida, which are of a size smaller than the size that will pack 210 tangerines, packed in accordance with the requirements of a standard pack, in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches; capacity 1,726 cubic inches).

(2) As used in this section, "handler" and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order; and "U. S. No. 2," "U. S. No. 2 Russet," "U. S. No. 3," and "standard pack" shall each have the same meaning as is given to the respective term in the United States Standards for Tangerines (13 F. R. 4790). (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

(i) Any grapefruit of any variety, grown in the State of Florida, which grade U. S. No. 2 Russet, or lower than U. S. No. 2 Russet;

(ii) Any seeded grapefruit, other than pink grapefruit, grown in the State of Florida which are of a size smaller than a size that will pack 70 grapefruit, packed

in accordance with the requirements of a standard pack, in a standard nailed box;

(iii) Any pink seeded grapefruit grown in the State of Florida which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(iv) Any seedless grapefruit of any variety, grown in the State of Florida, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, "handler" and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order; and the terms "U. S. No. 2 Russet," "standard pack," and "standard nailed box" shall each have the same meaning as when used in the United States Standards for Grapefruit (13 F. R. 4787). (48 Stat. 31, as amended; 7 U. [Lemon Reg. 300, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR, Cum. Supp., 953.1 et seq.; 13 F. R. 766), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule-making procedure (60 Stat. 237; 5 U. S. C. and Sup. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient; and this amendment relieves restrictions on the handling of lemons grown in the State of California or in the State of Arizona.

Order, as amended. The provisions in paragraph (b) (1) of § 953.407 (Lemon Regulation 300, 13 F. R. 6675), are hereby amended to read as follows:

(1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., November 14, 1948, and ending at 12:01 a. m., P. s. t., November 21, 1948, is hereby fixed as follows:

(i) District 1: 270 carloads;

(ii) District 2: 5 carloads.

(48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 18th day of November 1948.

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.408 *Lemon Regulation 301*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR, Cum. Supp., 953.1 et seq.; 13 F. R. 766), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective date.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., November 21, 1948 and ending at 12:01 a. m., P. s. t., November 28, 1948 is hereby fixed as follows:

(i) District 1: 253 carloads;

(ii) District 2: 7 carloads.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," and "District 2" shall have the same meaning as is given to each such term in the said amended marketing agreement and order. (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.401 *Orange Regulation 255*—(a) *Findings.* (1) Pursuant to the provisions of Order No. 66 (7 CFR, Cum. Supp., 966.1 et seq.) regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective date.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., November 21, 1948 and ending at 12:01 a. m., P. s. t., November 28, 1948 is hereby fixed as follows:

(i) *Valencia oranges.* (a) Prorate District 1: No movement; (b) Prorate District No. 2: Unlimited movement; (c) Prorate District No. 3: No movement.

(ii) *Oranges other than Valencia oranges.* (a) Prorate District No. 1: 700 carloads; (b) Prorate District No. 2: No movement; (c) Prorate District No. 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as is given to each such term in § 966.107 (11 F. R. 10258) of the rules and regulations contained in this part. (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 19th day of November 1948.

[SEAL] M. W. BAKER,
Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

TITLE 20—EMPLOYEES' BENEFITS

Chapter III—Social Security Administration (Old-Age and Survivors Insurance), Federal Security Agency

[Regs. 3, Amdt.]

PART 403—FEDERAL OLD-AGE AND SURVIVORS INSURANCE

LUMP-SUM DEATH PAYMENTS

Regulations No. 3, as amended (20 CFR, 1947 Sup., 403.1 et seq.), are further amended as follows:

1. Section 403.408 (b) (2) is amended to read as follows:

§ 403.408 *Lump-sum death payments.* • • •

(b) *Persons entitled to receive payments.* • • •

(2) *Persons equitably entitled.* If there is no such person as is described in the applicable subdivisions under subparagraph (1) of this paragraph, or if such person dies before receiving payment, the lump sum will be payable to any person or persons, equitably entitled thereto, to the extent and in the proportions that he or they shall have paid the burial expenses of the deceased insured individual. The term "person or persons equitably entitled" does not include, among others, any of the following:

(i) The United States Government or any wholly owned instrumentality thereof.

(ii) Any person under contractual obligation to pay the burial expenses of the deceased, to the extent of such obligation.

(iii) Any person paying the expenses of the burial of a member or employee of such person, to the extent of any payment under a plan, system, or general practice.

(iv) Any person furnishing goods or services in connection with the burial of the deceased, to the extent that goods or services are furnished.

(v) Any person who has been, or will be, wholly or partially reimbursed, to the extent of such reimbursement.

(vi) Any individual who has been finally convicted by a court of competent jurisdiction of the felonious homicide of the deceased (see § 403.409).

2. Section 403.408 (b) is further amended by adding after subparagraph (2) new subparagraphs (3), (4), (5), and (6) to read as follows:

(3) *Payment of lump sum to equitably entitled estate.* (i) Where an estate is a person equitably entitled payment will be made to the legal representative of such estate.

(ii) When it appears reasonably certain that a legal representative has not been and will not be appointed, or where the legal representative has been discharged, application may be filed by a relative of the wage earner by blood, marriage, or adoption and payment may be made to such applicant on behalf of the estate if the requirements of subparagraphs (4) and (5) of this paragraph are met.

(4) *Consent of relatives to payment.* (i) Payment of the lump sum may be made as provided in subparagraph (3) (ii) of this paragraph if consents to such payment are obtained from the wage earner's spouse, if readily available, and from all readily available members of the group of relatives closest in kinship to the wage earner, as determined by the following groupings:

(a) Children and children of deceased children;

(b) Parents;

(c) Brothers and sisters and children of deceased brothers and sisters;

(d) All other relatives by blood or adoption, the closeness of relationship being determined according to the law of the wage earner's domicile.

(ii) No consents will be required under this subparagraph in any case where the amount due the estate, if divided equally among the applicant and each of the relatives from whom consents would normally be required, would result in a payment to each such person of $15 or less.

(5) *Agreement to distribute.* Payment of the lump sum may be made as provided in subparagraph (3) (ii) of this paragraph if the applicant promises to distribute the payment to the person or persons entitled thereto under applicable State law and to account therefor to a legal representative if one should be appointed.

(6) *Payment where individual paying burial expenses dies before collecting lump sum.* Where an individual who has paid the wage earner's burial expenses dies before collecting the lump sum, payment may be made on behalf of his estate as in the case where burial expenses were paid from funds belonging to the estate of the wage earner, except that the deceased individual's spouse may be preferred as payee on behalf of the estate in which event consents as required by subparagraph (4) of this paragraph need not be obtained from any other relative of the deceased individual.

3. Section 403.701 (c) (2) is amended to read as follows:

§ 403.701 *Filing of application and other forms.* • • •

(c) *Persons who may execute applications.* • • •

(2) If, however, the applicant (regardless of his age) has a legally appointed guardian, committee, or other legal representative, the application shall be executed by such guardian, committee, or representative. For authority to file application on behalf of an estate which is equitably entitled see § 403.408 (b) (3).

PART 403—FEDERAL OLD-AGE AND SURVIVORS INSURANCE

MAGAZINES AND NEWS VENDORS' SERVICES

Regulations No. 3, as amended (12 F. R. 608) are further amended as follows:

1. Subparagraph (15), paragraph (b), of section 209 of the act as contained in Subpart H preceding § 403.801 is amended to read as follows:

SECTION 209 OF THE ACT

(b) • • •

(15) Service performed by an individual under the age of eighteen in the delivery or distribution of newspapers or shopping news, not including delivery or distribution to any point for subsequent delivery or distribution [for amendment to section 209 (b) (15) by Public Law 492 see below]; or

2. The following statutory provisions are added immediately preceding § 403.801:

SECTION 1 OF PUBLIC LAW 492 (80TH CONGRESS), ENACTED APRIL 20, 1948

That (a) section 209 (b) (15) of the Social Security Act, as amended (U. S. C., 1940 edition, Supp. V, title 42, section 409 (b) (15)), • • •, [is] hereby amended to read as follows:

(15) (A) Service performed by an individual under the age of eighteen in the delivery or distribution of newspapers or shopping news, not including delivery or distribution to any point for subsequent delivery or distribution;

(B) Service performed by an individual in, and at the time of, the sale of newspapers or magazines are to be sold by him at a fixed an arrangement under which the newspapers or magazines are to be sold by him at a fixed price his compensation being based on the retention of the excess of such price over the amount at which the newspapers or magazines are charged to him, whether or not he is guaranteed a minimum amount of compensation for such service, or is entitled to be credited with the unsold newspapers or magazines turned back; or

(b) The amendment made by subsection (a) to section 209 (b) (15) of the Social Security Act shall be applicable with respect to service performed after the date of the enactment of this Act • • •.

3. The statutory provisions immediately preceding § 403.826 are amended to read as follows:

SECTION 209 (B) (15) OF THE ACT

The term "employment" mean • • • any service, of whatever nature, performed after December 31, 1939, by an employee for the person employing him • • • except:

(15) (A) Service performed by an individual under the age of eighteen in the delivery or distribution of newspapers or shopping news, not including delivery or distribution to any point for subsequent delivery or distribution;

(B) Service performed by an individual in, and at the time of, the sale of newspapers or magazines to ultimate consumers, under an arrangement under which the newspapers or magazines are to be sold by him at a fixed price his compensation being based on the retention of the excess of such price over the amount at which the newspapers or magazines are charged to him, whether or not he is guaranteed a minimum amount of compensation for such service, or is entitled to be credited with the unsold newspapers or magazines turned back; or [The amendment made by section 1 of Public Law 492 (80th Congress) redesignated paragraph (15) as subparagraph (A) of paragraph (15) and added subparagraph (B) which shall be applicable with respect to services performed after April 20, 1948, the date of the enactment of that Act.]

4. Section 403.826 is amended to read as follows:

§ 403.826 *Delivery and distribution of newspapers, shopping news, and magazines*—(a) *In general.* Subparagraph (A) of section 209 (b) (15) of the act, as amended by section 1 of Public Law 492, 80th Congress, enacted April 20, 1948, excepts certain services performed by an employee under the age of 18 in the delivery or distribution of newspapers or shopping news. This exception, which is dealt with in paragraph (b) of this section, continues without change the exception contained in section 209 (b) (15), as added by section 201 of the Social Security Act Amendments of 1939. Subparagraph (B) of section 209 (b) (15), added by section 1 of Public Law 492, excepts certain services in the sale of newspapers and magazines without regard to the age of the individual performing the services. Such exception is dealt with in paragraph (c) of this section. The exception in subparagraph (A) is applicable with respect to services performed after December 31, 1939. The exception in subparagraph (B) is applicable only with respect to services performed after April 20, 1948.

(b) *Services of individuals under age 18.* Services performed by an employee under the age of 18 in the delivery or distribution of newspapers or shopping news, not including delivery or distribution (as, for example, by a regional distributor) to any point for subsequent delivery or distribution, are excepted. Thus, the services performed by an employee under the age of 18 in making house-to-house delivery or sale of newspapers or shopping news, including handbills and other similar types of advertising material, are excepted. The services are excepted irrespective of the form or method of compensation. Incidental services by the employee who makes the house-to-house delivery, such as services in assembling newspapers, are considered to be within the exception. The exception continues only during the time that the employee is under the age of 18.

(c) *Services of individuals of any age.* Services performed by an employee in, and at the time of, the sale of newspapers or magazines to ultimate consumers under an arrangement under which the newspapers or magazines are to be sold by him at a fixed price, his compensation being based on the retention of the excess of such price over the amount at which the newspapers or magazines are charged to him, are excepted. The services are excepted whether or not the employee is guaranteed a minimum amount of compensation for such services, or is entitled to be credited with the unsold newspapers or magazines turned back. Moreover, the services are excepted without regard to the age of the employee. Services performed other than at the time of sale to the ultimate consumer are not within the exception. Thus, the services of a regional distributor which are antecedent to but not immediately part of the sale to the ultimate consumer are not within the exception. However, incidental services by the employee who makes the sale to the ultimate consumer, such as services in assembling newspapers or in taking newspapers or magazines to the place of sale, are considered to be within the exception.

(Sec. 205 (a), 53 Stat. 1368, sec. 1102, 49 Stat. 647; 42 U. S. C. 405 (a), 1302; sec. 4, Reorg. Plan No. 2 of 1946, 11 F. R. 7873; 45 CFR, 1946 Supp., 121)

TITLE 25—INDIANS

Chapter I—Office of Indian Affairs, Department of the Interior

Subchapter T—Patents in Fee, Competency Certificates, Sales and Reinvestment of Proceeds

PART 243—DETERMINATION OF COMPETENCY; CROW INDIANS

Sec.
243.1 Purpose of regulations.
243.2 Organization of committee.
243.3 Application and examination.
243.4 Application form.
243.5 Information.
243.6 Factors determining competency.
243.7 Submission of reports.
243.8 Approval of committee action and right of appeal.
243.9 Special instructions.

AUTHORITY: §§ 243.1 to 243.9 issued under sec. 12, 41 Stat. 755, Chap. 414, 46 Stat. 1495.

§ 243.1 *Purpose of regulations.* The regulations in this part govern the procedures of the committee of three members appointed by the Secretary of the Interior in accordance with section 12 of the act of June 4, 1920 (41 Stat. 755-6), and the act of March 3, 1931 (46 Stat. 1495, Chap. 414), to determine the competency of adult members of the Crow Tribe.

§ 243.2 *Organization of committee.* The members of the committee shall meet at the Crow Indian Agency office at a time agreed upon by them and shall select one of their members as Chairman, who shall establish the times and places when the committee shall meet to consider applications from adult members of the Crow Tribe.

§ 243.3 *Application and examination.* The committee shall, upon the application of any adult member of the Crow Tribe whose name appears on the incompetency roll established under the act of June 4, 1920, determine whether such person is competent. The application must be mailed to or filed with the committee on or before January 31, 1949, at the Crow Indian Agency office, Crow Agency, Montana. The committee may request that an applicant appear before the committee for examination.

§ 243.4 *Application form.* The application form shall be prescribed by the committee and shall include, among other things: (a) The name of the applicant; (b) his age, residence, degree of Indian blood, and education; (c) his experience in farming, cattle raising, business, or other occupation (including home-making); (d) his present occupation, if any; (e) a statement concerning the applicant's financial status, including his average earned and unearned income for the last two years from restricted leases and from other sources, and his outstanding indebtedness to the United States, to the tribe, or to others; (f) a description of his property and its value, including his allotted and inherited lands; and (g) the name of the applicant's spouse, if any, and the names of his minor children, if any, together with a statement regarding the land, allotted and inherited, held by each.

§ 243.5 *Information.* The Superintendent of the Crow Indian Agency shall, upon request, furnish to the committee such other information as he may deem to be essential or helpful to a determination of the competency of any applicant.

§ 243.6 *Factors determining competency.* Among the matters to be considered by the committee are the amount of the applicant's indebtedness to the tribe, to the United States Government, and to others; whether he is a public charge or a charge on friends and relatives, or will become such a charge, by reason of being classed as competent; and whether the applicant has demonstrated that he possesses the ability to take care of himself and his property, to protect the interests of himself and his family, to lease his land and collect the rentals therefrom, to lease the land of his minor children, to prescribe in lease agreements those provisions which will protect the land from deterioration through over-grazing and other improper practices, and to assume full responsibility for obtaining compliance with the terms of any lease.

§ 243.7 *Submission of reports.* (a) A report on each application, giving the determination of the committee as to the competency or incompetency of the applicant, shall be prepared and signed by the committee. If there is a difference of opinion among the members of the committee as to whether the applicant is competent or incompetent, both the majority and minority members shall state in the report the reasons for their respective views.

(b) All applications and reports of the committee thereon shall be submitted through the Regional Director of the Bureau of Indian Affairs at Billings for his recommendation to the Commissioner of Indian Affairs. Such submissions shall be completed on or before April 30, 1949.

§ 243.8 *Approval of committee action and right of appeal.* The determination of the committee shall be subject in each instance to approval by the Commissioner of Indian Affairs, with the right of appeal from the Commissioner's decision to the Secretary of the Interior. Such appeal must be made within 30 days from the date of notice to the applicant of the decision of the Commissioner of Indian Affairs.

§ 243.9 *Special instructions.* Special instructions for carrying out these regulations may be prescribed by the Commissioner of Indian Affairs.

WILLIAM E. WARNE,
Assistant Secretary of the Interior.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5669]

PART 185—WAREHOUSING OF DISTILLED SPIRITS

MISCELLANEOUS AMENDMENTS

1. On September 9, 1948, notice of proposed rule making, regarding the warehousing of distilled spirits, was published in the FEDERAL REGISTER (13 F. R. 5239).

2. After consideration of all such relevant matter as was presented by interested persons regarding the proposal, the following amendments of §§ 185.9, 185.10, 185.28, 185.78, 185.79, 185.81, 185.82, 185.83, 185.88, 185.89, 185.96, 185.97, 185.99, and 185.231 of Regulations 10 (26 CFR, Part 185), approved May 20, 1940, are hereby adopted.

3. These amendments are designed to simplify requirements relating to (1) construction and equipment and changes therein, (2) alternate operation of bottling departments of internal revenue bonded warehouses for bottling distilled spirits in bond and bottling after removal from bond, and (3) the preparation and filing of qualifying documents, and for other purposes. It is not intended by these amendments to require warehousemen to file additional plats and plans, or to change equipment, immediately, in cases where the existing documents and equipment conform essentially to the regulations prior to these amendments. Upon filing new plats and plans and installing new equipment, these new requirements must be observed.

§ 185.9 *Walls.* The walls of warehouse buildings or rooms must be securely and substantially constructed. If wood, corrugated iron or tin is used, the same must be applied over solid sheathing for the first 12 feet of height and over solid sheathing or sheathing spaced not greater than 12 inches from board to board for the remaining height. Where substantial sheet metal is used and the sheets are welded together in such a manner as to constitute a solid wall, sheathing, if used, may be applied in any manner desired. (Secs. 2873, 3176, I. R. C.)

§ 185.10 *Roofs.* The roofs of warehouse buildings must be securely and substantially constructed. Where corrugated iron or tin is used, the same must be applied over sheathing spaced not greater than 12 inches from board to board. Where substantial sheet metal is used and the sheets are welded together in such manner as to constitute a solid roof, sheathing, if used, may be applied in any manner desired. (Secs. 2873, 3176, I. R. C.)

§ 185.28 *Construction of weighing tanks.* Weighing tanks provided for weighing distilled spirits in an internal revenue bonded warehouse shall be constructed of metal and shall be stationary and of uniform dimensions from top to bottom, and each such tank shall be equipped with a suitable measuring device whereby the contents will be correctly indicated. Each weighing tank shall be mounted on accurate scales and shall have plainly and legibly painted thereon the words, "Weighing Tank," followed by its serial number and capacity in wine gallons. The beams or dials of weighing tank scales must indicate weight in 5-pound graduations for scales up to and including 25 tons capacity, in 10-pound graduations for scales exceeding 25 tons capacity but not exceeding 60 tons capacity and in 20-pound graduations for scales having a capacity of more than 60 tons. The inlet and outlet pipe connections of each weighing tank must be fitted with valves so constructed that they can be secured with Government locks, and any other openings in such tanks must also be so constructed that they can be closed and similarly locked. (Secs. 2873, 3176, I. R. C.)

§ 185.78 *Preparation.* Every plat and plan shall be drawn to scale and each sheet thereof shall bear a distinctive title, and the complete name and address of the proprietor, enabling ready identification. The cardinal points of the compass must appear on each sheet, except those of elevational plans. The minimum scale of any plat will not be less than 1/50 inch per foot. Each sheet of the original plat and plans shall be numbered, the first sheet being designated number 1, and the other sheets numbered in consecutive order. Plats and plans shall be submitted on sheets of tracing cloth, opaque cloth or sensitized linen. The dimensions of plats and plans shall be 15 by 20 inches, outside measurement, with a clear margin of at least 1 inch on each side of the drawing, lettering, and writing. Plats and plans may be original drawings, or reproductions made by the "ditto process," or by blue or brown line lithoprint, if such reproductions are clear and distinct. (Secs. 2873, 3176, I. R. C.)

§ 185.79 *Depiction of warehouse premises.* Plats must show the outer boundaries of the warehouse premises by courses and distances, in feet and inches, in a color contrasting with those used for other drawings on the plat, and the point of beginning with respect to its distance and bearings from some near and well-known landmark must be shown. The plat must also contain an accurate depiction of the building or buildings comprising the premises and any driveway, public highway or railroad right-of-way adjacent thereto or connecting therewith. The depiction of the premises on the plat should agree with the description thereof in the application, Form 27-D. If the premises are separated by a public highway or railroad right-of-way, and the tracts of land comprising the premises, or parts thereof, abut on such highway or right-of-way opposite each other, the different tracts will be depicted separately by courses and distances, in feet and inches, and outlined in a color contrasting with those used for other drawings on the plat. If two or more buildings are to be used, they must be shown in their relative positions and the alphabetical designation of each indicated. If the warehouse consists of a room or floor of a building, an outline of the building, the precise location and the dimensions of the room or floor, and the means of ingress from and egress to a public street or yard, shall be shown. All first floor exterior doors of each building will be shown on the plat. Except as provided in § 185.87, all pipe lines leading to or from the premises, the purpose for which used, and the points of origin and termination, will be indicated on the plat. (Secs. 2873, 3176, I. R. C.)

§ 185.81 *Floor plans.* The plans shall include a floor plan of each floor of each building, showing the general dimensions of the rooms and floors and the location of all doors, windows, and other openings and how such openings are protected. If the construction of all floors in a single building is identical, a typical floor plan may be filed in lieu of a separate plan for each floor. All storage tanks, weighing tanks, and other tanks used in connection with the receipt, storage, withdrawal, or bottling of distilled spirits, must be shown in their exact location on the floor plans, and their designated use, serial numbers, and capacity indicated. Other equipment of a permanent nature and all areas occupied by racks intended for storage of packages shall be shown. Pipe lines may also be shown, if desired. (Secs. 2873, 3176, I. R. C.)

§ 185.82 *Elevational flow diagrams.* Elevational flow diagrams (plans) shall be submitted covering the flow of spirits from the time of receipt on the premises, the deposit in storage tanks and the removal therefrom. Such diagrams shall clearly depict all equipment in its relative operating sequence and elevation by floors with all connecting pipe lines, valves, flanges, measuring devices and attachments for Government locks. The elevation by floors on the diagrams may be indicated by horizontal lines representing floor levels. All major equipment such as storage tanks and weighing tanks must be identified on these plans as to number and use. The elevational flow diagram must be so drawn that all fixed pipe lines, except those indicated by § 185.87, may be readily traced from beginning to end. Other types of drawings that clearly depict the information required herein may be submitted in compliance with this section. (Secs. 2873, 3176, I. R. C.)

§ 185.83 *Elevational plans of buildings.* The plans shall also include an exterior, elevational view of each exposure of each building or room, showing the type of security afforded the openings. The number of stories and the height of each story will be indicated on the elevational plans. In lieu of drawings, the warehouseman may submit a photograph of each exposure of each building in a size not smaller than 7 by 9 inches. The photographs must be in sufficient detail to clearly depict the buildings from the ground to the roof and must be properly identified. Where photographs are submitted, drawings must be furnished to show the security afforded openings within 12 feet of the ground: *Provided*, That in lieu of such drawings, the photographs may be noted to show the type of security afforded the openings by reference to the appropriate sheet of plans on file, whereon such information is shown. (Secs. 2873, 3176, I. R. C.)

§ 185.88 *Certificate of accuracy.* The plat and plans shall bear a certificate of accuracy in the lower right hand corner of each sheet signed by the proprietor, the draftsman and the district supervisor substantially in the following form:

(Name of warehouseman)

(Address)
Accuracy certified by:

(Name and capacity—for the proprietor)

(Draftsman)
---------- 19--- Sheet No.---
Approved ----------
(Date)

(District supervisor)
IRBW No. ----

(Secs. 2873, 3176, I. R. C.)

§ 185.89 *Revised plats and plans.* The sheets of revised plats and plans shall bear the same number as the sheets superseded but will be given a new date. Any additional plats and plans shall be given a new number in consecutive order or will be otherwise numbered and lettered in such manner as will permit the filing of the plats and plans in proper sequence. (Secs. 2873, 3176, I. R. C.)

§ 185.96 *Changes in premises.* Where the premises are to be extended or curtailed, the proprietor must file with the district supervisor an amended application, Form 27-D, and an amended plat of the premises as extended or curtailed except as herein specifically authorized in the case of alternate operations of the bottling department. If the plans are affected by the extension or curtailment, they must also be amended. The additional premises covered by an extension may not be used for bonded warehouse purposes, and the portion of the warehouse premises to be excluded by curtailment may not be used for other than warehouse purposes, prior to approval of the application, Form 27-D, plat and plans if required, filed in connection therewith. Where an internal revenue bonded warehouse contains a bottling-in-bond department, and the documents required by Regulations 6 (26 CFR, Part 188), governing the alternate operation of a bottling house as a bottling-in-bond department and a tax-paid bottling house are filed, and no change in proprietorship is involved, the filing of additional applications, Form 27-D, covering changes in the temporary status thereof from time to time, will not be required. Where a warehouse building on distillery premises on which a lien for taxes has attached under section 2800 (e), I. R. C., is demolished or altered, the provisions of Regulations 4 and 5 (26 CFR, Parts 183 and 184) relative to the filing of indemnity bonds will be followed. (Secs. 2873, 3176, I. R. C.)

§ 185.97 *Changes in construction and use.* Where a change is to be made in the construction of a room or building not involving an extension or curtailment of the warehouse premises, or where a change is to be made in the use of any portion of such premises, the proprietor shall first secure approval thereof by the district supervisor pursuant to application, in triplicate, setting forth specifically the proposed changes. Upon approval of the application, the changes will be made under the supervision of a Government officer. The completed changes will be reflected in the next amended application, Form 27-D, and

amended plans filed by the warehouseman, unless the district supervisor requires the immediate filing of an amended application and amended plans. (Secs. 2873, 3176, I. R. C.)

§ 185.99 *Amended notice and plans covering changes in equipment.* Upon completion of changes in equipment which materially affect the accuracy of the Form 27–D or plans, the proprietor must file an amended notice and amended plans. Where an amended notice and amended plans are not filed immediately upon completion of minor changes in equipment (such as general repairs, changes in pipe lines, or the addition or removal of a tank), the proprietor must include such changes in the next amended application and plans filed by him: *Provided*, That the Commissioner or the district supervisor may, at any time, in his discretion, require the immediate filing of an amended application and plans covering any change in equipment. (Secs. 2873, 3176, I. R. C.)

§ 185.231 *Rate of tax.* The law imposes a tax on distilled spirits produced in, or imported into, the United States, at the rate prescribed therein, on each proof gallon, or wine gallon when below proof, and a proportionate tax at a like rate on all fractional parts of such proof or wine gallon, to be paid when withdrawn from bond. (Secs. 2800 (a), 3176, I. R. C.)

(53 Stat. 298, as amended, 332, 375; 26 U. S. C. 2800 (a), 2873, 3176)

PART 188—BOTTLING OF DISTILLED SPIRITS (OTHER THAN ALCOHOL) IN BOND

MISCELLANEOUS AMENDMENTS

1. On August 12, 1948, notice of proposed rule making, regarding the bottling of distilled spirits in bond, was published in the FEDERAL REGISTER (13 F. R. 4677).

2. After consideration of all such relevant matter as was presented by interested persons regarding the proposal, the following amendments of §§ 188.18, 188.30, 188.31, 188.32, 188.33, 188.34, 188.54, 188.97, 188.115, 188.124, and 188.126 of Regulations 6 (26 CFR, Part 188), approved September 19, 1940, are hereby adopted.

3. These amendments are designed to provide standard graduations for beams of weighing tanks; to simplify requirements relating to the alternate operations of bottling departments of internal revenue bonded warehouses for bottling distilled spirits in bond and bottling distilled spirits after removal from bond; to provide for the bottling of different lots of distilled spirits in bond at the same time, under certain conditions; to allow warehousemen to bottle distilled spirits of any distiller's production in bond under a trade name of the warehouseman, if the warehouseman has produced and warehoused spirits in such trade name; and to facilitate the procurement of stamps. It is not the purpose of the amendments to require the installation of additional weighing tanks where such weighing tanks conform with the regulations prior to these amendments.

§ 188.18 *Weighing tanks.* Where weighing tanks are used for dumping, reducing, or bottling spirits, such tanks shall be constructed of metal and shall be stationary and of uniform dimensions from top to bottom, and each such tank shall be equipped with a suitable measuring device whereby the contents will be correctly indicated. Each weighing tank shall be mounted on accurate scales and shall have plainly and legibly painted thereon the words "Weighing tank," in addition to its designated use, serial number and capacity in wine gallons in accordance with the provisions of § 188.16 or § 188.17, as the case may be. The beams or dials of weighing tank scales must indicate weight in 5-pound graduations for scales up to and including 25 tons capacity, in 10-pound graduations for scales exceeding 25 tons capacity but not exceeding 60 tons capacity and in 20-pound graduations for scales having a capacity of more than 60 tons. (Secs. 2829, 2903, 2904, 3176, I. R. C.)

§ 188.30 *Basic qualification required.* The bottling-in-bond department of an internal revenue bonded warehouse may be operated alternately for bottling distilled spirits in bond under the regulations in this part and bottling distilled spirits after removal from bond, in accordance with Regulations 11 (26 CFR, Part 189). The basic qualification for the establishment of each premises shall be in accordance with applicable provisions of Regulations 10 (26 CFR, Part 185), Regulations 4 and 5 (26 CFR, Parts 183 and 184), where applicable, and Regulations 11 (26 CFR, Part 189). Where it is proposed to operate an established bottling-in-bond department temporarily as a tax-paid bottling house, it will be necessary to file (a) qualifying documents curtailing the bonded premises to exclude the bottling department, (b) qualifying documents establishing the tax-paid bottling house, and (c) a blanket consent of surety, Form 1533, by the principal and surety, extending the terms of bond, Form 1571, to cover the alternate use of the bottling-in-bond department as a tax-paid bottling house. Such blanket consent may be executed in the following form:

To continue in effect the said bond notwithstanding the exclusion of the bottling-in-bond department from time to time for use temporarily as a tax-paid bottling house in accordance with notice, Form 404, filed by the principal.

The basic qualifying documents having once been filed by the proprietor and approved by the Commissioner, the operating status of the bottling department, that is, for bottling in bond or temporarily as tax-paid bottling, shall be approved by the district supervisor on Form 404 in accordance with § 188.32. (Secs. 2871, 2904, 3170, 3176, 4041, I. R. C.)

§ 188.31 *Approval required before resumption.* When it is desired to resume operations of the bottling-in-bond department following the suspension of operations as a tax-paid bottling house, authority therefor must be obtained from the district supervisor on Form 404 before actual resumption of operations. (Secs. 2903, 2904, 3176, I. R. C.)

§ 188.32 *Procedure*—(a) *Suspension.* Where the proprietor of an internal revenue bonded warehouse desires to suspend operations of his bottling-in-bond department in order that it may be operated temporarily as a tax-paid bottling house, he must complete the bottling of all spirits and remove such bottled spirits from the bottling-in-bond department and upon suspension of the bottling-in-bond department, comply with the following requirements:

(1) *Notice, Form 404.* File with the district supervisor Form 404, "Bottling-in-Bond Notice," in triplicate, for authority to suspend bottling-in-bond operations and to use the premises temporarily as a tax-paid bottling house. The form shall be executed in accordance with the instructions printed thereon and disposed of in accordance with § 188.38.

(2) *Communicating doors to be closed.* Close and lock, and keep locked, the communicating doors (if any) between the bottling-in-bond department and the storage portion of the warehouse, in accordance with § 188.6.

(b) *Resumption.* Where the premises have been operated temporarily as a tax-paid bottling house and the proprietor desires to resume operations thereof as a bottling-in-bond department of the internal revenue bonded warehouse, he must comply with the following requirements:

(1) *Notice, Form 404.* File with the district supervisor Form 404, in triplicate, for authority to suspend tax-paid bottling house operations and resume bottling-in-bond operations. The form shall be executed in accordance with instructions printed thereon and disposed of in accordance with § 188.38.

(2) *Completion of bottling.* Complete all bottling of spirits and remove such spirits from the tax-paid bottling house prior to suspension of operations. (Secs. 2871, 2904, 3170, 3176, 4041, I. R. C.)

§ 188.33 *General.* The proprietor must bottle distilled spirits in bond under his real name or the trade name in which the warehouse is operated: *Provided*, That if the proprietor is also a distiller and has produced and warehoused spirits under a trade name, he may, under such trade name, bottle such spirits, and spirits produced by other distillers, upon compliance with the following requirements:

(a) *Permit.* The bottler must be in possession of a Federal Alcohol Administration Act basic permit authorizing the bottling and labeling of distilled spirits under the trade name.

* * * * *

§ 188.34 *Procedure applicable.* The provisions of Regulations 10 (26 CFR, Part 185), respecting action by the district supervisor and Commissioner, respectively, in connection with the establishment, and changes subsequent to establishment, of internal revenue bonded warehouses, are applicable to bottling-in-bond departments of such warehouses: *Provided*, That the district supervisor may, upon the filing of the documents required by §§ 188.30 and 188.32, authorize the change from bottling in bond to tax-paid bottling and vice versa. (Secs. 2871, 2904, 3170, 3176, 4041, I. R. C.)

§ 188.54 *Spirits in process of bottling.* Tax-paid and untax-paid spirits, or spirits bottled for export and spirits bottled for domestic purposes, may not be in the bottling-in-bond department at the same time.

(a) *Single bottling room.* Where the bottling-in-bond department consists of a single bottling room, spirits of two or more distillers, spirits of two or more seasons' or years' production, spirits produced by the same distiller in two or more trade names, or at different distilleries by the same distiller, or two or more kinds of spirits, may not be in the process of bottling in the same bottling room of the bottling-in-bond department at the same time: *Provided*, That where one lot of spirits is in the process of bottling, another lot, or lots, may be dumped and reduced and held in locked tanks until the process of bottling of the first lot has been completed. The process of bottling will be regarded as complete for the purpose of this section when the bottled spirits have been placed in the cases and the cases closed: *Provided further*, That the proprietor shall not dump more spirits than can be bottled expeditiously.

(b) *Exception.* The restriction in paragraph (a) of this section against having two or more lots of different spirits in process of bottling in the same bottling room at the same time, shall not apply where two or more complete bottling units are installed, and bottling operations are so conducted as to prevent any commingling of different lots of spirits in process of bottling. (Secs. 2903, 2904, 3176, I. R. C.)

§ 188.97 *Shipment of stamps.* Where the stamps are to be shipped, the collector will forward the stamps to the storekeeper-gauger named on the Form 403 by registered mail or express. The expense of forwarding the stamps will be borne by the proprietor. The collector may furnish the stamps directly to the proprietor for immediate delivery to the storekeeper-gauger in accordance with § 188.96. The storekeeper-gauger will enter on Form 1606 all bottled-in-bond stamps received from the collector. All stamps in the custody of the storekeeper-gauger will be kept by him in the Government cabinet. (Secs. 2903, 2904, 3176, I. R. C.)

§ 188.115 *Supervision required.* All rebottling, relabeling, and restamping of spirits must be conducted in a bottling-in-bond department under the supervision of a storekeeper-gauger: *Provided*, That the district supervisor may authorize the relabeling or restamping of spirits in an internal revenue bonded warehouse not having a bottling-in-bond department where space and facilities for such activities are available. Spirits of two or more distillers, or spirits produced at different distilleries, or produced under two or more trade names by the same distiller, or of different seasons' or years' production or bottling, may not be reconditioned at the same time, and rebottling operations must be conducted at a time when no other spirits are in the process of bottling. (Sec. 3176, I. R. C.)

§ 188.124 *Qualification of proprietor.* Whenever the proprietor desires to bottle or label distilled spirits under a trade name, he must procure approval of such name in the manner prescribed by § 188.33 prior to bottling or labeling spirits under such name. (Secs. 2903, 2904, 3176, I. R. C.)

§ 188.126 *Bottling.* Before bottling distilled spirits in bond under an approved trade name, the proprietor will execute Form 1515, "Application to Bottle Distilled Spirits in Bond," in triplicate, in accordance with § 188.100, and show in the appropriate place on the form the name under which the spirits are to be bottled. (Secs. 2903, 2904, 3176, I. R. C.)

(53 Stat. 318, 331, 342, as amended, 343, 373, as amended, 375, 495; 26 U. S. C. 2829, 2871, 2903, 2904, 3170, 3176, 4041)

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

NAVIGABLE WATERS IN NEW YORK AND TRIBUTARIES

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), §§ 203.153, 203.154, 203.155, 203.160, 203.165, 203.167, 203.170, 203.173, 203.175, 203.180, 203.185, 203.190, 203.195, 203.197, and 203.205 are hereby revoked, and §§ 203.155, 203.160, 203.165, 203.170, 203.175, 203.180, 203.185, and 203.190 are substituted therefor, as follows:

§ 203.155 *Hutchinson River, N. Y.; bridges.* (a) The owners of or agencies controlling these drawbridges shall provide the appliances and personnel necessary for the safe, prompt, and efficient operation of the draws.

(b) The bridges shall be opened promptly at any time, day or night, when the prescribed signal is given by an approaching vessel which cannot pass under the closed draw.

(c) *Signals*—(1) *Call signals for opening of draw*—(i) *Sound signals.* By vessels of the United States or of the City of New York, four distinct blasts of a whistle, horn, or megaphone, or four loud and distinct strokes of a bell, and by all other vessels, three distinct blasts of a whistle, horn, or megaphone, or three loud and distinct strokes of a bell, sounded within reasonable hearing distance of the bridge.

(ii) *Visual signals.* To be used in conjunction with sound signals when conditions are such that sound signals may not be heard. A white flag by day, a white light by night, swung in full circles at arm's length in full sight of the bridge and facing the draw.

(2) *Acknowledging signals by the bridge operator*—(i) *Sound signals.* Draw to be opened immediately: Same as call signal. Draw cannot be opened immediately or, if open, must be closed immediately: Two long distinct blasts of a whistle, horn, or megaphone, or two loud and distinct strokes of a bell, to be repeated at regular intervals until acknowledged by the vessel.

(ii) *Visual signals.* To be used in conjunction with sound signals when conditions are such that sound signals may not be heard. Draw to be opened immediately: A white flag by day, a green light by night, swung up and down vertically a number of times in full sight of the vessel. Draw cannot be opened immediately or, if open, must be closed immediately: A red flag by day, a red light by night, swung to and fro horizontally in full sight of the vessel, to be repeated until acknowledged by the vessel.

(3) *Acknowledging signals by the vessel.* Vessels having signaled for the opening of the draw and having received a signal that the draw cannot be opened immediately or, if open, must be closed immediately, shall acknowledge such signal by one long blast followed by one short blast, or by swinging to and fro horizontally a red flag by day or a red light by night.

(d) Trains, automobiles, trucks, other vehicles, and vessels shall not be stopped or operated in such manner as to hinder or delay the operation of the bridges, but all passage over drawspans or through draw openings shall be such as to expedite both land and water traffic.

(e) A copy of the regulations in this section shall be conspicuously posted on both the upstream and downstream sides of each bridge in such manner that it can be easily read at any time.

§ 203.160 *Harlem River, N. Y.; bridges.* (a) The drawbridges which leave a clear space, between the under sides thereof and the high water of spring tides, of 24 feet, shall not be opened except for vessels propelled by steam with or without vessels in tow; nor shall they be required to be opened at any times other than between 10:00 a. m. and 5:00 p. m.

(b) To the end that the draws of the bridges shall not be required to be opened or operated oftener than necessary between 10:00 a. m. and 5:00 p. m., the pilothouses, flagpoles, and smokestacks of all tugs propelled by steam, with or without vessels in tow, habitually using the river, shall not exceed 24 feet in height above the water line or, if exceeding that height, shall be reduced in height or hinged so that they can conveniently pass underneath the draws when closed.

(c) Any tug passing the draw of any of the bridges as often as once a day for 10 days of any month will be regarded as using the river "habitually" and shall conform to paragraph (b) of this section. A failure to comply with such requirement by any tug after one warning by the owner of or agency controlling any of the bridges shall be sufficient cause for a refusal to open the draw for the accommodation of such tug until such later time as may be convenient to the owner of or agency controlling the bridge.

(d) When a steam vessel wishes to pass a bridge within the time prescribed for opening the draw, it shall signify its intention by three blasts of the whistle. If the draw is ready to be opened, the signal shall be answered by three blasts of the whistle from the bridge; if the draw is not ready for opening, the signal shall be answered by two blasts from the bridge.

(e) The draw shall be opened with the least possible delay upon receiving the prescribed signal except when such signal is given to a railroad bridge five minutes or less before the scheduled arrival of an express passenger train. In such case the draw need not be opened until after the passage of the train unless the bridge tender has information that the train is delayed as much as five minutes.

(f) The draw of the low bridge at the mouth of Spuyten Duyvil Creek shall be opened at all times during the day and night when approached by boats desiring to pass it upon receiving the prescribed signal.

(g) Vessels owned, controlled, or employed by the United States or by the City of New York shall be passed without delay through the draw of any of the bridges at any time, day or night, after giving a signal of four blasts of the whistle.

§ 203.165 *Newton Creek, N. Y.*—(a) *City of New York highway bridge at Vernon Avenue.* The draw of this bridge shall be opened promptly, upon signal, for the passage of all vessels unable to pass under the closed bridge at any time, day or night, except on weekdays between 6:20 and 6:30 a. m., 7:20 and 7:30 a. m., 7:50 and 8:00 a. m., 8:20 and 8:30 a. m., 12:00 noon and 12:10 p. m., 12:50 and 1:00 p. m., 5:10 and 5:20 p. m., and 5:50 and 6:00 p. m.

(b) *City of New York highway bridge across East Branch at Grand Street.* The draw of this bridge shall be opened promptly, upon signal, for the passage of all vessels unable to pass under the closed bridge at any time, day or night, except between 7:30 and 8:30 a. m., 12:00 noon and 12:15 p. m., 12:45 and 1:00 p. m., and 4:30 and 5:30 p. m. on all days other than Sundays and holidays.

(c) *Signals.* Whenever a vessel unable to pass under either closed bridge approaches it, the signal of its desire for the draw to be opened shall be three blasts of a whistle or horn blown on the vessel. This signal shall be repeated at intervals until it is answered from the bridge. Upon receiving the signal from the vessel, the operator of the bridge, in case the draw can be opened immediately, shall reply by three blasts of a whistle or horn, or by three loud and distinct strokes of a bell. In case of accident to the machinery or other contingency necessitating delay in opening the draw, the signal from the vessel shall be answered by the operator of the bridge by two blasts of a whistle or horn or by two loud and distinct strokes of a bell.

§ 203.170 *Coney Island Creek, N. Y.; City of New York highway and trolley bridge at Stillwell Avenue.* (a) When a vessel which cannot pass the closed bridge has signified by three blasts of a whistle or horn its intention to pass, the draw shall be opened at any time, day or night, for the passage of the vessel.

(b) After the prescribed signal is given, the draw shall be opened as soon as practicable, but in no case shall the vessel be delayed over 10 minutes at the bridge.

(c) Automobiles, trucks, other vehicles, and vessels shall not be stopped or operated in such manner as to hinder or delay the operation of the bridge, but all passage over the drawspan or through the draw opening shall be such as to expedite both land and water traffic.

§ 203.175 *Jamaica Bay and connecting waterways, N. Y.*—(a) *City of New York highway bridge across Mill Basin on Belt Parkway.* On Sundays from May 15 to September 30, inclusive, and on Memorial Day, Independence Day, and Labor Day, the draw of this bridge shall not be required to open for the passage of vessels between 12:00 noon and 9:00 p. m. (e. d. s. t.): *Provided*, That during the period from two hours before to one hour after the time of predicted high tide for the locality the bridge shall be opened promptly upon proper signal for the passage of vessels unable to pass under the bridge: *Provided further*, That the draw shall be opened promptly at any time for the passage of vessels owned, controlled, or employed by the United States or by the City of New York.

NOTE: For the purpose of the regulations in this part, high tide at the bridge shall be deemed to occur 15 minutes later than the time of high tide for Sandy Hook as given in the tide tables for the United States, published by the United States Coast and Geodetic Survey, Department of Commerce. The time stated in the tables is Eastern Standard Time and one hour should be added thereto to convert to eastern daylight saving time.

(b) *City of New York highway bridges across North Channel (Grassy Bay) at Jamaica Bay Boulevard, Shellbank Basin at Nolins Avenue, and Hawtree Basin at Nolins Avenue.* (1) On Sundays, holidays, and between 6:00 p. m. and 6:00 a. m., the draws of these bridges shall not be required to open for the passage of vessels: *Provided*, That the draws shall be opened promptly at any time for the passage of vessels owned, controlled, or employed by the United States or by the City of New York when operators are present, and when operators are not required to be present the draws shall be opened for the passage of such vessels with the least possible delay upon receipt of verbal or written notice: *Provided further*, That the draws shall be opened for the passage of other vessels unable to pass under a closed bridge on Sundays, holidays, or between 6:00 p. m. and 6:00 a. m., if at least 24 hours' advance notice of the time the opening is required is given, by telephone or otherwise, to the authorized representative of the owner of or agency controlling the bridge. In addition to the posting of a copy of the regulations, required by paragraph (h) of this section, a notice shall be conspicuously posted on both the upstream and downstream sides of these bridges in such manner that it can be easily read at any time stating exactly how the authorized representative may be reached.

(2) When two or more vessels are approaching from opposite directions and intend to pass a bridge, each vessel shall signal for the opening of the draw as prescribed in paragraph (f) of this section. The vessel running with the current shall have the right of way. At slack tide the vessel running in ebb current direction shall have the right of way. When vessels are approaching the bridge from the same direction each vessel shall signal independently for the opening of the draw and shall be navigated in accordance with the applicable pilot rules.

(c) *Long Island Railroad bridge across Broad Channel at Broad Channel Station.* The draw of this bridge shall not be required to open for the passage of vessels between 7:00 and 9:00 a. m. and 5:00 and 7:00 p. m.

(d) *City of New York highway bridge across Beach Channel at Jamaica Bay Boulevard.* On Sundays and holidays from May 15 to September 15, inclusive, the draw of this bridge shall not be required to open for the passage of vessels between 12:00 noon and 9:00 p. m.: *Provided*, That during the period from two hours before to one hour after the time of predicted high tide for the locality the bridge shall be opened promptly upon proper signal for the passage of vessels unable to pass under the bridge: *Provided further*, That the draw shall be opened promptly at any time for the passage of vessels owned, controlled, or employed by the United States or by the City of New York.

NOTE: For the purpose of the regulations in this part, high tide at the bridge shall be deemed to occur 35 minutes later than the time of high tide for Sandy Hook as given in the tide tables for the United States, published by the United States Coast and Geodetic Survey, Department of Commerce.

(e) The owners of or agencies controlling the bridges shall provide the appliances and the personnel necessary for the safe, prompt, and efficient operation of the draws. Except as otherwise provided in paragraphs (a) to (d) of this section, the draws shall be opened promptly when the prescribed signal for the opening of a draw is received from an approaching vessel which cannot pass under the closed bridge.

(f) *Signals*—(1) *Call signals for opening of draw*—(i) *Sound signals.* By vessels of the United States or of the City of New York, four distinct blasts of a whistle, horn, or megaphone, or four loud and distinct strokes of a bell, and by all other vessels, three distinct blasts of a whistle, horn, or megaphone, or three loud and distinct strokes of a bell, sounded within reasonable hearing distance of the bridge.

(ii) *Visual signals.* To be used in conjunction with sound signals when conditions are such that sound signals may not be heard. A white flag by day, a white light by night, swung in full circles at arm's length in full sight of the bridge and facing the draw.

(2) *Acknowledging signals by the bridge operator* — (i) *Sound signals.* Draw to be opened immediately: Same as call signal. Draw cannot be opened immediately or, if open, must be closed immediately: Two long distinct blasts of a whistle, horn, or megaphone, or two loud and distinct strokes of a bell, to be repeated at regular intervals until acknowledged by the vessel.

(ii) *Visual signals.* To be used in conjunction with sound signals when conditions are such that sound signals may not be heard. Draw to be opened immediately: A white flag by day, a green light by night, swung up and down vertically a number of times in full sight of the vessel. Draw cannot be opened immediately or, if open, must be closed immediately: A red flag by day, a red light by night, swung to and fro horizontally in full sight of the vessel, to be repeated until acknowledged by the vessel.

(3) *Acknowledging signals by the vessel.* Vessels having signaled for the opening of the draw and having received a signal that the draw cannot be opened immediately or, if open, must be closed immediately, shall acknowledge such signal by one long blast followed by one short blast, or by swinging to and fro horizontally a red flag by day or a red light by night.

(g) Trains, automobiles, trucks, other vehicles, and vessels shall not be stopped or operated in such manner as to hinder or delay the operation of the bridges, but all passage over drawspans or through draw openings shall be such as to expedite both land and water traffic.

(h) A copy of the regulations in this section shall be conspicuously posted on both the upstream and downstream sides of each bridge in such manner that it can be easily read at any time.

§ 203.180 *Long Island Intracoastal Waterway; Nassau County highway bridges across Reynolds Channel at Long Beach and Atlantic Beach, N. Y.* (a) The owner of or agency controlling these bridges shall provide the appliances and the personnel necessary for the safe, prompt, and efficient operation of the draws.

(b) Except as provided in paragraph (c) of this section, the draws shall be opened promptly when the prescribed signal for the opening of the draw is received from an approaching vessel which cannot pass under the closed draw.

(c) (1) *Atlantic Beach Bridge.* From May 15 to September 30, inclusive, of each year, on Saturdays and Sundays, and on Memorial Day, Independence Day, and Labor Day between 11:00 a. m. and 9:00 p. m., and on weekdays between 4:00 p. m. and 7:00 p. m., openings of the draw will be made, only if necessary, every half-hour on the hour and on the half-hour: *Provided*, That during the period from two hours before to one hour after the time of predicted high tide the bridge shall be opened promptly upon proper signal for the passage of vessels unable to pass under the closed draw: *Provided further*, That the draw shall be opened promptly at any time for the passage of vessels owned, controlled, or employed by the United States. The time specified is eastern daylight saving time or eastern standard time, whichever is in force.

NOTE: For the purpose of the regulations in this part, predicted high tide shall be deemed to occur ten minutes earlier than the time of predicted high tide for Sandy Hook as given in the tide tables for the United States published by the United States Coast and Geodetic Survey, Department of Commerce. The time stated in the tables is eastern standard time, and one hour should be added to convert to eastern daylight saving time.

(2) *Long Beach Bridge.* From May 15 to September 30, inclusive, of each

year, on Saturdays and Sundays and on Memorial Day, Independence Day, and Labor Day between 3:01 p. m. and 7:59 p. m., openings of the draw will be made, only if necessary, every half-hour on the hour and on the half-hour: *Provided*, That the draw shall be opened promptly at any time for the passage of vessels owned, controlled, or employed by the United States. The time specified is eastern daylight saving time or eastern standard time, whichever is in force.

(d) *Signals*—(1) *Call signals for opening of draw*—(i) *Sound signals.* By vessels owned, controlled, or employed by the United States, four distinct blasts of a whistle, horn, or megaphone, or four loud and distinct strokes of a bell, and by all other vessels, three distinct blasts of a whistle, horn, or megaphone, or three loud and distinct strokes of a bell, sounded within reasonable hearing distance of the bridge.

(ii) *Visual signals.* To be used in conjunction with sound signals when conditions are such that sound signals may not be heard. A white flag by day, a white light by night, swung in full circles at arm's length in full sight of the bridge and facing the draw.

(2) *Acknowledging signals by the bridge operator*—(i) *Sound signals.* Draw to be opened immediately: Same as call signal. Draw cannot be opened immediately or, if open, must be closed immediately: Two long distinct blasts of a whistle, horn, or megaphone, or two loud and distinct strokes of a bell, to be repeated at regular intervals until acknowledged by the vessel.

(ii) *Visual signals.* To be used in conjunction with sound signals when conditions are such that sound signals may not be heard. Draw to be opened immediately: A white flag by day, a green light by night, swung up and down vertically a number of times in full sight of the vessel. Draw cannot be opened immediately or, if open, must be closed immediately: A red flag by day, a red light by night, swung to and fro horizontally in full sight of the vessel, to be repeated until acknowledged by the vessel.

(3) *Acknowledging signals by the vessel.* Vessels having signaled for the opening of the draw and having received a signal that the draw cannot be opened immediately or, if open, must be closed immediately, shall acknowledge such signal by one long blast followed by one short blast, or by swinging to and fro horizontally a red flag by day or a red light by night.

(e) Automobiles, trucks, other vehicles, and vessels shall not be stopped or operated in such manner as to hinder or delay the operation of the bridges, but all passage over drawspans or through draw openings shall be such as to expedite both land and water traffic.

(f) The owner of or agency controlling the bridges shall provide and keep in good legible condition on each bridge two board gauges painted white, with black figures not less than eight inches high, to indicate the minimum headroom clearance under the closed drawspan at all stages of the tide. The gauges shall be so placed on each bridge that they will be plainly visible to the operator of a vessel approaching the bridge either upstream or downstream.

(g) The bridges shall not be required to open for craft carrying appurtenances unessential for navigation which extend above the normal superstructure. Military masts shall be considered as part of the normal superstructure.

NOTE: Upon request, the District Engineer, Corps of Engineers, will cause inspection to be made of the superstructure and appurtenances of any craft habitually frequenting the waterway with a view to adjusting any differences of opinion in this matter between the vessel owner and the bridge owner.

(h) A copy of the regulations in this section shall be conspicuously posted on both the upstream and downstream sides of each bridge in such manner that it can be easily read at any time.

§ 203.185 *Hudson River, N. Y.; bridges at Albany and Troy.* (a) The draw of each of the bridges below the head of tidewater shall be opened promptly at any time, upon receiving the prescribed signal, for the passage of any vessel which cannot pass under the closed draw: *Provided*, That The Delaware & Hudson Railroad Corporation bridge at Troy need not be opened between 6:00 p. m. and 6:00 a. m. unless notice has been given before 6:00 p. m. of the time a vessel may be expected to pass through.

(b) The draw of any bridge shall not be required to remain open for the passage of vessels for a period longer, consecutively, than 15 minutes. Upon being closed it may remain closed for a time sufficient to allow delayed land traffic to pass, but in no case for a period longer, consecutively, than 10 minutes if a vessel desires to pass, unless at the expiration of such period a train in motion having passed the derailing point is approaching the draw, which train shall be permitted to pass before opening of the draw: *Provided*, That no train shall be stopped on the bridge between the derailing points except in a case of great emergency, after which the draw shall be opened promptly for any vessel desiring to pass: *Provided further*, That these limitations shall not apply to any vessel of more than 500 tons burden, to any tug with a tow on a hawser, to single tows which require longer than 15 minutes to pass through the draw, or to vessels downbound during a freshet whose height exceeds an elevation determined upon by the District Engineer, Corps of Engineers.

(c) The length of time that a draw has been opened shall be computed from the time that the drawspan begins to move in opening, and the length of time that a draw has been closed shall be computed from the time that the drawspan ceases to move in closing.

(d) Vessels with tows shall not so approach a bridge as to attempt to pass the draw in succession without interval. They shall arrange their approach so as to cause no delay in closing the draw promptly for the relief of land traffic.

(e) The draw of a bridge shall not be required to be opened for the passage of vessels habitually using the river which have stacks, jack staffs, or flagstaffs exceeding 21 feet in height above the water line and which are otherwise capable of clearing the bridge when closed. If such vessels wish to pass the bridge the stacks, jack staffs, or flagstaffs must be so erected that they may be lowered to permit the passage under the bridge. Any tug or vessel passing the draw of a bridge as often as once a day for 10 consecutive days of any month shall be regarded as using the river habitually within the meaning of this paragraph. A failure to comply with such requirement by any tug or vessel after one warning by the owner of or agency controlling any of the bridges shall be sufficient cause for a refusal to open the draw for the accommodation of such tug or vessel until such later time as may be convenient to the owner of or agency controlling the bridge.

(f) Vessels which are owned or controlled by the United States or by the police or fire departments of any of the neighboring cities or villages shall be passed without delay through the draws of any of the bridges on identification of such vessels.

(g) *Signals*—(1) *Call signals for opening of draw.* By vessels bound north: Three long blasts of the whistle or horn. By vessels bound south: Three long blasts followed by one short blast of the whistle or horn. If a vessel desires to pass through more than one bridge the call signal shall be repeated for each bridge. Private signals of towing or steamboat companies which may be mistaken by a bridge tender for call signals shall not be used.

NOTE: As used in the regulations in this part, the term "long blast" means a blast of five seconds' duration, and the term "short blast" means a blast of one second's duration.

(2) *Acknowledging signals by the bridge operator*—(i) *All bridges.* If the draw is to be opened, three long blasts of a whistle or horn. If the draw cannot be opened in time for the vessel to pass through safely, five short blasts of a whistle or horn.

(ii) *Additional visible signals to be displayed by the bridges at Albany.* The day signal shall be displayed at least 15 feet above the fixed day signal at the middle point of the drawspan and so as to be visible from both sides of the bridge. The night signal shall be displayed at least 15 feet above the fixed light at the center of the draw. The "fixed" signals referred to are those required by the regulations for lighting bridges prescribed by the United States Coast Guard (see 33 CFR, Part 403). By day, if the draw is to be opened, the visible signal shall be a round ball not less than three feet in diameter and painted green, and if the draw is not to be opened, the visible signal shall be a lattice-work barrel-shaped sign five feet six inches high and four feet in diameter and painted red. By night, if the draw is to be opened, the visible signal shall be a green light from a standard marine lamp, and if the draw is not to be opened, the visible signal shall be a red light from a standard marine lamp.

§ 203.190 *Navigable waters in the State of New York and their tributaries; bridges where constant attendance of draw tenders is not required.* (a) The owners of or agencies controlling the bridges listed in paragraph (f) of this section will not be required to keep draw tenders in constant attendance.

(b) Whenever a vessel unable to pass under a closed bridge desires to pass through the draw, advance notice, as specified, of the time the opening is required shall be given to the authorized representative of the owner of or agency controlling the bridge.

(c) Upon receipt of such advance notice, the authorized representative of the owner of or agency controlling the bridge, in compliance therewith, shall arrange for the prompt opening of the draw at the time specified in the notice for the passage of the vessel.

(d) The owners of or agencies controlling the bridges shall keep conspicuously posted on both the upstream and downstream sides thereof, in such manner that it can easily be read at any time, a copy of the regulations in this section together with a notice stating exactly how the representative specified in paragraph (b) of this section may be reached.

(e) The operating machinery of the draws shall be maintained in a serviceable condition, and the draws shall be opened and closed at intervals frequent enough to make certain that the machinery is in proper order for satisfactory operation.

(f) The bridges to which this section applies, and the regulations applicable in each case, are as follows:

Arm of Eastchester Bay; City of New York highway bridge between Rodman Neck and City Island. At least 24 hours' advance notice required.

Bronx River; New York, New Haven and Hartford Railroad Company bridge north of Westchester Avenue. At least 24 hours' advance notice required.

Flushing Creek; City of New York highway and rapid transit bridge at Roosevelt Avenue. At least 24 hours' advance notice required: *Provided*, That the draw shall be opened for the passage of vessels owned, controlled, or employed by the United States or by the City of New York at any time, day or night, upon reasonable advance notice. The draw need not be opened for the passage of vessels, other than vessels owned, controlled, or employed by the United States or by the City of New York, between 7:30 a. m. and 9:30 a. m. and between 4:30 p. m. and 6:30 p. m., or for the passage of tug boats, with or without vessels in tow, habitually passing the bridge, which exceed 24 feet in height above the water line, at any time. Any tug passing the bridge once a day for 10 days in any 30-day period will be regarded as habitually passing the bridge. Failure to conform to the height specified by any tug after one warning in writing by the owner of or agency controlling the bridge shall be sufficient cause for refusal to open the draw for the passage of such tug until such time as may be convenient to the owner of or agency controlling the bridge.

Richmond Creek; City of New York highway bridge at Richmond Avenue, Staten Island. At least 24 hours' advance notice required.

Peekskill (Annsville) Creek; New York Central Railroad Company bridge near Peekskill, N. Y. At least 30 days' advance notice, in writing, required. Openings will not be required on Saturdays, Sundays, and holidays, consisting of New Year's Day, Lincoln's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Election Day, Armistice Day, Thanksgiving Day, and Christmas Day, or on the days preceding and following such holidays. Openings will be between 11:00 a. m. and 2:00 p. m. except that for vessels owned, controlled, or employed by the United States, by the State of New York, or by any political subdivision thereof, the bridge shall be opened at any time, day or night, upon 96 hours' advance notice. Openings shall not be required more than twice in any 30-day period for a vessel that can pass under the bridge at low tide or the construction of which can be altered at reasonable expense so that it can pass under the bridge at low tide; unless the vessel is owned, controlled, or employed by the United States, by the State of New York, or by political subdivision thereof.

Lake Champlain; Vermont Department of Highways bridge across Alburg Passage, between Alburg Tongue and North Hero Island, at South Alburg, Vt. At least one hour's advance notice required.

Lake Champlain; Vermont Department of Highways bridge across entrance to Missisquoi Bay, between Alburg Tongue and Hog Island, at East Alburg, Vt. At least 24 hours' advance notice required.

TITLE 42—PUBLIC HEALTH

Chapter I—Public Health Service, Federal Security Agency

PART 72—INTERSTATE QUARANTINE

GARBAGE DISPOSAL AND RAILWAY CONVEYANCES; FOOD HANDLING FACILITIES

Notice of proposed rule making and public rule-making proceedings have been omitted in the issuance of the following amendments to §§ 72.142 and 72.151 of this Part. Notice and rule making proceedings have been found to be unnecessary because the sole purpose of the amendments is to remove restrictions and eliminate requirements now in effect.

1. Section 72.142 is amended to read as follows:

§ 72.142 *Garbage disposal.* (a) Water-tight, readily cleanable, non-absorbent containers with close-fitting covers shall be used to receive and store garbage.

(b) Can washing and draining facilities shall be provided.

(c) Garbage cans shall be emptied daily and shall be thoroughly washed before being returned for use.

2. Section 72.151 is amended to read as follows:

§ 72.151 *Railway conveyances; food handling facilities.* (a) Both kitchens and pantries of cars hereafter constructed or reconstruted shall be equipped with double sinks, one of which shall be of sufficient size and depth to permit complete immersion of a basket of dishes during bactericidal treatment; in the pantry a dishwashing machine may be substituted for the double sinks. If chemicals are used for bactericidal treatment, 3-compartment sinks shall be provided.

(b) A sink shall be provided for washing and handling cracked ice used in food or drink and shall be used for no other purpose.

(c) Toilet and lavatory facilities for the exclusive use of the dining car employees shall be provided on each train.

(d) Wherever toilet and lavatory facilities required by paragraph (c) of this section are not on the dining car, a lavatory shall be provided on the dining car for the use of the employees. The lavatory shall be conveniently located and used only for the purpose for which it is installed.

(Sec. 361, 58 Stat. 703; 42 U. S. C. 264)

Effective date. The foregoing amendments shall become effective on the date of their publication in the FEDERAL REGISTER.

[SEAL] LEONARD A. SCHEELE,
Surgeon General.

Approved: November 15, 1948.

TITLE 43—PUBLIC LANDS: INTERIOR

Subtitle A—Office of the Secretary of the Interior

PART 5—FILMING OF MOTION OR SOUND PICTURES ON AREAS UNDER THE JURISDICTION OF THE DEPARTMENT OF THE INTERIOR

FEES

Section 5.4 is amended to read as follows:

§ 5.4 *Fees.* In the areas described in § 5.3, there shall be charges for the taking of motion pictures (including sound pictures) involving professional casts, technical crews, livestock, or sets, as follows:

(a) *On areas administered by the Bureau of Reclamation, the Fish and Wildlife Service, and the Bureau of Land Management.* (1) For filming operations not involving the use of livestock, the charge shall be in accordance with the following schedule:

Charge per day or fraction thereof:	*Number of persons in cast*
$10	0
$10	1 to 5
$25	6 to 25
$50	26 to 75
$75	76 to 150
$100	More than 150

The charge prescribed in this subparagraph shall be made only for days or fractions thereof on which there are actual filming operations. The construction of sets in advance of filming, and cleaning up after the filming has been completed, shall not be regarded as actual filming operations for the purpose of such computation.

(2) In addition to the charge prescribed in subparagraph (1) of this paragraph, there shall be a charge of 25 cents

per day per head for all horses, mules, cattle, sheep, and goats while on the land.

(b) *On areas administered by the National Park Service.* No fee will be imposed for filming operations, provided the permittee gives credit in an appropriate courtesy title to the National Park Service, Department of the Interior, and to the area in which the scenes are photographed, for any photographed scenes used. The regular general admission and other fees for each person, vehicle, etc., to any area administered by the National Park Service are not affected by this paragraph. R. PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Bureau of Animal Industry

[9 CFR, Parts 101–122]

VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS, AND TO CERTAIN ORGANISMS AND VECTORS

NOTICE OF PROPOSED REVISION OF REGULATIONS

Notice is hereby given, in accordance with section 4 (a) of the Administrative Procedure Act (5 U. S. C. 1003 (a)), that the Secretary of Agriculture is considering revising the regulations relating to viruses, serums, toxins, and analogous products and certain organisms and vectors (9 CFR, Cum., 1945, and 1947 Supps. Parts 101 through 122) under the Virus-Serum-Toxin Act of March 4, 1913 (21 U. S. C. 151–158) and section 2 of the act of February 2, 1903, as amended (21 U. S. C. 111). The purpose of the revision is to clarify, to extend in a few particulars, and to consolidate into one document the present regulations and instructions issued under the Virus-Serum-Toxin Act and section 2 of the act of February 2, 1903. The new regulations will reflect practices that have developed through experience in dealing with problems of production and importation of viruses, serums, toxins and analogous products and importation and transportation of organisms and vectors, during the formative period of the industry. It is proposed to issue the new regulations to read as follows:

Subchapter E—Viruses, Serums, Toxins, and Analogous Products; Organisms and Vectors

PART 101—GENERAL PROVISIONS

§ 101.1 *Definitions.* The following words, when used in the regulations in Parts 101 through 122 of this subchapter, shall be construed, respectively, to mean:

(a) *Virus-Serum-Toxin Act.* The act of Congress of March 4, 1913, 37 Stat. 832–833, 21 U. S. C. 151–158.

(b) *Regulations.* The provisions in Parts 101 through 122 of this subchapter.

(c) *Biological products.* All viruses, serums, toxins, and analogous products, such as antitoxins, vaccines, tuberculins, malleins, live microorganisms, killed microorganisms, and products of microorganisms, intended for use in the treatment of domestic animals, including the diagnosis or detection of diseases of such animals.

(d) *Organisms.* All cultures or collections of organisms or their derivatives, which may introduce or disseminate any contagious or infectious disease of animals (including poultry).

(e) *Vectors.* All animals (including poultry) such as mice, pigeons, guinea pigs, rats, ferrets, rabbits, chickens, dogs, and the like, which have been treated or inoculated with organisms, or which are diseased or infected with any contagious, infectious, or communicable disease of animals or poultry or which have been exposed to any such disease.

(f) *Domestic animals.* Domestic animals, including poultry.

(g) *Department.* The United States Department of Agriculture.

(h) *Secretary.* The Secretary of the Department or any officer or employee of the Department to whom authority has heretofore lawfully been delegated, or may hereafter lawfully be delegated, to act in his stead.

(i) *Bureau.* The Bureau of Animal Industry of the Department.

(j) *Chief.* The Chief of the Bureau or any officer or employee of the Bureau to whom authority has heretofore lawfully been delegated, or may hereafter lawfully be delegated, to act in his stead.

(k) *Division.* The Virus-Serum Control Division of the Bureau.

(l) *Officer in charge of the Division.* The official in charge of the Division or any officer or employee of the Division to whom authority has heretofore lawfully been delegated, or may hereafter lawfully be delegated, to act in his stead.

(m) *Inspector.* Any officer or employee of the Bureau who is authorized by the Chief to do any inspection work of the Division.

(n) *Veterinary inspector.* A graduate of a veterinary college accredited by the Civil Service Commission, who is duly appointed and assigned for duty in the Division as a veterinary virus-serum inspector or veterinarian.

(o) *Virus-serum inspector.* A layman appointed and trained to assist a veterinary inspector in the performance of his duties.

(p) *Person.* Any individual, firm, partnership, corporation, company, society, association, or other organized group of any of the foregoing, or any agent, officer, or employee of any thereof.

(q) *Licensed establishment.* An establishment operated by a person holding an unexpired, unsuspended, and unrevoked license issued by the Secretary for the preparation of any biological product under the regulations.

(r) *Licensee.* A person to whom a license to manufacture biological products has been issued under the regulations.

(s) *Permittee.* A person to whom a permit to import or transport biological products or organisms or vectors has been issued under the regulations.

(t) *Official station.* One or more licensed establishments included under a single supervisory unit.

(u) *Inspector in charge.* The veterinary inspector who is assigned by the Chief to supervise and perform official work at an official station and who reports directly to the Chief.

(v) *Veterinary inspection.* An examination made by a veterinary inspector, assisted as needed by a virus-serum inspector, to determine the fitness of animals, establishments, facilities, and procedures used in connection with the preparation of biological products under the regulations.

(w) *Hog-cholera virus.* The clear serum, plasma, or defibrinated blood derived from pigs sick of hog cholera and free from other communicable disease or diseases.

(x) *Hyperimmunizing virus.* Virus prepared for injecting into immune hogs in the production of anti-hog-cholera serum.

(y) *Inoculating virus.* Virus prepared for injecting into pigs in the production of hog-cholera virus.

(z) *Simultaneous virus.* Virus prepared for injection along with anti-hog-cholera serum in the immunization of hogs against hog cholera.

(aa) *Anti-hog-cholera serum.* The clear serum, plasma, or other derivatives of hyperimmune blood containing the protective substances derived from immune hogs which have been hyperimmunized by intravenous injection with hog-cholera virus. Such serum shall consist of not less than 88 percent of true serum and not more than 12 percent of such solutions as are required for clarification of the blood and preservation of the serum. The completed product shall represent not more than 83 percent of the defibrinated hyperimmune blood or not more than 80.51 percent of the whole hyperimmune blood used in its preparation.

(bb) *Immediate or true container.* The unit, bottle, vial, ampul, tube, or other receptacle in which any biological product is customarily distributed.

(cc) *Batch.* The quantity of a biological product thoroughly mixed in a single container and properly identified. (For special definition of "batch" as used in § 119.23, see § 119.23 (a) (10) of this chapter.)

(dd) *Serial number.* The number given each batch of a biological product by the manufacturer to identify the batch with his records of production thereof.

(ee) *Expiration date.* The date placed upon labels affixed to or used in connection with immediate or true containers of biological products by manufacturers thereof to indicate the limit of time during which the manufacturer estimates said products will retain their full strength or potency, when properly stored and handled.

(ff) *"U. S. Released."* Term used in marking a biological product to show that it has been prepared and tested in accordance with the regulations and has been found not to be worthless, contaminated, dangerous, or harmful.

(gg) *Day.* Time elapsing between any regular working hour of one day and any regular working hour of the following day.

(hh) *"Bureau lock."* A Bureau lock or seal or both as the inspector in charge may require.

See also other definitions in § 119.23 of this chapter.

PART 102—LICENSES AND PERMITS TO IMPORT BIOLOGICAL PRODUCTS

LICENSES

SUSPENSION OR REVOCATION OF LICENSES AND PERMITS; NOTICES RE DANGEROUS PRODUCTS

102.51 Suspension or revocation of licenses and permits.
102.52 Notices re dangerous biological products.

ASSIGNMENT OF INSPECTORS AND FACILITIES

102.76 Inspections of licensed establishments.
102.77 Facilities.

LICENSES

§ 102.1 *Licenses required.* Every person operating an establishment in the United States in which any biological product is prepared for sale, barter, or exchange in the District of Columbia or in any Territory of, or place under the jurisdiction of, the United States, or for shipment or delivery for shipment from any State or Territory or the District of Columbia to any other State or Territory or the District of Columbia, shall hold an unexpired, unsuspended, and unrevoked license issued by the Secretary, and shall have inspection as provided by the regulations.

§ 102.2 *Biological products; preparing and handling.* All biological products produced in each licensed establishment shall be prepared, handled, stored, marked, received for transportation, and transported as required by the regulations.

§ 102.3 *License application.* (a) The operator of each establishment of the kind specified in § 102.1 shall make application in writing to the Secretary for a license. When a person conducts more than one establishment, a separate application shall be made for a license for each establishment. Whenever subsidiaries are to operate in an establishment for which license application is made, the applicant shall apply for permission for such subsidiaries to operate in the establishment and furnish therewith a complete statement regarding the relationship between the applicant and the subsidiaries. Blank forms of application will be furnished upon request to the Bureau of Animal Industry, Washington, D. C.

(b) Triplicate copies of plans, properly drawn to scale, and of specifications, including plumbing, drainage, and sewage disposal of establishments, together with information regarding all claims to be made on labels and in advertising matter to be used in connection with or relating to all biological products prepared therein, shall accompany the application for a license, unless such plans, specifications, and information have already been furnished.

(c) In case of change of ownership, operation, or location of an establishment while an application is pending, or after a license has been issued, a new application shall be made.

§ 102.4 *Licenses; issuance, number, and form.* (a) Before a license will be issued by the Secretary for any establishment, an inspection shall be made to determine whether the condition, equipment, facilities, and the like, of the establishment, and its methods of preparing, handling, and storing biological products are in conformity with the requirements of the regulations. A license will not be issued unless (1) in the opinion of the Chief, the condition of the establishment and the methods of preparation of biological products are such as reasonably to insure that the products will accomplish the object for which they are intended, and that they are not worthless, contaminated, dangerous, or harmful, (2) the establishment is to be operated under the direct supervision of a person competent, in the opinion of the Chief, by education and experience, to handle all matters pertaining to the disease involved and the preparation and testing of the biological products named in the application, and (3) written assurance is filed with the Bureau that the products for which the license is to be issued will not be so advertised as to mislead or deceive the purchaser and that the packages or containers in which the same are to be marketed will not bear any statement, design, or device which is false or misleading in any particular.

(b) Licenses shall be numbered and shall be in the following form:

UNITED STATES VETERINARY LICENSE NO. -----

BIOLOGICAL PRODUCTS

Washington, D. C., ----------

This is to certify that, pursuant to the terms of the act of Congress approved March 4, 1913 (37 Stat. 832), governing the preparation, sale, barter, exchange, shipment, and importation of viruses, serums, toxins, and analogous products intended for use in the treatment of domestic animals, ----------
is hereby licensed to maintain at ----------
an establishment for the preparation of -----.

This license is subject to termination as provided in the regulations made under the authority contained in said act, and to suspension or revocation if the licensee violates or fails to comply with said act or the regulations made thereunder.

Secretary of Agriculture

Countersigned:

Chief, Bureau of Animal Industry

(c) Two or more licenses may bear the same number when they are issued for establishments under the same ownership or control, provided a serial letter is added in each case to identify each license and the products produced thereunder.

(d) When a license is issued for an establishment it shall not apply to more than one person at the same location, except that subsidiaries of the licensee, when named in the license, may operate thereunder at the establishment named. The licensee with its subsidiaries will be held responsible for all operations conducted in the licensed establishment.

(e) As of November 1 of each year or whenever requested by the Chief, each licensee shall submit, through the office of the inspector in charge, a list of biological products with all their forms which are to be continued in production. Should the licensee discontinue production of some of the biological products named in his licenses, he shall return to the Division for termination all outstanding licenses covering such products, with a list of products with all their forms

which he will continue to produce. Whenever a number of licenses issued at different times are outstanding they shall be returned to the Chief at his request for consolidation.

(f) Every license outstanding on the effective date of the regulations which is in conflict therewith shall be returned for termination, with an application for a new license.

§ 102.5 *Biological products; preparation by another licensee.* No biological products authorized to be prepared in a licensed establishment shall be prepared in whole or in part by any other licensed establishment unless authorized in advance by the Chief.

§ 102.6 *Separation of establishments.* Each licensed establishment shall be separate and distinct from any unlicensed establishment in which any biological product is prepared or handled.

§ 102.7 *Special licenses.* Special licenses may be issued in particular cases for preparation of biological products for experimental or trial use in the treatment of domestic animals, under such conditions as may be imposed by the Chief and provided that safeguards ample in the opinion of the Chief are set up to protect the public and the livestock industry. Applicants for such licenses shall furnish all information required by the regulations and shall also agree to distribute the product only for such conditional, experimental, or trial use as may be authorized in the license.

§ 102.8 *Instructions to licensee; products not prepared under license.* When a license is issued, the inspector in charge shall furnish the licensee with a copy of the regulations. If the licensee, at the time the license is issued, has in the establishment any biological products which have not theretofore been prepared, and the containers of which have not theretofore been marked, in compliance with the regulations, the identity of the products shall be maintained, and they shall not be shipped or delivered for shipment from one State or Territory or the District of Columbia to another State or Territory or the District of Columbia, or otherwise dealt with as products prepared under the regulations. The licensee shall adopt and enforce all necessary measures and shall comply with all such directions as the Chief may prescribe for carrying out the regulations. It shall be the responsibility of the licensee, irrespective of Bureau supervision, so to prepare and test such biological product, as set forth in the regulations, that it will not be worthless, contaminated, dangerous, or harmful.

IMPORT PERMITS FOR BIOLOGICAL PRODUCTS

§ 102.26 *Import permits required.* Each person importing biological products shall hold an unexpired, unsuspended, and unrevoked permit issued by the Secretary.

§ 102.27 *Application for import permit; requirements.* (a) Each person desiring to import biological products shall make application in writing to the Secretary for a permit. The application shall specify the port or ports of entry at which the imported products will be cleared through the customs. Blank forms of application will be furnished upon request addressed to the Bureau of Animal Industry, Washington, D. C.

(b) Each application for a permit shall be accompanied by the affidavit of the actual manufacturer presented before an American consular officer, giving the name of the country, and the city, town or other location, where the biological products named therein are prepared, stating that said products are not worthless, contaminated, dangerous, or harmful, and stating whether the products were derived from animals, and, if so derived, the name of the species, and that such animals have not been exposed to any infectious or contagious disease, except as may have been essential in the preparation of the products and as specified in the affidavit.

(c) Each application for a permit shall be accompanied by the written consent of the actual manufacturer that properly accredited employees of the Department shall have the privilege of inspecting, without previous notification, and at such times as may be demanded by the aforesaid employees, all parts of the establishment at which such biological products were prepared, all processes of preparation, and all records relative to the preparation of such products.

(d) Each application for a permit shall be accompanied by information regarding all claims to be made on labels and in advertising matter used in connection with or related to the biological products to be imported, and a description of the methods of producing and testing the products used by the manufacturer. A permit will not be issued for the importation of any biological product unless written assurance is furnished that the product will not be so advertised as to mislead or deceive the purchaser, and that the package or container in which the same is intended to be sold, bartered, exchanged, shipped, or imported will bear or contain no statement, design, or device which is false or misleading in any particular, and unless the product meets the applicable requirements of the regulations in Part 112 of this chapter.

§ 102.28 *Import permits; number; form, and termination.* Permits shall be numbered and shall be in the following form:

UNITED STATES VETERINARY PERMIT NO. ------

BIOLOGICAL PRODUCTS

Washington, D. C., ---------

This is to certify that, pursuant to the terms of the act of Congress approved March 4, 1913 (37 Stat. 832), governing the preparation, sale, barter, exchange, shipment, and importation of viruses, serums, toxins, and analogous products intended for use in the treatment of domestic animals, ----------, ----------, State of ----------, is hereby authorized, so far as the jurisdiction of the United States Department of Agriculture is concerned, to import ---------- manufactured by ----------, of ----------, into the United States through the port of ---------- during the calendar year of ---------.

This permit is subject to suspension or revocation if the permittee violates or fails to comply with said act or the regulations made thereunder.

Secretary of Agriculture

Countersigned:

Chief, Bureau of Animal Industry

Each permit shall terminate at the end of the calendar year for which it is issued.

SUSPENSION OR REVOCATION OF LICENSES AND PERMITS, AND NOTICES RE DANGEROUS PRODUCTS

§ 102.51 *Suspension or revocation.* (a) A license or permit issued under the Virus-Serum-Toxin Act may be formally suspended or revoked after opportunity for hearing has been accorded the licensee or permittee as provided in Part 123 of this chapter, if the Secretary is satisfied that the license or permit is being used to facilitate or effect the preparation, sale, barter, exchange, shipment, or importation contrary to said act of any worthless, contaminated, dangerous, or harmful biological product. Such use may be found to exist if:

(1) The construction of the establishment in which the biological product is prepared is defective, or the establishment is not conducted as required by the regulations;

(2) The methods of preparation of the product are faulty, or the product contains impurities or lacks potency;

(3) The product is so labeled or advertised as to mislead or deceive the purchaser in any particular;

(4) The licensee or permittee has violated or failed to comply with any provision of the Virus-Serum-Toxin Act or the regulations;

(5) The license or permit is otherwise used to facilitate or effect the preparation, sale, barter, exchange, shipment, or importation, contrary to the Virus-Serum-Toxin Act, of any worthless, contaminated, dangerous, or harmful biological product.

(b) In case of wilfulness or where the public health, interest, or safety so requires, however, the Secretary may without hearing informally suspend such license or permit upon the grounds set forth in paragraph (a) of this section pending determination of formal proceedings under Part 123 of this chapter for suspension or revocation of the license or permit.

§ 102.52 *Notices re dangerous biological products.* If at any time it appears that the preparation, sale, barter, exchange, shipment, or importation, as provided in the Virus-Serum-Toxin Act, of any biological product by any person holding a license or permit may be dangerous in the treatment of domestic animals, the Secretary may without hearing notify the licensee or permittee, and pending determination of formal proceedings instituted under Part 123 of this chapter for suspension or revocation of the license or permit insofar as it authorizes the manufacture or importation of the particular product, no person so notified shall thereafter so prepare, sell, barter, exchange, ship, deliver for shipment, or import such product.

ASSIGNMENT OF INSPECTORS AND FACILITIES

§ 102.76 *Inspections of licensed establishments.* (a) Any inspector shall be permitted to enter any establishment licensed under the regulations at any hour during the day or night, and such inspector shall be permitted to inspect, without previous notification, the entire premises of the establishment, including all buildings, compartments, and other places, all biological products, and organisms and vectors in the establishment, and all equipment, such as chemicals, instruments, apparatus, and the like, and the methods used in the manufacture of, and all records maintained relative to, biological products at such establishment.

(b) Each inspector will be furnished with a numbered official badge, which he shall not allow to leave his possession. This badge shall be sufficient identification to entitle him to admittance at all regular entrances and to all parts of the licensed establishment and premises and to any place at any time for the purpose of making an inspection pursuant to paragraph (a) of this section.

§ 102.77 *Facilities.* When required by the Chief or the Inspector in charge, the following facilities, and such others as may be essential to efficient conduct of inspection, shall be provided in each licensed establishment.

(a) Satisfactory pens, equipment, and assistance for conducting tests required in accordance with the regulations in this subchapter;

(b) The following special facilities in establishments producing anti-hog-cholera serum and hog-cholera virus:

(1) Separate laboratory rooms for serum and virus,

(2) A separate room in which animals shall be washed and cleaned,

(3) A separate room in which animals shall be finally prepared for bleeding or hyperimmunizing,

(4) A separate room or adequate facilities for conducting autopsies,

(5) A separate room for preparation and mixing of biological products,

(6) A separate room for washing and sterilizing equipment,

(7) Clean cloths, which shall be kept damp when in use, to be used for covering virus pigs and final bleeders during all operations incident to the collection of blood, and

(8) Dust screens for all outside doors, openings, and unsealed windows;

(c) Suitable rooms and compartments in such places, and containers, and the like, in such numbers as may be necessary for holding biological products: *Provided*, That such rooms and compartments, and containers, and the like shall be capable of being secured under locks or seals furnished by the Bureau, and the keys of said locks shall not leave the custody of the inspectors;

(d) Suitable containers satisfactorily equipped for thoroughly mixing batches of all biological products; and

(e) Automatic recording thermometers or gages equipped for locking or sealing as provided in paragraph (c) of this section, and other thermometers which will register temperatures accurately and satisfactorily for use as required by the regulations.

PART 108—SANITATION AT LICENSED ESTABLISHMENTS

108.12 Rooms and equipment.
108.13 Hands and clothing.
108.14 Outer premises.
108.15 Flies and other vermin.
108.16 Carcasses, refuse materials, and biological products.
108.17 Smoking or expectorating, etc.

§ 108.1 *Remodeling and additions; plans and specifications.* Triplicate copies of plans properly drawn to scale, and of specifications, including plumbing and drainage, for remodeling licensed establishments and for new structures at licensed establishments shall be submitted to the Chief in advance of construction.

§ 108.2 *Stables and premises.* Stables or other premises for animals used in the production or testing of biological products at licensed establishments shall be properly ventilated and lighted, appropriately drained and guttered, and kept in sanitary condition.

§ 108.3 *Segregation of animals.* Animals infected with or exposed to any dangerous, infectious, contagious, or communicable disease shall be effectively segregated at licensed establishments.

§ 108.4 *Location of licensed establishments.* (a) Licensed establishments shall be so located and so constructed that disease will not spread therefrom, and suitable arrangements shall be made for the disposal of all refuse.

(b) Direct communication to licensed establishments shall not be maintained from public stockyards, abattoir pens, or other places in which animals are received or held for any purpose.

§ 108.5 *Precautions.* All biological products prepared at licensed establishments shall be prepared, handled, and distributed under the Virus-Serum-Toxin Act with due sanitary precautions, and all such biological products to be shipped or delivered under said act shall be securely packed.

§ 108.6 *Construction.* The floors, walls, ceilings, partitions, posts, doors, and all other parts of all structures at licensed establishments shall be of such material, construction, and finish as can be readily and thoroughly cleaned.

§ 108.7 *Dangerous organisms and products.* Rooms or compartments separate from the remainder of the establishment shall be provided at licensed establishments for preparing, handling, and storing virulent or dangerous organisms and products.

§ 108.8 *Light and ventilation.* All rooms and compartments at licensed establishments shall have abundant light and sufficient ventilation to insure sanitary and hygienic conditions.

§ 108.9 *Dressing rooms and other facilities.* (a) Each licensed establishment shall have dressing and toilet rooms and urinals sufficient in number, ample in size, conveniently located, properly ventilated, and meeting all requirements of the regulations as to sanitary construction and equipment. These rooms and facilities shall be separate from rooms and compartments in which any biological product is prepared, handled or stored.

(b) Each licensed establishment shall have modern lavatory accommodations, including running hot and cold water, soap, towels, and the like. These shall be so located in the establishments as to make them readily accessible to all persons handling biological products.

§ 108.10 *Drainage and plumbing.* There shall be an efficient drainage and plumbing system for each licensed establishment and premises thereof, and all drains and gutters shall be properly installed with approved traps and vents.

§ 108.11 *Water supply.* The supply of hot and cold water at licensed establishments shall be ample and clean. Adequate facilities shall be provided for the distribution of water in each establishment and for the washing of all containers, machinery, instruments, other equipment, and animals used in the preparation, handling, or storing of any biological product.

§ 108.12 *Rooms and equipment.* All rooms, compartments, and other places used in connection with the preparation, handling, or storing of any biological product at licensed establishments shall be of such material, construction, and design as can be readily and thoroughly cleaned. All containers, instruments, and other equipment shall be cleaned and sterilized and so handled thereafter as to afford protection from contamination. Containers, instruments, and other apparatus and equipment used for preparing, handling, or storing virulent or dangerous organisms or products shall not be used for handling, preparing, or storing other forms of biological products.

§ 108.13 *Hands and clothing.* (a) All employees of licensed establishments who handle biological products shall keep their hands and clothing clean. The hands of such employees shall not come in contact with any biological product or with any part of sterilized containers, instruments, or other equipment which may come in contact with such products.

(b) Caps, gowns, and other outer clothing worn by persons while handling any biological product shall be of clean, white material whenever practicable. All persons, immediately before entering the operating or laboratory rooms of a licensed establishment, shall change their outer clothing or effectively cover the same with gowns or other satisfactory garments.

§ 108.14 *Outer premises.* The outer premises of licensed establishments, embracing docks, driveways, approaches, yards, pens, chutes, and alleys, shall be drained properly and kept in a clean and orderly condition. No nuisance shall be allowed in any licensed establishment or on its premises.

§ 108.15 *Flies and other vermin.* Every practicable precaution shall be taken to keep licensed establishments free of flies, rats, mice, and other vermin. The accumulation, on the premises of an establishment, of any material in which flies or other vermin may breed is forbidden.

§ 108.16 *Carcasses, refuse materials, and biological products.* All parts of the carcasses of animals producing viruses, all other dead animals and parts and refuse, all materials unsatisfactory for production purposes, all biological products unsatisfactory for marketing, and all worthless, contaminated, dangerous, or harmful biological products, shall be incinerated or otherwise disposed of by licensees as may be required by the Chief.

§ 108.17 *Smoking or expectorating, etc.* Such practices as smoking in laboratories or expectorating on the floors of any room, compartment, or place in which biological products are prepared, handled, or stored at licensed establishments are prohibited.

PART 109—STERILIZATION AT LICENSED ESTABLISHMENTS

Sec.
109.1 Equipment and the like.
109.2 Sterilizers.

§ 109.1 *Equipment and the like.* (a) All containers, instruments, and other apparatus and equipment, before being used in preparing, handling, or storing biological products, at a licensed establishment, except as otherwise prescribed herein, shall be thoroughly sterilized by live steam at a temperature of at least 120° C. for not less than one-half hour, or by dry heat at a temperature of at least 160° C. for not less than one hour. If for any reason such methods of sterilization are impracticable, then a process known to be equally efficacious in destroying microorganisms and their spores may be substituted after approval by the Chief.

(b) Instruments which are found to be damaged by exposure to the degree of heat prescribed in this section, after having been thoroughly cleaned, may be sterilized by boiling for not less than 15 minutes, provided apparatus satisfactory to the inspector in charge is furnished for this purpose.

§ 109.2 *Sterilizers.* Steam and dry-heat sterilizers used in connection with the production of biological products at licensed establishments shall be equipped with automatic temperature-recording gages. Charts used on these gages shall be available at all times for examination by inspectors.

LABELS

§ 112.1 *Containers.* (a) Each immediate or true container of biological products prepared at a licensed establishment or imported by a licensee or permittee, in compliance with the regulations and found not to be worthless, contaminated, dangerous, or harmful, shall be labeled as provided in this part.

(b) No container of any biological product which has not been so prepared and found not to be worthless, contaminated, dangerous, or harmful shall bear such a label, except that containers of antihog-cholera serum and hog-cholera virus prepared at licensed establishments, and such other products of such establishments as the Chief may permit, may be labeled before the products are released for marketing; *Provided*, Such labeling is done under the direct supervision of an inspector and the products immediately thereafter are placed under Bureau lock, where they are held until released for marketing. No person shall have access to the compartment in which such labeled products are held under such lock except in the immediate presence of an inspector.

(c) No person shall apply or affix, or cause to be applied or affixed, any label, stamp, or mark to any biological product prepared or received in a licensed establishment or imported except in compliance with the regulations. Suitable tags or labels of a distinct design shall be used for identifying all biological products while in course of preparation at licensed establishments.

§ 112.2 *Required and permitted information.* (a) Labels of biological products prepared at licensed establishments or imported shall include the following:

(1) The true name of the product contained in the package, which name shall be identical with that shown in the license or permit under which the product is prepared or imported and shall be so lettered and placed as to give equal prominence to each word composing it;

(2) The name and address of the licensee or permittee: *Provided*, That when the licensee has more than one establishment, one street address only shall be given, although the general location of each licensed establishment in such case may be stated;

(3) The license or permit number assigned by the Department which shall be shown in one of the following forms, respectively: "U. S. Veterinary License No. ----," or "U. S. Vet. License No. ----"; or "U. S. Veterinary Permit No. ----," or "U. S. Vet. Permit No. ----";

(4) A serial number by which the product can be identified with the manufacturer's records of preparation;

(5) A permitted expiration date affixed before the product is removed from the manufacturer's establishment;

(6) A dosage table and full instructions for the proper use of the product or a statement in the case of very small labels as to where such information is to be found;

(7) The quantity of the contents of each immediate or true container in cubic centimeters, units, grams, or milligrams;

(8) Instructions to protect the product from light and keep it at a temperature of not over 45° F.: *Provided*, That all labels, circulars, and the like for Brucella abortus vaccine and rabies vaccine shall include a warning against freezing and instructions to keep the product under refrigeration at 35° to 45° F.;

(9) In the case of multiple-dose containers, a warning that all of the product should be used at the time the container is first opened;

(10) A statement, in the case of subcutaneous tuberculin, indicating the quantity of Koch's old tuberculin (K. O. T.) in each cubic centimeter, disk, or the like of the product, and recommendations regarding the minimum dose to be administered: *Provided*, That this dose for subcutaneous use shall be not less than the equivalent of 0.5 gram K. O. T.;

(11) The notice "Caution—Burn this container and all unused contents" in the case of biological products composed of viable or dangerous organisms or viruses; which notice shall be prominently placed and lettered and affixed to the immediate or true container of such products; and

(12) All other similar information required by the Chief.

(b) Labels of biological products prepared at licensed establishments or imported may also include any other statement which is not false or misleading.

(c) Labels of biological products prepared at licensed establishments or imported shall not include any statement, design, or device which is false or misleading in any particular or may otherwise deceive the purchaser.

§ 112.3 *Reference to distributors.* When any biological product is to be distributed under the Virus-Serum-Toxin Act by any person other than the one holding a license to produce, or a permit to import, such product, and the name and address of the distributing person are to appear on the labels of the containers thereof a statement shall be made on the labels indicating that such person is the distributor of the biological product. The name and address of the distributor shall not appear in any form or manner indicating that he is the producer of the product or operating under the license or permit shown on the label. The terms "distributor," "distributors," "distributed by," or equivalent terms may be used if prominently and properly placed and lettered, in connection with the name and address of the distributing person: *Provided*, The same are not so used as to be either false or misleading. Reference to the distributing person shall be made by name and address only.

§ 112.4 *Review and approval of labels and other material.* (a) Except as otherwise provided in this section, quadruplicate copies of all labels, circulars, and advertising matter for use on biological products prepared by licensed establishments or imported shall be submitted to the Chief for review and approval before they are placed in use. For the convenience and guidance of licensees and permittees, sketches or proofs of new labels and the like may be submitted in triplicate to the Chief for review and approval, and in this case the preparation of finished labels and the like shall be deferred until copies of such sketches or proofs are returned to the licensee or permittee.

(b) Tags, stickers, and the like used to identify products or materials during process of production or testing, if not false or deceptive, may be used by licensees with the permission of the inspector in charge.

(c) The inspector in charge may permit the use by licensees of approved labels and the like which have been modified as follows:

(1) When all features of the label are proportionately enlarged and the general arrangement including colors remains the same;

(2) When the label is translated into a foreign language without other material change; or

(3) When changes in advertising matter are made which do not involve new claims or statements relative to the product.

(d) As of February 1 of each year or oftener on request by the Chief, licensees shall submit to him, through the office of the inspector in charge, lists of labels and the like which they will continue in actual use. Each shall be properly identified by date of approval, name of product, and number if used.

SAMPLES

§ 112.26 *Collection and handling of samples.* (a) Samples of biological products shall be collected only by authorized officers, agents, or employees of the Department.

(b) Samples may be purchased in the open market, and the marks, brands, or tags upon the package or wrapper thereof shall be noted. The collector shall note the names of the vendor and agent of the vendor who made the sale, together with the date of purchase. The collector shall select representative samples.

(c) All samples or parts of samples shall be sealed by the collector and marked for identification and future reference.

§ 112.27 *Selection, marking, and holding by licensee.* (a) Representative samples of each batch of every biological product except anti-hog-cholera serum, hog-cholera vaccine, and hog-cholera virus shall be selected at random from packages finished for marketing, by designated laboratory employees in each licensed establishment. Each sample shall (1) consist of two or more containers and the package (or packages) shall be sealed, dated, and initialed when taken; (2) be adequate in quantity for appropriate examination and testing; (3) be truly representative of the batch which is to be marketed and be in the true containers; and (4) be held by the licensee at least 6 months after the latest expiration date stated on the labels.

(b) A special compartment or the equivalent shall be set aside by the licensee for the exclusive holding of these samples under refrigeration at 35° to 45° F. The samples shall be stored systematically for ready reference and procurement if and when required.

PART 114—MISCELLANEOUS REQUIREMENTS FOR LICENSED ESTABLISHMENTS

Sec.
114.1 Composition of products.
114.2 Methods.
114.3 Serums, equine and bovine.
114.4 Brucella cultures.
114.5 Brucella abortus vaccine; marketing and use.
114.6 Fowl-pox vaccine and laryngotracheitis vaccine.
114.7 Rabies vaccine.
114.8 Tetanus antitoxin.
114.9 Mixing biological products.
114.10 Phenol determination.
114.11 Temperature and light.
114.12 Bureau tests.

§ 114.1 *Composition of products.* Organisms or viruses used in the production at licensed establishments of bacterins, vaccines, toxins, and the like shall be derived from the causative agents of the diseases or conditions against which the products are to be used, and shall be free from the causitive agents of other diseases or conditions.

§ 114.2 *Methods.* (a) All biological products shall be prepared, handled, stored, marked, treated, and tested by licensees in accordance with methods described in the licensees' outlines provided for under this section, unless other methods are prescribed by the Chief in which case such other method shall be used.

(b) An outline, describing fully the entire process of preparing, handling, storing, marking, treating, and testing each biological product except anti-hog-cholera serum and hog-cholera virus, shall be submitted by each licensee to the Division. Tests that are applicable and necessary to prevent the marketing of an unsatisfactory product shall be made by the licensee. Such tests include sterility, safety, and potency tests and tests for determining agglutination and complement fixation titer, and the like. Each outline shall clearly state a definite expiration date for the product and on what it is based. Each outline to which no objections are made by the Officer in Charge of the Division will be stamped, with the date filed, and copies of such outlines will be returned to the licensee. An outline may be followed only after such action has been taken. An outline so processed must be followed by the licensee unless and until amended in the same manner or the licensee is directed to discontinue following such outline because of objections made to it at any time by the Officer in Charge of the Division. When such objections are made, unless the licensee modifies his outline to meet them, the Officer in Charge of the Division shall notify the Chief who may, after affording opportunity for hearing to the licensee, prescribe the method of preparing, handling, storing, marking, treating, or testing the particular product to be observed by the licensee. Pending such action by the Chief, the licensee may continue to use such outline except that where the public health, interest, or safety so requires, the Officer in Charge may upon notice to the licensee, suspend immediately approval of the outline and thereupon the licensee shall not use such outline in the production of biological products under the Virus-Serum-Toxin Act unless and until subsequent notice of withdrawal of such suspension is given to the licensee.

§ 114.3 *Serums, equine and bovine.* (a) Equine and bovine serums produced at licensed establishments shall be derived from the blood of healthy animals. No serum-producing animal shall be given antigen containing Brucella organisms or their derivatives without approval of the Chief. Detailed records relative to any tests on the animals and to the antigens used in treating serum-producing animals shall be maintained by the licensee.

(b) Serum and aggressin of equine origin produced at licensed establishments shall be heated at 58.5°C. for 60 minutes, with a tolerance of 0.5° above and below that temperature, by methods prescribed in this section, and serum of bovine origin shall be heated in like manner for 30 minutes. Serum shall contain no preservative at the time of heating.

(c) Serum heated as provided in paragraph (b) of this section, shall be cooled immediately thereafter to 12° C. or lower, and thus held until it is properly preserved. It shall be preserved, mixed, and tested by methods described in the licensee's outline.

(d) Units of equine serum heated as provided in paragraph (b) of this section, may be tested for toxicity on one or more horses by injecting, intravenously, each of the test horses with at least 100 cc. of a representative sample thereof. Should the test horses show a reaction due to the serum injected, the product shall not be marketed unless and until the toxic fraction is removed or is shown to be harmless.

(e) Bulbs and other parts of recording thermometers at licensed establishments which are to be placed within heating containers, when not in actual use shall be submerged in a 5-percent phenol solution.

(f) Accurate thermometers at licensed establishments shall be used at frequent intervals to check temperatures of the serum as registered by recording thermometers.

(g) Licensees shall keep detailed records relative to each unit of serum as pasteurized and each batch of serum as prepared for marketing. Recording thermometer charts must bear full information concerning the serum heated and tests made of the equipment.

(h) Metal serum containers, each having a capacity of approximately 50 liters, shall be used in licensed establishments. During the heating process these containers shall be surrounded by a separate water jacket or equivalent so that the entire container, including its lid, is submerged at least 2 inches beneath the surface of the water. Filling must be done at a point which is below the surface of the water at the time of heating. Each serum container shall be

equipped with a motor-driven agitator and a separate automatic recording thermometer, and shall have a lid attached to the container so as to withstand approximately 15 pounds' pressure without leakage, when submerged in water.

(i) The water bath shall have an automatic temperature control to limit the temperature of the water to a maximum of 62° C., an automatic recording thermometer, an indicating thermometer set in a fixed position, and circulating mechanism adequate to insure equal temperatures throughout the bath. The heating unit for the bath shall be separate from the serum-container jacket.

(j) All pasteurizing equipment must be acceptable to the Bureau and meet all necessary tests.

§ 114.4 *Brucella cultures.* Only those cultures of Brucella abortus organisms known to be acceptable to the Bureau shall be used in preparing Brucella abortus vaccine in licensed establishments. Cultures for this purpose will be supplied by the Bureau upon request. Cultures of Brucella suis must not be admitted to or handled in licensed establishments without approval of the Chief.

§ 114.5 *Brucella abortus vaccine; marketing and use.* (a) Licensees' production outlines for Brucella abortus vaccine shall specify, among other things, the minimum number of viable Brucella abortus organisms per cubic centimeter that shall be present in the product until the end of the period of use indicated by the expiration date. The expiration date for the liquid form of this vaccine shall not exceed 3 months from the date of production (harvesting). The liquid form of this product shall be marketed only in single-dose vials of resistant glass of low alkalinity and uniform stability having a capacity of approximately 8 cc. All other glass containers used in preparation of the product shall be of like resistance. Each vial of liquid vaccine for subcutaneous injection shall contain 6 cc. of vaccine (plus or minus 0.25 cc.).

(b) Freshly prepared Brucella abortus vaccine shall contain, when subjected to testing, not less than 60 billion viable Brucella abortus organisms per dose. The vaccine also shall contain not less than 30 billion viable Brucella abortus organisms per dose until the end of the period of use as indicated by the expiration date recorded on all labels used on or in connection with each immediate or true container of the same mixture or batch. Licensees may recommend the vaccine for the immunization of bovine animals over 4 months of age if they are not more than 4 months in pregnancy.

§ 114.6 *Fowl-pox vaccine and laryngotracheitis vaccine.* Licensed establishments shall test each batch of fowl-pox vaccine, including pigeon pox, and laryngotracheitis vaccine as provided in this section to determine whether it is free from the causative agents of extraneous diseases. No batch of these products shall exceed 200 grams.

(a) *Fowl-pox vaccine.* For testing each bath of 200 grams or less of fowl-pox vaccine, 12 healthy cockerels or other suitable young chickens of the same source shall be made available at the same time. This group shall have been immunized for at least 21 days with fowl-pox vaccine, previously tested and found satisfactory.

(1) Three of the test birds selected shall be injected subcutaneously with 10 times the field dose of the vaccine to be tested. The vaccine as tested shall be prepared exactly as the product is to be used in the field. This group should serve to indicate whether the product is free from viruses or septicemic diseases.

(2) Three of the test birds selected shall be injected intratracheally with 10 times the field dose of the vaccine to be tested. The vaccine as tested shall be prepared exactly as the product is to be used in the field. This group should serve to indicate whether the product is free from the virus of laryngotracheitis and similar diseases.

(3) Three of the test birds selected shall be injected intranasally with 0.2 cc. of the vaccine prepared exactly as the product is to be used in the field. This group should serve to indicate whether the product is free from the virus of coryza and similar diseases.

(4) The three remaining birds selected shall be isolated and held as controls under observation for at least 21 days.

(5) All the treated birds shall be observed daily for at least 21 days. All the test birds that succumb shall be subjected to a careful post mortem examination by a competent veterinarian. The product shall be withheld from the market until it and the test birds are shown to be free of the causative agents of any extraneous disease.

(b) *Laryngotracheitis vaccine.* For testing each batch of 200 grams or less of laryngotracheitis vaccine, 12 healthy cockerels or other suitable young chickens of the same source shall be made available at the same time. This group shall have been immunized for at least 14 days with laryngotracheitis vaccine previously tested and found satisfactory.

(1) Three of the test birds selected shall be injected subcutaneously with 10 times the field dose of the vaccine to be tested. The vaccine as tested shall be prepared exactly as the product is to be used in the field.

(2) Three of the test birds selected shall be treated by applying at least 10 times the field dose of the vaccine to be tested to a scarified area of at least 1 square centimeter on the comb of each bird. The vaccine as tested shall be prepared exactly as the product is to be used in the field.

(3) Three of the test birds selected shall be injected intranasally with 0.2 cc. of the vaccine to be tested. The vaccine as tested shall be prepared exactly as the product is to be used in the field.

(4) The three remaining birds selected shall be isolated and held as controls under observation for at least 21 days.

(5) All the treated birds shall be observed daily for at least 21 days. All the test birds that succumb shall be subjected to a post mortem examination by a competent veterinarian. The product shall be withheld from the market until it and the test birds are shown to be free of the causative agents of any extraneous diseases. No bird shall be used more than once in making tests, and only healthy birds shall be removed from the premises.

(c) Each batch of fowl-pox and laryngotracheitis vaccine shall be tested by the licensee for protective value.

§ 114.7 *Rabies vaccine.* Licensees producing rabies vaccine shall adhere to the following requirements pertaining to the preparation and testing of this product for safety and potency:

(a) The fixed virus of rabies material shall be treated with phenol or by other means permitted by the Chief to render it safe without materially reducing the antigenicity of the vaccine.

(b) Rabies vaccine shall be collected in batches and mixed thoroughly in a single container. The product in the completed batch shall consist not less than 20 percent of fixed virus material unless otherwise authorized by the Chief.

(c) Safety tests shall be made by injecting subdurally laboratory animals with a representative sample of rabies vaccine. Each batch not in excess of 100,000 cc. completed for marketing shall be tested by thus injecting each of not less than two rabbits with not less than 0.2 cc. and each of not less than five mice with 0.03 cc. for each 20,000 cc. or fraction thereof. The test animals shall be held under observation for at least 14 days.

(d) Each batch of completed vaccine not in excess of 100,000 cc. shall be tested by the licensee for protective value. Each batch to be marketed shall show a protective titer of at least 1,000 m. l. d. when tested on suitable mice against the permitted standard challenge virus.

(e) Rabies vaccine, prepared for marketing, which contains the living virus of rabies or which is worthless, contaminated, dangerous, or harmful, shall not be marketed and shall be destroyed under the provisions of § 108.16 of this chapter.

§ 114.8 *Tetanus antitoxin.* (a) All containers of tetanus antitoxin prepared by licensees for marketing in the United States shall contain not less than 1,500 units and be labeled to recommend not less than this quantity as a minimum prophylactic dose.

(b) When tetanus antitoxin is prepared by licensees for export, 500 units may be recommended on the label as a minimum prophylactic dose provided the labeling clearly indicates that the products is for export. There shall be printed conspicuously on each label the word "export," with the name and address of the distributor located in the foreign country.

(c) The immunity unit for measuring the strength of tetanus antitoxin shall be 10 times the least quantity of antitetanic serum necessary to save the life of a 350-gm. guinea pig for 96 hours against the dose of standard toxin permitted under the regulations.

§ 114.9 *Mixing biological products.* Each batch of biological product, when in liquid form, shall be mixed thoroughly in a single container and be constantly agitated during bottling operations at licensed establishments. Serial numbers in sequence, with any other markings that may be necessary for ready identification of the batch, shall be applied to identify it with the records of preparation and labeling.

§ 114.10 *Phenol determination.* As an aid in meeting requirements for the preservation of anti-hog-cholera serum and hog-chlorea virus with phenol, employees of the Division trained in making the field phenol test will instruct licensed-establishment employees fully in the technique of making this test. A general description and directions for making the field phenol test known as the "P–2 Test" are available on application to the Division. The necessary reagents for such use will be supplied by the Bureau through inspectors in charge on request. Licensees shall use the field phenol test on all batches of preserving solutions and hog-cholera virus. Division inspectors will make such check tests as may be warranted.

§ 114.11 *Temperature and light.* Biological products at licensed establishments shall be protected at all times against light and detrimental temperatures. Furthermore, such products, after completion, shall be kept under refrigeration at 35° to 45° F.

§ 114.12 *Bureau tests.* Whenever deemed necessary, a licensee may be required by the inspector in charge to withhold biological products from the market until representative samples have been tested by the Bureau and the batches concerned released by the Bureau for marketing. These samples shall be taken only by Bureau employees.

PART 115—RETESTING

§ 115.1 *Reinspection and retests.* All biological products, the containers of which bear United States veterinary license numbers or United States veterinary permit numbers or other marks required by these regulations may be inspected at any time or place. If, as a result of such inspection, it appears that any such product, even though prepared in a licensed establishment or imported under permit issued by the Secretary, is worthless, contaminated, dangerous, or harmful, the Secretary shall give notice thereof to the manufacturer or importer and to any jobbers, wholesalers, dealers, or other persons known to have any of such product in their possession. Unless and until the Secretary shall otherwise direct, no persons so notified shall thereafter sell, barter, or exchange any such product in any place under the jurisdiction of the United States or ship or deliver for shipment any such product from any State, Territory, or the District of Columbia to any other State, Territory, or the District of Columbia. However, failure to receive such notice shall not excuse any person from compliance with the Virus-Serum-Toxin Act.

PART 116—RECORDS AND REPORTS

RECORDS

Sec.
116.1 Maintenance of records.
116.2 Special record requirements.
116.3 Completion of records.

REPORTS

Sec.
116.10 Inspection reports.
116.11 Licensees to furnish information.
116.12 Charts.

RECORDS

§ 116.1 *Maintenance of records.* Permanent, detailed records of the results of tests for purity and potency and of the methods of preservation of each batch of biological products shall be kept by each licensee. Biological products prepared in foreign countries shall be eligible for importation into the United States only if the foreign manufacturer of such products also maintains such records. Permanent, detailed records in form satisfactory to the Chief shall be maintained by each licensee, each distributor, and each importer, showing the sale, shipment, or other disposition made of the biological products handled by such person.

§ 116.2 *Special record requirements.* Licensees preparing anti-hog-cholera serum and hog-cholera virus shall observe the following requirements:

(a) *Work sheets*—(1) *Virus pigs.* Work sheets for virus pigs shall show the tag number, date of admission to the premises, date of inoculation, and serial number and dose of virus used. Such work sheets shall show the temperature and physical condition of each pig when this is required by the regulations. They shall also show whether the virus collected from each pig was used in hyperimmunizing virus, simultaneous virus, or inoculating virus, or was destroyed. In the case of pigs intended for the production of simultaneous virus, the work sheet shall be prepared by the licensee in triplicate and the second carbon copy shall be furnished the inspector on the date of inoculation, except when the group is not designated as containing simultaneous virus pigs until the third day after the date of inoculation. In the latter case the work sheet shall be prepared in triplicate on the third day after inoculation to show the tag number and other information required by the regulations for each pig in the group and the second carbon copy shall then be furnished to the inspector. In any case, when the original and first carbon copies are completed, the first carbon copy shall be delivered to the inspector. All groups of pigs from which simultaneous virus will be selected shall be held in pens separate from other pigs.

(2) *Hyperimmunization of immune hogs.* Work sheets for hyperimmunization of immune hogs shall show the temperature and the tag number of each animal, actual weight at time of hyperimmunization, and the serial number and dose of virus injected. The net quantity injected into each group of animals and the number of the group to which each animal belongs also shall be recorded. This work sheet shall be prepared in duplicate, and the carbon copy shall be furnished to the inspector.

(3) *Bleeding of hyperimmune hogs.* Work sheets for bleeding of hyperimmunized hogs shall show the group number of the hogs, the temperature and tag number of each animal, and the class of bleeding. The work sheet shall be prepared in duplicate and furnished to the inspector in advance of actual bleeding of the animals shown thereon. Upon receipt of the work sheet, the inspector shall check it with his records, and if he finds that the animals shown thereon are eligible for bleeding he shall supervise the taking and recording of their temperatures. The temperature of each animal shall be recorded on the work sheet by an employee of the licensed establishment. The inspector shall indicate on the work sheet those animals that are rejected, return the original copy to the licensee, and retain the duplicate.

(4) *Serum preparation.* Work sheets for the clarification of anti-hog-cholera serum shall show the number of the group to which the hogs belong, and the class and total number of bleedings involved, with the information required in this subparagraph relating to each working unit, as defined in § 119.23 (a) (3) of this chapter. The information relating to the working unit shall include the total quantity of whole or defibrinated blood used and the total quantity of clarifying solutions. The quantity of each clarifying solution shall be recorded separately. The quantity of serum recovered (gross), the total quantity of preserving solution used, and the total quantity of preserved serum shall be recorded separately for each group. The quantity of preserved serum contained in each storage container and the number of the container shall be shown on the work sheet. This work sheet shall be prepared in quadruplicate and three carbon copies shall be furnished to the inspector.

(5) *Work sheets, specimens.* A sample form of the work sheets used in licensed establishments in connection with virus pigs, the hyperimmunization of immune hogs, the bleeding of hyperimmune hogs, and the preparation of anti-hog-cholera serum shall be filed with the Division. A statement shall accompany each form showing in detail the manner in which it will be prepared and used.

(b) *Permanent records.* (1) Licensees shall maintain all permanent production records in ink or the equivalent. These records shall include a record of all pigs, used to produce hog-cholera virus. The information on this record shall be substantially the same as that shown on the work sheets as provided in paragraph (a) of this section, and in addition it shall include the date on which each pig was killed and the serial number of the batch of virus produced. Such records shall contain information as to the total quantity in each batch of hyperimmunizing, simultaneous, or inoculating virus produced. All such records shall clearly show the particular animal or group of animals from which each batch of the product is derived. The quantity collected and the total quantity after phenolization shall be separately recorded.

(2) Records showing the hyperimmunization of immune hogs and the bleeding of hyperimmune hogs shall be maintained in permanent form.

(3) Charts of the automatic temperature-recording thermometers used in connection with the heating and cooling of anti-hog-cholera serum shall be filed as a part of the Bureau station records.

(4) Complete records of the preparation and mixing of all virus and serum into batches and the bottling, testing, and labeling thereof shall be maintained as permanent records.

(5) Work sheets prepared like those used by inspectors will be deemed to meet the requirements of this part. Work sheets shall be filed by licensed establishments for reference, and if they are made in ink or the equivalent and otherwise are satisfactory they will be accepted as the permanent records.

§ 116.3 *Completion of records.* Records required by this part must be completed by the licensee before any portion of a batch of any product may be marketed.

REPORTS

§ 116.10 *Inspection.* Reports of the work of inspection carried on in licensed establishments shall be prepared and forwarded to the Division by the inspector in charge in such form and manner as may be required by the Chief.

§ 116.11 *Licensees to furnish information.* Each licensee shall furnish inspectors with accurate information needed by them for making their reports pursuant to § 116.10 and shall also submit such reports as may be required by the Chief.

§ 116.12 *Charts.* Each licensee shall furnish the Division, through the inspector in charge, copies of charts of all tests made of each batch of anti-hemorrhagic-septicemia serum, anti-swine-erysipelas serum, anti-encephalomyelitis serum, encephalomyelitis vaccine, and rabies vaccine and charts for such other products as may be required by the Chief before any of the batch is marketed.

PART 117—ANIMALS

Sec.

117.1 Opportunity to range in contact.
117.2 Contact pens.
117.3 Contact calves.
117.4 Time held in contact.
117.5 Contact calves; holding and removal.
117.6 Certificates.
117.7 Examination and identification.
117.8 Treatment.
117.9 Hyperimmune hogs; time range with contact calves.
117.10 Removal of animals.
117.11 Hogs; treatment prior to removal.
117.12 Disinfection before removal.
117.13 Other requirements.

§ 117.1 *Opportunity to range in contact.* All cattle, hogs, sheep, and goats, except animals admitted by certificate as provided in § 117.6, offered for admission to the premises of licensed establishments shall be afforded opportunity to range in contact with other animals as prescribed in the regulations.

§ 117.2 *Contact pens.* Licensees shall provide suitable pens to be known as contact pens through which all hogs, cattle, sheep, and goats shall pass before they shall be admitted to other parts of the premises of a licensed establishment, except that animals admitted under certificate as provided in § 117.6 need not pass through such pens.

§ 117.3 *Contact calves.* (a) Licensees shall provide healthy calves in thrifty condition, ranging from 3 to 12 months of age, and weighing less than 650 pounds for use as contact animals in contact pens. They shall be referred to as contact calves.

(b) Each contact calf shall have its left ear pierced with a hole not less than three-fourths inch in diameter and shall have a serially numbered metal tag attached to its right ear.

§ 117.4 *Time held in contact.* (a) Except as otherwise provided in § 117.6, each lot of 200 or less sheep or goats and each lot of 20 or less cattle at licensed establishments shall be held in the contact pens for at least 2 days in contact with not less than 2 contact calves, and each animal shall be allowed free range and contact with said contact calves and the other animals in the lot.

(b) Except as otherwise provided in § 117.6, each lot of 200 or less hogs at licensed establishments shall be held in the contact pens for at least 1 day in contact with not less than 2 contact calves, except that in the case of pigs used in testing the potency and purity of anti-hog-cholera serum, 6 hours will be sufficient. Each animal shall be allowed free range and contact with said contact calves and the other animals in the lot. Hogs immune to hog cholera may be removed from the contact pens for hyperimmunization at any time while being held as aforesaid: *Provided*, They are returned to said pens immediately after this operation.

§ 117.5 *Contact calves; holding and removal.* (a) All surviving contact calves shall be held in the contact pens of licensed establishments for at least 1 month from date of admission to contact pens as contact calves.

(b) Removal of contact calves from contact pens shall be so arranged that one animal of each group of 2 will be replaced at the expiration of 1 month and the other at the expiration of 2 months.

(c) Removal of contact calves from contact pens shall be so accomplished that the animals furnished for the purpose may be used for the maximum time permitted by the preceding paragraphs of this section. A contact calf shall not be used as such more than once, but may be used for testing simultaneous virus after release as a contact animal. Contact calves shall be segregated from incoming animals for 14 days immediately before removal from the premises.

(d) Contact calves shall be subjected to thorough veterinary inspection as frequently as may be practicable in order to detect evidence of vesicular disease or other diseases. Whenever any animals on the premises show evidence of being affected with vesicular disease, rinderpest, or any other highly communicable disease, immediate and proper steps shall be taken by the licensee and the inspector in charge to prevent further dissemination of disease and to notify the Chief of the situation. In these circumstances the pen group or section group of animals shall be regarded as a unit for disposal and no attempt made to separate such group in any way unless and until a positive diagnosis is made and a definite plan of disposal agreed upon. Whenever presence of any of these conditions is suspected, removal of animal products shall be suspended and full report made to the Bureau by telephone, telegram, or air mail.

§ 117.6 *Certificates.* (a) Animals admitted to the premises of any licensed establishment which produces anti-hog-cholera serum and hog-cholera virus and which procures no animals from public stockyards, abattoir pens, or similar places need not be held in contact with contact calves as provided in § 117.2 if (1) the animals are for use in the production of anti-hog-cholera serum or hog-cholera virus, and (2) the licensee furnishes to the inspector in charge at the licensed establishment a certificate as provided for in paragraph (c) of this section.

(b) Pigs for special tests authorized by the Chief admitted to the premises of any licensed establishment need not be held in contact with contact calves as provided in § 117.2 if the pigs are handled as prescribed by the Chief and if the licensee furnishes to the inspector in charge at the licensed establishment a certificate as provided for in paragraph (c) of this section.

(c) Each certificate provided for in paragraphs (a) and (b) shall be signed by an authorized representative of the licensed establishment, and shall be in the following form:

_____, 19____

This is to certify that _____ (specify number and kind of animals) _____ which are offered for admission to the licensed establishment of the _____ Co. are from the farm or premises of _____, in the State of _____, County of _____, Township of _____, and to the best of our knowledge and belief were on said farm or premises at least 21 days prior to this date, and were not exposed to any infectious, contagious, or communicable disease, and no new stock was brought onto said farm or premises during that time. The said animals have not been in or transported through any public stockyards, abattoir pens, or similar places, nor have they been exposed to any infectious, contagious, or communicable disease since their removal from said farm or premises.

(Signed) _____ Co.,
Per _____

§ 117.7 *Examination and identification.* (a) All animals presented for admission to the premises of establishments licensed to prepare anti-hog-cholera serum or hog-cholera virus shall be subjected to veterinary inspection as soon as practicable after they are received in order to determine their physical condition. No such animal shall be removed from contact pens at such establishments without veterinary inspection and permission of the supervising inspector.

(b) After examination as provided in paragraph (a) of this section, if the animals are permitted to remain upon the premises of the licensed establishment and to enter the holding pens of the establishment, they shall be given serially numbered metal tags, either prior to or at the time of inoculation or hyperimmunization.

(c) All tags used for the identification of animals shall be attached to the ears of the animals in a manner satisfactory to the inspector in charge. The tags so attached shall be the means of assisting in identifying the animals as long as they remain on the premises.

(d) All tags which are used to identify animals shall be furnished and attached by the licensee, and when said tags are not in use they shall be held under Bureau lock: *Provided*, That, when required by the Chief, tags furnished by the Division shall be used.

(e) The left ear of each animal used in testing the purity and potency of biological products shall, if of sufficient size, be pierced, when the test is begun, with a hole of not less than three-fourths inch in diameter, except that when pigs or calves are used in testing hog-cholera virus for purity as prescribed in the regulations, their right ears shall be pierced as aforesaid. Animals bearing marks of the above-prescribed character shall not be presented for use in testing the purity and potency of biological products, except that contact calves and serum-treated pigs in anti-hog-cholera serum tests, after release as prescribed in the regulations, may be used, once for testing hog-cholera virus for purity, provided they are healthy and their right ears then are pierced as aforesaid. Furthermore, animals with either ear removed or so mutilated as to prevent the detection of these identifying marks shall not be used in any test, if the missing or mutilated ears are needed to determine the suitability of the animals for test purposes as described herein.

§ 117.8 *Treatment.* (a) Animals used in the production or testing of biological products at licensed establishments shall not be treated with biological products other than those which are incidental to the preparation and testing of the products prepared from or tested on said animals, except with the approval of and in such manner as may be prescribed by the Chief.

(b) Contact calves shall not be immunized against diseases to which they are susceptible, with the exception of hemorrhagic septicemia. Such calves, if permitted by the inspectors in charge, may be treated with hemorrhagic-septicemia bacterin and anti-hemorrhagic-septicemia serum.

§ 117.9 *Hyperimmune hogs; time range with contact calves.* (a) If in any specific case hyperimmune hogs are the only production animals held upon the premises of a licensed establishment, they shall be caused to range in contact with calves in the manner prescribed in § 117.2 for a period of at least 10 days prior to their being subjected to carotid or final bleeding. All animals with which hyperimmune hogs have been held in contact as provided in this section shall be held on the premises of the licensed establishment and under the observation of inspectors for at least 14 days after the hyperimmune hogs have been killed.

(b) If at any time hyperimmune hogs are subjected to tail bleeding only, those surviving shall be held under the supervision of inspectors for at least 14 days after the last tail bleeding, but subsequently shall be killed and subjected to post mortem examination as provided by the regulations.

§ 117.10 *Removal of animals.* Hogs, cattle, sheep, or goats shall not be removed from the premises of establishments licensed to produce anti-hog-cholera serum or hog-cholera virus without the written permission of the inspector in charge. Removal of animals from the premises of licensed establishments will be permitted by the inspector in charge under the following conditions, provided it is accomplished in such a manner as will preclude the dissemination of disease:

(a) Animals that are not in a healthy condition as determined by veterinary inspection, except when affected with a communicable disease, may be removed from licensed establishments for immediate slaughter in an abattoir operated under Federal inspection pursuant to the Meat Inspection Act (21 U. S. C. and Sup. 71 et seq.) if they are transported thereto by truck, wagon, or similar means, and not by rail: *Provided*, They are properly marked for identification and the inspector in charge of meat inspection is given due notice in advance. If such an abattoir is not accessible, the slaughter of said animals may be conducted if any convenient nonfederally inspected establishment provided the licensee signifies willingness in writing to dispose of the carcasses in compliance with the Meat Inspection Act and under the provisions of the meat inspection regulations (9 CFR, Chapter I, Subchapter A, as amended), and veterinary inspection as directed by the inspector in charge.

(b) Hogs that are in a healthy condition as determined by veterinary inspection may be removed from licensed establishments provided they are or have been treated or vaccinated and disinfected as prescribed in the regulations. Such hogs need not be treated or vaccinated or disinfected when removed for immediate slaughter at an abattoir operated under Federal inspection pursuant to the Meat Inspection Act (21 U. S. C. and Sup. 71 et seq.) or when removed to a public stockyard from which no hogs are permitted to be removed, without treatment or vaccination and disinfection under supervision of a Federal inspector, for purposes other than immediate slaughter. When hogs are removed to abattoirs or public stockyards without treatment or vaccination and disinfection as aforesaid, the licensee shall furnish the Bureau with a certificate from the consignee of the animals at the abattoir or public stockyards showing their slaughter therein or receipt thereby, respectively. If the animals are not disinfected, they shall not be transported by rail or driven over public highways which are not traversed by animals from stockyards or similar places.

(c) Calves that are in a healthy condition as determined by veterinary inspection may be removed from licensed establishments after disinfection as described in § 117.12 (a). When removed to an abattoir without passing through stockyards or over public highways which are not traversed by animals from public stockyards or similar places, the animals need not be so disinfected, provided the licensee furnishes the inspector in charge a statement from the consignee of the animals certifying that the animals will be slaughtered in an abattoir named in the certificate.

(d) Pigs which survive inoculation and exposure to hog-cholera virus for the production of hog-cholera virus, and surviving control pigs in tests of anti-hog-cholera serum, may be removed from licensed establishments not earlier than 14 days subsequent to the time of inoculation and exposure as aforesaid, provided they are healthy, as determined by veterinary inspection, are treated as described in § 117.11 and are disinfected as set forth in § 117.12, except that when removed for immediate slaughter or to public stockyards or to feed lots approved by the Chief, said animals need not be so treated or disinfected. Other surviving pigs in tests of anti-hog-cholera serum and hog-cholera virus may be removed at the conclusion of the test period, subject to the conditions prescribed in this paragraph.

(e) Hyperimmune hogs or those similarly treated may be removed from licensed establishments not earlier than 14 days subsequent to the time of hyperimmunization or inoculation: *Provided*, They are healthy, as determined by veterinary inspection, and are disinfected as prescribed in § 117.12, except that when removed for immediate slaughter or to public stockyards they may be removed after 10 full days and need not be so disinfected.

§ 117.11 *Hogs; treatment prior to removal.* All hogs which require treatment or vaccination as provided in § 117.10 shall be treated with either serum alone or by the simultaneous-inoculation method, as follows:

(a) When serum alone is used, it shall have been prepared and released for marketing at an establishment holding a license from the Secretary and the dose employed shall conform to that required by the regulations.

(b) When the simultaneous-inoculation method is used, the serum and virus used shall have been prepared at an establishment holding a license from the Secretary and the doses shall be not less than those required by the regulations. After receiving this treatment they shall be held under the supervision of an inspector for a period of at least 14 days.

§ 117.12 *Disinfection before removal.* All animals which require disinfection as provided in § 117.10 shall be treated as follows:

(a) The feet, legs, and soiled portions of the body of calves to be removed from the licensed establishments shall be cleaned and disinfected with a 2 percent aqueous solution of cresol compound, U. S. P., or substitute therefor approved by the Chief and the animals shall then be held in noninfectious pens on the

premises of the establishment until they are dry before being loaded for transportation.

(b) Hogs shall be disinfected in a 2-percent aqueous solution of cresol compound, U. S. P., or substittue therefor approved by the Chief, and shall be held in noninfectious pens on the premises for at least 3 hours before being loaded for transportation, and after disinfection they shall not be exposed to infectious pens, chutes, and the like. Hogs transported in trucks, wagons, or by similar means may be removed as soon after disinfection as they are observed by the inspector to be dry.

§ 117.13 *Other requirements.* All animals used in licensed establishments in the preparation or testing of veterinary biological products shall meet such requirements consistent with the regulations in this subchapter as may be prescribed by the Chief to prevent the preparation and sale of any worthless, contaminated, dangerous, or harmful biological products.

118.44 Minimum dosage and use.

GENERAL REQUIREMENTS

§ 118.1 *Supervision.* No operations incident to the production of hog-cholera virus in a licensed establishment shall be conducted without the knowledge or supervision of an inspector. The licensee shall notify the inspector in charge or his assistant a reasonable time in advance whenever any operations, including overtime work, are to be conducted in the licensed establishment.

§ 118.2 *Temperatures and inspection.* Pigs which are used in the production of hog-cholera virus at a licensed establishment shall be healthy, and the temperature of each animal shall be accurately taken and permanently recorded by the licensee immediately before inoculation when in the opinion of the inspector in charge this is necessary to determine the health of the animals. Each animal shall be subjected to thorough veterinary inspection immediately prior to inoculation. Temperatures of all pigs shall be accurately taken and recorded by the licensee each day subsequent to the fourth day after inoculation and at such other times as the inspector in charge may require. The temperatures of pigs that are slow or visibly sick on any working day shall be taken and recorded in like manner.

§ 118.3 *Inoculation virus.* Pigs for the production of inoculation virus at a licensed establishment shall weigh not less than 40 pounds nor more than 125 pounds each and shall be inoculated only with highly virulent hog-cholera virus. No hog-cholera virus shall be used for inoculating pigs for the production of inoculating virus, hyperimmunizing virus, or simultaneous virus for inoculating pigs in serum tests, unless it has been produced not more than 60 days prior to use and since its completion has been held only in containers of the borosilicate or equal type. These containers shall be of high resistance and low alkalinity, shall be properly marked for identification, shall be guaranteed by the manufacturer to be acceptable to the Bureau, and shall meet the tests developed by the Bureau for determining these qualities. Other virus may be made suitable for inoculation purposes only by passing it through pigs as prescribed in § 121.3 of this chapter. Virus derived from these pigs may be used for hyperimmunization if the animals react as prescribed in § 118.4.

§ 118.4 *Bleeding.* Pigs from which blood is to be collected for the production of hog-cholera virus at a licensed establishment shall be bled only after they have had veterinary inspection and have manifested well-marked and increasingly grave symptoms of hog-cholera only, attended with progressively abnormal temperatures common to the acute type of this disease, and have been released by the inspector.

§ 118.5 *Post mortem examinations.* All pigs from which simultaneous virus is derived at licensed establishments shall be subjected to post mortem veterinary inspection. Post mortem examination of hyperimmunizing virus pigs shall be made by trained and competent employees of the licensee. However, in all cases the examinations will be conducted under veterinary inspection, and the inspector shall observe the examination of as many pigs as possible.

§ 118.6 *Recording of symptoms.* A properly applied and recorded "slow" mark on a day preceding a Sunday or holiday may be regarded as equivalent to visible sickness provided the temperature of each slow pig is taken and recorded and provided the temperature is markedly abnormal. In other circumstances the slow mark should not be regarded as equivalent to visible sickness, but should be regarded as a mark applicable to that transitional stage between normal behavior and distinct visible sickness.

§ 118.7 *Autopsies.* Autopsies shall be conducted at licensed establishments on a sufficient number of virus pigs that succumb to obtain all possible information as to the cause of death. Licensed-establishment employees shall perform the labor incident to these examinations under the supervision of an inspector.

§ 118.8 *Early visible sickness; disposition.* Pigs that become visibly sick within 3 days after they have been examined for admission to the premises of a licensed establishment as prescribed by § 117.7 of this chapter, or within 4 days when the third day falls on a Sunday or holiday, must be rejected and either shall be destroyed or handled as prescribed by § 117.10 of this chapter.

§ 118.9 *Defibrination and chilling.* All virus shall be defibrinated promptly after collection at a licensed establishment and immediately thereafter chilled and maintained at a temperature of not to exceed 45° F.

§ 118.10 *Disposition of virus when condition unsatisfactory.* (a) Virus derived from pigs which on post mortem examination do not show lesions sufficient for the inspector to make a positive diagnosis of hog cholera, when considered with the ante mortem behavior of the animal, or from pigs which are found to be affected with any other infectious, contagious, or communicable disease or in such condition as to render the virus contaminated, shall be destroyed as provided in § 108.16 of this chapter under the supervision of an inspector. Virus passed by the inspectors may be destroyed as aforesaid at the discretion of the licensee.

(b) Virus derived from pigs which are found to be affected with tuberculosis shall not be marketed but shall be destroyed, as provided in § 108.16 of this chapter, under the supervision of an inspector, unless the lesions are slight or localized and are calcified or encapsulated.

(c) Samples of blood from pigs which on post mortem examination show evidence of concurrent affection with other disease, except highly communicable diseases referred to in § 117.5 of this chapter, together with well-defined lesions of hog cholera, may be released by the inspector to the licensee for bacteriological examination. Blood free from highly communicable diseases as aforesaid which is deemed satisfactory by the licensee after bacteriological examination may be used for hyperimmunizing purposes.

§ 118.11 *Removal of hog-cholera virus.* Hog-cholera virus shall not be removed from the premises of a licensed establishment unless the virus has been prepared and handled in accordance with the provisions of the regulations.

§ 118.12 *Filling and labeling containers.* No immediate or true container of hog-cholera virus shall be filled in whole or in part, and no label shall be affixed to such container, except under the supervision of an inspector.

HYPERIMMUNIZING VIRUS

§ 118.25 *Inoculations for hyperimmunizing virus.* For use in the production of hyperimmunizing virus, licensees shall inoculate healthy young pigs weighing not more than 160 pounds each with at least 2 cc. of highly virulent hog-cholera virus: *Provided*, That when hog cholera from pen infection is manifested by the animals after the fourth day subsequent to admission to the premises of the licensed establishment, they need not be so inoculated.

§ 118.26 *Requirements for hyperimmunizing virus.* Hyperimmunizing virus shall be collected at licensed establishments only from pigs which are observed on veterinary inspection to be visibly sick with hog cholera and which manifest well-marked and increasingly grave symptoms thereof attended with progressively abnormal temperatures common to the acute type of this disease.

SIMULTANEOUS VIRUS

§ 118.30 *Inoculations for simultaneous virus.* For use in the production of simultaneous virus, licensees shall inoculate young healthy pigs of good quality with at least 2 cc. each of highly virulent virus. Such pigs when inoculated shall weigh not less than 40 pounds nor more than 125 pounds.

(b) Pigs which are eligible only for the production of hyperimmunizing virus shall be inoculated and held in separate pens from those to be used for simultaneous virus. Such separation shall be made on or before the third day after inoculation and such pigs held thereafter in separate pens until released by the inspector.

§ 118.31 *Sickness and records thereof.* Simultaneous virus shall not be collected at licensed establishments from pigs which become visibly sick on or before the third day, or subsequent to the seventh day, after the time of inoculation. The physical condition of all pigs from which simultaneous virus is to be collected shall be recorded daily on and after the third day subsequent to inoculation.

§ 118.32 *Requirements for simultaneous virus, etc.* (a) Simultaneous virus and other hog-cholera virus intended for the inoculation of pigs for any purpose shall be collected at licensed establishments only from pigs which are observed by an inspector to be visibly sick with hog cholera within 7 days after the time of inoculation and which manifest well-marked and increasingly grave symptoms of hog cholera attended with progressively abnormal temperatures common to the acute type of this disease.

(b) Simultaneous virus shall be prepared in licensed establishments in batches of not to exceed 50,000 cc. The defibrinated blood in each batch shall not exceed 45,000 cc. and shall be mixed thoroughly in a single container before phenolization. All simultaneous virus shall be constantly agitated during the bottling operation.

§ 118.33 *Samples of simultaneous virus.* The following representative samples of simultaneous virus shall be taken at licensed establishments and properly identified by an inspector: (a) At time of mixing but before phenolization, (1) "purity test sample" of not less than 30 cc. in a single container, (2) "test sample A" of not less than 5 cc. in a single container; (b) After mixing and phenolization, (1) "phenol test sample" of not less than 30 cc. in one container, (2) one reserve sample of 30 cc. to be forwarded to the Bureau in event the pigeon or mouse test is unsatisfactory and to be returned to the licensee if tests of the sample are satisfactory, (3) "test sample B" of not less than 5 cc. in a single container; (c) At time of bottling, a "stock sample" of at least 30 cc. in one container. All "A" and "B" test samples shall be held at approximately 75° F. under Bureau lock until used. All other samples shall be held under Bureau lock at 35° to 45° F.

§ 118.34 *Phenolization.* Simultaneous virus blood which has been thoroughly mixed after withdrawal of the purity test sample and test sample A shall have added to it a sufficient quantity of a 5-percent solution of phenol so that the virus will contain one-half of 1-percent phenol by volume. This phenolization must be accomplished with accuracy and in a manner which will prevent undesirable changes in the product.

§ 118.35 *Holding of simultaneous virus.* Simultaneous virus which has been mixed and phenolized at licensed establishments as provided in the regulations, together with the virus-stock sample, shall be held under Bureau lock as provided under § 102.77 (c) of this chapter until the tests required by the regulations have been completed and have shown the virus to be free from contamination: *Provided*, That simultaneous virus which will not reach its destination before tests are concluded or which is exported to a foreign country may be released prior to the conclusion of said tests.

§ 118.36 *Disposition of samples of simultaneous virus.* At least one container of the stock sample of simultaneous virus shall be held at the licensed establishment unopened in the manner provided in § 102.77 (c) of this chapter for at least 3 months after the latest expiration date shown upon the labels affixed to the immediate or true containers of the product corresponding to the sample.

§ 118.37 *Test animals.* Two healthy calves, with mouths free from abrasions, as described in § 117.3 of this chapter, or three healthy pigs immunized by the simultaneous treatment against hog cholera for at least 14 days, shall be furnished for intravenous injection with the purity test sample. These animals shall be given veterinary inspection immediately before the test is begun. All animals used for the testing of simultaneous virus shall be injected only under the supervision of an inspector and shall be marked as provided in the regulations. All test animals shall be given veterinary inspection as frequently as practicable during the test period to determine whether any symptoms or lesions of a vesicular or other disease develop.

§ 118.38 *Purity test of simultaneous virus.* Each of the animals selected for testing the purity of simultaneous virus at licensed establishments shall be injected with 15 cc. of the purity-test sample into either the auricular or the jugular vein within 1 day after the first virus in the batch is collected.

§ 118.39 *Holding test animals.* Animals inoculated for the purpose of determining the purity of simultaneous virus at licensed establishments as provided in § 118.38 shall be held under the observation of a Division employee at least 7 days. Should foot-and-mouth disease appear in the United States the said animals shall be held under the observation of inspectors for at least 10 days.

§ 118.40 *Test and retest.* If none of the animals which are treated with hog-cholera virus as prescribed in § 118.38 manifests symptoms of any infectious, contagious, or communicable disease, or if only one animal develops hog cholera, the test will be declared "satisfactory for purity," and the product released for marketing; *Provided*, It is otherwise satisfactory under the provisions of the regulations. Should any of the animals in the test succumb or should more than one develop hog cholera, another test may be made as in the first instance, except that not less than 15 cc. of the phenolized virus shall be used for the inoculation of each animal.

§ 118.41 *Swine erysipelas.* Representative samples of each batch or serial of simultaneous virus shall be tested at licensed establishments as follows to determine its freedom from swine erysipelas (Erysipelothrix rhusiopathiae):

(a) Within 1 day after the first virus in the batch is collected, at least 1 cc. of test sample A shall be injected intramuscularly into each of three or more young pigeons or 0.2 cc. of such sample shall be injected subcutaneously into each of five or more suitable mice susceptible to swine erysipelas. These test animals and birds shall be held under the observation of an inspector for 10 or more days after being injected with the virus under test.

(b) Three or more days after phenolization of the batch of virus, at least 1 cc. of test sample B shall be injected intramuscularly into each of three or more young pigeons or 0.2 cc. of such sample shall be injected subcutaneously into each of five or more suitable mice susceptible to swine erysipelas. These test animals and birds shall be held under the observation of an inspector for 7 or more days after being injected with the virus under test.

(c) If all test animals and birds injected with test sample A survive for 10 days or more, and all test animals and birds injected with test sample B survive for 7 days or more, after injection, the batch or serial represented by the samples may be marketed if it otherwise conforms to the requirements of the regulations.

(d) Should any of the inoculated animals or birds die during the test, the product shall not be released for marketing and the reserve 30-cc. sample shall be forwarded to the Bureau.

(e) All animals and birds, after being used once in the tests provided in this section, shall be killed and their carcasses, and all virus blood and simultaneous virus which are contaminated with Erysipelothrix rhusiopathiae shall be destroyed by incineration or tanking as provided in § 108.16 of this chapter.

§ 118.42 *Marking "U. S. Released."* Each immediate or true container of simultaneous hog-cholera virus produced at licensed establishments which has been tested and found not to be worthless, contaminated, dangerous, or harmful, may have a cap affixed which, if approved by the Chief, may bear the words "U. S. Released." These caps shall be affixed to the aforesaid containers only under the supervision of an inspector and shall be held under Bureau lock except when needed for this purpose. No simultaneous virus shall be released for marketing unless and until all information required by the regulations has been affixed to the containers thereof under supervision of an inspector. All simultaneous virus on which the expiration date has expired shall be destroyed as prescribed in § 108.16 of this chapter.

§ 118.43 *Expiration date.* The expiration date placed on the label of each immediate or true container of simultaneous virus produced at licensed establishments shall be one of the following:

(a) A date within 90 days after the first blood in the batch was collected: *Provided*, That the simultaneous virus is stored and marketed in containers acceptable to the Bureau;

(b) A date within 120 days after the first blood in the batch was collected when the product is marketed in containers described in § 118.3 and is to be exported to a foreign country and the containers thereof are labeled distinctively.

§ 118.45 *Minimum dosage and use.* Labels affixed to or used in connection with each immediate or true container of simultaneous virus produced at licensed establishments shall bear a dosage table in which the doses recommended are not less than those appearing in the following table:

Weight:	*Minimum dose (cc.)*
Pigs weighing 45 pounds or less	1
Pigs weighing more than 45 pounds	2

Each label shall bear instructions to use the virus only with anti-hog-cholera serum.

119.65 Expiration date.
119.66 Extension of expiration date.

119.68 Conditions for release and removal.

GENERAL REQUIREMENTS

§ 119.1 *Supervision of production of anti-hog-cholera serum.* No operation incident to the production of anti-hog-cholera serum at a licensed establishment shall be conducted without the knowledge or supervision of an inspector. The licensee shall notify the inspector in charge or the supervising inspector a reasonable time in advance whenever any such operations, including overtime work, are to be conducted in the licensed establishment.

§ 119.2 *Production principle.* Pigs that develop hog cholera of a well-marked and progressive type attended with progressively abnormal temperatures produce hog-cholera virus of high virulence, and when hogs properly immunized against hog cholera for a sufficient length of time are injected intravenously with massive quantities of such virus their blood serum possesses superior protective properties against hog cholera. Therefore, these facts should form the basis of all methods of producing anti-hog-cholera serum and hog-cholera virus as well as of all the regulations governing their production.

HYPERIMMUNE HOGS

§ 119.3 *Required period of immunity.* Anti-hog-cholera serum shall be derived at licensed establishments only from hyper-immune hogs which have been immune to hog cholera for at least 90 days prior to hyperimmunization.

§ 119.4 *Health, weight, and temperature when hyperimmunized.* Hogs which are used to produce anti-hog-cholera serum at licensed establishments shall be healthy at the time of hyperimmunization, and this fact shall be determined by a thorough veterinary inspection. The temperature and weight of each animal in a given group shall be determined and recorded accurately by the licensee before hyperimmunization of the group.

§ 119.5 *Dosage of virus.* All hogs which are used to produce anti-hog-cholera serum at licensed establishments shall receive, for hyperimmunization, a single intravenous injection of at least 5 cc. of hog-cholera virus for each pound of the animal's weight when injected.

§ 119.6 *Temperatures before bleeding.* The temperatures of the hogs in each group or lot used to produce anti-hog-cholera serum at licensed establishments shall be determined under normal handling conditions and recorded accurately by the licensee either on the afternoon before, or on the day of, bleeding and at such other times as the inspector may require. There shall be provided clean, light quarters equipped with a satisfactory chute and all other facilities for expediting temperature taking and veterinary inspection.

§ 119.7 *Inspection before bleeding.* All hogs which are used to produce anti-hog-cholera serum at licensed establishments shall be subjected to a thorough veterinary inspection before each bleeding. Groups containing any hogs that are lame or otherwise suspected of being affected with a vesicular disease shall be given special examination for vesicles and the like after thorough cleansing of their feet, including examination of the coronary bands, snouts, and lips. Only those hogs which are found to have a temperature of less than 104° F. and are free from any infectious, contagious, or communicable diseases or other abnormal conditions shall be bled for serum. No hyperimmune hog in a lot or group of like origin having a significant number of high temperatures or showing other abnormalities indicative of an infectious or communicable disease shall be subjected to bleeding until such conditions of the lot or group as a whole no longer exist.

§ 119.8 *Bleeding and examination.* (a) Anti-hog-cholera serum shall be derived at licensed establishments only from hyperimmune hogs which have been subjected to not more than four successive bleedings, except that additional bleedings may be authorized by the Chief in emergencies. The first bleeding shall take place not earlier than the eleventh day after hyperimmunization; subsequent bleedings shall not take place more frequently than once in 7 days; and the last bleeding shall be made on a date not later than 40 days after hyperimmunization: *Provided*, That, in emergencies, final bleeding may be deferred when specifically authorized by the Chief.

(b) Autopsies shall be performed at licensed establishments on hyperimmune hogs that succumb in order to obtain, if possible, information as to the cause of death. Employees of the licensed establishment, under the supervision of an inspector, shall perform the labor incident to these examinations.

(c) Anti-hog-cholera serum derived at licensed establishments from final bleedings shall be kept separate from other serum until it has been determined by post mortem examination that the hog from which the serum is derived was not so affected with any infectious, contagious, or communicable disease or in such condition as to render the serum worthless, contaminated, dangerous, or harmful.

§ 119.9 *Constitutional symptoms.* Anti-hog-cholera serum derived at licensed establishments from hogs which, after hyperimmunization, manifest symptoms indicative of an affection of a constitutional character other than those usually observed immediately following hyperimmunization shall not be mixed with other serum, unless after due consideration of the prevailing conditions, this action is permitted by a veterinary inspector. Such serum, if collected only from hogs as prescribed in § 119.8, may be prepared separately and tested as prescribed in the regulations and if, as a result of these tests, the product is found satisfactory, it may be marketed. Otherwise, the serum shall be destroyed as provided in § 108.16 of this chapter under the supervision of an inspector.

§ 119.10 *Post mortem examination.* (a) All hogs from which anti-hog-cholera serum is derived at licensed establishments shall be subjected, after final bleeding, to a thorough post mortem examination by an inspector. If, as a result of such inspection, it is found that any hog is so affected with any infectious, contagious, or communicable disease or is in such condition as to render the serum worthless, contaminated, dangerous, or harmful, the serum collected from such hog shall be destroyed by the licensee, as provided in § 108.16 of this chapter under the supervision of an inspector.

(b) If serum-producing hogs at a licensed establishment become exhausted as a result of tail bleeding, dressing of the animals may be permitted provided they are given veterinary inspection immediately before throat bleeding and provided the animals bleed properly. The carcasses of such hogs may be dressed for food if disposition thereof is made in accordance with the meat inspection regulations (9 CFR Chapter I, Subchapter A, as amended). The blood of such animals may be used for serum if the tail and throat bleeding operations are such that no more time elapses between tail bleeding and throat bleeding than is necessary for removing the animals from the tail-bleeding station and restraining them at a regular throat-bleeding station.

ANTI-HOG-CHOLERA SERUM PREPARATION PROCEDURE

§ 119.20 *Heating; time and conditions.* All anti-hog-cholera serum produced at licensed establishments shall be heated under the supervision of an inspector in such a manner as to subject the product and the entire container thereof to a temperature of 58.5° C. for 30 minutes with a tolerance of 0.5° above and below that temperature, by methods prescribed by the Chief.

§ 119.21 *Heating containers.* Metal containers of a capacity not to exceed 50 liters shall be used in heating anti-hog-cholera serum at licensed establishments. Such containers shall be equipped with satisfactory agitators, and facilities for cooling and preserving the product shall also be provided. All serum shall be handled prior to heating so that practically all "foam" is eliminated before beginning the heating process and shall be properly agitated while being heated, cooled, and preserved. Each container of serum at time of heating shall be so submerged that the water line in the bath will be at least 2 inches above the upper surface of the lid. No container or other equipment intended for heating, cooling, preserving, and storing serum shall be used unless it is acceptable to the inspector in charge.

§ 119.22 *Heating and cooling; instructions.* The temperature of the bath in which serum is heated at licensed establishments shall not be permitted to exceed 62° C. The temperature of the serum shall be reduced as rapidly as possible to 12° C. or lower after heating. The temperatures of the serum and the water in the bath shall be accurately determined and recorded by the use of automatic recording thermometers. A separate recording thermometer shall be used for each container of serum during the heating and cooling operations. Such parts of heating and cooling equipment as it may be necessary to seal to insure that actual temperatures of the product and the water bath are properly recorded shall be sealed effectively by an inspector. Bulbs and other parts of thermometers which are placed within the serum container shall be submerged in a 5-percent phenol solution, or substitute permitted by the Chief, at all times when not in use for taking temperatures.

§ 119.23 *Instructions for preparation of anti-hog-cholera serum—(a) Definitions.* When used in this section, the following terms shall be construed to have the meanings hereby assigned.

(1) *Group number.* The number used to identify a group of hyperimmune hogs not in excess of 175, the blood of which is clarified and identified as one lot or as a fraction of a lot.

(2) *Class of bleeding.* The bleedings of hyperimmune hogs. First, second, third, and throat or carotid bleedings shall be identified by the letters A, B, C, and D, respectively.

(3) *Working unit.* The net quantity of hyperimmune blood in each container used as a basis of clarification.

(4) *Preserved serum.* True serum and permitted clarifying solutions recovered in the centrifugation of hyperimmune blood, preserved in compliance with the regulations.

(5) *Completed serum.* A combination of the different classes of preserved serum mixed in batches in such proportions as will equalize the potency of said classes.

(6) *Finished serum.* Completed serum which is bottled, tested, and fully labeled for marketing.

(7) *Number.* The number of hyperimmunes in any group, subjected to bleeding, to supply blood of a given class.

(8) *Weight.* The total weight, at the time of hyperimmunization, of all the hogs in the group that are bled in each class.

(9) *Lot number.* The identification number of the preserved serum produced from blood collected from one or more groups consisting of a total of not more than 175 hyperimmune hogs.

(10) *Batch.* Preserved serum mixed in a single container as required by the regulations.

(11) *Division rate.* The proportion which the total quantity of preserved serum of each class of bleedings bears to the total quantity in a lot.

(12) *Remainder.* The unused preserved serum of all classes remaining after one or more batches have been prepared from a lot.

(b) *General provisions.* (1) The composition of each lot of anti-hog-cholera serum shall be recorded by the licensee on a form acceptable to the Chief.

(2) The average yield of blood per pound for each class of bleedings shall be entered in the hyperimmune record in connection with the weight for the class.

(3) The quantity of blood treated with clarifying solutions in a single container shall not exceed 25,000 cc. All clarifying solutions shall be added to the working unit.

(4) All of the preserved anti-hog-cholera serum produced from the blood collected from a given group of hogs shall be placed in the same lot.

(c) *Rules and factors for computing yields of anti-hog-cholera serum.* The following rules and factors shall be used by licensed establishments in computing yields of anti-hog-cholera serum. When defibrinated hyperimmune blood is used, the total quantities in the lot shall constitute the basis for making the following computations.

(1) To find the quantity of true serum in the lot, subtract the sum of the quantities of clarifying solutions and preserving solution from the total quantity of preserved serum.

(2) To find the percentage of true serum recovered from the defibrinated blood, divide the total quantity of true serum by the total quantity of defibrinated blood used.

(3) To find the maximum production permissible when the true serum recovered represents 73.04 percent or less of the defibrinated blood used, divide the total quantity of true serum by 0.88.

(4) To find the maximum production permissible when the true serum recovered represents more than 73.04 percent of the defibrinated blood, multiply the total quantity of defibrinated blood used by 0.83. In determining the concentration of phenol solution to be selected in preserving "Serum recovered

(gross)" prepared from defibrinated blood, the following table shall be used:

Serum recovered (gross) compared with defibrinated blood	True serum recovered compared with defibrinated blood	Preserving solutions (phenol) required
Percent	*Percent*	*Percent*
77.4666	73.6666	7.5
78.85	74.85	10
82.0459	78.0459	50

The figures in such table show the maximum yields that may be preserved with the different solutions without exceeding 83 percent of the defibrinated blood used, provided the clarifying solutions are exactly 4 percent of this blood. The figures for "Serum recovered (gross)" will vary as the clarifying solutions are permitted to vary from 4 percent.

(5) To find the division rates for the different classes of bleedings, divide the preserved serum in each class by the total quantity of preserved serum in the lot. Each rate shall be expressed as a decimal fraction and contain either three or six figures. A division rate of three figures may only be used, provided the last three of six figures are regarded as 1 and added to the third figure when they represent 501, or more and disregarded when they represent 500, or less. For example, 0.195501 shall be recorded and used as 0.196 and 0.184500 shall be recorded and used as 0.184.

(6) To find the percentage of true serum in the completed serum of a lot, divide the total net quantity of true serum used by the total quantity of preserved serum mixed.

(7) To find the percentage of completed serum as compared with the total quantity of defibrinated blood, divide the total quantity of completed serum by the total quantity of defibrinated blood used.

(8) To find the total weight of hyperimmune hogs used or bled, find the combined weights taken at the time of hyperimmunization for the hogs actually bled for each class of bleedings.

(9) To find the yield of defibrinated blood per pound of hyperimmune hogs, divide the total quantity of defibrinated blood collected from each class of bleedings of hyperimmune hogs by the total weight of the animals bled. The sum of these results for all bleedings combined will represent the yield of defibrinated blood per pound.

(10) To find the yield of completed serum per pound of hyperimmune hogs, divide the total quantity of completed serum by the total pounds of hyperimmune hogs used.

(d) *Preparing batches.* The following instructions shall be observed by licensed establishments in preparing batches of anti-hog-cholera serum:

(1) When not more than one batch of completed serum is to be prepared from the lot: Determine the net quantity of preserved serum mixed and the loss in handling.

(2) When two or more batches not to exceed 300,000 cc. each of completed serum equal or approximately equal in size are to be prepared from the lot: Divide the quantity of preserved serum of each class of bleedings in the lot by the number of batches that are to be prepared. The quotient will show the quantity of preserved serum of each class required for each batch. Proceed in the preparation of each batch as outlined in this section.

(3) When one or more batches of completed serum and a remainder are to be prepared from the lot: Determine the quantity of preserved serum of each class of bleedings required to make a batch of approximately 300,000 cc. of completed serum, and multiply the total quantity of preserved serum required by the division rate for each class. The results will show the quantity of preserved serum of each class required. Proceed with the preparation of the batch as outlined in this section. Proceed with the preparation of as many additional batches approximating 300,000 cc. each as may be possible from the lot as outlined in this section. The unused portions of a lot when they aggregate less than 300,000 cc. may be mixed together and tested and marketed as a batch, or shall be identified as "Remainder of Lot No. ----" and be made a part of the next batch mixed.

(4) When more than one batch of completed serum is to be prepared from the lot and a remainder is to be used: Determine the quantity of preserved serum of each class required to make a fraction of a batch of completed serum which, when added to the remainder, will approximate 300,000 cc., by subtracting from 300,000 cc., the quantity of preserved serum derived from the remainder. The difference will show the theoretical quantity of preserved serum that may be added to the remainder to make a batch of approximately 300,000 cc. of completed serum. Proceed with the preparation of the fraction of the batch as outlined in this section. Add the remainder to the completed fraction of the batch to find the quantity of completed serum in the batch. Proceed with the preparation of as many additional batches approximating 300,000 cc. each as may be possible from the lot as outlined in this section.

(5) When only one batch of completed serum is to be prepared from the lot and a remainder is to be used: Prepare the fractional part of the batch as outlined in this section. Add the remainder to the fraction to find the quantity of completed serum in the batch.

(6) Batches larger than 300,000 cc.: Such batches shall be prepared by mixing in a single container all preserved serum derived from one or more properly identified whole groups totaling not more than 175 hogs.

§ 119.24 *Batches; determination of quantity.* Anti-hog-cholera serum which is to constitute a batch or portion thereof may be strained into a single container, after which the quantity should be accurately determined.

§ 119.25 *Phenolization.* (a) Anti-hog-cholera serum produced at licensed establishments shall have added thereto a sufficient quantity of a 7½ percent solution of phenol to make the completed serum consist one-half of 1 percent of phenol by volume: *Provided*, That either a 10 percent phenol solution or a solution containing equal parts by weight of phenol and ether may be used when yields or methods require this as a means to keep the total quantity of serum produced from a given quantity of blood within requirements of the regulations. When a 10 percent phenol solution is used, at least 10 percent of its volume shall be glycerin.

(b) To preserve serum properly, the following procedure shall be observed:

(1) When a 7.5 percent solution is used, divide the quantity of serum by 14.

(2) When a 10 percent solution is used, divide the quantity of serum by 19.

(3) When the phenol-ether solution, mentioned above, is used, divide the quantity of serum by 86.

(c) Phenolization of anti-hog-cholera serum must be accomplished with accuracy, and in a manner which will prevent the occurrence of undesirable changes in the product. In every case the concentration and quantity of each solution used in preserving the serum shall be recorded by the licensee.

§ 119.26 *Mixing and holding.* Anti-hog-cholera serum, prior to testing, at licensed establishments shall be thoroughly mixed in a single container into batches of not more than 300,000 cc. composed of proper proportions of the different classes of bleedings as provided in the regulations: *Provided, however*, That larger batches may be prepared by mixing in a single container all serum derived from one or more properly identified whole groups of hyperimmune hogs totaling not more than 175 hogs. Until the serum is released by an inspector, it shall be held under Bureau lock except when being processed.

§ 119.27 *Samples.* After a batch of anti-hog-cholera serum is thoroughly mixed in a single container, at a licensed establishment, a representative sample consisting of at least 300 cc. shall be collected in three containers of not less than 100 cc. each, to be known as the "serum test sample." This sample shall be taken, properly labeled, marked by an inspector, and held under Bureau lock. One of the three containers shall be marked "stock sample" and held under Bureau lock for at least 6 months after the latest expiration date shown on the labels affixed to the immediate or true containers of the serum of which this sample is a part.

§ 119.28 *Disposition of samples.* Unused samples of anti-hog-cholera serum prepared at licensed establishments on which the expiration date has passed 6 months previously may be labeled and marked in the regular manner, provided this procedure is approved by the inspector in charge and the serum is at that time tested and found satisfactory for potency and purity, and such labeling and marking is done within 3 years after the oldest serum in the batch is collected. When these conditions are not met, and it is desired to market the serum, the samples shall be mixed and assigned a serial number. This mixture may be tested alone or it may be mixed with other untested serum and tested as prescribed in the regulations: *Provided*, That the samples shall not constitute more than 50 percent of the serum contained in the final mixture. The expiration date to be affixed to the containers of mixtures of unused samples shall not exceed 1 year from the date of conclusion of a satisfactory test for potency.

TESTING ANTI-HOG-CHOLERA SERUM

§ 119.50 *Tests required.* All anti-hog-cholera serum produced at licensed establishments shall be tested for purity and potency as prescribed by the regulations. Special tests may be authorized by the Chief under § 114.2 of this chapter.

§ 119.51 *Test pigs.* Licensees shall furnish all pigs used in testing anti-hog-cholera serum. Eight healthy pigs, susceptible to hog cholera and weighing not less than 40 pounds nor more than 90 pounds each, shall be used for testing each batch of serum consisting of 300,000 cc. or less. Batches consisting of more than 300,000 cc. shall be tested on 11 healthy pigs in lieu of 8. The inspector supervising the test shall indicate the pigs which shall receive anti-hog-cholera serum with hog-cholera virus and those which shall receive the virus only.

§ 119.52 *Dosage in tests.* Each pig furnished at licensed establishments for testing anti-hog-cholera serum shall be injected with 2 cc. of hog-cholera virus. Three pigs in each test shall receive no serum and shall serve as controls. The remaining pigs in the test shall receive 15 cc. each of the serum to be tested. The virus and serum injections shall be made simultaneously, the virus being injected in the left axillary space, and the serum in the right. Each of the pigs in the test shall be injected with virus of the same serial number, the virus to be selected and administered by an inspector.

§ 119.53 *Handling test pigs.* All surviving pigs used for testing a batch of serum at a licensed establishment shall be subjected to the same conditions throughout the test period and shall be held in a single pen or inclosure throughout this period, except that when it is evident that a particular serum test will be declared "no test" or "unsatisfactory for potency," the test pigs, with the permission of the supervising inspector, may be removed from the original test pen and placed with other pigs of the same class in a common pen for the purpose of releasing pen space for other tests.

§ 119.54 *Observation and holding period; test pigs.* The period for holding surviving pigs under the observation of an inspector, at licensed establishments, while being used for testing the potency and purity of anti-hog-cholera serum as described in the regulations, shall be not less than 14 days immediately following their inoculation for this purpose and as much longer as the inspector in charge deems necessary to render proper judgment on the results of the tests. Such pigs shall not be removed from the test unless and until released by the supervising inspector, who will permit their removal only after they have served their purpose in the prescribed tests.

§ 119.55 *Temperatures; test pigs.* The temperature of each pig used in a test of anti-hog-cholera serum at licensed establishments shall be taken and recorded shortly before such test is started. Temperatures of control pigs and "slow" or sick serum-treated pigs in serum tests, except known "unsatisfactory tests" and "no tests," shall be taken and recorded daily throughout the test period on regular work days and such other days as the inspector in charge may direct when it appears desirable for proper disposition of the test. When pigs in tests do not manifest "slowness" or symptoms of sickness, their temperatures need not be taken except when required by the inspector in charge to determine more accurately the physical condition of the animals under observation.

§ 119.56 *Virus required.* Simultaneous virus or its equivalent, as described in § 118.3 of this chapter, in sufficient quantities to meet the needs shall be furnished by licensed establishments for use as the inspector in charge may deem advisable for inoculating pigs in serum tests. Hog-cholera virus furnished by the Bureau shall be used in inoculating pigs in tests whenever the inspector in charge deems this procedure advisable, and whenever conditions in previous tests of any batch of serum have indicated some deficiency in either the virus or serum used.

§ 119.57 *Principle for judging results of tests.* The following principle and the rules in § 119.58 are to be used as guides in judging the results of serum tests at licensed establishments:

It is practically impossible in many cases to differentiate accurately between hog cholera, pneumonia, and other conditions affecting hogs without the aid of an autopsy as well as laboratory techniques and experiments to determine the causative agent responsible for the condition. Therefore, when healthy pigs are selected for testing anti-hog-cholera serum any abnormal condition in the pigs subsequent to their inoculation shall be regarded as due either to the virus used or, in serum-treated pigs, to the fact that the serum does not protect, unless the condition is definitely known or can be shown to be due to some other cause.

§ 119.58 *Rules for judging results of test.* The following rules shall apply at licensed establishments in judging anti-hog-cholera serum tests described in the regulations.

(a) *Control pigs.* The purpose of control pigs in serum tests is to furnish information as to the virulence of the virus used for inoculating the animals and to indicate whether the pigs furnished are susceptible to hog cholera. As an aid in determining the fulfillment of this purpose the following conditions shall obtain:

(1) At least two of the control pigs shall become visibly sick of hog cholera subsequent to the third day of the test period or the fourth day, if the third day falls on a Sunday or holiday, and within 7 days after the test is begun.

(2) At least two of the control pigs which become sick as described in subparagraph (1) of this paragraph shall manifest well-marked and increasingly grave symptoms of hog cholera attended with progressively abnormal temperatures common to the acute type of this disease.

(3) At least two of the control pigs which become sick as described in subparagraphs (1) and (2) of this paragraph shall show lesions upon post mortem examination sufficient for the inspector to make a positive diagnosis of hog cholera, when considered with the ante mortem behavior of these animals.

(b) *Test; conditions under which serum to be declared "satisfactory for potency."* Serum will be declared "satisfactory for potency" when at least two of the control pigs react as described in paragraph (a) of this section and either of the following conditions obtains:

(1) All the serum-treated pigs remain well throughout the test period.

(2) One or more of the serum-treated pigs become visibly sick after the time of inoculation and all fully recover before the test animals are released by the inspector. Such sick pigs, however, will not be regarded as fully recovered until they have been in an apparently normal condition for at least 3 consecutive days.

(c) *Test; conditions under which serum to be declared "unsatisfactory for potency."* Serum will be declared "unsatisfactory for potency" when at least two of the control pigs react as described in paragraph (a) of this section and the following condition obtains:

One or more of the serum-treated pigs became visibly sick subsequent to the third day after the time of inoculation, or the fourth day, if the third day falls on a Sunday or holiday, and fail to recover fully before the test animals are released by the supervising inspector.

(d) *Test; conditions under which serum to be declared "no test for potency."* Serum will be declared "no test for potency" when any one of the following conditions obtains, but such action will not prevent a retest under the provisions of the regulations:

(1) One or more of the serum-treated pigs become visibly sick on or before the third day after the time of inoculation, or the fourth day, if the third days falls on a Sunday or holiday, and fail to recover within the test period.

(2) Two or more of the control pigs become visibly sick on or before the third day after the time of inoculation, or the fourth day, if the third day falls on a Sunday or holiday.

(3) Two or more of the control pigs do not manifest symptoms of hog cholera as described in paragraph (a) of this section.

(4) Two or more of the control pigs do not show lesions of hog cholera upon post mortem examination as described in paragraph (a) of this section.

(5) Two or more of the control pigs manifest symptoms of hog cholera within 7 days as described in paragraph (a) of this section but do not become sick to the degree described in said paragraph.

(6) Any of the serum-treated pigs develop, during the test period, symptoms of any infectious, contagious, or com-

municable disease (other than hog cholera) which is not caused by the serum used.

(7) A condition obtains in any of the test pigs which is not otherwise covered in this section.

(e) *Test; when serum to be declared "satisfactory for purity."* Serum will be declared "satisfactory for purity" when the following condition obtains:

Not more than one of the serum-treated pigs in a test develops an abscess at the site of the serum injection and no symptoms of any infectious, contagious, or communicable disease other than hog cholera are manifested by any of the animals in the test.

(f) *Test; conditions under which serum to be declared "unsatisfactory for purity."* Serum will be declared "unsatisfactory for purity" when either of the following conditions obtains:

(1) Abscesses which are not definitely known to be due to causes other than the serum used develop at the sites of the serum injections in more than one of the serum-treated pigs.

(2) During the test period any of the serum-treated test pigs develop symptoms of any infectious, contagious, or comunicable disease (other than hog cholera) which is due to the serum used.

(g) *Test; conditions under which serum to be declared "no test for purity."* Serum will be declared "no test for purity" when any one of the following conditions obtains, but such action will not prevent a retest under the provisions of the regulations.

(1) Two or more of the serum-treated pigs succumb within 14 days after the time of inoculation.

(2) Any of the serum-treated pigs develop, during the test period, symptoms of any infectious, contagious, or communicable disease (other than hog cholera) which is not caused by the serum used.

(3) A condition obtains in any of the test pigs which is not otherwise covered in this section.

§ 119.59 *Retests when serum found "unsatisfactory for potency."* When a test of anti-hog-cholera serum, prepared at a licensed establishment, has shown it to be "unsatisfactory for potency," the serum may be tested again as prescribed in § 119.51. Should this retest show the serum to be "unsatisfactory for potency" it may be so retested again, and if still found "unsatisfactory for potency" the serum shall be destroyed or otherwise disposed of as prescribed by the Chief.

§ 119.60 *Tests for purity.* Should abscesses develop at the sites of the serum inoculations in any of the pigs used at licensed establishments for testing serum as provided in this part, the following rules shall apply:

(a) Judgment of the results of tests made on pigs to determine the potency of anti-hog-cholera serum will be rendered irrespective of conditions found which are regarded as an index to the purity of the product.

(b) If anti-hog-cholera serum upon testing is declared "satisfactory for purity," and it is found necessary to subject the batch of serum to a retest to determine its potency, judgment concerning the purity of the product shall be based on the first test unless evidence is found subsequent to such test which indicates that the serum is contaminated.

§ 119.61 *Retests for purity.* (a) When anti-hog-cholera serum prepared at a licensed establishment has once been found "unsatisfactory for purity," as defined in § 119.58, it may be tested again for purity on eight pigs, provided each pig receives a single injection, in the axillary space, of at least 20 cc. of the product.

(b) When anti-hog-cholera serum produced at a licensed establishment has twice been found "unsatisfactory for purity," as defined in § 119.58, but is "satisfactory for potency," as provided in § 119.58, it may be tested again to ascertain whether it is contaminated with pus-producing organisms by treating 50 hogs on the premises of the licensed establishment. The serum shall be administered under the supervision of an inspector, and each hog treated shall receive a single injection, in the axillary space, of not less than 25 cc. of the product to be tested. Serum tested as provided in this paragraph shall be destroyed or otherwise disposed of or used as prescribed by the Chief.

§ 119.62 *Purity test animals; holding period.* Animals used for testing serum as provided in § 119.61 at licensed establishments shall be held under the supervision of an inspector for at least 14 days, and be carefully examined at the sites of inoculations to determine whether the serum has caused abscess formation.

§ 119.63 *Minimum dosage.* When anti-hog-cholera serum produced at licensed establishments, upon testing as provided in the regulations, is found "satisfactory for potency" and "satisfactory for purity," the product may be marketed if it is recommended for use in doses not less than those appearing in the following table:

Weight:	*Minimum dose (cc.)*
Sucking pigs	16
Pigs 20 to 40 pounds	24
Pigs 40 to 90 pounds	28
Pigs 90 to 120 pounds	36
Hogs 120 to 150 pounds	44
Hogs 150 to 180 pounds	52
Hogs 180 pounds and over	60

§ 119.64 *Marking anti-hog-cholera serum "U. S. Released."* Each immediate or true container of anti-hog-cholera serum produced at a licensed establishment, and which has been tested and found not to be worthless, contaminated, dangerous, or harmful may have a cap affixed which, if approved by the Chief, may bear the words "U. S. Released." These caps shall be affixed to the aforesaid containers only under the supervision of an inspector and shall be held under Bureau lock except when needed for this purpose.

§ 119.65 *Expiration date.* The expiration date shown on labels of anti-hog-cholera serum produced at licensed establishments shall not exceed 3 years from the date on which the first serum of the batch is collected, except as provided in § 119.66.

§ 119.66 *Extension of expiration date.* Should the expiration date of any batch of anti-hog-cholera serum produced at licensed establishments expire before the serum is used, the serum may be retested, and if found "satisfactory for potency" and "satisfactory for purity," as defined in § 119.58 (b) and (e), the expiration date may be extended for 1 year from the date of conclusion of the retest for potency. Should a batch of anti-hog-cholera serum not be found "satisfactory for potency" or "satisfactory for purity" before the expiration of 3 years from the date of collection of the oldest serum in the batch, or should it not be so found in time to allow it to be used before the expiration of said 3 years, the expiration date will be limited to 6 months from the date of conclusion of a satisfactory test for potency.

§ 119.67 *Requirements for filling and labeling.* No immediate or true container of anti-hog-cholera serum shall be filled in whole or in part, and no label shall be affixed to such a container at licensed establishments, except under the supervision of an inspector.

§ 119.68 *Conditions for release and removal.* Anti-hog-cholera serum shall not be removed from the premises of a licensed establishment unless it has been prepared as required by the regulations, and no such serum shall be released for marketing unless and until all the information required by the regulations has been affixed to the containers thereof under the supervision of an inspector.

PART 121 — ADMISSION OF BIOLOGICAL PRODUCTS AND MATERIALS TO LICENSED ESTABLISHMENTS

Sec.
121.1 Requirements re admission of biological products, etc., to licensed establishments.
121.2 Bureau virus and serum.
121.3 Virus from outbreaks.
121.4 Transportation between licensed establishments.

§ 121.1 *Requirements re admission of biological products, etc., to licensed establishments.* Except as specifically authorized by the regulations, no biological product which has not been prepared, handled, stored, and marked in accordance with the regulations and no biological product which is worthless, contaminated, dangerous, or harmful shall be brought onto the premises of any licensed establishment.

§ 121.2 *Bureau virus and serum.* Hog-cholera virus and anti-hog-cholera serum prepared by the Bureau will be admitted to licensed establishments for use as prescribed in the regulations or as may be approved by the Chief.

§ 121.3 *Virus from outbreaks.* Hog-cholera virus procured from outbreaks of hog cholera on farms that are free from other communicable diseases will be admitted to licensed establishments by the inspector in charge when requested by the licensee for use in propagating a new strain of virus for inoculating purposes. Before such virus is used in the production of simultaneous virus or hyperimmunizing virus, it shall be injected into pigs weighing from 40 to 90 pounds to determine whether the purity and virulence of the product are satisfactory. The virus shall be passed through pigs as provided in the regulations until its virulence and purity are satisfactory; otherwise, the product shall be destroyed as provided in § 108.16 of this chapter.

§ 121.4 *Transportation between licensed establishments.* Anti-hog-cholera serum and hog-cholera virus, spleens, and other organs, collected in licensed establishments, and suitable for use under the regulations, may be transported from one licensed establishment to another or between units of the same establishment provided these products are properly packed. Such products and materials must be packed or iced so that a proper temperature will be maintained during transportation. The containers shall be sealed by an authorized inspector, and such seals shall be broken only by such an inspector at the point of destination; otherwise, the products and materials shall be refused admission at the licensed establishment to which transported.

PART 122—ORGANISMS AND VECTORS

Sec.
122.1 Permits required.
122.2 Application for permits.
122.3 Suspension or revocation of permits.

§ 122.1 *Permits required.* No organisms or vectors shall be imported into the United States or transported from one State or Territory or the District of Columbia to another State or Territory or the District of Columbia without a permit issued by the Secretary and in compliance with the terms thereof: *Provided*, That no permit shall be required under this section for importation of organisms for which an import permit has been issued pursuant to Part 102 of this chapter or for transportation of organisms produced at establishments licensed under Part 102 of this chapter. As a condition of issuance of permits under this section, the permittee shall agree in writing to observe the safeguards prescribed by the Chief for public protection with respect to the particular importation or transportation. Permits shall be numbered and shall be in the following form:

UNITED STATES VETERINARY PERMIT NO. ------

ORGANISMS OR VECTORS

Washington, D. C. ----------

Under authority of Act of Congress approved February 2, 1903 (32 Stat. 792, 21 U. S. C. 111) and Act of Congress approved March 4, 1913 (37 Stat. 832–833, 21 U. S. C. 151–158), ---------- is hereby authorized, so far as the jurisdiction of the Department of Agriculture is concerned, to (import or transport) ---------- from ---------- to ---------- via ----------.

This permit is issued under authority contained in § 122.1, Subchapter E, Chapter I, Title 9 CFR, and on the basis of the signed agreement of the perinittee to use the organisms and their derivatives, or vectors, only for the purpose specified therein, and to dispose of them as directed by the U. S. Bureau of Animal Industry.

Secretary of Agriculture

§ 122.2 *Application for permit.* The Secretary may issue, at his discretion, a permit as specified in § 122.1 when proper safeguards are set up as provided in § 122.1 to protect the public. Application for such a permit shall be made in advance of shipment, and each permit shall specify the name and address of the consignee, the true name and character of each of the organisms or vectors involved, and the use to which each will be put.

§ 122.3 *Suspension or revocation of permits.* (a) Any permit for the importation or transportation of organisms or vectors issued under this part may be formally suspended or revoked after opportunity for hearing has been accorded the permittee, as provided in Part 123 of this chapter, if the Secretary finds that the permittee has failed to observe the safeguards and instructions prescribed by the Chief with respect to the particular importation or transportation or that such importation or transportation for any other reason may result in the introduction or dissemination from a foreign country into the United States, or from one State, Territory or the District of Columbia to another, of the contagion of any contagious, infectious or communicable disease of animals (including poultry).

(b) In cases of wilfulness or where the public health, interest or safety so requires, however, the Secretary may without hearing informally suspend such a permit upon the grounds set forth in paragraph (a) of this section, pending determination of formal proceedings under Part 123 of this chapter for suspension or revocation of the permit.

Any person who wishes to submit written data, views, or arguments concerning the proposed regulations may do so by filing them with the Chief of the Bureau of Animal Industry, Agricultural Research Administration, U. S. Department of Agriculture, Washington 25, D. C., within 21 days after the date of publication of this notice in the FEDERAL REGISTER.

Witness my hand and the seal of the U. S. Department of Agriculture. Done at Washington, D. C., this 17th day of November 1948.

[7 CFR, Part 930]

HANDLING OF MILK IN TOLEDO, OHIO, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND TO PROPOSED AMENDMENT TO ORDER, AS AMENDED

Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders (7 CFR, Supps., 900.1 et seq.; 12 F. R. 1159, 4904), a public hearing was held at Toledo, Ohio, on November 4, 1948 upon a proposed amendment to the tentative marketing agreement heretofore approved by the Secretary of Agriculture, and to the order, as amended, regulating the handling of milk in the Toledo, Ohio, marketing area.

Preliminary statement. The proposed amendment upon which the hearing was held was submitted by the Northwestern Cooperative Sales Association, Inc.

The material issues presented on the record of hearing were:

(1) The establishment of price levels below which prices for Class I and Class II milk would not be permitted to decline during the next few months but not beyond February 1949;

(2) The need for emergency action which warrants immediate effectuation of a revision in the order.

Findings and conclusions. The following findings and conclusions on the material issues are based upon the evidence introduced at the hearing.

(1) The Class I milk and Class II milk prices should not be less than $4.70 per hundredweight and $4.10 per hundredweight, respectively, from the effective date of this amendment through January 1949. For the month of February 1949, the Class I milk price should be not less than $4.48 and the Class II milk price should be not less than $3.88.

Prices of Class I and Class II milk under the Toledo order declined 73.6 cents per hundredweight between July and October of this year. This decline was the result of declines in the market prices for the major milk products and in prices paid farmers by milk manufacturing plants. Such prices are, in the alternate, the base upon which Class I and Class II prices are computed pursuant to the order. Such declines occurred during months when both farm prices for the fluid milk market and for condensery milk could be expected to increase seasonally. Data in the record for 1943–1947 indicate seasonal increase in local condensery prices in most years between July and October. The average July to October increase in this period was approximately 8.8 percent. Conversely, local condensery prices for October 1948 declined slightly more than 14.7 percent from the July level. A similar decline

occurred in the other condensery price series employed by the order. This contraseasonal movement of prices, occurring at a time of the year when production costs normally increase, has caused considerable uncertainty as to price movements and levels in the next few months in the Toledo milkshed. There are indications also that a further decline in Class I and Class II prices at Toledo may result in the loss of some milk to the major competing markets of Detroit and Cleveland where price levels are somewhat above Toledo this fall.

It was proposed that the Class I and Class II prices be held until the end of February 1949 at minimum levels equivalent to those for the month of September 1948. In this connection, it may be noted from the record that there has been a substantial increase in the amount of milk received from producers in recent months as compared with the corresponding period of 1947. During May to September producer receipts increased more than 2,300,000 pounds over the same five-month period in 1947. On the other hand gross Class I utilization increased only 642,000 pounds. The increase in producer receipts was nearly 3.7 times greater than the increase in gross Class I utilization. The decrease in other source milk needed for Class I was 1,749,000 pounds, declining from 3,669,000 pounds in May–September 1947 to 1,920,000 in May–September 1948. Producer numbers in September 1948 were 5.1 percent higher than in September 1947. From these data, it appears that at the producer price levels in effect substantial gains in milk production relative to fluid milk needs have been made this year. However, the amount of inspected milk will not be sufficient to meet the entire Class I and Class II requirements of all handlers this fall.

Conditions are generally more favorable to milk production in the milkshed this fall as compared with a year ago. There has been a substantial decline in protein feed prices recently. However, beef cattle and hog prices remain relatively high compared with milk prices. In spite of a decrease in protein feed prices with the harvesting of 1948 feed crops and the availability of record quantities of feed per animal, milk production costs are being maintained at relatively high levels by current hay prices, prevailing wage levels for farm labor and recent increases in farm machinery prices. The favorable ratio shown between milk prices and feed prices for recent months follows a long period characterized by an unfavorable ratio. Because of support price programs in operation, it appears unlikely that further declines of a substantial nature in feed prices will occur during the coming winter months. The decline of about 16.9 per cent in the basic formula price which has taken place since July endangers the more favorable milk-feed ratio of the last few months. Further decreases currently in the Class I and Class II prices by this means conceivably could destroy the temporary advantage gained and tend to discourage milk deliveries.

In view of the increases which have taken place in production in relation to production during the same periods last year in relation to sales of Class I milk, it is not considered appropriate to increase prices to the level which prevailed in September. Instead, it is concluded that a further contraseasonal decline through the operation of the current formula should be prevented by maintaining minimum Class I and II prices at approximately the October level for the coming months of December 1948 and January 1949. In order to mitigate the possibility of a contraseasonal price situation as the spring production season approaches, it is concluded further that the minimum Class I and Class II prices should be maintained at a somewhat lower level for February 1949 (22 cents per hundredweight less).

(2) An emergency exists which requires that prompt action be taken to amend the order to effectuate the findings and conclusions set forth above without allowing for a recommended decision by the Assistant Administrator, Production and Marketing Administration, and the filing of exceptions thereto. The due and timely execution of the functions of the Secretary of Agriculture under the act imperatively and unavoidably requires the omission of such recommended decision and the filing of exceptions thereto.

The testimony showed that under prevailing conditions a further decline in the Class I and Class II prices at this time would have a serious impact upon returns for milk produced for the marketing area. Any delay beyond December 1, 1948, in effectuating the needed changes in the order would seriously threaten an adequate supply of pure and wholesome inspected milk for the Toledo market, would disrupt orderly marketing and would be contrary to the public interest. The amending order cannot be issued and made effective by December 1, 1948, unless the recommended decision and the filings of exceptions thereto are omitted.

(3) *General.* (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held; and

(c) The prices calculated to give milk produced for sale in the said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8e of the act are not reasonable in view of the price of feeds, and other economic conditions which affect market supply and demand for such milk, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest.

Rulings on proposed findings and conclusions. Written arguments and proposed findings and conclusions submitted on behalf of interested persons were considered, along with the evidence in the record, in making the findings and reaching the conclusions herein set forth. To the extent that the proposed findings and conclusions differ from the findings and conclusions contained herein, the specific or implied requests to make such findings are denied because of the reasons stated in support of the findings and conclusions in this decision.

Determination of representative period. The month of September 1948 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order amending the order, as amended, regulating the handling of milk in the Toledo marketing area, in the manner set forth in the attached amending order is approved or favored by producers who during such representative period were engaged in the production of milk for sale in the marketing area specified in such marketing order, as amended.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled "Marketing Agreement Regulating the Handling of Milk in the Toledo, Ohio, Marketing Area" and "Order Amending the Order, As Amended, Regulating the Handling of Milk in the Toledo, Ohio, Marketing Area" which have been decided upon as the appropriate and detailed means of effecting the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached order amending the order, as amended, which will be published with the decision.

This decision filed at Washington, D. C., this 17th day of November 1948.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Order Amending the Order, as Amended, Regulating the Handling of Milk in the Toledo, Ohio, Marketing Area [1]

§ 930.0 *Findings and determinations—*(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure covering the formulation of marketing agreements and orders (7 CFR, Supps., 900.1 et seq.; 12 F. R. 1159, 4904), a public hearing was held on November 4, 1948 upon certain proposed amendments to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Toledo, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8e of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held.

The foregoing findings and determinations are supplementary and in addition to the findings and determinations made in connection with the issuance of the aforesaid order and the findings and determinations made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

Order relative to handling. It is therefore ordered that on and after the effective date hereof, the handling of milk in the Toledo, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. Delete from § 930.5 (a) (1) the proviso contained therein and substitute therefor the following: "*Provided,* That such Class I milk price shall be not less than $4.70 from the effective date of this amendment through January 31, 1949; and not less than $4.48 for the delivery period of February 1949."

2. Add to § 930.5 (a) (2) the following proviso: "*Provided,* That such Class II milk price shall be not less than $4.10 from the effective date of this amendment through January 31, 1949; and not less than $3.88 for the delivery period of February 1949."

[F. R. Doc. 48-10163; Filed, Nov. 19, 1948; 9:03 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

HANDLING OF MILK IN THE CINCINNATI, OHIO, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND TO PROPOSED AMENDMENT TO ORDER, AS AMENDED

Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders (7 CFR, Supps. 900.1 et seq.; 12 F. R. 1159, 4904), a public hearing was held at Cincinnati, Ohio, on November 3, 1948, upon a proposed amendment to the tentative marketing agreement heretofore approved by the Secretary of Agriculture, and to the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area.

Preliminary statement. The proposed amendment upon which the hearing was held was submitted by The Cooperative Pure Milk Association and the Cincinnati Sales Association.

The material issues presented on the record of hearing were:

(1) The establishment of price levels below which prices for Class I and Class II milk would not be permitted to decline during the next few months but not beyond March 1949;

(2) The need for emergency action which warrants immediate effectuation of revisions in the order.

Findings and conclusions. The following findings and conclusions on the material issues are based upon the evidence introduced at the hearing and the record thereof:

(1) The Class I milk and Class II milk prices should not be less than $5.40 per hundredweight and $4.95 per hundredweight, respectively, from the effective date of this amendment through January 1949. For the month of February 1949, the Class I milk price should be not less than $5.18 and the Class II milk price should be not less than $4.73.

Prices of Class I and Class II milk under the Cincinnati order declined 64 cents per hundredweight between July 1–31 and October 1–15 this year. This decline was the result of a corresponding decline in the condensery price level (prices paid farmers by 5 milk manufacturing plants in Ohio) which was the effective "basic formula price" computed pursuant to the order. Such decline occurred during months when both farm prices for the fluid milk market and for condensery milk could be expected to increase seasonally. Data in the record for 1943–1947 indicate seasonal increases in condensery prices between July and October in most years. The average July to October increase in this period was approximately 10.1 percent. Conversely, prices for the October 1–15 period in 1948 declined slightly more than 13.7 percent from the July level. This contraseasonal movement of prices, happening at a time of the year when production costs normally increase, has caused considerable uncertainty as to price movements and levels in the next few months in the Cincinnati milkshed.

It was proposed that the Class I and Class II prices be held until the end of March 1949 at minimum levels equivalent to those for the month of September 1948. In this connection, it may be noted from the record that there has been a substantial increase in the amount of milk received from producers in recent months as compared with the corresponding period of 1947. During May to September producer receipts increased more than 4,600,000 pounds over the same five-month period in 1947. On the other hand gross Class I utilization increased only 460,000 pounds. The increase in producer receipts was nearly 10 times greater than the increase in Class I utilization. Producer numbers in August 1948 had increased over the level of August 1947 by 5.5 per cent. In September 1948 producer numbers were 9.5 per cent higher than in the previous September. From these data, it appears that at the producer price levels in effect substantial gains in milk production relative to fluid milk needs have been made this year. However, it appears that the amount of inspected milk will not be sufficient to meet the entire Class I and Class II requirements of all handlers this fall.

Conditions are generally more favorable to milk production in the milkshed this fall as compared with a year ago. There has been a substantial decline in protein feed prices recently. However, beef cattle and hog prices remain relatively high compared with milk prices. In spite of a decrease in protein feed prices with the harvesting of 1948 feed crops and the availability of record quantities of feed per animal, milk production costs are being maintained at relatively high levels by current hay prices, present wage levels for farm labor and recent increases in farm machinery prices. The unfavorable ratio shown between milk prices and feed prices for recent months follows a long period characterized by an unfavorable ratio. Because of support price programs in operation, it appears unlikely that further declines of a substantial nature in feed prices will occur during the coming winter months. The decline of about 16.9 per cent in the basic formula price which has taken place since July endangers the more favorable milk-feed ratio of the last few months. Further decreases currently in the Class I and Class II prices by this means conceivably could destroy the temporary advantage gained and tend to discourage milk deliveries.

In view of the fact that production has increased over last year and has increased greatly more than the increase in sales of Class I milk, it is not considered appropriate to increase prices to the level which prevailed in September. Instead it is concluded that a further contraseasonal decline through the operation of the current formula should be prevented by maintaining minimum Class I and Class II prices at approximately the October 1–15 level for the coming months of December 1948 and January 1949.

In order to mitigate the possibility of a contraseasonal price situation as the

spring production season approaches, it is concluded further that the minimum Class I and Class II prices should be maintained at a somewhat lower level for February 1949 (22 cents per hundredweight less) and that the formula should operate without restriction after such month.

(2) An emergency exists which requires that action be taken promptly to amend the order to effectuate the findings and conclusions set forth above without allowing time for a recommended decision by the Assistant Administrator, Production and Marketing Administration and the filing of exceptions thereto. The due and timely execution of the functions of the Secretary of Agriculture under the act imperatively and unavoidably requires the omission of such recommended decision and the filing of exceptions thereto.

The testimony showed that under prevailing conditions a further decline in the Class I and Class II prices at this time would have a serious impact on returns for milk produced for the marketing area. Any delay beyond December 1, 1948, in effectuating the needed changes in the order would seriously threaten an adequate supply of pure and wholesome milk for the Cincinnati marketing area, would disrupt orderly marketing and would be contrary to the public interest. The amending order cannot be issued and made effective by December 1, 1948, unless the recommended decision and the filing of exceptions thereto are omitted.

(3) *General.* (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, regulate the handling of milk in the same manner and are applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held; and

(c) The prices calculated to give milk produced for sale in the said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8e of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for such milk, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of handlers who are subject to the marketing order. Every point covered in the briefs was carefully considered, along with the evidence in the record, in making the findings and reaching the conclusions set forth herein. To the extent that the findings and conclusions proposed in the briefs are not consistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions in this decision.

Determination of representative period. The month of September 1948 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order amending the order, as amended, regulating the handling of milk in the Cincinnati marketing area in the manner set forth in the attached amending order is approved or favored by producers who during such representative period were engaged in the production of milk for sale in the marketing area specified in such marketing order, as amended.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled "Marketing Agreement Regulating the Handling of Milk in the Cincinnati, Ohio, Milk Marketing Area" and "Order Amending the Order, As Amended, Regulating the Handling of Milk in the Cincinnati, Ohio, Marketing Area" which have been decided upon as the appropriate and detailed means of effecting the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached order amending the order, as amended, which will be published with the decision.

This decision filed at Washington, D. C., this 17th day of November 1948.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Cincinnati, Ohio, Marketing Area

§ 965.1 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary to and in addition to the findings and determinations made in connection with the issuance of this order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933) as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure, as amended, governing the formulation of marketing agreements and orders (7 CFR, Supps., 900.1 et seq.), a public hearing was held on November 3, 1948, upon a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8e of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof, the handling of milk in the Cincinnati, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. Delete from § 965.6 (a) (1) the proviso contained therein and substitute therefor the following: "*Provided*, That such price for Class I milk shall be not less than $5.40 from the effective date of this amendment through January 31, 1949; and not less than $5.18 for the delivery period of February 1949."

2. Delete from § 965.6 (a) (2) the proviso contained therein and substitute therefor the following: "*Provided*, That such price for Class II milk shall be not less than $4.95 from the effective date of this amendment through January 31, 1949; and not less than $4.73 for the delivery period of February 1949."

[F. R. Doc. 48-10165; Filed, Nov. 19, 1948; 9:04 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

HANDLING OF MILK IN TRI-STATE MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND TO PROPOSED AMENDMENT TO THE ORDER, AS AMENDED

Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders (7 CFR, Supps., 900.1 et seq.; 12 F. R. 1159, 4904), a public hearing was held at Huntington, West Virginia, on November 1, 1948, upon a proposed amendment to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Tri-State marketing area.

Preliminary statement. Material issues presented at this hearing were as follows:

(1) The establishment of price levels below which Class I and Class II milk prices would not be permitted to decline during the next few months but not beyond March 1949.

(2) The need for emergency action.

Findings and conclusions. The following findings and conclusions on the material issues are based upon evidence introduced at the hearing:

(1) The Class I milk price should not be less than $5.00 per hundredweight at Huntington district plants and $4.80 per hundredweight at other plants of handlers from the effective date of this amendment through January 1949; the Class II milk price should not be less than $4.70 per hundredweight at Huntington district plants and $4.50 per hundredweight at other plants of handlers for the same period. For the month of February 1949, the Class I milk price should be not less than $4.78 at Huntington district plants and not less than $4.58 at other plants of handlers; for such month the Class II milk price should be not less than $4.48 at Huntington district plants and not less than $4.28 at other plants of handlers.

Prices of Class I and Class II milk under the Tri-State order declined 71.5 cents per hundredweight between July 1–31 and October 1–15 this year. This decline was the result of a corresponding decline in the condensery price level (prices paid farmers by 18 milk manufacturing plants in Wisconsin and Michigan) which was the effective "basic formula price" computed pursuant to the order. Such decline occurred at a time of the year when both farm prices for the fluid milk market and for condensery milk could be expected to increase seasonally. Data in the record for 1940–1947 show seasonal increases in condensery prices each year between July and October. The average July to October increase in this period was approximately 10.5 percent. Conversely, prices for the October 1–15 period in 1948 declined slightly more than 16 percent from the July level. This contraseasonal movement of milk prices, occurring at a time of the year when production costs normally increase, has caused considerable uncertainty as to price movements and levels in the next few months in the milkshed supplying the Tri-State marketing area. There are indications also that a further decline in Class I and Class II prices in the Tri-State marketing area may result in a loss of milk to the major competing fluid milk market of Charleston, West Virginia, where the farm price level has advanced rather than declined since July.

It was proposed that the Class I and Class II prices be held until the end of March 1949 at minimum levels equivalent to those for the month of September 1948. In this connection, it may be noted from the record that there has been a substantial increase in the amount of milk received from producers in recent months as compared with the corresponding period of 1947. During May to September producer receipts increased more than 4,100,000 pounds over the same five-month period in 1947. On the other hand Class I utilization (gross) increased 1,400,000 pounds. The increase in producer receipts was nearly 2.9 times greater than the increase in Class I utilization. The decrease in other source milk needed for Class I was 909,000 pounds, declining from 1,571,000 pounds in May–September 1947 to 662,009 pounds in May–September 1948. Producer numbers in September 1948 were 9 percent higher than in the previous September. From these data, it appears that at the producer price levels in effect substantial gains in milk production relative to fluid milk needs have been made this year. However, it is apparent that the amount of inspected milk is not sufficient to meet the entire Class I and Class II requirements of all handlers this fall.

Conditions are generally more favorable to milk production in the milkshed this fall as compared with a year ago. There has been a substantial decline in protein feed prices recently. However, beef cattle and hog prices remain relatively high as compared with milk prices. Also, in spite of a decrease in protein feed prices, with the harvesting of 1948 feed crops and the availability of record quantities of feed per animal, milk production costs are being maintained at relatively high levels by high hay prices, current wage levels for farm labor, and recent increase in farm machinery prices. The favorable ratio shown between milk prices and feed prices for recent months follows a long period characterized by an unfavorable ratio. Because of support price programs in operation, it appears unlikely that further declines of a substantial nature in feed prices will occur during the coming winter months. The decline of about 16 percent in the Class I and Class II prices which has taken place since July endangers the more favorable ratio of the last few months. Further decreases in the Class I and Class II prices at this time conceivably could destroy the temporary advantage gained and tend to discourage milk deliveries.

In view of the increases which have occured in production in relation to the same periods last year and in relation to sales of Class I milk, it is not considered appropriate to increase prices to the level which prevailed in September. Rather, a further contraseasonal decline through the operation of the current formula should be prevented by maintaining minimum Class I and II prices at approximately the October 1–15 level for the coming months of December 1948 and January 1949. In order to mitigate the possibility of a contraseasonal price situation as the spring production season approaches, it is concluded that the minimum Class I and Class II prices should be maintained at a somewhat lower level for February 1949 (22 cents per hundredweight less) and that the formula should operate without restriction after such month.

(2) An emergency exists which requires that action be taken promptly to amend the order to effectuate the above findings and conclusions without allowing time for a recommended decision by the Assistant Administrator, Production and Marketing Administration, and the filing of exceptions thereto. The due and timely execution of the functions of the Secretary of Agriculture under the Act imperatively and unavoidably requires the omission of such recommended decision and filing of exceptions thereto.

The testimony showed that under prevailing conditions a further decline in the Class I and Class II prices at this time would have a serious impact on returns for milk produced for the marketing area. Any delay beyond December 1, 1948, in effectuating the needed changes in the order would seriously threaten an adequate supply of pure and wholesome milk for the Tri-State marketing area, would disrupt orderly marketing and would be contrary to the public interest. The amending order cannot be issued and made effective by December 1, 1948, unless the recommended decision and the filing of exceptions thereto are omitted.

(3) *General.* (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, regulate the handling of milk in the same manner and are applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held; and

(c) The prices calculated to give milk produced for sale in the said marketing area purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8e of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for such milk, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest.

Rulings on proposed findings and conclusions. Written arguments and proposed findings and conclusions submitted on behalf of interested persons were considered, along with the evidence in the record, in making the findings and reach-

ing the conclusions herein set forth. To the extent that the proposed findings and conclusions differ from the findings and conclusions contained herein, the specific or implied requests to make such findings are denied because of the reasons stated in support of the findings and conclusions in this decision.

Determination of representative period. The month of September 1948 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order amending the order, as amended, regulating the handling of milk in the Tri-State marketing area, in the manner set forth in the attached amending order is approved or favored by producers who during such representative period were engaged in the production of milk for sale in the marketing area specified in such marketing order, as amended.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled "Marketing Agreement Regulating the Handling of Milk in the Tri-State Milk Marketing Area" and "Order Amending the Order, As Amended, Regulating the Handling of Milk in the Tri-State Marketing Area" which have been decided upon as the appropriate and detailed means of effecting the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

It is hereby ordered, That all of this decision except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached order amending the order, as amended, which will be published with the decision.

This decision filed at Washington, D. C., this 17th day of November 1948.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Order Amending the Order, as Amended, Regulating the Handling of Milk in the Tri-State Marketing Area[1]

§ 972.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure covering the formulation of marketing agreements and orders (7 CFR, Supps., 900.1 et seq.; 12 F. R. 1159, 4904), a public hearing was held on November 1, 1948, upon a certain proposed amendment to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Tri-State marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8e of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which hearings have been held.

The foregoing findings and determinations are supplementary and in addition to the findings and determinations made in connection with the issuance of the aforesaid order and the findings and determinations made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

Order relative to handling. It is therefore ordered that on and after the effective date hereof, the handling of milk in the Tri-State marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. Delete from § 972.5 (b) the proviso contained therein and substitute therefor the following: "*Provided*, That such price for Class I milk shall not be less than $5.00 at Huntington district plants and $4.80 at other plants from the effective date of this amendment through January 31, 1949; and not less than $4.78 at Huntington district plants and $4.58 at other plants for the delivery period of February 1949."

2. Delete from § 972.5 (c) the proviso contained therein and substitute therefor the following: "*Provided*, That such price for Class II milk shall not be less than $4.70 at Huntington district plants and $4.50 at other plants from the effective date of this amendment through January 31, 1949; and not less than $4.48 at Huntington district plants and $4.28 at other plants for the delivery period of February 1949."

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-1670]

PITTSBURGH, CINCINNATI, CHICAGO AND ST. LOUIS RAILROAD CO.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 16th day of November A. D. 1948.

The New York Stock Exchange, pursuant to Section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to strike from registration and listing the Pittsburgh, Cincinnati, Chicago and St. Louis Railway Company Consolidated Mortgage Guaranteed 3½% Bonds Series E due August 1, 1949, of the Pittsburgh, Cincinnati, Chicago and St. Louis Railroad Company.

The application alleges that (1) the above security was issued under a consolidated mortgage dated October 1, 1890, to the Farmers' Loan and Trust Company of New York, Trustee, now known as City Bank Farmers Trust Company; (2) the applicant exchange has been notified from time to time of the retirement of this security through operation of a sinking fund and otherwise; (3) the Trustee of this issue, under date of October 6, 1948, certified to the applicant exchange the cancellation of $470,000 principal amount of these bonds through operation of the sinking fund; (4) this retirement reduced the outstanding principal amount of this security to $74,000; (5) the outstanding amount of this security has been so reduced as to make further dealings therein on the applicant exchange inadvisable; (6) dealings in this security on the applicant exchange were suspended by action of the exchange at the opening of the trading session on October 22, 1948; and (7) the rules of the New York Stock Exchange with respect to the striking of a security from registration and listing have been complied with.

Upon receipt of a request, prior to December 10, 1948, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

UNITED LIGHT & RAILWAYS CO. ET AL.

SUPPLEMENTAL ORDER CONTINUING JURISDICTION WITH RESPECT TO PROPOSED SALE AND PERMITTING SALE AND TRANSFER OF SHARES

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 16th day of November A. D. 1948.

In the matter of the United Light and Railways Company, American Light & Traction Company, et al.; File Nos. 59-11, 59-17 and 54-25.

American Light & Traction Company ("American Light"), a registered holding company, having filed an application-declaration and amendments thereto, in accordance with the applicable provisions of the Public Utility Holding Company Act of 1935 ("act") and the rules promulgated thereunder, with respect to the proposed sale, pursuant to the competitive bidding requirements of Rule U-50 of 192,734 shares of the common stock of the Detroit Edison Company ("Detroit Edison") and the use of the proceeds received from such sale; and

The Commission by order dated November 9, 1948, having granted and permitted to become effective said application-declaration with respect to the proposed sale of 192,734 shares of Detroit Edison common stock, subject to the condition that the sale not be consummated until the results of competitive bidding shall have been made a matter of record in the proceeding and a further order shall have been entered by the Commission in the light of the record so completed, for which purpose jurisdiction was reserved, and subject to the further condition that American Light, prior to the consummation of the proposed sale, file an amendment agreeing that it will take or cause to be taken such action as will result in a severance of all interlocking directorates between it and Detroit Edison, and the Commission having reserved jurisdiction with respect to the fees and expenses to be paid in connection with the proposed sale of Detroit Edison stock and having continued the reservation of jurisdiction contained in its order of December 30, 1947, over the accounting treatment with respect to the proposed sale; and

American Light having filed an amendment stating that in accordance with the order of the Commission dated November 9, 1948 it offered said stock for sale pursuant to the competitive bidding requirements of Rule U-50 and received the following bids:

Name of Bidder	Price per share to company
Blyth & Co	$19.546
The First Boston Corp	19.53999
Coffin & Burr, Inc., and Spencer Trask & Co	19.4499
Otis & Co	18.93

The amendment further stating that the bid of Blyth & Company has been accepted, and that the purchasers propose to offer the stock to the public at $20.125 per share resulting in an underwriting spread of $.579 per share which is equal to 2.96% of the price to the company and 2.88% of the public offering price; and

American Light having filed further amendments agreeing to take or cause to be taken such action as will result in a severance of all interlocking directorates between it and Detroit Edison not later than the next annual meeting of stockholders of Detroit Edison and stating that the fees and expenses to be paid by the company will aggregate $10,050 of which $7,500 represents legal fees to three separate counsel and that the fee of Chadbourne, Hunt, Jaeckel & Brown, New York, counsel for the prospective bidders, will be $4,000 which amount will be paid by the successful bidder; and

It appearing that the estimated fees and expenses proposed to be paid by American Light in connection with the sale of the Detroit Edison common stock aggregating $10,050, including counsel fees payable, $4,500 to Sidley, Austin, Burgess & Harper, $500 to Fischer, Brown, Sprague, Franklin and Ford, and $2,500 to Sullivan and Cromwell and the fees of independent counsel, estimated at $4,000 to be paid by the successful bidder to Chadbourne, Hunt, Jaeckel & Brown are not unreasonable; and

The Commission having examined and considered the record herein and finding that the applicable standards of the act and the rules and regulations thereunder with respect to the sale of said stock have been complied with, and observing no basis for imposing terms and conditions with respect to the price to be received for said stock or the underwriting spread and the allocation thereof:

It is ordered, Subject to the terms and conditions prescribed by Rule U-24, that the application-declaration, as amended, be, and hereby is, granted and permitted to become effective forthwith and that the jurisdiction heretofore reserved with respect to the price to be received by American Light for the 192,734 shares of common stock of Detroit Edison Company, the underwriters' compensation and the fees and expenses to be incurred and paid in connection with said sale, be, and hereby is, released; and

It is further ordered, That the reservation of jurisdiction with respect to the accounting treatment in connection with the proposed sale be, and hereby is, continued.

It is further ordered and recited, That the sale and transfer by American Light of 192,734 shares of Capital Stock of Detroit Edison (represented by Certificate Nos. K-116, K-119, K-138, K-144 and K-146) at the price of $19.546 per share are necessary or appropriate to the integration or simplification of the holding company system of which American Light is a member, and are necessary or appropriate to effectuate the provisions of section 11 (b) of the act.

By the Commission.

Assistant Secretary.

SIOUX CITY GAS AND ELECTRIC CO. AND IOWA PUBLIC SERVICE CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION AND GRANTING AND PERMITTING APPLICATION-DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C. on the 16th day of November 1948.

Sioux City Gas and Electric Company ("Sioux City"), a registered holding company and a public utility company, and its subsidiary, Iowa Public Service Company ("Iowa"), also a public utility company and a registered holding company, having filed a joint application-declaration and amendments thereto, pursuant to sections 6 (a), 7, 9, 10 and 12 (f) of the Public Utility Holding Company Act of 1935 (the "act"), and Rules U-43 and U-50 thereunder, regarding, among other things, the proposed issuance and sale by Iowa, pursuant to the competitive bidding requirements of Rule U-50, of $3,000,000 principal amount of its First Mortgage Bonds, to be dated as of November 1, 1948 and to mature in 1978, and the issuance and sale of 109,866 additional shares of its authorized but unissued $15 par value common stock at a price of not less than $15 per share by means of the issuance of transferable subscription warrants to its common stockholders; and

The Commission having by order dated October 21, 1948, granted and permitted to become effective said joint application-declaration as amended subject, however, to the conditions, among others, that the proposed issuance and sale of bonds and common stock of Iowa should not be consummated until the results of the competitive bidding for the bonds and the subscription price for the common stock of Iowa had been made a matter of record in this proceeding and a further order had been entered by this Commission in the light of the record so completed and the Commission having further reserved jurisdiction with respect to the payment of any and all fees and expenses incurred, or to be incurred, in connection with the proposed issuance and sale of the securities of Iowa; and

Sioux City and Iowa having filed a further amendment herein stating that a subscription price of $15 per share of common stock of Iowa has been fixed and that, pursuant to the invitation for competitive bids, the following bids for the bonds have been received:

Group headed by—	Coupon rate	Price to company	Annual cost of money
	Per cent	*Percent*	*Percent*
Halsey, Stuart & Co. Inc.[1]	3¼	101.07999	3.193778
The First Boston Corp	3¼	101.0799	3.193783
Otis & Co	3¼	100.579	3.219758
Harriman Ripley & Co., Inc.[1]	3¼	100.342	3.232111
Kidder, Peabody & Co.[1]	3¼	100.3099	3.233787
Glore, Forgan & Co	3¼	100.3097	3.233798
Equitable Securities Corp	3¼	100.303	3.234148
Salomon Bros. & Hutzler [1]	3¼	100.1997	3.239544

[1] Sole member of group.

Said amendment having further stated that Iowa has accepted the bid of Halsey, Stuart & Co. Inc., as set out above, and that such bonds will be offered for sale to the public at a price of 101.93% of the principal amount thereof plus accrued interest, resulting in an underwriting spread of 0.85001% of the principal amount of said bonds; and

It appearing to the Commission that the fees and expenses proposed to be paid in connection with the financing of Iowa are not unreasonable, said fees and expenses including counsel fees as follows:

Winthrop, Stimson, Putnam & Roberts (New York counsel for Iowa)	$8,500
Sifford & Wadden (local counsel for Iowa)	2,000
Hughes, Hubbard & Ewing (counsel for the underwriters)	5,000

The Commission having examined said amendment and having considered the record herein and finding no basis for imposing terms and conditions with respect to said matters:

It is ordered, That the jurisdiction heretofore reserved with respect to the subscription price of the common stock and the matters to be determined as the result of competitive bidding in connection with the sale of the said bonds under Rule U-50, be, and the same hereby is, released and that the said joint application-declaration of Sioux City and Iowa as further amended herein be, and the same hereby is, granted and permitted to become effective forthwith, subject however to the terms and conditions prescribed in Rule U-24.

It is further ordered, That the jurisdiction heretofore reserved with respect to the payment of any and all fees and expenses incurred, or to be incurred, in connection with the issuance and sale of the securities of Iowa, be, and the same hereby is, released.

By the Commission.

[Vesting Order 12238]

EDWARD C. HEGELER

In re: Trust u/w of Edward C. Hegeler, deceased. File D-28-7396-G-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Joachim Krache, Horst Krache, Wolfgang Temme, Margarethe Louise Catherine Barkhausen, Anna Johanna Marie Barkhausen Dittman, Heinrich Georg Barkhausen, Elizabeth Paula Emma Barkhausen Mollier, Emma Meta Obkircher, Theodore Choulant, Liddy Schotte, Oscar Schotte, Alexander Schotte, Wilhelm Schotte, Maria Roche and Martha Wohlfarth, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the children or heirs, devisees and legatees, names, unknown of Margarethe Louise Catherine Barkhausen, of Anna Johanna Marie Barkhausen Dittman, of Heinrich Georg Barkhausen, of Elizabeth Paula Emma Barkhausen Mollier, of Emma Meta Obkircher, of Theodore Choulant, of Liddy Schotte, of Maria Roche and of Martha Wohlfarth, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1 and 2 hereof, and each of them, in and to the trust created under the will of Edward C. Hegeler, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

4. That such property is in the process of administration by the Continental Illinois National Bank and Trust Company of Chicago, as Substitute Trustee, acting under the judicial supervision of the Probate Court of the State of Illinois, in and for the County of La Salle;

and it is hereby determined:

5. That to the extent that the persons identified in subparagraphs 1 and 2

hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on October 27, 1948.

PART 2—REVISION, REOPENING, REVIEW OF SETTLEMENTS

PART 4—ACCOUNTS AND CLAIMS

PART 12—ORGANIZATION AND DESIGNATIONS OF EMPLOYEES TO ACT AS OR FOR THE COMPTROLLER GENERAL OF THE UNITED STATES

PART 13—DECISIONS OF THE COMPTROLLER GENERAL OF THE UNITED STATES

MISCELLANEOUS AMENDMENTS

NOVEMBER 17, 1948.

1. Section 2.1 is amended to read as follows:

§ 2.1 *Applications for review; time; requirements.* (a) Settlements made after July 1, 1921, will be reviewed, in the discretion of the Comptroller General, upon the written application of:

(1) A claimant whose claim has been settled.

(2) A disbursing officer whose accounts have been settled.

(3) A certifying officer responsible under the act of December 29, 1941, 55 Stat. 875.

(4) The head of the department or Government establishment to which the claim or account relates.

(5) Upon the motion of the Comptroller General.

(b) Applications for review should state the error or incorrectness of the settlement. An application in general terms will not be sufficient ordinarily to induce the discretion to review, and particularly not where claimant is represented by attorney or agent.

(c) It shall be necessary, unless otherwise directed by the Comptroller General on the presentation of proper facts in the particular case, that the warrant or check issued upon a settlement must not be cashed where its amount includes any item as to which reveiw is applied for, but should accompany the application for review. (Secs. 309 311 (f), 42 Stat. 25; 31 U. S. C. 49, 52 (f))

2. Sections 4.2 and 4.3 are amended to read as follows:

§ 4.2 *Filing of claims.* Claims may be filed with the Claims Division, General Accounting Office, Washington 25, D. C., except that claims of common carriers for transportation services rendered for the account of the United States should be filed with the Transportation Division, General Accounting Office, Washington 25, D. C., and claims pertaining to postal matters including transporting the mails should be filed with the Postal Accounts Division, General Accounting Office, Asheville, North Carolina. No particular form for filing claims, except that prescribed in connection with claims for amounts due deceased persons, is required.

§ 4.3 *Information relating to claims.* Information relating to claims may be obtained by claimants or their authorized representatives by addressing the same division with which the matter was originally filed or the General Accounting Office, 5th and F Streets, N. W., Washington 25, D. C. Interviews will be accorded claimants or their authorized representatives at Room 201, at the latter address. (Sec. 309, 311 (f), 42 Stat. 25; 31 U. S. C. 49, 52 (f))

3. The codification of Parts 12 and 13 is hereby discontinued. Future amendments to these provisions will appear in the Notices section of the FEDERAL REGISTER.

LIMITATION OF SHIPMENTS

§ 959.302 *Limitation of shipments; Regulation No. 2—(a) Findings.* (1) Pursuant to Order No. 59 (7 F. R. 365) regulating the handling of potatoes grown in the Counties of Crook, Deschutes, and Klamath in the State of Oregon, and Modoc and Siskiyou in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of recommendations and information submitted by the Administrative Committee established under said marketing order, and other available information, it is hereby found that such limitation of shipments of potatoes as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) shipments of potatoes grown in the area are already being made in volume for the current season and such shipments will continue in seasonal volume for the next several months, (ii) the limitation of shipments of said potatoes pursuant hereto must be made effective on the date hereinafter set forth to effectuate the declared policy of the act, (iii) information with respect to recommendations of the aforesaid Administrative Committee did not become available until after their meeting on November 17, 1948, (iv) information regarding recommendations of the committee has been disseminated to producers and handlers of potatoes grown in the area and the limitation hereinafter set forth is identical with the recommended limitation, (v) compliance with such limitation does not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof, and (vi) a reasonable time is permitted under the circumstances for such preparation.

(b) *Order.* (1) During the period beginning November 29, 1948 and ending June 30, 1949, both dates inclusive, no handler shall ship potatoes subject to regulation pursuant to Order No. 59 which are of sizes less than 2 inches in diameter or which are of sizes less than 4 ounces in weight, subject to tolerance for size determined in accordance with the U. S. Standards for Potatoes.

(2) Size determinations pursuant hereto shall be in accordance with the U. S. Standards for Potatoes.

(3) Terms used herein shall have the same meaning as when used in Order No. 59 or as when used in the U. S. Standards for Potatoes (12 F. R. 3651). (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

TITLE 15—COMMERCE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

[Allocations Reg. 2, Direction 4A as Amended Nov. 22, 1948]

PART 336—REGULATIONS APPLICABLE TO OPERATION OF THE ALLOCATIONS AND EXPORT PRIORITIES SYSTEM

USE AND EFFECT OF CERTIFIED EXPORT ORDERS FOR NITROGENOUS FERTILIZER MATERIALS (1948–49 EXPORT PROGRAM)

Direction 4A, as amended October 28, 1948, is hereby further amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of nitrogenous fertilizer materials for defense, for private account and for export; and the following direction is deemed necessary and appropriate in the public interest and to promote the national defense and to effectuate the policies set forth in the legislation under which this direction is administered.

Purpose

(a) *Purpose.* This direction explains how the Office of Domestic Commerce, Department of Commerce, will give export priorities assistance for carrying out the 1948–49 nitrogenous fertilizer materials export program. This includes assistance to exporters for getting the materials for export and also assistance to converters for getting anhydrous ammonia needed to fill orders from exporters, if the converters do not produce anhydrous ammonia themselves. The 1948–49 export program is for the shipment of nitrogenous fertilizer materials containing 61,287 short tons of nitrogen, broken down by countries as shown in Table 1 below. The program is based upon international distribution recommendations made by the International Emergency Food Committee of the United Nations. Under these recommendations the United States participation consists of the exports mentioned above (which are the same as for last year) and of imports representing 199,004 short tons of nitrogen (an increase of 11,000 short tons over last year). One-half of the export requirements are to be supplied from Army production, pursuant to Public Law 606, 80th Congress and Public Law 793, 80th Congress.

Assistance for Exporters

(b) *How exporters get assistance.* Export priorities assistance for exporters will consist of authorization to place CXN certified export orders for their materials, which will give such orders the preferential status explained in paragraph (f) below. Except for exports to Canada, this authorization will be issued, upon behalf of ODC, by the Office of International Trade in connection with the issuance of the related export licenses, and exporters desiring to obtain such priorities assistance should apply by letter to the Office of International Trade, Department of Commerce, Washington 25, D. C., Ref.: AR 2, Direction 4A. In these cases authorization to use the symbol CXN will not be given except where an export license is also given. For priorities assistance on exports to Canada, exporters should apply by letter to the ODC.

(c) *How exporters use the symbol CXN.* (1) When an exporter has been authorized in writing by the Office of International Trade to use the symbol CXN on purchase orders for specified quantities of nitrogenous fertilizer materials, he should place on his purchase order the symbol CXN, the export license number given by the Office of International Trade, and the country of destination. In addition, he should furnish to his supplier a certificate, signed manually or as described in Allocations Regulation 1, in substantially the following form:

I certify, subject to the penalties of Section 35A of the United States Criminal Code, that the nitrogenous fertilizer materials covered by this purchase order are within the quantity which the Department of Commerce has authorized me to purchase by orders identified with the symbol CXN for shipment to the specified country of destination, under the export license number specified.

In the case of CXN authorizations for export to Canada, the exporter will not supply an export license number and should delete from his certificate the words "under the export license number specified."

(2) Exporters who have received authorization to place CXN certified orders for ammonium nitrate should communicate with the ODC for instructions as to placing such orders. These instructoins will be based upon the quantities and time schedules for ammonium nitrate to be made available by the Department of the Army under existing law. CXN certified orders for other types of nitrogenous fertilizer materials authorized may be placed with producers of the particular materials or agents of such producers. When an order bearing the

symbol CXN and the certificate is placed with a producer's agent, it has the same effect as though it had been placed with the producer.

Assistance for Converters

(d) *How converters get assistance.* Export priorities assistance for converters will consist of authorization by ODC to place certified orders for anhydrous ammonia needed to fill CXN certified orders received by them from exporters. A "converter" is a person who produces nitrogenous fertilizer materials but does not make any of the nitrogen used in such production.

When a converter has received a CXN certified export order, he should notify the ODC by letter, stating the name of the purchaser, the export license number, the country of destination, the quantity of material ordered, the quantity of anhydrous ammonia needed, and the date by which it should be delivered in order to fill the CXN export order. The ODC will then issue to the converter an authorization to place certified orders for an approved quantity of anhydrous ammonia to the extent available, and will specify whether the ammonia is to be obtained from commercial sources or from Army Ordnance plants.

(e) *How converters use export preference certificates.* When a converter has been authorized, in writing, to place a certified export order for specified quantities of anhydrous ammonia, he should place on his purchase order, a certificate, signed manually or as prescribed in Allocations Regulation 1, in substantially the following form:

I certify, subject to the penalties of Section 35A of the United States Criminal Code, that the anhydrous ammonia covered by this purchase order is within the quantity which the Office of Domestic Commerce has authorized me to purchase by certified export orders in accordance with Direction 4A to Allocations Regulation 2.

Effect of Certified Export Orders

(f) *Effect of certified export orders.* Any purchase order for fertilizer material or for anhydrous ammonia certified under this direction and placed with a commercial supplier must be treated as a certified export order under Allocations Regulation 2, and must be accepted, scheduled and delivered accordingly. The rules of Allocations Regulation 2 apply, except to the extent that this direction is inconsistent with these rules. Paragraph (g) below contains certain special rules which limit the effect of such certified orders under this direction. In the case of certified purchase orders placed with the Department of the Army, the certification serves to identify the orders as eligible for materials to be made available by that Department under existing law.

(g) *Limitation on the effect of certified orders.* The effect of certified export orders is subject to the following limitations intended to minimize their impact upon domestic needs. These limitations apply in all cases, except where otherwise directed by ODC because of special circumstances.

(1) *Time limit on placing certified orders.* Purchase orders for the export of fertilizer materials certified under this direction must be placed with the supplier of the material (a converter or other manufacturer) no later than the close of business on December 15, 1948. Purchase orders certified under this direction for anhydrous ammonia, required to manufacture the certified export order for the fertilizer materials, must be placed with a producer of anhydrous ammonia no later than the close of business on December 31, 1948. All authorizations heretofore issued by OIT and ODC to place certified orders either for the purchase of nitrogenous fertilizer materials or for the purchase of anhydrous ammonia are hereby revalidated, irrespective of the deadline date in effect at the time the authorization was issued. Certified purchase orders for the export of fertilizer materials placed after the close of business on December 15, 1948 and certified orders for anhydrous ammonia placed after the close of business on December 31, 1948, need not be treated as certified orders by the person with whom they are placed.

(2) *Limit to 30% of production in any month.* No commercial supplier need deliver against certified orders in any month more than 30% of his total production of the particular type of material in that month. A certified purchase order calling for more than such 30% of the supplier's total production may not be totally rejected by the supplier for that reason. The order must be accepted and filled up to an amount which, either alone, or when added to other certified orders totals the 30% limit. Any balance over and above such amount need not be treated as part of the certified order.

(3) *Ceiling on orders against producers.* Except in the case of a converter, no producer of nitrogenous compounds (including anhydrous ammonia) or other nitrogenous fertilizer materials need accept purchase orders certified under this direction calling for more nitrogen than 3.25% of his total production of nitrogen (in all forms) during the fertilizer year July 1, 1947–June 30, 1948, if he was in production during the whole of that year. A certified purchase order for nitrogenous compounds (including anhydrous ammonia) or other nitrogenous fertilizer materials, which calls for more than 3.25% of the producer's total production of nitrogen (in all forms) during the fertilizer year July 1, 1947–June 30, 1948, may not be totally rejected by the producer for that reason. It must be accepted and filled by him up to an amount which, either alone or when added to other certified orders totals the 3.25% limit. Any balance over and above such amount need not be treated as part of the certified order.

If such producer of nitrogenous compounds was not in production during the whole of that year, he may request the ODC to establish an appropriate ceiling based on production estimates, in order to limit his general obligation to accept and fill certified orders placed with him.

(4) *Producers from by-product hydrogen.* Because of specialized industrial conditions, persons who produce anhydrous ammonia from by-product hydrogen resulting from electrolytic-cell operations need not accept certified orders under this direction.

Revalidation of Certified Orders Already Placed

(h) *Revalidation of certified orders already placed.* Irrespective of the deadline date of October 31, 1948 specified in Direction 4A to AR 2, as issued on July 22, 1948, any certified purchase order for the export of fertilizer materials and any certified order for anhydrous ammonia, which has been placed with a commercial supplier prior to the date of issue of this Direction 4A as amended (November 22, 1948), must be treated by the supplier as a certified export order and must be accepted, scheduled and delivered accordingly, subject to the limitations specified in paragraphs (g) (2) and (g) (3) above.

General Provisions

(i) *Assistance in finding suppliers.* If any exporter authorized to use the symbol CXN is unable to find a supplier to accept his order, he may apply to the ODC which will, wherever possible, refer him to other suppliers who have available supplies.

(j) *Delegations.* The Office of International Trade, Department of Commerce, may, upon behalf of the ODC, authorize exporters to use the symbol CXN under this direction on purchase orders for nitrogenous fertilizer materials for export (except exports to Canada) but only to the extent under the conditions authorized by the ODC in writing and transmitted to the Office of International Trade. The Office of International Trade may exercise this authority through such of its officials as the Director of that Office may determine.

(k) *Appeals.* Any person who considers that compliance by himself with this direction would work an exceptional and unreasonable hardship on him may appeal to the Office of Domestic Commerce for relief. The appeal must be prepared and presented in conformity to the provisions of Allocations Regulation 3.

(l) *Reports*—(1) *From persons placing certified orders.* Whenever any person places a certified order under this direction, he must immediately notify ODC, in writing, of the names of the suppliers, the tonnages ordered, and the months specified for delivery.

(2) *From producers.* Producers (including converters) of nitrogenous compounds (including anhydrous ammonia) or of nitrogenous fertilizer materials must file such reports as may be required, with the ODC, subject to the approval of the Bureau of the Budget.

(m) *Communications.* Except as otherwise specifically stated above, all communications regarding this order, and all reports under this order, should be addressed to the Chemicals Division, Office of Domestic Commerce, Department of Commerce, Washington 25, D. C., Ref: AR 2, Dir. 4A.

NOTE: The reporting requirements of this direction have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

In Federal Register Document 48-10141, appearing on page 6839 of the issue for Saturday, November 20, 1948, the following correction to amendatory paragraph 2 should be made: Paragraph (B) should read as follows:

(B) Service performed by an individual in, and at the time of, the sale of newspapers or magazines to ultimate consumers, under an arrangement under which the newspapers or magazines are to be sold by him at a fixed price his compensation being based on the retention of the excess of such price over the amount at which the newspapers or magazines are charged to him, whether or not he is guaranteed a minimum amount of compensation for such service, or is entitled to be credited with the unsold newspapers or magazines turned back; or

TITLE 24—HOUSING CREDIT

Chapter VI—Public Housing Administration

PART 610—LOW-RENT HOUSING AND SLUM CLEARANCE PROGRAM: PROCEDURES

REQUIREMENTS FOR URBAN LOW-RENT HOUSING AND SLUM CLEARANCE

Section 610.413[1] is hereby amended, effective immediately, to read as follows:

§ 610.413 *Insurance and bonds during management*—(a) *Coverages.* The required coverages are: fire and extended coverage; earthquake in localities where such insurance is commonly carried; workmen's compensation; owners', landlords' and tenants' public liability (excluding property damage); automobile, owned and non-owned, boiler (if boilers have been installed); burglary and inside robbery; outside robbery; and fidelity bonds. Other types of insurance may be obtained only with the prior written approval of the PHA.

(b) *Limitations.* The Local Authority shall obtain insurance from financially sound and responsible insurance companies for each development in the coverages, types, and amounts or limits prescribed by the PHA. Such insurance shall be payable in such manner, with such insurers, and at such costs as may be approved by the PHA.

Fire and extended coverage insurance and owners', landlords' and tenants' public liability insurance purchased by the Local Authority shall be obtained after inviting competitive bids. In inviting such bids, the Local Authority shall not discriminate against either stock or mutual companies. Insurance shall be awarded to the lowest bidder provided the lowest bid is reasonably within range of the lowest net costs known to be available to the Local Authority. With the prior approval of the PHA, the Local Authority may award the insurance to other than the lowest bidder if the award is made on a bid which is also reasonably within range of the lowest net costs known to be available to the Local Authority, and if the Local Authority determines that such an award is in the best interest of the low-rent housing program in the community. Net cost is construed to mean the estimated cost after deducting from the gross deposit premium any anticipated dividend based on the dividend-paying record of the company for the previous ten years.

Certified duplicate copies of all policies and bonds shall be submitted to the PHA not less than 30 days prior to the effective date thereof for review to determine compliance with these requirements.

(c) *Public liability claims.* Insurance companies shall not be permitted to defend any public liability claim on the ground of immunity of the Local Authority. (50 Stat. 888, as amended; 42 U. S. C. 1401 et seq.)

Chapter VIII—Office of the Housing Expediter

[Controlled Housing Rent Reg.,[1] Amdt. 49]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

CONTROLLED HOUSING RENT REGULATION

The Controlled Housing Rent Regulation (§§ 825.1 to 825.12) is amended in the following respects:

1. Schedule A, item 96a, is amended to describe the counties in the Defense-Rental Area as follows: "In Montgomery County, Union Township and all of New Market."

This decontrols all of the Crawfordsville, Indiana, Defense-Rental Area except Union Township and all of New Market.

2. Schedule A, item 163, is amended to describe the Counties in the Defense-Rental Area as follows: "Adams and Pike."

This decontrols Amite and Wilkinson Counties, State of Mississippi, in the Centreville, Mississippi, Defense-Rental Area.

3. Schedule A, item 333c, is amended to describe the Counties in the Defense-Rental Area as follows: "In Cache County, the Cities of Logan, North Logan, Logan Heights, Providence, Hyde Park and Smithfield."

This decontrols all of the Logan, Utah, Defense-Rental Area except the Cities of Logan, North Logan, Logan Heights, Providence, Hyde Park and Smithfield.

(Sec. 204 (d), 61 Stat. 197, as amended by 62 Stat. 37 and by 62 Stat. 94; 50 U. S. C. App. 1894 (d). Applies sec. 204 (c), 61 Stat. 197, as amended by 62 Stat. 37 and by 62 Stat. 94; 50 U. S. C. App. 1894 (c))

This amendment shall become effective November 23, 1948.

Issued this 18th day of November 1948.

TIGHE E. WOODS,
Housing Expediter.

Statement To Accompany Amendment 49 to the Controlled Housing Rent Regulation

It is the judgment of the Housing Expediter that the need for continuing maximum rents in the portions of the Defense-Rental Areas specified below no longer exists due to the fact that the demand for rental housing accommodations has been reasonably met:

1. All of the Crawfordsville, Indiana, Defense-Rental Area, except Union Township and all of New Market.

2. Amite and Wilkinson Counties, State of Mississippi, in the Centreville, Mississippi, Defense Rental Area.

3. All of the Logan, Utah, Defense-Rental Area, except the Cities of Logan, North Logan, Logan Heights, Providence, Hyde Park and Smithfield.

This amendment is therefore being issued to decontrol said portions of said Defense-Rental Areas in accordance

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

RENT REGULATION FOR CONTROLLED ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS

The Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92) is hereby amended in the following respects:

1. Schedule A, item 96a, is amended to describe the counties in the Defense-Rental Area as follows: "In Montgomery County, Union Township and all New Market."

This decontrols all of the Crawfordsville, Indiana, Defense-Rental Area except Union Township and all of New Market.

2. Schedule A, item 163, is amended to describe the Counties in the Defense-Rental Area as follows: "Adams and Pike."

This decontrols Amite and Wilkinson Counties, State of Mississippi, in the Centreville, Mississippi, Defense-Rental Area.

3. Schedule A, item 333c, is amended to describe the Counties in the Defense-Rental Area as follows: "In Cache County, the Cities of Logan, North Logan, Logan Heights, Providence, Hyde Park and Smithfield."

This decontrols all of the Logan, Utah, Defense-Rental Area except the Cities of Logan, North Logan, Logan Heights, Providence, Hyde Park and Smithfield.

(Sec. 204 (d), 61 Stat. 197, as amended by 62 Stat. 37 and by 62 Stat. 94; 50 U. S. C. App. 1894 (d). Applies sec. 204 (c), 61 Stat. 197, as amended by 62 Stat. 37 and by 62 Stat. 94; 50 U. S. C. App. 1894 (c))

This amendment shall become effective November 23, 1948.

Issued this 18th day of November 1948.

TIGHE E. WOODS,
Housing Expediter.

Statement To Accompany Amendment 49 to the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments

It is the judgment of the Housing Expediter that the need for continuing maximum rents in the portions of the Defense-Rental Areas specified below no longer exists due to the fact that the demand for rental housing accommodations has been reasonably met:

1. All of the Crawfordsville, Indiana, Defense-Rental area, except Union Township and all of New Market.

2. Amite and Wilkinson Counties, State of Mississippi, in the Centreville, Mississippi, Defense-Rental Area.

3. All of the Logan, Utah, Defense-Rental Area, except the Cities of Logan, North Logan, Logan Heights, Providence, Hyde Park and Smithfield.

This amendment is therefore being issued to decontrol said portions of said Defense-Rental Areas in accordance with section 204 (c) of the Housing and Rent Act of 1947, as amended.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[T. D. 5670]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

DISTRIBUTIONS BY PERSONAL HOLDING COMPANIES

On July 29, 1948, notice of proposed rule making, relating to distributions by personal holding companies, was published in the FEDERAL REGISTER (13 F. R. 4361). No objections to the rules proposed having been received, the following amendments to Regulations 111 (26 CFR, Part 29) are hereby adopted. Such amendments are necessary in order to conform Regulations III to Public Law 113 (80th Congress, 1st Session), approved June 25, 1947, relating to distributions by personal holding companies.

PARAGRAPH 1. There is inserted immediately preceding § 29.115–1 the following:

PUBLIC LAW 113 (EIGHTIETH CONGRESS, FIRST SESSION), APPROVED JUNE 25, 1947

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the last sentence of section 115 (a) of the Internal Revenue Code is amended to read as follows: "In the case of a corporation which, under the law applicable to the taxable year in which the distribution is made, is a personal holding company, or which, for the taxable year in respect of which the distribution is made under section 504 (c) or section 506 or a corresponding provision of a prior income-tax law, is a personal holding company under the law applicable to such taxable year, such term also means any distribution (whether or not a dividend as defined in the preceding sentence) to its shareholders, whether in money or in other property, to the extent of its subchapter A net income, less the sum of the following:

"(1) The net operating loss credit provided in section 26 (c) (1);

"(2) The dividend carry-over provided in section 27 (c); and

"(3) The deduction for amounts for retirement of indebtedness provided in section 504 (b)."

SEC. 2. The amendment made by section 1 shall be effective for all taxable years beginning after December 31, 1943.

SEC. 3. No interest shall be allowed or paid in respect of any overpayment of tax resulting from the foregoing amendment.

PAR. 2. Section 29.115–1, as amended by Treasury Decision 5377, approved June 6, 1944, is amended as follows:

(A) By striking out the second paragraph and inserting in lieu thereof the following:

§ 29.115–1 *Dividends.* • • •

In the case of a corporation which, under the law applicable to the taxable year in which a distribution is made, is a personal holding company or which, for the taxable year in respect of which a distribution is made under section 504 (c), relating to dividends paid within 2½ months after the close of the taxable year, or section 506, relating to deficiency dividends, or corresponding provisions of a prior income-tax law, was under the applicable law a personal holding company, the term "dividend", in addition to the meaning set forth in the first sentence of section 115 (a), also means the following distributions to its shareholders:

(1) A distribution within a taxable year of the corporation, and of a shareholder, both of which taxable years begin prior to January 1, 1944, is a dividend (except as hereinafter indicated) to the extent of the corporation's subchapter A net income for the taxable year in which, or, in the case of a distribution under section 504 (c) or section 506, the taxable year in respect of which, the distribution is made.

(2) A distribution within a taxable year of the corporation, or of a shareholder, where either taxable year begins after December 31, 1943, is a dividend to the extent of the corporation's subchapter A net income less the sum of the net operating loss credit provided in section 26 (c) (1), the dividend carry-over provided in section 27 (c), and the deduction for amounts for retirement of indebtedness provided in section 504 (b), for the taxable year in which, or, in the case of a distribution under section 504 (c) or section 506, the taxable year in respect of which, the distribution is made. Thus, in the case of a distribution in April, 1944, by a corporation reporting on a calendar year basis to a shareholder reporting on the basis of a fiscal year ending June 30, 1944, the taxable year of the corporation begins after December 31, 1943, and the April, 1944, distribution is a dividend, in the case of the corporation and the shareholder alike, only to the extent of the corporation's subchapter A net income reduced by the specified credits. Similarly, in the case of a distribution in April, 1944, by a corporation reporting on the basis of a fiscal year ending June 30, 1944, to a shareholder reporting on the calendar year basis, the taxable year of the shareholder begins after December 31, 1943, and the April, 1944, distribution will constitute a dividend, in the case of the corporation and the shareholder alike, only to the extent of the corporation's subchapter A net income reduced by the specified credits.

No interest shall be allowed or paid in respect of any overpayment of tax resulting from the amendment to section 115 (a) made by Public Law 113 (80th Congress). For treatment of any distribution made prior to October 21, 1942, which is a dividend solely by reason of the last sentence of section 115 (a) prior to its amendment by Public Law 113, see § 29.504–3.

The term "dividend" does not include distributions under section 115 (c), relating to distributions in liquidation, section 115 (e), relating to distributions by personal service corporations, or section 115 (f), relating to stock dividends, or certain distributions by insurance companies (see section 115 (a)). In all other cases the term includes any distribution to shareholders to the extent made out of accumulated or current earnings or profits.

(B) By striking out example (3) and inserting in lieu thereof the following:

Example (3). In 1944, a deficiency in personal holding company tax was established against the O Corporation for the taxable year 1940 in the amount of $34,430 based on an undistributed subchapter A net income of $42,000 which consisted of a subchapter A net income of $52,000 minus a deduction of $10,000 for amounts used for retirement of indebtedness provided in section 504 (b). The O Corporation complied with the provisions of section 506 and in December 1944 distributed $42,000 to its stockholders as "deficiency dividends". The distribution of $42,000 is a taxable dividend since it does not exceed $42,000 (subchapter A net income of $52,000 for 1940, the taxable year with respect to which the distribution was made, minus the deduction for retirement of indebtedness of $10,000). It is immaterial whether the O Corporation is a personal holding company for the taxable year 1944 or whether it had any income for that year.

Example (4). At the beginning of the taxable year 1946, the P Corporation, a personal holding company, had a deficit in earnings and profits of $200,000. During that year it made earnings and profits of $55,000. For that year, however, it had a subchapter A net income of $100,000, a net operating loss credit under section 26 (c) (1) of $10,000 and a deduction for retirement of indebtedness under section 504 (b) of $10,000. During such taxable year it distributed to its shareholders $100,000. The distribution of $100,000 is a taxable dividend to the extent of $80,000 (subchapter A net income of $100,000 minus the net operating loss credit of $10,000 and the deduction for retirement of indebtedness of $10,000). No interest shall be allowed or paid in respect of any overpayment of tax resulting from the inclusion in taxable income by any shareholder of his proportionate share of the distribution of $100,000.

Example (5). If the facts were the same as in example (4) except that the P Corporation had earnings and profits for the taxable year 1946 of $90,000, the distribution of $100,000 would be a taxable dividend to the extent of $90,000 since its earnings and profits for that year, $90,000, exceed $80,000 (subchapter A net income of $100,000 minus the net operating loss credit of $10,000 and the deduction for retirement of indebtedness of $10,000).

PAR. 3. Section 29.27 (i)–1, as amended by Treasury Decision 5458, approved June 15, 1945, is amended by striking out examples (1) and (2) and inserting in lieu thereof the following examples:

§ 29.27 (i)–1 *Nontaxable distributions.* • • •

Example (1). A, B, and C are shareholders of the Y Corporation, a personal holding company, which makes its returns on the basis of a fiscal year ending July 31. A is an educational corporation exempt from income tax under section 101. On July 15, 1944, the Y Corporation distributed $90,000 in cash to its shareholders, $30,000 to each. The Y Corporation had a deficit in earnings and profits as of the beginning of its taxable year in the amount of $200,000, but had a subchapter A net income for the taxable year in the amount of $90,000. Its earnings and profits for the taxable year were only $50,000. It was entitled under section 26 (c) (1) to a net operating loss credit of $30,000. B makes his return on the calendar year basis, but C makes his return on the basis of a fiscal year ending July 31. Since B is subject to taxation under the income tax provisions of the Code with respect to taxable receipts realized in July 1944, and since his taxable year began after December 31, 1943, the $30,000 distribution received by him from the Y Corporation will constitute a taxable dividend in his hands only to the extent of $20,000, the amount of $30,000 reduced by a proportionate part of the net operating loss with respect to the distribution on July 15, accordingly, will be entitled to an allowance for dividends paid in the amount of $80,000 with respect to the distribution on July 15.

Example (2). If the facts in the preceding example are the same, except that C makes his return on the calendar year basis, the Y Corporation is entitled to an allowance for dividends paid in the amount of $70,000 with respect to the distribution on July 15.

PAR. 4. This Treasury decision shall be effective on the 31st day after the date of its publication in the FEDERAL REGISTER.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Order 348]

PART 50—ORGANIZATION AND PROCEDURE

DELEGATIONS OF AUTHORITY TO THE REGIONAL ADMINISTRATORS, MANAGERS, AND CLASSES OF EMPLOYEES IN SPECIFIED MATTERS

NOVEMBER 15, 1948.

1. *Delegations to regional administrators.* A new subparagraph (1) is added to paragraph (a) of § 50.451, to read as follows:

§ 50.451 *Functions with respect to various statutes* (a) • • •

(1) Applications to lease public lands for grazing purposes under section 15 of the act of June 28, 1934 (48 Stat. 1275; 43 U. S. C. 315m), as amended, and the issuance, modification, renewal, assignment, or cancellation of such leases, the disposition of protests and conflicting applications, the issuance of permits or the execution of cooperative agreements for the construction and maintenance of improvements on lands so leased, and determinations as to the value of such improvements. The authority granted to the Director by this subparagraph may be redelegated by him to any employee of the Bureau of Land Management by an order published in the FEDERAL REGISTER. (R. S. 161, 453, 2478; 5 U. S. C. 22, 43 U. S. C. 2, 1201)

2. *Delegations to the managers.* A new subparagraph (1) is added to paragraph (a) of § 50.501 to read as follows:

§ 50.501 *Functions with respect to various statutes* (a) • • •

(1) (See § 50.601)

3. *Delegation to classes of employees in specified matters.* A new section is added as follows:

§ 50.601 *Grazing leases; permits and cooperative agreements in connection with lands under section 15 grazing leases.* The managers of district land offices, district graziers, and district foresters may act, with respect to areas designated by the regional administrator, as signing officers in relation to the following classes of matters in accordance with applicable regulations and procedures, without obtaining the approval of the Director or regional administrator, unless the Director or regional administrator in any particular matter determines otherwise, subject in any event to an appeal to the Director and from his decision to the Secretary in accordance with the rules of practice:

Applications to lease public lands for grazing purposes under section 15 of the act of June 28, 1934 (48 Stat. 1275; 43 U. S. C. 315m), as amended, and the issuance, modification, renewal, assignment, or cancellation of such leases, the disposition of protests and conflicting applications, the issuance of permits or the execution of cooperative agreements for the construction and maintenance of improvements on lands so leased, and determinations as to the value of such improvements.

Production and Marketing Administration

[7 CFR, Part 953]

LEMONS GROWN IN CALIFORNIA AND ARIZONA

GENERAL NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO APPROVAL OF BUDGET OF EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1948–1949 FISCAL YEAR

Consideration is being given to the following proposals submitted by the Lemon Administrative Committee, established under Marketing Agreement No. 94, as amended, and Order No. 53, as amended (7 CFR, Cum. Supp., 953.1 et seq.; 13 F. R. 766), regulating the handling of lemons grown in the State of California or in the State of Arizona, as the agency to administer the terms and provisions thereof; (1) that the Secretary of Agriculture find that expenses not to exceed $124,845 will be necessarily incurred during the fiscal year November 1, 1948, to October 31, 1949, for the maintenance and functioning of the said committee under the aforesaid amended marketing agreement and order, and (2) that the Secretary of Agriculture fix, as the share of such expenses which each handler who first handles lemons shall pay in accordance with the aforesaid amended marketing agreement and order during the aforesaid fiscal year, the rate of assessment at one and one-half cents ($0.015) per box of lemons, or an equivalent quantity of lemons, handled by him as the first handler thereof during said fiscal year.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals shall file the same with the Director, Fruit and Vegetable Branch, Production and Marketing Administration, Room 2077, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after the publication of this notice in the FEDERAL REGISTER. All documents should be filed in quadruplicate.

As used herein, "handler," "handles," "handled," "box," and "lemons" shall each have the respective meaning as when used in the amended marketing agreement and order.

[Docket No. AO-198]

HANDLING OF RAISINS PRODUCED FROM RAISIN VARIETY GRAPES GROWN IN CALIFORNIA

NOTICE OF HEARING WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR and Supps., 900.1 et seq.; 12 F. R. 1159, 4904), notice is hereby given of a public hearing to be held with respect to a proposed marketing agreement and a proposed marketing order regulating the handling of raisins produced from raisin variety grapes grown in California. Such hearing will be held at 1401 Fulton Street, 10th Floor Auditorium, Fresno, California, beginning at 9:30 a. m., P. s. t., December 13, 1948. The proposed marketing agreement and order have not received the approval of the Secretary of Agriculture.

This public hearing will be held for the purpose of receiving evidence with respect to the economic and marketing conditions relating to the provisions of the proposed marketing agreement and order which is hereinafter set forth and any appropriate modifications thereof. The Raisin Working Committee, a committee of California raisin producers and handlers, proposed the following marketing agreement and order regulating the handling of raisins produced from raisin variety grapes grown in California and requested a hearing thereon (the provisions identified with an asterisk (*) apply only to the proposed marketing agreement and not to the proposed marketing order):

§ 989.1 *Definitions.* As used herein, the following terms have the following meanings:

(a) "Secretary" means the Secretary of Agriculture of the United States, or any other officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

(b) "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

(c) "Person" means an individual, partnership, corporation, association, or any other business unit.

(d) "Area" means the State of California.

(e) "Raisin variety grapes" means grapes of the Thompson Seedless (or Sultanina), Muscat of Alexandria (or Muscat), Muscatel Gordo Blanco (or Muscat), Black Corinth (or Zante Currant), White Corinth (or Zante Currant), or Seedless Sultana (or Sultana) variety, grown in the area.

(f) "Raisins" means any raisin variety grapes from which a part of the natural moisture has been removed.

(g) "Bleached raisins" means any raisins which have been produced by soda dipping, with or without oil, or by such soda dipping and bleaching, whether sun-dried or dehydrated.

(h) "Golden Bleached raisins" means bleached raisins the production of which includes sulphur-bleaching and artificial dehydration.

(i) "Natural condition raisins" means raisins which have been produced by sun-drying or drying by artificial heat, with or without bleaching, but which have not been otherwise processed or prepared for market.

(j) "Packed raisins" means raisins which have been cleaned, sorted, stemmed, seeded, and placed in any container customarily used in the marketing of raisins or in any container suitable or usable for such marketing.

(k) "Varietal type" means natural (sun-dried) Thompson Seedless, natural (sun-dried) Muscat, natural (sun-dried) Sultana, natural (sun-dried) layer Muscat, Golden Bleached, Sulphur Bleached, Soda Dipped, or Valencia raisins.

(l) "Pack" means to perform the function of a packer.

(m) "Packer" means any person who acquires raisins and cleans, sorts, stems, seeds, or packs them for market as raisins.

(n) "Producer" is synonymous with "grower" and means any person engaged in the business of producing raisins.

(o) "Dehydrator" means any person who produces raisins by dehydrating raisin variety grapes by means of artificial heat.

(p) "Processor" means any person who acquires raisins and produces any product in which raisins are an ingredient or converts them, or any part thereof, to a different form and markets and/or distributes such product or the product of such conversion.

(q) "Handler" means any packer, dehydrator, or processor.

(r) "Acquire" means to obtain possession of raisins by dehydrating raisin variety grapes by means of artificial heat or by receiving raisins from producers and includes, but is not limited to, raisins received under a contract or arrangement for toll packing, toll dehydrating, or toll processing, whether or not received or placed in a pool with other raisins, and raisins received by a cooperative association, and, in the case of a handler producing raisins, includes all raisins produced by him when they are placed in sweat boxes or other containers in which raisins are customarily stored prior to packing or processing or in such containers as are suitable or usable for such storage.

(s) "Board" means the Raisin Advisory Board established pursuant to § 989.2.

(t) "Committee" means the Raisin Administrative Committee established pursuant to § 989.3.

(u) "Ton" means a short ton of 2,000 pounds.

(v) "Crop year" is synonymous with "fiscal period" and means the twelve month period beginning August 15 of any year and ending August 14 of the following year, both dates inclusive.

(w) "District" means any one of the geographical areas specified in paragraph (a) (1) of § 989.2.

(x) "File" means receipt by the Secretary or by a telegraph company as shown by the time of filing recorded by such company or by a post office as shown by the postmark affixed by such office.

§ 989.2 *Raisin Advisory Board*—(a) *Establishment, membership, and term of office.* (1) A Raisin Advisory Board is hereby established consisting of 46 members, of whom 36 shall be producers, seven shall be packers, two shall be dehydrators, and one shall be a processor. The 36 producers shall be selected in the number and for the counties and districts as set forth in Exhibit A which is attached hereto and made a part hereof. For each member of the Board there shall be an alternate member who shall have the same qualifications as the member for whom he is the alternate. No person shall be selected or continue to serve as a member or alternate member of the Board who is not actively engaged either in the business of the group which he represents or as an officer, agent, or employee of a business unit engaged in such business.

(2) One-third of the producer members and producer alternate members of the Board initially selected hereunder by the Secretary shall hold office for a period beginning on the first day of June 1949 and ending on the last day of May 1950 and until the respective successor is selected and has qualified. One-third of the producer members and producer alternate members of the Board initially selected hereunder by the Secretary shall hold office for a period beginning on the first day of June 1949 and ending on the last day of May 1951 and until the respective successor is selected and has qualified. One-third of the producer members and producer alternate members of the Board initially selected hereunder by the Secretary shall hold office for a period beginning on the first day of June 1949 and ending on the last day of May 1952 and until the respective successor is selected and has qualified. The persons to hold office as producer members and producer alternate members for the respective terms of office specified above shall be determined by the drawing of lots by those persons selected by the Secretary as producer members and alternate members pursuant to paragraph (c) of this section. The term of office of succeeding producer members and producer alternate members of the Board shall be three years, but each such member and alternate member shall continue to serve until the respective successor is selected and has qualified. All members and alternate members shall be nominated and selected as hereinafter provided.

(3) The term of office of the packer members, packer alternate members, dehydrator members, dehydrator alternate members, processor members, and processor alternate members shall be three years. The initial term of such members and alternate members shall begin on the first day of June 1949 and end on the last day of May 1952.

(b) *Nomination.* (1) Nominations for each of the initial producer, packer, dehydrator, or processor members and alternate members of the Board may be submitted to the Secretary by producers, packers, dehydrators, or processors, respectively; and such nominations may be made by means of meetings of groups of such persons. Such nominations shall be filed with the Secretary not later than 15 calendar days after the effective date hereof but may be filed prior thereto. In the event nomination for a member or alternate member of the Board is not filed pursuant to and within the time specified herein, the Secretary may select such member or alternate member without regard to nomination but such selection shall be on the basis of the producer, packer, dehydrator, and processor representations set forth in paragraph (a) (1) of this section.

(2) Nominations for successor members and alternate members of the Board shall be made as hereinafter set forth:

(i) The Board shall give public notice of a meeting, or meetings, of producers, packers, dehydrators, and processors, respectively, for the purpose of making nominations for members and alternate member positions to be filled on the Board.

(ii) Only producers who produced raisins during the then current crop year in the district for which nominations are to be made may nominate, or vote for, any producer member or producer alternate member for such district. Any producer who produced raisins during the then current crop year in any of the districts may be nominated to represent any district as producer member or producer alternate member of the Board. Producers eligible to participate in a nomination, as herein specified, may nominate one or more eligible producers for each producer member position to be filled on the Board and one or more eligible producers as alternate for each person nominated for a producer member position. Each producer shall cast only one vote with respect to each nomination in which he is eligible to participate. The person receiving the most votes with respect to each producer member or producer alternate member position shall be the person to be certified to the Secretary as the nominee for each such position.

(iii) Only packers who packed raisins during the then current crop year may nominate, or vote for, packer members or packer alternate members. Packers eligible to participate in a nomination may nominate one or more packers for each packer member position to be filled on the Board and one or more packers as alternate for each person nominated for a packer member position. Each packer shall cast only one vote with respect to each nomination in which he is eligible to participate. The person receiving the most votes with respect to each packer member or packer alternate member position shall be the person to be certified to the Secretary as the nominee for each such position.

(iv) Only dehydrators who dehydrated raisins during the then current crop year may nominate, or vote for, dehydrator members or dehydrator alternate members. Dehydrators eligible to participate in a nomination may nominate one or more dehydrators for each dehydrator member position to be filled on the Board and one or more dehydrator as alternate for each person nominated for a dehydrator member position. Each dehydrator shall cast only one vote with respect to each nomination in which he is eligible to participate. The person receiving the most votes with respect to each dehydrator member or dehydrator alternate member position shall be the person to be certified to the Secretary as the nominee for each such position.

(v) Only processors who processed raisins during the then current crop year may nominate, or vote for, processor members or processor alternate members. Processors eligible to participate in a nomination may nominate one or more processors for the processor member position to be filled on the Board and one or more processors as alternate for each person nominated for a processor member position. Each processor shall cast only one vote with respect to each nomination in which he is eligible to participate. The person receiving the most votes with respect to the processor member or processor alternate member position shall be the person to be certified to the Secretary as the nominee for each such position.

(vi) Each vote cast shall be on behalf of the person voting, his agents, subsidiaries, affiliates, and representatives. Voting at each meeting shall be in person. The result of each ballot at each such meeting shall be announced at that meeting.

(vii) All such nominations shall be certified by the Board to the Secretary on or before the tenth day of May immediately preceding such crop year.

(c) *Selection.* In selecting the members of the Board, the Secretary shall select producer, packer, dehydrator, and processor members and alternate members in the number and with the qualifications hereinabove specified. Such selections may be made from the nominations certified pursuant to paragraph (b) of this section or from other producers, handlers, dehydrators, and processors, but each such selection shall be made on the basis of the producer, packer, dehydrator, and processor representations set forth in paragraph (a) (1) of this section.

(d) *Failure to nominate.* In the event nomination for a member or alternate member on the Board is not certified pursuant to, and within the time specified in this section, the Secretary may select such member or alternate member without regard to nomination but such selection shall be on the basis of the producer, packer, dehydrator, and processor representations set forth in paragraph (a) (1) of this section.

(e) *Acceptance.* Each person selected by the Secretary as a member or as an alternate member of the Board shall, prior to serving on the Board, qualify by filing with the Secretary a written acceptance within 15 calendar days after being notified of his selection.

(f) *Alternate members.* An alternate for a member of the Board shall act in the place and stead of such member (a) during his absence, and (b), in the event of his removal, resignation, disqualification, or death, until a successor for such member's unexpired term has been selected and has qualified.

(g) *Vacancies.* To fill any vacancy occasioned by the failure of any person selected as a member, or as an alternate member, of the Board to qualify, or in the event of removal, resignation, disqualification, or death of any member or alternate member, a successor for such person's term shall be nominated and selected in the manner set forth in this section insofar as such provisions are applicable. If nomination to fill any vacancy is not made within 20 calendar days after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations, but on the basis of the producer, packer, dehydrator, and processor representations set forth in paragraph (a) (1) of this section.

(i) *Duties.* The duties of the Board shall consist of the conducting of meetings for the purpose of filling vacancies on the Board and the certifying of nominations made for such purpose to the Secretary, the making of nominations to the Secretary, as provided in § 989.3, for member and alternate member positions of the Raisin Advisory Committee, and the making of recommendations to such committee with respect to operations hereunder.

(j) *Procedure.* (1) Except as otherwise provided herein, all decisions of the Board shall be by majority vote of the members present. The presence of not less than 19 producer members and not less than five members other than producer members shall be required to constitute a quorum.

(2) The Board shall give to the Secretary the same notice of meetings of the Board as it gives to its members.

§ 989.3 *Raisin Administrative Committee*—(a) *Establishment.* A Raisin Administrative Committee is hereby established, to administer the terms and provisions hereof, consisting of 14 members of whom eight shall be producers, four shall be packers, one shall be a dehydrator, and one shall be a processor. For each member of the committee there shall be an alternate member who shall have the same qualifications as the member for whom he is the alternate. No person shall be selected or continue to serve as a member or alternate member of the committee who is not actively engaged either in the business of the group which he represents or as an officer, agent, or employee of a business unit engaged in such business.

(b) *Term of office.* Members and alternate members of the committee shall serve for terms of one year ending the last day of May, but each such member and alternate member shall continue to serve until the respective successor is selected and has qualified. Nominations for initial members and alternate members of the committee shall be submitted by the Board to the Secretary not later than 15 calendar days after the establishment of the Board. Nominations for successor members and alternate members of the committee shall be submitted by the Board to the Secretary not later than the last day of May immediately preceding the crop year with respect to which they are submitted.

(c) *Nomination.* The producer members of the Board, and producer alternate members when acting as members, shall nominate from among such producer members and producer alternate members, eight persons for producer positions on the committee, one of whom shall be a producer who has produced raisin variety grapes which were used in the production of bleached raisins and seven of whom shall be producers of raisins other than bleached raisins, and an alternate for each such person. The packer members of the Board, and packer alternate members when acting as members, shall nominate from among such packer members and packer alternate members, four persons for packer member positions on the committee, and an alternate for each such person. The dehydrator members of the Board, and dehydrator alternate members when acting as members, shall nominate from among such dehydrator members and dehydrator alternate members, one person for the dehydrator member position on the committee, and an alternate for such person. The processor member, or processor alternate member when acting as member, shall nominate from among such processor member and processor alternate member, one person for the processor member position on the committee and an alternate for such person.

(d) *Failure to nominate.* In the event any of the groups entitled hereunder to submit nominees to the Secretary shall fail to do so within twenty calendar days after the time hereinbefore specified, the Secretary may select each such member or alternate member of the committee without regard to nominations, but each such selection shall be on the basis of the producer, packer, dehydrator, and processor representations set forth in paragraph (a) of this section.

(e) *Acceptance.* Each person selected by the Secretary as a member or as an alternate member of the committee shall, prior to serving on the committee, qualify by filing with the Secretary, within fifteen calendar days after being notified of such selection, a written acceptance thereof.

(f) *Alternate members.* An alternate for a member of the committee shall act in the place and stead of such member (a) during his absence and (b), in the event of his removal, resignation, disqualification, or death, until a successor for such member's unexpired term has been selected and has qualified.

(g) *Vacancies.* To fill any vacancy occasioned by the failure of any person selected as a member, or as an alternate member, of the committee to qualify, or in the event of the removal, resignation, disqualification, or death of any member or alternate member, a successor for such member's or alternate member's unexpired term shall be nominated and selected in the manner set forth in this section, insofar as such provisions are applicable. If nomination to fill any such vacancy is not made within twenty calendar days after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations.

(h) *Compensation and expenses.* The members of the Raisin Administrative Committee and the Raisin Advisory Board, and the alternate members when acting as members, shall serve without compensation, but shall be allowed their necessary expenses as approved by the committee.

(i) *Powers.* The committe shall have the following powers:

(1) To administer the terms and provisions hereof;

(2) To make rules and regulations to effectuate the terms and provisions hereof;

(3) To receive, investigate, and report to the Secretary complaints of violations hereof; and

(4) To recommend to the Secretary amendments hereto.

(j) *Duties.* The committee shall have, among other things, the following duties:

(1) To act as intermediary between the Secretary and any producer, packer, dehydrator, or processor;

(2) To keep minutes, books, and other records which will clearly reflect all of its acts and transactions, and such minutes, books, and other records shall be subject to examination by the Secretary at any time;

(3) To make, subject to approval by the Secretary, scientific and other studies, and assemble data on the producing, handling, shipping, and marketing conditions relative to raisins which are necessary in connection with performance of its official duties;

(4) To submit to the Secretary, at his request, such available information with respect to raisins and raisin variety grapes as he may request;

(5) To select from among its members a chairman and other officers, and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(6) To appoint or employ such other persons as it may deem necessary, and to determine the salaries and define the duties of each such person;

(7) Prior to the beginning of each crop year, and not later than the fifteenth day of July, to submit to the Secretary a budget of its anticipated expenses and the proposed assessments for such crop year, together with a report thereon;

(8) To cause the books of the committee to be audited by one or more certified public accountants, at least once each crop year, and at such other times as the committee may deem necessary or as the Secretary may request; and the report of each such audit shall show, among other things, the receipt and expenditure of funds pursuant hereto; and at least two copies of each such audit report shall be submitted to the Secretary; and

(9) To prepare monthly statements of the financial operations of the committee and make such statements, together with the minutes of the meeting of said committee, available for inspection by producers, packers, dehydrators, and processors at the office of such committee.

(k) *Obligation.* Upon the removal, resignation, disqualification, or expiration of the term of office of any member or alternate member of the committee, such member or alternate member shall account for all receipts and disbursements and deliver to his successor, to the committee, or to a designee of the Secretary all property (including, but not limited to, all books and records) in his possession or under his control as member or alternate member, and he shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor, committee, or designee full title to such property and funds, and all claims vested in such member or alternate member. Upon the death of any member or alternate member of the committee, full title to such property, funds, and claims vested in such member or alternate member shall be vested in his successor or, until such successor has been selected and has qualified, in the committee.

(l) *Procedure.* (1) All decisions of the committee shall be by majority vote of the members present. The presence of nine members shall be required to constitute a quorum.

(2) The committee shall give to the Secretary the same notice of meetings of the committee as it gives to its members.

§ 989.4 *Regulation*—(a) *Marketing policy.* (1) Prior to the beginning of each crop year and not later than July 5, the committee shall hold a meeting to formulate and adopt a proposed marketing policy for the marketing of raisins in the next succeeding crop year. Reasonable notice, through newspapers having general circulation in the area, shall be given to producers and handlers of each such meeting and each such meeting shall be open to them.

(2) Not later than ten days after the holding of each such aforesaid meeting, the committee shall prepare a detailed report setting forth the proposed marketing policy with respect to the handling of raisins during such crop year and shall file such report with the Secretary, together with all data and information used by the committee in the formulation of such proposed marketing policy, including the recommendations of the Raisin Advisory Board in respect thereto, if any are made. In the event the committee subsequently deems it advisable to modify such proposed marketing policy, because of changed demand or supply conditions, it shall file a report with the Secretary showing each modification and the reasons therefor.

(3) The committee shall give reasonable notice to producers and handlers of the contents of each such report submitted to the Secretary. Copies of all such reports shall be maintained in the office of the committee where they shall be available for examination by producers and handlers.

(b) *Recommendations for designation of percentages.* (1) If the committee concludes that the supply and demand conditions for raisins make it advisable to designate the percentage of raisins acquired by handlers in any crop year, which shall be (i) free tonnage, (ii) reserve tonnage, and (iii) surplus tonnage, respectively, it shall recommend such percentages to the Secretary. The committee may recommend such percentages separately for each varietal type or any group of varietal types. Such percentages for each varietal type or group of varietal types shall, when taken together, equal 100. Together with any such recommendation, the committee shall submit the findings and information on the basis of which such recommendation was made. In the event the committee subsequently deems it desirable to modify, suspend, or terminate any designation by the Secretary of such percentages, it shall submit to the Secretary its recommendation and the information on the basis of which such modification, suspension, or termination is recommended.

(2) In determining the percentages of raisins acquired by handlers in any crop year, to be designated as free tonnage, reserve tonnage, and surplus tonnage, respectively, the committee shall give due consideration to the following factors: (i) the supply of raisins, comprising the estimated carryover of raisins from preceding crop years held by producers and handlers and the estimated tonnage of raisins to be produced in such crop year; (ii) the current prices being received for raisins by producers and handlers; (iii) the trend and level of consumer income; and (iv) present and prospective price trends, as well as other pertinent economic and marketing factors relative to raisins. Such percentages shall not apply to raisins produced prior to August 14, 1949, and held by or for the account of a producer.

(3) The committee shall give reasonable notice, through newspapers having general circulation in the area, to handlers and producers, of each meeting to consider the recommendation of the percentages to be designated pursuant to this section, and of each recommendation submitted to the Secretary.

(4) The first recommendation with respect to any crop year beginning after August 14, 1949, shall be filed with the Secretary not later than the preceding July 15.

(c) *Regulation by the Secretary.* (1) Whenever the Secretary finds from the recommendations and supporting information supplied by the committee, and any other available information, that to designate the percentages of raisins acquired by handlers during such crop year which shall be free tonnage, reserve tonnage, and surplus tonnage, respectively, would tend to effectuate the declared policy of the act, he shall so designate the percentage of raisins acquired by handlers during such crop year which shall be free tonnage, reserve tonnage, and surplus tonnage, respectively. Any such percentages designated with respect to the crop year ending on August 14, 1950, shall not apply to raisins produced during the preceding crop year and held by or for the account of a producer. In the event the Secretary finds from the recommendations and supporting information supplied by the committee and any other available information, that modification, suspension, or termination of any such designation will tend to effectuate the declared purpose of the act he shall so modify, suspend, or terminate such designation.

(2) The Secretary may designate separately for each varietal type or group of varietal types the percentages of such varietal type or group of varietal types acquired by handlers in any crop year which shall be considered as free tonnage, reserve tonnage, and surplus tonnage.

(3) The Secretary shall notify the committee of each such percentage so designated. The committee shall give reasonable notice thereof to all handlers and producers, including, but not limited to, written notice by registered mail to all handlers on record with the committee.

(d) *Free tonnage.* The percentage of each varietal type or groups of varietal types acquired by a handler which pursuant to the provisions hereof, is designated as "free tonnage", may be disposed of by him free of any restrictions hereunder.

(e) *Reserve tonnage.* (1) Reserve tonnage acquired by each handler shall be held by him for the account of the committee, and subject to the restrictions hereof.

(2) Each handler shall hold in proper storage all reserve tonnage acquired by him until title has been transferred to him or until delivery to another person has been accomplished pursuant to instructions of the committee. The committee may, at any time, require a handler to deliver to it, or to any one designated by it at such handler's warehouse, after reasonable notice, part or all of the reserve tonnage held by him. The committee may require that such delivery consist of natural condition raisins or it may arrange for such delivery to consist of packed raisins.

(3) Reserve tonnage delivered by any handler to the committee, or any person designated by it, whether in the form of natural condition or packed raisins, shall meet such minimum grade requirements as may be prescribed by the committee with the approval of the Secretary. Pending the prescribing of such minimum requirements, reserve tonnage delivered by any handler to the committee, or any person designated by it, in packed form shall meet the minimum requirements for the respective varieties and types set forth in Exhibit B which is attached hereto and made a part hereof.

(4) The committee may dispose of reserve tonnage by sale, gift, or otherwise: *Provided*, That no sale of reserve tonnage consisting of bleached raisins may be made by the committee prior to November 1 of the crop year in which it was acquired by handlers and no sale of reserve tonnage consisting of raisins other than bleached raisins may be made by

the committee prior to December 1 of the crop year in which it was acquired by handlers.

(5) Effective on and after June 1 of any crop year, all reserve tonnage not disposed of by the committee prior to that date, shall be subject to the provisions hereinafter provided with respect to the sale and disposition of surplus tonnage.

(6) Prior to June 1, reserve tonnage of any varietal type or group of varietal types shall not be sold at a price below that which the committee concludes reflects the price received by producers for free tonnage of the same varietal type or group of varietal types purchased by handlers at the time of any offer for sale of reserve tonnage by the committee. In the event that no such purchases of free tonnage were made by handlers at such time, the committee may establish the minimum price of any varietal type or group of varietal types of reserve tonnage on the basis of (i) the prices received by producers for other varietal types at such time, (ii) the prices received by handlers for such varietal type or group of varietal types in packed form, or (iii) from other available price information. Each price so established by the committee governing the sale of reserve tonnage to any handler shall be approved by the Secretary prior to such sale: *Provided*, That, the foregoing provisions of this paragraph shall not apply to any reserve tonnage on which a loan has been obtained nor to reserve tonnage which has become subject to subparagraph (5) of this paragraph.

(7) In connection with any offer by the committee to sell reserve tonnage to handlers prior to June 1, each handler shall be given the first right to purchase his pro rata share of such offer: *Provided*, That, all reserve tonnage disposed of by him pursuant to paragraph (g) of this section shall be included in such pro rata share. In the event that any handler declines or fails to purchase any or all of such share, the remaining portion thereof shall be reoffered by the committee to all handlers who purchased all of their respective shares of such offer, in proportion to such respective purchases. Any balance remaining unsold after such reoffer shall be withdrawn from the particular offer to sell.

(8) Handlers shall be paid for receiving and storing reserve tonnage held for the account of the committee, in accordance with a schedule of payments established by the committee and approved by the Secretary.

(9) The net proceeds from the disposition of reserve tonnage of each varietal type or group of varietal types shall be distributed by the committee to producers on the basis of the volume of their respective contribution to the reserve tonnage of such varietal type or group of varietal types. Such distribution in connection with the reserve tonnage contributed by a cooperative marketing association shall be made to such association.

(10) Additional procedures relating to the disposition of reserve tonnage not inconsistent with the provisions herein specified may be established from time to time by the committee with the approval of the Secretary.

(f) *Surplus tonnage.* (1) Surplus tonnage acquired by each handler shall be held by him for the account of the committee, and subject to the restrictions hereof.

(2) Each handler shall hold in proper storage all surplus tonnage acquired by him until title has been transferred to him or until delivery to another person has been accomplished pursuant to instructions of the committee. The committee may, at any time, require a handler to deliver to it, or to any person designated by it, at such handler's warehouse, after reasonable notice, part or all of the surplus tonnage held by him. The committee may require that such delivery consist of natural condition raisins or it may arrange for such delivery to consist of packed raisins.

(3) Surplus tonnage delivery by any handler to the committee, or any person designated by it, whether in the form of natural condition or packed raisins, shall meet such minimum grade requirements as may be prescribed by the committee with the approval of the Secretary. Pending the prescribing of such minimum requirements, surplus tonnage delivered by any handler to the committee, or any person designated by it, in packed form shall meet the minimum requirements for the respective varieties and types set forth in Exhibit B which is attached hereto and made a part hereof.

(4) The committee may dispose of surplus tonnage by sale, or otherwise: *Provided*, That, such disposition shall be limited to outlets which the committee finds will not interfere significantly with the marketing of raisins. The committee shall dispose of all surplus tonnage held by it or for its account on or before May 1, by not later than May 1 of each crop year, and all reserve tonnage held by it or for its account on or before that date, by not later than August 1 of such crop year: *And provided further*, That, for any raisins which become surplus tonnage after May 1 of such crop year, the committee shall dispose of such surplus tonnage within 60 calendar days after the date such tonnage becomes surplus tonnage, and for any raisins which become reserve tonnage after August 1 of such crop year, the committee shall dispose of such reserve tonnage within 60 calendar days after the date such tonnage becomes reserve tonnage.

(5) In connection with any offer of surplus tonnage by the committee for sale to handlers or for contract packing by handlers, each handler shall be given the first right to purchase or pack his pro rata share of such offer: *Provided*, That, all surplus tonnage disposed of by him pursuant to paragraph (g) of this section shall be included in such pro rata share. In the event that any handler declines or fails to purchase, or contract for packing, any or all of such share, the remaining portion of such share shall be reoffered by the committee to all handlers who purchased, or contracted for packing, all of their respective shares of such offer, in proportion to such respective shares.

(6) Nothing in subparagraph (5) or (6) of this paragraph shall restrict, or be deemed to restrict, any sale by the committee to the United States Government or any agency thereof.

(7) Handlers shall be paid by the committee for receiving and storing surplus tonnage held for the account of the committee, in accordance with a schedule of payments established by the committee and approved by the Secretary.

(8) The net proceeds from the disposition of surplus tonnage of each varietal type or group of varietal types shall be distributed by the committee to producers on the basis of the volume of their respective contributions to such surplus tonnage of each varietal type or group of varietal types. Such distribution in connection with the surplus tonnage contributed by a cooperative marketing association shall be made to such association.

(9) Additional procedures relating to the disposition of surplus tonnage not inconsistent with the provisions herein specified may be established, from time to time, by the committee with the approval of the Secretary.

(g) *Possession or control of reserve and surplus tonnage.* Each handler is required to have in his possession or under his control, at all times, a quantity of raisins equal to the aggregate quantity of reserve tonnage and surplus tonnage referable hereunder to his acquisitions, except that the committee shall have the authority to waive such requirement for any period ending not later than November 15. The committee may establish other reasonable and necessary terms and conditions upon which such waiver may be granted and such terms and conditions may include, but are not limited to, requiring a performance bond from handlers.

(h) *Damaged raisins.* In the event the committee concludes, and such conclusion is confirmed by the Secretary, that a portion of the raisin pack has been damaged by rain or other natural causes, the committee may, with the approval of the Secretary, establish regulations and procedures that will permit the disposition of such damaged raisins free from the provisions hereof.

§ 989.5 *Reports and books and records*—(a) *Report of carryover.* On or before July 5 of each crop year each handler shall file with the committee a written report, under oath, of all natural condition raisins and packed raisins, separately, held by him on the first day of July showing the quantity of each varietal type, and the location thereof.

(b) *Other reports.* Each handler shall file with the committee a certified report, covering each week during any period in which reserve and surplus percentages are in effect, showing, with respect to his acquisitions of each varietal type during the week covered by each such report, (1) the total quantity acquired, (2) the reserve and surplus tonnages, separately, referable to such acquisitions which are on his premises or under his control, (3) the location of such reserve and surplus tonnages, and (4) cumulative totals of such acquisitions from the beginning of the then current crop year to and including the end of such week. Each such weekly report shall be filed not later than Wednesday of the week following the week which is covered by such report. Upon request of the committee, made with the approval of the Secretary, every handler shall furnish to the committee, in such manner and at such times as it prescribes, such other information as will enable the committee to perform its duties and to exercise its powers hereunder.

(c) *Records.* Each handler shall maintain such records of all raisins acquired by him as the committee may prescribe. Such records shall include, but are not limited to, the source, total acquisition, total sales, and total other disposition of each varietal type or group of such types regulated hereunder.

(d) *Verification of reports.* For the purpose of checking and verifying such reports made by handlers, the committee, through its duly authorized agents, shall have access to any premises wherever raisins may be held by a handler, and, at any time during regular business hours, shall be permitted to inspect any raisins so held by such handler and any and all records of such handler with respect to the holding or disposition of all raisins which may be held or which may have been disposed of by him. Each handler shall furnish all labor and equipment necessary to facilitate such inspections as the committee may make of his holding of any such raisins. Each handler shall store reserve and surplus tonnage raisins in such a manner as to facilitate inspection and shall maintain adequate storage records which will permit accurate identification with respect to the respective lots of raisins held or theretofore disposed of.

§ 989.6 *Expenses and assessments*—(a) *Expenses.* The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by it during each crop year, for the maintenance and functioning of the committee and the Board and for such purposes as the Secretary, pursuant to the provisions hereof, determines to be appropriate. The recommendation of the committee as to the expenses for each such crop year, together with all data supporting such recommendation, shall be submitted to the Secretary on or before July 15 preceding the crop year in connection with which such recommendation is made. The funds to cover such expenses shall be acquired by levying assessments as hereinafter provided.

(b) *Assessments.* Each handler shall pay to the committee, on demand, the sum of twenty cents (20¢) for each ton of raisins acquired by him after the effective date hereof. At any time during or after a crop year the Secretary may increase the rate of assessment to apply to all raisins acquired during such crop year to secure sufficient funds to cover any later finding by the Secretary relative to the expense of the committee. Each handler shall pay such additional assessment to the committee on demand. In order to provide funds to carry out the functions of the committee and the Board, any handler may make advance payments to the committee to be credited toward such assessments as may be levied hereunder against the respective handler during the then current crop year.

(c) *Expenses of reserve and surplus tonnage operations.* The committee is authorized to incur such expenses as the Secretary finds are reasonable and are likely to be incurred by the committee in discharging its obligations, pursuant hereto, with respect to reserve and surplus tonnage. All such expenses shall be deducted from the proceeds obtained by the committee from the sale or other disposal of such reserve and surplus tonnage.

(d) *Accounting.* (1) If, at the end of any crop year, the assessments collected for such crop year exceed the expenses incurred with respect to such crop year, each handler's share of such excess shall be credited to him against the operations of the following crop year, unless such handler demands payment thereof, in which case his share shall be paid to him.

(2) The committee may, with the approval of the Secretary, maintain in its own name or in the name of its members, a suit against any handler for the collection of such handler's pro rata share of the expenses.

(e) *Funds.* All funds received by the committee pursuant to the provisions hereof shall be used solely for the purposes herein authorized and shall be accounted for in the manner herein provided. The Secretary may, at any time, require the committee and its members and alternate members to account for all receipts and disbursements.

§ 989.7 *Personal liability.* No member or alternate member of the committee nor any employee or agent thereof shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or any person for errors in judgment, mistakes, or other acts either of commission or omission, as such member, alternate member, employee, or agent, except for acts of dishonesty.

§ 989.8 *Separability.* If any provision hereof is declared invalid, or the applicability thereof to any person, circumstance or thing is held invalid, the validity of the remainder hereof or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 989.9 *Derogation.* Nothing contained herein is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 989.10 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue hereof shall cease upon the termination hereof and during any period of suspension hereof except with respect to acts done under and during the existence hereof.

§ 989.11 *Agents.* The Secretary may, by a designation in writing, name any person, including any officer or employee of the Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.

§ 989.12 *Effective time and termination*—(a) *Effective time.* The provisions hereof shall become effective at such time as the Secretary may declare above his signature attached hereto, and shall continue in force until terminated in one of the ways hereinafter specified.

(b) *Termination.* (1) The Secretary may, at any time, terminate the provisions hereof by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(2) The Secretary shall terminate or suspend the operation of any or all of the provisions hereof, whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(3) The Secretary shall terminate the provisions hereof at the end of any marketing year whenever he finds that such termination is favored by a majority of the producers of raisins who during the preceding marketing year have been engaged in the production for market of raisins in the State of California: *Provided*, That, such majority have during such period produced for market more than 50 percent of the volume of such raisins produced for market within said State; but such termination shall be effective only if announced on or before August 14 of the then current marketing year.

(4) The provisions hereof shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

(c) *Proceedings after termination.* (1) Upon the termination of the provisions hereof, the members of the committee then functioning shall continue as joint trustees, for the purpose of liquidating the affairs of the committee, of all funds and property then in the possession or under the control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(2) Said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and the joint trustees, to such person as the Secretary may direct; and shall, upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the joint trustees pursuant hereto.

(3) Any person to whom funds, property or claims have been transferred or delivered by the committee or its members, pursuant to this section, shall be subject to the same obligations imposed

upon the members of the said committee and upon said joint trustees.

§ 989.13 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination hereof or any regulation issued pursuant hereto, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision hereof or any regulation issued hereunder, (b) release or extinguish any violation hereof or of any regulation issued hereunder, or (c) affect or impair any rights or remedies of the Secretary or of any other person, with respect to any such violation.

§ 989.14 *Amendments.** Amendments hereto may be proposed from time to time, by any party hereto or by the committee. After due notice and hearing and upon the execution of the proposed amendments by any two or more handlers, who during the preceding crop year handled not less than two-thirds of the raisins handled during such crop year, the Secretary may approve such amendments and they shall become effective at such time as the Secretary may designate.

§ 989.15 *Counterparts.** This agreement may be executed in multiple counterparts, and when one counterpart is signed by the Secretary, all such counterparts shall constitute, when taken together, one and the same instrument as if all such signatures were contained in one original.

§ 989.16 *Additional parties.** After the effective date hereof, any handler may become a party hereto if a counterpart hereof is executed by him and delivered to the Secretary. This agreement shall take effect as to such new contracting party at the time such counterpart is delivered to the Secretary and the benefits, privileges, and immunities conferred by this agreement shall then be effective as to such new contracting party.

§ 989.17 *Order with marketing agreement.** Each signatory handler favors and approves the issuance of an order, by the Secretary, regulating the handling of raisins in the same manner as is provided for in this agreement; and each signatory handler hereby requests the Secretary to issue, pursuant to the act, such an order.

Copies of this notice of hearing may be obtained from the Hearing Clerk, United States Department of Agriculture, Room 1846, South Building, Washington 25, D. C., or the Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, P. O. Box 775, Berkeley 1, California.

EXHIBIT B—MINIMUM GRADE REQUIREMENTS FOR PROCESSED RAISINS

DEFINITION

Processed raisins are dried grapes of the Vinifera varieties Thompson Seedless (Sultanina), Muscat of Alexandria, Muscatel Gordo Blanco, Sultana, Black Corinth, or White Corinth which have been properly stemmed, capstemmed, and cleaned.

TYPES AND VARIETIES

Type I Thompson Seedless (Sultanina):
(a) Unbleached (sun-dried).
(b) Golden Bleached.
Type II Muscat:
(a) Seeded (seeds removed).
(b) Unseeded (loose).
(c) Soda Dipped Unseeded (Valencia).
Type III Sultana.
Type IV Zante Currants:
(a) Black Zante (Black Corinth).
(b) White Zante (White Corinth).

MOISTURE

Type IIa (Muscat Seeded Raisins) shall contain not more than 19 percent, by weight, of moisture. All other types of raisins specified above shall contain not more than 18 percent, by weight, of moisture.

GRADE

Thompson Seedless raisins shall possess similar varietal characteristics, possess a fairly good typical color in Thompson Seedless Unbleached raisins, show development characteristic of raisins prepared from fairly well-matured grapes, and meet the following requirements:

Not more than 35 capstems and not more than 3 pieces of stem per pound of raisins may be present;
Not more than 3 percent by weight of raisins may be poorly developed, blowovers;
Not more than 5 percent by weight of raisins may be damaged;
Not more than 15 percent by weight of raisins may be visibly sugared; and
Not more than 5 percent by weight of raisins may be affected by mold, decay, fermentation, insect infestation (no live insects are permitted), imbedded dirt, or other foreign material: *Provided*, That not more than 2 percent by weight may be affected by decay.

Muscat raisins shall possess similar varietal characteristics, possess a fairly good typical color with not more than 20 percent by weight of dark reddish-brown berries in Muscat Soda Dipped Unseeded (Valencia) raisins, show development characteristic of raisins prepared from fairly well-matured grapes, and meet the following requirements:

Not more than 20 capstems and not more than 3 pieces of stem per pound of raisins may be present;
Not more than 20 seeds per pound of raisins in Muscat Seeded raisins may be present;
Not more than 3 percent by weight of raisins may be poorly developed, blowovers;
Not more than 5 percent by weight of raisins may be damaged;
Not more than 15 percent by weight of raisins may be visibly sugared; and
Not more than 5 percent by weight of raisins may be affected by mold, decay, fermentation, insect infestation (no live insects are permitted), imbedded dirt, or other foreign material: *Provided*, That not more than 2 percent by weight may be affected by decay.

Sultana raisins shall possess similar varietal characteristics, possess a fairly good typical color, show development characteristic of raisins prepared from fairly well-matured grapes, and meet the following requirements:

Not more than 65 capstems and not more than 3 pieces of stem per pound of raisins may be present;
Not more than 3 percent by weight of raisins may be poorly developed, blowovers;
Not more than 5 percent by weight of raisins may be damaged;
Not more than 15 percent by weight of raisins may be visibly sugared; and
Not more than 5 percent by weight of raisins may be affected by mold, decay, fermentation, insect infestation (no live insects are permitted), imbedded dirt, or other foreign material: *Provided*, That not more than 2 percent by weight may be affected by decay.

Zante currants shall be generally pliable, generally meaty and plump, fairly well developed, possess a good, typical color, and meet the following requirements:

Not more than 2 percent by weight of capstems and not more than 3 pieces of stem per pound may be present;
Not more than 2 percent by weight may be poorly developed, hard, immature berries, blowovers, or shells;
Not more than 3 percent by weight may be damaged;
Not more than 10 percent by weight may be visibly sugared; and
Not more than 2 percent by weight may be "B" berries.

COLOR OF THOMPSON SEEDLESS SULFUR BLEACHED AND GOLDEN BLEACHED RAISINS

Extra choice color. Fairly uniform amber color which may range from light yellow or greenish yellow to amber or greenish amber and with not more than 10 percent by weight of definitely dark berries.

Explanation of terms. "Capstems" mean small woody stems exceeding ⅛ inch in length which attach the raisins to the branches of the bunch.

A "piece of stem" means a portion of the branch or main stem.

"Seeds" refer to the whole, fully developed seeds which have not been removed during the processing of Type II (a), Muscat Seeded raisins.

"Poorly developed, blowovers" refers to berries that are immature, contain very little meat, are light in weight, and those that have very coarse wrinkles.

"Damaged" raisins means raisins affected by insect injury or injury from sunburn, scars, mechanical or other means which seriously affects the appearance, edibility, keeping or shipping quality of the raisins. In Type II (a), Muscat Seeded raisins, mechanical injury resulting from normal seeding operations is not considered damage.

"Visibly sugared" means the accumulation of crystallized fruit sugars on or near the surface which is readily apparent.

"Mold" means mold filaments or spores (often characterized by a condition wherein the skin of the raisin appears to have been dissolved, leaving a slimy or sticky appearance, and often resulting in a positive reaction when submerged in a 3 percent hydrogen peroxide solution).

"Affected by insect infestation" means that the raisins show the presence of insects, insect fragments, or excreta. No live insects are permitted.

"Plump and meaty" means that the currants are not thin or angular with coarse wrinkles.

"'B' berries" mean currants affected with mold or decay, which show a positive reaction when immersed in a 3 percent hydrogen peroxide solution.

The foregoing requirements are those specified in United States Standards for Grades of Processed Raisins, with respect to Grade C for raisins other than Zante currants, and in United States Standards for Grades of Dried Zante Currants, with respect to Grade B for Zante currants.

FEDERAL COMMUNICATIONS COMMISSION

WHITE MOUNTAIN BROADCASTING CO.

PUBLIC NOTICE CONCERNING THE PROPOSED TRANSFER OF CONTROL [1]

The Commission hereby gives notice that on November 8, 1948 there was filed with it an application (BTC-696) for its consent under section 310 (b) of the Communications Act to the proposed transfer of control of White Mountain Broadcasting Company, licensee of station WMOU, Berlin, New Hampshire from Arthur C. Bell, Leon C. Bell, Arthur J. Bergeron, Carl E. Morin, George Brassard, Willard D. Buber and Albert N. Morris to John W. Guider. The proposal to transfer control arises out of a contract of October 5, 1948 pursuant to which Arthur C. Bell, Leon C. Bell, Arthur J. Bergeron, Carl E. Morin, George Brassard, Willard D. Buber and Albert N. Morris will sell and John W. Guider will buy 305 shares of the common stock of the licensee corporation, for the sum of $22,875.00. Further information as to the arrangements may be found with the application and associated papers which are on file at the offices of the Commission in Washington, D. C.

Pursuant to § 1.321 which sets out the procedure to be followed in such cases including the requirement for public notice concerning the filing of the application, the Commission was advised by applicant on November 8, 1948 that starting on November 10, 1948 notice of the filing of the application would be inserted in the Berlin Reporter, a newspaper of general circulation at Berlin, New Hampshire in conformity with the above section and the Commission's direction to the applicant of October 12, 1948.

In accordance with the procedure set out in said section, no action will be had upon the application for a period of 60 days from November 10, 1948, within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above described contract.

WKLV

PUBLIC NOTICE CONCERNING THE PROPOSED ASSIGNMENT OF LICENSE [1]

The Commission hereby gives notice that on September 1, 1948 there was filed with it an application (BAL-796) for its consent under section 310 (b) of the Communications Act to the proposed assignment of license of station WKLV, Blackstone, Virginia from Frank W. Wagner to Nottoway Broadcasting Company, Incorporated. The proposal to assign the license arises out of a contract of August 19, 1948 pursuant to which Frank W. Wagner proposed to assign station WKLV and its assets to Nottoway Broadcasting Company, Incorporated, in return for 145 shares (approximately 35%) of $50 par value, common voting stock of the assignee corporation and the assumption by the latter of the outstanding liabilities of the station. Further information as to the arrangements may be found with the application and associated papers which are on file at the offices of the Commission in Washington, D. C.

Pursuant to § 1.321, which sets out the procedure to be followed in such cases, including the requirement for public notice concerning the filing of the application, the Commission was advised by applicant on November 10, 1948 that starting on September 24, 1948 notice of the filing of the application would be inserted in the Courier-Record, a newspaper published at Blackstone-Crewe, Virginia, and in the Richmond Times Dispatch, a newspaper of general circulation at Richmond, Virginia in conformity with the above section.

In accordance with the procedure set out in said section, no action will be had upon the application for a period of 60 days from September 24, 1948 within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above described contract.

KUGN AND KUGN-FM

PUBLIC NOTICE CONCERNING THE PROPOSED ASSIGNMENT OF LICENSE [1]

The Commission hereby gives notice that on November 4, 1948 there was filed with it an application (BAL-793) for its consent under section 310 (b) of the Communications Act to the proposed assignment of license for AM station KUGN and permit for KUGN-FM, Eugene, Oregon, from Valley Broadcasting Company to KUGN, Inc. The proposal to assign arises out of contracts of August 14 and September 29, 1948 pursuant to which B. N. Phillips has agreed to sell his one-half interest in the assignor partnership to O. E. Berke and P. R. Berke for $50,000 in cash plus 5% interest from August 1, 1948. Thereafter the partnership will convey all partnership assets to KUGN, Inc. in return for all the capital stock of the assignee. Further information as to the arrangements may be found with the application and associated papers which are on file at the offices of the Commission in Washington, D. C.

Pursuant to § 1.321 which sets out the procedure to be followed in such cases including the requirement for public notice concerning the filing of the application, the Commission was advised by applicant on November 4, 1948 that starting on November 4, 1948 notice of the filing of the application would be inserted in the Eugene Register Guard a newspaper of general circulation at Eugene, Oregon in conformity with the above section.

In accordance with the procedure set out in said section, no action will be had upon the application for a period of 60 days from November 4, 1948 within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above described contract.

KCSB

PUBLIC NOTICE CONCERNING THE PROPOSED ASSIGNMENT OF LICENSE [1]

The Commission hereby gives notice that on November 5, 1948, there was filed with it an application (BAL-794) for its consent under section 310 (b) of the Communications Act to the proposed assignment of license of KCSB, San Bernardino, California from Woodrow Miller, d/b as San Bernardino Valley Broadcasters, to Town Crier Broadcasters, Inc. The proposal to assign the license arises out of a contract of October 1, 1948, pursuant to which Woodrow Miller has agreed to sell all personal property and broadcasting equipment, including the good will, used in the operation of KCSB, to Town Crier Broadcasters, Inc. for the sum of $19,000 payable as follows: $1,000 upon the execution of the contract; $8,000 within thirty days after approval of the Federal Communications Commission is obtained; and the balance of $10,000, secured by a mortgage on the equipment and property of KCSB, in monthly installments of $100 with 4% interest on the unpaid balance. As part of the contract, Seller agrees to lease to Buyer the land and buildings used in the operation of KCSB for a monthly payment of $83.33, plus 2% of the net earnings of the station before taxes. The lease will be for five years with Buyer holding an option to renew for an additional five years. Seller also agrees to make improvements in the land and buildings up to $3,000 and Buyer agrees to pay an increased monthly rental of 1% of the cost of the improvements beginning the first month after the improvements have been made. The contract also provides that Seller will satisfy all existing accounts payable due at the time of closing and that Buyer will exercise diligence in attempting to collect the outstanding accounts receivable and to turn over 75% thereof to Seller, retaining 25% for self. In the event Buyer is unwilling or unable to go through with the sale after approval of the Federal Communications Commission is obtained, the down payment of $1,000 may be retained by Seller as liquidated damages. In the event the assignment is consummated and Buyer thereafter defaults in payments due under the contract, Buyer agrees to seek permission of the Federal Communications Commission to retransfer the station to Seller. Further information as to the arrangements may be found with the application and associated papers which are on file at the offices of the Commission in Washington, D. C.

Pursuant to § 1.321 which sets out the procedure to be followed in such cases including the requirement for public notice concerning the filing of the application, the Commission was advised by applicant on November 5, 1948, that starting on November 10, 1948, notice of the filing of the application would be inserted in a newspaper of general circulation at San Bernardino, California in conformity with the above section.

In accordance with the procedure set out in said section, no action will be had upon the application for a period of 60 days from November 10, 1948, within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above described contract.

INTERSTATE COMMERCE COMMISSION

[MC-C-985]

PERISHABLE PROTECTIVE SERVICES AND CHARGES

NOTICE OF HEARING

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D. C., on the 21st day of September A. D. 1948.

The said division having under consideration the matter of charges for perishable protective service and of the failure of motor common carriers to establish and maintain charges for perishable protective service separate and apart from the line-haul rates and charges in connection with the transportation, in interstate or foreign commerce, of commodities that require perishable protective service between points in Colorado, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, Wisconsin, and Wyoming, on the one hand, and, on the other hand, points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, and the District of Columbia, and good cause appearing therefor:

It is ordered, That an investigation be, and it is hereby, instituted by the said division, upon its own motion, into and concerning the reasonableness and lawfulness otherwise of the charges for perishable protective service maintained by motor common carriers of property, and of the regulations and practices of motor common carriers of property insofar as said carriers do not publish and maintain charges for perishable protective service separate and apart from their line-haul rates, applicable to the transportation, in interstate or foreign commerce, of property that requires perishable protective service between the points referred to in the preceding paragraph of this order, with a view to making such findings and orders in the premises as the facts and circumstances shall appear to warrant;

It is further ordered, That all motor common carriers of property subject to the Interstate Commerce Act which participate in the transportation of property between the points referred to in this order, be, and they are hereby, made respondents to this proceeding; that a copy of this order be served upon each of said respondents; and that notice to the public be given by posting a copy of this order in the Office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of Federal Register, Washington, D. C.

And it is further ordered, That this proceeding be, and it is hereby, assigned for hearing before Examiner Henry C. Lawton on the 11th day of January, A. D. 1949, at 9:30 o'clock a. m., United States standard time, at the Hotel Cleveland, Cleveland, Ohio.

By the Commission, Division 2.

SECURITIES AND EXCHANGE COMMISSION

[File No. 54-75, 70-726]

COMMONWEALTH & SOUTHERN CORP. (DEL.)

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C. on the 17th day of November, 1948.

Notice is hereby given that an application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 (the "act") by the Commonwealth & Southern Corporation (Commonwealth), a registered holding company. The applicant-declarant designates sections 11 and 12 (c) of the act and Rule U-46 thereunder as applicable to the proposed transaction.

Notice is further given that any interested person may, not later than November 29, 1948 at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law raised by the said application-declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after November 29, 1948 such application-declaration, as filed or as amended, may be permitted to become effective or may be granted as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said application-declaration which is on file in the office of the Commission, for a statement of the transaction therein proposed which is summarized as follows:

Commonwealth proposes, subject to the approval of the Commission, to pay a dividend of $1.50 per share or an aggregate of approximately $2,161,870 on the shares of its outstanding preferred stock. The dividend was declared on November 16, 1948, and is payable on the 28th day after the date of the order of this Commission permitting such payment, or on January 3, 1949, whichever date is the later, to stockholders of record at the close of business on the 10th day after the date of such order (or if such 10th day is not a business day, the first business day following such 10th day) or on December 10, 1948, whichever date is the later.

The applicant-declarant requests that the Commission's order be issued herein on or before December 1, 1948 and that it become effective forthwith upon issuance.

By the Commission.

NORTH AMERICAN CO. AND UNION ELECTRIC CO. OF MISSOURI

MEMORANDUM OPINION AND ORDER

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 12th day of November A. D. 1948.

The hearing officer who presided at the hearings in these proceedings has certified to us for decision the question whether the applicants-declarants herein are entitled to have the hearing officer prepare a recommended decision.

These proceedings involve a joint application-declaration by the North American Company ("North American"), a registered holding company, and its subsidiary, Union Electric Company of Missouri ("Union"), a registered holding company and an electric utility company, filed pursuant to applicable provisions of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder. The application-declaration proposes a reclassification of the authorized common stock of Union so as to increase the aggregate number of such shares from 3,300,000 to 12,000,000. Thereupon Union proposes to issue and North American proposes to acquire 9,782,500 shares of the new common stock in exchange for 2,795,000 shares representing the presently outstanding common stock of Union, all of which is owned by North American. Since the publicly held preferred stock of Union has 12.06% of the voting power in Union, the stock of Union held by North American represents 87.94% of the voting power. It is asserted that the proposed transactions would increase North American's voting power to 96.2% and enable North American to file consolidated federal income tax returns for Union and its subsidiaries, thereby effecting a reduction in federal income taxes payable by the companies.

Applicants-declarants have argued that they are entitled to a recommended decision by the hearing officer under both the Administrative Procedure Act and "general rules of administrative due process." We cannot agree.

No requirement that there be such a recommended decision in these proceedings is imposed by either our rules of practice or the Administrative Procedure Act. Section 8 (a) of the Administrative Procedure Act provides that "• • • in rule making or determining applications for initial licenses," a recommended decision by a hearing officer may be dispensed with and "• • • in lieu thereof, the agency may issue a tentative decision or any of its responsible officers may recommend a decision. • • •" Under the definitions of "rule making" and "license" contained in sections 2 (c) and (e) of the Administrative Procedure Act,[1] it is clear that these proceedings fall into the category of "rule making or determining applications for initial licenses." And Rule IX of our rules of practice does not impose any intermediate decision requirement beyond that imposed by section 8 (a) of the Administrative Procedure Act.

• • • • • • •

(e) *License and licensing.* "License" includes the whole or part of any agency permit, certificate, approval, registration, charter, membership, statutory exemption or other form of permission. "Licensing" includes agency process respecting the grant, renewal, denial, revocation, suspension, annulment, withdrawal, limitation, amendment, modification, or conditioning of a license.

The Administrative Procedure Act undertook to codify the basic requirements of what applicants-declarants appear to refer to as "administrative due process," and our rules of practice attempt to carry out the requirements of that act. We are not aware that these or any other procedural standards would be violated by denial of the instant request.

While we have accorded procedural safeguards which, though not specifically required, are shown to be appropriate to a full and fair determination of contested issues, we find here no situation warranting the exercise of our discretion in favor of granting the request of applicants-declarants. The hearings did not involve any issues which are accusatory or disciplinary in nature or the determination of which requires passing upon the credibility of witnesses. The present proceedings relate merely to securing the approval by this Commission with respect to a stock reclassification desired by applicants-declarants, which does not have any material effect on other investors, and which has not been opposed. The preparation of a recommended decision by the hearing officer in this case would unduly delay our decision and would not be conducive to any greater clarification of the issues than might be achieved through the filing of a recommended decision by the Director of the Division of Public Utilities. In view of the nature of the proceedings, the issues, and the evidence taken at the hearings, it is clear that a recommended decision by the hearing officer is neither necessary nor appropriate to the affording of adequate decisional procedure to applicants-declarants, and we shall accordingly deny their request.

However, in view of the request that has been made for an intermediate decision in this case, and in view of applicants-declarants' stated desire for prompt disposition of this matter,[2] we are of the opinion that the alternative procedure specified in section 8(a) of the Administrative Procedure Act and Rule IX(c) of our rules of practice is the appropriate one to be followed in this case, namely, that a recommended decision should be prepared by the Director of the Division of Public Utilities, and that applicants-declarants should have an opportunity to file exceptions and briefs with respect to such recommended decision. In view of applicants-declarants' stated desire that approval of the proposed transactions be granted by December 1, 1948, we shall instruct the Director of the Division of Public Utilities to file his recommended decision by November 17, 1948, and shall allow the applicants-declarants until November 24, 1948, to file exceptions to such recommended decision and briefs in support of such exceptions.

For the foregoing reasons,

It is ordered, That the request of North American and Union for the preparation and filing by the hearing officer of a recommended decision in these proceedings be and it is hereby denied; and

The Director of the Division of Public Utilities is instructed to prepare and file on or before November 17, 1948 a recommended decision on the application-declaration; and

Applicants-declarants are granted opportunity to file on or before November 24, 1948 exceptions and briefs relating to such recommended decision.

By the Commission.

AMERICAN GAS AND ELECTRIC CO. AND AMERICAN GAS AND ELECTRIC SERVICE CORP.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 17th day of November A. D. 1948.

American Gas and Electric Company ("American Gas"), a registered holding company, and its wholly owned service company subsidiary, American Gas and Electric Service Corporation ("Service Corporation"), having filed a joint application-declaration and amendment thereto pursuant to the Public Utility Holding Company Act of 1935, particularly sections 7 and 10 thereof with respect to the following transactions:

For the stated purpose of supplying Service Corporation with adequate capital for its operations it is proposed to finance Service Corporation by increasing its authorized capital stock from 1,000 shares of the par value of $100 per share, of which 100 shares are issued and outstanding and owned by American Gas, to 10,000 shares of the par value of $100 per share, and by issuing 7,750 shares of said stock to American Gas against payment therefor of $200,000 in cash and the surrender and cancellation of $575,000 principal amount of open account indebtedness owned by Service Corporation to American Gas which open account indebtedness arose from advances of cash in that amount heretofore made by American Gas to Service Corporation without interest.

The application-declaration having been filed on October 19, 1948 and an amendment thereto having been filed on November 4, 1948, and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for a hearing with respect to said application-declaration, as filed or as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said application-declaration, as amended, that the requirements of the applicable provisions of the act and the rules thereunder are satisfied, that no adverse findings are necessary, and that it is not necessary to impose any terms and conditions other than those set forth below, and the Commission deeming it appropriate that the said application-declaration, as amended, be granted and permitted to become effective forthwith;

It is ordered, Pursuant to said Rule U-23 and the applicable provisions of said act, that said application-declaration, as amended, be and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions contained in Rule U-24.

By the Commission.

KENTUCKY UTILITIES CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 17th day of November A. D. 1948.

Kentucky Utilities Company ("Kentucky"), a subsidiary of the Middle West Corporation, a registered holding company, having filed a declaration and an amendment thereto pursuant to sections 11 (b) (1) and 12 (d) of the Public Utility Holding Company Act of 1935 and Rule U-44 promulgated thereunder, with respect to the following transactions:

Kentucky proposes to sell to Western Kentucky Gas Company, a nonaffiliated company, all of Kentucky's gas utility properties located in and about the City of Danville, Kentucky, pursuant to a contract dated September 21, 1948, for a cash consideration of $155,500 subject to closing adjustments. The proceeds to be received by Kentucky from the proposed sale will be deposited with the Trustee under the company's mortgage dated May 1, 1947, and will be withdrawn, within one year, in accordance with the provisions of said mortgage and will be used for the purpose of making additions and extensions to its electric utility plant and system.

The declaration, as amended, contains an order of the Public Service Commission of Kentucky authorizing the proposed sale and purchase; and

Said declaration having been filed on October 25, 1948, and the last amendment thereto having been filed on November 16, 1948, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated under said act, and the Commission not having received a request for hearing with respect to said declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said declaration, as amended, that the requirements of the applicable sections of the act and the rules and regulations thereunder are satisfied and finding it appropriate in the public interest and in the interest of investors and consumers that said declaration, as amended, be permitted to become effective forthwith; and

The Commission finding that Kentucky is engaged primarily in the electric utility business; that said gas utility properties are the only remaining natural gas properties, are not connected with the company's manufactured gas properties and are not capable of integration with the electric utility properties owned and operated by Kentucky; and that the proposed use of the proceeds of sale will contribute to the development of an integrated electric utility system; and

Kentucky having requested that the Commission's order permitting the declaration to become effective conform to the requirements of sections 371, 372, 373 and 1808 (f) of the Internal Revenue Code, as amended, and the Commission deeming it appropriate to grant this request:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act and subject to the terms and conditions prescribed in Rule U-24, that the declaration, as amended, be, and the same hereby is, permitted to become effective forthwith.

It is further ordered and recited, That the sale by Kentucky Utilities Company of its gas utility properties (except a certain specified building and equipment) located in or in the vicinity of the City of Danville in the Commonwealth of Kentucky for an amount in cash equal to the aggregate of (a) $155,500, (b) the amount of net additions made by Kentucky Utilities Company to said properties between December 31, 1947 and the date of closing, (c) the cost to Kentucky Utilities Company of materials and supplies on hand or on order pertaining to said property at the date of closing, and (d) the adjusted amount of the 1948 ad valorem tax on said properties, and the expenditure within 24 months of the consummation of the said sale, of an amount equal to the proceeds received from said sale, for property consisting of additions and extensions to its electric utility plant and system, are necessary or appropriate to the integration or simplification of the holding company system of which Kentucky Utilities Company is a member and are necessary or appropriate to effectuate the provisions of section 11 (b) (1) of the Public Utility Holding Company Act of 1935.

By the Commission.

PUBLIC SERVICE CO. OF NEW HAMPSHIRE

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 17th day of November A. D. 1948.

Notice is hereby given that an application has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by Public Service Company of New Hampshire ("New Hampshire"), a public-utility subsidiary of New England Public Service Company, a registered holding company. Applicant has designated the first sentence of section 6 (b) of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than December 2, 1948, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after December 2, 1948, said application, as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said application and amendment which are on file in the offices of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

New Hampshire proposes to issue or renew from time to time until September 30, 1949, or until the company shall have received at least $4,000,000 from permanent financing, whichever shall first occur, short-term notes, i.e., notes having a maturity of nine months or less, up to a maximum amount (together with all other outstanding short-term notes) of $6,275,000. The company proposes to issue such notes as funds are required in order to continue its construction program and to meet its other cash needs. The company had outstanding at November 1, 1948, short-term notes aggregating $2,100,000. The application states that the company believes that under present conditions it will be able to borrow such funds at an interest rate of not exceeding 2½% per annum, but that it has no commitment from any bank as to the interest rate. The appli-

[1] Section 2 of the Administrative Procedure Act defines "rule and rule making" and "license and licensing" as follows:

(c) *Rule and rule making.* "Rule" means the whole or any part of any agency statement of general or particular applicability and future effect designed to implement, interpret, or prescribe law or policy or to describe the organization, procedure, or practice requirements of any agency and includes the approval or prescription for the future of rates, wages, *corporate or financial structures or reorganizations thereof*, prices, facilities, appliances, services or allowances therefor or of valuations, cost, or accounting, or practices bearing upon any of the foregoing. "Rule making" means agency process for the formulation, amendment, or repeal of a rule. (Italics added.)

[2] Applicants-declarants' request that we give the proposed transactions prompt approval seems somewhat inconsistent with their demand for an intermediate decisional procedure which would necessarily take longer than were we to decide the matter initially.

cation further states that in case the interest rate on any of the promissory notes should exceed 2½% per annum, the company will file an amendment to its application stating the name of the bank, the terms of the note and the rate of interest at least five days prior to the execution and delivery of said note, and unless the Commission shall notify the company to the contrary within said five day period, the amendment shall become effective at the end of said period. The company estimates that it will receive $6,750,000 from permanent financing by September 30, 1949, and that the proceeds from such permanent financing will be used to repay the short-term notes then outstanding and the balance for further expenditures on the company's construction program and for other corporate purposes.

The application states that the proposed transactions are not subject to the jurisdiction of the New Hampshire Public Service Commission, the regulatory commission of the state in which the company is organized and doing business, except to the extent that a note issued in renewal of a previously outstanding note matures more than twelve months after the date of issue of the first note evidencing the original loan. The application further states that all notes evidencing loans originally made prior to September 30, 1948, will be paid and discharged out of the proceeds of the company's Series D bonds issued in October 1948.

The amount of notes proposed to be issued by the company is in excess of 5% of the principal amount and par value of other outstanding securities of the company. The company requests authorization pursuant to the first sentence of section 6 (b) of the act to issue such notes.

The application states that there are no expenses to the company in connection with the proposed transactions other than legal and other incidental expenses, estimated at not more than $500, in connection with the preparation and filing of the application.

The company requests that the Commission's order be made effective forthwith upon its issuance.

By the Commission.

Assistant Secretary.

NORTHERN STATES POWER CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 17th day of November A. D. 1948.

Notice is hereby given that an application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("the act") by Northern States Power Company ("Northern States"), a Minnesota corporation which is a registered holding company and also a public utility operating company. Northern States designates sections 9 (a) and 10 of the act as applicable to the proposed transaction.

All interested persons are referred to said application on file in the office of this Commission for a statement of the transaction therein proposed, which is summarized as follows:

Northern States proposes to acquire from McLeod Cooperative Power Association ("Seller"), a Minnesota corporation, certain utility assets owned by Seller consisting principally of the existing electric distribution and street lighting systems located in the Village of New Auburn, Sibley County, Minnesota, together with all equipment of and appurtenances to each of said systems and all franchises, permits, contracts, leases, easements and rights of way under which said property is held or operated, including Seller's service contracts (which Northern States agrees to assume); but excluding Seller's cash on hand or in banks, accounts receivable, customers' deposits and refundable advances, prepaid insurance, and certain specific items of physical property as described in the sales agreement dated October 18, 1948. The purchase price is $13,540, subject to adjustments as provided in said agreement.

The estimated original cost of said property at August 31, 1948 is $15,465, and the estimated depreciation on a straight line basis is $4,231. Northern States proposes, upon consummation of the transaction, to charge to its earned surplus the electric plant acquisition adjustment of $2,306. No fees or commissions are involved. The expenses of Northern States in the matter are estimated at $500.

The property to be acquired serves electric energy at retail to approximately 126 customers in said Village of New Auburn. The energy is presently supplied at wholesale to the Seller by Northern States, whose electric properties completely surround the property to be acquired. Northern States will supply the new customers at its regularly scheduled rates, which are somewhat lower than the rates presently charged.

The application states that the proposed transaction is not under the jurisdiction of any State commission or any other Federal commission.

It is desired that the order of the Commission authorizing the transaction be made effective as soon as possible.

Notice is further given that any interested person may, not later than November 26, 1948 at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after November 26, 1948, said application may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

NEWMONT MINING CORP. ET AL.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission held at its offices in Washington, D. C., on the 17th day of November A. D. 1948.

In the matter of Newmont Mining Corporation, Empire Star Mines Company, Limited, and Northern Empire Mines Company, Limited; File No. 812-569.

Notice is hereby given that Newmont Mining Corporation of 14 Wall Street, New York, New York, a closed-end non-diversified management company registered under the Investment Company Act of 1940, has filed an application pursuant to section 17 (b) of the act for an order exempting from the provisions of section 17 (a) of the act a proposed transaction whereby Empire Star Mines Company, Limited ("Star"), an affiliated person of the Applicant and of Northern Empire Mines Company, Limited ("Northern") would purchase from the Applicant 41,605 shares of the capital stock of Northern, an affiliated person of the Applicant and of Star, for $62,407.50 in United States funds.

It appears from the application that Star, a Delaware corporation, has 116,300 shares of capital stock outstanding, of which the Applicant owns 43,325 shares, approximately 37%. Northern, an Ontario corporation, has 400,000 shares of capital stock outstanding, of which 270,530 shares, or 67.6%, are owned by Star and 41,605 shares, or 10.4%, are owned by the Applicant. Said 41,605 shares of Northern were acquired by the Applicant as a dividend paid by Star on March 15, 1938 to its stockholders of record as of March 1, 1938. The fair market value of the Northern stock at the time the dividend was received was $6 per share in United States funds, a total of $249,630 for the shares received by the Applicant.

It further appears that Northern was organized in 1932 for the primary purpose of developing and operating the Northern Empire Mine in the Little Long Lac District in Ontario. The life of this mine was considerably curtailed by a barren diabase sill encountered at a depth of about 1,000 feet replacing the vein on its dip for a vertical distance of about 700 feet. The ore beneath the sill has been worked out, and the mine was abandoned in August 1941.

Since November 1943, Northern's mining activities have been limited to the neighboring Undersill Mine (owned by Undersill Gold Mining Company in which Northern has a 75% interest) in which the same sill has interrupted the vein. Work beneath this sill has disclosed only a limited amount of commercial ore, and further development has been suspended until completion of similar work by owners of adjoining property. It is possible that work in the Undersill Mine may never be resumed. The working capital of Northern has been invested in Canadian Government and corporate securities. If operations are not resumed, Northern will be liquidated. The estimated present net liquidating value per share of Northern based on the Canadian market for securities held but making no allowance for the notes and shares of Undersill Gold Mining Company amounts to $2.38 per share in Canadian funds. Trading in shares of Northern on the Toronto Stock Exchange and over the counter in New York is inactive. The present "bid" in Toronto is $1 per share and the present "asked" is $2.25 per share. The last sales on the Toronto Exchange involved 200 shares on October 15, 1948 at $1.05 per share. The last sales over the counter in New York were at $1.25 per share, Canadian funds, on September 15, 1948.

The Applicant wishes to sell and Star wishes to purchase the 41,605 shares of Northern held by Applicant at $1.50 per share United States funds, or a total of $62,407.50. It is alleged that the Applicant would have difficulty in selling so large a block of shares in the market and desires to decrease its present holdings of blocked Canadian funds, and, therefore, desires to effect the proposed sale for United States funds. Star is willing to purchase such shares to enlarge its control of Northern and to facilitate liquidation if and when undertaken.

For a more detailed statement of the matters of fact and law asserted, all interested persons are referred to said application which is on file in the offices of the Commission in Washington, D. C.

Notice is further given that an order granting the application may be issued by the Commission at any time on or after November 29, 1948, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than November 26, 1948, at 5:30 p. m., submit in writing to the Commission his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

Assistant Secretary.

PART 41—STANDARD CONTAINERS

MISCELLANEOUS AMENDMENTS

Pursuant to the provisions of the so-called United States Standard Container Act of 1916 (39 Stat. 673; 48 Stat. 930; 15 U. S. C. 251–256) and of the so-called United States Standard Container Act of 1928 (45 Stat. 685; 15 U. S. C. 257–257i), the regulations thereunder (7 CFR and Supps. Part 41) are hereby amended in the manner hereinafter set forth to be and become effective upon publication in the FEDERAL REGISTER. These amendments are designed to reflect the current organizational set-up of the Department and the authority of the Director of the Fruit and Vegetable Branch, Production and Marketing Administration, with respect to these regulations.

1. Delete paragraphs (c), (d), (e), and (f) of § 41.2 *Definitions: general* and insert in lieu thereof the following:

(c) "Department" means the United States Department of Agriculture;

(d) "Secretary" means the Secretary of the Department or any officer or employee of the Department who has heretofore lawfully been delegated or to whom authority may hereafter lawfully be delegated to act in his stead;

(e) "Administration" means the Production and Marketing Administration of the Department;

(f) "Administrator" means the Administrator of the Administration or any officer or employee of the Administration to whom authority has heretofore lawfully been delegated or to whom authority may hereafter lawfully be delegated to act in his stead;

(g) "Branch" means the Fruit and Vegetable Branch of the Administration;

(h) "Director" means the Director of the Branch or any officer or employee of the Branch to whom authority has heretofore lawfully been delegated or to whom authority may hereafter lawfully be delegated to act in his stead.

2. Delete § 41.5 and insert in lieu thereof the following:

§ 41.5 *Director.* The Director shall perform, for and under the supervision of the Secretary and Administrator, such duties as the Secretary or Administrator may require in the administration and enforcement of the acts and the regulations of this part.

3. Delete the words "Chief of Branch" wherever they appear in §§ 41.7, 41.8, 41.9, 41.11, and 41.12 and insert in lieu thereof the word "Director."

Chapter IV—Federal Crop Insurance Corporation, Department of Agriculture

[Amdt. 2]

PART 419—COTTON CROP INSURANCE

SUBPART—REGULATIONS FOR CONTINUOUS CONTRACTS FOR THE 1949 AND SUCCEEDING CROP YEARS

The Cotton Crop Insurance Regulations for Continuous Contracts for the 1949 and Succeeding Crop Years (13 F. R. 5261, 6475) are hereby amended as follows:

1. Section 419.16 is amended to change paragraphs (a) and (b) of section 8 of the Commodity Coverage Policy to read as follows:

8. *Life of contract, cancelation thereof.* (a) Subject to the provisions of paragraph (d) of this Section, the contract shall be in effect for the 1949 crop year and shall continue in effect for each succeeding crop year until canceled by either the insured or the Corporation. Cancelation for any year may be made by either party giving written notice to the other party on or before the applicable cancelation date (set forth in section 32) preceding the planting of the crop for which cancelation is to become effective. Any notice of cancelation given by the insured to the Corporation shall be submitted in writing to the county office.

(b) If the insured cancels the contract, he shall not be eligible for cotton crop insurance for the next succeeding crop year unless he subsequently files an application for insurance on or before the final date for cancelation preceding such crop year.

2. Section 419.16 is amended to change section 32, *Date Table*, of the Commodity Coverage Policy to provide a cancelation date of December 31 for Lubbock County, Texas and January 31 for all other states and counties.

3. Section 419.17 is amended to change paragraphs (a) and (b) of section 8 of the Monetary Coverage Policy to read as follows:

8. *Life of contract, cancelation thereof.* (a) Subject to the provisions of paragraph (d) of this section, the contract shall be in effect for the 1949 crop year and shall continue in effect for each succeeding crop year until canceled by either the insured or the Corporation. Cancelation for any year may be made by either party giving written notice to the other party on or before the applicable cancelation date (set forth in section 32) preceding the planting of the crop for which cancelation is to become effective. Any notice of cancelation given by the insured to the Corporation shall be submitted in writing to the county office.

(b) If the insured cancels the contract, he shall not be eligible for cotton crop insurance for the next succeeding crop year unless he subsequently files an application for insurance on or before the final date for cancelation preceding such crop year.

4. Section 419.17 is amended to change section 32, *Date Table*, of the Monetary Coverage Policy to provide a cancelation date of December 31 for Lubbock County, Texas and January 31 for all other States and counties.

(52 Stat. 73–75, 77, 61 Stat. 718; 7 U. S. C., 1506 (e), 1507 (c), 1508, 1509, 1516 (b))

Adopted by the Board of Directors on October 26, 1948.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

PART 955—GRAPEFRUIT GROWN IN ARIZONA; IMPERIAL COUNTY, CALIF., AND THAT PART OF RIVERSIDE COUNTY, CALIF., SITUATED SOUTH AND EAST OF THE SAN GORGONIO PASS

DETERMINATION RELATIVE TO BUDGET OF EXPENSES AND FIXING OF RATE ASSESSMENT FOR 1948–49 FISCAL PERIOD

On October 16, 1948, notice of proposed rule making was published in the FEDERAL REGISTER (13 F. R. 6085) regarding the budget of expenses and the fixing of the rate of assessment for the 1948–49 fiscal period under Marketing Agreement No. 96 and Order No. 55 (7 CFR, Cum. Supp. 955.1 et seq.) regulating the handling of grapefruit grown in the State of Arizona; in Imperial County, California; and in that part of Riverside County, California, situated south and east of the San Gorgonio Pass. This regulatory program is effective pursuant to the Agricultural Marketing Agreement Act of 1937, as amended. After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, which were submitted by the Administrative Committee (established pursuant to the marketing agreement and order), it is hereby found and determined that:

§ 955.203 *Budget of expenses and rate of assessment for the 1948–1949 fiscal period.* (a) The expenses necessary to be incurred by the Administrative Committee, established pursuant to the provisions of the aforesaid marketing agreement and order, for the maintenance and functioning, during the fiscal period beginning August 1, 1948, and ending July 31, 1949, both dates inclusive, of the Administrative Committee, established under the aforesaid marketing agreement and order, will amount to $16,275 and the rate of assessment to be paid by each handler who first ships fruit shall be one and one-half cents ($0.015) per standard box of fruit (as such box is defined in the aforesaid agreement and order) shipped by such handler as the first shipper thereof during the said fiscal period; and such rate of assessment is hereby approved as each such handler's pro rata share of the aforesaid expenses.

(b) It is hereby further found and determined that it is impracticable and contrary to the public interest to postpone the approval of the aforesaid rate of assessment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that: (1) The rate of assessment is applicable, pursuant to the marketing agreement and order, to all shipments of grapefruit made during the fiscal period beginning August 1, 1948, and ending July 31, 1949, both dates inclusive; (2) the aforesaid Administrative Committee has been operating since August 1, 1948, at a deficit; (3) it was not practicable (i) due to the immaturity of the fruit, for the Administrative Committee to complete its estimate of the production of California-Arizona grapefruit and submit the proposed budget of expenses and rate of assessment, based thereon for the 1948–1949 fiscal year, prior to early October 1948, and (ii) for notice of the proposed budget and rate of assessment to be issued prior to October 15, 1948; (4) a reasonable time was allowed, in such notice, in which all interested persons were permitted to submit relevant views, data, and arguments; (5) in order for the regulatory assessments to be collected, it is essential that the publication of the assessment rate be issued immediately, effective at the time hereinafter specified, so as to enable the Administrative Committee to perform its requisite duties and functions under the aforesaid marketing agreement and order; and (6) a reasonable time is permitted, under the circumstances, for preparation for such effective date.

(c) The provisions hereof shall become effective at 12:01 a. m., P. s. t., November 24, 1948.

(d) As used in this section the terms "standard box," "handler," "ship," and "fruit" shall have the same meaning as is given to each such term in said marketing agreement and order. (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 7 CFR, Cum. Supp., 955.1 et seq.)

Done at Washington, D. C., this 19th day of November 1948.

PART 987—IRISH POTATOES GROWN IN MAINE

DETERMINATION RELATIVE TO BUDGET OF EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1948–49 FISCAL PERIOD

The State of Maine Potato Committee, established under Marketing Agreement No. 108 and Order No. 87 (13 F. R. 5549), regulating the handling of Irish potatoes grown in the State of Maine, is the agency authorized to administer the terms thereof, among which the provisions of § 987.3 authorize said committee to incur such expenses and collect such assessments as the Secretary finds may be necessary. The State of Maine Potato Committee has presented a proposed budget of expenses and a proposed rate of assessment for the current fiscal period ending June 30, 1949. After consideration of all relevant matters, including the proposed budget of expenses and the proposed rate of assessment submitted by the State of Maine Potato Committee, it is hereby found and determined that:

§ 987.201 *Budget of expenses and rate of assessment.* The expenses necessary to be incurred by the State of Maine Potato Committee, established pursuant to the aforesaid marketing agreement and order, to enable such committee to perform its functions pursuant to provisions of the aforesaid marketing agreement and order and regulations duly issued thereunder during the fiscal period ending June 30, 1949, will amount to $44,000. The rate of assessment to be paid by each handler who first ships potatoes shall be eighty cents per railroad carload, or truckload of a net weight of 30,000 pounds or more, or fifty cents per truckload of at least 10,000 pounds but less than 30,000 pounds net weight, or 25 cents per truckload of less than 10,000 pounds net weight, during the fiscal period ending June 30, 1949, and such rate of assessment is hereby fixed as each such handler's pro rata share of the aforesaid expenses.

It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this order until 30 days after publication thereof in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that:

(a) Harvesting of the 1948 crop of potatoes grown in the State of Maine has been completed and said crop is now being shipped;

(b) Regulations limiting shipments of potatoes grown in the State of Maine are now in effect (13 F. R. 6644), and expenses are being incurred by the State of Maine Potato Committee in connection with the administration of the marketing agreement and order and such regulations;

(c) Handlers of the aforesaid potatoes are required by the marketing agreement and order to pay the expenses of the State of Maine Potato Committee for each fiscal year, each first handler's pro rata share of such expenses to be equal to the ratio between the total quantity of potatoes handled by him as the first handler thereof and the total quantity of potatoes handled by all handlers as the first handlers thereof during such fiscal year;

(d) The State of Maine Potato Committee has immediate and urgent need for assessment funds to satisfy current expenses and immediate fixing of the assessment rate to be paid by each first handler of potatoes as aforesaid will satisfy such need and permit such handlers to pay assessments on virtually all potato shipments as consummated;

(e) The delay resulting from giving preliminary notice, engaging in public rule making procedure, and postponing the effective date hereof for 30 days after publication in the FEDERAL REGISTER would jeopardize or preclude successful operation of the marketing agreement and order and regulations issued thereunder because of lack of administrative funds; and

(f) Compliance herewith will not require any special preparation on the part of persons affected hereby.

Terms used in this section shall have the same meaning as when used in Marketing Agreement No. 108 and Order No. 87. (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Reg. Serial No. ER-135]

PART 202—ACCOUNTS, RECORDS, AND REPORTS

FORMS OF REPORTS OF FINANCIAL AND OPERATING STATISTICS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 18th day of November 1948.

Section 202.1 (b) of the Economic Regulations authorizes the Director of the Bureau of Economic Regulation to waive certain reporting requirements of such section with respect to air carriers engaged in scheduled air transportation.

It is the purpose of this amendment to remove this delegation from the Economic Regulations. By another amendment adopted concurrently herewith, its scope is being expanded and it is being placed in the Organizational Regulations where it appropriately belongs.

Since this amendment contains a rule of agency organization and practice, notice and public procedure hereon is not required.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends § 202.1 of the Economic Regulations (14 CFR 202.1) as follows, effective December 23, 1948:

1. By repealing paragraph (b).

2. By re-designating the existing paragraphs (c) and (d) as paragraphs (b) and (c).

(Secs. 205 (a), 407 (a), 52 Stat. 984, 1000; 49 U. S. C. 425, 674)

PART 228—FREE AND REDUCED-RATE TRANSPORTATION

FREE TRAVEL FOR POSTAL EMPLOYEES

Adopted by the Civil Aeronautics Board at its office in Washington, D. C. on the 17th day of November 1948.

The purpose of this amendment is to add the Fourth Assistant Postmaster General to the list of postal officers who are to be carried free when traveling by air on official business relating to the transportation of mail by aircraft.

The Board finds that the Fourth Assistant Postmaster General has important duties in connection with the transportation of mail by aircraft; that this amendment is minor in nature, and that notice and public procedure hereon are therefore unnecessary.

In consideration of the foregoing the Civil Aeronautics Board hereby amends subparagraph (3) of § 228.1 (a) of the Economic Regulations (14 CFR § 228.1 (a)) effective December 22, 1948:

§ 228.1 *Free travel for postal employees*—(a) *Postal employees to be carried free.* * * *

(3) The Third Assistant Postmaster General; the Fourth Assistant Postmaster General; the Assistant Postmaster General who at the time is charged with the duty of the general management of post offices; the Assistant Postmaster General who at the time is assigned the supervision of Air Postal Transport, his Confidential Assistant, his Under Second Assistant, and his four Deputy Second Assistants; the Solicitor of the Post Office Department and the Assistant Solicitor, and any attorney in the Office of the Solicitor who at the time is assigned by

the Solicitor to handle matters relating to the transportation of mail by aircraft; the Chief Inspector and the Assistant Chief Inspector.

(Secs. 205 (a), 405 (m); 52 Stat. 984; 49 U. S. C. 425, 485)

PART 301—ORGANIZATION, DELEGATIONS OF AUTHORITY, AND PUBLIC INFORMATION

DELEGATIONS OF AUTHORITY; WAIVERS, MODIFICATIONS AND INTERPRETATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 18th day of November 1948.

Section 202.1 of the Economic Regulations authorizes the Director of the Bureau of Economic Regulation to waive certain reporting requirements of such section with respect to air carriers engaged in scheduled air transportation. No similar authorization exists with respect to the reporting requirements for irregular air carriers, noncertificated cargo carriers and air freight forwarders, and any other carriers operating pursuant to exemption.

It is the purpose of this amendment to expand the Director's authority with regard to the waiver of the reporting requirements applicable to these other types of carriers making reports in order to assure proper administrative flexibility in connection with the filing of such reports. Since such a provision more appropriately belongs in the Organizational Regulations as a delegation of authority rather than in Part 202 relating to substantive requirements, it is being accomplished by an amendment to § 301.2, and a companion amendment adopted concurrently herewith, repeals the present paragraph § 202.1 (b), *supra*.

Since this amendment constitutes a rule of agency organization and practice, notice and public procedure hereon is not required.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends § 301.2 of the Organizational Regulations (14 CFR 301.2) as follows, effective December 23, 1948:

1. By adding thereto a new paragraph (f) reading as follows:

§ 301.2 *Delegations of authority.* • • •

(f) *Waiver, modification and interpretation of reports.* The Director, Bureau of Economic Regulation is authorized to waive, modify, or interpret any of the reporting requirements of § 202.1 of the Economic Regulations and to establish detailed uniform practices in connection with the submission of the reports required therein; *Provided*, That upon application by any air carrier affected by such action of the Director, any waiver, modification, interpretation or established practice shall be submitted to the Board for review.

(Secs. 205 (a), 407 (a), 52 Stat. 984, 1000; 49 U. S. C. 425, 674)

By the Civil Aeronautics Board.

TITLE 15—COMMERCE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

[3d Gen. Rev. of Export Regs., Amdt. 22]

PART 371—GENERAL REGULATIONS

MISCELLANEOUS AMENDMENTS

1. Section 371.7a *Authenticated shipper's export declaration* is amended in the following particulars: [1]

1. Subparagraph (3) of paragraph (a) *Procedure for authentication* is amended to read as follows:

(3) Unless the exporter shall otherwise state in writing in the power of attorney set forth in the shipper's export declaration, or in a general power of attorney, or other written form, subscribed and sworn to by a duly authorized officer or employee, filed with the collector of customs, the forwarding agent named by the exporter in said power of attorney or other form shall be deemed to be the true agent of the exporter for export control and customs purposes.

2. Subparagraph (7) of paragraph (a) is amended to read as follows:

(7) No person shall submit to the collector of customs for authentication any shipper's export declaration unless such person is the licensee or his carrier, the duly authorized forwarding agent of the licensee, or a duly authorized officer or employee of either.

3. Subparagraph (10) of paragraph (a) is amended to read as follows:

(10) Collectors of customs shall not, except in case of hardship or emergency, authenticate any shipper's export declaration showing evidence of change, alteration or amendment, but shall require clean copy. Where demonstrated cases of hardship or emergency exist in which collectors of customs find it desirable to make exception, collectors may approve on the face of the declaration specific changes, alterations, or amendments. The duly authorized forwarding agent or carrier for an exporter may insert or correct in declarations presented by him required items of information peculiarly within his own knowledge, such as the designation of the actual exporting carrier, the actual date of exportation, or the actual Schedule B number to which the commodity described in the declaration unambiguously refers; but nothing herein shall relieve such forwarding agent or carrier from liability for any misrepresentation of facts so inserted or corrected. The forwarding agent or carrier making such insertion or correction must specifically identify the same in writing on the face of the declaration.

This amendment shall become effective as of October 15, 1948, except that collectors of customs may until November 1, 1948, authenticate shipper's export declarations where they are otherwise satisfied that (1) the forwarder is the authorized agent of the exporter, (2) the person executing the declaration has authority to do so, and (3) compliance with the provisions of § 371.7a as herein amended, with respect to filing of designations, would create hardship.

(Sec. 6, 54 Stat. 714; 55 Stat. 206; 56 Stat. 463; 58 Stat. 671; 59 Stat. 270; 60 Stat. 215; 61 Stat. 214; 61 Stat. 321; Pub. Law 395, 80th Cong.; 50 U. S. C. App. and Sup. 701, 702; E. O. 9630, Sept. 27, 1945, 10 F. R. 12245; E. O. 9919, Jan. 3, 1948, 13 F. R. 59)

Dated: November 18, 1948.

FRANCIS MCINTYRE, *Assistant Director, Office of International Trade.*

Explanatory statement. A. Under the export control regulations (13 F. R. 4069 et seq.), the exporter to whom a license is issued or who undertakes to export under a general license has always been legally responsible for the proper use of that license and for the due performance of all its terms and provisions. And this responsibility continues even when he acts through a freight forwarder or other forwarding agent. Recent experience in the administration of export controls indicated, however, that it was often difficult to establish that relationship as a matter of record and fix responsibility when violations occurred. Amendment No. 3 to the export control regulations (13 F. R. 4147) and the OIT form "Power of Attorney—Designation of Forwarding Agent" [1] were designed to remedy that situation.

Said form, which was prepared for this purpose, was not mandatory but only suggested. Power-of-attorney terminology was used to accord with common business practice in establishing agency relationships, and by way of interpretation considerable flexibility was permitted. Nevertheless, there are situations where firms have found compliance with some of the required formalities in the execution of a general power of attorney, such as corporate seal, special resolution of the board of directors, etc. to be unduly onerous.

Accordingly, the regulations are herein amended, as above set forth, to permit, alternatively to the power of attorney form, the use of any written form of designation, provided it is subscribed and sworn to before a notary public or other person authorized to administer oaths, by a duly authorized officer or employee of the licensed exporter. Such designation must, of course, clearly indicate that the firm or person named is authorized to represent the licensed exporter for export control and customs purposes. The extent of the authority in this designation, as in the power of attorney, may be restricted, however, with respect to time, country, commodity, specific license, or other matter. It is also intended to permit the use of such documents to designate one or more employees, or other persons, such as an export manager or agent, to, in turn, appoint as many freight forwarders or other forwarding agents as may be required.

In addition, by the above amendment specific reference to carriers has been made in those parts of the regulations dealing with the submission of the shipper's export declaration in order to make clear that carriers, not otherwise acting as forwarding agents, may deliver executed declarations without specific authorization therefor. The amendment also extends to such carriers the privilege of making certain specified insertions or corrections in the declaration prior to authentication.

SUMMARY OF INTERPRETATIONS [1]

A. *Applicability of Amendment No. 3*

1. Q. Do the provisions of Amendment No. 3 to the export control regulations (13 F. R. 4147), with respect to presentation of additional copies of shipper's export declarations, and with respect to procedure for authentication of declarations, filing of powers of attorney or other forms of designations of forwarding agent, and use of authenticated declarations (announced in Current Export Bulletin 471), apply to Canada?

A. No, unless the particular exportation from the United States is destined for a third country, for which a license is required, and the shipment is via Canada.

2. Q. Do the above provisions of the regulations, announced in CEB 471, apply to general license shipments?

A. Yes. General license shipments have always been subject to Customs scrutiny and are covered by the new regulations, along with shipments under validated license, in order to curb possible abuse of the general license privileges.

3. Q. Are the export control regulations announced in CEB 471 applicable to exportations regulated by U. S. governmental agencies other than the OIT, such as the Atomic Energy Commission and the Department of State?

A. No.

4. Q. What is the effect of making the shipper's export declaration an "export control document"?

A. A shipper's export declaration has always been an official document of the United States Government so that, for example, the penalties relating to making false statements on Government documents were always applicable to the use of that document. The only effect of the new export control regulations announced in CEB 471 (and CEB 467) in this respect has been to bring shipper's export declarations under the export control laws as well as under the laws of the United States relating to Government documents generally and shipper's export declarations in particular.

5. Q. Is the use of a power-of-attorney form hereinafter referred to mandatory?

A. As now provided in the amendment set forth above, it is only an optional form.

6. Q. May the exporter designate more than one forwarding agent?

A. Yes. It is not intended that the power of attorney or other authorization designating a forwarding agent should constitute such agent the sole and exclusive forwarding agent of the exporter for all exportations. Exporters may execute powers of attorney or authorizations for any and all of the forwarding agents whom they employ.

7. Q. Where a forwarding agent is suggested by the foreign buyer in a transaction (rather than by the seller in this country), must the seller designate such forwarding agent as his agent for export control and customs purposes?

A. Exporters have in some such cases expressed reluctance to designating such forwarders as their agents, because they do not regularly deal with them, or because they may not wish thereby to disturb contractual relations with their own forwarders. It is assumed that the underlying problem here is the exporter's unwillingness to give any general authorization to such agent. It is, therefore, suggested that the form of designation on the shipper's export declaration be used which would limit the authority granted to the particular transaction involved. It should also be noted that in some such cases the solution to the problem may lie in having the agent for the foreign buyer apply for the license. (Part B of Explanatory Statement to Amendment No. 1, 13 F. R. 4099; also contained in CEB 467, page 2, paragraph B.)

B. *Powers of attorney*

8. Q. Must an exporter use the OIT form of power of attorney designating a forwarding agent, or may he give such authority by other and more limited powers of attorney?

A. The language of the OIT form of power of attorney is not mandatory. As announced in CEB 471, Amendment No. 3 to the export control regulations (as well as the above amendment) specifically provides that it may be made more restrictive by the exporter; likewise, an exporter may restrict the power of attorney set forth in the shipper's export declaration. Of course, no limitation may be made which would relieve the exporter from responsibility for carrying out the exportation authorized by the license which he holds.

9. Q. May the exporter vary the language of the acknowledgment set forth in the OIT forms of power of attorney?

A. Yes. The forms were drafted to permit use by exporters who are individuals, partnerships, corporations, associations, or quasi-governmental bodies. The acknowledgment forms may be modified to fit the legal status of the exporter.

10. Q. May exporters authorize forwarding agents to sign and swear to declarations and to present them to collectors of customs for authentication by executing the designation appearing on the face of the shipper's export declarations?

A. Yes. The exporter may execute the designation appearing on the shipper's export declaration, which is applicable only to the transaction referred to in the declaration. The power of attorney or other written authorization may be used where the same forwarding agent handles numerous shipments and it is impracticable to execute a specific designation on the declaration for each transaction.

C. *Who should execute*

11. Q. Who is deemed to be a "duly authorized officer or employee" for the purpose of signing and swearing to shipper's export declarations?

A. There is and can be no fixed rule in this respect. In general, such corporate officers as the president, vice president, treasurer, and secretary of a corporation, any partner of a partnership, and any responsible head of any other form of private or quasi-governmental organization will be deemed to have the requisite authority. Assistant officers will, in general, be accorded a like assumption. Such employees as export managers who, by their official titles, are apparently vested with power to deal with exportations, will also be deemed to have authority to execute the designation appearing on the face of a declaration and to sign and swear to such declarations.

D. *Proof of authority*

12. Q. Under what circumstances must Customs be furnished with supporting evidence of authority of persons executing powers of attorney or other authorizations?

A. Customs may in any case require proof of the authority of any such person signing a power of attorney or other authorization. In general, however, Customs will require such proof only when there is some reason to doubt the authority of the person involved.

E. *Miscellaneous*

13. Q. Must a forwarding agent have an office at the port of exportation or otherwise be known to the collector at such port?

A. No. A forwarding agent need not have an office at every port of exportation. If a forwarding agent signs and swears to a declaration which is intended for clearance of an exportation through a port where he has no office, he should furnish to the collector at such port his power of attorney or other authorization from the exporter. He should also furnish to the person who will arrange physically to present the declaration to the collector an authorization in writing for that purpose.

14. Q. May a forwarding agent who does not have an office at the port of exportation redelegate to another forwarding agent his authority to sign and swear to declarations and to present declarations for authentication at such port?

A. Yes; provided that the power of attorney or other authorization from the exporter permits such redelegation or there is presented to the collector written evidence of consent of the exporter to such redelegation.

15. Q. If a forwarding agent has a power of attorney or other authorization filed with a collector in one port, must he file additional original documents with collectors in other ports through which he may effect exportations?

A. No. It is only necessary to file the original documents in one port. Photostatic copies thereof, certified by the collector of such port, may be transmitted by the forwarding agent to other ports where needed unless the authorization is otherwise specifically limited by the exporter.

16. Q. How should forwarding agents and exporters handle such matters as changes of weights, measurements, quantities, etc., which must frequently be made on declarations after authentication?

A. In general, as announced in CEB 471, parts D and E, Amendment No. 3 to the export control regulations permit certain types of amendments and insertions to be made in declarations before and after authentication. A forwarding agent, however designated on the declaration or by separate document, may make such changes, unless specifically precluded from doing so by the exporter in his designation. Collectors of customs are empowered to permit such amendments upon written authorization therefor by the collectors set forth on such authenticated declaration. Collectors will exercise discretion to allow amendments of this character. Where the amendments have the effect of converting a declaration into one for a substantially different shipment, however, a new declaration will have to be prepared. Unless otherwise limited by the exporter, the power of attorney or other authorization given to a forwarding agent is deemed also to authorize him to prepare substitute declarations reflecting such changes.

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

CERTIFICATION OF ACCEPTED ORDER

Section 373.2 *Export licensing general policy* is amended by adding to paragraph (b), *Evidence of accepted order*, a new subparagraph (3) to read as follows:

[1] An Explanatory Statement accompanying and interpretative of this amendment appears at the end hereof. The statement is also contained in Current Export Bulletin 488, dated October 15, 1948, issued by the Department of Commerce, Office of International Trade.

[1] This form was published in Current Export Bulletin 482, dated September 15, 1948. Copies of the Bulletin were filed with the Division of the Federal Register simultaneously with this amendment.

[1] This summary was also published in Current Export Bulletin 488.

(3) *Certification as to accepted order.* The requirement of subparagraph (b) as to submission of clear evidence of an accepted order covering the transaction between the applicant and buyer is discontinued with respect to license applications covering the following commodities:

Iron and steel products (excluding surplus and reject iron and steel products).
Caustic soda (applications for licenses against fourth calendar quarter, 1948, quotas).
Calf and kip skins, Schedule B Nos. 020602, 020604, 020702, and 020704.
Soda ash.

The applicant for export license covering the above commodities must, however, certify on the face of the application, or on an attachment thereto, that he does have an accepted order for the commodities covered in the application, as follows:

As a material representation in connection with this application _____ (applicant's reference _____, I (we) certify that it represents a number) request to export commodities which, subject only to conditions beyond the control of either the applicant or named purchaser, the named purchaser has contracted to buy from the applicant, and the applicant has contracted to sell to the named purchaser, at the price stated in the application. The documents or records evidencing this contract will be kept for the duration of export control and will be made available to the Office of International Trade upon demand.

If the above certification is made on an attachment to the license application, it must be signed by the applicant or an officer or a duly authorized agent of the applicant.

This amendment shall become effective as of October 13, 1948, with respect to iron and steel products and caustic soda, and with respect to calf and kip skins and soda ash, as of November 9, 1948.

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

VALIDITY PERIOD AND EXTENSIONS OF EXPORT LICENSES

Section 373.3, *Special provisions for iron and steel products,* is amended in the following particulars:

1. Paragraph (g), *Validity period,* is amended by adding thereto the following unnumbered paragraph:

Licenses to export iron and steel products which have been amended to change the country of destination pursuant to § 373.3 (h) (1) will be valid for only 90 days from such amendments date.

2. Paragraph (h), *Amendments and extension,* is amended to read as follows:

(h) *Amendments and extensions.* (1) Save for exceptional circumstances, requests for amendments to increase the quantity specified on a license or to substitute another commodity for the one licensed will not be granted. Where no change of country destination is involved, requests for amendment of consignee or purchaser will be considered provided a full and detailed explanation is submitted. Requests for amendments of licenses covering iron and steel products which involve a change in the country of destination will be considered by the Office of International Trade: *Provided,* The granting of such request does not result in an unjustifiable increase either in the quota set aside for the new destination or in the exporter's participation in such quotas. Requests for amendments of licenses involving a change in the country of destination must show that shipment under the original license could not be effected, imposing unusual hardship upon the exporter. It must also be shown that failure to ship results from circumstances which have arisen in the original country of destination with respect to foreign exchange and dollar shortage or with respect to other factors preventing the foreign purchaser from securing the necessary import documents. In connection with the request the following must be submitted:

(i) The original license;

(ii) A letter from the original consignee in the foreign country showing that he has been unable to consummate the transaction, and reasons therefor;

(iii) A new license application including the necessary certification required by § 373.2 (b);

(iv) Evidence that the applicant has the material on hand or proof that the material can be obtained within 30 days subsequent to the date of filing the request for amendment.

(2) No extensions of the validity period will be granted with respect to export licenses amended to change the country of destination pursuant to subparagraph (1) of this paragraph. Requests for extension of the validity period of export licenses which have not been so amended will be considered in cases of material ready for shipment only for the limited period of time necessary to clear such shipment.

This amendment shall become effective as of November 9, 1948.

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

MISCELLANEOUS AMENDMENTS

Part 373, Licensing Policies and Related Special Provisions, is amended in the following particulars:

1. Section 373.2, *Export licensing general policy,* is amended in the following particulars: Subparagraph (2) of paragraph (h), *Commodities subject to this export licensing policy* is amended by adding to the list of commodities therein the following:

Commodity:	Schedule B No.
Calf skins, dry	020602
Calf skins, wet (include slunk skins)	020604
Kip skins, dry	020702
Kip skins, wet	020704

This part of the amendment shall become effective as of November 9, 1948.

2. Section 373.4, *Special provisions for surplus and reject steel,* is amended in the following particulars:

Subparagraph (1), *Validity period,* of paragraph (g), *License limitations,* is amended to read as follows:

(1) *Validity period and amendments involving a change in the country of destination.* The validity period of all individual licenses authorizing the exportation of surplus steel or reject steel will be stated on the license. All such licenses shall be valid for a period of ninety (90) days from the date of validation, unless otherwise stated. Applications for extension of the validity period will not be granted save where warranted in unusual circumstances. The provisions of § 373.3 (h) shall be applicable to requests for amendments involving a change in the country of destination shown on licenses to export surplus and reject steel.

This part of the amendment shall become effective as of November 9, 1948.

3. A new § 373.14 is added to read as follows:

§ 373.14 *Special provisions for caustic soda.* Caustic soda will be licensed for export against fourth calendar quarter 1948 quotas in accordance with the licensing policy set forth in § 373.2 and the following special provisions.

(a) *Time for submission of applications.* Applications for licenses to export caustic soda to the following destinations may be submitted at any time during the fourth calendar quarter:

British Guiana.	Lebanon.
British West Indies.	Mozambique.
Burma.	Netherlands East Indies.
Costa Rica.	New Zealand.
Curacao.	Nicaragua.
Dominican Republic.	Panama.
Ecuador.	Paraguay.
El Salvador.	Saudi Arabia.
French Oceania.	Siam.
French West Indies.	Southern Rhodesia
Guatemala.	Surinam.
Haiti.	Turkey.
Honduras.	

All other license applications must be submitted during the period October 15 through November 1, 1948. Applications received subsequent to this period will be returned to the applicants without action; such applications may be resubmitted for consideration against first calendar quarter 1949 quotas in accordance with the time schedule for that quarter.

(b) *Price changes on resubmitted license applications.* If an applicant desires to change the price on a license application which he is resubmitting, he shall strike out the former price shown on the application, enter the new price, write the words "amended by", and sign and set forth the date of the change. The price change may be made on the duplicate copy only and must be signed by the applicant or, on his behalf, by any person who at the time is authorized to sign the application itself.

(c) *Validity period and extensions.* Export licenses for caustic soda will generally be issued for a validity period of three months, unless otherwise stated on the license. Licenses will not be extended more than once, nor for more than sixty (60) days. Requests for extension must be accompanied by a statement explaining why the applicant was unable to make shipment within the validity period of the license.

This part of the amendment shall become effective as of October 13, 1948.

4. A new § 373.15 is added to read as follows:

§ 373.15 *Special provision for calf and kip skins.* Calf and kip skins. Schedule B Nos. 020602, 020604, 020702 and 020704, will be licensed for export against export quotas for the fourth calendar quarter, 1948, and subsequent calendar quarters in accordance with the licensing policy set forth in § 373.2 and the following special provisions:

(a) *Export quotas.* Beginning with the fourth calendar quarter, 1948, a portion of the quarterly export quota will be allotted for licensing in each of the three months in the quarter.

(b) *Time for submission of applications*—(1) *Monthly quota allotments for November, 1948, and subsequent months.* Applications for licenses to export calf and kip skins against monthly allotments for November and December, 1948, must be submitted during the first twenty days of such months. Applications for licenses against current monthly allotments subsequent to December, 1948, must be submitted during the first ten days of the current month. Applications received after the submission periods specified above will be returned to the applicants without action; such applications may be resubmitted for consideration against export quota allotments for subsequent months.

(2) *Pending license applications.* Pending applications that were not considered for licensing against the October, 1948, allotment will be considered against the November, 1948, allotment together with applications received during the first twenty days of November.

(c) *Validity period.* Export licenses for calf and kip skins will generally be issued for a validity period of six months, unless otherwise stated.

This part of the amendment shall become effective as of November 9, 1948.

PART 374—PROVISIONS FOR INDIVIDUAL AND OTHER VALIDATED LICENSES

APPLICATIONS FOR EXPORT LICENSES

Section 374.14 *Applications for licenses to export to South Korea, Japan, Marcus Island and Germany,* is amended in the following particulars:

Section 374.14 (b) is amended to read as follows:

(b) Except as provided in this paragraph, license applications covering proposed exportations to the combined American and British Zones of Germany must contain (under item 5 of Form IT 419) the import permit number or the contract number assigned by the Joint Export-Import Agency in Germany covering the proposed shipment.

License applications to export bona fide trade samples, other than samples of streptomycin, cigarettes, and other tobacco products, to the combined American and British Zone of Germany need not contain the import number or the contract number assigned by the Joint Export-Import Agency provided the applicant clearly indicates on the license application that the commodities involved are samples only, and provided the quantities of samples involved are not excessive in relation to the nature of the commodities. As used herein, the term "sample" means all commercial and industrial specimens.

This amendment shall become effective November 22, 1948.

C., sec. 45b) [Cease and desist order, National Pressure Cooker Company et al., Docket 5531, Oct. 20, 1948]

At a regular session of the Federal Trade Commission held at its office in the city of Washington, D. C., on the 20th day of October A. D. 1948.

In the Matter of National Pressure Cooker Company, a Corporation, Lewis E. Phillips, A. A. De Bonville, Morton Phillips, Ed H. Wittenberg, (Erroneously Described in the Complaint as Ed Whitenberg), Margaret M. Whelihan, (Erroneously Described in the Complaint as Morgan M. Whelehan) and J. Phillips

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the respondents' joint and several answer thereto, and a stipulation as to the facts entered into by and between the respondents, by their counsel, and Richard P. Whiteley, Chief Trial Counsel of the Commission, in which it was provided, among other things, that, subject to the approval of the Commission, the statement of facts contained therein may be taken as the facts in this proceeding in lieu of all evidence, and that the Commission may proceed upon said statement of facts to make its report, stating its findings as to the facts, including inferences which it may draw from the stipulated facts, and its conclusion based thereon, and enter its order disposing of the proceeding without the filing of briefs or other intervening procedure; and the Commission, having approved said stipulation and having made its findings as to the facts and its conclusion that said respondents have violated section 3 of an act of Congress entitled "An act to supplement existing laws against unlawful restraints and monopolies, and for other purposes", approved October 15, 1914 (the Clayton Act), and the provisions of section 5 of the Federal Trade Commission Act:

It is ordered, That the respondent National Pressure Cooker Company, a corporation, and its officers, and the respondents Lewis E. Phillips, A. A. De Bonville, Morton Phillips, Ed H. Wittenberg and J. Phillips, and said respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in interstate commerce of pressure cookers, pressure canners, and the component parts thereof and accessories thereto, do forthwith cease and desist from:

(1) Selling or making any contract for the sale of any such products on the condition, agreement or understanding that the purchaser thereof shall not use or deal in the pressure cookers or pressure canners, or component parts thereof or accessories thereto, of a competitor or competitors of the corporate respondent;

(2) Enforcing or continuing in operation or effect any condition, agreement or understanding in or in connection with any existing sales contract which condition, agreement or understanding is to the effect that the purchaser of said products shall not use or deal in the pressure cookers or pressure canners, or component parts thereof or accessories thereto, of a competitor or competitors of the corporate respondent;

(3) Offering favorable shipment allocations, or any other inducement, to distributors or other purchasers or prospective purchasers of such products on the condition, agreement or understanding that such distributors or other purchasers or prospective purchasers shall not use or deal in the pressure cookers or pressure canners, or component parts thereof or accessories thereto, of a competitor or competitors of the corporate respondent;

(4) Refusing, or directly or by implication threatening to refuse, to deliver such products to distributors or other dealers who are not willing to purchase or contract for the purchase of such products on the condition, agreement or understanding that they shall not use or deal in the pressure cookers or pressure canners, or component parts thereof or accessories thereto, of a competitor or competitors of the corporate respondent;

(5) Directly or indirectly inducing or attempting to induce any distributor of such products, or other customer of the corporate respondent, to cease or refrain from using or dealing in the pressure cookers or pressure canners, or component parts thereof or accessories thereto, of a competitor or competitors of the corporate respondent.

It is further ordered, For reasons appearing in the findings as to the facts, that the complaint herein be, and it hereby is, dismissed as to the respondent Margaret M. Whelihan.

It is further ordered, That the respondents shall, within sixty (60) days after the service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

TITLE 24—HOUSING CREDIT

Chapter VIII—Office of the Housing Expediter

[Controlled Housing Rent Reg.[1], Amdt. 50]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

CONTROLLED HOUSING RENT REGULATION

The Controlled Housing Rent Regulation (§§ 825.1 to 825.12) is amended in the following respects:

1. Schedule B, Item 34, is hereby revoked effective as of November 13, 1948.

2. A new Item 34 is hereby incorporated in Schedule B, to read as follows:

34. Provisions relating to Oklahoma County, a portion of the Oklahoma City Defense-Rental Area, State of Oklahoma:

Increase in Maximum Rents Based Upon the Recommendation of the Local Advisory Board and the Order of the Emergency Court of Appeals. Pursuant to the provisions of, and subject to the limitations contained in, the Housing and Rent Act of 1947, as amended, the maximum rents for housing accommodations in Oklahoma County, Oklahoma, a portion of the Oklahoma City, Oklahoma, Defense-Rental Area, are hereby increased, effective as of November 13, 1948, as follows:

a. For all housing accommodations for which the maximum rent was first determined under Section 4 (a) or 4 (b) of the Rent Regulation for Housing, issued pursuant to the Emergency Price Control Act of 1942, as amended, the increased maximum rent shall be the amount of such first determined maximum rent plus 20 percent thereof and plus or minus (as the case may be) the amount of all subsequent adjustments made by order which were based upon difference in rental value as of March 1, 1942 or upon the rent generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1942.

b. For all other housing accommodations for which an order was entered prior to October 15, 1948 under the applicable rent regulation fixing the maximum rent on the basis of the rent generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1942, the increased maximum rent shall be the amount of the maximum rent fixed by such order plus 20 percent thereof and plus or minus (as the case may be) the amount of all subsequent adjustments made by order which were based upon difference in rental value as of March 1, 1942.

c. Any maximum rent which is substantially lower than the rent generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1942, plus 20 percent shall be eligible for adjustment on the basis of such generally prevailing rent plus 20 percent, on the filing of an individual petition for adjustment under § 825.5 (a) (11).

All provisions of §§ 825.1 to 825.12 insofar as they are applicable to the Oklahoma City Defense-Rental Area are hereby amended to the extent necessary to carry these provisions into effect.

This amendment shall become effective as of November 13, 1948.

Issued this 19th day of November 1948.

TIGHE E. WOODS,
Housing Expediter.

Statement To Accompany Amendment 50 to the Controlled Housing Rent Regulation

Effective October 15, 1948, Amendment No. 44 was issued granting a rent increase in Oklahoma County, Oklahoma, a portion of the Oklahoma City, Oklahoma, Defense-Rental Area. This amendment was based upon a recommendation, made by the Local Advisory Board for Oklahoma County, for a rent increase of 25 per cent applicable to freeze date rents and those established at freeze date comparability, the amount of certain types of adjustments to be included only after applying the 25 per cent increase. Amendment No. 44 granted a rent increase of 15 per cent which was made applicable to current maximum rents including all except certain types of adjustments.

After issuance of Amendment No. 44, the recommendation of the Local Advisory Board, together with other related documents, was filed with the Emergency Court of Appeals, pursuant to section 204 (e) (4) of the Housing and Rent Act of 1947, as amended. On November 13, 1948, the Emergency Court of Appeals approved the recommendation of the Local Advisory Board to the extent of a rent increase of 20 per cent, such rent increase to be applied in the manner provided by the Court order.

Accordingly, this amendment is being issued, effective as of November 13, 1948, to effectuate the recommendation of the Local Advisory Board to the extent and in the manner approved by the Emergency Court of Appeals.

[Rent Reg. for Controlled Rooms in Rooming Houses and Other Establishments,[1] Amdt. 50]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

RENT REGULATION FOR CONTROLLED ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS

The Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92) is hereby amended in the following respects:

1. Schedule B, Item 35, is hereby revoked effective as of November 13, 1948.

2. A new Item 35 is hereby incorporated in Schedule B, to read as follows:

35. Provisions relating to Oklahoma County, a portion of the Oklahoma City Defense-Rental Area, State of Oklahoma:

Increase in Maximum Rents Based Upon the Recommendation of the Local Advisory Board and the Order of the Emergency Court of Appeals. Pursuant to the provisions of, and subject to the limitations contained in, the Housing and Rent Act of 1947, as amended, the maximum rents for housing accommodations in Oklahoma County, Oklahoma, a portion of the Oklahoma City, Oklahoma, Defense-Rental Area, are hereby increased, effective as of November 13, 1948, as follows:

a. For all housing accommodations for which the maximum rent was first determined under section 4 (a) of the Rent Regulation for Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts, issued pursuant to the Emergency Price Control Act of 1942, as amended, the increased maximum rent shall be the amount of such first determined maximum rent plus 20 percent thereof and plus or minus (as the case may be) the amount of all subsequent adjustments made by order which were based upon difference in rental value as of March 1, 1942 or upon the rent generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1942.

b. For all other housing accommodations for which an order was entered prior to October 15, 1948 under the applicable rent regulation fixing the maximum rent on the basis of the rent generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1942, the increased maximum rent shall be the amount of the maximum rent fixed by such order plus 20 percent thereof and plus or minus (as the case may be) the amount of all subsequent adjustments made by order which were based upon difference in rental value as of March 1, 1942.

c. Any maximum rent which is substantially lower than the rent generally prevailing in the defense-rental area for comparable housing accommodations on March 1, 1942 plus 20 percent shall be eligible for adjustment on the basis of such generally prevailing rent plus 20 percent, on the filing of an individual petition for adjustment under § 825.85 (a) (8).

All provisions of §§ 825.81 to 825.92 insofar as they are applicable to the Oklahoma City Defense-Rental Area are hereby amended to the extent necessary to carry these provisions into effect.

(Sec. 204 (d), 61 Stat. 197, as amended by 62 Stat. 37 and by 62 Stat. 94; 50 U. S. C. App. 1894 (d). Applies sec. 204 (e), 61 Stat. 197, as amended by 62 Stat. 37 and by 62 Stat. 94; 50 U. S. C. App. 1894 (e))

This amendment shall become effective as of November 13, 1948.

Issued this 19th day of November 1948.

TIGHE E. WOODS,
Housing Expediter.

Statement To Accompany Amendment 50 to the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments

Effective October 15, 1948, Amendment No. 44 was issued granting a rent increase in Oklahoma County, Oklahoma, a portion of the Oklahoma City, Oklahoma, Defense-Rental Area. This amendment was based upon a recommendation, made by the Local Advisory Board for Oklahoma County, for a rent increase of 25 per cent applicable to freeze date rents and those established at freeze date comparability, the amount of certain types of adjustments to be included only after applying the 25 per cent increase. Amendment No. 44 granted a rent increase of 15 per cent which was made applicable to current maximum rents including all except certain types of adjustments.

After issuance of Amendment No. 44, the recommendation of the Local Advisory Board, together with other related documents, was filed with the Emergency Court of Appeals, pursuant to section 204 (e) (4) of the Housing and Rent Act of 1947, as amended. On November 13, 1948, the Emergency Court of Appeals approved the recommendation of the Local Advisory Board to the extent of a rent increase of 20 per cent, such rent increase to be applied in the manner provided by the Court order.

Accordingly, this amendment is being issued, effective as of November 13, 1948, to effectuate the recommendation of the Local Advisory Board to the extent and in the manner approved by the Emergency Court of Appeals.

2. Pursuant to the provisions of section 7 of the River and Harbor Act of March 4, 1915 (38 Stat. 1053; 33 U. S. C. 471), §§ 202.30 and 202.40 are hereby amended, and § 202.38 is hereby prescribed, as follows:

§ 202.30 *Annapolis Harbor, Md.*—(a) *The anchorage grounds*—(1) *Naval anchorage for deep draft vessels.* In Chesapeake Bay, bounded on the north by latitude 38°58′; on the east by a line bearing 203°05′ from latitude 38°58′, longitude 76°24′; on the south by latitude 38°56′30″; and on the west by a line bearing 139° from Greenbury Point Shoal Light. This anchorage is reserved for deep-draft naval vessels. Berths in the area will be assigned on application to the Commandant, Severn River Naval Command.

NOTE: All bearings in this section referred to true meridian.

(2) *Middle Ground anchorage.* In Severn River, beginning at a point bearing 126°, 800 yards, from the mast at the intersection of the northeast and southeast seawalls of the Naval Academy grounds; thence 79°20′, 485 yards, to Annapolis Harbor Buoy 13; thence 144°, 220 yards; thence 153°10′, 715 yards; thence 270°, 175 yards; and thence 313° 30′, 1,060 yards, to the point of beginning.

(3) *South anchorage.* In Severn River, begining at a point on the shoreline of Horn Point, Eastport, bearing 270° from Annapolis Harbor Buoy 5; thence 90° to Annapolis Harbor Buoy 5; thence 313°30′, 1,040 yards; thence 259°20′, 710 yards, to a point bearing 189°30′, 615 yards, from the mast at the intersection of the northeast and southeast seawalls of the Naval Academy grounds; and thence 180° to the shoreline at Eastport. No vessels shall anchor within 100 feet of any wharf, marine railway, or other structure without permission of the owner thereof.

(4) *Naval anchorage for small craft.* In Severn River, beginning at a point on the prolongation of the line of the northeast seawall of the Naval Academy grounds, 80 feet from the face of the southeast seawall of the Naval Academy grounds; thence 81°, 470 yards, to Annapolis Harbor Buoy 15; thence 125°45′, 580 yards; thence 259°20′, 1,035 yards; thence 310°, 230 yards; and thence 40°, parallel to the southeast seawall of the Naval Academy grounds, 400 yards, to the point of beginning. Except in case of emergency, no vessel shall be anchored in this area without permission of the Commandant, Severn River Naval Command. Anchorages will be assigned upon request to the station ship at the Naval Academy.

(5) *Anchorage A.* In Spa Creek, beginning at a point bearing 214°, 420 yards, from the mast at the intersection of the northeast and southeast seawalls of the Naval Academy grounds; thence 130°, 200 yards; thence 246°20′, 230 yards; thence 234°, 130 yards; thence 257°, 115 yards; thence 50°30′, 100 yards; thence 42°30′, 125 yards; and thence 34°, 200 yards, to the point of beginning.

(6) *Anchorage B.* In Spa Creek, beginning at a point bearing 204°, 660 yards, from the mast at the intersection of the northeast and southeast seawalls of the Naval Academy grounds; thence 144°, 22 yards; thence 204°45′, 140 yards; thence 214°, 195 yards; thence 331°, 160 yards; and thence 54°, 285 yards, to the point of beginning.

(b) *The regulations.* (1) Except in case of emergency, no vessel shall be anchored in the area to the north and east of the Annapolis Channel bounded on the east by Greenbury Point; on the south by a line bearing 270° from the southern tip of Greenbury Point; on the west by the Annapolis channel; and on the north by the southern boundary of the cable area and the shoreline of the Government reservation and Carr Creek.

(2) Except in case of emergency, no vessel shall be anchored in Annapolis Harbor to the westward of the dredged channel and northward of Annapolis Harbor Buoy 5 (off Horn Point, Eastport) outside of the established anchorage areas, except in Spa Creek and the area to the southward of the Naval anchorage for small craft. No vessel shall be so anchored that any part of the vessel extends at any time within this area. Any vessel anchoring, under great emergency, within this area shall be placed as close to an anchorage area as practicable, and shall move away immediately after the emergency ceases.

(3) No vessel shall be anchored in the cable and pipe-line area, lying between the Naval Academy and the Naval Engineering Experiment Station and having the following limits: Eastern limit, from mast at the landward end of Reina Mercedes Pier approximately 67° to white "Cable Crossing" sign at the Experiment Station; western limit, from "Cable Crossing" sign on the point at Fort Severn Beach 233° to America Dock, Naval Academy.

(4) Except in case of emergency, no vessel shall be anchored, without permission of the Commandant, Severn River Naval Command, in the Naval Academy Drill area described as follows: That portion of the Severn River lying to the northeastward of the Naval Academy, bounded on the north by the State Highway Bridge and on the south by the northern limit of the cable and pipe-line area, excluding that area off the eastern shoreline inclosed by a line extending approximately 131° between the eastern abutment of the State Highway Bridge and the outboard end of the pier on Ferry Point. This drill area also includes the lower part of Dorseys Creek below the Naval Academy Drawbridge. Requests to anchor in this drill area shall be made to the station ship at the Naval Academy.

(5) The restrictions in this section do not apply to the anchoring or marking by buoys of apparatus used for the purpose of taking sea food, except within the cable and pipe-line area described in subparagraph (3) of this paragraph.

(6) The regulations in this section shall be enforced by the Commandant, Severn River Naval Command, and the Superintendent, United States Naval Academy, and such agencies as they may designate.

§ 202.38 *York River, Va.; naval anchorages*—(a) *The anchorage grounds*—(1) *Anchorage 1.* Between Tue Marshes Lighthouse and Yorktown, beginning at latitude 37°14′57″, longitude 76°23′03.5″; thence to latitude 37°14′27″, longitude 76°23′03″; thence to latitude 37°13′54″, longitude 76°25′39″; thence to latitude 37°13′42.5″, longitude 76°27′40.5″; thence to latitude 37°14′11″, longitude 76°29′11.5″; thence to latitude 37°14′23″, longitude 76°29′11.5″; thence to latitude 37°14′22.5″, longitude 76°25′43.5″; and thence to the point of beginning.

(2) *Anchorage 2.* Between Yorktown and the Naval Mine Depot, beginning at latitude 37°15′34″, longitude 76°31′25″; thence to latitude 37°15′25″, longitude 76°31′39.5″; thence to latitude 37°16′21.5″, longitude 76°32′46″; thence to latitude 37°17′07.5″, longitude 76°34′17″; thence to latitude 37°17′55″, longitude 76°35′14.5″; thence to latitude 37°18′05″, longitude 76°35′01″; thence to latitude 37°17′20″, longitude 76°34′07″; thence to latitude 37°16′33.5″, longitude 76°32′34″; and thence to the point of beginning.

(b) *The regulations.* These anchorages are reserved for the exclusive use of naval vessels and, except in cases of emergency, no other vessel shall anchor therein without permission from local naval authorities, obtained through the Captain of the Port, Norfolk, Virginia. Movement of vessels through the anchorages will not be restricted.

§ 202.40 *Hampton Roads, Va., and adjacent waters*—(a) *Hampton Roads*—(1) *Anchorage A, Hampton Bar (temporary).* South of a line running from latitude 37°00′45″, longitude 76°20′36″, across the mouth of Hampton Creek to latitude 37°00′47″, longitude 76°19′56″; southwest of the westernmost bridge across Mill Creek; and shoreward of a line described as follows: Beginning at latitude 37°00′04″; longitude 76°18′50.5″; thence to latitude 36°59′19″, longitude 76°18′59.5″; thence to latitude 36°59′11″, longitude 76°19′11″; and thence to latitude 37°00′00″, longitude 76°22′08″.

(i) No vessel shall be anchored in such manner as to swing within 200 feet of either of the dredged channels leading to Hampton and Phoebus.

(ii) This anchorage is reserved for the use of vessels while undergoing examination by quarantine, customs, or immigration authorities. Upon completion of these examinations vessels shall move promptly to a regular anchorage.

(iii) The master of every mechanically-propelled vessel using this anchorage shall keep the vessel in condition to move promptly under its own power upon notification by the Captain of the Port, and when any such vessel is in charge of a pilot the pilot shall remain on board until the vessel is safely anchored in a regular anchorage. No sailing vessel using this anchorage shall be left unattended by a tugboat while undergoing examination by quarantine, customs, or immigration authorities, except when its stay is likely to be of several hours' duration when it shall be anchored in the western part of the anchorage out of the way of other vessels before the tug and pilot leave.

(iv) No master of a vessel awaiting or undergoing quarantine inspection shall release any part of the crew until the vessel has been passed by the proper quarantine officials and safely anchored or moored in a regular anchorage.

(2) *Anchorage B, Hampton Flats (naval).* Shoreward of a line described as follows: Beginning at latitude 37°00′00″, longitude 76°22′08″; thence to latitude 36°59′11″, longitude 76°19′11″; thence to latitude 36°57′59.5″, longitude 76°20′54″; and thence to latitude 36°58′56″, longitude 76°23′47″.

(i) Vessels shall not be anchored within 425 yards of Anchorage F–1 when that anchorage is occupied by a vessel carrying explosives.

(ii) This anchorage is reserved for the use of naval vessels, but in the absence of the fleet the Captain of the Port may, in his discretion, permit it to be used by merchant vessels. Upon receiving word that any part of the fleet is expected, the Captain of the Port may cause a sufficient area in this anchorage to be vacated to accommodate the number of vessels scheduled to arrive.

(3) *Anchorage C, Newport News Bar.* Shoreward of a line described as follows: Beginning at latitude 36°58′56″, longitude 76°23′47″; thence to latitude 36°57′59.5″, longitude 76°20′54″; thence to latitude 36°57′35″, longitude 76°21′31″; thence along the north side of Newport News Channel to latitude 36°57′20″, longitude 76°24′38″; and thence to the radio tower at approximately latitude 36°57′47.5″, longitude 76°24′40.5″.

(i) Vessels shall be anchored so as to leave a clear fairway 200 yards wide across the southwest corner of the anchorage for the operation of the Norfolk-Newport News ferry, except that in an emergency this fairway may be used for the anchoring of naval vessels.

(ii) When Anchorage F–1, which lies within Anchorage C, is not occupied by vessels carrying explosives, it may be used as a general anchorage in the same manner as other portions of Anchorage C. It shall be vacated promptly upon notice from the Captain of the Port when a vessel carrying explosives, of a draft too great to permit it to use Anchorage F, desires to anchor therein. Vessels shall not be anchored within 425 yards of Anchorage F–1 when that anchorage is occupied by a vessel carrying explosives.

(iii) This anchorage is a general anchorage for all vessels, but when fleet operations are scheduled the Captain of the Port may, in his discretion, permit it to be used by naval vessels. Upon receiving word that any part of the fleet is expected, the Captain of the Port may cause a sufficient area in this anchorage to be vacated to accommodate the number of vessels scheduled to arrive.

(4) *Anchorage D.* Beginning at a point on the west side of Norfolk Harbor Channel at latitude 36°57′34″, longitude 76°20′19.5″; thence to latitude 36°56′08″, longitude 76°22′23″; thence to latitude 36°56′00″, longitude 76°22′50″; thence to latitude 36°56′09.5″, longitude 76°23′33.5″; thence to a point on the south side of Newport News Channel at latitude 36°57′27.5″, longitude 76°21′41″; and thence along the south side of Newport News Channel and a line in prolongation thereof to the point of beginning.

(i) Vessels shall be anchored so as to leave a clear fairway 200 yards wide through this anchorage for the operation of the Norfolk-Newport News ferry.

(ii) This anchorage shall be used by deep-draft vessels, wind-bound vessels from Lambert Point and Sewall Point, and vessels awaiting turn for docking. Other vessels may use this anchorage when permitted by the Captain of the Port.

(5) *Anchorage E, Newport News Middle Ground.* Beginning at a point on the south side of Newport News Channel at latitude 36°57′27.5″, longitude 76°21′41″; thence to latitude 36°56′09.5″, longitude 76°23′33.5″; thence to latitude 36°57′11″, longitude 76°25′02.5″; and thence to and along the south side of Newport News Channel to the point of beginning.

(i) Vessels shall be anchored so as to leave a clear fairway 200 yards wide through this anchorage for the operation of the Norfolk-Newport News ferry.

(6) *Anchorage H.* Beginning at a point on the west side of Norfolk Harbor Channel at latitude 36°57′34″, longitude 76°20′19.5″; thence along the west side of Norfolk Harbor Channel to latitude 36°56′00″, longitude 76°20′27″; thence to latitude 36°56′00″, longitude 76°22′50″; thence to latitude 36°56′08″, longitude 76°22′23″; thence to the point of beginning.

(i) Vessels shall be anchored so as to leave a clear fairway 200 yards wide through this anchorage for the operation of the Norfolk-Newport News ferry.

(7) *Anchorages for vessels carrying explosives*—(i) *Anchorage F (for shallow-draft vessels).* Beginning at latitude 36°56′03″, longitude 76°23′50″; thence to latitude 36°54′30″, longitude 76°23′55.5″; thence to latitude 36°54′30″, longitude 76°24′59″; thence to latitude 36°56′44′, longitude 76°24′50″; thence to the point of beginning.

(ii) *Anchorage F–1 (for deep-draft vessels).* Within Anchorage C and having a northeast boundary coincident with a portion of the northeast boundary of Anchorage C, beginning at latitude 36°58′06″, longitude 76°21′13″; thence to latitude 36°57′49.5″, longitude 76°21′36″; thence to latitude 36°57′47.5″, longitude 76°22′04″; thence to latitude 36°57′56″, longitude 76°22′30″; thence to latitude 36°58′19.5″, longitude 76°21′56″; thence to the point of beginning.

(iii) Vessels are forbidden to anchor within 425 yards of Anchorage F or between the northeast boundary of Anchorage F and the southwest boundary of Anchorage E.

(iv) When Anchorage F–1 is not occupied by vessels carrying explosives it may be used as a general anchorage in the same manner as other portions of Anchorage C, except that it shall be vacated promptly upon notice from the Captain of the Port when a vessel carrying explosives of a draft too great to permit it to use Anchorage F desires to anchor. When Anchorage F–1 is occupied by a vessel carrying explosives, vessels shall not anchor in Anchorages B and C within 425 yards of Anchorage F–1. No vessel carrying explosives shall be anchored in Anchorage F–1 so as to swing within 500 yards of the Newport News Channel.

(v) Vessels carrying explosives or other dangerous cargo, including inflammable liquids, inflammable solids, oxidizing materials, corrosive liquids, compressed gases, and poisonous substances, shall be within Anchorage F or F–1 when anchored, except as provided in subparagraph (7) (x) of this paragraph. Anchorage F is reserved for this special purpose and shall not be used by vessels carrying other classes of cargo except in cases of great emergency or by special permit from the Captain of the Port.

(vi) A written permit shall be obtained from the Captain of the Port before a

vessel carrying explosives, or on which explosives are to be loaded, may proceed to an explosives anchorage; and no vessel shall occupy a berth in such an anchorage except by authority of such a permit which may be revoked at any time.

(vii) Vessels used in connection with loading or unloading explosives in anchorage areas, including tugs and stevedore boats, shall carry a written permit from the Captain of the Port. Such permits shall be shown whenever required by him or by his properly authorized agents.

(viii) Whenever any vessel not mechanically self-propelled anchors in an explosives anchorage while carrying explosives, the Captain of the Port may require the attendance of a tug upon such vessel when in his judgment such action is necessary.

(ix) Vessels carrying explosives shall comply with the general regulations in paragraph (h) of this section when applicable.

(x) The District Engineer, Corps of Engineers, may authorize a vessel carrying explosives for use on river and harbor works or on other work under permit issued by the District Engineer to anchor in or near the vicinity of such work without a permit from the Captain of the Port. The District Engineer will prescribe the quantities of such explosives allowed on such vessel and the conditions under which they are to be stored and handled, and will furnish the Captain of the Port with a copy of such instructions.

(b) *James River*—(1) *Anchorage G.* At the mouth of the river opposite Newport News; east of a line running from Barrel Point, latitude 36°54′53″, longitude 76°28′51″, across the mouth of Batten Bay to Candy Island, latitude 36°56′18″, longitude 76°29′05″; and shoreward of a line described as follows: Beginning at Fishing Point, latitude 36°57′50″, longitude 76°29′38″; thence to latitude 36°59′03″, longitude 76°27′56″; thence to latitude 36°58′37″, longitude 76°26′41″; thence to latitude 36°57′50″, longitude 76°26′04″; thence to latitude 36°57′08.5″, longitude 76°25′27″; thence to latitude 36°57′11″, longitude 76°25′04″; thence to latitude 36°55′52.5″, longitude 76°25′09.5″; and thence to latitude 36°54′00″, longitude 76°28′59″.

(2) *Anchorage G–1.* On the northeast side of the river downstream from the James River Bridge, and shoreward of a line described as follows: Beginning at latitude 36°59′41″, longitude 76°26′40″; thence to latitude 37°00′15″, longitude 76°27′52″; and thence to latitude 37°00′45″, longitude 76°27′17″.

(3) *Anchorage G–2.* On the northeast side of the river upstream from the James River Bridge, and shoreward of a line described as follows: Beginning at latitude 37°00′58″, longitude 76°27′23″; thence to latitude 37°00′24″, longitude 76°28′06″; thence to latitude 37°01′55″, longitude 76°31′19″; and thence to latitude 37°03′06″, longitude 76°30′29″.

(c) *East of Norfolk Harbor Channel*—(1) *Anchorage K–1.* Shoreward of a line described as follows: Beginning at the shoreward end of the jetty north of Army Base Pier No. 2, latitude 36°55′13″, longitude 76°19′42″; thence along the jetty to latitude 36°55′14″, longitude 76°19′46.5″; thence along the jetty to latitude 36°55′10″, longitude 76°19′49.5″; thence to a point on the east side of Norfolk Harbor Channel at latitude 36°55′06″, longitude 76°20′22″; thence northerly along the east side of Norfolk Harbor Channel to latitude 36°55′36.5″, longitude 76°20′20″; and thence to latitude 36°55′38″, longitude 76°19′47″.

(2) *Anchorage K–2.* South of a line running from Tanner Point, latitude 36°54′13″, longitude 76°19′25″, across the mouth of Lafayette River to latitude 36°54′14″, longitude 76°18′43″; and shoreward of a line described as follows: Beginning at latitude 36°52′56″, longitude 76°19′08″; thence to a point on the east side of the dredged area alongside Norfolk Harbor Channel at latitude 36°53′04.5″, longitude 76°19′58.5″, thence northerly along the side of the dredged area to latitude 36°53′27″, longitude 76°20′02″; thence northwesterly along the side of the dredged area to latitude 36°53′31″, longitude 76°20′06″; thence northerly along the east side of Norfolk Harbor Channel to latitude 36°54′45.5″, longitude 76°20′19″; and thence to latitude 36°54′49″, longitude 76°19′40.5″.

(i) Anchorage is prohibited in the dredged channel to Lafayette River.

(3) *Anchorage K–3 (for yachts and pleasure craft).* That part of Lafayette River upstream from Anchorage K–2 and downstream from a line crossing the river below the Hampton Boulevard bridge from latitude 36°54′27.5″, longitude 76°18′22.5″, to latitude 36°54′11″, longitude 76°18′18″.

(i) Anchorage is prohibited in the dredged channel in Lafayette River.

(d) *Elizabeth River*—(1) *Anchorage H–1, West Norfolk (temporary).* On the west side of the river, south of Craney Island, and shoreward of a line described as follows: Beginning at latitude 36°52′59″, longitude 76°21′05.5″; thence along the southeast boundary of the pipeline area across the mouth of Craney Island Creek to latitude 36°53′05″, longitude 76°20′49″; thence to latitude 36°52′53″, longitude 76°20′30.5″; thence to latitude 36°52′53″, longitude 76°20′23.5″; thence to latitude 36°52′57.5″, longitude 76°20′24″; thence to a point on the west side of Norfolk Harbor Channel at latitude 36°52′59.5″, longitude 76°20′10″; thence southerly along the west side of the channel to latitude 36°52′15″, longitude 76°20′03″; thence southeasterly along the southwest side of the channel to latitude 36°52′03″, longitude 76°19′45.5″; thence to latitude 36°51′32.5″, longitude 76°20′15.5″; and thence to latitude 36°51′43″, longitude 76°20′32″.

(i) No vessel shall remain anchored in this anchorage awaiting loading for a period longer than 48 hours, except when non-availability of loading facilities, inclement weather, ice conditions, or other conditions reasonably require a longer period in awaiting turn for docking.

(ii) No vessel after receiving its load shall remain more than 12 daylight hours in this anchorage, i. e., vessels loaded during the afternoon or night shall clear the anchorage prior to the hour of darkness of the following day.

(2) *Anchorage L.* On the northeast side of Elizabeth River, south of Lambert Point, and shoreward of a line described as follows: Beginning at latitude 36°52′06.5″, longitude 76°19′04.5″; thence to latitude 36°51′56.5″, longitude 76°19′20″; thence to latitude 36°52′13″, longitude 76°19′44.5″; and thence to latitude 36°52′21″, longitude 76°19′34″.

(3) *Anchorage M.* On the northeast side of Elizabeth River, opposite Pinner Point, and shoreward of a line described as follows: Beginning at latitude 36°51′29.5″, longitude 76°18′37″; thence to latitude 36°51′32″, longitude 76°18′45.5″; thence to latitude 36°51′42″, longitude 76°19′00″; and thence to latitude 36°51′52″, longitude 76°18′47.5″.

(4) *Anchorage N–1, Smith Creek (for yachts and pleasure craft)*—(i) *Mowbray Arch.* Between Mowbray Arch and a line described as follows: Beginning at Ghent Bridge 150 feet from Mowbray Arch and continuing westerly the same distance therefrom to the intersection of the prolongation of the east side of Colonial Avenue; thence in a straight line to a point on the south side of Mill Street prolonged and 70 feet from Mowbray Arch; thence parallel to and 70 feet from Mowbray Arch to the south side of Pembroke Avenue prolonged; thence along the prolongation of the south side of Pembroke Avenue to a point 50 feet from Mowbray Arch; and thence in a straight line to a point on the south side of Fairfax Avenue prolonged and 40 feet from Mowbray Arch.

(ii) *The Hague.* Between the wall on the west side of the Hague and a straight line joining a point 40 feet easterly thereof in the south side of Fairfax Avenue prolonged with a point 70 feet easterly from the wall in a line perpendicular to the wall at the south end thereof.

(iii) No floats, rafts, lighters, houseboats, or other craft laid up for any reason shall be permitted within these anchorages, except by permission of the Captain of the Port.

(iv) No vessel shall anchor or moor alongside any wharf or pier in Smith Creek so as to extend more than 40 feet beyond the pierhead line except in the authorized anchorages.

(5) *Anchorage O, Hospital Point.* On the southwest side of Elizabeth River, adjacent to the Portsmouth Naval Hospital, and shoreward of a line described as follows: Beginning at latitude 36°50′57″, longitude 76°18′43″; thence to a point on the southwest side of Norfolk Harbor Channel at latitude 36°51′05″, longitude 76°18′23″; thence southeasterly along the side of the channel to latitude 36°50′49.5″, longitude 76°18′00″; thence southeasterly along the side of the channel to latitude 36°50′33.5″, longitude 76°17′50.5″; and thence to latitude 36°50′27″, longitude 76°17′55″.

(6) *Anchorage P, Port Norfolk.* On the southwest side of Elizabeth River, between Pinner Point and Western Branch Channel, and shoreward of a line described as follows: Beginning at latitude 36°51′25″, longitude 76°19′59″; thence to latitude 36°51′44.5″, longitude 76°19′47″; thence to a point on the southwest side of Norfolk Harbor Channel at latitude 36°52′01″, longitude 76°19′42.5″; thence southeasterly along the side of the channel to latitude 36°51′32″, longitude 76°19′01″; and thence to latitude 36°51′18″, longitude 76°19′16″.

(e) *Eastern Branch of Elizabeth River*—(1) *Anchorage Q, Berkley.* South of the channel, shoreward of a line described as follows: Beginning at latitude 36°50′20″, longitude 76°17′12.5″; thence to latitude 36°50′24″, longitude 76°17′14.5″; thence to latitude 36°50′22.5″, longitude 76°16′58.5″; and thence to latitude 36°50′13″, longitude 76°16′59″.

(2) *Anchorage R*—(i) *Section 1.* South of the channel, shoreward of a line described as follows: Beginning at latitude 36°50′11″, longitude 76°16′17″; thence to latitude 36°50′18″, longitude 76°16′19″; thence to latitude 36°50′20″, longitude 76°16′05″; and thence to latitude 36°50′14.5″, longitude 76°16′03″.

(ii) *Section 2.* South of the channel, shoreward of a line described as follows: Beginning at latitude 36°50′15″, longitude 76°15′48.5″; thence to latitude 36°50′21″, longitude 76°15′50.5″; thence to latitude 36°50′17″, longitude 76°15′18″; and thence to latitude 36°50′11″, longitude 76°15′20″.

(iii) *Section 3.* South of the channel, shoreward of a line described as follows: Beginning at latitude 36°50′10″, longitude 76°15′15″; thence to latitude 36°50′15.5″, longitude 76°15′12.5″; thence to latitude 36°50′10.5″, longitude 76°14′50″; and thence to latitude 36°50′08″, longitude 76°14′51″.

(iv) No vessel shall anchor within 200 feet of permanent improvements.

(3) *Anchorage S*—(i) *Section 1.* On the north side of the river, upstream from the Virginian Railway bridge, and shoreward of a line described as follows: Beginning at latitude 36°50′23″, longitude 76°14′18″; thence to latitude 36°50′18.5″, longitude 76°14′18″; thence to latitude 36°50′14″, longitude 76°14′35″; and thence to latitude 36°50′19.5″, longitude 76°14′33″.

(ii) *Section 2.* On the north side of the Eastern Branch, below the mouth of Broad Creek, and shoreward of a line described as follows: Beginning at latitude 36°50′22.5″, longitude 76°13′50″; thence to latitude 36°50′19.5″, longitude 76°14′12.5″; and thence to latitude 36°50′24″, longitude 76°14′13″.

(iii) Anchorage is prohibited within 200 feet of permanent improvements.

(f) *Willoughby Bay*—(1) *Anchorage J–1 (for yachts and pleasure craft).* East of the west end of Willoughby Spit, shoreward of a line running from latitude 36°57′54″, longitude 76°17′46″, to latitude 36°57′50.5″, longitude 76°17′49″.

(2) *Anchorage J–2 (for yachts and pleasure craft).* South of Willoughby Spit, shoreward of a line described as follows: Beginning at latitude 36°57′42″, longitude 76°16′21.5″; thence to latitude 36°57′44.5″, longitude 76°17′27″; thence to latitude 36°57′48″, longitude 76°17′43″; and thence to latitude 36°57′55.5″, longitude 76°17′44″.

(g) *Lower Chesapeake Bay south of Thimble Shoal Channel*—(1) *Anchorage L-A (naval).* Between Cape Henry and Little Creek, beginning at latitude 36°57′11.0″, longitude 76°03′03.0″; thence to latitude 36°55′41.0″, longitude 76°03′14.5″; thence to latitude 36°56′22.0″, longitude 76°05′53.5″; thence to latitude 36°57′01.5″, longitude 76°05′59.0″; thence to latitude 36°57′57.0″, longitude 76°09′35.0″; thence to latitude 36°58′47.0″, longitude 76°09′08.5″; thence to the point of beginning.

(i) This anchorage is reserved primarily for the use of naval vessels, but in the absence of the fleet the Captain of the Port may, in his discretion, permit it to be used by merchant vessels. Movement of vessels through the area will not be restricted.

(2) *Anchorage L-C.* Northwest of Anchorage L-A, beginning at latitude 36°59′14″, longitude 76°10′56.5″; thence to latitude 36°58′18.3″, longitude 76°10′54″; thence to latitude 36°58′59″, longitude 76°13′32.5″; thence to latitude 36°59′56″, longitude 76°13′36.3″; thence to the point of beginning.

(i) This anchorage is primarily for the use of merchant vessels but the Captain of the Port may, in his discretion, permit it to be used by naval vessels, the commercial conditions at the time being given due consideration. No vessels shall occupy any berth in this anchorage without first obtaining permission from the Captain of the Port.

(3) *Anchorage L-E (for naval amphibious craft).* Southwest of Anchorage L-A, east of the Little Creek thorofare, and shoreward of a line described as follows: Beginning at Little Creek Harbor Jetty 1 light (approximately latitude 36°55′57.0″, longitude 76°10′36.0″); thence to latitude 36°58′04.0″, longitude 76°10′02.0″; thence to latitude 36°57′31.5″, longitude 76°07′55.0″; thence to latitude 36°55′25.0″, longitude 76°08′28.5″.

(i) This anchorage is reserved for the exclusive use of naval vessels and, except in case of emergency, no other vessel shall anchor therein without permission from local naval authorities, obtained through the Captain of the Port, Norfolk, Virginia. Movement of vessels through the anchorage will not be restricted.

(h) *General regulations.* (1) Except in cases of great emergency, no vessel shall be anchored in Hampton Roads or adjacent waters outside of the anchorage areas established in this section or within a cable or pipe line area shown on a Government chart, nor be moored, anchored, or tied up to any pier, wharf, or other vessel in such manner as to obstruct or endanger the passage of any vessel.

(2) No vessel shall occupy for a longer period than 30 days, unless a permit is obtained from the Captain of the Port for that purpose, any anchorage for which the time of occupancy is not otherwise prescribed in this section. No vessel in a condition such that it is likely to sink or otherwise become a menace or obstruction to navigation or anchorage of other vessels shall occupy an anchorage except in an emergency, and then only for such period as may be permitted by the Captain of the Port.

(3) Whenever, in the opinion of the Captain of the Port, such action may be necessary, that officer may require any or all vessels in any designated anchorage area to moor with two or more anchors.

(4) Every vessel whose crew may be reduced to such number that it will not have sufficient men on board to weigh anchor at any time shall, before release or reduction of the crew, be anchored with two anchors with mooring swivel unless the Captain of the Port shall waive the requirement of a mooring swivel.

(5) Anchors shall be placed well within the anchorage areas, so that no portion of the hull or rigging will at any time extend outside the boundaries of the anchorage area.

(6) Any vessel anchoring under circumstances of great emergency outside an anchorage area shall be placed near the edge of the channel and in such position as not to interfere with the free navigation of the channel nor obstruct the approach to any pier nor impede the movement of any other vessel, and shall move away immediately after the emergency ceases, or upon notification by the Captain of the Port.

(7) Upon application, a berth in an anchorage, if available, will be assigned to any vessel by the Captain of the Port. He may grant revocable permits for the habitual use of the same berth, and no vessel shall occupy a berth habitually except under authority of such a permit.

(8) Upon approval of the District Engineer, Corps of Engineers, the Captain of the Port may permit wrecking plant or other vessels legally engaged in recovering sunken property or in laying or repairing legally established pipe lines or cables, or plant engaged in dredging operations, to anchor in channels. Such permission is not necessary for plant engaged upon works of river and harbor improvement under the supervision of the District Engineer, but the District Engineer will notify the Captain of the Port in advance of all such proposed work.

(9) Whenever the maritime or commercial interests of the United States so require, the Captain of the Port is hereby empowered to shift the position of any vessel anchored or moored within or outside an anchorage area, including any vessel which is so moored or anchored as to obstruct navigation or interfere with range lights.

(10) A vessel upon being notified to shift its position shall get under way at once or signal for a tug and shall change position as directed with reasonable promptness.

(11) Nothing in this section shall be construed as relieving any vessel or the owner or person in charge of any vessel from the penalties of law for obstructing navigation or for obstructing or interfering with range lights, or for not complying with the laws relating to lights and fog signals or other navigation laws.

3. Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), and chapter XIX of the Army Appropriation Act of July 9, 1918 (40 Stat. 892; 33 U. S. C. 3), § 204.30 (a) is hereby redesignated § 204.30, subparagraphs (1)

to (13), being renumbered paragraphs (a) to (m), §§ 204.30 (b) to (g), and §§ 204.36 and 204.50 are hereby revoked, and §§ 204.32, 204.34, 204.36, 204.38, 204.40, 204.42, 204.44, 204.46, 204.50, and 204.52 are hereby substituted therefor, as follows:

§ 204.30 *Chesapeake Bay; United States Army Proving Ground Reservation, Aberdeen, Md.*—(a) *Restricted area defined.* • • •

(b) *Authority delegated Commanding Officer.* • • •

(c) *Penalty.* • • •

(d) *Entrance into restricted waters by the public over week ends and on National holidays.* • • •

(e) *Entrance at night into restricted waters by the public between February 1 and June 15.* • • •

(f) *Entrance at night into restricted waters by the public between January 1 and January 31 and between June 16 and December 31 provided night firing over water is not to be conducted.* • • •

(g) *No limitations on dates night firing may be conducted over land.* • • •

(h) *Permits required from the Commanding Officer to set fixed nets in restricted waters.* • • •

(i) *Identification signs required at each location of fixed nets.* • • •

(j) *Removal of pound net poles or stakes.* • • •

(k) *Restrictions on fishermen.* • • •

(l) *Fishing with any type of net prohibited in all creeks.* • • •

(m) *Compliance with Federal, State, and county laws required.* • • •

§ 204.32 *Chesapeake Bay, in vicinity of Chesapeake Beach, Md.; firing range, Naval Research Laboratory*—(a) *The danger zone*—(1) *Area A.* Beginning at the intersection of the south property line at the Naval Research Laboratory (about latitude 38°39'12") and the shore running thence 90°, 1,000 yards; thence due north to a point bearing 90° from the intersection of the north property line (about latitude 38°39'40") and the shore; and thence 270° to the shore.

(2) *Area B.* The sector of a circle bounded by radii of 9,600 yards bearing 31° (to Bloody Point Bar Light) and 137°30' (to Buoy N 16 F), respectively, from the center at the southeast corner of building No. 3; excluding Area A.

(3) *Area C.* The segment of a circle inclosed by the arcs of two circles having radii of 9,600 yards and 13,200 yards, respectively, and bounded by the extended radii marking the north and south limits of Area B.

NOTE: All bearings referred to true meridian.

(b) *The regulations.* (1) No vessel shall enter or remain in Area A at any time.

(2) No vessel shall enter or remain in Area B or Area C between the hours of 1:00 p. m. and 5:00 p. m. daily except Sundays, except that through navigation of commercial craft will be permitted in Area C at all times, but such vessels shall proceed on their normal course and shall not delay their progress.

(3) Advance notice will be given of the date on which the first firing practice is conducted, and such notice will be published in "Notice to Mariners." The area will be in use through the year and no further notice is contemplated that firing is continuing.

(4) Prior to the conduct of each firing practice a patrol vessel will patrol the range to warn navigation. "Baker" will be flown from a conspicuous point on the patrol vessel and from a prominent position on shore.

(5) The regulations in this section shall be enforced by the Commandant, Fifth Naval District, and such agencies as he may designate.

§ 204.34 *Chesapeake Bay, south of Sharps Island, Md.; restricted area, U. S. Navy*—(a) *The danger zone.* The waters within a circle having a radius of 200 yards with its center approximately 300 yards south of Sharps Island at latitude 38°36'53", longitude 76°21'56".

(b) *The regulations.* (1) No vessel shall enter or remain in the restricted area at any time except as authorized by the enforcing agency.

(2) This section shall be enforced by the Commanding Officer, U. S. Naval Air Station, Patuxent River, Maryland, and such agencies as he may designate.

§ 204.36 *Chesapeake Bay, in vicinity of Bloodsworth Island, Md.; shore bombardment, air bombing, air strafing, and rocket firing area, U. S. Navy*—(a) *The danger zone.* All waters of Chesapeake Bay and Tangier Sound within an area bounded as follows: Beginning at latitude 38°08'15", longitude 76°10'00"; thence to latitude 38°12'00", longitude 76°10'00"; thence to latitude 38°12'00", longitude 76°07'00"; thence to latitude 38°13'00", longitude 76°06'00"; thence to latitude 38°13'00", longitude 76°04'00"; thence to latitude 38°12'00", longitude 76°02'00"; thence to latitude 38°12'00", longitude 76°00'00"; thence to latitude 38°08'15", longitude 76°00'00"; thence to the point of beginning.

(b) *The regulations.* (1) No vessel or other craft shall enter or remain in the restricted area when notified by an enforcing authority to keep clear or when firing is or will soon be in progress, except as provided in subparagraph (5) of this paragraph.

(2) Advance notice will be given of the dates and times of all firings and such notice will be published in the local "Notice to Mariners". The area will be in use intermittently throughout the year. On days when firing is conducted, firing will take place normally between sunrise and sunset, except that occasional night firing may be conducted between sunset and 12:00 midnight.

(3) Prior to the commencement of firing each day, surface or air search of the entire area will be made for the purpose of locating and warning all craft and persons not connected with the firing, and a patrol will be maintained throughout the duration of firing.

(4) Warning that firing is or soon will be in progress will be indicated during daylight by a red flag prominently displayed from a tower on Adam Island, and at night by a searchlight beam pointed into the sky. All persons, vessels, and other craft shall clear the area when these signals are displayed or when warned by patrol vessels or by aircraft employing the method of warning known as "buzzing" which consists of low flight by the airplane and repeated opening and closing of the throttle.

(5) During hours when firing is in progress and warning signals are displayed, no fishing or oystering vessels or other craft not directly connected with the firing shall navigate within the restricted area, except that deep-draft vessels proceeding in established navigation lanes and propelled by mechanical power at a speed greater than five knots normally will be permitted to traverse the area. Permission for such deep-draft vessels to enter and traverse the area will be indicated during daylight by dipping the red warning flag to half-mast, and at night by flashing the warning searchlight.

(6) When firing is not in progress and warning signals are not displayed, oystering and fishing boats and other craft may operate within the restricted area.

(7) All projectiles, bombs, and rockets will be fired to land on Bloodsworth Island or Pone Island, but Naval authorities will not be responsible for damage by such projectiles, bombs, or rockets, or by Navy or Coast Guard vessels, to nets, traps, buoys, pots, fish pounds, stakes, or other equipment which may be located within the restricted area.

(8) The regulations in this section shall be enforced by the Commandant, Fifth Coast Guard District, and such agencies as he may designate.

§ 204.38 *Atlantic Ocean and Sinepuxent and Chincoteague Bays, Md.; target areas, U. S. Navy*—(a) *The danger zones.* (1) Waters of the Atlantic Ocean and Sinepuxent Bay within a circle having a radius of 1,000 yards with its center on Assateague Island at latitude 38°12'42", longitude 75°09'00" (bearing approximately 19°30' true, 1,700 yards, from North Beach Coast Guard Station).

(2) Waters of the Atlantic Ocean and Chincoteague Bay within a circle having a radius of 1,000 yards with its center on Assateague island at latitude 38°06'42", longitude 75°11'15" (bearing approximately 196°30' true, 10,900 yards, from North Beach Coast Guard Station and approximately 355° true, 8,200 yards, from the Six-Fathom Light Fl. W. Buoy "4A" situated off Green Run Bay).

(b) *The regulations.* (1) No vessel shall enter the restricted areas for other than operations under Naval control or for target maintenance purposes.

(2) This section shall be enforced by the Commandant, Naval Air Bases, Fifth Naval District, and such agencies as he may designate.

§ 204.40 *Potomac River*—(a) *United States Naval Torpedo Testing Range, Piney Point, Md.*—(1) *The danger zone*—(i) *The prohibited area.* That portion of the Lower Potomac River bounded as follows: Beginning at latitude 38°00'51", longitude 76°20'40", which point is marked by Torpedo Testing Range Lighted Bell Buoy A; thence northeasterly to Point Lookout Shoal Bell Buoy 2; thence northerly to Point Lookout Light; thence northerly and westerly along the shores of Cornfield Harbor past Cornfield Point to the mouth of Potter Creek; thence northwesterly to Grays Point

Buoy "2GP"; thence northwesterly to a point at the mouth of a creek on St. Georges Island, the position of said point being latitude 38°06'20", longitude 76°28'08"; thence southerly, westerly, and northerly along the shores of St. Georges Island to latitude 38°06'37", longitude 76°28'45"; thence northwesterly to Piney Point Light; thence southwesterly to latitude 38°07'08", longitude 76°32'44", which point bears 303°16'41" true, 1,000 yards, from Torpedo Testing Range Lighted Bell Buoy D; thence 123°16'41" true to the point of beginning.

The prohibited area is crossed by three passages as follows:

Passage No. 1: A passage 600 yards wide between a line running from latitude 38°02'36", longitude 76°24'04", to latitude 38°05'27", longitude 76°24'21", and a line running from latitude 38°02'50", longitude 76°24'30", to latitude 38°05'32", longitude 76°24'43".

Passage No. 2: A passage 800 yards wide between a line running from latitude 38°03'08", longitude 76°25'04", to latitude 38°05'48", longitude 76°25'56", and a line running from latitude 38°03'28", longitude 76°25'42", to latitude 38°05'56", longitude 76°26'30".

Passage No. 3: Beginning at Piney Point (latitude 38°08'01", longitude 76°31'45"); thence 221°, 700 yards; thence 90°, 1,250 yards; thence 301° to the point of beginning.

(ii) *The restricted area.* An area adjacent to the prohibited area, bounded as follows: Beginning at Piney Point Light, Piney Point, Maryland; thence northwesterly to spar buoy "19DW"; thence southerly to Spar Buoy "19W"; thence southeasterly to Potomac River Lighted Buoy "5A"; thence southeasterly along a line through spar buoy "18AW" to spar buoy "18W"; thence southeasterly along a line through Spar buoys "17W", "16AW" to spar buoy "16W"; thence northerly to Point Lookout Shoal Bell Buoy 2; thence southwesterly to Torpedo Testing Range Lighted Bell Buoy A; thence northwesterly along a line through Torpedo Testing Range Lighted Bell Buoys B, C, and D to latitude 38°07'08", longitude 76°32'44", which point bears 303°16'41" true, 1,000 yards, from Torpedo Testing Range Lighted Bell Buoy D; and thence northeasterly to Piney Point Light, the point of beginning.

(2) *The regulations.* (i) The presence of any vessel in the prohibited area is prohibited unless prior permission has been granted by the enforcing officer, except that Passages No. 1, No. 2, and No. 3 may be used to traverse the area when firing is not in progress. Vessels shall keep under way at all times while operating in Passages No. 1, No. 2, and No. 3.

(ii) Between the hours of 7:00 a. m. and 4:00 p. m. daily except Sundays and legal holidays, and at other times and on other days when the Torpedo Testing Range is being operated, no vessel shall enter or remain in the restricted area if specifically forbidden to do so by the officer in charge of the Range or his duly accredited representative. Passage of traffic in this area will not be unreasonably interfered with or restricted.

(iii) Between the hours of 7:00 a. m. and 4:00 p. m. daily except Sundays and legal holidays, and at other times and on other days when the range is being operated, all vessels are forbidden to anchor within the restricted area except in cases of great emergency. Any vessel anchoring under circumstances of great emergency shall move away as soon as the emergency permits.

(iv) Any vessel upon being notified by proper authority to shift its position or course shall change position or course as directed with reasonable promptness.

(v) During periods when the range is in operation any vessels in danger or any vessels interfering with operations will be met by representatives of the officer in charge, suitably warned, and given necessary instructions and orders relating to navigating the restricted area. The torpedo testing barge will fly "International B" at a yard arm when testing operations are in progress. Government vessels, seaplanes, or other craft patrolling the zone will fly or expose a red flag.

(vi) Vessels in passage up or down the Potomac River in the restricted area shall keep to the south part of the channel insofar as practicable.

(vii) The speed of vessels passing within 1,000 yards of the torpedo testing barge during testing operations shall not exceed 10 knots.

(viii) Nothing in this section shall prevent the setting of fish traps within the restricted area, under permits granted by the Department of the Army, nor shall the passage of fishing vessels to and from authorized traps be unreasonably interfered with or restricted.

(ix) The regulations in this section shall be enforced by the Commanding Officer, Piney Point Torpedo Testing Range, Piney Point, Maryland.

(b) *United States Naval Proving Ground, Dahlgren, Va.*—(1) *The danger zones*—(i) *Lower zone.* The entire portion of the lower Potomac River between a line from Point Lookout, Maryland, to Smith Point, Virginia, and a line from Blakiston Island Shoal Buoy 4A (off Blakiston Island) to Hollis Marsh. This zone, in which long-range and aerial machine gun firing is normally conducted at infrequent intervals, embraces the Naval Torpedo Testing Range at Piney Point, Maryland, which is subject to special additional restrictions (see paragraph (a) of this section).

(ii) *Middle zone.* Beginning at the intersection of the Potomac River Bridge with the Virginia shore; thence to Lower Cedar Point Light; thence to latitude 38°19'06", longitude 76°57'07", which point is about 3,300 yards east-southeast of Lower Cedar Point Dredge Channel Range Front Light; thence to Line of Fire Buoy O, 1,500 yards southwest by west of Swan Point; thence to Line of Fire Buoy M, 1,700 yards south of Potomac View; thence to Line of Fire Buoy K, about 1,300 yards south by west of the lower end of Cobb Island; thence to Blakiston Island Shoal Buoy 4A, abreast of Blakiston Island abandoned light house; thence southwesterly to Hollis Marsh; thence northwesterly to Line of Fire Buoy J, about 3,000 yards off Popes Creek, Virginia; thence to Line of Fire Buoy L, 3,500 yards off Church Point; thence to Line of Fire Buoy N, 800 yards off Colonial Beach; thence to Line of Fire Buoy P, 1,000 yards off Bluff Point; thence to the Main Dock at the Naval Proving Ground. Firing is normally conducted in this zone daily except Saturdays, Sundays, and national holidays.

(iii) *Upper zone.* Beginning at Mathias Point, Virginia; thence north to Mathias Point Shoal Light; thence north by east to Mathias Point Beacon; thence east-southeast to Popes Creek Flats Lighted Buoy 26; thence east-southeast to Buoy 24 abreast of Popes Creek, Maryland; thence to the Maryland shore on an extension of the line connecting Buoys 26 and 24; thence southerly with the Maryland shore to a line passing through Persimmon Point Shoal Beacon to the Virginia shore, parallel to the Potomac River Bridge; thence northerly with the Virginia shore to the point of beginning. Aerial bombing and strafing is normally conducted in this zone at infrequent intervals.

(2) *The regulations.* (i) Firing normally takes place between the hours of 8:00 a. m. and 4:00 p. m. daily except Saturdays, Sundays, and national holidays, with infrequent night firing between 4:00 p. m. and 10:30 p. m. During a national emergency, firing will take place between the hours of 6:00 a. m. and 10:30 p. m. daily except Sundays.

(ii) When firing is in progress, no fishing or oystering vessels shall operate within the danger zone affected unless so authorized by the Naval Proving Ground's patrol boats. Oystering and fishing boats or other craft may cross the river in the danger zone only after they have reported to the patrol boats and received instructions as to when and where to cross. Deep-draft vessels using dredged channels and propelled by mechanical power at a speed greater than five miles per hour, may proceed directly through the danger zones without restriction except when especially notified to the contrary.

(iii) The regulations in this section shall be enforced by the Captain of the Port and the Commanding Officer of the United States Naval Proving Ground and such agencies as they may designate. Patrol boats and planes will fly or expose a square red flag in clearing a danger zone.

(c) *Accotink Bay, Accotink Creek, and Pohick Bay; United States Military Reservation, Fort Belvoir, Va.*—(1) *The danger zone.* The waters of Accotink Bay, Accotink Creek, and Pohick Bay, Virginia, within and adjacent to the target ranges of the United States Military Reservation, Fort Belvoir, as follows: All of Accotink Bay; all of Accotink Creek below the bridge which crosses Accotink Creek approximately 400 yards south of U. S. Highway No. 1; and that portion of Pohick Bay bordering its north shore. The mouth of Accotink Bay and that portion of Pohick Bay within the danger zone will be marked by the Post Commander with suitable warning buoys.

(2) *The regulations.* (i) When firing affecting the area is in progress, the Post Commander will post guards at such locations that the waters in the danger zone may be observed and arrange signals whereby these guards may stop the firing should any person be seen in the danger zone. When firing is in progress,

the Post Commander will cause to be displayed both on the east shore of Accotink Bay at its mouth and near the danger zone boundary on Accotink Creek a red streamer which shall be visible to a person in a boat near those points.

(ii) Persons desiring to cross the waters in the danger zone shall first determine whether a red streamer is displayed on the east shore of Accotink Bay at its mouth or near the danger zone boundary on Accotink Creek. If the red streamer is displayed, it will indicate that firing is in progress and that the waters in the danger zone are covered by rifle fire, and the area shall not be entered until the streamer is lowered.

(iii) The Post Commander is hereby authorized by using such agencies and equipment necessary to stop all boats at the boundary of the danger zone and prohibit their crossing the area until convenient to the firing schedule to do so.

§ 204.42 *Chesapeake Bay, Smith Point to Cedar Point; aerial gunnery range, and ground firing range and seaplane landing area, U. S. Naval Air Station, Patuxent River, Md.*—(a) *The danger zones*—(1) *Aerial gunnery range.* The waters of Chesapeake Bay south of a line between Cedar Point, Maryland, and the southern tip of Barren Island; west of a line between the southern tip of Barren Island and Shanks Island, Virginia; north of a line between Shanks Island and Smith Point Light, Virginia; and east of lines from Smith Point Light to a point one and one-half miles due east of Point Lookout Light (horn), thence due north to Point No Point Light, and thence northwesterly to Cedar Point, Maryland.

(2) *Ground firing range and seaplane landing area.* The waters off the western shore of Chesapeake Bay within an area bounded as follows: Beginning at Cedar Point, Maryland; thence southeasterly to latitude 38°16', longitude 76°20'15"; thence southwesterly to latitude 38°13'42", longitude 76°21'42"; thence northwesterly to latitude 38° 15'05", longitude 76°23'36"; and thence due west to the shoreline.

(b) *The regulations.* (1) No vessel or other craft, with the exception of specifically authorized military and naval vessels, shall enter or remain in the ground firing range and seaplane landing area. No vessel or other craft, except military and naval vessels engaged in scheduled gunnery and training exercises, shall enter or remain in the aerial gunnery range during its use for firing practice except as provided in subparagraphs (5) and (7) of this paragraph.

(2) Advance notice will be given of the date on which the first firing practice is conducted, and such notice will be published in the "Notice to Mariners." The range will be in use throughout the year, and no further notice is contemplated that firing is continuing.

(3) Prior to the conduct of firing practice the area will be patrolled by Navy aircraft to insure that no watercraft are within the danger area, and any watercraft in the vicinity will be warned by means of signals that firing practice is to take place. The patrol aircraft will employ the method of warning known as "buzzing," which consists of low flight by the airplane and repeated opening and closing of the throttle.

(4) Any such watercraft shall, upon being so warned, immediately vacate the area designated and shall remain outside the area until the conclusion of firing practice.

(5) Through navigation of commercial craft proceeding on established steamer lanes shall be permitted traverse of the aerial gunnery range at all times. Such vessels shall proceed on their normal course and shall not delay their progress.

(6) The area known as the ground firing range and seaplane landing area will be opened to oystermen for oyster dredging operations during each day of the month of January of each year from 12:00 noon to nightfall. No firing will be conducted in this area during this time.

(7) Military and naval vessels will conduct gunnery and training exercises in the aerial gunnery range. Where there is apparent conflict between surface craft with attendant planes and planes operating under the control of the Naval Air Test Center, Patuxent River, planes are expected to keep clear.

(8) The regulations in this section shall be enforced by the Commandant, Fifth Naval District, and such agencies as he may designate.

§ 204.44 *Chesapeake Bay, in vicinity of Tangier Island; Naval guided missiles test operations area*—(a) *The danger zone*—(1) *Prohibited area.* A circle 1,000 yards in radius with its center at latitude 37°47'54", longitude 76°03'48".

(2) *Restricted area.* A circle three nautical miles in radius with its center at latitude 37°47'54", longitude 76°03'48", excluding the prohibited area.

(b) *The regulations.* (1) Vessels or other craft shall not enter or remain in the prohibited area at any time unless authorized to do so by the enforcing agency.

(2) Except as otherwise provided in subparagraph (6) of this paragraph, vessels or other craft shall not enter or remain in the restricted area when firing is or will soon be in progress unless authorized to do so by the enforcing agency.

(3) Advance notice will be given of the date on which the first firing is to be conducted and such notice will be published in "Notice to Mariners." Thereafter, the danger zone will be in use intermittently throughout the year and no further notice is contemplated that firing is continuing.

(4) Warning that firing is or will soon be in progress will be indicated by a red flag displayed from one of six dolphin platforms on the perimeter of the prohibited area, and by patrol vessels within the danger zone or by aircraft employing the method of warning known as "buzzing" which consists of low flight by the airplane and repeated opening and closing of the throttle. Surface or air search of the entire area will be made prior to the commencement of firing on each scheduled day. During periods of firing a patrol vessel will remain in the approaches to the restricted area and maintain continuous contact with the firing planes to warn when the area is not clear.

(5) Upon observing the warning flag or upon receiving a warning by any of the patrol vessels or aircraft, vessels or other craft shall immediately vacate the restricted area and remain outside the area until the conclusion of firing for the day.

(6) The regulations in this section shall not deny traverse of portions of the restricted area by commercial craft proceeding in established steamer lanes, but when firing is or will soon be in progress all such craft shall proceed on their normal course through the area with all practicable speed.

(7) All projectiles, bombs, and rockets will be fired to land within the prohibited area, but the Department of the Navy will not be responsible for damage by such projectiles, bombs, or rockets to nets, traps, buoys, pots, fishpounds, stakes, or other equipment which may be located within the restricted area.

(8) The regulations in this section shall be enforced by the Commanding Officer, Naval Aviation Ordnance Test Station, Chincoteague, Virginia, and such agencies as he may designate.

§ 204.46 *Chesapeake Bay, south of Tangier Island; Naval firing range*—(a) *The danger zone.* Beginning at latitude 37°47'00", longitude 75°58'00"; thence to latitude 37°43'42", longitude 75°55'30"; thence to latitude 37°27'00", longitude 76°02'48"; thence to latitude 37°27'00", longitude 76°10'00"; thence to latitude 37°47'00", longitude 76°10'00"; thence to latitude 37°44'30", longitude 76°00' 30"; and thence to the point of beginning.

(b) *The regulations.* (1) Any vessel propelled by mechanical means or by sail at a speed greater than five knots may proceed through the danger zone to and from points without, but not from one point to another point within, the area, except when especially notified to the contrary.

(2) All vessels, other than naval craft, are forbidden to anchor within the danger zone except in cases of great emergency. All vessels anchoring under circumstances of great emergency within the area shall leave the area immediately after the emergency ceases or upon notification by the enforcing agency.

(3) Fishing, oystering, clamming, crabbing, and other aquatic activities are forbidden within the limits of the danger zone, except that existing fishing structures licensed by the State of Virginia may be maintained and operated provided the owners thereof obtain written permits from the enforcing agency designated in subparagraph (5) of this paragraph.

(4) Day and night firing over the range will be conducted intermittently by one or more vessels, depending on weather and operating schedules. When firing is in progress, adequate patrol by naval craft will be conducted to prevent vessels from entering or remaining within the danger zone.

(5) This section shall be enforced by the Commandant, Fifth Naval District, Norfolk Naval Station, Norfolk, Virginia, and such agencies as he may designate.

§ 204.50 *Chesapeake Bay off Fort Monroe, Va.; restricted area, U. S. Army Submarine Mine Depot and Naval Ordnance Laboratory*—(a) *The danger zone.* Beginning at latitude 37°00'30", longitude 76°18'05"; thence to latitude 37°00'38", longitude 76°17'42"; thence to latitude 37°01'00", longitude 76°17'15"; thence to latitude 37°01'00", longitude 76°16' 11"; thence to latitude 36°59'43", longitude 76°16'11"; thence to latitude 36° 59'18", longitude 76°17'52"; thence along a curve approximately 300 yards off the north shore of Fort Wool to latitude 37°59'09", longitude 76°18'21"; thence to latitude 36°59'02", longitude 76°18'39.5"; thence to latiture 37°00'00", longitude 76°18'54"; thence to latitude 36°59'57", longitude 76°18'42.5"; thence to latitude 36°59'58.5", longitude 76°18' 27"; thence to latitude 37°00'03", longitude 76°18'26"; thence to the Fort Monroe seawall and northward along the seawall to the point of beginning.

(b) *The regulations.* (1) Anchoring, trawling, fishing, and dragging are prohibited in the danger zone, and no object, either attached to a vessel or otherwise, shall be placed on or near the bottom.

(2) This section shall be enforced by the Commanding Officer, U. S. Army Submarine Mine Depot, Fort Monroe, Virginia, and such agencies as he may designate.

§ 204.52 *Atlantic Ocean south of entrance to Chesapeake Bay; firing range*—(a) *The danger zone.* A sector extending seaward for a distance of 12,000 yards between two radial lines bearing 30° true and 75° true, respectively, from a point on the shore at latitude 36°46' 48", longitude 75°57'24"; and an adjacent sector extending seaward for a distance of 15 miles between two radial lines bearing 75° true and 150° true, respectively, from the same shore position.

(b) *The regulations.* (1) Fishing vessels may enter the danger zone only between the hours of midnight and 8:00 a. m. and shall be clear of the area by 8:00 a. m. Other vessels shall proceed through the area with caution and shall remain therein no longer than absolutely necessary for purposes of transit.

(2) On days when firing is in progress, red flags will be displayed at conspicuous locations on the beach. During night firing a red flag, illuminated by a vertical white light, will be shown from the tower controlling the fire.

(3) This section shall be enforced by the Commanding Officer, Antiaircraft Training and Test Center, Dam Neck, Virginia, and such agencies as he may designate.

4. Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), §§ 207.110, 207.120, 207.130, 207.140, and 207.150 are amended, and §§ 207.125, 207.152, 207.154, 207.155, 207.156, 207.157, 207.158 and 207.162 are prescribed, governing the use, administration, and navigation of waters in the Chesapeake Bay area, as follows:

§ 207.110 *Magothy River, Md.; speed.* No boat shall at any time proceed at a greater speed than eight statute miles per hour in that portion of the Magothy River between Gibson Island Beach and a line extending due north from the most northerly part of Holland Point and crossing the Magothy Narrows.

§ 207.120 *South River, Md., and its tributaries; speed.* No boat shall at any time between May 1 and September 15, inclusive, proceed at a greater speed than eight statute miles per hour in that portion of the South River above the Maryland State Roads Commission bridge at Edgewater, Maryland, or in the tributaries emptying therein, including Warehouse, Gingerville, Beards, and Broad Creeks.

§ 207.125 *Patuxent River, Md.; restricted areas, Naval Air Test Center, Patuxent River, Md.* (a) Except in the gut off the tip of Point Patience, no craft shall approach closer than 75 yards to the beaches, shoreline, or piers of the area formerly occupied by the United States Naval Mine Warfare Test Station, or of Naval Air Station property. Civilian craft shall not approach rafts, barges, and platforms closer than 100 yards.

(b) Diving tenders will exhibit two red conical shapes, arranged vertically, base to base, when underwater diving takes place from naval small craft. At such times civilian craft shall stay at least 200 yards clear of these vessels and proceed at a speed not greater than five knots when within 1,000 yards thereof.

(c) On occasions, seaplane landings and take-offs will be practiced in the seadrome area north of the Naval Air Station, Patuxent River. This area includes those waters of the Patuxent River between Town Point and Hog Point shoreward of a line described as follows: Beginning at a point on the shore just west of Lewis Creek, bearing 161°30' true, 2,000 yards, from Point Patience Light; thence to a point bearing 130° true, 1,850 yards, from Point Patience Light; thence to a point bearing 247°30' true, 3,650 yards from Drum Point Light; thence to a point bearing 235° true, 2,060 yards, from Drum Point Light; thence to a point bearing 129° true, 700 yards, from Drum Point Light; thence to a point bearing 137° true, 1,060 yards, from Drum Point Light; and thence to a point on the shore west of Harper Creek entrance, bearing 158°30' true, 1,900 yards, from Drum Point Light. Operations will be indicated by day by a square white flag with square blue center, and by night by one green light for operations in an easterly direction, or by two vertical green lights for operations in a westerly direction, all signals to be exhibited from Patuxent River Boathouse seawall at the Naval Air Test Center. In addition, crash boats will patrol the landing lanes during the operations, and by night float lights will mark the landing lanes. At such times as the above signals are exhibited the following restriction will apply to boating in the waters adjacent to the Naval Air Station in the area westward of Fishing Point: Boating will be confined to areas not less than 75 yards nor more than 500 yards from the beaches of the Air Center; will proceed across the seaplane operating area only in accordance with instructions from crash boats; will not enter the seaplane basins; and will not use the areas adjacent to seaplane basins (boats may cross entrances when no signal is exhibited).

(d) The regulations in this section shall be enforced by the Commanding Officer, Naval Air Station, Patuxent River, Maryland, and such agencies as he may designate.

§ 207.130 *York Spit Channel, Chesapeake Bay; navigation.* The use of this channel shall be restricted to vessels and other watercraft passing up or down the bay, and no vessel or other watercraft shall cross the channel or enter it at any point other than at its ends and in the direction of its axis. Any vessel having entered the channel shall follow the course thereof for its entire length.

§ 207.140 *Thimble Shoal Channel, Chesapeake Bay; navigation.* (a) The use of this channel shall be restricted to vessels, tows, and other watercraft drawing 20 feet or more at the time of navigating the channel: *Provided*, That this restriction shall not apply to passenger-carrying vessels.

(b) Watercraft permitted to use the channel under paragraph (a) of this section shall proceed through at a reasonable speed so as not to endanger other vessels or interfere with any work in connection with maintaining, surveying, or buoying the channel. Vessels shall not anchor in the channel except in cases of emergency, such as fog or accident, which would render progress unsafe or impossible.

(c) This section shall not be construed as prohibiting necessary use of the channel by Government boats while on Government duty, or its use in emergencies by pilot boats, whether steam or sail, or by police boats.

§ 207.150 *Hampton Roads and the harbors of Norfolk and Newport News, Va.; navigation and explosives regulations for vessels other than common carriers carrying explosives.* * * *

§ 207.152 *James River off the entrance to Skiffes Creek, Va.; Army small-craft testing area*—(a) *The restricted area.* Beginning at latitude 37°10'00", longitude 76°37'28"; thence to latitude 37°09'13", longitude 76°37'48"; thence to latitude 37°09'13", longitude 76°38' 08"; thence to latitude 37°10'00", longitude 76°37'55"; and thence to the point of beginning.

(b) *The regulations.* (1) No vessels other than Department of the Army vessels shall enter the restricted area except as provided in subparagraph (2) of this paragraph.

(2) Nothing in this section shall prevent the setting of fish traps within the restricted area under regulations of the Department of the Army, nor will the passage of fishing vessels to and from authorized traps be unreasonably interfered with or restricted.

(3) Vessels anchored in the area shall be so anchored as not to obstruct the arc of visibility of Deep Water Shoals Light.

(4) This section shall be enforced by the Commanding General, Fort Eustis, Virginia, and such agencies as he may designate.

§ 207.154 *Southern Branch of Elizabeth River; speed.* In that part of the Southern Branch of Elizabeth River between the junction of the Southern and Eastern Branches of the Elizabeth River and the Norfolk and Portsmouth Belt Line Railroad Bridge, no vessel shall move at a speed exceeding six knots.

§ 207.155 *Hampton Roads, off Norfolk Naval Station; Navy restricted area*—(a) *The restricted area.* Beginning at latitude 36°56'41.5", longitude 76°19'44"; thence to latitude 36°56'45.5", longitude 76°20'14"; thence to latitude 36°57'21", longitude 76°20'11"; thence to latitude 36°57'17", longitude 76°19'35"; and thence to the point of beginning.

(b) *The regulations.* (1) No commercial vessels other than those moving to and from piers at the Norfolk Naval Station shall enter the restricted area.

(2) This section shall be enforced by the Commandant, Fifth Naval District, and such agencies as he may designate.

§ 207.156 *Hampton Roads and Willoughby Bay, Norfolk, Va.; seaplane restricted area*—(a) *The area.* Beginning at latitude 36°57'22", longitude 76°18'02.5"; thence to latitude 36°57'29", longitude 76°19'01"; thence to latitude 36°58'41.5", longitude 76°18'42"; thence to latitude 36°58'37.5", longitude 76°18'16"; thence to latitude 36°58'01", longitude 76°18'23"; thence to latitude 36°57'48", longitude 76°18'07.5"; thence to latitude 36°57'45.5", longitude 76°17'58.5"; thence to latitude 36°57'42", longitude 76°16'21.5"; and thence southerly, easterly, and northerly along the shore of Willoughby Bay to the point of beginning.

(b) *The regulations.* (1) Vessels shall not moor or anchor within the area. Fishing, oystering, clamming, crabbing, and other aquatic activities are prohibited within the area.

(2) All vessels moving through that portion of the area in Willoughby Bay shall navigate as near the shore of Willoughby Spit as practicable, and shall pass through as quickly as practicable.

(3) All vessels moving in the area shall immediately proceed to leave the area when warned by aircraft employing the "buzzing" method, which consists of low flight by an airplane and repeated opening and closing of its throttle.

(4) This section shall be enforced by the Commandant, Fifth Naval District, and such agencies as he may designate.

§ 207.157 *Chesapeake Bay, Lynnhaven Roads; Navy amphibious training area*—(a) *The restricted area.* Beginning at latitude 36°55'47", longitude 76°11'04.5"; thence to latitude 36°59'15", longitude 76°10'08"; thence to latitude 36°58'39.5", longitude 76°07'51"; thence to latitude 36°55'27.5", longitude 76°08'42"; thence westerly along the shore and across the mouth of Little Creek to the point of beginning.

(b) *The regulations.* (1) No fishpound stakes or structures shall be allowed in the restricted area.

(2) No vessel shall approach within 300 yards of any naval vessel or within 600 yards of any vessel displaying the red "baker" burgee.

(3) This section shall be enforced by the Commandant, Fifth Naval District, and such agencies as he may designate.

§ 207.158 *Chesapeake Bay entrance, south side; restricted area for Naval Bureau of Ordnance field tests*—(a) *The restricted area.* The water area within the following boundaries: West boundary, longitude 76°00'00"; north boundary, latitude 36°59'00"; east boundary, longitude 75°55'00"; south boundary, latitude 36°53'00".

(b) *The regulations.* (1) Anchoring, trawling, fishing, and crabbing are prohibited in the restricted area.

(2) This section shall be enforced by the Commandant, Fifth Naval District, and such agencies as he may designate.

§ 207.162 *Pasquotank River, N. C.; seaplane restricted area*—(a) *The restricted area.* That part of Pasquotank River bounded as follows: Beginning at latitude 36°17'39.5", longitude 76°11'21"; thence southeasterly along the line of seven-foot depth to latitude 36°16'18", longitude 76°07'16"; thence to latitude 36°15'14.5", longitude 76°07'44.5"; thence northwesterly along the line of seven-foot depth contour to latitude 36°17'19", longitude 76°11'20.5"; and thence to the point of beginning.

(b) *The regulations.* (1) Vessels shall not anchor or moor within the restricted area.

(2) All vessels moving through the restricted area shall navigate as near the northeast shore of the river as practicable, and shall pass through the area as quickly as practicable.

(3) Fishing, crabbing, oystering, clamming, and other aquatic activities are prohibited within the restricted area.

(4) This section shall be enforced by the Commanding Officer, Coast Guard Air Station, Elizabeth City, North Carolina, and such agencies as he may designate.

PART 207—NAVIGATION REGULATIONS

OHIO AND UPPER MISSISSIPPI RIVERS AND TRIBUTARIES; LOCK SIGNAL LIGHTS

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), § 207.300 (e) (2), prescribing a visual lock signal system to supplement sound signals at locks where density of traffic or other local conditions make it advisable, is hereby amended to read as follows:

§ 207.300 *Ohio River, Mississippi River above Cairo, Ill., and their tributaries; use, administration, and navigation.* • • •

(e) *Signals.* • • •

(2) *Lock signal lights.* At locks where density of traffic or other local conditions make it advisable, the sound signals from the lock will be supplemented by signal lights. Flashing lights (showing a one-second flash followed by a two-second eclipse) will be located on or near each end of the land wall to control use of a single lock or of the landward lock of double locks. In addition, at double locks, interrupted flashing lights (showing a one-second flash, a one-second eclipse, and a one-second flash, followed by a three-second eclipse) will be located on or near each end of the intermediate wall to control use of the riverward lock. Navigation will be governed as follows:

Red Light. Lock cannot be made ready immediately. Vessel shall stand clear.

Amber Light. Lock is being made ready. Vessel may approach but under full control.

Green Light. Lock is ready for entrance.

NOTE: During the conversion period required to install flashing red, amber, and green lights, the following signal lights may continue to be used at some locks: A flashing green light located on or near each end of the land wall to indicate that a single lock or the landward lock of double locks is ready for entrance. In addition, at double locks, a flashing amber light located on or near each end of the intermediate wall to indicate that the riverward lock is ready for entrance.

PART 207—NAVIGATION REGULATIONS

OHIO AND UPPER MISSISSIPPI RIVERS AND TRIBUTARIES; LOCK SIGNAL LIGHTS

POSTPONEMENT OF EFFECTIVE DATE

The revised regulations for distress signals and specifications for distress signals were published in the FEDERAL REGISTER dated October 31, 1947, 12 F. R. 7072 et seq., and these regulations provided that distress signals not bearing the date of manufacture shall not be carried after January 1, 1949, and that distress signals meeting the revised Coast Guard specifications be manufactured. In the FEDERAL REGISTER dated October 30, 1948, 13 F. R. 6411 et seq., it was proposed to further amend these regulations to allow an additional alternate to existing requirements and to publish the minimum standard specification for hand orange smoke distress signals. These amendments were published without prior general notice of their proposed issuance in order to have available to vessel operators an additional source of supply. Comments were submitted and an appeal has been made setting forth reasons why a public hearing should be held before the amendments to the regulations regarding distress signals be made effective. *It is, therefore, ordered,* That a public hearing shall be held by the Merchant Marine Council on November 30, 1948, at 9:30 a. m., in Room 4120, Coast Guard Headquarters, 1300 E Street NW., Washington, D. C., to consider all comments, data, and views, on the regulations published in the FEDERAL REGISTER October 30, 1948, 13 F. R. 6411–6415, and all appeals presented to the Commandant, United States Coast Guard, as provided in Coast Guard Federal Register Document CGFR 48–53, Federal Register Document 48–9576.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by R. S. 4405 and 4417a, as amended, 46 U. S. C. 375, 391a, and section 101 of Reorganization Plan No. 3 of 1946, the amendments to the regulations regarding distress signals as published in the FEDERAL REGISTER, October 30, 1948, 13 F. R. 6412–6415, are postponed until all comments and appeals may be considered and action taken thereon, and a notice will be published in the FEDERAL REGISTER setting forth either the effective date of the amendments or the revised text of the regulations.

PART 160—LIFESAVING EQUIPMENT

The effective date for the specification in § 160.037 is postponed until further notice.

Regulations in effect. As the amendments published in the FEDERAL REGISTER October 30, 1948, merely allowed an additional alternate to previous requirements for distress signals the postponement of the effective date of these amendments does not alter previous requirements which require 12 approved hand red flare distress signals in a watertight container and 4 approved floating orange smoke distress signals, or 12 approved hand combination flare and smoke distress signals in a watertight container in lifeboats and life rafts. The service use for distress signals shall be limited to a period of three years from date of manufacture. Distress signals not bearing date of manufacture shall not be carried after January 1, 1949.

[Docket No. A0143-A1]

HANDLING OF GRAPEFRUIT GROWN IN ARIZONA; IN IMPERIAL COUNTY, CALIF.; AND IN THAT PART OF RIVERSIDE COUNTY, CALIF., SITUATED SOUTH AND EAST OF SAN GORGONIO PASS

NOTICE OF HEARING WITH RESPECT TO PROPOSED AMENDMENTS TO MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 61 Stat. 208, 707), and in accordance with the amended rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR and Supps. 900.1 et seq.), notice is hereby given of a public hearing to be held with respect to proposed amendments to Marketing Agreement No. 96 and Order No. 55 (7 CFR, Cum. Supp., 955.1 et seq.), regulating the handling of grapefruit grown in the State of Arizona; in Imperial County, California; and in that part of Riverside County, California, situated south and east of the San Gorgonio Pass. Such hearing will be held in Room 212, United States Court House, First Avenue and Van Buren Street, Phoenix, Arizona, beginning at 10:00 a. m., m. s. t., December 13, 1948, and in Coachella Valley Water District Auditorium C, Coachelle, California, beginning at 10:00 a. m., p. s. t., December 15, 1948. These proposals have not received the approval of the Secretary of Agriculture.

This public hearing will be held for the purpose of receiving evidence with respect to the economic and marketing conditions relating to all aspects of the proposed amendments, which are hereinafter set forth, and appropriate modifications thereof.

At a duly authorized meeting of the Administrative Committee established pursuant to the marketing agreement and order, a resolution was adopted authorizing the submission of a petition for a public hearing to be held to consider amendments to the marketing agreement and order which would permit (1) the establishment of separate grade and size regulations for white grapefruit and pink grapefruit and (2) the regulation of grapefruit shipments by minimum standards of maturity and quality whenever the seasonal average price of grapefruit exceeds the parity level. The amendments hereinafter set forth have been proposed by the Administrative Committee as the means of effectuating the foregoing:

1. Delete paragraph (b) of section 1 of the marketing agreement and of § 955.1 of the order and substitute therefor the following:

(b) "Act" means the Agricultural Marketing Agreement Act of 1937, as amended and further amended by Public Law 305, 80th Cong., approved August 1, 1947. (7 U. S. C. 601 et seq.; 61 Stat. 202, 707)

2. Add to section 1 of the marketing agreement and to § 955.1 of the order the following new paragraph:

(k) "Variety" or "varieties" means any one or more of the following classifications or groupings of grapefruit: (1) white seeded grapefruit; (2) white seedless grapefruit; (3) pink seedless grapefruit; and (4) pink seeded grapefruit.

3. Delete section 4 of the marketing agreement and § 955.4 of the order and substitute therefor the following:

Grade and size regulations—(a) *Marketing policy.* Before submitting any recommendation to the Secretary for the regulation of the shipment of any variety of fruit during any fiscal period, the Administrative Committee shall prepare a report setting forth a marketing policy with respect to the shipment of any variety of fruit which the committee deems advisable for the current shipping season. Additional reports shall be submitted, from time to time, in the event that it is deemed advisable to adopt new marketing policies in view of changed demand and supply conditions with respect to any variety of fruit. The Administrative Committee shall publicly announce the issuance of any such report and copies thereof shall be made available for inspection by any producer or handler at the Office of the Administrative Committee.

(b) *Recommendation for regulation.* (1) It shall be the duty of the Administrative Committee to investigate the supply and demand conditions for grades and sizes of each variety of fruit. Whenever the committee finds that such conditions make it advisable to regulate the shipment of particular grades or sizes of any variety of fruit during any period, it shall recommend the particular grades or sizes thereof deemed advisable by it to be shipped during such period; and any such recommendation may include a proposal that shipments of any variety of fruit to Canada shall be limited to sizes different from the proposed size limitation applicable to shipments in interstate commerce. Thereafter, the committee shall promptly report such findings and recommendations, together with supporting information, to the Secretary.

(2) In determining the grades and sizes of any variety of fruit deemed advisable to be regulated in view of the prospective demand therefor, the committee shall give due consideration to the following factors: (i) Market prices, including market prices by grades and sizes of each variety of fruit; (ii) the fruit of each variety on hand in market areas, as evidenced by supplies en route and on track at the principal markets; (iii) available supply, maturity, and conditions of each variety of fruit in the producing area, including the grade and size composition of each variety of fruit remaining in the producing area; (iv) supplies from competitive areas producing citrus fruits and other competitive fruit; and (v) trend in consumer income.

(3) In order to effectuate the declared policy of the act, the Administrative Committee may recommend that the Secretary prescribe minimum standards of quality and maturity regulating the shipment of each variety of fruit, and thereafter, except as otherwise provided herein, no handler shall ship any variety of fruit which does not meet the minimum standards of quality and maturity as prescribed by the Secretary. The provisions hereof relating to the minimum standards of quality and maturity within the meaning of section 2 (3) of the act and any other provisions pertaining to the administration and enforcement thereof, shall continue in effect irrespective of whether the seasonal average price for grapefruit is in excess of the parity level specified in section 2 (1) of the act.

(c) *Regulation by the Secretary.* Whenever the Secretary shall find, from the recommendations and information submitted by the Administrative Committee, or from other available information, that to limit the shipment of any variety of fruit to particular grades and sizes thereof would tend to effectuate the declared policy of the act, he shall so limit the shipments of such variety of fruit during a specified period, and any such regulation may provide that shipment of any variety of fruit to Canada shall be limited to sizes different from the size limitation applicable to the shipments in interstate commerce. The Administrative Committee shall be informed immediately of any such regulation issued by the Secretary, and the said committee shall promptly give adequate notice thereof to handlers.

(d) *Notice of meeting.* The Administrative Committee shall give public notice of at least forty-eight hours of any meeting to be held for the purpose of making any recommendation pursuant to this section.

(e) *Inspection and certification.* During any period in which the Secretary has regulated the shipment of any variety of fruit pursuant to this section, each handler shall, prior to making each shipment of any variety of fruit, cause such shipment to be inspected by an authorized representative of the Federal-State Inspection Service. Promptly thereafter, such handler shall submit to the Administrative Committee a copy of the inspection certificate issued thereon: *Provided*, That this provision shall not be applicable to a handler who ships any variety of fruit which has been so inspected and a copy of such inspection certificate has been submitted to the Administrative Committee.

4. Delete section 5 of the marketing agreement and § 955.5 of the order and substitute therefor the following:

Reports—(a) *Shipping manifest report.* The Administrative Committee may require information from each handler regarding the grade, size, and variety of each standard box contained in each individual shipment made by such handler, and may require such information to be delivered to the said committee within twenty-four hours after such shipment is made, in such manner as the said committee may prescribe and upon forms prepared by it.

(b) *Disposition report.* The Administrative Committee may, from time to time, require each handler to furnish the following information with respect to fruit: (1) Quantity of each variety shipped in interstate commerce and to Canada; (2) quantity of each variety shipped by express and parcel post; (3) quantity of each variety shipped for distribution to persons on relief, including donations for charitable purposes; (4) quantity of each variety sold for consumption in fresh form within the State of origin; (5) quantity of each variety exported to countries other than Canada; (6) quantity of each variety sold or otherwise disposed of for canning or for manufacturing into by-products; and (7) quantity of each variety disposed of otherwise.

(c) *Other reports.* Upon request of the Administrative Committee, made with the approval of the Secretary, every handler shall furnish to such committee, in such manner and at such times as it prescribes, such other information as will enable it to perform its duties and to exercise its powers hereunder.

5. Delete section 7 of the marketing agreement and § 955.7 of the order and substitute therefor the following:

Compliance. Except as provided herein, no handler shall ship any variety of fruit, the shipment of which has been prohibited by the Secretary in accordance with the provisions hereof, and no handler shall ship any variety of fruit except in conformity with the provisions hereof.

The Fruit and Vegetable Branch, Production and Marketing Administration, has proposed that consideration be given to such other changes in the provisions of the marketing agreement and order as may be necessary to make the entire marketing agreement and order conform with the proposed amendments contained in this notice of hearing.

Copies of this notice of hearing may be obtained from the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., or from the Fruit and Vegetable Branch, Production and Marketing Administration, 1206 Santee Street, 12th Floor, Los Angeles 15, California.

[Docket Nos. 8736, 8975, 9175]

NOTICE OF ISSUANCE OF ILLUSTRATIVE TV AND FM CHANNEL STUDIES AND DATES AND PLACE OF ENGINEERING CONFERENCES

PROPOSED RULE MAKING

In the matter of amendment of § 3.606 of the Commission's rules and regulations, Docket Nos. 8975 and 8736; and amendment of the Commission's rules, regulations and standards concerning the television and frequency modulation broadcasting services, Docket No. 9175.

I. In accordance with the provisions of section IV of the Commission's notice of further proposed rule making in the above-entitled matters, issued on October 15, 1948, notice is hereby given of dates and place of the proposed engi-

neering conferences and of the issuance of TV and FM Channel Studies.

II. Said conferences will be held in the U. S. Department of Commerce Auditorium, 14th Street between E Street and Constitution Avenue, N. W., Washington, D. C., on November 30, December 1, and December 2, 1948, commencing at 10:00 a. m. As indicated in section IV (D) of the notice of October 15, 1948, on November 30, 1948 the conference will consider tropospheric effects, terrain effects and antennas. As indicated in section IV (E) of said notice, on December 1, 1948 the conference will consider the items stated therein with respect to VHF television broadcasting. Finally, as indicated in section IV (F) of said notice, on December 2, 1948 the conference will consider the items listed therein with respect to FM broadcasting. Any unfinished business remaining at the end of a particular conference day will be considered as the first order of business on the following day.

III. The following studies which have been prepared for illustrative purposes only and not as proposals are now available for distribution, and may be obtained by written or oral request at the Commission's Office of Information:

(A) Two studies entitled "Effects of Tropospheric Interference on TV Broadcast Coverage."

(B) Study entitled "Effects of Tropospheric Interference on FM Broadcast Coverage."

IV. The following summaries of the above studies have been prepared in order to apprise persons not requesting copies thereof of the significance of these studies in the present proceedings.

(A) The studies of tropospheric interference consists of two sets of maps. Group I is a channel study of 12 Northeastern states showing the effect of ground wave and tropospheric interference on the areas of stations allocated in accordance with the Commission's Notice of Proposed Rule Making of May 5, 1948, as amended in the Commission's Supplemental Notice of July 15, 1948. Group II is a channel study of the same area showing the effect of tropospheric and ground wave interference on presently operating stations and C. P.'s, but with other allocations spaced so as to protect the 500 uv/m contour 90% of the time. Metropolitan allocations are based on 50 kw/500 ft. and Community allocations on 1 kw/500 ft. in the center of the principal city. While in some cases presently authorized channels have been changed, none has been deleted. Further, there has been no change in the channels of presently operating stations.

(B) Service contours as affected by ground wave interference and by tropospheric interference for 1% and 10% of the time are mapped for station assignments on two representative class B channels and one class A channel. (Class A assignments are mapped only for the northeastern quarter of the United States.) These maps provide an indication of the degree of interference occurring with various station separations, powers and antenna heights. Curves are presented to show co-channel interference-limited service ranges and percentages of gross area served, as functions of station separation. Two families of curves are included to show the 99% service contours of 20 kw, 500 ft. stations with various co-channel and adjacent channel separations.

V. All interested parties are invited to submit written data, views, or arguments with respect to the subject matter treated in the above studies on or before November 30, 1948. An original and 14 copies of all written material filed shall be furnished the Commission.

Adopted: November 18, 1948.

Released: November 18, 1948.

MULTIPLE OWNERSHIP OF AM, FM, AND TELEVISION BROADCAST STATIONS

ORDER SCHEDULING ORAL ARGUMENT

In the matter of the amendment of §§ 3.35, 3.240, and 3.640 of the rules and regulations relating to multiple ownership of AM, FM and television broadcast stations.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 18th day of November 1948;

The Commission having under consideration written comments filed with respect to the notice of proposed rule-making of August 19, 1948 (13 F. R. 5060), relating to the multiple ownership of AM, FM and television broadcast stations; and

It appearing, that comments have been received requesting oral argument with respect to the proposals contained in said notice of proposed rule making;

It is ordered, That the Commission will hear said argument on January 17, 1949, at 10:00 a. m. in Room 6121, New Post Office Building, 12th and Pennsylvania Avenue NW., Washington, D. C.

FEDERAL TRADE COMMISSION

[16 CFR, Ch. I]

[File No. 21-412]

TRADE PAMPHLET BINDING INDUSTRY, NEW YORK CITY TRADE AREA

NOTICE OF HEARING AND OF OPPORTUNITY TO PRESENT VIEWS, SUGGESTIONS, OR OBJECTIONS

At a regular session of the Federal Trade Commission held at its office in the city of Washington, D. C., on the 19th day of November 1948.

Opportunity is hereby extended by the Federal Trade Commission to any and all persons, partnerships, corporations, organizations, or other parties, affected by or having an interest in the proposed trade practice rules for the Trade Pamphlet Binding Industry of the New York City trade area, to present to the Commission their views concerning said rules, including such pertinent information, suggestions, or objections as they may desire to submit, and to be heard in the premises. For this purpose they may obtain copies of the proposed rules upon request to the Commission. Such views, information, suggestions, or objections may be submitted by letter, memorandum, brief, or other communication, to be filed with the Commission not later than December 14, 1948. Opportunity to be heard orally will be afforded at the hearing beginning at 10 a. m., December 14, 1948, in Room 332, Federal Trade Commission Building, Pennsylvania Avenue at Sixth Street N. W., Washington, D. C., to any such persons, partnerships, corporations, organizations, or other parties who desire to appear and be heard. After due consideration of all matters presented in writing or orally, the Commission will proceed to final action on the proposed rules.

By the Commission.

[SEAL] OTIS B. JOHNSON,
Secretary.

NOTICES

DEPARTMENT OF THE TREASURY

Bureau of Customs

[T. D. 52089]

PRODUCTS OF SAAR

MARKING OF COUNTRY OF ORIGIN

NOVEMBER 18, 1948.

The Department of State has informed the Treasury Department that the United States Government has recognized the de facto separation of the Saar from Germany and the incorporation of its economy with that of France subject to confirmation by the final Peace Treaty. This de facto recognition of the economic union does not imply any recognition of the political incorporation of the Saar Territory with that of France, which action has not been attempted.

Articles manufactured or produced in the Saar shall be regarded as manufactures or products of "France-Saar Economic Union" for the purposes of the marking provisions of the Tariff Act of 1930, as amended.

Products of the Saar shall hereafter be marked to indicate that "France-Saar Economic Union" is the country of origin, except that marking to indicate Germany as the country of origin of products of the Saar may be accepted on articles arriving in the United States before the expiration of 90 days after the publication of this decision in the weekly Treasury decisions.

T. D. 47639 (1) is superseded, and the entry for the Saar in item 3 of Bulletin of Marking Rulings-3 shall be changed to conform with this decision.

[SEAL] FRANK DOW,
Acting Commissioner of Customs.

DEPARTMENT OF AGRICULTURE

Forest Service

DESOTO NATIONAL FOREST

ORDER FOR REMOVAL OF TRESPASSING SHEEP

Whereas, a number of sheep are trespassing and grazing on lands fenced for reforestation purposes on the DeSoto National Forest in Mississippi; and

Whereas, these sheep are injuring and causing mortality to pine trees on these fenced National Forest Lands;

Now, therefore, by virtue of the authority vested in the Secretary of Agriculture by the act of June 4, 1897 (30 Stat. 35; 16 U. S. C. 551), and the act of February 1, 1905 (33 Stat. 628; 16 U. S. C. 472), the following order for the occupancy, use, protection, and administration of the fenced areas in the DeSoto National Forest in Mississippi is issued:

Temporary Closure From Livestock Grazing

(a) The fenced areas on the DeSoto National Forest are hereby closed to the grazing of sheep for the period beginning November 15, 1948, and ending November 14, 1958.

(b) Officers of the United States Forest Service are hereby authorized to dispose of, in the most humane manner, all sheep found trespassing or grazing in violation of this order.

(c) Public notice of intention to dispose of such sheep shall be given by posting notices in public places or advertising in a newspaper of general circulation in the localities in which the DeSoto National Forest is located.

Done at Washington, D. C., this 19th day of November 1948.

Production and Marketing Administration

HANDLING OF WALNUTS GROWN IN CALIFORNIA, OREGON, AND WASHINGTON

APPROVAL OF BUDGET OF EXPENSES OF WALNUT CONTROL BOARD FOR MARKETING YEAR BEGINNING AUGUST 1, 1948

Notice was published in the FEDERAL REGISTER (13 F. R. 6085) issue of October 16, 1948, that consideration was being given to the approval of a proposed budget of expenses for the Walnut Control Board (the administrative agency for operations under this regulatory program) in the sum of $59,800 for the marketing year beginning August 1, 1948, as had been recommended by said Board pursuant to a resolution adopted by it at a duly called meeting held by it at Los Angeles, California, on August 26, 1948. Such approval action is taken pursuant to the authority contained in § 987.7 (a) of the marketing agreement and order (13 F. R. 4344) regulating the handling of walnuts grown in California, Oregon, and Washington, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 61 Stat. 208, 707).

An opportunity was afforded interested persons to file written data, views, or arguments with respect to the proposed budget, and the time for doing so has now expired. After considering all relevant matters in that connection, it is hereby found and determined that the expenses reasonably and likely to be incurred by the said Walnut Control Board for its maintenance and functioning during the marketing year beginning August 1, 1948, should not exceed $59,800, and the incurring of such expenses not in excess of that amount for the said marketing year is approved.

(48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 61 Stat. 208, 707; § 987.7 (a), 13 F. R. 4344)

Done at Washington, D. C., this 19th day of November 1948.

FEDERAL COMMUNICATIONS COMMISSION

STATEMENTS OF ORGANIZATION, DELEGATIONS OF AUTHORITY, AND PLACES FOR SUBMITTING APPLICATIONS AND OTHER REQUESTS AND SECURING PUBLIC INFORMATION

In the matter of amendment of Subparts A, B, and C of Part 1 of the Commission's rules and regulations.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 18th day of November 1948:

The Commission having under consideration Subparts A, B, and C of Part 1 of the Commission's rules and regulations dealing with Organization of the Commission, Delegations of Authority, and Places for Submitting Applications and Other Requests and Securing Public Information; and having under consideration the necessity for amending these Rules to reflect (1) changes of nomenclature with respect to organizational units within the Commission to make the names of these units consistent with suggestions of the Senate Committee on Expenditures in the Executive Departments, and (2) changes in organization and procedures of the Commission; and

It appearing, that in accordance with the regulations of the Administrative Committee of the Federal Register, effective October 12, 1948 (13 F. R. 5929), codification of the above described subparts of Part 1 of the Commission's rules and regulations is required to be discontinued; and

It further appearing, that in view of the nature of these amendments, the procedure set out in section 4 (a) of the Administrative Procedure Act is not applicable; and

It further appearing, that these regulations are issued pursuant to the authority of sections 4 (i), 5, and 303 (r) of the Communications Act of 1934, as amended, and are designed to improve the internal administration of the Commission and will serve the public interest, convenience, and necessity;

It is ordered, That, effective immediately, codification of Subparts A, B, and C of Part 1 of the Commission's rules and regulations is discontinued, and the Statements of Organization of the Commission, Delegations of Authority, and Places for Submitting Applications and Other Requests and Securing Public Information, are adopted as set forth below. (Future amendments to this material will be published in the Notices section of the FEDERAL REGISTER.)

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] T. J. SLOWIE, *Secretary.*

STATEMENT OF ORGANIZATION OF THE COMMISSION [1]

GENERAL

SECTION 0.1 *Statutory authority.* The Federal Communications Commission is created by the Communications Act of 1934, as amended. This act is printed in Title 47 of the United States Code beginning with section 151. Pamphlet copies of the act may be obtained from the Superintendent of Documents, United States Government Printing Office, Washington, D. C. for 15 cents.

SEC. 0.2 *Commissioners.* (a) The Federal Communications Commission is composed of seven members appointed by the President, subject to Senate confirmation, one of whom the President designates as Chairman.

(b) From time to time the Commission designates a Vice Chairman who acts as Chairman in the Chairman's absence. In the absence of both the Chairman and Vice Chairman, the Commissioner most senior in terms of service, who is present, acts as Chairman, unless otherwise provided by the Commission.

(c) There are two standing committees of Commissioners, the Telegraph Committee and the Telephone Committee, each composed of three Commissioners. Certain telegraph and telephone matters are from time to time referred to these Committees by the Commission for report and study.

SEC. 0.3 *Offices.* All offices of the Commission unless otherwise hereinafter described are located in the New Post Office Building, Thirteenth Street and Pennsylvania Avenue NW., Washington 25, D. C. All meetings of the Commission unless otherwise directed by the Commission, are held at the above address.

SEC. 0.4 *General description of Commission organization.* The Commission is divided into the following principal units:

(a) Bureau of the Secretary.
(b) Bureau of Engineering.
(c) Bureau of Accounting.
(d) Bureau of Law.
(e) Bureau of Administration.
(f) Hearing Division.
(g) Office of Information.

BUREAU OF THE SECRETARY

SEC. 0.11 *Secretary.* The Secretary of the Commission is custodian of its official records. He is responsible for the preparation of Commission minutes which are the official record of action taken by the Commission, the processing of the correspondence and official papers, the administrative examination of applications, and certain functions relating to the internal management of the Commission. All orders, permits, licenses, or other instruments of authorization made, issued, or granted by the Commission are signed by the Secretary in the name of the Commission and authenticated by the seal of the Commission, unless otherwise specifically directed by the Commission. In the Bureau of the Secretary are the following units:

(a) License Division.
(b) Service Division.
(c) Records Division.
(d) Minute Branch.
(e) Library Branch.

SEC. 0.12 *License Division.* The License Division is divided into the following branches:

(a) Broadcast License Branch, which examines all applications and supporting data relating to all classes of radio stations in the broadcast services; issues orders and authorizations approved by the Commission affecting broadcast stations in nondocket cases; and maintains records of stock ownership of broadcast applicants and licensees.

(b) Commercial License Branch, which examines all applications and supporting data relating to all classes of nonbroadcast radio stations, assigns call letters to all classes of radio stations (including broadcast), issues amateur operator and station licenses, maintains records concerning all classes of nonbroadcast radio stations, amateur and commercial operators; examines all applications and supporting data relating to telephone and telegraph extensions or abandonment of facilities, and interlocking directorates; and issues orders, authorizations, and certificates approved by the Commission in the above class of cases in non-docket cases.

(c) Tabulating Branch, which maintains statistical data and listings for various bureaus of the Commission.

SEC. 0.13 *Service Division.* The Service Division consists of the following branches: Procurement Branch, Duplicating Branch, Stenographic Branch, Telephone Branch. These branches perform functions relating only to internal management.

SEC. 0.14 *Records Division.* The Records Division is divided into the following branches:

(a) Mail and Files Branch, which receives, opens, dates, and times stamps all incoming mail; summarizes, classifies, and indexes such correspondence and routes it to the appropriate bureau; maintains the Commission's correspondence file; and dispatches outgoing mail.

(b) Docket Branch, which maintains dockets of all Commission hearings; notifies all parties in interest of action taken by the Commission in docket cases; serves parties in docket cases when service by the Commission is required; and issues orders, notices, and decisions approved by the Commission in docket cases.

(c) Messenger Branch: The functions of this branch relate to internal management.

SEC. 0.15 *Minute Branch.* The Minute Branch prepares agenda for Commission meetings; takes notes at meetings of actions on all matters and notifies appropriate organizational units of action taken; prepares minutes of Commission action and maintains custody of all approved Commission minutes.

SEC. 0.16 *Library Branch.* The Library Branch maintains the main library of the Federal Communications Commission.

BUREAU OF ENGINEERING

SEC. 0.21 *Chief Engineer.* The Chief Engineer as head of the Bureau of Engineering supervises all Commission activities concerning engineering matters including activities in connection with the North American Regional Broadcasting Engineering Committee. The Bureau of Engineering is divided into the following divisions:

a. Standard Broadcast Division.
b. FM Broadcast Division.
c. Television Broadcast Division.
d. Marine Radio and Safety Division.
e. Public Safety and Special Services Division.
f. Aviation Division.
g. Common Carrier Division.
h. Field Engineering and Monitoring Division.
i. Laboratory Division.
j. Technical Information Division.
k. Frequency Allocation and Treaty Division.
l. Radio Operator and Amateur Division.

SEC. 0.22 *Standard Broadcast Division.* The Standard Broadcast Division is responsible for all engineering matters pertaining to broadcast stations operating in the band 550 to 1600 kilocycles. It is divided into the following branches:

(a) Allocations Branch, which is concerned with the over-all allocation of standard broadcast frequencies; maintains complete records of United States and foreign assignments of standard broadcast stations; and prepares maps, charts, tables, and conducts studies regarding frequency allocations for standard broadcast stations.

(b) Applications I Branch, which reviews and reports on applications to construct or modify standard broadcast facilities; prepares engineering specifications for appropriate authorizations; and formulates recommendations for additions and improvements to the engineering standards concerning standard broadcast stations.

(c) Applications II Branch, which reviews and reports on applications for renewal of license or for change of ownership of standard broadcast stations, and applications for experimental and developmental stations in the standard broadcast service; studies and coordinates the experimental programs of experimental and developmental stations of the standard broadcast service; and, based upon appropriate data, gives type approval for transmitting and monitoring equipment submitted by manufacturers.

(d) Hearings Branch, which prepares and presents engineering testimony and exhibits in hearings involving standard broadcast applications and reviews and reports on records in such cases.

SEC. 0.23 *FM (Frequency Modulation) Broadcast Division.* The FM (Frequency Modulation) Broadcast Division is responsible for all engineering matters pertaining to stations in the FM and associated services (non-commercial educational, facsimile, remote pickup, studio-transmitter, and developmental). It is divided into the following branches:

(a) Allocations Branch, which is concerned with the over-all allocation of frequencies assigned to FM and associated services and maintains complete records of such assignments; prepares maps, charts, tables, and conducts studies regarding frequency allocations to these services.

(b) Applications I Branch, which reviews and reports on applications to construct or modify FM stations and stations in the associated services, and prepares engineering specifications for appropriate authorizations.

(c) Applications II Branch, which reviews and reports on applications for renewal of license or for change of ownership of FM broadcast stations and associated services and applications for experimental and developmental stations in the FM broadcast services, studies and coordinates the experimental programs of experimental and developmental stations of such services; based upon appropriate data, gives type approval for transmitting and monitoring equipment submitted by manufacturers; and formulates recommendation for additions and improvements to the engineering standards concerning these stations.

(d) Hearings Branch, which prepares and presents engineering testimony and exhibits in hearings involving FM applications and associated services and reviews and reports on records in such cases.

[1] This statement is issued pursuant to sec. 8 (a) (1) of the Administrative Procedure Act.

SEC. 0.24 *Television Broadcast Division.* The Television Broadcast Division is responsible for all engineering matters pertaining to the television broadcast service, adjunct services, and international broadcast stations. It is divided into the following branches:

(a) Allocations Branch, which is concerned with the over-all allocations of frequencies assigned to the television (commercial and experimental) service, adjunct services, and international broadcast services; maintains complete records of United States and foreign assignments for such services; and prepares maps, charts, tables, and conducts studies regarding frequency allocations for such services.

(b) Applications I Branch, which reviews and reports on applications to construct and modify television (commercial and experimental) stations, adjunct services, and international broadcast stations, and prepares engineering specifications for appropriate authorizations.

(c) Applications II Branch, which reviews and reports on applications for renewal of license or for change of ownership of television (commercial and experimental) stations, adjunct services, and international broadcast stations and associated services and applications for experimental and developmental stations in the television broadcast service; studies and coordinates the experimental programs of experimental and developmental stations of such services; based upon appropriate data, gives type approval for transmitting and monitoring equipment submitted by manufacturers; and formulates recommendations for additions and improvements to the engineering standards concerning these stations.

(d) Hearings Branch, which prepares and presents engineering testimony and exhibits in hearings involving television broadcast, adjunct services, and international broadcast applications and reviews and reports on records in such cases.

SEC. 0.25 *Marine and Safety Division.* The Marine Radio and Safety Division is divided into the following branches.

(a) Systems-Facilities Branch, which studies ship disasters and makes engineering reports and recommendations on all phases of marine radio communication. Examines and prepares reports on applications for permits to construct, license, or modify licenses and construction permits for stations in the Ship, Coastal and Marine Relay Services, Special Press Service, and Fixed Public Service in Alaska; applications for exemptions of ships from radio installation and operator provisions of law and treaty and requests for special temporary authorizations. Recommends appropriate action on violation reports.

(b) Technical Branch, which formulates engineering plans for the allocation and assignment of frequencies to the various classes of stations in the Ship, Coastal and Marine Relay Services, Fixed Public Service in Alaska, and Mobile Press Stations in the Special Press Service; prepares equipment and performance standards and makes recommendations with respect to type approval of equipment.

SEC. 0.26 *Public Safety and Special Services Division.* The Public Safety and Special Services Division is divided into the following branches:

(a) Public Safety Services Branch, which is responsible for development, regulation and enforcement of the Public Safety Radio Services including police, fire, forestry-conservation, highway maintenance and special emergency radio stations. Reviews applications for licenses and prepares engineering reports; investigates interference problems.

(b) Land Transportation Services Branch, is responsible for development, regulation and enforcement of the Land Transportation Services, which includes Railroad Radio, Transit Utilities, Inter-City Bus, Inter-City Truck and Taxicab Services. Reviews applications for licenses and prepares engineering reports; investigates interference problems.

(c) Industrial Radio Services Branch, which is responsible for development, regulation and enforcement of Industrial Radio Services, which includes Power, Petroleum, Forest Products, and Special Industrial Radio Services. Reviews applications for licenses and prepares engineering reports; investigates interference problems.

(d) Experimental and Miscellaneous Services Branch, which is responsible for the development and coordination of experimental programs; the review of applications and the preparation of data and presentation of expert advice and testimony on applications or results obtained by experimentation relative to the establishment of new services. This branch is also responsible for administration of all matters pertaining to the industrial heaters, medical diathermy and similar apparatus, and for administration of the rules and regulations governing the operation of restricted radiation devices.

SEC. 0.27 *Aviation Division.* The Aviation Division is divided into the following branches:

(a) Domestic and Territorial Branch, which reviews and reports on applications for permits to construct or modify stations in the domestic and territorial aviation service and prepares and presents engineering testimony and exhibits at hearings.

(b) International Branch, which reviews and reports on applications for permits to construct or modify stations in the international aviation service; prepares and presents engineering testimony and exhibits at hearings; and conducts special studies relating to international aviation.

(c) Technical Branch, which formulates engineering plans for the allocation and assignment of frequencies to the various classes of domestic and international aviation stations; studies equipment specifications; prepares performance standards; and issues type approval for such equipment.

SEC. 0.28 *Common Carrier Division.* The Common Carrier Division is divided into the following branches:

(a) Wiretelegraph branch processes applications for the extension and supplementation of facilities used in interstate service; is responsible for the engineering aspects presented by applications for authority to discontinue, reduce or impair telegraph service and to acquire or consolidate telegraph properties; performs work required in the investigation of complaints regarding telegraph service and equipment, and handles field investigations relative thereto. Initiates and makes studies and investigations regarding all aspects of quality of telegraph service. Keeps abreast of technical developments in the industry. Prepares memoranda to the Commission concerning the industry and initiates rules and regulations as required. Furnishes expert testimony at hearings.

(b) Wiretelephone Branch processes applications for the extension, supplementation, and discontinuance of facilities used in interstate service and is responsible for the engineering aspects presented by applications for the acquisition or consolidation of telephone properties; keeps informed and reports on all technical developments relative to the telephone industry; investigates and prepares reports relating to the operation of telephone lines, systems and associated equipment, including the transmission of FM and TV over wire and cables; investigates and prepares reports relating to telephone traffic, including speed of service, routing, capacities and operating methods; and investigates complaints relating to the furnishing of telephone communication service. Furnishes expert testimony at hearings.

(c) Radio Branch, which is divided into the following sections:

(1) International Services Section, which is responsible for the engineering aspects in the processing of applications for new stations, equipment, frequencies, and points of communication in the International Fixed Public and Fixed Public Press Radiocommunications Services. With regard to these services makes studies of frequency utilization; coordinates with the Frequency Allocation and Treaty Division of the Commission on the use of frequencies by government and non-government agencies with the view of minimizing interference; makes studies of quality of service rendered to the public; prepares exhibits and participates in hearings; participates in international telecommunication conferences; and maintains adequate current records of all outstanding authorizations and availability of international communication service for the public.

(2) Domestic Services Section, which is responsible for the engineering aspects in the processing of applications for new stations, equipment, frequencies, and services in the domestic use of radio facilities. Prepares studies of frequency utilization, quality of service to the public, and technical advancements to extend and improve domestic utilization of radio facilities; prepares exhibits and furnishes expert testimony at hearings; investigates complaints relating to the adequacy of public radio services; and maintains adequate current records of all outstanding authorizations and availability of domestic radio service for the public.

(d) Rate Branch, which is responsible for conducting engineering investigations and studies and furnishing engineering advice, assistance, and recommendations in connection with rates, charges, and related regulations and practices of common carriers furnishing domestic and foreign telephone and telegraph services by wire, ocean cable, and radio (fixed and mobile), including rate structure considerations; contracts and agreements; depreciation practices, rates and reserve requirements; inventories, continuing property records and original cost determinations; cost analyses and allocations; separation methods and procedures; operating results and traffic analyses; and preparation and presentation of technical testimony and exhibits at formal hearings.

(e) Field Offices, which conduct field engineering investigations and studies, and collect, analyze, and summarize information relating to common carriers furnishing domestic and foreign communication services by wire, ocean cable, and radio. Common carrier field offices are located at:

Room 604, 90 Church Street, New York 7, N. Y.

Room 515, First National Bank Building, Atlanta 3, Ga.

Room 316, U. S. Customhouse, 555 Battery Street, San Francisco 26, Calif.

SEC. 0.29 *Field Engineering and Monitoring Division.* The Field Engineering and Monitoring Division directs the activities and formulates policies and procedures for all the Commission's engineering offices, primary monitoring stations and secondary monitoring stations. The addresses of these offices are to be found in section 0.40. The Division is divided into the following branches:

(a) Administrative Branch, which is responsible for administrative statistical and clerical duties such as workload statistical reports, personnel records and reports, service functions, distribution and mailing, maintenance and records.

(b) Inspection and Operator Examination Branch, which directs all engineering activities in connection with the inspection of radio equipment on board United States and foreign passenger and cargo vessels, land radio stations, including aircraft; supervises the conduct of examinations, grading and issuance of commercial radio operators' licenses; conducts and grades examinations and issues licenses for commercial radio operators for the Washington district at Room 2113, Temporary L Bldg., supervises the grading of amateur radio operator examinations submitted by all field offices; reviews inspection reports and citations; designs, constructs and distributes code tapes to all field offices and maintains records of inspections, citations, and operator examinations.

(c) Monitoring Branch, which provides surveillance of the radio spectrum to insure compliance with treaties, the Communications Act, and Commission standards in operations of radiotelegraph and radiotelephone circuits of all types; maintains complete case records of illegal stations including locations, calls, frequencies, technical characteristics and other significant information, and prepares and presents evidence on illegal operation or other violations in criminal prosecutions.

(d) Technical Operations Branch, which is responsible for all technical equipment and plant activities of primary and secondary monitoring stations, investigative units, district field offices, field suboffices, ship offices and mobile laboratories; conducts special technical investigations, field intensity surveys, field intensity recordings; gathers technical data to substantiate proposed rules and decisions of the Commission; studies the needs for new apparatus which may be required for field use for direction finding, monitoring, frequency measurement, radio station inspection and designs and/or writes specifications for manufacturing of such equipment by commercial concerns.

SEC. 0.30 *Laboratory Division.* The Laboratory Division is responsible for the development, investigation and completion of a variety of field studies, surveys and tests, resulting in the accumulation of engineering data or statistics in any of the broad fields of the communications art; designs and assembles apparatus for special tests and studies; determines capabilities of newly developed equipment and develops, designs, and constructs equipment for use in connection with field and monitoring activities of the Commission; and makes recommendations concerning type approval of diathermy equipment and other types of equipment. It is located near Laurel, Maryland, but all inquiries regarding the division should be addressed to the Secretary of the Commission.

SEC. 0.31 *Technical Information Division.* The Technical Information Division is composed of a Propagation Expert and Consultant, Information Utilization Branch, Information Projects Branch, and Information Analysis Branch. This Division is responsible for the analysis, coordination and dissemination of information relating to the scientific and advanced engineering phases of communications. It acts as an operational research group and technical consultant to the Commission and to the other divisions of the Bureau of Engineering.

SEC. 0.32 *Frequency Allocation and Treaty Division.* The Frequency Allocation and Treaty Division is divided as follows:

(a) Frequency Utilization and Requirements Branch, which studies the utilization of frequencies by the several radio services to establish their allocation requirements; keeps informed of the state of the radio art as it pertains to the use of frequencies in all parts of the radio spectrum, proposing adjustments in the domestic table of frequency allocations when necessary; studies other allocation problems involving two or more services, makes appropriate recommendations relative thereto.

(b) Interdepartment Radio Advisory Committee Branch, which makes certain engineering studies and effects coordination of frequency assignments by the IRAC[1] and the Commission. It includes the IRAC Secretariat which maintains the file of applications by government agencies and performs all secretarial functions for the IRAC, and maintains the official IRAC Station List, which shows all assignments made to government stations. It also includes the Washington Provisional Frequency Board Liaison Committee Secretariat, which maintains the secretariat of the WPFBLC[2]; furnishes information as to United States circuit requirements to the United States representative to the Provisional Frequency Board[4] and furnishes various reports and technical studies for use by the WPFBLC and the United States representative to the PFB.

(c) Treaty Branch, which conducts such studies and coordination as are required to insure consistency of Commission rules, regulations and other actions with international regulations to which the United States is signatory; prepares and forwards correspondence involving Inter-American Radio Office notifications, North American Regional Broadcasting Agreement material, and material relating to other conferences involving specific radio services; is responsible for engineering recommendations relevant to the preparation and determination of international policy relating to definitions, designations of emissions, harmonic and parasitic emissions, frequency tolerances and general symbols and abbreviations, procedure for interference cases and infraction reports, call sign formation and allocation, provisions relating to the organization and functioning of the CCIR and general provisions and restrictions relating to various radio services.

(d) Frequency Registration and Notification Branch, which maintains the Commission's Master Frequency Record of assignments made; notifies United States frequency assignments to the Bureau of the International Telecommunication Union[5]; plans and arranges for the execution of the transition required

[1] The Interdepartment Radio Advisory Committee is composed of representatives of various government agencies which use radio in their operation. It makes recommendations to the President with respect to the assignment of frequencies to all Federal Government radio stations. (See sec. 305 of the Communications Act.)

[2] The Washington Provisional Frequency Board Liaison Committee functions as a liaison organization between the Provisional Frequency Board at Geneva and parties in the United States with an interest in the activities of the PFB.

[4] The Provisional Frequency Board is established under a resolution adopted by the International Radio Conference (Atlantic City, 1947) to prepare an engineered draft International Frequency List, necessary in order to implement the Atlantic City table of frequency allocations.

[5] The Bureau acts as the Secretariat for the International Telecommunications Union, an organization of countries which are parties to the International Telecommunications Convention (Madrid, 1932). The Bureau maintains the master list of frequency registrations, publishes documents relating to telecommunications, and receives and disseminates information and notifications relating to telecommunications.

to maintain the Commission authorizations and its Master Frequency Record (with respect to frequency, call letters, power, emission, frequency tolerance, etc.) in a form not in conflict with international regulations; plans and develops such files as are necessary for the rapid and efficient licensing of radio stations. After the International Frequency Registration Board[*] starts to function this Branch will conduct studies of the radio spectrum occupancy for the purpose of obtaining for United States non-government and government users, wherever possible, registration dates (as distinguished from notification dates), thereby assuring protection from harmful interference under the Atlantic City Radio Regulations, rather than a "priority" as provided under the Cairo General Radio Regulations.

(e) Conference Information Service Branch, which maintains and distributes up-to-date general information regarding all international radio conferences, in which the Commission has a direct interest, to the Commission and its staff; attends preparatory meetings and international conferences, preparing summaries and reports for use of the Commission; maintains a catalogued, authentic library of radio treaty material and documents; makes technical translations of foreign and international correspondence and publications; and organizes training of foreign telecommunications representatives sent to Washington in accordance with Part 65 of the Commission's rules (47 CFR Part 65).

SEC. 0.33 *Radio Operator and Amateur Division.* The Radio Operator and Amateur Division is divided into the following branches:

(a) Radio Operator Branch, which is concerned with the initiation and coordination of engineering recommendations regarding changes in rules, regulations and policies governing the qualifications, duties or requirements of all radio operators other than amateur; assists in preparing releases and instructions in accordance with rules, regulations and policies so established; prepares written examinations for such radio operator licenses and prepares Study Guides to aid persons in preparing for those examinations; considers applications for radio operator licenses referred by other divisions; reviews citations for violation of rules and regulations by radio operators; distributes and accounts for aircraft radiotelephone operator authorizations which are separately issued by Commission representatives or agents; interviews and confers with individuals, representatives of industry and labor groups, to consider and advise in matters affecting the broad phase of radio operator licensing.

(b) Amateur Radio Service Branch, which initiates and coordinates proposed rules, regulations and policies governing both amateur operators and amateur stations, and initiates and coordinates recommendations for revisions to international treaties and agreements; prepares written examinations and study guides for amateur operators; studies technical developments in the Amateur Service and promotes utilization of new techniques, equipment and methods of operation of amateur stations; studies and makes recommendations regarding applications for amateur operator and station licenses referred to it by the Bureau of the Secretary; makes recommendations with regard to method of handling violations of the amateur rules; prepares and coordinates recommendations covering special requests by amateur licensees; conducts special engineering studies and interviews and confers with individual inquirers and representatives of amateur organizations advising them on various phases of the Amateur Radio Service.

(c) Citizens Radio Service Branch, which reviews and reports on all applications to construct or modify citizens radio stations and prepares and presents engineering testimony and exhibits at hearings; initiates recommendations regarding rules and regulations; studies and coordinates the activities of citizens radio stations and formulates recommendations for technical engineering standards; fosters the development of new techniques and issues type approval for radio transmitters; initiates recommendations involving general policies regarding citizens radio services, assignment of frequencies to the various classes of citizens radio stations and institution of rule making procedures; reviews citations for violations of rules and regulations; prepares releases and instructions relating to Citizens Radio Service; conducts special studies, interviews and confers with individuals, representatives of industry and citizens groups to consider and advise on various phases of the Citizens Radio Service.

BUREAU OF ACCOUNTING

SEC. 0.51 *Chief Accountant.* (a) The Chief Accountant as head of the Bureau of Accounting supervises all Commission activities concerning accounting matters. The following units are included in the Bureau of Accounting:

(1) Accounting Regulations Division.
(2) Broadcast Division.
(3) Field Division.
(4) Rates Division.
(5) Economics and Statistics Division.

SEC. 0.52 *Accounting Regulations Division.* The Accounting Regulations Division is divided into the following branches:

(a) Development and Compliance Branch, which is responsible for the accounting activities under sections 215, 219, 220, and 221 of the Communications Act of 1934, as amended, and other related sections which pertain to the formulation, amendment and interpretation of accounting rules and regulations, the revision of annual and other report forms, the classification of carriers, research with respect to accounting principles; and review of annual and other reports filed by carriers to ascertain whether carriers are complying with accounting instructions.

(b) Original Cost and Depreciation Branch, which is responsible for the accounting activities under sections 213, 219, 220 (b), and 221 of the Communications Act of 1934, as amended, and other related sections which pertain to the original cost requirements to be applied to property of communications carriers; classification of investment accounts and the property of carriers; prescription of classes of property which are depreciable, non-depreciable or amortizable; prescription of depreciation and amortization rates; the maintenance of continuing property records by carriers; all matters involving plant accounting; and matters relating to the accounting under pension plans adopted by carriers.

SEC. 0.53 *Broadcast Division.* The Broadcast Division is divided into the following branches:

(a) Applications Branch, which reviews and makes recommendations with respect to applications in the broadcast services, except those for renewal of licenses; analyzes and interprets financial statements and accounts to determine if applicants and licensees are financially qualified to carry out proposals for new facilities, modification of existing facilities, purchase of existing facilities, and changes in ownership or control; plans and conducts field investigations of the accounts and records of broadcast applicants and licensees.

(b) Renewal and Annual Reports Branch, which is responsible for the analysis of annual financial reports of all broadcast stations and networks to ascertain whether their operation complies with Commission financial standards; investigates cases of suspected fraud or misrepresentation, and suspected unlawful monopolies; examines broadcast license renewal applications and prepares recommendations thereon; and designs and revises the financial data portions of annual report and application renewal forms and instructions pertaining thereto.

(c) Hearing Branch, which is responsible for the accounting phases of broadcast applications and cases designated for hearing, including determination of issues, study of petitions, and preparation of accounting testimony and exhibits.

SEC. 0.54 *Field Division.* The Field Division is responsible for the conduct of continuing investigations, audits and examinations of the accounts and records of communication carriers, holding companies and affiliated manufacturing, supply, servicing and management companies which are subject to the jurisdiction of the Federal Communications Commission as provided for under the Communications Act of 1934, as amended.

SEC. 0.55 *Location of Accounting Field Offices.* The field offices of the Accounting Bureau are located at:

90 Church Street, Room 624, Federal Office Building, New York 7, N. Y.

815 Oliver Street, Room 407, Old Customshouse, St. Louis 1, Mo.

Room 515 First National Bank Building, Atlanta 3, Ga.

316 Customhouse, 555 Battery Street, San Francisco 26, California.

SEC. 0.56 *Rates Division.* The Rates Division is divided into the following branches:

(a) Tariffs and Telephone Rates Branch, which handles matters relating to the construction, filing and posting of schedules of charges for interstate and foreign communication services; handles telephone rate, service, and traffic matters; reports rate changes to the Commission and recommends action with respect to charges and practices of telephone carriers; institutes telephone traffic surveys; participates in recommending disposition of applications for cable landing licenses, and for radiotelephone licenses; is responsible for the rate and economic aspects and for Bureau coordination of accounting aspects presented by applications for the extension, supplementation and discontinuance, reduction or impairment of telephone service and for acquisitions or consolidations of telephone properties; participates in handling the technical phases of treaties and agreements with foreign administrations and carriers relating to telephone matters; and maintains a public reference room in which schedules of charges for interstate and foreign communication service are available for public inspection. (The public reference room is located in Room 1747, Temporary Building T, 14th Street and Constitution Avenue, N. W., Washington, D. C.)

(b) Telegraph Rates Branch, which handles telegraph rate, service, and traffic matters; reports rate changes to the Commission and recommends action with respect to charges and practices of telegraph carriers; institutes telegraph traffic survey; processes applications for authority to discontinue, reduce, or impair telegraph service and is responsible for the rate and economic aspects and for Bureau coordination of accounting aspects presented by applications for extension and supplementation of telegraph lines and for the acquisition or consolidation of telegraph properties; participates in recommending disposition of applications for cable landing licenses, and for radiotelegraph licenses; participates in handling the technical phases of treaties and agreements with foreign administrations and carriers relating to telegraph matters; and effects settlements of traffic balances due foreign telecommunication administrations and companies for telegraph messages transmitted between ships of American registry and foreign coastal stations and for such messages transmitted from offices in the United States to all ships through foreign coastal stations.

SEC. 0.57 *Economics and Statistics Division.* The Economics and Statistics Division is divided into the following branches:

(a) Common Carrier Branch, which receives, examines, and prepares published summaries of annual, monthly and special reports filed by communication carriers and holding companies; analyzes and interprets economic data concerning the common carrier communication industry, analyzes trends in volume of communication traffic, forecasts growth in the industry; studies public needs for communication services and their availability in particular geographic areas; and maintains a public reference room in which public reports filed with the Commission by companies subject to its jurisdiction are available for public inspection. (The public reference room is located in Room 1742, Temporary Building T, 14th Street and Constitution Avenue, N. W., Washington, D. C.)

(b) Broadcast Branch, which receives, examines, and prepares published summaries of annual and special reports filed by broadcast stations and networks; analyzes and interprets economic data concerning the broadcast industry; tabulates data for special analyses required by the Commission in connection with hearings and other proceedings; and studies economic trends in new uses of radio in broadcasting.

(c) Special Studies Branch, which compiles and analyzes economic and statistical data on safety and miscellaneous uses of radio; prepares special analyses required by the Commission in connection with hearings and other proceedings; studies economic trends in new uses of radio for safety and miscellaneous purposes; and makes special statistical and economic studies as assigned.

BUREAU OF LAW

SEC. 0.71 *General Counsel.* The General Counsel as head of the Bureau of Law is responsible for all Commission activities relating to legal matters. In the Bureau of Law are the following units:

(a) Office of General Counsel.
(b) Litigation and Administration Division.
(c) Broadcast Division.
(d) Common Carrier Division.
(e) Safety and Special Services Division.

SEC. 0.72 *Office of General Counsel.* In the General Counsel's office are the following sections:

(a) Technical Section, which serves as professional consultant to the Commission regarding patents, patent licenses, and related intangible holdings of telephone, telegraph, broadcasting, and cable communications companies.

(b) Administrative Section, which is responsible for the administrative control and coordination of work assignments, production records, and files of the Bureau of Law.

SEC. 0.73 *Litigation and Administration Division.* The Litigation and Administration Division is divided into the following branches:

(a) Litigation and Legislation Branch, which conducts litigation in which the Commission is a party; reviews proposed Commission decisions on petitions for rehearing; prepares drafts of proposed legislation; studies and prepares opinions and comments upon proposed legislation referred to Commission for study; and performs research and study in connection with preparation of testimony for congressional committees.

(b) Administration Branch, which has special assignments of a legal character in interpreting the Communications Act and Commission regulations, preparing opinions and recommendations thereon; examines network contracts filed by stations with the Commission to determine if they comply with the chain network regulations; and handles legal problems in connection with all matters relating to internal management.

(c) Field Branch, which supervises the activities of the field offices of the Bureau of Law. The field offices advise the field offices of the other bureaus concerning legal matters; conduct investigations; and represent the Bureau of Law in the field. These offices are located at:

90 Church Street, New York 7, N. Y.

100 McAllister Street, San Francisco 2, Calif.

SEC. 0.74 *Broadcast Division.* The Broadcast Division is divided into the following branches:

(a) New and Changed Facilities Branch (Standard), which reviews and prepares reports, legal opinions, and recommendations with respect to applications for new standard broadcast stations and changes in the facilities of existing stations; and represents the Commission at hearings affecting such applications and prepares reports thereon.

(b) New and Changed Facilities Branch (FM), which reviews and prepares reports, legal opinions, and recommendations with respect to applications for FM facilities and changes in facilities of existing stations; and represents the Commission at hearings affecting such applications and prepares reports thereon.

(c) Television Broadcast Branch, which reviews and prepares reports, legal opinions, and recommendations with respect to applications for television facilities and changes in facilities of existing stations; and represents the Commission at hearings affecting such applications and prepares reports thereon.

(d) Renewals and Revocations Branch, which reviews and prepares legal opinions, reports, and recommendations with respect to renewal applications for radio station licenses in the broadcast services and proceedings looking toward the revocation of radio station licenses in the broadcast service; investigates complaints; and represents the Commission at hearings affecting such renewal and revocation matters and prepares reports thereon.

(e) Transfers Branch, which reviews and prepares legal opinions, reports, and recommendations with respect to applications for assignment of license or transfer of control of broadcast stations; and represents the Commission at hearings involving such matters and prepares reports thereon.

(f) Review Branch, which reviews the records of hearings, proposed findings and conclusions, decisions of presiding officers and such additional material as comprise the records of a proceeding; prepares review reports and, in accordance with Commission directives, its decisions; and is responsible for coordinating all hearings and prehearing conferences, and for scheduling the times and places for such hearings and conferences.

(g) Motions and Rehearings Branch, which reviews and prepares legal opinions, reports recommendations with respect to motions and petitions in cases designated for formal hearing in broadcast matters and reviews, prepares reports, legal opinions, and recommendations with respect to petitions for rehearing or reconsideration of actions taken by the Commission and prepares rules and regulations concerning the broadcast services.

SEC. 0.75 *Common Carrier Division.* The Common Carrier Division is divided into the following branches:

(a) Rate Branch, which is responsible for all legal matters relating to rate regulation of common carriers subject to the Communications Act; conducts investigations and hearings relating to rate matters; reviews and makes recommendations with respect to formal and informal complaints with regard to rates and charges; prepares Commission reports, orders, rules and regulations affecting rates; makes studies of rate phases of all common carrier applications; and handles the legal phases of tariff problems and accounting matters affecting rates.

(b) International Branch, which is responsible for all legal matters other than rates relating to wire, cable, and radio communication service between the United States and all foreign countries; reviews and makes recommendations with respect to applications relating to international radio and cable circuits; makes studies of the legal phases of problems relating to international merger, international telecommunications treaties; the distribution of international telegraph traffic, and other matters affecting Commission policy in the international field; makes preparations for international telecommunications conferences; analyzes foreign traffic contracts and concessions; drafts instruments of authorization and cable landing licenses; conducts investigations and hearings affecting international services; and prepares Commission reports, orders, rules and regulations relating to such services.

(c) Domestic Wire Branch, which is responsible for all legal matters, other than rates, relating to regulation of wire telephone and wire telegraph services within the United States; conducts investigations and hearings affecting such services and prepares Commission reports, orders, rules and regulations relating to such services, is responsible for the legal aspects presented by applications for extensions and discontinuance of telephone and telegraph service, applications for merger and consolidation of domestic telephone and telegraph companies, applications for interlocking directorates, and petitions for classification of carriers; handles formal and informal complaints relating to domestic telephone and telegraph service.

(d) Domestic Radio Branch, which is responsible for legal matters, other than rates, relating to all common carrier radiotelephone and radiotelegraph services in the United States (including Alaska) and experimental radio services looking toward common carrier operations, including analysis and review of applications for radio relay systems, common carrier mobile services, domestic fixed public, coastal and marine relay services, rural telephone and short distance toll radio services, and all common carrier aspects arising in the ship, emergency, and miscellaneous services; conducts investigations and hearings affect-

ing such services; and prepares Commission reports, orders, rules, and regulations relating to such services.

SEC. 0.76 *Safety and Special Services Division.* The Safety and Special Services Division is divided into the following branches:

(a) Aviation and General Mobile Branch, which reviews and prepares legal opinions, reports, and recommendations (other than those involving common carrier operations) with respect to applications for radio station authorizations in the aviation service, both in the established and experimental stages and in the experimental general mobile service; reviews and makes recommendations with respect to formal and informal petitions and complaints; conducts investigations and hearings with respect to these services; drafts proposed legislative amendments and prepares Commission reports, orders, rules, and regulations affecting these services.

(b) Marine, Operator, and Amateur Branch, which is responsible for all legal matters (other than those involving common carrier operations) relating to radio installations and operations aboard ships, whether voluntary or required by Title III, Part II, of the Communications Act of 1934, as amended, and the International Convention for the Safety of Life at Sea, and to land radio installations communicating with or sending signals to radio stations aboard ship, both in the experimental and established stages; to radio installations and operations in the Amateur Radio Service; and to all licensed radio operators, both amateur and nonamateur, whether performing service aboard ships, aircraft, or on land, participates in the enforcement of the requirements of the International Convention for the Safety of Life at Sea; reviews and makes recommendations to the Commission with respect to formal and informal petitions and complaints in marine, amateur, and operator matters; conducts investigations and hearings relating to marine, amateur, and operator matters; and as affecting such matters prepares Commission reports, orders, rules, and regulations.

(c) Emergency, Experimental, and Miscellaneous Branch, which reviews and prepares legal opinions, reports, and recommendations with respect to applications for radio station authorizations (other than those involving or looking toward common carrier operations) in the Emergency Services (police, fire, forestry, and special emergency stations), the Miscellaneous Services (geological, mobile, press, relay press, motion picture, and provisional radio stations), the Utilities Radio Service, the Railroad Service, the Experimental Service; conducts investigations and hearings affecting these services; reviews and makes recommendations with respect to formal and informal complaints; and prepares Commission reports, orders, rules, and regulations affecting these services.

BUREAU OF ADMINISTRATION

SEC. 0.81 *Bureau of Administration.* Under the supervision of the Executive Officer, reviews in cooperation with Bureau heads the programs and procedures of the Commission, and plans, directs, coordinates and manages Commission activities relating to personnel, budget, and planning. In the Bureau of Administration there are the following divisions:

(a) Budget and Fiscal Division, under the supervision of the Budget Officer, is responsible for all budget and finance activities of the Commission, and has the following branches: Budget Branch and Fiscal Branch.

(b) Personnel Division, under the supervision of the Personnel Officer, is responsible for all personnel matters in the Commission, and has the following branches: Classification Branch and Employment, Placement and Training Branch.

(c) Planning Division, under the supervision of the Planning Officer, is responsible for the organizational and procedural aspects of the Commission's operation.

HEARING DIVISION

SEC. 0.91 *Hearing Division.* Under the supervision of the Commission, is composed of presiding officers who preside at hearings as directed by the Commission and in accordance with the provisions of the Administrative Procedure Act; who prepare recommended and initial decisions; and who perform such additional duties as are not inconsistent with their duties and responsibilities as presiding officers.

OFFICE OF INFORMATION

SEC. 0.96 *The Office of Information.* Headed by the Director, is responsible for press and public relations including the preparation and distribution of news releases, periodic reports and general information relating to Commission activities.

STATEMENT OF DELEGATIONS OF AUTHORITY[1]

GENERAL

SECTION 0.101 *Authority for delegation.* (a) Under the authority of section 5 of the Communications Act that portion of the work, business, or functions of the Federal Communications Commission hereinafter specified is assigned and referred to the respective Board of Commissioners, individual Commissioners, and employees of the Commission, hereinafter designated, for action thereon in accordance with the Communications Act of 1934, as amended, rules and regulations, orders and established policies of the Commission.

(b) Any board or individuals to whom authority is delegated shall have power and authority to consider and determine, order, certify, report, or otherwise act as to any of said work, business, or functions so assigned or referred to it, and in respect thereof shall have all the jurisdiction and power conferred by law upon the Commission, and be subject to the same duties and obligations. Any order, decision, or report made or other action taken in respect to any matters assigned or referred shall have the same force, and effect, and may be made, evidenced and enforced in the same manner as if made or taken by the Commission.

SEC. 0.102 *Reconsideration with regard to action taken under delegation of authority.* (a) Any person affected by an order, decision, or report or other action taken or made under any delegation of authority made herein may file a petition for reconsideration within 20 days after public notice is given of the action complained of, and every such petition shall be passed upon by the Commission. Appeals from action of the Motions Commissioner must be taken within 2 days in accordance with § 1.745 of the rules and regulations (47 CFR 1.745).

(b) Within 20 days after public notice has been given of any action taken or made under any delegation of authority; either the Commission or the person making or taking such action may set it aside on their own motion.

SEC. 0.105 *Description of Board.* (a) Whenever the Chairman or Acting Chairman of the Commission determines that a quorum of the Commission is not present or able to act, he may convene a Board of Commissioners.

(b) The Board shall be composed of all Commissioners present and able to act.

SEC. 0.106 *Authority delegated.* (a) Such Board of Commissioners is authorized to act with respect to all work, business, or functions of the Federal Communications Commission arising under the Communications Act of 1934, as amended, except that portion of the work, business, or functions of the Federal Communications Commission specifically delegated to individual Commissioners or employees. This authority shall not extend to the institution of investigations upon the Commission's own motion, or to rendering a final decision in such matters, or without consent of the parties thereto, to final action in contested proceedings involving the taking of testimony at public hearings, or to investigations specifically required by the Communications Act of 1934, as amended.

(b) Any actions taken by the Board shall be recorded in the same manner as action taken by the entire Commission.

SEC. 0.107 *Delegation to Telegraph Committee.* (a) A Telegraph Committee composed of three Commissioners, designated as such by the Commission, will hear and determine, order, certify, report or otherwise act upon the matters set forth in paragraph (b);

(b) Except as otherwise ordered by the Commission, the Telegraph Committee, or a majority thereof, shall act upon the following matters:

(1) All applications or requests under section 214 of the Communications Act of 1934, as amended, for certificates or authorizations for the construction, acquisition, operation or extension of telegraph lines, for temporary or emergency telegraph service, for supplementing existing telegraph facilities, or for discontinuance, reduction or impairment of telegraph service, except those covered by sections 0.142 (i) and 0.147 (a) of this Statement.

[1] This statement is issued pursuant to sec. 3 (a) (1) of the Administrative Procedure Act.

(c) Any action taken by the Telegraph Committee shall be recorded each week in writing and filed in the official minutes of the Commission.

SEC. 0.108 *Delegation to Telephone Committee.* (a) A Telephone Committee, composed of three Commissioners, designated as such by the Commission, will hear and determine, order, certify, report or otherwise act upon the matters set forth in paragraph (b);

(b) Except as otherwise ordered by the Commission, the Telephone Committee, or a majority thereof, shall act upon the following matters:

(1) All applications or requests under section 214 of the Communications Act of 1934, as amended, for certificates or authorizations for the construction, acquisition, operation or extension of telephone lines, for temporary or emergency telephone service, for supplementing existing telephone facilities, or for discontinuance, reduction or impairment of telephone service, except those covered by section 0.142 (i).

DELEGATION TO MOTIONS COMMISSIONER

SEC. 0.111 *Designation of Motions Commissioner.* A Motions Commissioner will be named from time to time by the Commission to hear and determine, order, certify, report or otherwise act upon the matters set forth in section 0.112. In the absence of the Motions Commissioner or his inability to act, the Chairman or the Acting Chairman may designate for a specified period another Commissioner to act as Motions Commissioner. During such period as all Commissioners may be absent from Washington, or otherwise unable to act, the Commission may designate for a specified period a member of the staff to exercise the authority delegated by section 0.112.

SEC. 0.112 *Authority delegated.* Except as otherwise ordered by the Commission, the Motions Commissioner shall act upon the following matters:

(a) The designation of hearing officers to preside at hearings and the time and place of such hearings.

(b) All petitions or motions to reinstate applications theretofore dismissed without prejudice following the filing by applicant of a petition to amend without submitting simultaneously the said amendment, pursuant to § 1.365 (c) (47 CFR 1.365 (c)).

(c) All motions, petitions, or matters in cases previously designated for hearing by the Commission, including motions for further hearing and for consolidation and severance, excepting motions and petitions requesting final disposition of a case on its merits, those having the nature of an appeal to the Commission, and those requesting change or modification of a final order made by the Commission.[2] However, when one or more members of the Commission have been designated to preside at a hearing, all such motions, petitions or matters in such case or cases so designated for hearing, shall thereafter be handled by him or them, and such Commissioner or Commissioners shall be authorized and empowered to fix the time and place such hearings shall be held. In the absence of the individual Commissioner designated to preside at a hearing, or his inability to act or pass upon such preliminary matters, they shall be referred to the Motions Commissioner.

(d) All applications or requests for special temporary standard broadcast authorizations except those covered by sections 0.121 and 0.144, and these applications shall be first referred to the Bureaus of Law and Engineering for recommendation thereon, and then referred to the Motions Commissioner.

(e) Petitions requesting the dismissal of other pending petitions filed by the same party.

(f) Petitions containing requests, all of which have become moot.

SEC. 0.113 *Record of action taken.* Any action taken by the Motions Commissioner shall be recorded each week in writing and filed in the official minutes of the Commission.

DELEGATION TO CHIEF ENGINEER

SEC. 0.121 *Authority delegated to Chief Engineer.* The Chief Engineer or, in his absence, the Acting Chief Engineer of the Commission, is designated to act upon applications, requests, and other matters as follows:

(a) For temporary operation without specified items of equipment, or with temporary, substitute, or auxiliary equipment as specified below:

(1) For operation without an approved frequency monitor;

(2) For operation without an approved modulation monitor;

(3) For operation without thermometer in automatic temperature control chamber;

(4) For operation without antenna ammeter, plate voltmeter, or plate ammeter;

(5) For operation with substitute antenna ammeter, plate voltmeter, or plate ammeter;

(6) For operation with temporary antenna system;

(7) For operation with auxiliary transmitter as main transmitter.

(b) For operation with new or modified equipment pending repair of existing equipment, or pending receipt and action upon a formal application.

(c) For new or modified equipment or antenna system where formal application is not required.

(d) For specifications for painting and lighting antenna towers.

(e) For relocation of transmitter at the address specified in the outstanding authorization.

(f) For operation with reduced power or time under §§ 3.57, 3.71, and 3.261 of the rules and regulations (47 CFR 3.57, 3.71, 3.261).

(g) For operation of all classes of broadcast stations except standard broadcast stations on a temporary basis for periods not to exceed the normal license period with reduced power, or to make other changes in operation or authorized equipment for technical reasons.

(h) For approval of types of equipment as to compliance with outstanding rules and standards.

(i) For equipment and program tests, or extensions thereof, except those falling under section 0.141.

(j) For extensions of time within which to comply with technical requirements specified in authorizations, orders, and rules or releases of the Commission.

(k) Representations of compliance with technical requirements specified in authorizations, orders, rules or releases of the Commission (except formal applications).

(l) For operation with licensed, new, or modified equipment at a temporary location with a temporary antenna system in case of an emergency when, due to causes beyond the control of the licensee, it becomes impossible to continue operating at the licensed location.

(m) For special operation necessary to facilitate equipment, program, and service tests or to comply with technical requirements specified in authorizations, orders, rules or releases of the Commission.

(n) For special temporary authority in emergency cases, at times outside of the regular office hours of the Commission and requiring immediate action during those hours.[3]

(o) For operation by broadcast station licensees during daytime for specified periods with their nighttime facilities in order to check measurements and operation which, as a practical matter, may not be accomplished during nighttime.

(p) For assignment from time to time of the frequency or frequencies, power, emission, and type of equipment to be employed by any Experimental or Developmental radio station, so as to provide the maximum results from the experimentation with the minimum of interference.

(q) For addition, modification, or coordination of programs of research or experimentation of any experimental or developmental radio station, so as to provide the maximum results from the experimentation which can be reasonably expected of the licensee or licensees.

(r) For special temporary authority to provide an interim FM broadcast service provided such requests are from FM conditional grantees or holders of FM construction permits.

SEC. 0.122 *Action with respect to International Broadcasting.* The Chief Engineer, or, in his absence, the Acting Chief Engineer, acting in coordination with the Commission's representative on the Interdepartment Committee for International Radio Broadcasting Facilities, is authorized to take the following action:

(a) To issue special service authorizations for the use of frequencies assigned to international broadcast service to international broadcast stations

[2] For the procedure followed in connection with Motions Docket Matters see §§ 1.741 to 1.745 (47 CFR 1.741–1.745).

[3] By action of the Commission November 21, 1946, the Engineer in Charge at Honolulu is authorized to issue Special Temporary Authorizations for a term of 30 days to cover the operation of government surplus aircraft from Hawaii to the United States.

and to those stations which are being used by the State Department for international broadcasting and for multiple-address press and facsimile services.

(b) To prescribe and to change from time to time the hours during which the frequencies assigned by these special service authorizations may be used.

(c) To prescribe and to change from time to time the hours during which each international broadcast station may use the frequencies licensed to it.

(d) To issue a temporary authorization permitting a licensee of an international broadcast station temporarily to substitute another frequency for a frequency specified in the applicant's regular license, where operation on such regularly licensed frequency is subject to serious interference. In authorizing any such substitution of frequencies the Chief Engineer, or, in his absence, the Acting Chief Engineer, shall, where feasible, authorize the use of a frequency in the same megacycle band as the frequency specified in the regular license.

SEC. 0.123 *Record of actions taken.* Action on formal applications taken by the Chief Engineer, or, in his absence, by the Acting Chief Engineer, in accordance with sections 0.121 and 0.122 shall be recorded each week in writing and filed in the official minutes of the Commission.

DELEGATION TO CHIEF ACCOUNTANT

SEC. 0.131 *Authority delegated to Chief Accountant.* The Chief Accountant, or, in his absence, the Acting Chief Accountant, of the Commission is designated to act upon:

(a) Administration, interpretation, and application of regulations promulgated by the Commission pursuant to section 220 of the Communications Act, relating to accounts, records, and memoranda to be kept by carriers subject to the jurisdiction of the Commission.

(b) Applications for extensions of time in which to file annual, monthly, and special reports required by the Commission pursuant to sections 211 and 219 of the Communications Act.

(c) Administration, interpretation, and application of orders or rules of practice and procedure promulgated by the Commission relating to financial and statistical data of stations in the broadcast service and broadcast networks or chains, including applications for extensions of time in which to file financial and statistical statements and reports.

(d) All matters arising in connection with the administration of tariff regulations promulgated by the Commission pursuant to section 203 of the Communications Act, and in connection with the administration of this section insofar as it relates to the modification of requirements thereof or made pursuant thereto, as authorized in particular instances by subsection (b) thereof, and to the rejection of tariffs as authorized by subsection (d) thereof.

SEC. 0.132 *Authority to issue orders; record of actions taken.* Where appropriate, in acting upon the matters referred to in § 1.131 (47 CFR 1.131), the Chief Accountant, or, in his absence, the Acting Chief Accountant, is authorized to make orders in letter form for the signature of the Secretary of the Commission. Action taken on formal applications in accordance with section 0.131 shall be recorded each week in writing and filed in the official minutes of the Commission.

DELEGATION TO SECRETARY

SEC. 0.141 *Authority delegated to Secretary.* The Secretary of the Commission, or, in his absence, the Acting Secretary of the Commission, is designated to act upon the following matters:

(a) Applications for amateur station licenses.

(b) Applications for new, or modified, ship station licenses, or for special temporary authority to operate ship stations[1] except applications which request—

(1) Authority to operate on a frequency or frequencies which are not currently available in accordance with the frequency allocation plan of the Commission;

(2) Authority to communicate with aircraft stations;

(3) Authority to operate a life boat transmitter when no other transmitting equipment is to be authorized in the same license;

(4) Authority to use A–4 emission or special emission under the provisions of § 8.69 of the rules (47 CFR 8.69);

(5) Authority to operate transmitting equipment on a cable marker buoy pursuant to § 8.65 of the rules (47 CFR 865);

(6) Authority to communicate with amateur stations;

(7) Authority to operate for a period in excess of three months transmitting equipment which has not been approved by the Bureau of Engineering;

(8) A license or modification of license where the Bureau of Law or the Bureau of Engineering notifies the Secretary that the applicant is involved in any discrepancy, violation or hearing concerning any treaty, law, or regulation governing radio or wire communication;

(9) Authority to operate for a period in excess of three months a station where the applicant is a corporation controlled by another corporation;

(10) Authority to operate a ship telephone station open to public correspondence where a charge will be made by the ship station licensee for the service.

(c) Applications for new licenses, modification of licenses, special temporary authorizations for a period not to exceed 3 months, and consent to assignment of licenses for aircraft radio stations on board nonscheduled aircraft[2] where:

(1) The applicant requests only A–1, A–2, or A–3 emission or any combination thereof;

(2) The applicant requests frequencies currently available in accordance with the frequency allocation plan of the Commission;

(3) The equipment involved is listed among types of equipment stated by the Bureau of Engineering to be capable of meeting the pertinent requirements of the Commission's rules; or

(4) The applicant, if a corporation, is not controlled by another corporation.

(d) Applications by persons, who are already licensees, for new licenses, or modification of licenses and special temporary authorizations for a period not to exceed 3 months, for scheduled aircraft stations where:

(1) The applicant requests only frequencies in accordance with §§ 9.312, 9.321, 9.432 and 9.443 of the rules (47 CFR 9.312, 9.321, 9.432, 9.443);

(2) The applicant does not request authority to communicate with a station in any other service;

(3) The equipment involved is listed among types of equipment stated by the Bureau of Engineering to be capable of meeting the pertinent requirements of the Commission's rules; and

(e) Requests by licensees or permittees for cancellation of their station licenses, construction permits or other authorization except those stations which render a common carrier service or standard, FM, television, or international broadcast stations.

(f) Applications for renewal of amateur radio operator licenses or authorizations.

(g) Except for specific applications concerning which the Bureau of Engineering or the Bureau of Law shall notify the Secretary, applications for license or modification of license to cover construction permits, where the permittee has complied with all the terms of the construction permit and no additional authority not covered by the permit is requested, in the following categories of cases;

(1) All classes of stations in the Emergency Services;

(2) All classes of stations in the Aviation Services;

(3) All classes of stations in the Railroad Radio Service;

(4) All classes of stations in the Miscellaneous Services;

(5) All Class 1 Experimental Stations, and Class 2 Experimental Stations operating in established services;

(6) All classes of stations in the Public Coastal and Fixed Public Services in Alaska;

(7) All classes of stations in the Utility Radio Service.

(h) All applications for renewal of licenses, other than those for stations rendering a common carrier service (except those listed in subsection (7) below), where the renewal is in accordance with the terms of the previous license, or the sole difference is that the authority requested is less than that previously granted, in the following categories of cases:

(1) All classes of stations in the Emergency Services;

(2) All classes of stations in the Aviation Services;

(3) All classes of stations in the Railroad Radio Service;

(4) All classes of stations in the Miscellaneous Services, except provisional stations in the Intermittent Service;

(5) All classes of stations in the Utility Radio Service;

(6) All classes of stations in the Ship Service;

(7) Stations in the Alaskan coastal and Alaskan fixed public services.

(i) Applications for consent to assignment of licenses or for consent to transfer of control of remote pick-up or ST broadcast stations, when the Commission has on a prior date consented to a like assignment or transfer of control of the standard broadcast station with which the remote pick-up stations are affiliated.

(j) Except for specific applications concerning which the Bureau of Engineering or the Bureau of Law shall notify the Secretary, applications for extension of the expiration dates of construction permits and applications for extension of the period of equipment and service tests, in the following categories of cases:

(1) All classes of stations in the Emergency Services;

(2) All classes of stations in the Aviation Services;

(3) All classes of stations in the Railroad Radio Service;

(4) All classes of stations in the Miscellaneous Services;

(5) All classes of stations in the Public Coastal and Fixed Public Services in Alaska;

(6) All classes of stations in the Utility Radio Service.

(k) All applications for restricted radiotelephone permits for use by operators of itinerant aircraft radio stations.

(l) Applications for mobile stations (other than those rendering a common carrier service) in the Emergency Services, Miscellaneous Services, Railroad Service and Utility Radio Service where the applicant already holds licenses or construction permits for stations of the type applied for; provided, however, that such action shall be restricted to cases:

(1) Where there is no question as to the eligibility of the applicant;

(2) Where the applications request frequencies currently available to the particular applicant in accordance with the frequency allocation plan of the Commission.

(m) Requests for assignment of call letters to new radio stations and for changes in the call letters of existing stations.

(n) Applications for new or modified ship radar station licenses in the Ship Service or for special temporary authorization in the Ship Service to operate a ship radar station where: (1) equipment involved is listed among types of equipment stated by the Bureau of Engineering to be capable of meeting the pertinent requirements of the Commission's rules.

SEC. 0.142 *Authority delegated to Secretary upon securing approval of Bureau of Engineering.* The Secretary, or, in his absence, the Acting Secretary, is designated to act upon the following matters upon securing the approval of the Chief Engineer or his nominee, with the exception of applications for restricted radiotelephone permit for use by operators of itinerant aircraft radio stations.

(a) Formal applications for broadcast services as follows:

(1) For construction permit, modification of construction permit, and modification of license, involving only a change in equipment with an additional cost not in excess of $1,000;

(2) To install frequency control equipment;

(3) Relating to auxiliary equipment;

(4) For authority to determine operating power of broadcast stations by direct measurement of antenna power;

(5) For construction permit or modification of license involving relocation locally of a control point of transmitter site not involving any substantial change in service area.

(b) The following applications for commercial radio operator licenses:

(1) All applications for new licenses except where it appears that the applicant has been convicted of a crime for which the sentence imposed was more than 1 year imprisonment or a $500 fine;

(2) All applications for renewal and modified licenses except where it appears that the applicant has been convicted of a crime for which the sentence imposed is more than 1 year imprisonment or a $500 fine. This exception does not apply to those cases where the same crime or crimes have been disclosed in previous applications for operator license granted by the Commission.

(c) All applications for new or modified amateur radio operator licenses or authorizations.

(d) Applications for new ship station licenses, for modification of ship station licenses, and for special temporary authority to operate a ship station where these applications request authority to operate transmitting equipment on a cable marker buoy pursuant to § 8.65 of the rules (47 CFR 8.65).

(e) Applications for construction permit, modification of construction permit and modification of license which involve only a change in equipment, except applications involving stations in the broadcast services and except applications falling under section 0.141.

(f) All applications for new licenses, modifications of license, special temporary authorizations for a period not to exceed three months and consent to assignment of licenses for aircraft stations on board nonscheduled aircraft, except where the applications fall within the provisions of section 0.141, and where the applicant is not a corporation controlled by another corporation.

(g) Applications in any acceptable form filed at Commission Field Offices located in the Territory of Alaska for special temporary operator license authorization, in lieu of regular commercial radio operator license, when it is shown that there is a need for such an authorization for use in connection with the protection of life or property during an emergency period.

(h) Applications for new or modified ship radar station licenses in the Ship Service or for special temporary authorization in the Ship Service to operate a ship radar station except those falling under section 0.141 (n) of this Statement.

(i) Applications or requests under section 214 of the Communications Act for a certificate authorizing the construction, acquisition, operation or extension of lines, or for an authorization of temporary or emergency service, or the supplementing of existing facilities, where the total expenditure involved is less than $250,000; all applications or requests for modification of a certificate or authorization issued under section 214 of the Communications Act where such amendment or modification involves a total expenditure of less than $250,000; and applications and requests for authority to discontinue, reduce or impair telephone service filed pursuant to the provisions of §§ 63.63, 63.65, and 63.66 of the rules and regulations (47 CFR 63.63, 63.65, 63.66).

SEC. 0.143 *Authority delegated to Secretary upon securing approval of Bureau of Law.* The Secretary, or, in his absence, the Acting Secretary, is designated to act upon the following matters upon securing the approval of the General Counsel or his nominee:

(a) Broadcast service applications for modification of licenses involving only change of the name of the licensee, where ownership or control is not affected.

(b) Requests for inspection of records under the provisions of section 0.206.

(c) All requests for withdrawal of papers in accordance with § 1.768 (47 CFR 1.768).

(d) Applications filed by attorneys for admission to practice before the Commission.

(e) The execution of contracts or leases in the name of the Commission.

(f) Applications under section 212 of the Communications Act for authority to hold the position of officer or director of more than one carrier subject to the act.

(g) The extension of the time previously ordered by the Commission within which transfers of control or assignments of licenses be effectuated.

(h) Extensions of time within which briefs and comments may be filed with respect to proposed rule making.

SEC. 0.144 *Authority delegated to Secretary upon securing approval of the Bureaus of Law and Engineering.* The Secretary, or, in his absence the Acting Secretary, is designated to act upon the following matters upon receiving the approval of the General Counsel and Chief Engineer or their respective nominees:

(a) Applications for the utility, railroad, aviation, emergency, ship and miscellaneous services, and for State guard stations in the war emergency radio services, except those rendering a common carrier service and those falling under sections 0.141 and 0.142.

(b) Applications for Class 1 and Class 3 experimental stations and all applications for Class 2 experimental stations in established services and in the proposed General Mobile, Rural Radiotelephone, Industrial, and Citizens Services and Highway Maintenance and radar navigational aid stations, except (1) those falling under sections 0.121 and 0.141, and (2) those rendering or proposing to render a common carrier service.

[1] See sections 0.142, 0.144, and 0.145 for delegations of authority covering other applications in the Ship Service.

[2] See sections 0.142, 0.144, and 0.145 for delegations of authority covering other applications in the aviation services.

(c) All broadcast service applications as follows:

(1) For extensions of time within which to commence and complete construction;

(2) For authorization to rebroadcast when Commission authorization is required under Parts 3 and 4 of the Commission's rules and regulations (47 CFR Parts 3, 4);

(3) To withdraw authorizations for equipment and service or program tests where subsequent to the issuance of the original authorizations it appears that the terms of the construction permit have not been met.

(d) Applications or requests for emergency and renewal exemptions of ships, and initial exemptions of ships of less than 100 gross tons, pursuant to the provisions of section 352 (b) of the Communications Act and article 28 of the Safety Convention.

(e) Proposals by FM broadcast stations to deviate from time schedules.

(f) Applications and requests for waiver of rules, regulations, and orders of the Commission relating to the proper time for filing of renewals of Commercial and Amateur Radio Operator Licenses.

(g) Applications for new, renewal or modified commercial radio operator licenses except those falling under sections 0.141 and 0.142.

(h) Applications or requests for temporary operation by radio station licensees with a licensed operator of lesser grade than normally required or for waiver of other technical requirements for operators.

(i) Requests by licensees or permittees for cancellation of their station licenses, construction permits or other authorization covering standard, FM, or television broadcast stations.

(j) Applications and requests for waiver of §§ 3.30 (a) and 3.205 (a) of the Commission's rules and regulations (47 CFR 3.30 (a), 3.205 (a)) to permit identification of a broadcast station as a station located in a borough or city which the station is designed to serve where the location of the main studio has been approved at a transmitter site which is situated at a point outside the borders or corporate limits of such borough or city.

(k) Applications for remote pick-up, ST, and experimental TV relay broadcast stations.

(l) Applications from FM broadcast stations requesting authority to transmit multiplex facsimile in accordance with § 3.266 of the Commission's rules (47 CFR 3.266).

SEC. 0.145 *Authority delegated to Secretary upon securing the approval of the Bureaus of Law, Engineering, and Accounting Departments.* The Secretary, or, in his absence, the Acting Secretary, is designated to act upon the following matters upon securing the approval of the General Counsel, Chief Engineer and Chief Accountant, or their respective nominees:

(a) Applications for experimental class 2 stations both in established services and in the proposed General Mobile Service, the proposed Rural Radio Telephone Service, and the proposed Short Distance Toll Service, which render or propose to render a common carrier service, except those falling under sections 0.121 and 0.141.

(b) Applications for the aviation, ship, miscellaneous, United States and Alaskan coastal and marine relay services, and Alaskan fixed public services, except those falling under sections 0.112, 0.121, 0.141, 0.142, and 0.144.

(c) Applications for special temporary authorizations other than those falling under sections 0.112, 0.121, 0.141, 0.142, and 0.144.

(d) Applications from existing licensees for instruments of authorization for the agriculture, fixed public or fixed public press radio services, except applications involving:

(1) New points of communication, not already authorized to a station of the licensee at some other location or not already authorized by an outstanding construction permit; unless the application for a new point of communication is for (i) transmission of addressed program material, as set forth in § 6.51 (47 CFR 6.51), in connection with special news events, or (ii) control of the transmission and reception of addressed program and facsimile material in connection with special news events;

(2) Changes in transmitter location other than local in character;

(3) Assignment of additional frequencies not already assigned to a station of the licensee at some other location;

(4) The establishment of a new type of service.

(e) All broadcast service applications involving only a change in equipment with an additional cost in excess of $1,000, for construction permit, modification of construction permit, and modification of license.

(f) Applications in the broadcast service for license following construction where the applicant has complied with all the terms of the construction permit.

SEC. 0.146 *Authority delegated to the Secretary upon securing the approval of the Bureaus of Law and Accounting.* The Secretary, or the Acting Secretary, is designated to act upon the following matters upon securing the approval of the General Counsel and Chief Accountant, or their respective nominees:

(a) Applications or requests for extensions of the time prescribed in § 43.51 of the rules and regulations (47 CFR 43.51) for the filing of documents specified therein.

(b) Broadcast service applications which fall within the provisions of § 1.323 of the Commission's rules and regulations (47 CFR 1.323).

(c) Broadcast service applications for consent to assignments of licenses from individuals to corporations owned and controlled by such individuals, or from corporations to the individual stockholders controlling such corporations, provided there are no substantial changes in the interests of the respective assignors.

SEC. 0.147 *Authority delegated to Secretary upon securing the approval of the Bureau of Accounting.* The Secretary, or in his absence, the Acting Secretary, is designated to act upon the following matters upon securing the approval of the Chief Accountant, or his nominee:

(a) Applications under section 214 of the Communications Act for an authorization for temporary or emergency closures or reductions of hours of telegraph offices, and for any closure, or reduction of hours of a telegraph office at a military establishment, for closure of railroad-operated agency offices and for closure of company-operated main offices where substitute service is to be provided by a telephone or teleprinter operated agency office in the same community in those cases where applicable Commission policy has been established; and informal requests for authority to discontinue, reduce, or impair telegraph service filed pursuant to the provisions of §§ 63.63, 63.64, 63.66–63.68, inclusive, of the Commission's rules and regulations (47 CFR 63.63, 63.64, 63.66–63.68).

SEC. 0.148 *Record of actions taken.* All actions taken by the Secretary in accordance with sections 0.141–0.147 shall be recorded each week in writing and filed in the official minutes of the Commission.

SEC. 0.151 *Authority delegated to Engineer in Charge of port offices.* The Engineer in Charge of each port office (or in his absence, the Acting Engineer in Charge) is designated to act upon the following matter:

(a) Applications for waiver of the requirement of six months' previous service contained in section 353 (b) of the Communications Act of 1934, as amended, and in paragraphs (c) (3) and (d) (2) of § 13.61 of the rules and regulations (47 CFR 13.61).

SEC. 0.152 *Record of actions taken.* Action taken on applications in accordance with section 0.151 shall be recorded each week and a copy thereof forwarded to the Secretary of the Commission to be filed in the official minutes of the Commission.

STATEMENT OF PLACES FOR SUBMITTING APPLICATIONS AND OTHER REQUESTS AND SECURING PUBLIC INFORMATION [1]

SECTION 0.201 *Main offices.* The main offices of the Federal Communications Commission are located in the New Post Office Building at Thirteenth and Pennsylvania Avenue NW., Washington 25, D. C., and the public may secure information or make submittals or requests to the Commission by coming in person to these offices (or the offices listed below) or by addressing the Federal Communications Commission, Washington 25, D. C. The hours of the Commission are from 8:30 a. m. to 5 p. m., Monday through Friday, except on legal holidays.

SEC. 0.202 *Other offices in Washington, D. C.* Other offices of the Commission in Washington, D. C., are maintained at Temporary Building T, 14th and Constitution Avenue NW.; and Temporary Building L, South of the Reflection Pool at Lincoln Memorial.

SEC. 0.203 *Field offices.* The location of the Bureau of Engineering field offices

[1] This Statement is issued pursuant to sec. 3 (a) (1) of the Administrative Procedure Act.

are shown in sections 0.28 (e) and 0.40, those of the Bureau of Accounting in section 0.55, and those of the Bureau of Law in section 0.73.

SEC. 0.204 *Public reference rooms.* Five public reference rooms are maintained by the Commission where the public may inspect any material which is available for public inspection in accordance with section 0.206. These rooms are as follows:

(a) Broadcast and Docket Reference Room is located in Room 8454, New Post Office Building. Here the public may inspect all broadcast applications and files relating thereto as well as dockets relating to all Commission matters which have been designated for hearing.

(b) Commercial License Reference Room is located in Room 1628, Temporary Building T, 14th Street and Constitution Avenue NW. Here the public may inspect all applications and files relating thereto concerning nonbroadcast radio station applications (except amateur) and nonradio applications by common carriers.

(c) Amateur License Reference Room is located at Room 1723, Temporary Building T, 14th Street and Constitution Avenue NW., Washington, D. C. Here the public may inspect all applications and files relating thereto concerning amateur radio station applications. In addition a complete file is maintained relating to commercial and amateur radio operators. More complete information concerning applications filed by commercial and amateur radio operators outside of the Washington district may be obtained from the appropriate Bureau of Engineering district offices listed in section 0.40.

(d) Common Carrier Reference Room is located at Room 1742, Temporary Building T, 14th Street and Constitution Avenue NW., Washington, D. C. Here the public may inspect all annual and other reports filed by common carriers pursuant to section 219 (a) of the Communications Act and the schedules for all charges for interstate and foreign wire or radio communications filed pursuant to section 203 of the act.

(e) Contracts Reference Room is located in Room 7226, New Post Office Building. Here the public may inspect all contracts, agreements, or arrangements between carriers filed pursuant to section 211 (a) of the Communications Act, except those marked confidential.

SEC. 0.205 *Information office.* The information office is located in Room 7232, New Post Office Building. It maintains a file of current news releases, public notices, proposed decisions and final decisions issued by the Commission which are available for inspection. Extra copies when available are furnished to interested persons upon request.

SEC. 0.206 *Inspection of records.* Subject to the provisions of sections 4 (j), 213 (f), 412, and 606 of the act, the files of the Commission shall be open to public inspection as follows:

(a) Tariff schedules required to be filed under section 203 of the act; valuation reports, including exhibits filed in connection therewith, unless otherwise ordered by the Commission, with reasons therefor, pursuant to section 213 of the act; and annual and monthly reports required to be filed under section 219 of the act.

(b) Contracts, agreements, or arrangements between carriers, filed pursuant to section 211 (a) of the act, except such contracts relating to foreign wire or radio communications which are marked confidential by the Commission: *Provided, however,* That the Commission will give appropriate consideration to a petition filed by any person showing that any such contract, agreement, or arrangement relates to foreign wire or radio communication; that its publication would place American communication companies at a disadvantage in meeting the competition of foreign communication companies; and that public interest would be served by keeping its terms confidential.

(c) All applications and amendments thereto filed under title II and title III of the act, including all documents and exhibits filed with and made a part thereof, and all communications protesting or endorsing any such applications, authorizations, and certifications issued upon such applications; all pleadings, depositions, exhibits, transcripts of testimony, reports of examiners or presiding officers, exceptions, briefs, proposed reports, or findings of fact and conclusions; all minutes and orders of the Commission. The information filed under § 1.341 (47 CFR 1.341) and network and transcription contracts filed pursuant to § 1.342 (47 CFR 1.342) shall not be open to public inspection. The Commission may, however, either on its own motion, or on motion of an applicant, permittee, or licensee, for good cause shown, designate any of the material in this subsection as confidential.

(d) In the discretion of the Commission, other files, including those excepted in subsections (a), (b), and (c) hereof, upon written request describing in detail the documents to be inspected and the reasons therefor.

(e) For provisions relating to inspection of files relating to Presidential licenses for submarine cables, see Appendix No. 1 to Part 1 of the Commission's rules and regulations (47 CFR Part 1, App. 1).

SEC. 0.207 *Certified copies; requests for; costs.* Copies of any documents subject to inspection under the provisions of section 0.206 will be prepared and certified by the Secretary, under seal, on written request, specifying the exact documents, the number of copies desired, and the date on which the same will be required. Such request must be made so as to permit a reasonable time for the preparation of such copies and any cost incurred in the preparation of such copies must be prepaid by the person making application therefor.

SEC. 0.208 *Reports of violations.* Reports of violations of the Communications Act or of the Commission's rules and regulations may be submitted direct to the Commission in Washington or to any field office.

SEC. 0.209 *Place of filing of applications for radio authorizations.*

Class of station	Method of filing	Number of copies
(a) All classes of Alaskan stations, except broadcast and amateur.	Via Inspector in charge, radio district No. 14, Seattle, Wash.	3
(b) Aircraft	Direct to Washington, D. C.	1
(c) Geophysical	do	1
(d) Ship	do	1
(e) Standard broadcast, FM broadcast, international broadcast and television.	do	3
(f) All other classes of applications for radio stations including portable (except amateur).	do	2

SEC. 0.210 *Applications for ship radio inspection.* Applications for ship radio inspection shall be forwarded to the office of the district in which the ship is located. In order to expedite action for ships docked in Mobile, Ala., this form may be submitted direct to the Mobile, Ala., office located at 320 United States Courthouse and Customhouse, Mobile 10, Ala.

SEC. 0.211 *Application for exemptions and waivers under Part II of Title III.* (a) Applications filed under the provisions of section 352 (b) for exemption from the requirements of Part II, Title III of the Communications Act of 1934, as amended, shall be filed at the Commission's office in Washington, D. C.

(b) Applications filed under the provisions of section 353 (b) for waiver of the requirements of that section shall be filed at the office of the Commission's Engineer in Charge at or in the vicinity of the port from which the vessel for which the waiver is requested is scheduled to depart. Prior to filing an application for such waiver, the applicant must have exhausted all known sources of ship radio operators within a reasonable distance. The determination of what sources will be considered to be within a reasonable distance will be made by a reference, among other factors, to the date when efforts were commenced by the applicant to secure a fully qualified radiotelegraph operator in relation to the date when the applicant first became aware of the scheduled (or approximate) sailing date of the vessel concerned.

SEC. 0.212 *Nonradio common carrier applications.* All such applications shall be filed at the Commission's office in Washington, D. C.

SEC. 0.213 *Applications for amateur station and operator license and/or commercial operator license.* (a) Application for amateur station and operator license shall be filed in the appropriate engineering field office listed in section 0.40 if the personal appearance of the applicant for operator examination is required. In all other cases, including examination for class C privileges, the application should be sent to Washing-

ton. Only one copy of the application is required.

(b) Application for commercial operator license shall be filed with any engineering field office listed in section 0.40 under whose supervision the applicant desires to be examined.

(c) Radio operator examinations are given frequently under announced schedules at the Commission's office at Room 2065, Temporary Building L (South of the Reflection Pool at Lincoln Memorial), Washington, D. C., and at each of the Commission's field offices listed in section 0.40. Examinations are also given frequently, by appointment, at the Commission's offices at the following points: Cleveland, Ohio; Savannah, Ga.; San Diego, Calif.; Tampa, Fla.; Juneau, Alaska; Anchorage, Alaska.

Examinations are also given at less frequent intervals at the places named below, which are visited for that purpose by Commission examiners from the district offices for such locations. For current schedules, exact time, place, and other details, inquiry should be addressed to the office conducting examinations at the chosen point.

KMPC ET AL.

ORDER FOR PUBLIC HEARING

In the matter of KMPC, Station of the Stars, Inc. Licensee of Radio Station KMPC, Los Angeles, California; WJR, The Goodwill Station, Inc. Licensee of Radio Station WJR, Detroit, Michigan; and WGAR Broadcasting Company, Licensee of Radio Station WGAR, Cleveland, Ohio.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 12th day of November 1948;

It appearing: (1) That on February 28, 1948, the Radio News Club filed with the Commission a complaint alleging that G. A. Richards, officer, director and stockholder of KMPC, Station of the Stars, Inc., WJR, The Goodwill Station, Inc., and WGAR Broadcasting Company, licensees of Stations KMPC, Los Angeles, California, WJR, Detroit, Michigan, and WGAR, Cleveland, Ohio respectively, on various occasions issued instructions to members of the news staff and other members of the staff of KMPC, to the effect that news concerning specified individuals, groups and events should be slanted, distorted, suppressed, altered or otherwise treated in a fashion specified by said G. A. Richards in order to promote his private views and interests with respect to public figures and issues of political, social and economic importance; that the complaint further alleged that said G. A. Richards, on at least one occasion, caused the dismissal of a member of the news staff of KMPC because of his failure and refusal to present specified items of news and news comment in a manner prescribed by said G. A. Richards, and designed to reflect the opinions and views of said G. A. Richards; that the complaint further alleged that said G. A. Richards issued instructions directing that specified editorials from newspapers, selected by himself, should be broadcast over the facilities of KMPC, and that such instructions were given because the editorials selected represented the views of said G. A. Richards; that the complaint was accompanied by letters and other documents which are purported to have been written or otherwise issued by said G. A. Richards, and which purported to substantiate the complaint; and

(2) That G. A. Richards, at all times when such instructions were alleged to have been given, was the president of each of said licensees and is now and has at all such times been controlling stockholder of KMPC, Station of the Stars, Inc. and WGAR Broadcasting Company, and, together with members of his family, controlling stockholders of WJR, The Goodwill Station, Inc.; and

(3) That on March 19, 1948, the Commission authorized and subsequently conducted an investigation of the matters alleged in said complaint with respect to the conduct of said G. A. Richards in relation to each of the said licensees; and

(4) That on August 12, 1948, the Commission furnished said G. A. Richards with a copy of said complaint and copies of documents referred to therein with the request that he submit his sworn statement covering the charges contained in said material; and

(5) That pursuant to said request, on September 13, 1948, G. A. Richards through counsel submitted to the Commission his sworn statement with respect to the matters alleged in the complaint; and

(6) That the foregoing information submitted by the Radio News Club, by the affidavit submitted by G. A. Richards and additional information obtained during the course of said investigation tending to substantiate the information submitted by Radio News Club raises substantial questions with respect to the qualifications of the above mentioned licensee and of G. A. Richards, controlling stockholder thereof; and

It further appearing necessary and desirable that a public hearing be held for the purpose of obtaining testimony of any persons who may have knowledge of the matters hereinbefore described and to afford to said licensees and to G. A. Richards full opportunity to testify with respect to such matters;

Now, therefore, it is ordered, Pursuant to section 403 of the Communications Act of 1934, as amended, that a public hearing be held before Commissioner E. M. Webster at a time and place to be hereafter designated by order of said Commissioner upon the following issues:

1. Whether G. A. Richards has at any time while he was an officer and principal stockholder of the licensees of Stations WGAR, Cleveland, Ohio; KMPC, Los Angeles, California; and WJR, Detroit, Michigan, issued instructions or directives to officers or employees of said licensees:

(a) To present news broadcasts in a manner designed to give a biased or a one-sided presentation of the news;

(b) To broadcast false news concerning particular issues or persons;

(c) To broadcast editorials of daily newspapers as news items without identification of such editorials as such;

(d) To discriminate in favor of the interests of any political party, parties, or candidates as against the interests of other political parties or candidates;

(e) To discriminate in any manner in the programming of Stations KMPC, WJR, and WGAR, in favor of the private, political, social and economic views and interests of G. A. Richards.

2. To what extent, if any, officers or employees refused to carry out instructions or directives, if any, of the nature specified in Issue No. 1, and what disciplinary action, if any, was taken or caused to be taken by G. A. Richards against any officers or employees who may have refused to carry out such instructions and directives.

3. To what extent, if any, the facilities of said stations, or any of them, have been used to carry out said instructions or directives.

4. To determine, in the light of any facts adduced under the foregoing issues, whether further proceedings under the Communications Act of 1934, as amended, particularly sections 307, 309 (a) or 312 (a) thereof are warranted with respect to the licenses of radio stations KMPC, WJR and WGAR or any of them.

FEDERAL POWER COMMISSION

[Docket Nos. G-859, G-1039, G-1149]

TEXAS GAS TRANSMISSION CORP. ET AL.

ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

NOVEMBER 17, 1948.

In the matters of Texas Gas Transmission Corporation, Docket No. G-859; Texas Eastern Transmission Corporation, Docket No. G-1089; National Gas & Oil Corporation, Docket No. G-1149.

Upon consideration of the application filed November 1, 1948, by National Gas & Oil Corporation, an Ohio corporation with its principal office at Newark, Ohio, for an order pursuant to section 7 (a) of the Natural Gas Act, directing Texas Eastern Transmission Corporation (Texas Eastern) to establish physical connection of its transportation facilities with the facilities of National, and directing Texas Eastern or Texas Gas Transmission Corporation (Texas Gas) or both of them to sell natural gas to National, as described in such application on file with the Commission and open to public inspection;

It appears to the Commission that:

(a) It is necessary and desirable in the public interest that a hearing be held respecting the matters involved and the issues raised by such application;

(b) Good cause exists for consolidating the proceedings to be had in Docket No. G-1149 with consolidated proceedings now in progress in Docket Nos. G-859 and G-1089 for the purpose of hearing; and

The Commission orders that:

(A) A public hearing be held, commencing at 10:00 a. m. (c. s. t.) on November 22, 1948, in the Main Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, NW., Washington, D. C., respecting the matters involved and the issues presented by the application of National Gas & Oil Corporation;

(B) The public hearing provided for in paragraph (A) above be and the same is hereby consolidated for hearing with the matters involved in Docket Nos. G-859 and G-1089;

(C) Interested State commissions may participate as provided by Rules 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: November 18, 1948.

By the Commission.

[Docket Nos. G-1019, G-1067, G-1092]

EL PASO NATURAL GAS CO. ET AL.

ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF JOINT HEARING

NOVEMBER 17, 1948.

In the matters of El Paso Natural Gas Company, Docket No. G-1019; San Juan Pipe Line Company, Docket No. G-1067; and Pacific Gas and Electric Company, Docket No. G-1092.

Upon consideration of the motion filed October 18, 1948, to consolidate and set for hearing the aforesaid dockets and applications of El Paso Natural Gas Company (El Paso), San Juan Pipe Line Company (San Juan), and Pacific Gas and Electric Company (Pacific) under said dockets for certificates of public convenience and necessity pursuant to

section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of certain natural gas facilities, subject to the jurisdiction of the Commission, as described in such applications on file with the Commission and open to public inspection; and the request filed July 29, 1948, by the Arizona Corporation Commission to cooperate in the hearing on the application filed by San Juan Pipe Line Company; and

It appearing to the Commission that:

(a) El Paso in Docket No. G–1019 proposes by its application, among other things, the construction and operation of additional facilities to transport and sell approximately 400,000,000 cubic feet of natural gas to Pacific at a point on the border line of California and Arizona near Needles, California, of which volume 150,000,000 cubic feet is to be purchased from San Juan and 250,000,000 cubic feet in the Permian Basin in New Mexico and Texas. Due notice of the filing of this application has been given, including publication in the FEDERAL REGISTER on July 21, 1948 (13 F. R. 4158, 4159). On November 15, 1948, El Paso filed a further amendment to its application wherein the total over-all capital cost of the proposed facilities are estimated to be $52,456,032.

(b) San Juan in Docket No. G–1067 proposes by its application, among other things, the construction and operation of facilities to transport and sell approximately 150,000,000 cubic feet of natural gas to El Paso at a point approximately 20 miles east of Needles, California, in Mohave County, Arizona. This volume of gas is to be purchased by San Juan in the San Juan County, New Mexico. Due notice of the filing of this application has been given, including publication in the FEDERAL REGISTER on July 21, 1948 (13 F. R. 4160).

(c) Pacific in Docket No. G–1092 proposes by its application, among other things, the construction and operation of facilities to transport and sell the natural gas purchased from El Paso to its customers in northern and central California. Due notice of the filing of this application has been given, including publication in the FEDERAL REGISTER on August 13, 1948 (13 F. R. 4702).

(d) For a more detailed statement of fact and law asserted, interested parties may refer to said applications and other pleadings filed in the above-entitled dockets which may be inspected at the office of the Federal Power Commission, Washington, D. C.

(e) The Arizona Corporation Commission has advised the Commission that San Juan has not made application to render natural gas service in the State of Arizona.

(f) The aforesaid applications are parts of an integrated plan and the request for consolidation should be granted.

The Commission orders that:

(A) The aforesaid proceedings in Docket Nos. G–1019, G–1067, and G–1092 be and the same are hereby consolidated.

(B) A public hearing be held with respect to the matters involved and the issues presented in the consolidated proceedings beginning on December 6, 1948, at 10:00 a. m. (e. s. t.) in the Commission's Hearing Room at 1800 Pennsylvania Avenue, N. W., Washington, D. [Docket No. G–1146]

INTERSTATE NATURAL GAS CO., INC.

ORDER FIXING DATE OF HEARING

NOVEMBER 17, 1948.

Upon consideration of the application filed on October 25, 1948, by Interstate Natural Gas Company, Inc. (Applicant), a Delaware corporation having its principal place of business at Monroe, Louisiana, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of certain natural gas facilities, subject to the jurisdiction of the Commission, as more fully described in such application on file with the Commission, and open to public inspection;

It appears to the Commission that: Applicant has requested that its application be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure for noncontested proceedings, and that this proceeding is a proper one for disposition under the provisions of the aforesaid rule, provided no request to be heard, protest or petition raising an issue of substance is filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on November 10, 1948 (13 F. R. 6634).

The Commission, therefore, orders that:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a hearing be held on December 7, 1948, at 9:30 a. m. (e. s. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, N. W., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested States commissions may participate as provided by §§ 1.8 and 1.37 (f) of the said rules of practice and procedure.

Date of issuance: November 18, 1948.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-1241]

ENGINEERS PUBLIC SERVICE CO.

ORDER GRANTING APPLICATION TO STRIKE FROM LISTING AND REGISTRATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 18th day of November A. D. 1948.

The Boston Stock Exchange, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to strike from registration and listing the common stock, $1.00 par value, of Engineers Public Service Company.

The reasons for striking this security from registration and listing on this exchange that are stated in the application are: (1) Engineers Public Service Company was dissolved on June 30, 1947; (2) all its assets have already been distributed to its preferred and common stock holders with the exception of a small amount of cash and common stock of Virginia Electric and Power Company; (3) after deduction of a bank loan of $900,000, there remains a net value for these assets of approximately $1,864 000; (4) there are now outstanding approximately 1,909,968 shares of common stock of Engineers Public Service Company; (5) the value of the assets of this corporation remaining undistributed is approximately $1.00 per share; and (6) in addition, Engineers Public Service Company has a contingent claim to any portion remaining of an escrow fund set up to provide for the payment of a sum due the preferred shareholders if they should be successful in litigation now pending.

Appropriate notice and opportunity for hearing have been given to interested persons and the public generally. No request has been received from any interested person for a hearing in this matter. The rules of the Boston Stock Exchange with respect to striking a security from registration and listing have been complied with.

The Commission having considered the facts stated in the application, and having due regard for the public interest and the protection of investors;

It is ordered, That the application of the Boston Stock Exchange to strike the Common Stock, $1.00 Par Value, of Engineers Public Service Company from registration and listing be, and the same is, hereby granted, effective at the close

of the trading session on December 15, 1948.

By the Commission.

NEW BEDFORD GAS AND EDISON LIGHT CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 17th day of November 1948.

Notice is hereby given that an application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by New Bedford Gas and Edison Light Company ("New Bedford"), a subsidiary of New England Gas and Electric Association, a registered holding company. Applicant has designated section 6 (b) of the act as applicable to the proposed transaction.

Notice is further given that any interested person may, not later than December 1, 1948, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest, and the issues of fact or law raised by said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after December 1, 1948, said application, as filed or as amended, may be granted as provided by Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided by Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transaction therein proposed, which is summarized as follows:

New Bedford proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $5,000,000 principal amount of unsecured notes, due 1973, at an interest rate not to exceed 3¼%. The proceeds from the sale of such notes will be used to pay bank borrowings owing to the First National Bank of Boston in the amount of $2,500,000, and the balance thereof will be used to restore to the Plant Replacement Fund Assets account amounts borrowed for the purpose of financing extensions, additions and improvements to New Bedford's plant and property.

The application states that the proposed issuance of notes by New Bedford is a part of the financing program of the New England Gas and Electric System, which program includes the sale, if feasible, of additional common shares of New England Gas and Electric Association to the extent of 124,600 shares in any year beginning with 1949 in which the total requirements of the system for new capital exceed $5,000,000. The application further states that New England Gas and Electric Association proposes in January, 1949, to issue to its shareholders rights to acquire 124,600 common shares on the basis of one new common share for each ten common shares now held, and that the prospectus in connection with this proposed financing is now in preparation.

New Bedford is subject to the jurisdiction of the Department of Public Utilities of Massachusetts, which Department approved the issue and sale of its said notes by order dated October 4, 1948.

By the Commission.

home or combination home and business property which, because of its state of improvement, produces sufficient income to maintain the property and retire the loan in accordance with the terms thereof.

(5) The term "improved real estate" means real estate which is, or which from the proceeds of the loan will become, a home, combination of home and business property, or other improved real estate.

(6) The term "installment loan" means any loan repayable in regular periodic payments, equal or unequal, sufficient to retire the debt, interest and principal, within the contract period: *Provided, however,* That the loan contract shall not require any subsequent periodic payment to be greater than any previous periodic payment.

(7) The term "insured loan" means a loan that is insured, or as to which the mortgagee is insured, or as to which a commitment for any such insurance has been made under the provisions of either the National Housing Act or the Servicemen's Readjustment Act of 1944, as now or hereafter amended.

(8) The term "guaranteed loan" means a loan that is guaranteed or as to which a commitment to guarantee has been made under the provisions of the Servicemen's Readjustment Act of 1944, as now or hereafter amended.

(b) *Lending powers under sections 13 and 14 of Charter K*—Any Federal association which has Charter K may, under sections 13 and 14 thereof, make the following types of loans on the security of first liens on improved real estate and the use by such an association of loan plans, practices, and procedures which comply with the applicable provisions of this section are hereby approved by the Board:

(1) *Homes or combination of homes and business property*—(i) *Monthly installment loans.* Installment loans may be made on homes or combination of homes and business property for an amount not in excess of 75 percent of the value thereof, repayable monthly within 20 years or, if an insured or guaranteed loan, within the period acceptable to the insuring or guaranteeing agency: *Provided,* That, when the members of such an association have authorized loans to be made for an amount exceeding 75 percent of the value, such loans may be made up to the percentage of value authorized by the members but not in excess of:

(*a*) 80 percent of the value, if the loan is not an insured or guaranteed loan;

(*b*) The maximum percentage of the value acceptable to the insuring agency, if an insured loan;

(*c*) 80 percent of the value, plus the amount guaranteed if a guaranteed loan.

(ii) *Other installment loans.* Loans of any type that such an association may make on a monthly installment basis may also be made with interest payable at least semi-annually and with regular periodic principal installments payable at least annually in an amount sufficient to retire the debt, interest and principal, within 5 years, or, subject to the limitations of paragraph (h) of this section (for which purpose all such loans as are not fully repayable within 5 years shall be deemed "Non-installment Loans"), within 15 years: *Provided,* That insured or guaranteed loans may be repayable upon such terms as are acceptable to the insuring or guaranteeing agency.

(iii) *Loans without full amortization.* Loans of any type that such an association may make on a monthly installment basis may also be made without full amortization of principal: *Provided,* That, except for insured or guaranteed loans, interest shall be payable at least semi-annually and any such loan may be made for an amount not in excess of 50 percent of the value and for a term of not more than 5 years: *And provided further,* That, if the members have authorized loans to be made without full amortization up to such higher percentage,

such loans may be made for an amount not in excess of 60 percent of the value and for a term of not more than 3 years.

(2) *Other improved real estate*—(i) *Monthly installment loans.* Installment loans may be made on other improved real estate for an amount not in excess of 50 percent of the value thereof, repayable monthly within 20 years or, if an insured or guaranteed loan, within the period acceptable to the insuring or guaranteeing agency: *Provided,* That, when the members of such an association have authorized loans to be made upon such security for an amount exceeding 50 percent of the value, such loans may be made up to the percentage of value authorized by the members but not in excess of:

(*a*) The maximum percentage acceptable to the insuring agency, if an insured loan;

(*b*) 75 percent of the value of five-family or six-family residential property;

(*c*) 60 percent of the value of residential property for more than six families but for not more than twelve families;

(*d*) 66⅔ percent of the value of property used primarily for residential purposes: *Provided,* That the loan is an installment loan repayable monthly within a period of 15 years;

(*e*) 60 percent of the value of real estate which is improved by an income-producing structure thereon: *Provided,* That the loan is an installment loan repayable monthly within a period of 15 years;

(*f*) The percentage of value that such an association may otherwise lend under this sub-paragraph plus the amount guaranteed, if a guaranteed loan: *Provided,* That any percentage of value may be loaned if at least 20 percent of the loan is guaranteed.

(ii) *Other loans.* Loans of any type that such an association may make on a monthly installment basis may also be made upon any other plan of repayment: *Provided,* That, except for insured or guaranteed loans, interest shall be payable at least semi-annually and any such loan may be made for an amount not in excess of 50 percent of the value and for a term of not more than 5 years: *And provided further,* That, if the members have authorized loans to be made without full amortization up to such higher percentage of the value of other improved real estate used primarily for residential purposes, such loans may be made for an amount not in excess of 60 percent of the value thereof and for a term of not more than 3 years.

(c) *Lending powers under sections 11 and 12 of Charter E.* Any Federal association which has Charter E may, under sections 11 and 12 thereof, make monthly installment loans, repayable in not less than 5 nor more than 20 years, on the security of first liens on homes or combination of homes and business property for an amount not in excess of 75 percent of the value thereof, and on other improved real estate for a amount not in excess of 50 percent of the value thereof.

(d) *Lending powers under other charter provisions.* Any Federal association that has amended Charter K by the addition thereto of § 14.1 as set out in these rules and regulations and any Federal association which has a charter in any other form not inconsistent with the provisions of this section may, upon authorization by its board of directors and without further action by its members, make the following types of loans and the use by any such association of the applicable loan plans, practices, procedures, and maximum lending percentages is hereby approved by the Board:

(1) Any loan that a Federal association which has Charter K may make under paragraph (b) of this section;

(2) Any guaranteed loan on the security of a lien, other than a first lien, on real estate: *Provided,* At least 20 percent of the loan is guaranteed.

(e) *Participation loans.* Any Federal association may participate with other lenders in making loans of any type that such an association may otherwise make: *Provided,* That:

(1) The real estate security is located within such association's regular lending area;

(2) Each of the lenders is either an instrumentality of the United States Government or is insured by the Federal Savings and Loan Insurance Corporation or by the Federal Deposit Insurance Corporation.

(f) *Purchase of loans.* Any Federal association may purchase loans of any type that it may make: *Provided,* That no loan may be purchased from an affiliated institution without the prior approval of the Board, or from a director, officer, or employee of such association, or from any person or firm regularly serving such association in the capacity of attorney-at-law: *And provided further,* That if such an association increases its savings accounts as a part of any such purchase it shall obtain such approval as is required by § 301.17 of the rules and regulations for insurance of accounts.

(g) *Lending area.* The regular lending area of a Federal association consists of the area within a radius of fifty miles from such association's home office and, in the case of a Federal association which is converted from a State-chartered institution, that territory beyond fifty miles from its home office in which such association made loans while operating under State charter. Any Federal association may make loans in its regular lending area and, within the 15-percent-of-assets limitation as defined in paragraph (h) of this section, in other territory: *Provided,* That such association shall comply with § 301.11 of the rules and regulations for insurance of accounts. Each converted association that desires to continue to make loans beyond fifty miles from its home office in territory in which it made loans while operating under State charter shall file with the Board a map showing the territory within which such association made loans while operating under State charter. For the purpose of this paragraph a county is the unit of "territory" in which a converted association made loans beyond a radius of fifty miles from its home office while operating under State charter.

(h) *Real estate loans and investments subject to 15-percent-of-assets limitation.* Any Federal association may make loans of the types enumerated in subparagraphs (1) through (4) of this paragraph on the security of first liens on improved real estate only when the resulting aggregate amount of the following investments does not exceed 15 percent of the association's assets:

(1) Loans in excess of $20,000, after deducting each part of any such loan, if secured by a blanket mortgage, which is apportionable in an amount not exceeding $20,000 to each home or combination of home and business property which is a part of the security.

(2) Loans on other improved real estate.

(3) Loans on improved real estate located beyond the association's regular lending area.

(4) Non-installment loans.

(5) Real estate owned, except

(i) Property owned and occupied by the association as an office;

(ii) Homes or combination of homes and business property which are located within the regular lending area and which have a book value of not more than $20,000 each;

Provided, That any guaranteed loan, at least 20 percent of which is guaranteed, made by any Federal association that has amended Charter K by the addition thereto of § 14.1 as set out in these rules and regulations, or by any Federal association which has a charter in any other form not inconsistent with the provisions of this section, is exempt from the limitations of this paragraph.

(i) *Loans to directors, officers, or employees.* A Federal association may not make any real estate loans to a director, officer, or employee of the association, or to any person or firm regularly serving the association in the capacity of attorney-at-law, except loans on the security of a first lien on the home or combination of home and business property owned and occupied by such borrowing director, officer, employee, attorney or firm.

(j) *Appraisals.* No loan shall be made by any Federal association until at least two qualified persons designated by its board of directors shall have submitted a signed appraisal of the real estate security; or, if an insured or guaranteed loan, until two qualified persons designated by the board of directors (one of whom may be the appraiser accepted by the insuring or guaranteeing agency) shall have concurred in or approved, in writing, the valuation assigned to the real estate security by the appraiser accepted by the insuring or guaranteeing agency: *Provided,* That any Federal association which has amended its Charter by the addition thereto of § 14.1 as set out in these rules and regulations and any Federal association which has a charter in any other form not inconsistent with the provisions of this section may, when authorized by its board of directors, make any loan after a qualified person designated by such board of directors shall have submitted a signed appraisal of the real estate security and may make any insured or guaranteed loan on the basis of a valuation of the real estate security furnished to such Federal association by the insuring or guaranteeing agency.

(k) *Initial loan charges.* No director, officer, or employee of a Federal association, and no person or firm regularly serving such association in the capacity of attorney-at-law, may receive from the association or from any other source any fee or other compensation of any kind in connection with the procuring of any particular loan from or by such association. Borrowers may be required to pay the necessary initial charges in connection with the making of a loan, including the actual costs of title examination, appraisal, credit report, survey, drawing of papers, closing of the loan, and other necessary incidental services and costs in such reasonable amounts as may be fixed by the board of directors; such necessary initial charges may be collected by the association from the borrower and paid to any persons, including any such director, officer, employee, attorney or firm rendering such services. Upon the closing of the loan, the association shall furnish the borrower a loan settlement statement showing in detail the charges or fees the borrower has paid or obligated himself to pay to the association or to any other person in connection with such loan; and a copy of such loan settlement statement shall be retained in the records of the association.

(l) *Loan contract.* Each loan shall be evidenced by note, bond, or other instrument and shall be secured by such security instrument as is in keeping with sound lending practices in the locality. The loan contract shall provide for full protection to the Federal association and shall be recorded; it shall provide specifically for full protection with respect to insurance, taxes, assessments, other governmental levies, maintenance, and repairs, and it may provide for an assignment of rents and for such other protection as may be lawful or appropriate. Such Federal association may pay taxes, assessments, insurance premiums, and other similar charges for the protection of its interest in the property on which it has loans; all such payments may, when lawful, be added to the unpaid balance of the loan. A Federal association may require life insurance to be assigned to it by its borrowers as additional collateral for loans on the security of real estate; such association may advance premiums on any such life insurance and, when lawful, may add the premium so advanced to the unpaid balance of the loan. A Federal association may require that the equivalent of one-twelfth of the estimated annual taxes, assessments, insurance premiums, and other charges on real estate security, or any of them, be paid in advance to such association in addition to interest and principal payments on its loans, to enable the association to pay such charges as they become due from the funds so received. A Federal association shall keep a record of the status of taxes, assessments, insurance premiums, and other charges on all real estate on which such association has loans or which is owned by it. All loan instruments shall comply with applicable provisions of law, governmental regulations, and the Federal association's charter.

(m) *Loan payments.* Payments on the principal indebtedness of all loans on real estate security shall be applied direct to the reduction of such indebtedness. Payments on all monthly installment loans, other than construction loans, insured loans, and guaranteed loans, shall begin not later than sixty days after the advance of the loan; insured loans and guaranteed loans may be repayable upon terms acceptable to the insuring or guaranteeing agency and the Board hereby approves for use by any Federal association a loan plan wherein payments on any construction loans that such association may otherwise make under this section shall begin not later than 6 months after the date of the first advance. The Board hereby approves for use by any Federal association, except Federal associations that have Charter E, a loan plan wherein the association may require the payment of not more than six months' advance interest on the amount of any prepayment on a loan when the aggregate amount of such prepayments in any one year equals or exceeds twenty percent of the original principal amount of the loan: *Provided*, That the loan contract makes express provision therefor.

(n) *Reserve for uncollected interest.* A "Reserve for Uncollected Interest" shall be maintained equivalent to all interest in default more than 90 days.

§ 203.11 *Loans on savings accounts.* Any Federal association may make loans on the security of its savings accounts, whether or not the borrower is the owner of such account: *Provided*, That the association obtains a lien upon, or a pledge of, such savings account as security therefor. No such loan may exceed the withdrawal amount of the savings account securing the loan or the maximum percentage thereof which the association is authorized by its charter to lend upon such security, whichever is less, and no such loan may be made when the association has any application for withdrawal which has been on file more than 30 days and not reached for payment.

§ 203.12 *Unsecured loans.* Any Federal association that has amended Charter K by the addition thereto of § 14.1 as set out in these rules and regulations and any Federal association which has a charter in any other form not inconsistent with the provisions of this section may, upon adoption of such a loan plan by its board of directors, make or purchase:

(a) Any unsecured loan at least 20 percent of which is guaranteed under the provisions of the Servicemen's Readjustment Act of 1944, as now or hereafter amended;

(b) Simple-interest, discount, or gross-charge loans for property alteration, repair, or improvement (except business loans provided by section 503 of the Servicemen's Readjustment Act of 1944, as now or hereafter amended, and not secured by lien on real estate) without the security of a lien upon such property: *Provided*, That:

(1) The net proceeds of any such loan do not exceed $1,500;

(2) The property is located in such association's regular lending area as defined in § 203.10 (g) of these rules and regulations;

(3) Each such loan is evidenced by one or more negotiable notes, bonds, or other written evidences of debt;

(4) The resulting aggregate amount of all such loans does not exceed an amount equal to 15 percent of such association's assets;

(5) Each such loan is repayable in regular monthly installments within a period of 5 years.

And provided further, That any such loan for property alteration, repair, or improvement that is accepted for insurance under the provisions of the National Housing Act, as now or hereafter amended, or for insurance or guarantee under the provisions of the Servicemen's Readjustment Act of 1944, as now or hereafter amended, may be repayable upon such terms and within such period as are acceptable to the insuring or guaranteeing agency and in an amount not exceeding $2,500: *Provided*, That no Federal association may make any unsecured loan to a director, officer, or employee of the association, or to any person or firm regularly serving the association in the capacity of attorney-at-law, except for the alteration, repair, or improvement of the home or combination of home and business property owned and occupied by such borrowing director, officer, employee, attorney or firm.

Resolved that the general purposes intended by the foregoing being relief from certain restrictions, the clarification and simplification of interpretative rules and the giving of adequate time to Federal associations to prepare for action pursuant thereto as desired at their next annual meetings, together with the fact that new restrictions constitute only a very minor part of the whole, requiring no time nor preparatory action by such associations, all constitute good cause for not deferring the effective date hereof beyond that above set forth.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5671]

PART 189—BOTTLING OF TAX-PAID DISTILLED SPIRITS

MISCELLANEOUS AMENDMENTS

1. On September 9, 1948, notice of proposed rule-making regarding the bottling of tax-paid distilled spirits, was published in the FEDERAL REGISTER (13 F. R. 5240).

2. After consideration of all such relevant matter as was presented by interested persons regarding the proposal, the following amendments of §§ 189.7, 189.14, 189.16, 189.22, 189.35, 189.36, 189.38, 189.39, 189.40, 189.43, 189.44, 189.48, 189.58, 189.62, 189.69, and 189.100 of Regulations 11 (26 CFR, Part 189), approved May 20, 1940, are hereby adopted.

3. These amendments are designed to provide standard graduations for beams of weighing tanks; to simplify requirements dealing with the preparation, filing, and consideration of certain documents required for the qualification and operation of tax-paid bottling houses; to establish procedure for the receipt of distilled spirits by pipe line from a distillery contiguous to, or in the immediate vicinity of, a tax-paid bottling house, for bottling; and to facilitate procurement of stamps. It is not intended by these amendments to require proprietors of tax-paid bottling houses to file additional plats and plans, or to change equipment, immediately, in cases where the existing documents and equipment conform essentially to the regulations prior to these amendments. Upon changing the premises or equipment, and filing new plats and plans, these new requirements must be observed.

§ 189.7 *Buildings or rooms.* The tax-paid bottling house must be so constructed and equipped as to be suitable for the bottling of spirits. Except as provided in § 189.9, and as to necessary openings for the passage of approved distilled spirits, utility and similar pipe lines, as provided by the regulations in this part, Regulations 4 (26 CFR, Part 183), and Regulations 15 (26 CFR, Part 190), the room or building must be completely separated from contiguous buildings or rooms by solid, unbroken partitions and floors of substantial construction. If the tax-paid bottling house is in the same building in which is located an internal revenue bonded warehouse or rectifying plant, the two premises must have no means of interior communication with each other, except by approved pipe lines, and as specifically provided herein. Where a tax-paid bottling house has heretofore been established under the same roof or in the same building with an internal revenue bonded warehouse or a rectifying plant, with interior communication between the two premises, it may continue to operate in such location if the revenue will not be jeopardized. When a bottling-in-bond department is operated temporarily as a tax-paid bottling house, as provided by the regulations in this part and Regulations 6 (26 CFR, Part 188), communication between the bottling house and warehouse within the building may continue. (Secs. 2871, 3176, I. R. C.)

§ 189.14 *Weighing tanks.* Where weighing tanks are used for gauging spirits, such tanks shall be constructed of metal and shall be stationary and of uniform dimensions from top to bottom and each such tank shall be equipped with a suitable measuring device whereby the contents will be correctly indicated. Each weighing tank shall be mounted on accurate scales and shall have plainly and legibly painted thereon the words, "Weighing Tank," followed by its serial number and capacity in wine gallons. The beams or dials of weighing tank scales must indicate weight in 5-pound graduations for scales up to and including 25 tons capacity, in 10-pound graduations for scales exceeding 25 tons capacity but not exceeding 60 tons capacity, and in 20-pound graduations for scales having a capacity of more than 60 tons. (Secs. 2829, 2871, 3176, I. R. C.)

§ 189.16 *Storage tanks.* If distilled spirits are received in tank cars or by pipe line, suitable storage tanks must be provided within which to store such spirits, unless the spirits are run directly into bottling tanks as provided in § 189.58. Each storage tank shall be constructed of metal, and shall be of uniform dimensions from top to bottom. Each such tank shall be mounted on accurate scales, or equipped with a suitable measuring device whereby the actual contents will be correctly indicated. There shall be painted on each tank the words, "Storage Tank," followed by its serial number and capacity in wine gallons. Stopcocks must be provided and so arranged as to control completely the flow of spirits, both into and out of the tank. A suitable board shall be provided on each storage tank for the attachment of Forms 1520 and 1440, as hereinafter prescribed. (Secs. 2829, 2871, 3176, I. R. C.)

§ 189.22 *Pipe lines.* Pipe lines used for the conveyance of tax-paid rectified spirits from bottling tanks in a contiguous rectifying plant to bottling tanks in the tax-paid bottling house, must be constructed, secured, painted, and marked in accordance with the requirements of Regulations 15 (26 CFR, Part 190). Pipe lines used for the conveyance of tax-paid distilled spirits from the cistern room of a distillery to the bottling tanks or storage tanks in the tax-paid bottling house, must be constructed, secured, painted, and marked in accordance with the requirements of Regulations 4 (26 CFR, Part 183). Pipe lines used for the conveyance of distilled water to contiguous establishments operated under the internal revenue laws and regulations, must be independent ones, without any connection with any other pipe, tank, vessel, or utensil on the tax-paid bottling house premises, except the distilled water storage tank: *Provided*, That where distilled water is to be so conveyed from two or more distilled water storage tanks, the pipe line may be connected with such tanks by permanent manifold connections. Such pipe lines must be constructed of metal, and exposed to view throughout their entire lengths. The metal pipe lines in the tax-paid bottling house used for conveying the following substances shall be kept painted in the colors indicated:

Black	Spirits.
White	Water.
Aluminum	Steam.
Orange	Air.
Purple	Refrigerants.

These colors are intended for such pipe lines only, and are prescribed for the purpose of distinguishing such pipe lines from each other, and from all other pipe lines on the premises which are painted, but for which colors are not prescribed. The painting in one of the prescribed colors, or a color similar thereto, of a pipe line for which a color is not prescribed, is prohibited. Pipe lines for which colors are not prescribed may be painted in sections of contrasting colors. (Secs. 2829, 2871, 3176, I. R. C.)

§ 189.35 *Preparation.* Every plat and plan shall be drawn to scale, and each sheet thereof shall bear a distinctive title, enabling ready identification. The cardinal points of the compass must appear on each sheet, except the elevational plans. The minimum scale of any plat will not be less than 1/50 inch per foot. Each sheet of the original plat and plans shall be numbered, the first sheet being designated number 1, and the other sheets numbered in consecutive order. Plats and plans shall be submitted on sheets of tracing cloth, opaque cloth, or sensitized linen. The dimensions of plats and plans shall be 15 by 20 inches, outside measurement, with a clear margin of at least 1 inch on each side of the drawing, lettering, and writing. Plats and plans may be original drawings, or reproductions made by the "ditto process," or by blue or brown line lithoprint, if such reproductions are clear and distinct. (Secs. 2816, 3176, I. R. C.)

§ 189.36 *Depiction of premises.* Plats must show the outer boundaries of the tax-paid bottling house premises, in feet and inches, in a color contrasting with those used for other drawings on the plat, and must contain an accurate depiction of the building or buildings comprising the premises and any driveway, public highway, or railroad right-of-way adjacent thereto or connecting therewith. The depiction of the premises shall agree with the description in the notice, Form 27-E. If the premises are separated by a public highway or railroad right-of-way, and the tracts of land comprising the premises, or parts thereof, abut on such highway or right-of-way, opposite each other, the different tracts will be depicted separately, in feet and inches. If two or more buildings are to be used, the designated name of each shall be indicated, and all pipe lines or other connections, if any, between the same depicted. Where two or more buildings are used for the same purpose, the name of each such building shall include an alphabetical designation, beginning with "A," and they shall be so shown on the plat. All first floor exterior doors of each building on the premises will be shown on the plat. If the tax-paid bottling house consists of a room or a floor of a building, an outline of the building, the precise location and dimensions of the room or floor, and the means of ingress from, and egress to, a public street or yard shall be shown. Except as provided in § 189.42, all pipe lines leading to or from the premises, the purpose for which used, and points of origin and termination will be indicated on the plat. (Secs. 2871, 3176, I. R. C.)

§ 189.38 *Floor plans.* The plans shall include a floor plan of each floor of each building, showing the general dimensions of the rooms and floors and the location of all doors, windows, and other openings, and how such openings are protected. If a portion of a building is used, such as a room or floor, the floor plans will include only that portion and shall also show the means of ingress and

egress to the street. All apparatus and equipment must be shown in their exact location on the floor plans and their designated use indicated. Pipe lines may be shown, if desired. In the case of water stills, tanks and similar equipment, the serial number and capacity shall also be shown. (Secs. 2871, 3176, I. R. C.)

§ 189.39 *Elevational flow diagrams.* Elevational flow diagrams (plans) shall be submitted covering the flow of spirits from the time of receipt on the premises until the cased spirits are removed from the bottling room. Such diagrams or plans shall clearly depict all equipment in its relative operating sequence and elevation by floors with all connecting pipe lines, valves, flanges, measuring devices and attachments for Government locks. The elevation by floors on the diagrams may be indicated by horizontal lines representing floor levels. All major equipment, such as dump tanks, bottling tanks, filters, etc., must be identified on these plans as to number and use. The elevational flow diagram must be so drawn that all fixed pipe lines, except those indicated by § 189.42, may be readily traced from beginning to end. Other types of drawings that clearly depict the information required herein may be submitted in compliance with this section. (Secs. 2871, 3176, I. R. C.)

§ 189.40 *Pipe lines to rectifying plant or distillery.* The plans shall show pipe lines, if any, connecting the tax-paid bottling house with a rectifying plant or with the cistern room of a distillery for the transfer of tax-paid distilled spirits for bottling. The plans will show the relative location of the bottling house and the distillery or rectifying plant and also the bottling tank or storage tank to which such pipe lines are connected. (Secs. 2871, 3176, I. R. C.)

§ 189.43 *Certificate of accuracy.* The plat and plans shall bear a certificate of accuracy in the lower right hand corner of each sheet signed by the proprietor, the draftsman, and the district supervisor, substantially in the following form:

_____
(Name of proprietor)
_____
(Address)
Accuracy certified by:
_____
(Name and capacity—for the proprietor)
_____
(Draftsman)
_____, 19-- Sheet No. ----
(Date)
Approved_____
(Date)
_____
(District supervisor)
(Date)
(District supervisor)
TPBH No. ----

(Secs. 2871, 3176, I. R. C.)

§ 189.44 *Revised plats and plans.* The sheets of revised plats and plans shall bear the same number as the sheets superseded, but will be given a new date. Any additional plats and plans shall be given a new number in consecutive order, or will be otherwise numbered and lettered in such manner as will permit the filing of the plats and plans in proper sequence. (Secs. 2871, 3176, I. R. C.)

§ 189.48 *Procedure applicable.* The action by the district supervisor in connection with the establishment, and changes subsequent to establishment, of tax-paid bottling houses will be in accordance with the procedure, insofar as applicable, prescribed by the regulations governing the establishment, and changes subsequent to establishment, of the proprietor's distillery, internal revenue bonded warehouse, industrial alcohol plant, or industrial alcohol bonded warehouse: *Provided*, That where a bottling-in-bond department is operated alternately as a tax-paid bottling house, the district supervisor may authorize change in operations in accordance with Regulations 6 (26 CFR, Part 188). (Secs. 2871, 3176, I. R. C.)

§ 189.58 *Deposit in bottling house.* When spirits are received, the same must be deposited in the tax-paid bottling house. When distilled spirits are received at a tax-paid bottling house in a railroad tank car, or by pipe line from a distillery contiguous to or in the immediate vicinity of, the tax-paid bottling house, the same must be transferred or conveyed into storage tanks, unless the spirits are transferred or conveyed directly from the tank car or pipe line to bottling tanks. Distilled spirits may be shipped in tank cars to a tax-paid bottling house only where the bottling house is equipped with suitable railroad siding facilities. (Secs. 2871, 3176, I. R. C.)

§ 189.62 *Disposition of gauge report.* When distilled spirits received in a tank car or by a pipe line from a distillery are run into a storage tank, the report of gauge, Form 1520, in the case of spirits other than alcohol, and Form 1440 in the case of alcohol, sent to the proprietor of the tax-paid bottling house by the shipper, shall be attached to such storage tank. The proprietor shall enter the date and quantity of removals from the storage tank in a blank space on the report of gauge. The report of gauge shall be kept on the tank until such time as the quantity covered by such report has been withdrawn from the tank. The report shall then be filed by the proprietor, available for inspection by Government officers. If the distilled spirits are transferred directly from the tank car or by a pipe line from the distillery, into a bottling tank, the proprietor shall make a note to that effect on the report of gauge and file it. The requirements of this section shall not preclude bottling of the distilled spirits prior to receipt of Forms 1520 or 1440 when the distilled spirits are received by tank car. (Secs. 2871, 3176, I. R. C.)

§ 189.69 *Unstamped spirits.* When a stamp has been lost or mutilated by accident so that the required portion thereof cannot be returned, an affidavit setting forth all the facts in the case will be made by the proprietor and attached to each copy of Form 230. Where spirits received in tank cars bearing certificate of taxpayment, Form 1595, or spirits received by pipe line from the cistern room of a distillery, or rectified spirits by pipe line from a contiguous rectifying plant, or where spirits in stamped bottles are to be dumped, an explanatory statement will be made in the columns provided for the description of stamps on Form 230, as "Form 1595, Serial No. ---, dated ---, heretofore submitted," or "Form 1520 dated ------, pipe line transfer on Form 1595, Serial No. ----," or "See Form 237, S/N ---- Dated ------," or "In stamped bottles," as the case may be. (Secs. 2871, 3176, I. R. C.)

§ 189.100 *Shipment of stamps.* Where the stamps are to be shipped, the collector will forward the stamps to the Government officer by registered mail or express. The expense of forwarding the stamps by registered mail or express will be borne by the proprietor. The collector may furnish the stamps directly to the proprietor for immediate delivery to the Government officer in accordance with § 189.99a. (Sec. 3176, I. R. C.)

4. This Treasury decision shall be effective on the 31st day after its publication in the FEDERAL REGISTER.

5. This Treasury decision is issued under the authority contained in sections 2816, 2829, 2871, and 3176, Internal Revenue Code (53 Stat. 312, 318, 331, 375; 26 U. S. C. 2816, 2829, 2871, 3176).

Commissioner of Internal Revenue.

TITLE 35—PANAMA CANAL

Chapter I—Canal Zone Regulations

[Canal Zone Order No. 16]

PART 4—OPERATION AND NAVIGATION OF PANAMA CANAL AND ADJACENT WATERS

REQUIREMENTS CONCERNING OFFICERS, CREW, EQUIPMENT, AND PASSENGERS

Rule 35, codified herein as § 4.33, is amended to read as follows:

§ 4.33 *Officer on bridge when vessel moving.* When a vessel is moving in Canal Zone waters, otherwise than as covered by section 4.31, the master of the vessel or his qualified representative shall be present at all times on the bridge, to keep the pilot informed concerning the individual peculiarities in the handling of the vessel, so that the pilot may be better able to control the navigation and movement of the vessel. (Sec. 5, 37 Stat. 562, sec. 10, 42 Stat. 1008, 47 Stat. 578; 48 U. S. C. 1318; E. O. 9746, July 1, 1946, 11 F. R. 7329)

[Circular 737]

PART 31—OPERATION, USE AND MAINTENANCE OF THATCHER FERRY

By virtue of the authority vested in the Governor, subject to the approval of the Secretary of the Army, by section 342 of title 2 of the Canal Zone Code, the following regulations governing the operation, use and maintenance of Thatcher Ferry, near the Pacific entrance of the Panama Canal, are hereby prescribed, effective October 1, 1948:

Sec.
31.1 Regulations applicable to Thatcher Ferry and its appurtenances.
31.2 Driving onto or upon ramp.
31.3 Parking on ferryboat.
31.4 Maximum weight of vehicles.
31.5 Conduct of passengers.
31.6 Smoking prohibited.
31.7 Fishing prohibited.
31.8 Explosives.
31.9 Punishment for violations.

AUTHORITY: §§ 31.1 to 31.9 issued under 46 Stat. 388.

§ 31.1 *Regulations applicable to Thatcher Ferry and its appurtenances.* The regulations in this part shall apply to Thatcher Ferry, which is maintained, near the Pacific entrance of the Panama Canal, between La Boca, on the eastern shore of the Canal, and Thatcher Highway, extending from the ferry landing on the western shore of the Canal, and to the operation, use and maintenance of such ferry and of its equipment, wharves, docks and approaches.

§ 31.2 *Driving onto or upon ramp.* No person shall drive a vehicle onto a ferry ramp, either from shore or from a ferryboat, until a signal to do so is given by the employee designated for the purpose, or shall operate a vehicle onto or upon a ferry ramp otherwise than slowly and with caution.

§ 31.3 *Parking on ferryboat.* A person driving a vehicle onto a ferryboat shall park the vehicle in the place and manner directed by the Master of the ferryboat or his representative, and shall turn off the motor and lights and apply the parking brakes of such vehicle.

§ 31.4 *Maximum weight of vehicles.* No vehicle weighing in excess of 20 tons (40,000 pounds), including load, shall be driven onto or upon a ferryboat or ramp.

§ 31.5 *Conduct of passengers.* (a) A pedestrian passenger shall board a ferryboat only at the time and in the manner directed by the Master or his representative, and shall proceed without delay to the area designated by the Master or his representative and remain therein until authorized to leave or to disembark.

(b) No passenger, pedestrian or vehicular, shall leave the immediate vicinity of the place to which he, or the vehicle in which he boarded the ferryboat, has been directed; shall lean against or climb or sit upon any vehicle other than the one in which he boarded the ferryboat; shall sit or stand upon any railing; or shall interfere in any way with the operation or mooring of the ferryboat.

(c) No person shall board any ferryboat after it has begun to leave its mooring in the ferry slip, or shall leave a ferryboat before it has been moored and disembarkation has been authorized by the Master or his representative.

§ 31.6 *Smoking prohibited.* No person shall smoke, on deck or in any vehicle, while on board a ferryboat.

§ 31.7 *Fishing prohibited.* No person shall fish from any ferryboat, ramp, or slip structure.

§ 31.8 *Explosives.* No person shall bring aboard a ferryboat any Class I explosives (as defined in paragraph 19 of the regulations prescribed by the Governor on October 1, 1946, governing the storage, transportation, handling, and use of explosives on all work under the control of The Panama Canal and the Panama Railroad Company), commercial shipment of fireworks or pyrotechnics, gasoline in tank trucks, or gasoline in excess of 50 gallons in portable containers: *Provided, however*, That such explosives may be transported by ferry if specially authorized by the Superintendent, Dredging Division, The Panama Canal, when transportation over Miraflores Bridge or by other facilities is impracticable. No person shall bring aboard any gasoline in a portable container unless the container is a standard, substantial gasoline drum with a screw bung, or a metal can with a screw top, and is free from leaks, and unless an air space of at least two per centum of the total capacity of the container is left for expansion of the contents.

§ 31.9 *Punishment for violations.* Any person who shall violate any of the provisions of the regulations in this part shall be punishable, as provided in section 342 of title 2 of the Canal Zone Code, by a fine of not more than $100, or by imprisonment in jail for not more than thirty days, or by both.

Effective date. The regulations in this part shall become effective October 1, 1948.

F. K. NEWCOMER,
Governor.

Approved: November 18, 1948.

KENNETH C. ROYALL,
Secretary of the Army.

TITLE 46—SHIPPING

Chapter I—Coast Guard: Inspection and Navigation

Subchapter N—Explosives or Other Dangerous Articles or Substances and Combustible Liquids on Board Vessels

[CGFR 48-58]

PART 146—TRANSPORTATION OR STORAGE OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES, AND COMBUSTIBLE LIQUIDS ON BOARD VESSELS

HYDROCHLORIC ACID IN BULK

A notice regarding proposed changes in the regulations for transportation of hydrochloric acid in bulk was published in the FEDERAL REGISTER dated August 11, 1948 (13 F. R. 4638), and a public hearing was held by the Merchant Marine Council on September 28, 1948, at Washington, D. C.

The purpose of this amendment to the regulations is to effect editorial changes and to permit certain practices to be employed by the industry in the construction or repair of tanks designed to carry hydrochloric acid in bulk, eliminate the requirements for radiographic and stress relief tests in the construction of tanks used in the transportation of hydrochloric acid in bulk, and to further change the regulations so that consistent practices in the construction of containers for the transportation of commercial acids in bulk will be allowed.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by R. S. 4405, 4472, and sec. 5 (e), 55 Stat. 244, as amended, 46 U. S. C. 170, 375, 50 U. S. C. 1275, and section 101 of Reorganization Plan No. 3 of 1946, 11 F. R. 7875, the following amendment to the regulations is prescribed and shall become effective on and after date of publication of this document in the FEDERAL REGISTER since it allows consistent practices to be followed in the construction of containers for the transportation of commercial acids in bulk:

Section 146.23-13 is amended to read as follows:

§ 146.23-13 *Hydrochloric acid in bulk.* (a) Hydrochloric acid may be transported in bulk on board cargo vessels when laden in rubber or other approved lined tanks (pressure-vessel type) independent of the structure of the vessel. Tanks shall be designed for a pressure of not less than 50 pounds per square inch, and shall be constructed, inspected, and tested in compliance with the requirements for Class II arc-welded, unfired pressure vessels, as set forth in Parts 50 to 57, inclusive, of Subchapter F (Marine Engineering) of this chapter, or in compliance with the requirements of Interstate Commerce Commission specification 103B or 103BW. (See also § 146.02-18.)

(b) An application for approval to engage in the transportation of hydrochloric acid in bulk on board vessels shall be made to the Commandant of the Coast Guard. Such application shall include plans of the structure of the vessel; plans of the design of the tank (except Interstate Commerce Commission approved tanks) showing thereon complete data covering materials to be used and method of fabrication; plans of the design indicative of the manner in which the tank is to be installed and secured on board the vessel; plans showing layout of piping, valves, and fittings forming part of the tank, and also piping, valves, and fittings to be installed on the vessel for use in loading or unloading hydrochloric acid in or from the tank. Plans shall be in sufficient detail to provide complete information with reference to the vessel, the tank, and the system of piping, valves, and other appurtenances.

(c) Independent tanks shall be so fitted as to provide sufficient space between the tank and any fixed structural part of the vessel, or in lieu thereof, the installation shall be such as it will be practicable to move said tanks, for inspection of the structure of the vessel and the tanks.

(d) Prior to the installation of the rubber or other approved lining, hydrochloric acid tanks shall have their interior surfaces prepared to receive the lining. Welds shall be chipped or ground smooth. The interior surface shall be thoroughly cleaned and maintained free of foreign matter during the lining

process. The rubber or other approved lining shall be of a type resistant to hydrochloric acid and shall be bonded to the plating. Piping forming the loading or discharge line, if of steel, shall be lined with rubber or other approved material to withstand the action of the lading. Flange connections shall be adequately protected from acid coming in contact therewith by means of rubber or other approved lining.

(e) (1) Piping, valves, and fittings used in the loading or unloading of hydrochloric acid shall be of material that will withstand the severe corrosive action of the acid.

(2) Piping may be one of the following materials:

(i) Steel pipe, with approved lining, not less than 2" inside diameter before lining.

(ii) Strong, acid resistant, pressure-suction type hose.

(iii) Hard rubber pipe.

(3) The flange connections, if of steel, shall be adequately protected from acid coming in contact therewith by means of rubber or other approved lining.

(f) (1) When air pressure is used for unloading acid, the air line shall include fittings installed in the following order:

(i) An "ell" having a flange on one end to connect with the air inlet flange on the tank with a full faced soft rubber gasket. The opposite end of the "ell" may consist of a flange or ordinary pipe connection to take either a pipe or flexible hose.

(ii) When desired an acid-resistant flexible hose of optional length may be installed between the "ell" and the fixed air piping leading to the compressor.

(iii) A bleeder valve to release air pressure.

(iv) A pop valve set to blow at 30 pounds pressure.

(v) An air gauge.

(vi) A pressure-reducing valve set at 30 pounds.

(vii) An air shutoff valve.

(viii) A water separator or trap.

(2) When it is desired to install these fittings as part of the shore system, the only portion of this assembly that is required to be part of the vessel's equipment shall consist of the "ell", the bleeder valve to release air pressure, the pop valve set to blow at 30 pounds per square inch pressure, and and air shutoff valve which shall be located at the dome of each tank.

(g) (1) Upon satisfactory completion of tests and inspection the following marking, at least 3/8" high, shall be stamped into the metal of the tank, or stamped into a noncorrodible name plate permanently attached to the tank by means of welding.

(Name and address of fabricator)

---- p. s. i. ---- p. s. i.
(Design pressure) (Shop test pressure)

(Inspector's number, initials, and CG symbol)

(Fabricator's serial number)

----U. S. gallons
(Water capacity)

(Date of manufacture)

(2) In addition to the markings required by this subparagraph and by the regulations in Parts 50 to 57, inclusive, in Subchapter F (Marine Engineering) of this chapter, the legend "Hydrochloric acid only" shall be stenciled or painted in block letters (such stenciling or lettering to be at least 2" high) upon the dome or upper portion of the tank in a position plainly visible under operating conditions. Lettering must be maintained legible at all times.

(h) Tanks approved for the transportation of hydrochloric acid shall not be used for the transportation of any other commodity, except upon specific authorization of the Commandant of the Coast Guard.

(j) Spent hydrochloric acid or hydrochloric acid adulterated by other chemicals, inhibitors, oils, solvents, water, etc., shall not be accepted or transported in bulk on board vessels in containers approved for the transportation of hydrochloric acid, except upon specific authorization of the Commandant of the Coast Guard.

(k) Loading or unloading of hydrochloric acid may be accomplished by use of acid pump, siphon, or compressed air method. Gravity loading is also permissible, provided the tank on the vessel is not subjected to a pressure greater than 30 pounds per square inch.

(l) Filling and discharge pipe connections shall be kept disconnected at the tank and the outlets shall be blanked off at the tank, except when actually loading or unloading the tank: *Provided, however*, That such piping need not be disconnected when an efficient stop valve is fitted in the line in a location as close to the tank as is practicable.

(m) Filling or discharge connections shall not be detached until pressure in the tank and in the line has been completely released.

(n) If air pressure is used in either filling or discharging the lading of the tank, said air pressure shall not be in excess of 30 pounds per square inch at any time.

(o) Compressed air used for unloading shall be as free as possible from oil, moisture, or other foreign matter. To insure this the air supply shall be taken from the top of the air receiver (reservoir). This reservoir shall be drained at regular intervals. Compressor shall be disconnected from air lines at all times except when actually being used to fill or discharge contents of tank. The air lines shall be thoroughly blown out in a reverse direction before making connections to discharge acid. The open end of the air line at the point of connection to the shore system and tank shall be blanked off when not in use.

(p) Tools used in the operation of loading or unloading of the acid shall be kept clean and so used as to prevent damage to the lining of dome closures, piping, or fittings. A hammer or chisel shall not be used for loosening dome fittings, for connecting or disconnecting the filling, discharge, or air lines, or upon the tank at any time while it is filled with acid or is under discharge pressure.

(q) Gauging rods, if used, shall be of wood. The lower end of such rods shall be equipped with a soft rubber plug.

(r) Tools, bolts, nuts or other material dropped in a tank through dome openings shall be removed from the tank before the next loading.

(s) Organic solvents, oils, and greases, even in the most minute quantity, shall never be used where they come in contact with the coated surfaces of the tank, dome, opening covers, or discharge lines. To lubricate nuts or bolts, a mixture of flake graphite and glycerol shall be used.

(t) Tanks shall normally be kept closed to prevent sunlight from coming in contact with the lining. Connecting flanges of lined pipe shall, "when broken," be protected from the action of sunlight.

(u) The interior of the tank shall be protected from the weather. Water or other liquids shall not be introduced into tanks, except upon permission of competent authority. Persons shall not be permitted to enter tanks, except upon permission of competent authority.

(v) Before an Interstate Commerce Commission tank is first placed in service, the vessel owner shall furnish the Commandant of the Coast Guard a report certifying that the tank and its equipment comply with all the requirements of Interstate Commerce Commission specification 103B or 103BW. (R. S. 4405, 4472, and sec. 5 (e), 55 Stat. 244, as amended, 46 U. S. C. 170, 375, 50 U. S. C. 1275, and section 101 of Reorg. Plan No. 3 of 1946, 11 F. R. 7875)

Dated: November 17, 1948.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 946]

HANDLING OF MILK IN THE LOUISVILLE, KY., MARKETING AREA

DECISION WITH RESPECT TO A PROPOSED MARKETING AGREEMENT AND TO A PROPOSED ORDER, AMENDING THE ORDER, AS AMENDED

Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders (7 CFR Supps., 900.1 et seq.), a public hearing was held at Louisville, Kentucky, on November 5, 1948, pursuant to a notice issued on October 30, 1948 (13 F. R. 6424).

Preliminary statement. The proposed amendment upon which the hearing was held was submitted by the Falls Cities Cooperative Milk Producers' Association.

The material issues presented on the record of the hearing were whether:

1. The pricing provisions of Order No. 46, as amended, should be amended to provide Class I and Class II milk prices for a limited period in 1948 and 1949, but not beyond March 1949, at not less than the prices in effect for such classes in September 1948.

2. An emergency exists which warrants immediate effectuation of the proposed amendment to the order, as amended.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of the Falls Cities Cooperative Milk Producers' Association and the handlers who would be subject to the proposed marketing agreement and to the order, as amended, and as hereby proposed to be further amended. The briefs contained statements in the nature of suggested findings of fact, conclusions, and arguments with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinafter set forth. To the extent that any of the suggested findings and conclusions contained in the briefs are inconsistent with the findings and conclusions contained herein, the requests to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions of this decision.

Findings and conclusions. The findings and conclusions with respect to the aforementioned material issues, all of which are based on the evidence introduced at the hearing and the record thereof, are as follows:

(1) The Class I and Class II milk prices should not be less than $5.16 and $4.61 per hundredweight, respectively, from the effective date of this amendment through January 1949, and such prices for the month of February 1949 should not be less than $4.94 and $4.39 per hundredweight, respectively.

Under the present pricing provisions of the order the price for Class I and Class II milk is determined by adding specified differentials to the basic formula price.

Prices for Class I and Class II milk under the Louisville order declined 73 cents per hundredweight from July to October of this year. This decline was the result of lower prices paid by condenseries for milk for manufacturing uses and lower wholesale prices for butter which together determined the basic formula price for Class I and Class II milk under the Louisville order during this period. This decline in basic prices and in Class I and Class II prices to $4.965 and $4.415, respectively, has occurred during months when farm prices of milk for both the fluid market and for manufacturing uses would normally be expected to increase seasonally.

The producer proposal would provide that the price of Class I and Class II milk through March 1949 would not be less than the September 1948 price for such milk; $5.493 and $4.943, respectively. Producers contend that a contraseasonal movement of milk prices is not justified in view of the continuing high cost of producing milk. While there has been a substantial drop in the price of grain and other concentrates during recent months this drop in the price of concentrates has been offset to a considerable extent by increasing hay prices in the Louisville area. This increase in hay prices is a local situation brought about by a severe drought which affected much of the milkshed area, substantially reducing hay yields and deriorating pastures, thus forcing farmers to open silos and start feeding hay much earlier than usual. Many producers in the milkshed, which is not normally considered a hay deficit area, already are buying hay and at prices which have increased as much as 25 percent in the past thirty days and more in relation to prices a year ago. The costs of labor, machinery, equipment, and other supplies which dairy farmers must buy are at least as high as, or higher than, the costs of the same items in earlier months. Roughages and labor make up a relatively greater portion of the producers' costs as cows are taken off of pasture and handled in the barn during the fall and winter months. Thus a number of the costs incurred in the production of milk in the Louisville milkshed have increased at the same time milk prices have declined. A continuation of the present relationship of milk prices to costs will seriously threaten the supply of milk for the Louisville market. The testimony indicated that with the relatively high prices for beef, farmers will curtail or even liquidate their herds. With the relatively large corn crop in the area producers are likely to turn to hog production under the prevailing favorable hog-corn ratio.

The contraseasonal movement of milk prices, happening at a time of the year when production costs normally increase, has caused considerable uncertainty as to price movements and levels during the next few months in the Louisville milkshed. For five years a fall production premium plan has been in operation in this market for the primary purpose of increasing the supply of milk during the fall and winter months. To allow a drastic contraseasonal movement of prices at this time would tend to nullify the effect of the fall production premium plan. Although prices in October and prospective November prices have declined to unfavorable levels the stabilization of prices at a somewhat higher level beginning December 1 will provide producers the necessary assurance to carry them through the heavy feeding period of the year and will contribute to the seasonal pricing program of the market.

The record shows that Class I sales in the marketing area are running substantially above sales during the same period in 1947. During September Class I sales were 8.22 percent above sales during August 1948 and 4.64 percent above September 1947. At the same time production during September was only 1.25 percent above production a year ago and the seasonal decline in production during September as compared to August was 8.03 percent as compared to a decline of only 3.70 percent in the same period last year.

There is a substantial quantity of milk produced for manufacturing purposes in the Louisville supply area. It is generally accepted in the market that over a period of time fluid milk prices must maintain a relationship with manufacturing milk prices. If manufactured milk prices become established on a somewhat lower level it is to the best interest of the Louisville market at this time to make an adjustment to a lower level gradually as production normally tends to increase. At this time it is impossible to determine whether the recent drop in condensary prices and the general weakening of wholesale prices of dairy products represents a general decline in the level of prices or a temporary maladjustment in such prices. Even if it is a decline in the level of prices, it is not felt, under the present circumstances of continuing high production costs and generally short supply in the Louisville market, that a drastic contraseasonal movement of prices should prevail.

In view of the above-stated facts it appears reasonable that prices during December 1948 and January 1949 should not fall below the $5.16 level for Class I milk and $4.61 for Class II milk.

While costs have remained relatively high, nevertheless, the historical relationship between manufacturing milk

prices and prices to producers in the Louisville market indicates that a higher price than proposed herein could result in uneconomical marketing responses. The Class I and Class II prices in February 1949 should not decrease more than 22 cents from the corresponding prices in January. Producers will be assured that Class I prices will be higher than the October level of $4.96 for the months of December through January 1949 and of a gradual adjustment to a lower level of prices in early 1949 if such level then prevails. The establishment of fixed minimum prices for Class I and Class II milk through February 1949 is necessary to assure an adequate supply of pure and wholesome milk for the Louisville market. It is also particularly important to the maintenance of present herds for future supplies, and is necessary to promote orderly marketing and is in the public interest.

(2) An emergency exists which requires that action be taken promptly to amend the order, as amended, to effectuate the findings and conclusions set forth above without allowing time for a recommended decision by the Assistant Administrator, Production and Marketing Administration and the filing of exceptions thereto. The due and timely execution of the functions of the Secretary of Agriculture under the act imperatively and unavoidably requires the omission of such recommended decision and the filing of exceptions thereto. The testimony shows that under the prevailing conditions the decline in Class I and Class II prices is now seriously threatening the supply of milk for the marketing area. Any delay beyond December 1, 1948, in effectuating the needed changes in the order, as amended, would seriously threaten an adequate supply of pure and wholesome milk for the Louisville market, and would be contrary to the public interest.

(3) *General.* (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The prices calculated to give milk produced for sale in the said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to §§ 2 and 8c of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect the market supply of and demand for such milk, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity, specified in the marketing agreement upon which a hearing has been held.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing agreement regulating the handling of milk in the Louisville, Kentucky, marketing area," and "Order amending the order, as amended, regulating the handling of milk in the Louisville, Kentucky, marketing area," which have been decided upon as the appropriate and detailed means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 19th day of November 1948.

[SEAL] A. J. LOVELAND,
Acting Secretary of Agriculture.

Order,[1] *Amending the Order, as Amended, Regulating the Handling of Milk in the Louisville, Kentucky, Marketing Area*

§ 946.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary to and in addition to the findings and determinations made in connection with the issuance of this order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure, as amended, governing the formulation of marketing agreements and orders (7 CFR, Supps., 900.1 et seq.), a public hearing was held November 5, 1948, upon a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Louisville, Kentucky, milk marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8e of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect the market supply of and demand for such milk, and the minimum prices specified in the order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

Order Relative to Handling

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Louisville, Kentucky, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. Delete the period (.) at the end of § 946.4 (b) (1) and add the following: ": *Provided,* That for the delivery periods from the effective date of this ordered through January 1949 the price for Class I milk shall not be less than $5.16; and that for the delivery period of February 1949 the price for Class I milk shall not be less than $4.94:"

2. Delete the period (.) at the end of § 946.4 (b) (2) and add the following: ": *Provided,* That for the delivery periods from the effective date of this order through January 1949 the price for Class II milk shall not be less than $4.61; and that for the delivery period of February 1949 the price for Class II milk shall not be less than $4.39."

[F. R. Doc. 48-10287; Filed, Nov. 24, 1948; 8:46 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

NORTHWEST OKLAHOMA CATTLEMEN'S ASSOCIATION, INC.

INSPECTION OF LIVESTOCK

The Northwest Oklahoma Cattlemen's Association, Inc., Woodward, Oklahoma, pursuant to the provisions of section 317 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 217), has made written application to the Secretary of Agriculture for authorization to charge and collect at posted stockyards a reasonable and non-discriminatory fee for the inspection of brands, marks and other identifying characteristics of livestock originating in or shipped from the counties of Beaver, Cimarron, Ellis, Dewey, Harper, Major, Roger Mills, Texas, Woods and Woodward in the State of Oklahoma for the purpose of determining the ownership of such livestock, and the Secretary proposes to issue such an authorization to the Northwest Oklahoma Cattlemen's Association, Inc., in accordance with the provisions of the act referred to.

Therefore, notice is hereby given that any interested person who desires to do so may submit, within 15 days after the publication of this notice, any data, views, or argument, in writing, on the proposed rule to the Director, Livestock Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

Done at Washington, D. C., this 19th day of November 1948.

TOBACCO INSPECTION AT TOBACCO AUCTION MARKET OF GLASGOW, KY.

NOTICE OF DETERMINATION RELEVANT TO NUMBER OF INSPECTORS

Pursuant to the authority vested in the Secretary of Agriculture by The Tobacco Inspection Act (49 Stat. 731; 7 U. S. C. 511 et seq.), and applicable regulations duly issued thereunder, it is hereby found that the tobacco auction market at Glasgow, Kentucky, which was duly designated for free and mandatory inspection under the act (6 F. R. 5478), and which has operated with two sets of tobacco inspectors assigned thereto for more than two full tobacco auction seasons ending with the tobacco auction season last past, has, in reliance on such prior assignments and with the expectation that two sets of tobacco inspectors would be assigned to such market for the ensuing tobacco marketing season of 1948–1949, perfected banking arrangements, purchased supplies, hired personnel, and scheduled tobacco deliveries, which actions cannot be rescinded prior to the beginning of such 1948–1949 tobacco auction season without extensive disruption of the Glasgow tobacco auction market and the incurrence of financial loss.

Wherefore, notice is hereby given that two sets of tobacco inspectors will be assigned to the Glasgow, Kentucky, tobacco auction market for the 1948–1949 tobacco marketing season, or such portion thereof as the volume of tobacco auctioned on such market warrants, and all prior notices of the assignment of inspectors to this market are modified accordingly.

DEPARTMENT OF COMMERCE

Office of Industry Cooperation

VOLUNTARY PLAN UNDER PUBLIC LAW 395, 80TH CONGRESS, FOR ALLOCATION OF STEEL PRODUCTS FOR CONSTRUCTION, RECONVERSION AND REPAIR OF MERCHANT VESSELS

The Secretary of Commerce, pursuant to the authority vested in him by Public Law 395, 80th Congress, and Executive Order 9919 (after consultation with representatives of the steel producing industry and of the shipbuilding industries, of the U. S. Maritime Commission, and the National Military Establishment, and after expression of the views of industry, labor and the public generally at an open public hearing held on October 21, 1948), has determined that the following plan of voluntary action is practicable and is appropriate to the successful carrying out of the policies set forth in Public Law 395:

1. *What this plan does.* This plan is in furtherance of a proposed program of the United States Maritime Commission for the construction, reconversion, and repair of merchant vessels. It sets up the procedure under which steel producers (hereinafter called producers) agree voluntarily to make steel products available to builders, reconverters and repairers of merchant vessels who comply with the provisions of this plan (hereinafter called participating builders), for use in the construction, reconversion, or repair of certain merchant vessels. For the purpose of this plan, the term "Merchant Vessels" means commercial steel self-propelled passenger, dry cargo, and passenger-cargo ships (other than tankers) which are (a) of 1,000 DWT or larger, (b) designed for, or employed in, ocean-going, coastal or Great Lakes use, and (c), in the case of vessels to be constructed or substantially altered, specifically designated by the U. S. Maritime Commission as being within the scope of this plan. The plan does not include provision for construction or repair of yard, way, or dock facilities.

2. *Agreement by steel producers.* Beginning with the month of January 1949 and continuing during the period this plan remains in effect, producers will make available, out of their own production or that of their producing subsidiaries or affiliates, to participating builders a total of 10,190 net tons of steel products per month, distributed by types approximately as follows:

Type:	Net tons per month
Structural Shapes	939
Bars	165
Pipe	296
Plate—under 5/8"	3,303
Plate—5/8" and over	2,294
Sheets—black	126
Sheets—galvanized	266
[1] Miscellaneous—for repairs	2,801
Total net tons per month	10,190

[1] Classification to be determined later.

Producers will, from time to time, however, upon request of the Secretary of Commerce, give consideration to making additional quantities available.

3. *Determination of quantities to be furnished by respective producers.* Unless otherwise specified in its acceptance of this plan, the quantities to be made available by each producer, as its commitment under this plan, will be such as the Secretary of Commerce, after consulting the Steel Task Committee of the Office of Industry Cooperation of the Department of Commerce, determines to be fair and equitable. Producers will take credit against their commitments under this plan only for quantities delivered to participating builders on orders certified in accordance with paragraph 9 below.

4. *Contractual arrangements.* Such products will be made available under such contractual arrangements as may be made by the respective producers, or their producing subsidiaries and affiliates, with the respective participating builders. No request or authorization will be made by the Department of Commerce relating to the allocation of orders or customers, the delivery of steel products, the allocation of business among participating builders, or any limitation or restriction on the productions or marketing of any steel products. This plan does not authorize nor approve any fixing of prices, and participation in this plan does not affect the prices or terms and conditions on which any steel products are actually sold and delivered.

5. *Limitations as to types, sizes and quantities.* A producer need make available under this plan only those products which are within the type and size limitations of the mill or mills which it may select for the fulfillment of its commitment under this plan. The quantities which it may have undertaken to make available in any month may be reduced, or at its option their delivery may be postponed, in direct proportion to any production losses during the month due to causes beyond its control.

6. *Reports from steel producers.* Each producer will, if requested by the Office of Industry Cooperation of the Department of Commerce (subject to approval of the Bureau of the Budget under the Federal Reports Act of 1942), submit to that office periodic reports of the total quantities, by types, of products shipped, and accepted for shipment, under the plan.

7. *Reports from participating builders.* Each participating builder will submit the following to the Secretary of Commerce:

(a) *Requirements report.* A report showing the quantities and types of (i) Merchant Vessels (as defined in paragraph 1 above) scheduled for construction, reconversion, or repair during each month under this plan, and (ii) steel products required therefor. The quantities and types of steel products to be made available monthly under the plan to individual participating builders will be determined by the Secretary of Commerce after consultation with the Merchant Vessel Industry Task Committee, subject to such revision, if any, from time to time, as may be deemed necessary by the Secretary of Commerce after consultation with that Committee.

(b) *Monthly steel consumption report.* A monthly report showing the total quantities and types of steel products (i) received by the participating builder from all sources during the preceding month for the construction, reconversion, or repair of Merchant Vessels and (ii) consumed by it during that preceding month for that purpose. Such a report should accompany the requirements report explained in paragraph 7 (a) above and, in addition, should subsequently be submitted within ten days after the end of each month during which the participating builder obtains steel products under this plan.

(c) *Other reports.* Such other relevant reports as may be requested from time to time by the Secretary of Commerce (subject to the approval of the Bureau of the Budget under the Federal Reports Act of 1942).

8. *Obligations of participating builders.* By participation in this plan, each participating builder shall be obligated as follows: To use all products obtained under this plan solely for and in the construction, reconversion, or repair of Merchant Vessels (as defined in paragraph 1 above); not to resell or transfer any products so obtained under this plan in the form received by the participating builder; and not to build up, beyond current needs, any inventories of products obtained, or end products manufactured, under this plan. If a participating builder becomes unable to use, for the purposes of this plan, any products obtained under the plan, he shall be further obligated to hold them subject to such other use or disposition (including re-allocation to other consumers or return to the producer from whom purchased) as shall be authorized by the Office of Industry Cooperation of the Department of Commerce.

9. *Procedure for placing orders under this plan.* Purchase orders under this plan are to be placed with participating producers, or their producing subsidiaries or affiliates. Each such purchase order shall bear the following certification by the participating builder:

DEPARTMENT OF COMMERCE VOLUNTARY PLAN, UNDER PUBLIC LAW 395, 80TH CONGRESS, FOR ALLOCATION OF STEEL PRODUCTS FOR CONSTRUCTION, RECONVERSION AND REPAIR OF MERCHANT VESSELS

The undersigned certifies to the seller and to the Department of Commerce that the products specified in this order will be used solely for and in the construction, reconversion or repair of Merchant Vessels, and that this order is placed under, and in strict compliance with, the above Voluntary Plan, with which the undersigned is familiar and in which the undersigned is a participant.

By: _____
(Title of duly authorized officer)

_____
(Date)

10. *Procedure for, and effect of, becoming a participant.* After approval of this plan by the Attorney General and by the Secretary of Commerce, and after requests for compliance with it have been made of steel producers and of builders, reconverters, and repairers of Merchant Vessels by the Secretary of Commerce, any such producer, builder, reconverter, or repaier may become a paticipant in this plan by advising the Secretary of Commerce, in writing, of its acceptance of such request. Such requests for compliance will be effective for the purpose of granting certain immunity from the antitrust laws and the Federal Trade Commission Act, as provided in section 2 (c) of Public Law 395, only with respect to such producers, builders, reconverters, and repairers as notify the Secretary of Commerce in writing that they will comply with such requests.

11. *Effective date and duration.* This plan shall become effective upon the date of its final approval by the Secretary of Commerce. It shall cease to be effective at the close of business on February 28, 1949, unless the time limitation of March 1, 1949 now specified in section 2 (b) of Public Law 395, 80th Congress, is extended or otherwise changed by legislative action in a form which permits continuation of this plan, in which event this plan shall thereupon automatically continue in effect through September 30, 1949 (or through the date specified in such legislative action if a date earlier than September 30, 1949 is so specified). However, the plan may be terminated on such earlier date as may be determined by the Secretary of Commerce, upon not less than 60 days notice by letter, telegram, or publication in the FEDERAL REGISTER.

12. *Withdrawal from plan.* Any producer or participating builder may withdraw from this plan by giving not less than 60 days written notice to the Secretary of Commerce.

13. *Clarifying interpretations.* Any interpretation issued by the Secretary of Commerce (after consultation with the Attorney General), in writing, to clarify the meaning of any terms or provisions in this plan shall be binding upon all participants notified of such interpretation.

Approved: November 5, 1948.

CHARLES SAWYER,
Secretary of Commerce.

Approved: November 3, 1948.

TOM C. CLARK,
Attorney General.

NOVEMBER 8, 1948.

GENTLEMEN: A Voluntary Plan, under Public Law 395, 80th Congress, for the Allocation of Steel Products for Construction, Reconversion and Repair of Merchant Vessels has been approved by the Attorney General. Acting by delegation from the President under Executive Order 9919, I have determined that the Plan is practicable and is appropriate to the successful carrying out of the policies set forth in Public Law 395, and have approved the Plan. A copy of the Plan is enclosed.

By virtue of the terms of Public Law 395 and Executive Order 9919, I hereby request compliance by you with the Plan. For your convenience, I am enclosing a suggested form[1] for your use in evidencing your acceptance of this request for compliance by you with the Plan.

Similar requests are being sent to other members of your industry.

This request will not be effective for the purpose of granting immunity from the antitrust laws and the Federal Trade Commission Act, as provided in Section 2 (c) of Public Law 395, 80th Congress, unless you agree in writing to comply with the plan.

In accordance with paragraph 3 (a) of the Plan, the Secretary of Commerce will determine your allocation of steel products under the Plan.

It is essential, in carrying out the proposed plan, that I know as promptly as possible how many shipbuilders and repairers desire to participate in the Plan. I trust, therefore, that I may receive your favorable response on or before November 15, 1948. If I do not receive your acceptance by that date, I shall assume that you do not wish to participate.

Sincerely yours,

CHARLES SAWYER,
Secretary of Commerce.

NOVEMBER 8, 1948.

GENTLEMEN: A Voluntary Plan, under Public Law 395, 80th Congress, for the Allocation of Steel Products for the Construction, Reconversion and Repair of Merchant Vessels, has been approved by the Attorney General. Acting by delegation from the President under Executive Order 9919, I have determined that the Plan is practicable and is appropriate to the successful carrying out of the policies set forth in Public Law 395, and have approved the Plan. A copy of the Plan is enclosed.

In accordance with the provision of Paragraph 3 of the Plan, an initial determination has been made by me with respect to the monthly quantities of each type of steel product which should be made available by each steel producer who is expected to become a participant in the Plan.

By virtue of the terms of Public Law 395 and Executive Order 9919, I hereby request compliance by you with the Plan. For your convenience I am enclosing a suggested form[1] for your use in evidencing your acceptance of this request for compliance by you with the Plan. The enclosed form specifies the monthly quantities of each type of steel product which it has been initially determined by me with the advice of the Industry Task Committee, in accordance with Paragraph 3 of the Plan, should be made available by you during the period this Plan shall remain in effect.

Similar requests are being directed to all other steel producers who are expected to become participants in the Plan.

This request will not be effective for the purpose of granting immunity from the antitrust laws and the Federal Trade Commission Act, as provided in Section 2 (c) of Public Law 395, unless you promptly agree in writing to comply with the Plan.

I trust that your favorable response to this request will be promptly communicated to me.

Sincerely yours,

CHARLES SAWYER,
Secretary of Commerce.

NOTE: The above request for compliance with the Department of Commerce Voluntary Plan for Allocation of Steel Products for Construction, Reconversion, and Repair of Merchant Vessels listed on an attachment filed with the original document.

THE NATIONAL ARCHIVES — LITTERA SCRIPTA MANET — 1934 — OF THE UNITED STATES

FEDERAL REGISTER

VOLUME 13 NUMBER 231

Washington, Saturday, November 27, 1948

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

[Orange Reg. 154]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.411 *Orange Regulation 154*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR and Supps. Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. and Sup. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and a reasonable time is permitted, under the circumstances, for such effective date.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., November 29, 1948, and ending at 12:01 a. m., e. s. t., December 20, 1948, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in Regulation Area I or Regulation Area II which grade U. S. No. 2 Bright, U. S. No. 2, U. S. No. 2 Russet, U. S. No. 3, or lower than U. S. No. 3 grade;

(ii) Any oranges, except Temple oranges, grown in Regulation Area I or Regulation Area II which are of size smaller than a size that will pack 288 oranges, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(iii) Any Temple oranges, grown in Regulation Area I or Regulation Area II, which grade U. S. No. 2 Russet, U. S. No. 3, or lower than U. S. No. 3 grade.

(2) As used in this section, the terms "handler," "ship," "Regulation Area I," and "Regulation Area II" shall each have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 2 Bright," "U. S. No. 2," "U. S. No. 2 Russet," "U. S. No. 3," "standard pack," and "standard nailed box" shall each have the same meaning as when used in the United States Standards for Oranges (13 F. R. 5174, 5306). (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

LIMITATION OF SHIPMENTS

§ 933.413 *Grapefruit Regulation 105*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR and Supps., Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. and Sup. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective date.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., November 29, 1948, and ending at 12:01 a. m., e. s. t., December 20, 1948, no handler shall ship:

(i) Any grapefruit of any variety, grown in the State of Florida, which grade U. S. No. 2 Russet, or lower than U. S. No. 2 Russet;

(ii) Any seeded grapefruit, other than pink grapefruit, grown in the State of Florida which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(iii) Any pink seeded grapefruit grown in the State of Florida which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(iv) Any seedless grapefruit of any variety, grown in the State of Florida, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, "handler" and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order; and the terms "U. S. No. 2 Russet," "standard pack," and "standard nailed box" shall each have the same meaning as when used in the United States Standards for Grapefruit (13 F. R. 4787). (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

EDITORIAL CHANGES INCIDENT TO PREPARATION OF CODE OF FEDERAL REGULATIONS, 1949 EDITION

In order to conform Chapter I of Title 21 to the scope and style of the Code of Federal Regulations, 1949 Edition, authorized and directed by Executive Order 9930 of February 4, 1948 (13 F. R. 519), the following editorial changes are made, effective upon publication in the FEDERAL REGISTER:

1. The codification of Part 1, Organization and Procedures, is discontinued. Future amendments to statements of organization will be published in the Notices section of the FEDERAL REGISTER.

2. Part 2, Regulations for the Enforcement of the Federal Food, Drug, and Cosmetic Act, is redesignated Part 1.

3. The headnote to Part 10 is amended to read "General Regulations Relating to Definitions and Standards for Food."

Dated: November 22, 1948.

PART 15—CEREAL FLOURS AND RELATED PRODUCTS; DEFINITIONS AND STANDARDS OF IDENTITY

WHEAT FLOUR AND RELATED PRODUCTS

In the matter of amending the definitions and standards of identity for flour, enriched flour, bromated flour, enriched bromated flour, self-rising flour, enriched self-rising flour, phosphated flour, whole wheat flour, bromated whole wheat flour, and whole durum wheat flour:

By virtue of the authority vested in the Federal Security Administrator by the provisions of the Federal Food, Drug, and Cosmetic Act (Secs. 401, 701; 52 Stat. 1046, 1055; 21 U. S. C. 341, 371), and upon the basis of substantial evidence received at the hearing held pursuant to notice published in the FEDERAL REGISTER on August 26, 1948 (13 F. R. 4964), no exceptions having been filed to the tentative order issued by the Federal Security Administrator and published in the FEDERAL REGISTER on November 2, 1948 (13 F. R. 6456), the following order is hereby made:

Findings of fact.[1] 1. By order published in the FEDERAL REGISTER on May 27, 1941 (6 F. R. 2579; 21 CFR, Cum. Supp. 15.00, 15.10, 15.20, 15.30, 15.50, 15.60, 15.70, 15.80, 15.90, and 15.100), as amended (13 F. R. 4231), the standards of identity for flour, enriched flour, bromated flour, enriched bromated flour, self-rising flour, enriched self-rising flour, phosphated flour, whole wheat flour, bromated whole wheat flour, and whole durum wheat flour provided for the use of nitrogen trichloride as an optional bleaching ingredient, under prescribed conditions.

2. Since the promulgation of these standards it has been found that flour treated with nitrogen trichloride has caused in dogs certain toxic manifestations known as canine hysteria. Experiments by qualified investigators have shown that flour treated with large quantities of nitrogen trichloride is toxic to some animals in addition to dogs. Although the experimental work on humans is limited, no adverse effect as a result of foods prepared from flours treated with nitrogen trichloride has been found. (R. 13–16, 37–39, 41–44, 47–48, 63, 70–71, 83–86, 90, 103–105, 107–109, 112–115, 130–136, 160–161, 165–167, 208–210, 217–218, 283–290, 297–298, 323–327, 350–376, 479; Ex. 2, 3, 5, 10, 16, 18)

3. Chlorine dioxide has a bleaching and artificial aging effect on flour similar to that of nitrogen trichloride. The mechanism of its action has not been established, but it appears that the chlorine dioxide releases oxygen when in contact with flour and that the oxygen is the bleaching agent. Experiments by qualified investigators have shown that flours treated with chlorine dioxide, or products baked from flours treated with chlorine dioxide, do not cause canine hysteria, and no symptoms of any toxicity have been detected in the several other species, including man, that have been studied. (R. 44–48, 53–64, 67–82, 86–90, 92, 110–111, 118–125, 130–136, 139–143, 152, 153, 157–160, 165–175, 177–183, 199, 207–222, 231, 235–236, 238–240, 243–244, 246, 248, 250–252, 255, 257–258, 261, 267–272, 283–285, 290–291, 299–301, 350–376, 386–392, 398, 405–410, 430–436, 482; Ex. 6, 10, 11, 13, 14, 15, 16, 18, 20, 21, 23)

4. Only enough chlorine dioxide is used to accomplish the purposes of bleaching and artificial aging, as excessive quantities impair the baking quality of the flour. (R. 235–240, 242–244, 247–250, 254, 379–384, 387–394, 397–398, 405–410; Ex. 14, 19, 20, 21)

5. When used under the controls now prescribed for bleaching and artificially againg flour, chlorine dioxide is suitable for the purpose of bleaching and artificially aging flour, enriched flour, bromated flour, enriched bromated flour, self-rising flour, enriched self-rising flour, phosphated flour, whole wheat flour, bromated whole wheat flour, and whole durum wheat flour. (R. 195–198, 200, 254–257, 267–277, 386–398, 420–427; Ex. 22)

6. In addition to the carriers or diluents prescribed for use with the optional bleaching ingredient benzoyl peroxide, it has been found that other substances or mixtures of these substances with each other or with those now prescribed are also suitable for such use. Such substances are dicalcium phosphate, tricalcium phosphate, starch, sodium aluminum sulfate, and calcium carbonate. The total amount of the diluent or carrier used should not exceed six parts by weight for one part by weight of benzoyl peroxide. (R. 496–500, 503–505, 524–525. 527–531, 535, 537, 548, 554, 558)

7. Consumers generally recognize that the word "bleached" when applied to flour distinguishes between bleached and unbleached flour. The term "bleached" describes the ingredient or ingredients added to flour through the bleaching process, including chlorine dioxide, or products resulting from the use of chlorine dioxide, and benzoyl peroxide with its carriers. (R. 232–233, 277, 396–400, 412–413, 484–485, 496–497, 514)

Conclusions. Upon consideration of the whole record and the foregoing findings of fact, it is concluded that it will promote honesty and fair dealing in the interest of consumers to amend the definitions and standards of identity for flour (§ 15.00), enriched flour (§ 15.10), bromated flour (§ 15.20), enriched bromated flour (§ 15.30), self-rising flour (§ 15.50), enriched self-rising flour (§ 15.60), and phosphated flour (§ 15.70) by deleting nitrogen trichloride as an optional ingredient and substituting therefor chlorine dioxide, and by amending the requirements as to the ingredients which may be used with benzoyl peroxide as indicated in finding 6; and to amend the definitions and standards of identity for whole wheat flour (§ 15.80), bromated whole wheat flour (§ 15.90), and whole durum wheat flour (§ 15.100) by deleting nitrogen trichloride as an optional ingredient and substituting therefor chlorine dioxide.

It is therefore ordered, That the amendments be made so that the definitions and standards of identity read as follows:

1. Section 15.00 is amended to read as follows:

§ 15.00 *Flour, white flour, wheat flour, plain flour; identity; label statement of optional ingredients.* (a) Flour, white flour, wheat flour, plain flour, is the food prepared by grinding and bolting cleaned wheat other than durum wheat and red durum wheat; to compensate for any natural deficiency of enzymes, malted wheat, malted wheat flour, malted barley flour, or any combination of two or more of these, may be used; but the quantity of malted barley flour so used is not more than 0.25%. One of the cloths through which the flour is bolted has openings not larger than those of woven wire cloth designated "149 micron (No. 100)" in Table 1 of "Standard Specifications for Sieves," published March 1, 1940, in L. C. 584 of the U. S. Department of Commerce, National Bureau of Standards. The flour is freed from bran coat, or bran coat and germ, to such extent that the percent of ash therein, calculated to a moisture-free basis is not more than the sum of ½% of the percent of protein therein, calculated to a moisture-free basis, and 0.35. Its moisture content is not more than 15%. Unless such addition conceals damage or inferiority of the flour or makes it appear better or of greater value than it is, one or any combination of two or more of the following optional bleaching ingredients may be added in a quantity not more than sufficient for bleaching or, in case such ingredient has an artificial aging effect, in a quantity not more than suf-

ficient for bleaching and such artificial aging effect:

(1) Oxides of nitrogen.
(2) Chlorine.
(3) Nitrosyl chloride.
(4) Chlorine dioxide.

(5) One part by weight of benzoyl peroxide mixed with not more than six parts by weight of one or any mixture of two or more of the following: potassium alum, calcium sulfate, magnesium carbonate, sodium aluminum sulfate, dicalcium phosphate, tricalcium phosphate, starch, calcium carbonate.

(b) When any optional bleaching ingredient issued, the label shall bear the word "Bleached." Wherever the name of the food appears on the label so conspicuously as to be easily seen under customary conditions of purchase, the word "Bleached" shall immediately and conspicuously precede or follow such name, without intervening written, printed, or graphic matter; except that where such name is a part of a trade-mark or brand, other written, printed, or graphic matter, which is also a part of such trade-mark or brand, may so intervene if the word "Bleached" is in such juxtaposition with such trade-mark or brand as to be conspicuously related to such name.

(c) For the purposes of this section:

(1) Ash is determined by the method prescribed in the book "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists," 5th Edition, 1940, page 212, under "Method I—Official." (Ed. note: 6th Ed., 1945, p. 238.) Ash is calculated to a moisture-free basis by subtracting the percent of moisture in the flour from 100, dividing the remainder into the percent of ash, and multiplying the quotient by 100.

(2) Protein is 5.7 times the nitrogen as determined by the method prescribed in such book on page 26, under "Kjeldahl-Gunning-Arnold Method—Official." (Ed. note: 6th Ed., 1945, p. 27.) Protein is calculated to a moisture-free basis by subtracting the percent of moisture in the flour from 100, dividing the remainder into the percent of protein, and multiplying the quotient by 100.

(3) Moisture is determined by the method prescribed in such book on page 211, under "Vacuum Oven Method—Official." (Ed. note: 6th Ed., 1945, p. 237)

2. No change in wording is necessary in § 15.10 *Enriched flour;* § 15.20 *Bromated flour;* § 15.30 *Enriched bromated flour;* § 15.50 *Self-rising flour;* § 15.60 *Enriched self-rising flour;* § 15.70 *Phosphated flour,* since the bleaching ingredients are fixed by § 15.00.

3. Section 15.80 is amended to read as follows:

§ 15.80 *Whole wheat flour, graham flour, entire wheat flour; identity; label statement of optional ingredients.* (a) Whole wheat flour, graham flour, entire wheat flour, is the food prepared by so grinding cleaned wheat other than durum wheat and red durum wheat that, when tested by the method prescribed in paragraph (c) (2) of this section, not less than 90% passes through a No. 8 sieve and not less than 50% passes through a No. 20 sieve. The proportions of the natural constituents of such wheat, other than moisture, remain unaltered. To compensate for any natural deficiency of enzymes, malted wheat, malted wheat flour, malted barley flour, or any combination of two or more of these, may be used; but the quantity of malted wheat flour so used is not more than 0.5%, and the quantity of malted barley flour so used is not more than 0.25 percent. The moisture content of whole wheat flour is not more than 15%. Unless such addition conceals damage or inferiority of the whole wheat flour or makes it appear better or of greater value than it is, the optional bleaching ingredient chlorine dioxide, chlorine, or a mixture of nitrosyl chloride and chlorine, may be added in a quantity not more than sufficient for bleaching and artificial aging effects.

(b) When any optional bleaching ingredient is used, the label shall bear the word "Bleached." Wherever the name of the food appears on the label so conspicuously as to be easily seen under customary conditions of purchase, the word "Bleached" shall immediately and conspicuously precede or follow such name, without intervening written, printed, or graphic matter; except that where such name is a part of a trade-mark or brand, other written, printed, or graphic matter, which is also a part of such trade-mark or brand, may so intervene if the word "Bleached" is in such juxtaposition with such trade-mark or brand as to be conspicuously related to such name.

(c) For the purposes of this section:

(1) moisture is determined by the method prescribed in "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists," 5th Edition, 1940, page 211, under "Vacuum Oven Method—Official." (Ed. note: 6th Ed., 1945, p. 237.)

(2) The method referred to in paragraph (a) of this section is as follows: Use No. 8 and No. 20 sieves, having standard 8-inch full height frames, complying with the specifications for wire cloth and sieve frames in "Standard Specifications for Sieves," published March 1, 1940, in L. C. 584 of the U. S. Department of Commerce, National Bureau of Standards. Fit a No. 8 sieve into a No. 20 sieve. Attach bottom pan to the No. 20 sieve. Pour 100 gm. of the sample into the No. 8 sieve. Attach cover and hold the assembly in a slightly inclined position with on hand. Shake the sieves by striking the sides against the other hand with an upward stroke, at the rate of about 150 times per minute. Turn the sieves about ⅙ of a revolution each time in the same direction, after each 25 strokes. Continue shaking for 2 minutes. Weigh the material which fails to pass through the No. 8 sieve and the material which passes through the No. 20 sieve.

4. No change in wording is necessary in § 15.90 *Bromated whole wheat flour;* and § 15.100 *Whole durum wheat flour,* since the bleaching ingredients are fixed by § 15.80.

Effective dates. Chlorine dioxide is a gaseous substance whose practical use as a bleaching ingredient is made possible by the employment of certain machines for generating the chlorine dioxide gas, mixing it with air, and bringing measured amounts of the gaseous mixture in contact with the flour to be treated. The manufacture and installation of suitable machines to replace those used for bleaching with nitrogen trichloride will be time-consuming. Such change-over must be started immediately, in order to make possible the elimination of nitrogen trichloride as a bleaching agent for the various flours at the earliest practicable time. The necessity for beginning the change-over immediately creates an emergency condition which requires that the recognition of chlorine dioxide as an optional ingredient be made effective on the date of publication of this order in the FEDERAL REGISTER.

The time required fully to effect the change-over necessitates that a somewhat longer period be allowed before deleting nitrogen trichloride from the standard as an optional ingredient. No unusual conditions exist with respect to the use of additional diluting agents in conjunction with benzoyl peroxide.

Wherefore, it is ordered, That with respect to the definitions and standards of identity for flour (§ 15.00), enriched flour (§ 15.10), bromated flour (§ 15.20), enriched bromated flour (§ 15.30), self-rising flour (§ 15.50), enriched self-rising flour (§ 15.60), and phosphated flour (§ 15.70), insofar as the amendments hereby promulgated provide for designating chlorine dioxide as an optional bleaching ingredient, they shall become effective immediately upon publication of this order in the FEDERAL REGISTER; insofar as such amendments provide for carriers in addition to those previously permitted as carriers for benzoyl peroxide, they shall become effective ninety (90) days after the publication of this order in the FEDERAL REGISTER; and insofar as such amendments provide for deleting nitrogen trichloride from the permitted optional bleaching ingredients, they shall become effective August 1, 1949.

It is further ordered, That with respect to the definitions and standards of identity for whole wheat flour (§ 15.80), bromated whole wheat flour (§ 15.90), and whole durum wheat flour (§ 15.100), insofar as the amendments hereby promulgated provide for designating chlorine dioxide as an optional bleaching ingredient, they shall become effective immediately upon publication of this order in the FEDERAL REGISTER; and insofar as such amendments provide for deleting nitrogen trichloride from the permitted optional bleaching ingredients, they shall become effective August 1, 1949.

(Secs. 401, 701, 52 Stat. 1046, 1055; 21 U. S. C. 341, 371)

Dated: November 19, 1948.

Acting Administrator.

TITLE 26—INTERNAL REVENUE

Chapter II—The Tax Court of the United States [1]

PART 701—RULES OF PRACTICE

PART 702—FORMS [2]

MISCELLANEOUS AMENDMENTS

1. Section 701.1 is amended by adding the word "time" to the title, by changing the letter "c" in "clerk", in the first sentence, to capital "C", and by adding the following new paragraph:

Time, as provided in this and other sections and in orders and notices of the Court, means standard time in the city mentioned except when advanced time is substituted therefor by law. (See § 701.61.)

2. Section 701.2 is amended by changing "secretary" in the second sentence of the third paragraph to "Clerk"; by changing "§ 701.8" in the fifth paragraph to "§ 701.7 (b)", and by adding to the last paragraph: "(See § 701.24.)"

3. Section 701.4 (e) is amended by changing the reference at the end of the paragraph to read as follows: "(See §§ 701.6 and 701.7 (c) (4) (i) and § 702.2.)"

4. Section 701.4 (f) is amended to read as follows:

§ 701.4 *Form and style of papers.* * * *

(f) The signature, either of the petitioner or of his counsel, shall be subscribed in writing to the original of all pleadings, motions, and briefs, and shall be in individual and not in firm name, except that the signature of a petitioner corporation shall be in the name of the corporation by one of its active officers, thus: "John Doe, Inc., by Richard Roe, President." The name and the mailing address of the petitioner or counsel actually signing shall be typed or printed immediately beneath the written signature.

5. Section 701.5 numbering is changed to § 701.6 and the numeral "6" in the reference at the end of the section is changed to "7."

6. Section 701.6 numbering is changed to § 701.7, and is amended to read as follows:

§ 701.7 *Initiation of a proceeding; petition; filing; fee; form*—(a) *Petition*—(1) *Filing.* A proceeding shall be initiated by filing with the Court a petition consisting of an original and four complete, accurately conformed, clear copies, either printed or typed. (See §§ 701.4 and 701.6.)

(2) *Improper petition; dismissal.* Failure of a petition to comply with this section and with §§ 701.4 and 701.6 shall be ground for dismissal of the proceeding for failure properly to prosecute.

See also section 272 (a) and (c), Internal Revenue Code, in regard to absolute statutory time limit on filing.

(b) *Fee for filing petition.* The fee for filing a petition with the Court shall be $10, payable at the time of filing. Make checks, money-orders, etc. payable to The Treasurer of the United States.

(c) *Form of petition.* (1) The petition shall be substantially in accordance with § 702.2.

(2) It shall be complete in itself so as fully to state the issues.

(3) No telegram, cablegram, radiogram, telephone call or similar communication will be recognized as a petition.

(4) The petition shall contain:

(i) A caption in the following form:

THE TAX COURT OF THE UNITED STATES

Docket No. --

Petitioner
v.
Commissioner of Internal Revenue,
Respondent

PETITION

(ii) Proper allegations showing jurisdiction in the Court.

(iii) A statement of the amount of the deficiency (or liability, as the case may be), determined by the Commissioner, the nature of the tax, the period for which determined, and the collection district in which the return was filed.

(iv) Clear and concise assignments of each and every error which the petitioner alleges to have been committed by the Commissioner in the determination of the deficiency. Issues in respect of which the burden of proof is by statute placed upon the Commissioner will not be deemed to be raised by the petitioner in the absence of assignments of error in respect thereof. Each assignment of error shall be numbered.

(v) Clear and concise numbered statements of the facts upon which the petitioner relies as sustaining the assignments of error, except those assignments of error in respect of which the burden of proof is by statute placed upon the Commissioner.

(vi) A prayer, setting forth relief sought by the petitioner.

(vii) The signature of the petitioner or that of his counsel. (See § 701.4.)

(viii) A verification by the petitioner: *Provided,* That where the petitioner is sojourning outside the United States or is a nonresident alien, the petition may be verified by a duly appointed attorney in fact, who shall attach to the petition a copy of the power of attorney under which he acts and who shall state in his verification that he acts pursuant to such power, that such power has not been revoked, that petitioner is absent from the United States, and the grounds of his knowledge of the facts alleged in the petition. As used herein the term "United States" includes only the States and the District of Columbia. A notary public is not authorized to administer oaths, etc., in matters in which he is employed as counsel. (See Title 1, ch. 5, D. C. Code 1940, and 26 Op. A. G. 236.)

The verification shall contain a statement that the fiduciaries signing and verifying have authority to act for the taxpayer.

Where the petitioner is a corporation, the person verifying shall state in his verification that he has authority to act for the corporation.

The signature and the verification to the petition shall be considered the certificate of those performing these acts that there is good ground for the petition, the proceeding has not been instituted merely for delay, and it is not frivolous.

(ix) A copy of the notice of deficiency (or liability, as the case may be), shall be appended to the petition. If a statement has accompanied the notice of deficiency, so much thereof as is material to the issues set out in the assignments of error likewise shall be appended. If the notice of deficiency refers to prior notices from the Bureau, which are necessary to elucidate the determination, such parts thereof as are material to the issues set out in the assignments of error shall likewise be appended. (See § 702.2.)

7. Sections 701.7 and 701.8, old sections, are eliminated, as they are incorporated in new § 701.7.

8. Section 701.9 numbering is changed to § 701.5 and the title is amended to read: *Filing of all documents.*

9. Section 701.11 is amended to read as follows:

§ 701.11 *Docket.* Upon receipt of the petition, the proceeding will be entered upon the docket and assigned a number and the parties notified thereof. This docket number shall be placed by the parties on all papers thereafter filed in the proceeding and referred to in all correspondence with the Court.

10. Section 701.17, third paragraph, is amended to read as follows:

Upon motion made, the Court may, in its discretion, at any time before the conclusion of the hearing, permit a party to a proceeding to amend the pleadings in stated particulars to conform to the proof.

11. Section 701.19 is amended to read as follows:

§ 701.19 *Motions.* (a) Motions must be timely, must fully set forth the alleged reasons for the action sought and must be prepared in the form and style prescribed by § 701.4.

(b) Motions will be acted upon as justice may require and may, in the discretion of the Court, be placed upon the motion calendar for argument. See § 701.27 (a) and (c), and § 701.30 (b). The Clerk will serve a copy of each motion upon the opposite party. (See § 701.22.)

(c) The filing of a motion shall not constitute cause for postponement of a hearing from the date set. (See also § 701.27 (c) on motions for continuance.)

(d) If a motion, other than one relating to the receipt of evidence during trial, is made orally during trial, the maker thereof shall promptly reduce it to writing and file it with the Court unless the Division sitting directs otherwise.

(e) No motion for rehearing, further hearing, or reconsideration may, except by special leave, be filed more than 30 days after the opinion has been served; and no motion to vacate or revise a decision may, except by special leave, be filed more than 30 days after the decision has been entered. Motions covered by this paragraph shall be separate and not joined to or made a part of any other motion.

[1] Herein redesignated (formerly Chapter III).

[2] Herein redesignated (formerly Part 711).

12. Section 701.20 is amended to read as follows:

§ 701.20 *Extensions of time.* (a) An extension of time (except for the absolute time limit on filing of the petition, see section 272 (a) and (c), Internal Revenue Code, and except as otherwise provided in the rules in this part) may be granted by the Court within its discretion upon a timely motion filed in accordance with the rules in this part setting forth good and sufficient cause therefor or may be ordered by the Court upon its own motion.

(b) If a motion is filed or an order issued in respect to the adequacy of any petition, the time prescribed in § 701.14 shall begin to run from the date upon which the Court takes final action with respect to the motion or the order unless the Court orders otherwise. The time for reply shall be similarly extended in the case of a motion or an order with respect to the adequacy of an answer unless the Court orders otherwise.

(c) Any extension of time for filing a brief shall correspondingly extend the time for filing all other briefs yet to be filed in that proceeding unless the Court orders otherwise. (See §§ 701.19, 701.22 and 701.35.)

For continuances see § 701.27 (c).

13. Section 701.21 is amended by adding the reference: "(See § 701.17 (a) (2).)"

14. Section 701.23 is amended to read as follows:

§ 701.23 *Substitution of parties; change of names*—(a) *Successor fiduciaries; certificate needed.* A motion shall be filed to substitute parties who are successor fiduciaries and shall be supported by a certificate of the proper court or official showing the appointment and qualification of the party who seeks to be substituted. (See §§ 701.4 and 701.19.)

(b) *Change in name; certificate needed.* A motion shall be filed to amend the pleadings to show a change in the names of a corporation or other party and shall be supported by a proper official certificate or copy of the decree or other document by which the change was effected, duly certified by the official having its custody. (See §§ 701.4 and 707.19.)

(c) *Waiver of certificate.* No certificate need be filed, unless required by Court order, if the respondent consents to a change as described in paragraphs (a) and (b) of this section.

(d) *Court order.* The Court, on motion of a party or upon its own motion, may order the substitution of proper parties upon the death of a petitioner, where a mistake in the name or title of a party appears, or for other cause.

15. Section 701.24 is amended to read as follows:

§ 701.24 *Counsel; appearance; withdrawal; substitution; changed address*—(a) *Entry of appearance.* (1) Counsel enrolled to practice before this Court may enter his appearance by subscribing the initial petition.

(2) Counsel may later enter his appearance only by filing in duplicate, an entry of appearance which shall be signed by counsel individually, shall show his mailing address, and shall state that he is enrolled to practice before this Court. Form 305 should be obtained from the Court and used.

(3) Counsel not properly enrolled to practice before this Court will not be recognized except by special leave of the Court granted at a hearing and then only where it appears that counsel can and will promptly become enrolled. (See §§ 701.2, 701.4 (f) and 701.7 (c) (4) (vii).)

(b) *Withdrawal of counsel.* Counsel of record in any proceeding desiring to withdraw, or any petitioner desiring to withdraw counsel of record, must file a motion with the Court requesting leave therefor reciting that notice thereof has been given to the client or to the counsel being withdrawn, as the case may be. The Court may, in its discretion, deny such motion.

(c) *Substitution of counsel.* New counsel may be substituted by conforming to the provisions of paragraphs (a) (2) and (b) of this section. (See §§ 701.2, 701.4, 701.19 and 701.27 (c).)

(See § 701.22 (b) in regard to substitution of "first counsel of record" for purposes of service.)

(d) *Change of address.* Notice of any change in the mailing address of either counsel or petitioner shall be filed promptly with the Court, in duplicate. Separate notices shall be filed for each proceeding.

Counsel may not act also as notary. (See § 701.7 (c) (4) (viii).)

16. Section 701.25 is eliminated as it is incorporated in § 701.27.

17. Section 701.26 is amended by changing the title to read: *"Place of hearing on merits; requests and designation"*, and by deleting from the section the sixth paragraph.

18. Section 701.27 is amended to read as follows:

§ 701.27 *Hearings; calendars; place, time, notice, attendance, continuances*—(a) *Calendars of hearings on motions and other procedural and subsidiary matters.* (1) If it is necessary for the Court to hear the parties on matters other than the merits, the proceeding will be listed for such hearing on a motion calendar which is called in Washington, D. C., unless good cause for holding the hearing elsewhere is shown in a timely motion to the Court. Ordinarily such calendars will be set for call at 9:30 a. m. (see § 701.1) on Wednesdays throughout the year, but due notice of the time and place in each case will be given to the parties by the Clerk. (See § 701.22.)

(2) *Attendance at hearings on motion calendar.* If a party fails to appear at the call of the motion calendar, the Court will hear the proceeding ex parte. However, a memorandum or brief stating the position of the petitioner upon the pending motion will be accepted, when the failure of the petitioner to appear is justified by distance, shortness of time, or other good reason stated in such memorandum or brief.

(3) Where the motion or order is directed to defects in a pleading, prompt filing of a proper pleading correcting the defects may obviate the necessity of a hearing thereon.

(b) *Calendars of hearings on the merits.* (1) Each proceeding, when at issue, will be placed upon a calendar for hearing on the merits in accordance with § 701.26 and the Clerk, not less than 30 days in advance, will notify the parties of the place where and the date and time when it will be called.

(2) *Calendar call.* Each proceeding appearing on such a calendar will be called at the time and place scheduled. The cases will be called usually in the order listed, and counsel or the parties will state their estimate of the time required for trial or file stipulations in lieu of trial. The proceedings for trial will thereupon be heard in due course, but not necessarily in the order listed.

(3) *Attendance at hearings on the merits.* The unexcused absence of a party or his counsel when a proceeding is called for hearing on the merits will not be the occasion for delay. The proceeding may be dismissed for failure properly to prosecute or the hearing may proceed and the case be regarded as submitted on the part of the absent party or parties.

(4) The Court may require appearance for argument or it may accept briefs in lieu of personal appearance.

(c) *Continuances; motions; merits.* (1) Court action on proceedings set for hearing on motions or merits will not be delayed by a motion for continuance unless it is timely, sets forth good and sufficient cause and complies with all applicable rules in this part.

(2) Conflicting engagements of counsel or the employment of new counsel will never be regarded as good ground for a continuance unless set forth in a motion filed promptly after the notice of hearing has been mailed or unless extenuating circumstances are shown which the Court deems adequate. (See § 701.20.)

(d) *Reserve calendar.* A proceding once at issue may, upon motion, be placed on an inactive list called the reserve calendar. Good cause must be shown, as, for example, that the proceeding will be governed by the decision in a case pending in a higher court. The proceeding may be placed later on a hearing calendar by motion of either party or by the Court on its own motion when the reason for inaction no longer exists.

19. Sections 701.28 and 701.29 are eliminated as they are incorporated in § 701.27.

20. Section 701.30 (b) is amended by inserting at the end of the sentence, the reference: "(See § 701.27 (a).)"

21. Section 701.35 is amended by adding to the first paragraph: "(See § 701.20 (c).)" and by adding to the second paragraph: "Briefs must be signed. (See § 701.4 (f).)"

22. Section 701.44 (c) is amended to read as follows:

§ 701.44 *Subpoenas.* • • •

(c) *For production of documents.* If evidence other than oral testimony is required, such as documents or written data, the application shall set forth in tabular form the specific matter to be produced and sufficient facts to indicate

that each item is reasonably necessary to establish the cause of action or defense of the applicant.

23. Section 701.48 (c) and (e) are amended to read as follows:

§ 701.48 *Commissioners of the Tax Court.* • • •

(c) Unless otherwise directed the parties shall have 30 days from the closing of proof in the case for filing proposed findings of fact. Such findings of fact shall be prepared in the manner and form prescribed in the first paragraph of § 701.35 (b).

Upon the filing by the parties of their proposed findings of fact, the commissioner shall prepare and file a report of his findings of fact based upon the evidence in the case, and a copy thereof shall be served upon each party.

Within 20 days from the filing of the commissioner's proposed findings of fact the parties shall file exceptions to all findings to which they object, which exceptions will be considered by the Division to which the case is assigned.

• • • • •

(e) Upon motion of either party made not later than at the time of filing the final brief, or upon its own motion, the Division to which the case is assigned may in its discretion direct oral argument and set a date therefor.

24. Section 701.50 is amended by changing the fifth sentence as follows: "The Clerk will serve a copy thereof upon the opposite party, will place the matter upon a motion calendar for argument in due course, and will serve notice of the argument upon both parties."

25. Section 701.51 numbering is given to a new section which read as follows:

§ 701.51 *Estate tax deduction developing after trial.* If the parties in an estate tax proceeding are unable to agree under § 701.50 or under a remand upon a deduction involving expenses incurred at or after the trial, the petitioner may move to reopen the case for further hearing on that issue provided it is raised in the petition or by amendment thereto.

26. Section 701.52 numbering is given to old § 701.51 which is amended to read as follows:

§ 701.52 *Preparation of record on review; costs.* (a) Immediately after the contents of a record on review have been settled or agreed to, the Clerk will notify the petitioner of the costs and charges for the preparation, comparison, and certification of said records; such charges to be determined in accordance with the provisions of Section 1133, Internal Revenue Code, and the act of September 27, 1944, 58 Stat. 743.

(b) No transcript will be certified and transmitted to the appellate court until the costs and charges therefor have been paid. (For name of payee, see § 701.7 (b).)

(c) A petitioner for review who requests the Clerk to certify but not to prepare documents for transmission to a United States Court of Appeals shall furnish the Clerk with the copies of the documents to be certified, if duplicates are not already in the record. (See §§701.4 (g) and 701.31 (b).)

(For statutory provisions relating to Court Review of Tax Court decisions see Subchapter B, Section 1140 et seq., I. R. C. For forms of bonds, see §§ 702.7 and 702.8. The rules of the appellate court to which the appeal is being taken should be consulted.)

27. In paragraph (b) of § 701.64, change the reference at the end of the first sentence by striking "§§ 701.4, 701.5, 701.7 and 701.8" and substituting "§§ 701.4, 701.6 and the pertinent parts of § 701.7." In subparagraph (8) amend by striking "§ 701.6 (h)" and substituting "§ 701.7 (c) (4) (viii)."

28. Section 702.2 is amended by changing "(See §§ 701.4, 701.5a, 701.6, 701.7, and 701.8)" to "(See §§ 701.4, 701.5, 701.6 and 701.7)."

29. Section 702.3 is amended by adding "[1]" to the title; by inserting under the title the following: The Tax Court of the United States; by inserting under the caption: Application for subpoena; and adding the footnote, as follows:

[1] Application for a subpoena duces tecum shall be so identified in its title, and shall be in form similar to the above, and shall set forth the additional information required by § 701.44 (c).

30. Section 702.5a is amended by adding to the title "[1]" and by adding the footnote, at the foot of the page, as follows:

[1] When the applicant seeks to take depositions upon written interrogatories the title of the application shall so indicate and the application shall be accompanied by an original and five copies of the proposed interrogatories. The taking of depositions upon written interrogatories is not favored, except when the depositions are to be taken in foreign countries, in which latter case any depositions taken must be upon written interrogatories, except as otherwise directed by the Court for cause shown. (See § 701.46.)

31. Section 702.7 is a new form, which reads as follows:

§ 702.7 *Bond with corporate surety.* The following is a satisfactory form of bond for use in case bond with a corporate surety approved by the Treasury Department is to be furnished to stay the assessment and collection of tax involved in an appeal from a decision of the Tax Court.

[Public Land Order 528]

ARIZONA

REVOKING PUBLIC LAND ORDER NO. 22 OF AUGUST 6, 1942, WITHDRAWING PUBLIC LANDS FOR USE OF WAR DEPARTMENT AS A BOMBING RANGE

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Public Land Order No. 22 of August 6, 1942, withdrawing public lands for the use of the War Department as a bombing range, which was revoked in part by Public Land Order No. 54 of November 5, 1942, is hereby revoked as to the remaining public lands hereinafter described.

The jurisdiction over and use of such lands granted to the War Department by Public Land Order No. 22 shall cease upon the signing of this order. Thereupon, the jurisdiction over and administration of such lands shall be vested in the Department of the Interior and any other Department or agency of the Federal Government according to their respective interests then of record.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on January 19, 1949. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from January 19, 1949, to April 20, 1949, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from December 30, 1948, to January 18, 1949, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on January 19, 1949, shall be treated as simultaneously filed.

(c) *Date for non-preference-right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on April 21, 1949, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference-right filings.* Applications by the general public may be presented during the 20-day period from April 15, 1949, to April 20, 1949, inclusive, and all such applications, together with those presented at 10:00 a. m. on April 21, 1949, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office at Phoenix, Arizona shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office at Phoenix, Arizona.

The lands affected by this order are described as follows:

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

Subchapter C—Water Carriers

[Ex Parte No. 146]

PART 315—EXEMPTION OF CONTRACT CARRIER OPERATIONS

OIL FIELD EQUIPMENT, MARSHLANDS, LOUISIANA AND TEXAS

At a session of the Interstate Commerce Commission, Division 4, held at its office in Washington, D. C., on the 17th day of November A. D. 1948.

It appearing, that by order of August 26, 1941, (49 CFR, Cum. Supp., 315.1) as subsequently modified, (49 CFR, 1944 and 1947 Supps., 315.1) contract carriers by water are exempted from the requirements of Part III of the Interstate Commerce Act, until the further order of the Commission, insofar as they are engaged in leasing or chartering vessels for the purpose of transporting machinery, materials, supplies, and equipment incidental to, or used in, the construction, development, operation and maintenance of facilities for the discovery, development and production of natural gas and petroleum, to and from points in the marshland oil fields of Louisiana and Texas;

It further appearing, that contract carriers by water lease or charter vessels for the purpose of transporting machinery, materials, supplies, and equipment incidental to, or used in, the construction, development, operation and maintenance of facilities for the discovery, development and production of natural gas and petroleum, to and from points in the marshland oil fields of Alabama, Florida, and Mississippi; and that on April 20, 1948, The American Waterway Operators, Inc., petitioned the Commission to amend the said order of August 26, 1941, to exempt the operations of such contract carriers by water, which petition is supported by a number of water carriers and oil companies;

And it further appearing, that such operations by contract carriers by water are not competitive with other means of transportation or with common carriers by water, that such contract carriers by water are not engaging in destructive competitive practices, and that the regulation of such class of contract carriers by water is not necessary to effectuate the national transportation policy of the act:

It is ordered, That the above-entitled proceeding be, and it is hereby, reopened for further consideration. *It is further ordered*, That:

§ 315.1 *Oilfield equipment, Gulf States marshlands.* Contract carriers by water, insofar as they engage in leasing or chartering vessels for the purpose of transporting machinery, materials, supplies, and equipment incidental to, or used in, the construction, development, operation and maintenance of facilities for the discovery, development and production of natural gas and petroleum, to and from points in the marshland oil fields of Alabama, Florida, Mississippi, Louisiana and Texas be, and they are hereby, exempted from the requirements of Part III of the Interstate Commerce Act until the further order of the Commission.

And it is further ordered, That the said order of August 26, 1941, as subsequently modified, be, and it is hereby, superseded and canceled as of the date this order becomes effective; and that this order shall take effect on December 20, 1948.

PROPOSED VOLUNTARY PLAN UNDER PUBLIC LAW 395, 80TH CONGRESS, FOR ALLOCATION OF STEEL PRODUCTS FOR MANUFACTURE OF ORE CARS

NOTICE OF PUBLIC HEARING

Notice is hereby given that a public hearing will be held on Tuesday, December 7, 1948, at 2:30 p. m., e. s. t., in the Auditorium on the fifth floor of the National Archives Building, Pennsylvania Avenue between Seventh and Ninth Streets NW., Washington, D. C., for the purpose of affording to industry, labor and the public generally an opportunity to present their views with respect to the proposed voluntary plan, under Public Law 395, 80th Congress, for the allocation of steel products for the manufacture of ore cars. A draft of the plan is set forth in Exhibit A hereto.

In view of the essentiality of the program represented by this plan, it is proposed to provide for continued assistance beyond February 28, 1949, which will be the termination date specified in the plan itself, as required by Public Law 395. Provision for continuation consists of two procedures developed in consultation with the Attorney General. First, the termination provisions in the plan provide for extension beyond next February in the event that the authority now contained in Public Law 395 is appropriately extended. Second, the Secretary of Commerce proposes to make a request for unilateral action by participants in carrying on the program after that date under the "carry-over" provisions of Public Law 395. A draft of the proposed request is set forth as Exhibit B hereto.

Both Exhibits A and B are subject to revision at or after the public hearing.

The proposed plan has been formulated after consulting with representatives of the industries involved and of the interested government agencies, including the Munitions Board of the National Military Establishment.

Any person desiring to participate in said public hearing should file a written notice of appearance with the Director of the Office of Industry Cooperation, Room 5847, Department of Commerce Building, Washington 25, D. C., not later than 5 p. m., e. s. t., on Friday, December 3, 1948. Persons desiring to present written statements or memoranda should submit them, in triplicate, at the hearing.

[SEAL] CHARLES SAWYER,
Secretary of Commerce.

EXHIBIT A—PLAN

PROPOSED VOLUNTARY PLAN UNDER PUBLIC LAW 395, 80TH CONGRESS, FOR ALLOCATION OF STEEL PRODUCTS FOR MANUFACTURE OF ORE CARS

[Preamble—To be inserted in final draft]

1. *What This Plan Does.* Manganese has been designated by the Munitions Board as a strategic and critical material and a program for the procurement of that material for stockpiling has been established in accordance with applicable law, including Public Laws 520 and 521, 79th Congress. In furtherance of that procurement program and in aid of American industry, this Plan sets up the procedure under which steel producers (hereinafter called Producers) agree voluntarily to make certain steel products available, at producers' mills, to Canadian Car and Foundry Company, Limited, Montreal, Canada (hereinafter called the Participating Manufacturer), for use in the manufacture of 2,000 ore cars (bogie wagons) for the Union of South Africa Railways, to be used in the transportation of manganese-bearing ore from South African mines to tidewater.

2. *Agreement by Steel Producers.* During the period this Plan remains in effect, Producers will make available, out of their own production or that of their producing subsidiaries or affiliates, to the Participating Manufacturer, a total of 2,576 net tons of steel products per month, distributed by types approximately as follows:

Type:	Net tons per month
Ship channels	380
Bulb Angles	154
Sheets 58" wide	296
Plates—ASTM	962
Plates—U. S. S. *Man-ten*	784
Total net tons per month	2,576

Producers will, from time to time, however, upon request of the Secretary of Commerce, give consideration to making additional quantities available, or to accelerating the monthly deliveries provided for above.

3. *Determination of Quantities to be Furnished by Respective Producers.* Unless otherwise specified in its acceptance of this Plan, the quantities to be made available by each Producer, as its commitment under this Plan, will be such as the Secretary of Commerce, after consulting the Steel Task Committee of the Office of Industry Cooperation of the Department of Commerce, determines to be fair and equitable. Producers will take credit against their commitments under this Plan only for quantities delivered to the Participating Manufacturer on orders certified in accordance with paragraph 9 below.

4. *Contractual Arrangements.* Such products will be made available under such contractual arrangements as may be made by the respective Producers, or their producing subsidiaries and affiliates, with the Participating Manufacturer. This plan does not authorize nor approve any fixing of prices, and participation in this Plan does not affect the prices of terms and conditions on which any steel products are actually sold and delivered.

5. *Limitations as to Types, Sizes and Quantities.* A Producer need make available under this Plan only those products which are

within the type and size limitations of the mill or mills which it may select for the fulfillment of its commitment under this Plan. The quantities which it may have undertaken to make available in any month may be reduced, or at its option their delivery may be postponed, in direct proportion to any production losses during the month due to causes beyond its control.

6. *Reports from Steel Producers.* Each Producer will, if requested by the Office of Industry Cooperation of the Department of Commerce (subject to approval of the Bureau of the Budget under the Federal Reports Act of 1942), submit to that office periodic reports of the total quantities, by types, of products shipped, and accepted for shipment, under the Plan.

7. *Reports from Participating Manufacturer.* The Participating Manufacturer will submit such reports as may be requested from time to time by the Secretary of Commerce (subject to the approval of the Bureau of the Budget under the Federal Reports Act of 1942).

8. *Obligations of Participating Manufacturer.* By participation in this Plan, the Participating Manufacturer shall be obligated as follows: To use all products obtained under this Plan solely for and in the manufacture of ore cars for Union of South Africa Railways; not to resell nor transfer any products so obtained under this Plan in the form received by the said Participating Manufacturer; and not to build up, beyond current needs, any inventories of products obtained under this Plan. If the Participating Manufacturer becomes unable to use, for the purposes of this Plan, any products obtained under the Plan, it shall be further obligated to hold them subject to such disposition (including return to the producer from whom purchased) as shall be authorized by the Office of Industry Cooperation of the Department of Commerce.

9. *Procedure for Placing Orders Under This Plan.* Purchase orders under this Plan are to be placed with participating Producers, or their producing subsidiaries or affiliates. Each such purchase order shall bear the following certification by the Participating Manufacturer:

DEPARTMENT OF COMMERCE VOLUNTARY PLAN, UNDER PUBLIC LAW 395, 80TH CONGRESS, FOR ALLOCATION OF STEEL PRODUCTS FOR MANUFACTURE OF ORE CARS

The undersigned certifies to the seller and to the Department of Commerce that the products specified in this order will be used solely for and in the manufacture of ore cars for Union of South Africa Railways, and that this order is placed under, and in strict compliance with, the above Voluntary Plan, with which the undersigned is familiar and in which the undersigned is a participant.

CANADIAN CAR AND FOUNDRY COMPANY, LIMITED,

By ----------
(Title of duly authorized officer)

(Date)

10. *Procedure for, and Effect of, Becoming a Participant.* After approval of this Plan by the Attorney General and by the Secretary of Commerce, and after requests for compliance with it have been made of steel producers and of the participating Manufacturer by the Secretary of Commerce, any such producer, and the Participating Manufacturer, may become a participant in this Plan by advising the Secretary of Commerce, in writing, of its acceptance of such request. Such requests for compliance will be effective for the purpose of granting certain immunity from the antitrust laws and the Federal Trade Commission Act, as provided in Section 2 (c) of Public Law 395, only with respect to such participants as notify the Secretary of Commerce in writing that they will comply with such requests.

11. *Effective Date and Duration.* This Plan shall become effective upon the date of its final approval by the Secretary of Commerce. It shall cease to be effective at the close of business on February 28, 1949, unless the time limitation of March 1, 1949 now specified in Section 2 (b) of Public Law 395, 80th Congress, is extended or otherwise changed by legislative action in a form which permits continuation of this Plan, in which event this Plan shall thereupon automatically continue in effect through September 30, 1949 (or through the date specified in such legislative action if a date earlier than September 30, 1949 is so specified). However, the Plan may be terminated on such earlier date as may be determined by the Secretary of Commerce, upon not less than 60 days notice by letter, telegram, or publication in the FEDERAL REGISTER.

12. *Withdrawal from Plan.* Any Producer or the Participating Manufacturer may withdraw from this Plan by giving not less than 60 days written notice to the Secretary of Commerce.

13. *Clarifying Interpretations.* Any interpretation issued by the Secretary of Commerce (after consultation with the Attorney General), in writing, to clarify the meaning of any terms or provisions in this Plan shall be binding upon all participants notified of such interpretation.

[To be signed by the Attorney General and the Secretary of Commerce upon approval.]

EXHIBIT B—REQUEST

PROPOSED REQUEST UNDER PUBLIC LAW 395, 80TH CONGRESS, FOR ALLOCATION OF STEEL PRODUCTS FOR MANUFACTURE OF ORE CARS

The Secretary of Commerce, pursuant to the authority vested in him by Public Law 395, 80th Congress, and Executive Order 9919, after consultation with representatives of the steel producing industry, and after expression of the views of industry, labor and the public generally at an open public hearing held on December 7, 1948, has determined that, in order to carry out the program begun under the voluntary plan entered into by steel producers to furnish certain steel products for the manufacture of ore cars, it will be necessary, and is practicable and appropriate to the successful carrying out of the policies set forth in said Public Law 395, that steel producers make further deliveries of steel products to such manufacturer after the expiration of the plan on February 28, 1949.

Therefore, the Secretary of Commerce, in accordance with subsections 2 (c) and 2 (f) of Public Law 395, 80th Congress, and with the approval of the Attorney General, hereby requests:

1. That steel producers participating in the abovementioned voluntary plan continue to make approximately 2,576 net tons of steel products available monthly, during the period March 1, 1949 through June 30, 1949, on certified orders from Canadian Car and Foundry Company, Limited; and that such products be made available in accordance with delivery procedures established under the said plan.

2. That Canadian Car and Foundry Company, Limited, place purchase orders hereunder only for the quantities and types of steel products established for it by the Secretary of Commerce; that it put identifying certifications on such purchase orders; and that it use all steel products obtained hereunder solely for the manufacture of ore cars for Union of South Africa Railways.

In the event that an amendment to the abovementioned voluntary plan extending its effectiveness beyond February 28, 1949, takes effect pursuant to appropriate legislation, this request will be superseded by said extended plan.

[To be signed by the Attorney General and the Secretary of Commerce upon approval.]

VOLUNTARY PLAN UNDER PUBLIC LAW 395, 80TH CONGRESS FOR ALLOCATION OF STEEL PRODUCTS FOR OIL TANKERS

NOTICE OF PUBLIC HEARING ON PROPOSED CONTINUATION AND OTHER MATTERS

Notice is hereby given that a public hearing will be held on Wednesday, December 8, 1948, at 2:00 p. m., e. s. t., in the Auditorium on the fifth floor of the National Archives Building Pennsylvania Avenue, between Seventh and Ninth Streets, NW., Washington, D. C., for the purpose of affording to industry, labor and the public generally an opportunity to present their views with respect to (1) the proposed continuation, beyond February 28, 1949, of the voluntary plan, under Public Law 395, 80th Congress, for the allocation of steel products for oil tankers, approved by the Attorney General on September 17, 1948 and by the Secretary of Commerce on September 21, 1948 and subsequently published in the FEDERAL REGISTER (13 F. R. 5868) and (2) several proposed changes in the operational details of the plan.

The proposed continuation involves two procedures. One would remain effective if the present authority contained in Public Law 395 is not extended. The other would become effective if the present authority contained in Public Law 395 is appropriately extended. The two procedures are represented by documents attached hereto as Exhibits A and B. They are in draft form and are subject to revision at or after the public hearing.

Under one procedure (Exhibit B), it is proposed that the Secretary of Commerce will make a request, with the approval of the Attorney General, for unilateral action by steel producers in continuing deliveries for the program during the six-month period of March 1, 1949 through August 31, 1949, in accordance with section 2 (f) of Public Law 395.

Under the other procedure (Exhibit A), it is proposed to amend the existing plan to provide that, in the event of statutory extension, the plan itself will automatically continue in effect during the seven-month period March 1, 1949, through September 30, 1949, which would round out the full third calendar quarter.

Exhibit A also contains the proposed changes in the operational details of the plan.
